### Learn from the best

Hear from experts in your future field. At La Trobe, you'll get up-to-the-minute knowledge, skills and advice from teachers who are industry heavyweights. Guest lecturers give you exclusive insights into the careers you'll enter and our researchers will show you how they're shaping the future. When you learn, it'll be with the latest technologies so you can hit the ground running.

### Get the career you want

Launch your career right here at La Trobe. Our wide ranging partnerships bring professional networks and opportunities to you, so you can build the work skills you need. On placements you'll create contacts in your industry, adapt to different workplaces and build your resume before you graduate. We teach you the skills employers want, so you get the career advantage to step straight into your first job and beyond.

### Build all your skills

Great thinkers see problems from every angle. At La Trobe, you'll develop every part of your skillset. You'll bring together diverse topics and fields to build all areas of your technical knowledge. And we don't forget about the human skills you'll need in any workplace, like innovation, leadership, critical thinking, creativity, communication and adaptability. You'll learn in the classroom, workplace and in the field. You could even study abroad. Graduate ready to think critically, laterally and creatively to solve real problems and debate the issues of our time.

# **Ten reasons** why choosing La Trobe **is a clever move**

When you choose La Trobe, you'll learn with expert teachers and the latest technology at your fingertips. You'll get an experience that sets you up for life with practical skills, industry connections and the chance to combine study and travel. Studying with us gives you more than a degree. Here are ten excellent reasons to choose La Trobe.

## Excellent teaching

Our expert teachers are industry heavyweights and world-leading researchers in some of the biggest issues of our time. They bring their passion to your study.

## Get industry experience while you study

Be prepared for that first job after uni. Do a placement with one of our high-profile partner companies or organisations. Many of our courses are also designed in collaboration with industry leaders.

## Discover our most innovative degrees

Learn how to use data in the Bachelor of Business Analytics or how to bring a human perspective to technology in the Bachelor of Humanities, Innovation and Technology. You could see how our Bachelor of Arts has changed to help you combine topics from humanities, business and science. There's always something new at La Trobe.

## Our Accelerator Program for budding entrepreneurs

If you've got an exciting idea for a start-up, the La Trobe Accelerator Program can help you make it a reality. Create your own career opportunities when you transform your business idea into reality.

## Aspire rewards you for helping your community

Giving back feels great. Our Aspire program offers an extra reward for the good you do with an early conditional offer into La Trobe.

## Become highly employable

Get the skills employers are looking for with our Career Ready Advantage program. Our graduates are highly sought after, with 87.8 per cent securing work within four months.[1]

## Choose from over 100 Bachelor's degrees

Broaden your knowledge, skills and career outcomes with our wide range of single and double degrees. Many of our courses let you tailor your study with specialist subjects and electives.

## Advanced facilities and technology

Study in excellent learning spaces across any of our seven campuses in Victoria or New South Wales. Think a world-class Sports Park, cybersecurity labs or fully-operational health clinics in hospitals. Our University City of the Future promise means we're always transforming our facilities.

## Choose from over 100 clubs and societies

Pick from over 100 student-run clubs and societies at La Trobe. Join as many as you like, meet incredible people with diverse interests and build your resume.

## Support for success

At La Trobe, you'll receive all the help you need to get the most out of your study. You can access learning hubs, workshops, one-on-one consultations and online support for all your burning questions.

1. Times Higher Education (THE), World University Rankings 2020; Consejo Superior de Investigaciones Científicas (CSIC), Ranking Web of Universities 2019

# Get the **Career Ready** Advantage

Worried about getting a job after uni? Get the skills employers are looking for with Career Ready Advantage, designed with industry partners such as PwC, Optus and the Commonwealth Bank. You'll graduate with experience, confidence and a career portfolio that's sure to impress.

## Plenty of support

As you prepare for your future career, we'll be there every step of the way with:

- support finding work through our on-campus recruitment service, with hundreds of casual and graduate opportunities advertised every year
- industry placements with our wide network of partner organisations
- opportunities to connect with potential employers through networking events, showcases and industry panels
- free LinkedIn Learning with more than 14,000 online courses to choose from
- industry mentoring with our high-profile alumni and partners
- career advice from our friendly Career Ready experts
- lifetime career support with ongoing access to online resources, workshops and networking.

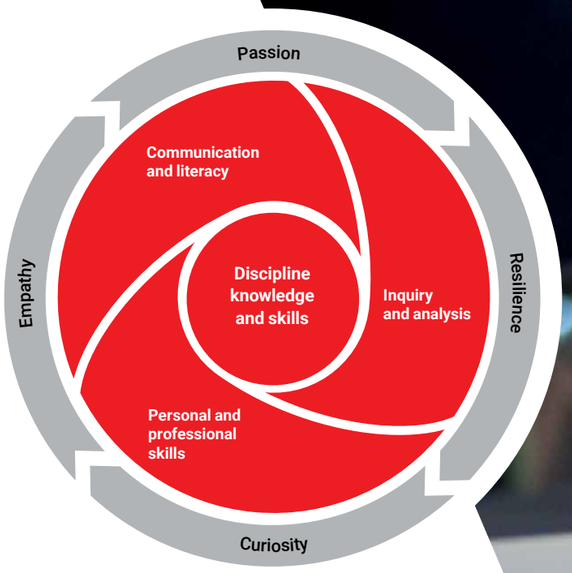
## Develop the skills employers want

La Trobe's Career Ready Advantage expands on the technical skills you learn in your course. It helps you develop the qualities employers are looking for: passion, empathy, curiosity and resilience. You'll also build:

- **communication and literacy skills** to confidently engage, build relationships and work effectively with diverse groups of people
- **personal and professional skills** to manage yourself and others in the workplace with integrity, adaptability and emotional intelligence
- **critical thinking and research skills** to interpret data and create innovative solutions for complex problems.

## Career Ready Advantage Award

With the Career Ready Advantage Award, you'll be rewarded as you develop industry-relevant skills during your degree and outside the classroom. Work towards a Silver, Gold or Platinum award and unlock opportunities to connect with industry and develop your leadership skills.



## Build your Career Ready Advantage

To get started, download the MyLaTrobe app or visit: **latrobe.edu.au/career-ready**

# La Trobe **Student Excellence** Academy

Are you an outstanding student, entrepreneur, sportsperson, artist or community activist? At La Trobe, we celebrate all kinds of clever. That's why we've created the La Trobe Student Excellence Academy – the first of its kind in Australia – to recognise and support our students who are outstanding in the areas of academic achievement, elite athletic achievement, cultural excellence, entrepreneurship and innovation.

The La Trobe Student Excellence Academy recognises the great things you've been doing both in and outside of class, like your achievements in ballet, football or music. Maybe you've been giving back to your local community, or coming up with ideas that could make a difference on a world scale. Perhaps you've excelled in your studies, even when things got tough.

Whatever you're excellent at, we'll recognise and support your hard work and commitment. Because clever is about more than just book smarts. It's about passion, courage and resilience.

As a member of our Excellence program, you'll meet high-achieving peers who are as passionate and dedicated as you. Together, you'll have access to exclusive events and opportunities while you study. You'll be challenged, inspired and supported as you build on your strengths and develop your leadership skills.

## Life-changing opportunities

As a member of the La Trobe Student Excellence Academy, you'll have access to exclusive and exciting opportunities.

- **Priority access to industry mentoring and work placements.** You could be mentored by the CEO of a major company, or gain an internship with partners like the Carlton Football Club.
- **Insights from community and industry leaders.** Get insider tips from high-profile leaders at our Leadership Insights Seminar Series.
- **Networking and educational events.** Receive invitations to special events throughout the year, and get priority invitations to our La Trobe public lectures, with past guests including Julian Burnside, Julie Bishop, Waleed Aly and Tim Costello.
- **Lunch with the Vice-Chancellor.** Take a seat at the table with the Vice-Chancellor to find out what it takes to succeed from La Trobe's most senior leader.
- **Tailored career support.** Develop your personal brand and learn how to launch a successful career by showcasing your outstanding talents and experiences to employers.
- **Represent La Trobe at national and international events.** Get inspired and expand your world view with once-in-a-lifetime opportunities. You could travel overseas to represent La Trobe at a United Nations conference, or present on a topic close to your heart at a national convention.

## How do I join?

If you're a high-achieving sportsperson, entrepreneur, community contributor, student or creative, you could be eligible to join La Trobe's Excellence program. For more information about this exciting opportunity and how to apply, visit: **latrobe.edu.au/excellence-academy**

# **Aspire** Early Admissions Program

If you've ever volunteered for charity or had a leadership role at school, you'll know what it feels like to help out the community. Giving back feels good. But did you know it could also help you get into uni?

Our Aspire Early Admissions Program rewards students who give back with early conditional offers into La Trobe. This means you'll know if you have a place at university as early as September.

With a minimum Aspire ATAR[1], early conditional offer, leadership opportunities and a raft of rewards, there's never been a better time to be an Aspire student.

## Giving you a head start

The Aspire program is designed to give you the tools and support you need to succeed at La Trobe and beyond. Aspire rewards you with:

- a conditional offer in September before your exams, holding a place in your dream course
- a minimum Aspire ATAR requirement[1]
- leadership opportunities, career development, networking and industry mentoring
- the opportunity to design solutions to the world's wicked problems alongside leading academics
- VCE revision lectures to prepare for upcoming exams
- a taste of university life at La Trobe with special on-campus events before the year begins
- exclusive access to sports and cultural events through partners such as Melbourne City FC, Melbourne Rebels, Carlton FC, NGV and the Australian Ballet
- discounts to the National Gallery of Victoria
- a student community of leaders, innovators and trailblazers.

## Scholarships

Each year, we offer 40 scholarships exclusively for high-achieving Aspire students. If you're successful, you'll receive $5,000 every year for the duration of your course up to four years (including Honours). An Aspire scholarship is another way of saying thank you for your contribution, giving you more time to focus on community engagement and personal development opportunities at La Trobe.

As an Aspire applicant, you'll automatically be considered for a scholarship if you have a minimum ATAR of 80.

## Eligibility

We know there's more to being a good student than marks alone. That's why we consider all types of community engagement, including:

- leadership in clubs, sport, performing arts or fundraising
- participation in social justice groups or school leadership
- involvement in community groups, religious or cultural events and activities.

## Important dates

Applications open
**1 June 2020**
Applications close
**31 August 2020**
Notification of outcome by
**20 September 2020**

## I-Aspire

Are you an Indigenous student with a passion for community? The I-Aspire leadership program supports you to thrive with early offers to La Trobe. It also offers a range of activities including academic boot camp, a cultural immersion program and networking opportunities.

Learn more: **latrobe.edu.au/i-aspire**

Aspire student Nash is committed to helping people like his brother Tate.

For Bendigo Aspire student Nash Kemp, his decision to study a Bachelor of Exercise Science/ Master of Exercise Physiology was a highly personal one. Not only does he have a passion for health and fitness, but he's also spent years accompanying his brother Tate to physical therapy at Melbourne's Cerebral Palsy Education Centre. Tate has lived with cerebral palsy since birth.

Nash started helping out at the centre when he was in high school, where he would look after its young clients and give their parents some time to rest.

'Being around the kids, it's always good to see them smile and be happy,' he says.

Tate and Nash have also raised a formidable sum of cash for the centre through their involvement in the Melbourne Marathon.

It was this community service that made Nash a perfect candidate for Aspire. The student said receiving the offer took some of the pressure of Year 12 off and allowed him to continue his community service.

'I still wanted to do really well, but I was able to know there was a little bit of a back-up plan if things didn't go accordingly.'

Nash sees himself working in a clinical setting after graduation, possibly one devoted to caring for children.

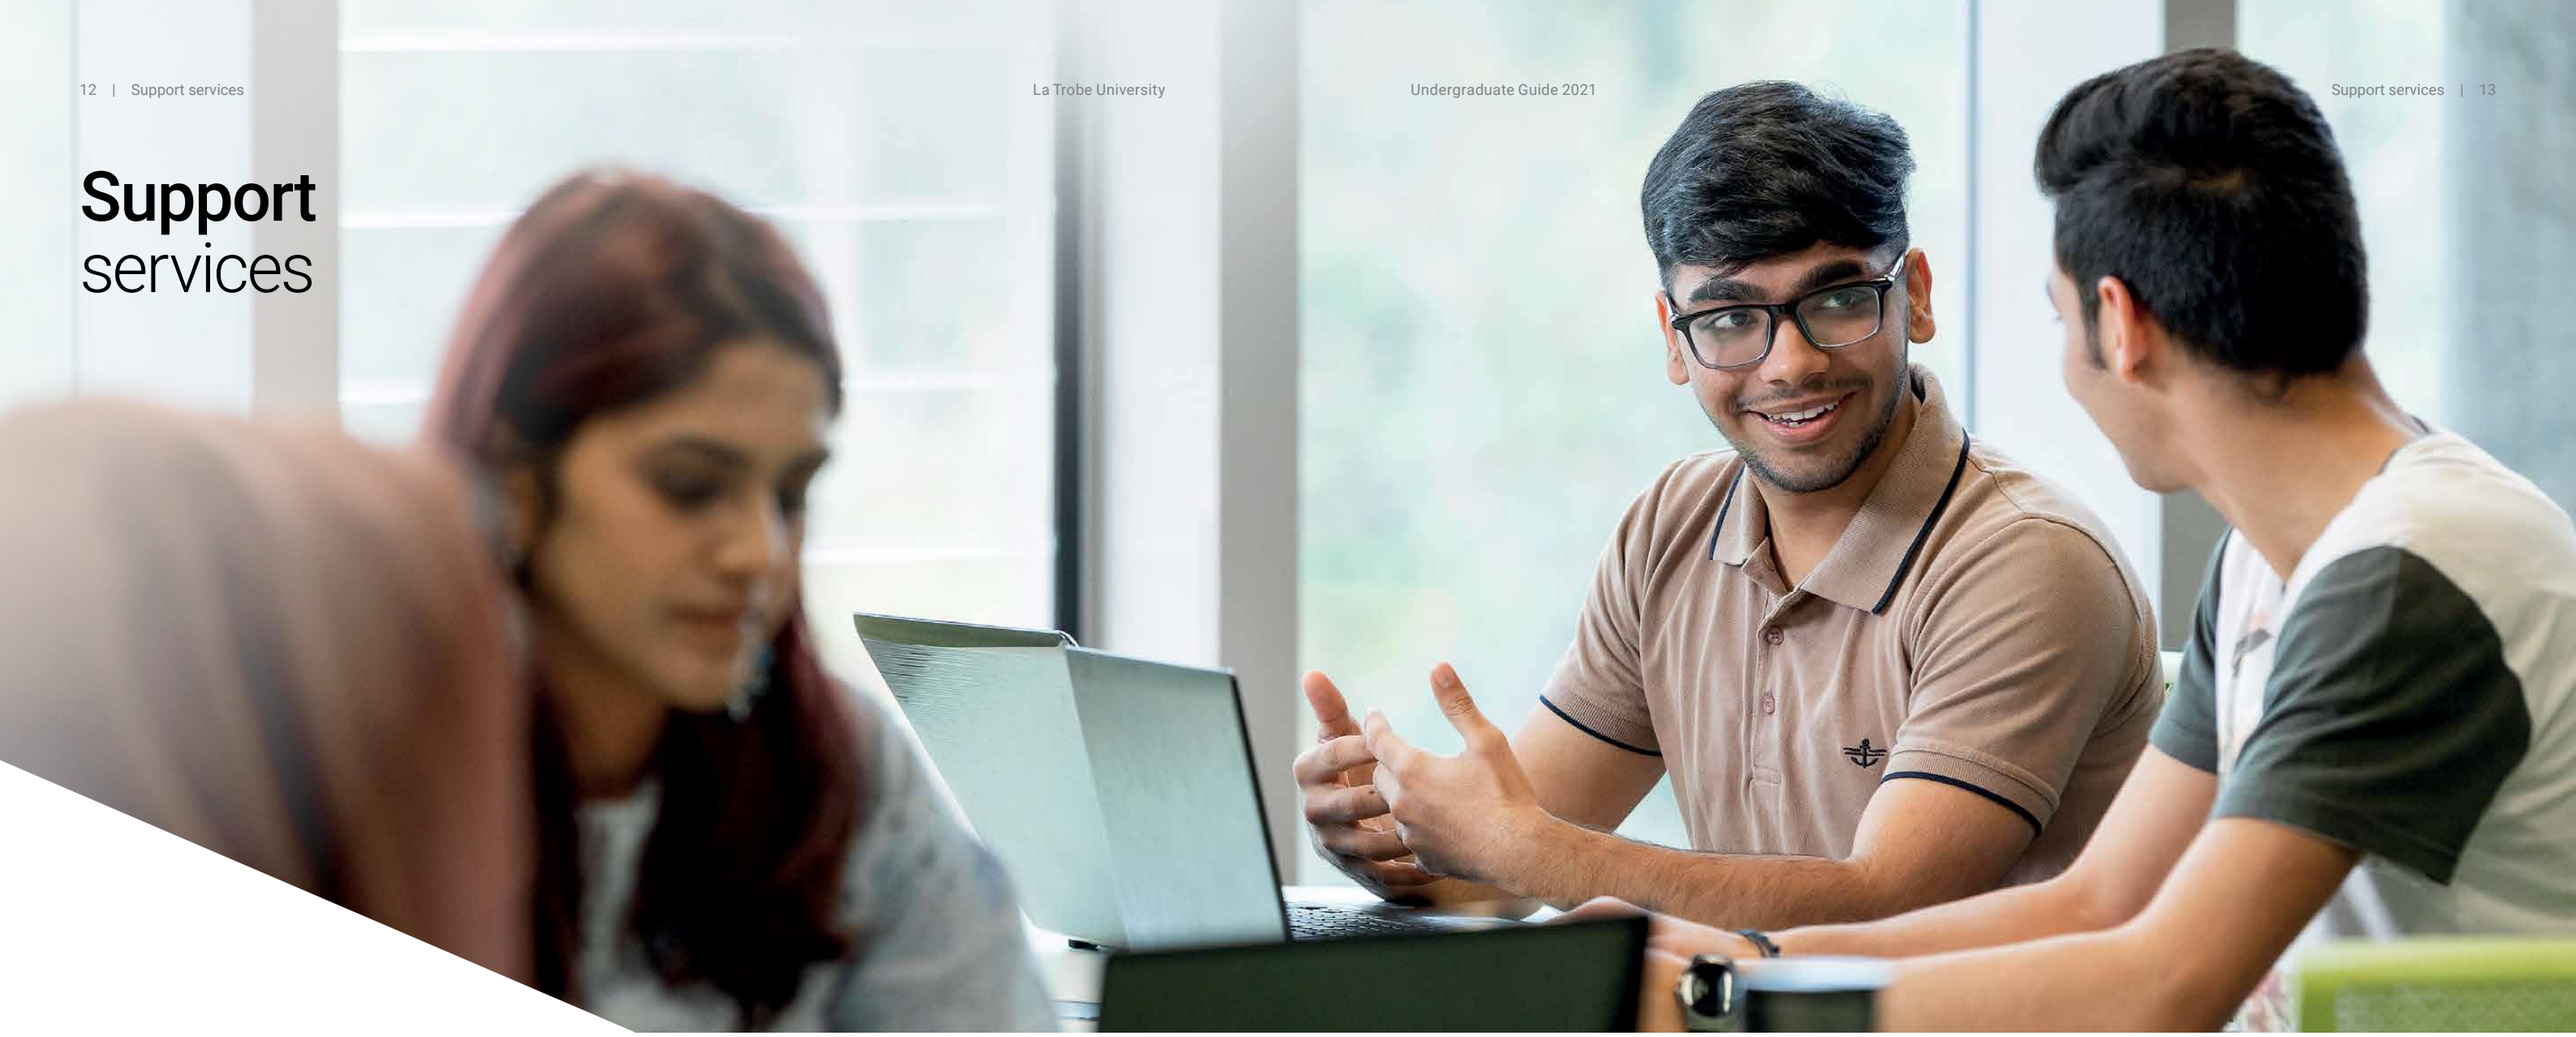
Tate says he's proud of his brother's decision to study Exercise Science and Exercise Physiology.

'He's grown up with it (cerebral palsy), so it's good to see he wants to make a difference in people's lives.'

But as for their physical therapy sessions together, Tate has some feedback.

'He sometimes pushes me too hard, but it's not too bad,' he jokes.

# **Support** services



Starting university is one of the most exciting times of your life. You're exposed to new people, fresh ideas and diverse cultures, not to mention a different learning environment. As a La Trobe student, you'll have access to our full suite of support services so you can be your best at uni. Check out our top picks.

## Learning Hub for academic skills support

Studying at university means learning new skills, like how to research for an assignment or work with people you've never met before. That's where our Learning Hubs and Peer Learning Advisers (PLAs) can help. Our PLAs are friendly, high-performing students trained to assist you with your study and assignments. You'll benefit from talking to a fellow student who faces the same pressures and concerns as you do. You can also get help from our expert librarians and Academic Skills and English Advisers, or check out our range of online Learning Hub resources.

Learn more:
**latrobe.edu.au/learning-hub**

## Counselling services

Taking care of your mental health is an important part of having a successful study experience. With good mental health, you'll find it easier to balance university, work and family. If you're facing personal challenges while you're at uni, our professionally trained counsellors can help. You can choose to receive counselling in person, by phone or via Zoom.

Learn more:
**latrobe.edu.au/counselling**

## Support to speak up

If you've seen, heard or experienced something that doesn't feel right, it's important to seek support. Speak Up is a program that provides confidential advice and support and helps you address unacceptable or concerning behaviour, including bullying, discrimination, harassment, family violence, sexual harm, stalking or unwanted contact. By speaking up, you're contributing to a respectful culture at La Trobe. We're always interested in what you have to say.

Learn more:
**latrobe.edu.au/speak-up**

## Financial assistance

Not only do you need to stay on top of assignments at uni, you also need to remain financially stable. La Trobe offers a range of financial support which, if you're eligible, could help to relieve any stress about money you may be experiencing. We also offer scholarships for a variety of situations including:

- financial disadvantage
- regional or rural background
- educational disadvantage
- disability or ongoing medical condition
- personal hardship
- significant caring responsibilities.

Learn more:
**latrobe.edu.au/lowincome**

## Support to be career ready

Start thinking about your career from your first day at La Trobe. Our Career Ready Advantage program helps you develop the skills employers are looking for through online courses, work placements, volunteering and workshops. Our career advisers give you the support you need with everything from resume and interview advice, right through to connecting you with potential employers.

Learn more:
**latrobe.edu.au/career-ready**

## Indigenous support

At La Trobe, we acknowledge that our Australian campuses stand on the lands of many traditional custodians. We pay respect to Elders past, present and emerging. If you're an Indigenous student, you can access culturally sensitive support throughout your application process and studies. We also provide Indigenous counselling, financial support, scholarships and other support services.

Learn more:
**latrobe.edu.au/indigenous**

## LGBTIQA+ support

At La Trobe, we celebrate diversity and understand the challenges you may face, no matter your background. We're proud of our vibrant LGBTIQA+ community and want you to feel safe, valued and supported. As a La Trobe student, you'll have access to dedicated LGBTIQA+ counsellors, social groups and many other supports and services.

Learn more:
**latrobe.edu.au/lgbtiqa-support**

## Disability support

If you have a medical condition, mental health condition or a disability you can talk with a disability adviser to get support with managing your studies. Advisers can help you get adjustments to your assessment and academic requirements, offer advice on managing your study and provide referrals to other uni support services.

Learn more:
**latrobe.edu.au/disability**

## Multifaith chaplaincy

Each of our campuses provide chaplains who can help you join local churches and find friends of the same religious faith. As a Muslim student, you can join our university Islamic society and find key information about everything from halal food to prayer facilities in our Muslim Student Guide.

Learn more:
**latrobe.edu.au/chaplaincy**

## Refugee support

If you're from a refugee background and hold a Permanent Humanitarian Visa or Australian citizenship, we have support services to assist you. Our support officers can answer any questions you might have about uni and help you access financial assistance.

Learn more:
**latrobe.edu.au/refugee**

As a student at La Trobe, you'll never have to go it alone. Find out more about our range of support services:
**latrobe.edu.au/support**

# Study Abroad

## International sustainability experience

In this subject you'll explore the interconnection of place, society and the environment, culminating in a two-week overseas field trip. Whatever your financial situation, from January 2021 you could be one of our students travelling to locations across the Asia-Pacific region.

Learn more: **latrobe.edu.au/ise**

Want an overseas study experience in 2022? Through La Trobe Abroad, you can experience a semester or a few weeks at one of our 150+ international partner institutions while continuing to earn credit for your degree. Sound good? Here are a few more reasons to get you inspired.

## You'll be immersed in a different culture... and have fun

Traveling across Europe, studying among ancient Roman ruins and landing a spot in a Dolce & Gabbana campaign. It's fair to say Natalie made the most of her semester exchange at Università Cattolica di Sacro Cuore in Milan, Italy.

'University in Italy is so different to Aussie universities. There is a historical and cultural difference. My university was built on top of an old monastery and ancient Roman ruins, which were still visible in some classrooms.'

One day, Natalie arrived back from a sojourn in Florence with her brother, just in time for the final day of Milan Fashion Week.

'We spotted a big crowd in the middle of Corso Vittorio Emanuele. I said we should wait around – maybe a famous designer will come out. And then somebody mentioned Stefano Gabbana's name.'

Out of the crowd three models emerged, laughing and posing for the cameras. Suddenly, the photographer and models directed Natalie and her brother into the scene.

'For the next half hour, we had fun, posing and dancing around like a traditional Italian fiesta. They told us we'd be featured in their 2019 campaign. At the end, we could not believe what had just happened.'

**'Exchange is a once in a lifetime opportunity that allows you to meet people who'll be your friends for life. You'll see new places, eat new foods and learn things about yourself and the world we live in. If I could do it again, I would.'** — Natalie

## You'll expand your mind as well as your horizons

How do you become a war correspondent? That's what fourth-year Bachelor of Laws/Bachelor of Media and Communications student Elliot Goodyer planned to find out. While on semester exchange at Chulalongkorn University in Thailand, an opportunity presented itself.

'My Advanced Reporting ajarn (professor) Mick lent me a book called *55 Days: The Rise and Fall of Saigon*. It turns out the author, Alan Dawson, was an old friend from the Bangkok Post who still lives here,' says Elliot.

After class one day, Elliot and Mick travelled to a coffee shop to meet Alan.

'We spoke for two hours about mortar explosions, reporting from the trench and surviving rocket barrages with his wife and children. His crowning achievement is that he was the first person in the world to broadcast that the South Vietnamese Army had surrendered, and the Vietnam War was over.'

## You'll gain confidence and valuable international experience

La Trobe Nursing student Gemma Black travelled to Sweden's Jonkoping University where she experienced an in-depth placement at a local hospital.

'I was placed in emergency care with the most incredible preceptors who gave me so much of their knowledge. They even organised a day with the ambulance, which was an incredible experience. Because of that, I'm thinking of going back to university in five years to study postgraduate paramedicine.

'I'm so grateful for this experience as it has given me so much confidence, exposure, knowledge and experience that I'll take home to complete my final year of my nursing degree.'

## You'll have access to financial support

Keen to go overseas but not sure you have the funds? We offer a $2,000 mobility grant for eligible students going on their first semester of exchange. You can also apply for a range of mobility scholarships that award up to $7,000. Otherwise, you may be eligible for the interest-free OS-HELP loan or continued Centrelink payments for extra financial support.

You'll also be covered by La Trobe's health and travel insurance for the duration of your exchange for free.

## Interested? Find out more at our information sessions or get in touch

Information sessions are incredibly useful and focus on helping you get your application in before the final deadline.

You may have some questions unique to your situation, so make sure to speak with a La Trobe Abroad adviser at your campus or submit your enquiry online at: **latrobe.edu.au/abroad**

## Overseas Short Programs

You don't have to be away for a full semester to experience exchange, as Lainie explains.

'I couldn't commit to the time and cost of a full semester. At Orientation, I found out programs could be as short as two weeks and I was eligible for funding. At that point, I knew the opportunity was too good to pass up.'

Get to know your options for Overseas Short Programs at: **latrobe.edu.au/short-programs**

## Gain a global outlook on tourism and hospitality

Delivered in partnership with Sheffield Hallam University, the Bachelor of International Tourism and Hospitality Management offers you the opportunity to study for a year in the UK.

Learn more on **page 48.**

# **Scholarships** can change **lives**

We believe everyone deserves the chance to succeed, so we're helping more people access education with our huge range of scholarships. With access to education comes possibilities, and a good opportunity could change your life.

Our scholarships don't just reward your academic or sporting performance. We also recognise your volunteer work or your contributions to the community. And if you're having financial difficulties or you've experienced disadvantage, our scholarships offer a helping hand.

Some of our scholarships could help pay your HELP loan and costs of living. Others provide funding to help with your accommodation, uni start-up costs or other expenses. With less financial stress, you can focus on your studies and perform at your best.

Our scholarships don't just offer financial support. They give you access to mentorships, paid or unpaid work experience and industry contacts. There's also the chance to become a paid university ambassador.

You can also access exclusive scholarships if you're from a regional area, an Indigenous Australian, living on campus, studying at a regional campus or enrolled in a particular course.

Whatever your situation, with a La Trobe scholarship behind you, you'll be supported to achieve your best.

## How to submit a great scholarship application

It might look like a lot of work, but like anything good in life, the rewards are worth it. Just follow these tips and you'll be well on your way.

- Apply early – this gives you time to make a really good application.
- Read the requirements first to make sure you're eligible – it could save you a lot of tears later.
- Answer all questions in full.
- Use formal language.
- Outline your personal circumstances and how they relate to the scholarship/s.
- Proofread your application, then get someone you trust to look it over too.
- Make sure you've included all the supporting documentation.
- Write a detailed personal statement and keep it relevant to the scholarship. Scholarships are highly competitive, so your statement is your chance to share your personal story and what you want to achieve.

All scholarship applications are completely confidential, so your privacy is protected.

## Access Scholarship

If you're starting uni for the first time and you've experienced disadvantage or financial hardship, La Trobe's Access Scholarship is for you.

You may be eligible to get $3,000 for each year of your full-time course to help you out with your new uni adventure.

Learn more:
**latrobe.edu.au/access-scholarship**

## Find a scholarship

There are so many scholarships, it's hard to know where to start. You might be eligible for the:

- La Trobe Excellence Scholarships
- Regional Benefits Program
- La Trobe Access Scholarships.

Interested in applying for a scholarship? Learn more at:
**latrobe.edu.au/scholarships**

Each year we give out...

**500+**
La Trobe scholarships

**100**
La Trobe Access Scholarships

**$3M+**
In scholarships to people just like you

# Managing **costs**

University costs include the contribution you need to pay towards the overall cost of your course, a compulsory administration fee, money for textbooks and equipment, and living expenses.

## Course costs

### Commonwealth Supported Places

The Commonwealth Government subsidises undergraduate uni places for all Australian students, so you only have to pay part of the cost of your course. These are known as Commonwealth Supported Places (CSPs).

Learn more:
**latrobe.edu.au/costs**

### Student Services and Amenities Fee

La Trobe University charges a compulsory Student Services and Amenities Fee (SSAF) in two half-year periods.

For more information, visit:
**latrobe.edu.au/ssaf**

### Textbooks

Textbook prices can vary widely, so to help with expenses, all prescribed textbooks are available from the La Trobe Library. Many are also available from second-hand bookshops.

Find out more:
**latrobe.edu.au/library**

## Financial assistance

### HELP

You may be eligible for a loan via the government's HELP scheme, which allows you to borrow the amount of your student contribution and pay it back once you're earning over a certain amount.

To learn more, visit:
**studyassist.gov.au**

### Student loans

If you need help covering the cost of books, equipment, computer software and hardware, or even work placements, you can apply for a student loan.

To find out if you're eligible, see:
**latrobe.edu.au/loans**

# A **campus near you**

Get the benefits of a big university, close to home. At La Trobe, we believe everyone should get to study at a globally-renowned university, wherever you choose to live. The solution? We've got campuses across Victoria and New South Wales, so you can match your study with your lifestyle.

## **Metro** campuses

### Melbourne Campus

If you're into parkland beauty, a vibrant campus culture filled with cafes and shops, and a multi-level library, then explore La Trobe's Melbourne Campus. It's one of Australia's largest. You'll have access to leading facilities, including our new tech and business labs, the La Trobe Institute for Molecular Science and our very own Wildlife Sanctuary – and we're always looking to the future for what comes next.

**26,000+** students

Learn more:
**latrobe.edu.au/melbourne**

### City Campus

Already completed your Bachelor's degree?
Take your study to the city at our newly-expanded campus in the heart of Melbourne's business district. You might choose to move your career forward with a postgraduate course in business, health or law. At our City Campus, located on Collins St, you'll get a personalised study experience with access to modern facilities and resources.

**900+** students

Learn more:
**latrobe.edu.au/city**

**Legend**

- Parking
- Tram
- Train
- Bus
- Bike friendly
- Cafes
- Clubs and societies
- Sports
- On-campus accommodation

### Sydney Campus

Our $10 million Sydney Campus is in the thick of city action. Based in the CBD, you'll be close to work and internship opportunities. When it's time to wind down, you're a short walk away from Sydney's premier shopping spots, cafes and cultural icons. Join a friendly and supportive community, and meet students from over 30 countries while participating in fun social activity clubs. Looking for a pathway into La Trobe University? We also offer diplomas at our Sydney Campus, helping you transition into university life.

**700+** students

Learn more:
**latrobe.edu.au/sydney**

### La Trobe Online: study that fits your lifestyle

At La Trobe Online, we understand life can get busy. That's why we offer flexible online learning that allows you to fit study around your other commitments – whether that's work, family or social life. Our online courses and subjects are designed in collaboration with our academic staff, so you'll benefit from their expertise and real-world experience. Choose from a range of Bachelor's degrees in business, IT, education or health.

Explore our range of online degrees:
**latrobe.edu.au/online**

### La Trobe and Chisholm bring degrees to Melbourne's south-east

If you live in Melbourne's south-east, La Trobe has now come to you. We've joined forces with Chisholm Institute to offer a range of La Trobe degrees and pathway courses in Melbourne's south-eastern suburbs. You could study accounting, community services, information technology or nursing.

# Study in **regional Victoria**

Enjoy the unique benefits of studying at a La Trobe regional campus, with a personalised study environment and great career opportunities. Most importantly, when you walk onto any La Trobe campus, you'll have access to the same academic, research and industry expertise across all our locations.

## Regional Benefits Program

If you receive an ATAR of 80 or above, you'll be eligible for a range of exciting benefits exclusive to regional students[1]. These include:

- guaranteed entry into your chosen course (subject to meeting all course requirements and prerequisites) at our Bendigo, Albury-Wodonga, Mildura or Shepparton Campus
- a scholarship of up to $5,000 a year
- an overseas study grant
- guaranteed access to a Work Integrated Learning opportunity
- access to workshops and seminars that prepare you to be a leader in your field.

## **Regional** campuses

### Bendigo Campus

Enjoy the best of the city and the country at our Bendigo Campus. You'll join more than 4,500 students at La Trobe's second-biggest campus, and you'll be studying at the region's largest provider of higher education. You can take your pick from more than 50 degrees, and with the city centre nearby, it's the perfect place to live and learn. We've recently given the campus a $50 million upgrade, so you'll benefit from leading learning facilities as you prepare for your future career.

**4,500+** students

Learn more:
**latrobe.edu.au/bendigo**

### Shepparton Campus

Become part of a rich sporting and cultural community at our Shepparton Campus, located in the beautiful Goulburn Valley. Study in the heart of Shepparton with high-standard teaching and study facilities including our clinical learning unit with advanced teaching technologies. You'll get a personalised study experience thanks to our connections to the local community and industry, and gain hands-on experience through industry placement opportunities.

**700+** students

Learn more:
**latrobe.edu.au/shepparton**

**Legend**

- Parking
- Bus
- Tram
- Bike friendly
- Train
- Cafes
- Clubs and societies
- Sports
- On-campus accommodation

### Albury-Wodonga Campus

Get a personalised learning experience with friendly staff and access to modern facilities at our Albury-Wodonga Campus. You'll benefit from our connections with local industry leaders and gain hands-on experience through our Work Integrated Learning program. Plus, you'll join a close-knit community against the backdrop of the Murray River, snowfields and historic towns, with plenty of employment, cultural and sporting opportunities.

**700+** students

Learn more:
**latrobe.edu.au/aw**

### Mildura Campus

Mildura is a great place to live, study, work and play. Be a part of a strong arts and agricultural community, with nearby access to nature's playground at Mungo National Park and the Murray River. We've got close ties to the local community through industry partnerships and placement opportunities, which means you'll get a personalised learning experience with promising employment outcomes.

**500+** students

**latrobe.edu.au/mildura**

1. An ATAR of 85 is required to access the Regional Benefits Program for the Bachelor of Applied Science and Master of Physiotherapy Practice and Bachelor of Dental Science (Honours). Bachelor of Biomedical Science (Medical) is not able to access the Regional Benefits Scholarship fund. However, students are eligible for the associated benefits that come with the Regional Benefits Program where applicable. To apply for the Regional Benefits Program, you must have completed Years 11 and 12 at a school in an area classified by the Australian Standard Geographical Classification Remoteness Area (ASGC-RA) as RA2 to RA5. See **latrobe.edu.au/regional-benefits** for more eligibility information.

# Clubs and societies

Making friends is so much easier when you've got things in common, and that's where university clubs and societies come in. But that's not the only reason to join or start a group.

At La Trobe, we have over 100 clubs spanning interests like yoga, coding, politics, religion, anime, sustainability, sport and more. Kick back at a social event. Discover a new interest. Meet incredible, diverse people. Form lifelong friendships. Learn new skills. Boost your career.

'I came to uni pretty much on my own, so joining a club was a way for me to make friends with similar interests. Having friends around you on campus makes an astounding difference to your mood. I love the board game days, it's a good way to get involved with games that aren't "mainstream" with lots of friendly competition and fun.'

— Madison, La Trobe University Games Club (Bendigo)

'A PhySoc inter-university physics careers night helped me network with students from other universities, as well as meet and form connections with academic and industry physicists. PhySoc is also a social club where students can meet up and have fun playing video games or eat cheap dumplings on campus.'

— George, Physics Society

'Although there are opportunities to make friends in tutorials and around campus, joining a club has been the best way to meet like-minded people at university and forge longer-lasting friendships. As a member of the book club, I've loved being exposed to new literature and having the opportunity to discuss it with others in a comfortable environment.'

— Imogen, Book Club

'As club president, I've learned how to become a leader and fulfil my dreams of positively reaching others by working as a team. I've developed independence and organisational skills that I take with me to work.

— Chetna, A Look Into African Society (ALIAS)

'I've really enjoyed learning about gardening: how to plant seeds, make compost, prepare soil before planting and propagate plants. I've also really liked meeting people from different countries, of different ages and ethnic backgrounds. It's a great way to have new experiences and learn and grow as a person.'

— Lilian, The Patch

# **Choose your path** to La Trobe

Picture the perfect course. Now imagine knowing for sure you'll get there somehow. Maybe you're a Year 12 student finishing up high school, or maybe you haven't studied in a while. Either way, you know you've got options.

There's more ways to get into university than you think. You can get in with your ATAR alone, or combine it with community service and be rewarded with a conditional early offer through our Aspire Early Admissions Program. You can get a head start by studying two first-year uni subjects through VCE Plus while still at high school. Or, you could complete a Diploma of Tertiary Studies and gain direct entry into a range of La Trobe degrees.

Whatever your story, remember there are plenty of ways to get into your dream course.

Don't forget to consider how Aspire (page 10) and VCE Plus can help you with getting into your dream course.

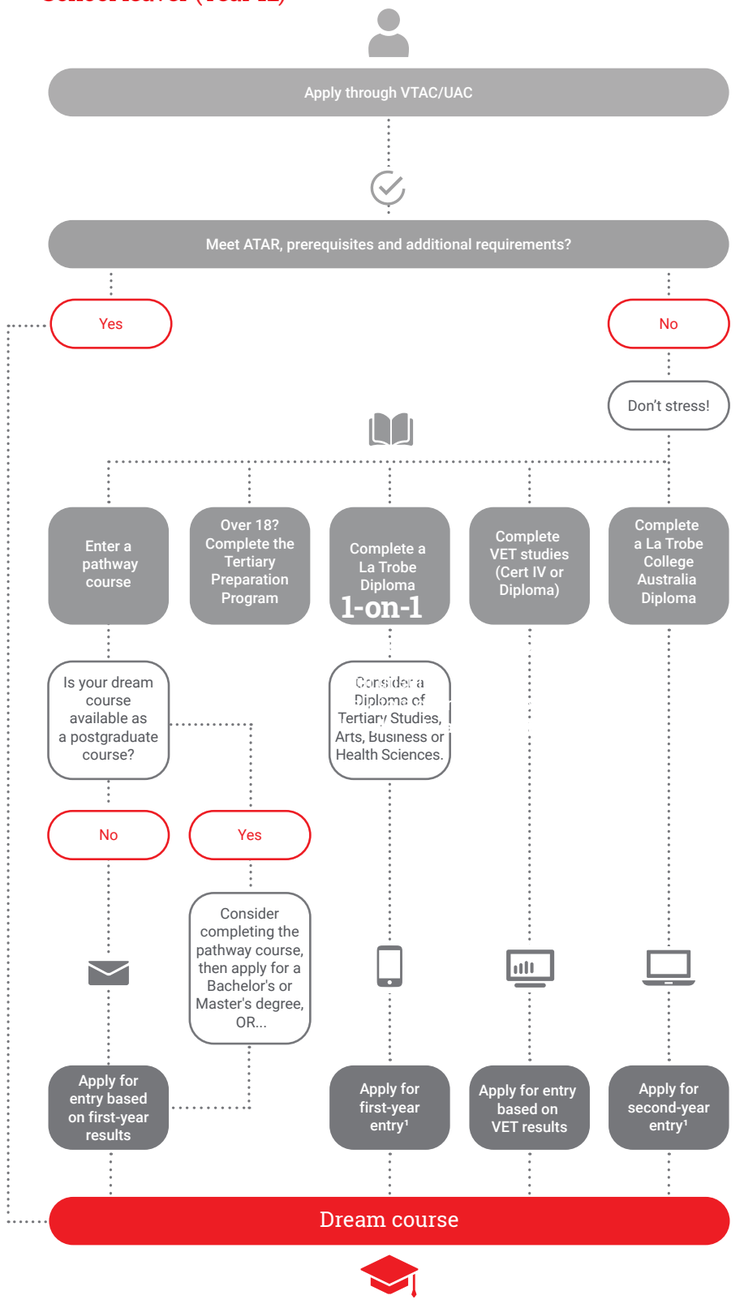
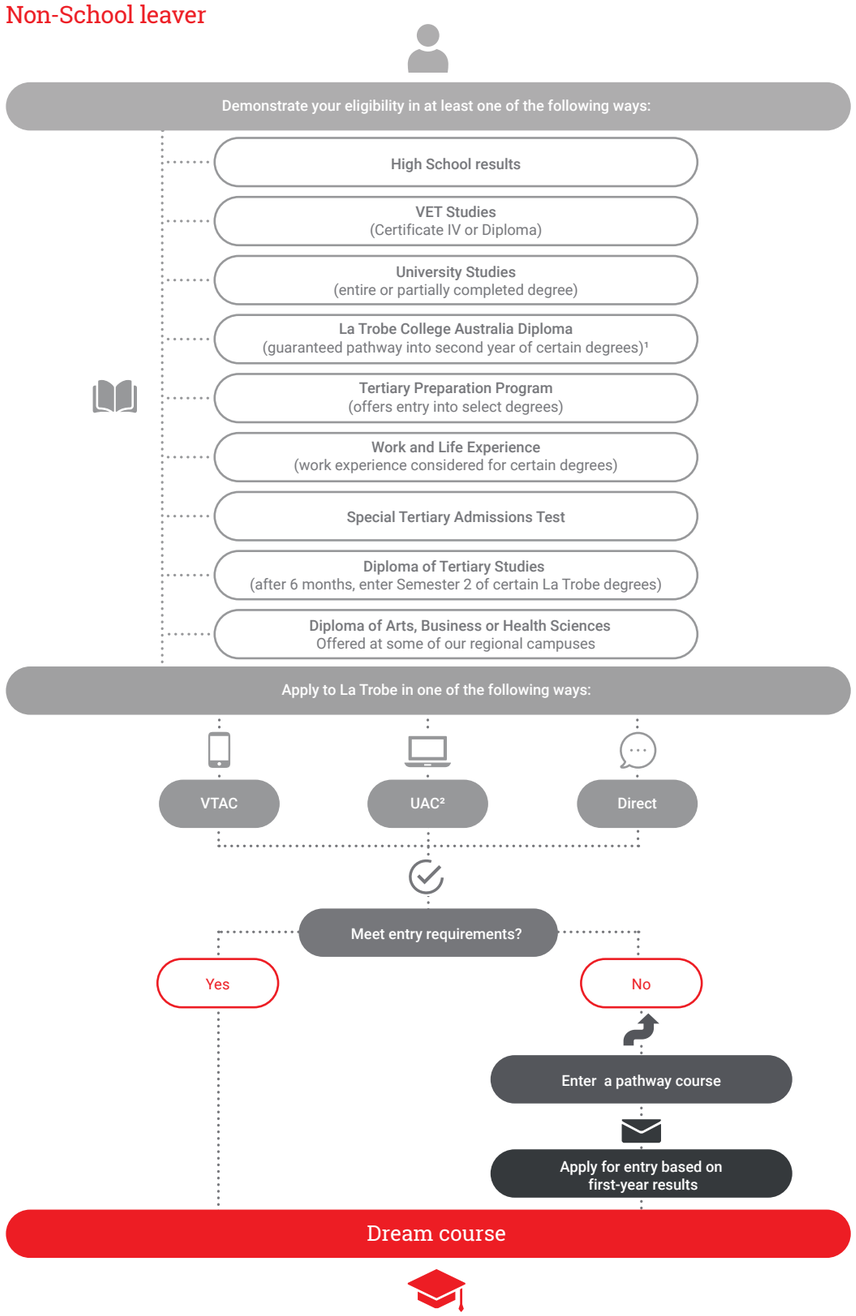
## School leaver (Year 12)



## Non-School leaver



## 1-on-1 consultations

Still unsure?
Talk to a course advisor at
**latrobe.edu.au/consultation**

1. Subject to application for eligible advanced standing
2. Courses offered at Mildura and Albury-Wodonga are available in both VTAC and UAC. Application for Sydney is through UAC only.

# Accommodation – your **home on campus**

Imagine waking up and realising there's only 15 minutes until class. Momentary panic is replaced by a sigh of relief as you remember it's literally within walking distance.

La Trobe is more than just a place to study. You can also be part of a supportive, social community when you live at Melbourne, Bendigo or Albury-Wodonga Campus. Develop lifelong friendships and make wonderful memories with food truck days, open mic nights, home cinemas, gaming rooms, gyms, computer labs, chill-out areas and so much more. To top things off, most of it is free, and you know you're getting the absolute most out of your life at La Trobe.

Whether you're looking for a quiet place to study or a vibrant, social atmosphere, we've got accommodation options to suit you. For a social vibe, you might choose a residential college. Or maybe a self-contained unit is more your style. There are lots of affordable and convenient options available. It's just a matter of finding the perfect fit.

If you're living away from home for the first time, you might be wondering how you'll go. Don't worry, we've got you covered. You'll feel at home in no time with the help of our dedicated support staff, and you'll even have access to free academic mentoring and a textbook borrowing scheme. There's 24/7 help available, plus a range of events and wellbeing programs to help you stay happy and healthy.

And what about food? With cooking classes, a 'free food' pantry and dining hall dinners, you've got plenty of options.

We can't stress enough how good this is. And just think of the money and time you'll save on transport. Plus, with home just minutes away, you're in a position to make the most of everything else that's on campus. Like all the amazing events and facilities.

Find out more:
**latrobe.edu.au/accommodation**

## University City of the Future

Over the next decade, we're evolving our 235-hectare Melbourne Campus to bring you the University City of the Future. It's already started – with our new student accommodation and world-class Sports Park, ready for you to enjoy. Get the best facilities on a campus where you live, learn, work, socialise and stay healthy.

Find out more:
**latrobe.edu.au/future-city**

## New apartments

Our $100 million Melbourne Campus student accommodation will be open from mid-2020.

You could be one of the first to live in the two sustainable and environmentally-conscious buildings. Move into one of the 624 additional spaces, including single, four, five and six bed apartments.

It's all part of the University City of the Future, where we're transforming our Melbourne campus and bringing you the latest and best new precincts.

# How to **apply**

So, you've decided to go to uni. Congratulations on taking the first big step. Now it's time to prepare to apply.

We've broken the process down into seven easy steps.

## 1. Find your dream course

A quick look through the Undergraduate Guide is a great place to start.
To find out more details, take a look at our website: **latrobe.edu.au/courses**

Want to speak to someone about our courses? Call **1300 135 045**

## 2. Check your course requirements

Make sure you understand your course's entry requirements. These include English language requirements or any additional prerequisites.

Year 12 students: check out your course's ATAR selection rank from the previous year.

Find your course at: **latrobe.edu.au/courses**

## 3. Check entry schemes

You may be eligible for a special entry program:
**latrobe.edu.au/pathways**

## 4. Check your pathway options

There's always more than one way to get into uni if your Plan A doesn't work out.

Make sure you understand the different pathways available to get you where you want to be: **latrobe.edu.au/pathways**

Or, for more personalised information, call one of our friendly Future Students Centre staff on **1300 135 045**

## 5. Visit us

It's important to get a feel for the campus you're interested in studying at.
Come and experience a taste of life at La Trobe: **latrobe.edu.au/events**

Or get in touch with any questions: **latrobe.edu.au/undergrad**

## 6. Apply

Current Year 12 students: apply through VTAC or UAC[1]

Non-Year 12 applicants: you can apply through VTAC, UAC[1] or directly:
**latrobe.edu.au/apply-direct**

## 7. Accept your offer

Congratulations. If you've received an offer, go right ahead. Accept your place and enrol online. Welcome to your new life at La Trobe.

Didn't get the offer you were expecting? Don't stress, there are plenty of options available to you. Check Step 4 again or reach out to one of our staff members on **1300 135 045**

1. Courses offered at Mildura and Albury-Wodonga are available in both VTAC and UAC. Application for Sydney is through UAC only.

# Courses at a glance

Curious to find out what you could study at La Trobe? Already know what you're looking for? Find the course of your dreams below.

Please note: The ATARs published in this guide are correct as of round 1 2020. For current ATAR information, find your course at: **latrobe.edu.au/courses**

# Arts, social sciences and communications

The world needs clever thinkers. People who collaborate and challenge conventional wisdom. People who know how to express themselves clearly and confidently. With a degree from La Trobe, this could be you.

**Human skills for success**

Human skills help you thrive in any workplace. At La Trobe, you'll develop your ability to listen, empathise and think critically. Communicate your ideas. Work with linguistically, culturally and ethically diverse people. Create opportunities wherever you are.

**Do what you love**

Explore the subjects that interest you and be surprised by the connections you find. Maybe you'll work in book publishing with an insight into gender and literature. Perhaps you'll end up on an archaeological dig, using your sustainability expertise to protect the environment. You might even shape artificial intelligence with a philosophical knowledge of what it means to be human.

**Prepare for careers you haven't even considered**

Choose from a huge range of general and specialist degrees, majors and minors. Combine topics that are perfect for you. Specialise in targeted areas or keep your options open, graduating with a broad set of skills. Whatever you choose, you'll learn the skills to adapt, think creatively and embrace change, building an exciting career tailored just for you.

# Arts, social sciences and communications

## Double degrees

Combine your interests and broaden your skills when you study two degrees at once.

### Bachelor of Arts/Bachelor of Health Sciences — latrobe.edu.au/azahts

Study health from a social perspective. Choose to major in health and medical sciences, public health or rehabilitation counselling. Your arts subjects may include gender studies, anthropology, archaeology and philosophy as they relate to health and health sciences. Graduate ready to find work in public health, planning and counselling.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL; and a study score of at least 20 in one of Biology, Chemistry, any Mathematics, Physical Education or Physics.[1]

**MEL** (AZAHTS) — Sem 1, Sem 2

**ATAR range**

66.10– 75.30 — 4 years

### Bachelor of Arts/Bachelor of Science — latrobe.edu.au/szas

Build your degree around your interests in the arts and sciences. Choose subjects like anthropology, languages, archaeology or philosophy and combine them with science subjects like environmental geoscience, zoology, genetics, chemistry, physics and microbiology. Graduate ready to find a career in environmental science, research, health and business.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL; and a study score of at least 20 in any Mathematics.[1]

**MEL** (SZAS) — Sem 1, Sem 2

**ATAR range**

71.75– 96.00 — 4.5 years

### Bachelor of Business/Bachelor of Arts — latrobe.edu.au/lzbab

Understand business and the wider world. Learn skills in critical analysis, problem-solving and communication. Study business disciplines such as accounting, economics, finance, management and marketing. Combine your business knowledge with humanities, research and communication skills. Graduate with highly sought-after skill sets for the business, community, commerce and government sectors.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.[1]

**BEN** (LZBAB) — Sem 1, Sem 2
**A-W** (LZBAW) — Sem 1, Sem 2
**MIL** (LZBAM) — Sem 1, Sem 2
**SHP** (LZBAP) — Sem 1, Sem 2

**ATAR range**

NP — 4 years

### Bachelor of Commerce/Bachelor of Arts — latrobe.edu.au/lzca

Combine arts with a broad understanding of business. Major in accounting, economics, finance, management or marketing. Learn research, critical thinking, communication, problem-solving, digital literacy and teamwork. Choose from arts subjects including languages, literature, history, screen, philosophy and politics. Graduate with a competitive edge in the workforce.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.[1]

**MEL** (LZCA) — Sem 1, Sem 2

**ATAR range**

82.60– 91.15 — 4 years

### Bachelor of Commerce/Bachelor of International Relations — latrobe.edu.au/lzcir

Qualify for a professional position in accounting, economics, finance, marketing or management and gain an international perspective. Learn to apply commercial skills to the management of international institutions, multinational companies, non-governmental organistions (NGOs) and public service agencies. Graduate ready for your career in international business, NGOs and the public service.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.[1]

**MEL** (LZCIR) — Sem 1, Sem 2

**ATAR range**

81.75– 84.55 — 4 years

1. See online for a full list of entry requirements, including non-Year 12 students

**CAR** Carlton College of Sport **FTN** Frankston **BWK** Berwick Campus location and course code Course intake Course duration
La Trobe University pathway La Trobe College Australia pathway

### Bachelor of Laws/Bachelor of Arts — latrobe.edu.au/lwlwa

Challenge the way you think. Build your expertise in areas like politics, languages, sociology and screen, media and performance. Get hands-on experience through work placement programs. Study the compulsory law subjects required to apply for admission to the legal profession in Victoria. Graduate ready to start a career in areas like entertainment law, publishing, public relations, international business, diplomacy, management or government.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.[1]

**MEL** (LWLWA) — Sem 1, Sem 2
**BEN** (LWLATB) — Sem 1

**ATAR range**

90.00– 97.60 — 5 years

### Bachelor of Laws/Bachelor of International Relations — latrobe.edu.au/lwlint

Prepare for an international career. Combine knowledge of international politics, economics and diplomacy with the study of Australian and international law. Study the compulsory law subjects required to apply for admission to the legal profession in Victoria. Take electives in law, sociology, the global economy, diplomacy, modern political thought, social change and conflict. Graduate ready for a career in international law, business or government.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.[1]

**MEL** (LWLINT) — Sem 1, Sem 2

**ATAR range**

92.05– 96.45 — 5 years

### Bachelor of Laws/Bachelor of Media and Communication — latrobe.edu.au/lwlmc

Gain an innovative legal education with practical insights into the media. Study the compulsory law subjects required to apply for admission to the legal profession in Victoria. Study electives like international advocacy, clinical legal education, mediation and negotiation. Major in media industries, journalism or public relations. Graduate ready for a career in law and the media.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.[1]

**MEL** (LWLMC) — Sem 1, Sem 2

**ATAR range**

93.95– 96.15 — 5 years

### Bachelor of Laws/Bachelor of Politics, Philosophy and Economics — latrobe.edu.au/lwlppe

Get an innovative legal education with a social justice perspective. Learn in a hands-on environment that fosters leadership, decision-making and analysis. Study the compulsory law subjects required to apply for admission to the legal profession in Victoria. Graduate ready to start a career in areas including government, project management, policy development and analysis, journalism and public interest lawyering.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.[1]

**MEL** (LWLPPE) — Sem 1, Sem 2

**ATAR range**

91.35– 97.70 — 5 years

## Honours degrees

**Once you've completed your Bachelor's degree, you can extend your knowledge and skills by taking an Honours year. See online for course details.**

| Course title | |
|---|---|
| Bachelor of Archaeology with Honours | **MEL** (AHAR) |
| Bachelor of Arts (Nature Tourism) with Honours | **BEN** (RHANT) |
| Bachelor of Arts (Outdoor Education) with Honours | **BEN** (RHAOE) |
| Bachelor of Arts (Honours) | **MEL** (AHA) |
| Bachelor of Creative Arts (Honours) | **MEL** (AHCA) **BEN** (AHCAB) |
| Bachelor of International Relations with Honours | **MEL** (AHIR) |

# **Business** and **commerce**

‘To be employable in any workforce, you need to be adaptable to digital technology. In my commerce degree, I did a placement at a London hospital where I used data to help improve processes. La Trobe is quite innovative in its courses – it was definitely my first choice.’

**Susan Saldanha**
Commerce and public health

Learn more: **latrobe.edu.au/susan**

# Business and commerce

Uber, PayPal, Spotify, Tap and Pay. Innovations like these have revolutionised our economy. Transactions are instant, highly personalised and sharply targeted. Business and technology have become inseparable. With a degree from La Trobe, you'll unlock technology's potential to help businesses perform better.

**We ask industry leaders what they want**

At La Trobe, you'll graduate with the skills employers want. How do we know? We ask them and they tell us. Our courses are designed to put you at the forefront of change and innovation, connecting you to industry throughout your degree. Gain valuable insights from influential and successful business leaders. Experience the workplace, from start-ups to multinational companies.

**Shape the future with digital technology**

Alongside foundational skills like accounting and management, you'll also learn how technology changes business and the workplace through data analytics, forecasting and new business models. At La Trobe, we give you the full toolkit to become a next-generation business leader who can adapt to emerging trends and use technology's potential to help optimise businesses and organisations.

**Get the complete toolkit**

As the world of business changes rapidly, the old rules no longer seem to apply. At La Trobe, you'll get the big picture with theory. But you'll also develop an innovative mindset when you learn in our multimillion-dollar business hub, simulated financial trading room and think tank. You'll graduate with the human and practical skills to adapt and embrace new ways of working. You'll be ready to lead, communicating your ideas and carving your own path, whether it's in big business, developing start-ups or something else entirely.

Learn high-level skills in analysis, advocacy, mediation and negotiation you need to succeed in any business or law environment.

**Prerequisites**
VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.[1]

**MEL** (LWCOML) | Sem 1, Sem 2
**ATAR range** 90.65– 96.90 | 5 years

## Bachelor of Commerce/Bachelor of Psychological Science — latrobe.edu.au/lzcp

Understand how business and psychological science intersect in areas like economics, finance, management and marketing. Learn how to solve complex problems faced by today's organisations from a multidisciplinary standpoint. Graduate ready to pursue a career in a range of fields including human resources, management, marketing, accounting, economics, finance and human services.

**Prerequisites**
VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.[1]

**MEL** (LZCP) | Sem 1, Sem 2
**ATAR range** 84.65– 91.10 | 4 years

## Bachelor of Commerce/Bachelor of Science — latrobe.edu.au/lzcoms

Gain a competitive edge in the workforce. In commerce, you'll major in accounting, economics, finance, management or marketing. Learn the skills of research, critical thinking, communication, problem-solving, digital literacy and teamwork. Science majors include botany, genetics, chemistry and agricultural science. Graduate ready for your career in business or science.

**Prerequisites**
VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL; and a study score of at least 20 in any Mathematics.[1]

**MEL** (LZCOMS) | Sem 1, Sem 2
**ATAR range** 82.60– 95.70 | 4 years

## Bachelor of Cybersecurity/Bachelor of Commerce — latrobe.edu.au/szcyc

Get a career in protecting and managing digital businesses. Combine cyber and analytical skills with strategic communication skills. Learn how to manage and protect online information, as well as the laws and policies of cyberspace, then complement this knowledge with a major in accounting, economics, finance, management or marketing.

**Prerequisites**
VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.[1]

**MEL** (SZCYC) | Sem 1
**ATAR range** NP | 4 years

## Bachelor of Laws/Bachelor of Business — latrobe.edu.au/lwlbus

Combine a foundation in business with a recognised legal qualification. Learn the fundamentals of business, economics and finance. Study the compulsory law subjects required to apply for admission to the legal profession in Victoria. Graduate ready to enter a career in law, corporate and not-for-profit organisations, governance or public policy.

**Prerequisites**
VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.[1]

**BEN** (LWLBUSB) | Sem 1
**ATAR range** NP | 5 years

# **Education** and **teaching**

‘I’m learning how to get the most out of each student’s potential, how to adapt to their interests and use that to motivate them. It’s the latest science, research and psychology you take into the classroom. You see kids develop their confidence and skills in class by trying new things and going out of their comfort zone – it’s very rewarding.’

**Harry Lynch**
Technology education

Learn more: **latrobe.edu.au/harry**

# Education and teaching

We've all had that one teacher we'll never forget. The one that helped us understand that impossible maths question. The educator who made any subject seem interesting, or always had time to help us. So, are you ready to inspire a new generation? With a La Trobe degree, you'll be well on your way.

**The science of learning**

Become an expert in how humans learn. The latest science is embedded in our curriculum and student experience, giving you access to expert knowledge and applied theory, evidence and data interpretation. You'll build skills to take into any context – any classroom, any age group, any country. You'll even prepare to work in the digital and virtual learning spaces of the future. By understanding why and how people learn, you'll be prepared for any teaching challenge.

**Practical experience in the classroom**

A good teacher can not only educate the entire class but also reach every individual. With a La Trobe education degree, you'll build your classroom skills and challenge yourself through diverse placements in schools and communities around Victoria. You'll experience different socio-economic areas, meet students with varied backgrounds and you might even complete a regional or international placement. By the time you graduate, you'll be able to create diverse, inclusive and fair learning spaces for your students.[1]

**Diverse and flexible degrees**

Explore different ways to be an educator. Early learning. Primary or secondary teaching. Outdoor recreation. Community or technical education. Leadership. Here or overseas. You might care about nurturing young minds one at a time, taking your teaching into the community or using your knowledge to influence policy and social justice. Whatever path you choose, you'll be ready for a lifetime's worth of career decisions.

# Health

‘The teachers are amazing – they know everyone – and I’ve really enjoyed the placements in my degree. I've had that hands-on experience straight away. It can be really full on. You learn a lot in the classroom, but putting it into practice is where you really solidify it. You get a feel for what the workplace is actually like.’

**Erin O’Brien**
Nursing

# Health

Imagine walking away from your job knowing you've made a difference in someone's life. Imagine knowing how to help someone walk or speak again. As a healthcare specialist, you've got the potential to do this every day.

**Diverse degrees**

We have a huge range of health courses, from dentistry to sport rehabilitation. Whether you want to treat patients, research complex conditions, promote public health or improve health outcomes with digital technology, we'll help you become a well-rounded and in-demand health practitioner.

**Australia's largest Rural Health School**

With our regional campuses and placements, you can live, work and study where there's a shortage of health professionals. Make a real impact among Victoria's most disadvantaged communities to improve rural community health and wellbeing.

**Our graduates get jobs**

Don't take our word for it. The numbers speak for themselves: our health graduates are walking off the stage, degree in hand, and straight into jobs. Just ask our students. Over 90% of our recent graduates from health services and support Bachelor's degrees found employment within four months.[1]

# Health

## Bachelor of Podiatry (Honours) — latrobe.edu.au/hhpod

New course

Make a difference to people's mobility and quality of life. You'll learn about the fundamentals of biosciences, the factors that influence health and how to treat and manage conditions of the foot and lower limb, bone and joint disorders, plus neurological and circulatory diseases. You'll also undertake over 1,000 hours of placements in community health centres, hospitals, private practices and La Trobe's on-campus podiatry clinic.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL; and a study score of at least 25 in one of Biology, Chemistry, any Mathematics, Physical Education or Physics.[1]

**MEL** (HHPOD) — Sem 1

**ATAR range**

71.60– 95.85 — 4 years

## Bachelor of Prosthetics and Orthotics (Honours) — latrobe.edu.au/hhpro

New course

Prepare for a rewarding career in prosthetics and orthotics. Learn about artificial limbs for people with amputations and supportive devices for people with physical disabilities or movement disorders. Undertake clinical placements to gain experience in providing prosthetic and orthotic treatment while working directly with clients.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL; and a study score of at least 25 in two of Biology, Chemistry, any Mathematics, Physical Education or Physics.[1]

**MEL** (HHPRO) — Sem 1

**ATAR range**

86.75– 95.75 — 4 years

## Bachelor of Psychological Science — latrobe.edu.au/sbps

Popular course

Understand the human mind and how it drives behaviour and mental health. Study clinical psychology, developmental and social psychology, psychological assessment, intervention and how to conduct research. Focus on clinical neuroscience, the psychology of culture and global citizenship, human relationships or animal-human relationships. Graduate closer to your career as a psychologist.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.[1]

**MEL** (SBPS) — Sem 1, Sem 2
**BEN** (SBPSB) — Sem 1, Sem 2
**A-W** (SBPSW) — Sem 1, Sem 2

**ATAR range**

55.00– 97.30 — 3 years

Diploma of Psychology (8-12 months) ➡ Enter 2nd year of this degree

## Bachelor of Psychology (Honours) — latrobe.edu.au/shp

Understand the human mind and how it drives behaviour and mental health. Develop analytical, research and communication skills within a wide range of areas in psychology. Choose from electives such as clinical neuroscience, human-animal relations, cultural psychology and global citizenship. Graduate ready to build a career in a psychology or mental health related field or pursue research.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.[1]

**MEL**(SHP) — Sem 1
**BEN** (SHPYB) — Sem 1
**A-W** (SHPYW) — Sem 1

**ATAR range**

85.15– 95.75 — 4 years

## Bachelor of Social Work (Honours) — New course

New course

Obtain the clinical knowledge and hands-on skills to launch your career in social work. You'll learn from world-renowned academics in the course which covers a diverse range of subjects including both psychology and sociology. Two 14-week placements enable you to put your knowledge and skills into practice and gain professional experience within leading community, health and government organisations in Victoria.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL[1]

**MEL** (HHSW) — Sem 1
**BEN** (HHSWB) — Sem 1
**A-W** (HHSWW) — Sem 1
**MIL** (HHSWMI) — Sem 1
**SHP** (HHSWP) — Sem 1

**ATAR range**

NC — 4 years

## Bachelor of Speech Pathology (Honours) — New course

New course

People of all ages experience difficulties communicating and swallowing. Learn how to improve quality of life for these people with an understanding of impairments, anatomy and therapeutic treatment and management options. Build hands-on skills with approximately 1,000 hours of placement on-campus or in clinics across Victoria. You'll also learn how to improve speech pathology services and policies by tackling a fourth-year industry project or research thesis.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 35 in English (EAL) or at least 30 in English other than EAL; and a study score of at least 25 in one of Biology, Chemistry, any Mathematics, Physical Education, Physics or Health and Human Development.[1]

**MEL** (HHSPP) — Sem 1
**BEN** (HHSPPB) — Sem 1

**ATAR range**

NC — 4 years

## Bachelor of Sport and Exercise Science — latrobe.edu.au/hbses

Get ready for a career in sport and exercise. Study physiology, anatomy, biomechanics, neuroscience, skill acquisition, performance analysis, exercise prescription, injury prevention, high performance training, sport nutrition and psychology. Complete work placements and graduate ready for a career in sport teams, sport organisations, fitness centres, health promotion and exercise.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL; and a study score of at least 20 in two of Biology, Chemistry, Health and Human Development, any Mathematics, Physical Education or Physics.[1]

**MEL** (HBSES) — Sem 1

**ATAR range**

60.80– 92.25 — 3 years

## Bachelor of Sport Coaching and Development — latrobe.edu.au/hbscd

Popular course

Get ready for a career in sport by developing applied skills in coaching, coach education, sport science and sport development. Learn about athlete performance and training, talent identification, skill development, sport psychology, sport management, sport science and coaching. Apply your knowledge to real-life situations with sport coaching placements and internships.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL; and a study score of at least 20 in two of Biology, Chemistry, Health and Human Development, any Mathematics, Physical Education or Physics.[1]

# **IT** and **engineering**

'We have a cybersecurity lab with tools you'd usually pay thousands of dollars to access. We're taught by industry people as well as academics – one of my professors is currently at Microsoft – and you hear about opportunities you wouldn't otherwise. There are lots of opportunities because there's a huge demand for people with these kinds of skills.'

**Maha Afaneh**
Cybersecurity (computer science)

# IT and engineering

The age of technology. We hear so much about it, but what does it really mean? Right now, it means fighting cybercrime and designing the cities of the future. What's next? That's where you come in.

**Love where you learn**

Work and learn in innovative, 24/7 learning spaces and collaborative labs for engineering, computer science and cybersecurity.

**The human element of technology**

At La Trobe, we'll teach you the human skills you need to thrive in your career. Adaptability is key in the world of tech, so you'll graduate ready to work across both traditional and emerging industries. Throughout your course, you'll build strong foundations, an innovative mindset and professional experience.

**Placements and projects to brag about**

Develop your skills with practical work placements at major companies like Telstra, BMW and Boral. Develop and deliver the kind of projects that end up on your CV. Perhaps you'll design a self-transforming robot or develop a climate prediction tool. With experiences like these, you'll graduate confident with on-the-job experience and strong professional networks.

## Single degrees

Find the right degree for you and build the skills you need for your future career.

### Bachelor of Applied Cloud Technology — latrobe.edu.au/sbacto

Help drive business agility and growth through digital transformation strategies. Build your knowledge and skills across information systems, web and software development, machine learning, databases and big data, enterprise cloud migration, cloud enterprise application development and computer networks. You may gain early entry to the workforce while studying online.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL, OR equivalent academic level achievement, or at least one year of work experience after leaving school.

**ONLINE** (SBACTO) Ⓟ — Monthly

**ATAR range**: N/A — 3 years

★ Popular course

### Bachelor of Applied Information Technology — latrobe.edu.au/sbaio

Gain a fundamental understanding of information technology. Explore focus areas in information systems, software development, computer networks and web development. Combine your online study with early entry to the workforce. Graduate with the skills to bridge the gap between technical and management personnel.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL, OR equivalent academic level achievement, or at least one year of work experience after leaving school.

**ONLINE** (SBAIO) Ⓟ — Monthly

**ATAR range**: N/A — 3 years

### Bachelor of Business Information Systems — latrobe.edu.au/sbbiy

Use technology to make the best possible decisions. Understand how to manage systems and find innovative solutions to information challenges. Study IT, programming, management, the development of information systems and database design. Complete an industry project and be ready to work in technology and management across a range of organisations.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.[1]

**MEL** (SBBIY) — Sem 1, Sem 2

**ATAR range**: 61.85– 69.30 — 3 years

Diploma of Tertiary Studies (6 months) ➡ Enter first year of this degree[2]

Diploma of Information Technology (8-12 months) ➡ Enter 2nd year of this degree

### Bachelor of Civil Engineering (Honours) — latrobe.edu.au/shce

Become an adaptable, innovative and creative civil engineer. Understand the fundamentals of electrical, mechanical and electronic engineering and gain in-depth knowledge of geotechnical, hydraulic and structural engineering. Develop high-level skills in sustainable infrastructure, civil construction, water resources, surveying and computer-aided design. Graduate ready for your civil engineering career.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods or Maths: Specialist Mathematics.[1]

**MEL** (SHCE) — Sem 1, Sem 2
**BEN** (SHCEB) — Sem 1, Sem 2

**ATAR range**: 66.40– 94.60 — 4 years

Diploma of Engineering (8-12 months) ➡ Enter 2nd year of this degree

1. See online for a full list of entry requirements, including non-Year 12 students
2. Subject to meeting minimum requirements

# IT and engineering

## Bachelor of Computer Science — latrobe.edu.au/sbcs

Popular course

Computer scientists are in high demand. Learn programming, mobile app development, logic and data structures, web development, artificial intelligence and programming languages. Develop your understanding of software analysis, databases, computer architecture, networks and multimedia systems. Graduate ready for your career as a systems analyst, developer programmer or coder.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods or Maths: Specialist Mathematics.[1]

**MEL** (SBCS) — Sem 1, Sem 2, Summer

**ATAR range** 60.00– 78.10 — 3 years

## Bachelor of Cybersecurity — latrobe.edu.au/sbcy

Popular course

Open the door to a rapidly expanding global industry. Gain skills across IT, business, law, policy and strategic communication. Cover the history of hacking, the techniques cybercriminals use and the various methods used to defend and protect against malicious cyber threats. Be ready for your career in cybersecurity.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.[1]

**MEL** (SBCY) — Sem 1, Sem 2, Summer

**ATAR range** 60.50– 94.00 — 3 years

Diploma of Information Technology (8-12 months) ➡ Enter 2nd year of this degree

## Bachelor of Electrical and Electronic Engineering (Honours) — latrobe.edu.au/sheee

Popular course

Electronic devices and electrical power supply are fundamental for 21st century society. This course will teach the design, integration and maintenance of these electronic and electrical systems. Gain practical hands-on problem-solving skills through labs, projects and work placements. Industrial applications include power generation, communications, machine vision and electronics design.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL. Units 3 and 4: a study score of at least 20 in one of Maths: Mathematical Methods or Maths: Specialist Mathematics.[1]

**MEL** (SHEEE) — Sem 1, Sem 2

**ATAR range** 71.75– 89.40 — 4 years

Diploma of Engineering (8-12 months) ➡ Enter 2nd year of this degree

## Bachelor of Engineering Honours (Industrial) — latrobe.edu.au/sheni

Become the engineer of the future. Study engineering design and problem-solving, renewable energy design, mathematics, programming, electrical and electronic engineering, robotic system design and engineering innovation. Complete work placements with our industry partners and graduate ready for a career in Industry 4.0.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods or Maths: Specialist Mathematics.[1]

**MEL** (SHENI) — Sem 1, Sem 2
**BEN** (SHENIB) — Sem 1, Sem 2

**ATAR range** 67.95– 75.05 — 4 years

Diploma of Engineering (8-12 months) ➡ Enter 2nd year of this degree

## Bachelor of Information Technology — latrobe.edu.au/sbit

Popular course

Get ready for an in-demand career. Study hacking, software piracy, security breaches and IT fundamentals. Gain skills in project management, project estimation, report evaluation, software development, IT systems analysis, design, programming and networking. Refine your studies with electives and be ready for a range of IT careers.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.[1]

**MEL** (SBIT) — Sem 1, Sem 2, Summer
**BEN** (RBC) — Sem 1, Sem 2

## Double degrees

Combine your interests and broaden your skills when you study two degrees at once.

### Bachelor of Commerce/Bachelor of Computer Science — latrobe.edu.au/lzccs

Qualify for a professional position in accounting, economics, finance, marketing or management and apply your business skills to commercialise your software program or app. Study hardware, software and object-oriented systems. In commerce, major in accounting, economics, finance, management or marketing. Start your career in IT, business or software development.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (any) or Maths: Specialist Mathematics.[1]

**MEL** (LZCCS) — Sem 1, Sem 2

**ATAR range** NP — 4 years

### Bachelor of Cybersecurity/Bachelor of Commerce — latrobe.edu.au/szcyc

Get a career in protecting and managing digital businesses. Combine cyber and analytical skills with strategic communication skills. Learn how to manage and protect online information, as well as the laws and policies of cyberspace, then complement this knowledge with a major in accounting, economics, finance, management or marketing.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.[1]

**MEL** (SZCYC) — Sem 1

**ATAR range** NP — 4 years

### Bachelor of Cybersecurity/Bachelor of Criminology — latrobe.edu.au/szcycr

Forge a career fighting cybercrime. Build a solid foundation in cybersecurity plus the knowledge and skills you need to tackle cybercrime. Discover the history of hacking and learn how to defend and protect online data from security threats. Graduates can pursue a career in law enforcement, online security and more.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.[1]

**MEL** (SZCYCR) — Sem 1

**ATAR range** 65.95– 84.65 — 4 years

### Bachelor of Cybersecurity/Bachelor of Psychological Science — latrobe.edu.au/szcyps

Popular course

Cybercrime is as much about people as it is about technology. Complement your studies in psychological science with the highly specialised cybersecurity field. Learn about cybercrime, computer forensics, cyber law, policy and crisis management. Graduate ready to help organisations protect themselves against cybercriminals.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.[1]

**MEL** (SZCYPS) — Sem 1, Sem 2

**ATAR range** 73.35– 86.85 — 4 years

## Honours degrees

# **Law** and **criminology**

'I chose La Trobe law because I knew I'd use the skills in any sector. For me, being in court was a game changer; I discovered a passion that's led to community volunteering, advocacy, awards and youth leadership. I'm excited to see where it takes me next.'

**Khayshie Tilak Ramesh**
Law
Legal and Governance Support Officer, Victorian Government

Learn more: **latrobe.edu.au/khayshie**

# Law and criminology

How has technology reshaped the nature of crime? How free should speech be? Can we legislate equality? Some of the biggest debates of our times challenge our ideas of the relationship between society and the law. With a law or criminology degree from La Trobe, you'll build the skills to step up and make the case for change.

**Practice, practice, practice**

Take a stance in our moot courts. Do a placement in a big-city law firm or community organisation like the Consumer Action Law Centre. Solve real-world problems in the award-winning Fast Track Clinic at the Asylum Seeker Resource Centre. Be mentored by professionals every step of the way. And that's just law. In criminology, you can do an internship in corrections, court, a government department an agency or at a criminal justice not-for-profit. By the time you graduate, you'll be ready to hit the ground running.

**All kinds of clever**

At La Trobe, you'll develop essential legal skills including advocacy, mediation, negotiation, critical thinking and dispute resolution. You can also choose from a range of electives to suit your interests, whether it's cyber law, climate law or human rights. When it comes to criminology, you'll explore why people commit crimes and learn about international crime, forensic science, sentencing, detention and criminal law so you get the bigger picture.

**Challenge yourself**

We help you develop innovative thinking, critical thought, communication skills and leadership potential in interactive tutorials, so you can tackle the big problems. Advocate for Indigenous Australians or prevent further damage to our environment. Support women fleeing domestic violence or rehabilitate juvenile offenders. At La Trobe, you'll learn how empathy makes you a better lawyer[1], social justice professional or criminology expert.

5 years

## Bachelor of Laws/Bachelor of Science — latrobe.edu.au/lwlsc

Open up a range of career opportunities. In law, you'll study compulsory law subjects required to apply for admission to the legal profession in Victoria and choose from a wide range of electives. Choose a science specialisation from botany, computer science, psychology, chemistry and physics. Be prepared for a variety of careers across science and law.

**Prerequisites**
VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL; and a study score of at least 20 in any Mathematics.[1]

**MEL** (LWLSC)
**BEN** (LWLSCB)
Sem 1, Sem 2
Sem 1
**ATAR range**
93.70– 92.35
5 years

## Honours degrees

**Once you've completed your Bachelor's degree, you can extend your knowledge and skills by taking an Honours year. See online for course details.**

| Course title | |
|---|---|
| Bachelor of Criminology (Honours) | **MEL** (LHCRI) |

1. See online for a full list of entry requirements, including non-Year 12 students

La Trobe University pathway La Trobe College Australia pathway

**Please note:**

- The ATARs published in this guide are correct as of round 1 2020, with Melbourne Campus listed by default. For other campus ATARs, go to 'Courses at a glance' on page 28–31 or visit: **latrobe.edu.au/courses.** The ATAR range shows the lowest selection rank (includes adjustment factors) and the highest ATAR (excludes adjustment factors) where an offer was made through VTAC up until the January 2020 offer round.
- The La Trobe College Australia pathways shown are correct at the time of publication. For up-to-date information, visit: **latrobecollegeaustralia.edu.au**
- Intakes are subject to change. Some courses have additional costs over and above the stated course fees, see online course information for full details.

# Science

'I’m from a farming area, where we suffered a lot of droughts and saw the impact of climate change firsthand. Then I came to La Trobe and learned the facts. I’ve done field trips where you work with companies and communities on real problems. I see how important science is to industries like agriculture.'

**Nicole Peruzzi**
Science (botany) and animal and veterinary biosciences

Learn more: **latrobe.edu.au/nicole**

# Science

Today, we're living in a world where opinions are often presented as facts. Now more than ever, scientists are the voice of reason we so badly need. We need scientists to investigate and innovate as new challenges arise. Scientists who can collaborate and communicate. Gain the skills to change the world for good with a science degree from La Trobe.

**Experience innovative teaching and research spaces**

No matter which course you choose, you'll learn in high-tech labs or in the field. At La Trobe, you could get a closer look at chemistry in our $100 million molecular sciences building. You might study biodiversity in our wildlife sanctuary, biomedical science in one of our purpose-built labs or agribusiness in The Centre for AgriBioscience.

**Connect with passionate science experts**

Learn from world-renowned scientists, industry experts and researchers whose work is rated well above world standard in 15 fields of scientific research.[1] At La Trobe, you'll be mentored by teachers who love what they do, whether it's soil science, cancer research or improving advanced manufacturing.

**Gain the skills to change the world for good**

Investigate some of the most pressing challenges of our time such as climate change and infectious disease. Discover a wide range of courses, majors, double majors and subjects, building a broad toolkit of scientific knowledge. Whatever your mission, you'll develop the skills and innovative mindset needed to drive positive change.

### Advanced facilities

We've invested more than $500 million in science learning and research facilities.

### World-ranked subjects

Get a world-class education with courses ranked in the world's top 200 for psychology and the world's top 250 for agricultural science and forestry.[2]

### Technical skills in science

Build your abilities with lab work, field work and industry placements, and graduate with strong industry links.

## Single degrees

Find the right degree for you and build the skills you need for your future career.

### Bachelor of Science — latrobe.edu.au/sbsc

Popular course

Kickstart your science career. Choose from 14 majors including biochemistry, botany, chemistry, data science, environmental geoscience, genetics, mathematics, microbiology, molecular biology, nanotechnology, pharmaceutical chemistry, physics, statistics and zoology. Graduate ready for further specialisation or entry-level science roles.

**Majors**

**Melbourne:** Biochemistry[2] | Botany | Chemistry[2] |Data Science | Environmental geoscience | Genetics | Mathematics | Microbiology | Nanotechnology | Physics | Statistics | Zoology
**Bendigo:** Molecular biology | Physics | Mathematics | Pharmaceutical chemistry[2]

**Prerequisites**

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL; and a study score of at least 20 in any Mathematics.[1]

**MEL** (SBSC) — Sem 1, Sem 2
**BEN** (SBSCB) — Sem 1, Sem 2
**ATAR range** 70.00– 96.40
3 years

Diploma of Tertiary Studies (6 months) ➡ Enter first year of this degree (Melbourne Campus)[5]

Diploma of Bioscience (12 months) ➡ Enter 2nd year of this degree[3]
Diploma of Engineering (12 months) ➡ Enter 2nd year of this degree[4]

### Bachelor of Agricultural Sciences — latrobe.edu.au/sbag

Popular course

Combine science with economics to tackle some of the world's biggest challenges. Study plant science, land and soil management, animal physiology, animal psychology, pest control and groundwater sustainability. Complete a work placement and graduate ready for a career in finance, agribusiness, consulting, government and humanitarian work.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL; and a study score of at least 20 in Maths (any) or international equivalent.[1]

**MEL** (SBAG) — Sem 1, Sem 2
**A-W** (SBAGW)[6] — Sem 1, Sem 2
**ATAR range** 57.60– 96.05
3 years

Diploma of Bioscience (8-12 months) ➡ Enter 2nd year of this degree

### Bachelor of Agriculture and Technology — latrobe.edu.au/sbate

Study one of the few agriculture degrees in Australia with a practical focus. Choose from specialisations including agronomy, viticulture and winemaking, equine studies or sports turf science and management. Gain practical experience in Melbourne Polytechnic's labs and facilities, and complete industry placements in wineries, vineyards, laboratories, equestrian facilities or commercially-operated farms.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.[1]

**EPP** (SBATE) Ⓟ — Sem 1, Sem 2
**ATAR range** 59.80– 74.25
3 years

1. See online for a full list of entry requirements, including non-Year 12 students
2. If you commence degree in Sem 2, duration may be 3.5 years due to sequencing of first-year chemistry subjects
3. Majors available: biochemistry, botany, chemistry, genetics, microbiology, statistics, zoology
4. Maths major only
5. Subject to meeting minimum requirements
6. Students commencing studies at Albury-Wodonga are required to transfer to Melbourne from second year

Ⓟ This degree is offered through a La Trobe education partner. See online for details

# Science

## Bachelor of Animal and Veterinary Biosciences — latrobe.edu.au/sbavb

Learn to work with wild and domestic animals. Study ecology, genetics, biotechnology, animal physiology, nutrition, molecular biology and animal physiology. Complete hands-on studies in animal and agricultural science, microbiology, zoology and metabolic biochemistry. Graduate ready for further study or varied careers in the animal health sector.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.[1]

**MEL** (SBAVB) — Sem 1, Sem 2
**A-W** (SBAVW)[2] — Sem 1, Sem 2

**ATAR range**
60.75– 92.45

3 years

Diploma of Bioscience (8-12 months) ➡ Enter 2nd year of this degree

## Bachelor of Biological Sciences — latrobe.edu.au/sbbis

Help find solutions to some of the world's biggest challenges like protecting native forests, managing endangered species, discovering new medical cures or securing food for the future. Explore animal, plant and microbial biology through the lenses of cell biology, genetics, evolution, biodiversity and ecology. Gain hands-on experience in our labs, world-class research facilities and the La Trobe Wildlife Sanctuary.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.[1]

**MEL** (SBBIS) — Sem 1, Sem 2
**A-W** (SBBISW)[2] — Sem 1, Sem 2

**ATAR range**
55.25– 93.95

3 years

Diploma of Tertiary Studies (6 months) ➡ Enter first year of this degree (Melbourne Campus)[3]

Diploma of Bioscience (8-12 months) ➡ Enter 2nd year of this degree

## Bachelor of Biomedical Science — latrobe.edu.au/sbmb

Popular course

Learn about the human body, its structure and its functions. Combine biology, pharmacology and medicine with aspects of anatomy, biochemistry, microbiology, genetics, immunology, molecular biology, physiology and neuroscience. Graduate ready for further study or a career in biotechnology, medical research or the pharmaceutical industry.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.[1]

**BEN** (SBMB) — Sem 1
**A-W** (SBMW) — Sem 1

**ATAR range**
61.45– 97.25

3 years

Diploma of Bioscience (8-12 months) ➡ Enter 2nd year of this degree

## Bachelor of Biomedical Science (Medical) — latrobe.edu.au/sbmmb

Popular course

Help address the shortage of medical professionals in regional areas. Develop the knowledge and skills to explore the underlying molecular basis of acute and chronic illnesses. Learn how to apply biomedical research and convey scientific information.
This degree offers a pathway to the Doctor of Medicine (Rural) at the University of Melbourne in Shepparton.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.[1]
This degree has an additional compulsory requirement. See online for details.

**BEN** (SBMMB) — Sem 1
**A-W** (SBMMW) — Sem 1

**ATAR range**
91.30– 98.25

3 years

1. See online for a full list of entry requirements, including non-Year 12 students
2. Students commencing studies at Albury-Wodonga are required to transfer to Melbourne from second year
3. Subject to meeting minimum requirements

**MEL** Melbourne **BEN** Bendigo **A-W** Albury-Wodonga **MIL** Mildura **SHP** Shepparton **SYD** Sydney **EPP** Epping **DNG** Dandenong
**CAR** Carlton College of Sport **FTN** Frankston **BWK** Berwick Campus location and course code Course intake Course duration
La Trobe University pathway La Trobe College Australia pathway

## Bachelor of Biomedicine — latrobe.edu.au/sbmd

Popular course

Explore the underlying causes of disease. Study aspects of anatomy, biochemistry, microbiology, pharmacology, genetics, immunology, cell and molecular biology, physiology and neuroscience. Develop practical skills, learn how to meaningfully convey scientific information and graduate ready for a career in biotechnology, medical research or the pharmaceutical industry.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.[1]

**MEL** (SBMD) — Sem 1

**ATAR range**
65.70– 99.50

3 years

Diploma of Bioscience (8-12 months) ➡ Enter 2nd year of this degree

## Bachelor of Pharmacy (Honours) — latrobe.edu.au/shpb

Understand how medicines impact, improve and change people's lives. Learn how to work as the link between medical practitioners and the public. Study science, pharmacy practice, legislation, therapeutics, complementary medicines and public health issues in rural and remote Australia.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL; a study score of at least 25 in Chemistry; and a study score of at least 25 in any Mathematics.[1]

**BEN** (SHPB) — Sem 1

**ATAR range**
87.30– 96.45

4 years

## Bachelor of Psychological Science — latrobe.edu.au/sbps

Popular course

Understand the human mind and how it drives behaviour and mental health. Study clinical psychology, developmental and social psychology, psychological assessment, intervention and how to conduct research. Focus on clinical neuroscience, the psychology of culture and global citizenship, human relationships or animal-human relationships. Graduate closer to your career as a psychologist.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.[1]

**MEL** (SBPS) — Sem 1, Sem 2
**BEN** (SBPSB) — Sem 1, Sem 2
**A-W** (SBPSW) — Sem 1, Sem 2

**ATAR range**
55.00– 97.30

3 years

Diploma of Psychology (8-12 months) ➡ Enter 2nd year of this degree

## Bachelor of Psychology (Honours) — latrobe.edu.au/shp

Understand the human mind and how it drives behaviour and mental health. Develop analytical, research and communication skills within a wide range of areas in psychology. Choose from electives such as clinical neuroscience, human-animal relations, cultural psychology and global citizenship. Graduate ready to build a career in a psychology or mental health-related field or pursue research.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.[1]

**MEL** (SHP) — Sem 1
**BEN** (SHPYB) — Sem 1
**A-W** (SHPYW) — Sem 1

**ATAR range**
85.15– 95.75

4 years

**Please note:**

- The ATARs published in this guide are correct as of round 1 2020, with Melbourne Campus listed by default. For other campus ATARs, go to 'Courses at a glance' on page 28–31 or visit: **latrobe.edu.au/courses.** The ATAR range shows the lowest selection rank (includes adjustment factors) and the highest ATAR (excludes adjustment factors) where an offer was made through VTAC up until the January 2020 offer round.

# Science

## Bachelor of Science — latrobe.edu.au/sbsc

Popular course

Kickstart your science career. Choose from 14 majors including biochemistry, botany, chemistry, data science, environmental geoscience, genetics, mathematics, microbiology, molecular biology, nanotechnology, pharmaceutical chemistry, physics, statistics and zoology. Graduate ready for further specialisation or entry-level science roles.

**To learn more about this course, see page 89 or online.**

## Bachelor of Science Double Degree Program — latrobe.edu.au/szss

Specialise in more than one field of science and broaden your career opportunities. Choose from specialisations including biological science, computer science, information technology, psychological science, and wildlife conservation and biology. Apply your knowledge to practice with purpose-built facilities such as the La Trobe Institute for Molecular Science.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL; and a study score of at least 20 in any Mathematics.[1]

**MEL** (SZSS) — Sem 1, Sem 2

**ATAR range**

76.90– 98.65 — 4.5 years

## Bachelor of Science (Wildlife and Conservation Biology) — latrobe.edu.au/sbswcb

Learn to tackle the threats facing our environment. Study zoology, genetics, botany, extinction, environmental degradation and climate change. Take subjects in environmental law, remote sensing and GIS, global environmental politics and international climate change economics and policy. Undertake field trips and start your career in the outdoors.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.[1]

**MEL** (SBSWCB) — Sem 1
**A-W** (SBSWBW)[2] — Sem 1

**ATAR range**

76.40– 98.05 — 3 years

## Bachelor of Veterinary Nursing — latrobe.edu.au/sbvn

Become a clinician with an exceptional level of practical skill. Explore the academic underpinnings of veterinary science and apply theory and practice to a semester-long work placement. Graduate ready for a career as a veterinary nurse.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL; and a study score of at least 20 in one of Biology, Chemistry or any Mathematics.[1]

**EPP** (SBVN) Ⓟ — Sem 1, Sem 2*

**ATAR range**

67.60– 85.60 — 3 years

## Double degrees

Combine your interests and broaden your skills when you study two degrees at once.

## Bachelor of Arts/Bachelor of Science — latrobe.edu.au/szas

Build your degree around your interests in the arts and sciences. Choose subjects like anthropology, languages, archaeology, philosophy and combine them with science subjects like environmental geoscience, zoology, genetics, chemistry, physics and microbiology. Graduate ready to find a career in environmental science, research, health and business.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL; and a study score of at least 20 in any Mathematics.[1]

**MEL** (SZAS) — Sem 1, Sem 2

**ATAR range**

71.75– 96.00 — 4.5 years

1. See online for a full list of entry requirements, including non-Year 12 students
2. Students commencing studies at Albury-Wodonga are required to transfer to Melbourne from second year
Ⓟ This degree is offered through a La Trobe education partner. See online for details
* Sem 2 intake only available if you've completed an Associate Degree of Veterinary Nursing
NP ATAR not published

**MEL** Melbourne **BEN** Bendigo **A-W** Albury-Wodonga **MIL** Mildura **SHP** Shepparton **SYD** Sydney **EPP** Epping **DNG** Dandenong
**CAR** Carlton College of Sport **FTN** Frankston **BWK** Berwick Campus location and course code Course intake Course duration
La Trobe University pathway La Trobe College Australia pathway

## Bachelor of Business/Bachelor of Psychological Science — latrobe.edu.au/lzbpsb

Kickstart your business career with an in-depth knowledge of human behaviour. Build a foundation in business through studying accounting, finance, economics, marketing and management. Gain an understanding of psychological science by studying cognitive, developmental, social, abnormal, clinical and health psychology. Graduate ready to pursue careers in marketing, human resources, psychology, public relations and more.

**Prerequisites**

VCE: Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.[1]

**BEN** (LZBPSB) — Sem 1
**A-W** (LZBPSW) — Sem 1

**ATAR range**

NP — 4 years

## Bachelor of Commerce/Bachelor of Agricultural Sciences — latrobe.edu.au/lzcag

Help farmers improve food production and reduce the impact on declining resources. Major in accounting, economics, finance, management and marketing. Learn about plants, animals, soil and climate. Study plant science, land and soil management, animal physiology, pest control, groundwater sustainability and contamination. Start your career in agribusiness.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.[1]

**MEL** (LZCAG) — Sem 1, Sem 2

**ATAR range**

NP — 4 years

## Bachelor of Commerce/Bachelor of Biomedicine — latrobe.edu.au/lzcbm

Combine commerce, biology and medicine. In commerce, you'll major in accounting, economics, finance, management or marketing. In biomedicine, you'll study anatomy, biochemistry, microbiology, pharmacology, genetics, immunology, cell and molecular biology, physiology and neuroscience. Graduate ready for a career in biotechnology, medical research and the pharmaceutical industry.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.[1]

**MEL** (LZCBM) — Sem 1, Sem 2

**ATAR range**

82.70– 93.00 — 4 years

## Bachelor of Commerce/Bachelor of Psychological Science — latrobe.edu.au/lzcp

Understand how business and psychological science intersect in areas like economics, finance, management and marketing. Learn how to solve complex problems faced by today's organisations from a multidisciplinary standpoint. Graduate ready to pursue a career in a range of fields including human resources, management, marketing, accounting, economics, finance and human services.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.[1]

**MEL** (LZCP) — Sem 1, Sem 2

**ATAR range**

84.65– 91.10 — 4 years

## Bachelor of Commerce/Bachelor of Science — latrobe.edu.au/lzcoms

Gain a competitive edge in the workforce. In commerce, you'll major in accounting, economics, finance, management or marketing. Learn the skills of research, critical thinking, communication, problem-solving, digital literacy and teamwork. Science majors include botany, genetics, chemistry and agricultural science. Graduate ready for your career in business or science.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL; and a study score of at least 20 in any Mathematics.[1]

**MEL** (LZCOMS) — Sem 1, Sem 2

**ATAR range**

82.60– 95.70 — 4 years

**Please note:**

- The ATARs published in this guide are correct as of round 1 2020, with Melbourne Campus listed by default. For other campus ATARs, go to 'Courses at a glance' on page 28–31 or visit: **latrobe.edu.au/courses.** The ATAR range shows the lowest selection rank (includes adjustment factors) and the highest ATAR (excludes adjustment factors) where an offer was made through VTAC up until the January 2020 offer round.

- Intakes are subject to change. Some courses have additional costs over and above the stated course fees, see online course information for full details.

# Science

## Bachelor of Criminology/Bachelor of Psychological Science — latrobe.edu.au/lzcpy

Understand the connections between crime and the human mind. Study policing, corrections, juvenile justice, crime prevention, advocacy, intelligence, forensics and customs. Learn about the biological and social influences on behaviour and cognition. Complete a work placement and graduate ready for your career in criminal justice.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.[1]

**MEL** (LZCPY)
**BEN** (LZCPYB)

Sem 1, Sem 2
Sem 1

**ATAR range**

62.55– 88.80

4 years

## Bachelor of Cybersecurity/Bachelor of Psychological Science — latrobe.edu.au/szcyps

Cybercrime is as much about people as it is about technology. Complement your studies in psychological science with the highly specialised cybersecurity field. Learn about cybercrime, computer forensics, cyber law, policy and crisis management. Graduate ready to help organisations protect themselves against cybercriminals.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.[1]

**MEL** (SZCYPS)

Sem 1, Sem 2

**ATAR range**

73.35– 86.85

4 years

## Bachelor of Laws/Bachelor of Biomedicine — latrobe.edu.au/lwlbm

Gain a high-quality legal education with a social justice perspective. Learn the foundations of biomedicine and develop the practical research and lab skills required to learn about the human body. Study the compulsory law subjects required to apply for admission to the legal profession in Victoria. Graduate ready for your career in law in areas like scientific and industrial ethics, regulatory affairs, environmental protection and policy development.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.[1]

**MEL** (LWLBM)

Sem 1, Sem 2

**ATAR range**

94.10– 97.75

5 years

## Bachelor of Laws/Bachelor of Psychological Science — latrobe.edu.au/lwlpy

Investigate fields where law, psychology and mental health intersect. Develop your understanding of the biological and social aspects of human behaviour while building practical legal skills in advocacy, mediation and negotiation. Study the compulsory law subjects required to apply for admission to the legal profession in Victoria. Graduate with sought-after skills for a range of careers in management, law, research, marketing, teaching, counselling and recruitment.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.[1]

**MEL** (LWLPY)
**BEN** (LWLPYB)

Sem 1, Sem 2
Sem 1

**ATAR range**

90.90– 94.70

5 years

1. See online for a full list of entry requirements, including non-Year 12 students

**MEL** Melbourne **BEN** Bendigo **A-W** Albury-Wodonga **MIL** Mildura **SHP** Shepparton **SYD** Sydney **EPP** Epping **DNG** Dandenong

**Please note:**

- The ATARs published in this guide are correct as of round 1 2020, with Melbourne Campus listed by default. For other campus ATARs, go to 'Courses at a glance' on page 28–31 or visit: **latrobe.edu.au/courses.** The ATAR range shows the lowest selection rank (includes adjustment factors) and the highest ATAR (excludes adjustment factors) where an offer was made through VTAC up until the January 2020 offer round.
- The La Trobe College Australia pathways shown are correct at the time of publication. For up-to-date information, visit: **latrobecollegeaustralia.edu.au**
- Intakes are subject to change. Some courses have additional costs over and above the stated course fees, see online course information for full details.

# Key terms

### Australian Tertiary Admissions Rank (ATAR)

VTAC or UAC gives you an ATAR (a number between 0.00 and 99.95) to rank your Year 12 results against other students' results.

### Commonwealth Supported Place (CSP)

When you're offered a CSP, the government subsidises your course fees and you only need to pay for part of your tuition, known as the 'student contribution amount'. All domestic undergraduate places at La Trobe are CSPs.

### Core subjects

The compulsory subjects in any given course.

### Credit

If you've completed relevant, formally recognised studies at another uni or TAFE or have suitable work experience, you may get credit for some or all of your studies when you enrol at uni. This means you may finish your degree faster.

### Entry requirements

Each course has different requirements you need to meet to be granted entry. These requirements are usually made up of qualifications, subjects or exam grades. Course prerequisites and other extra requirements such as interviews and portfolios are outlined on our website:
**latrobe.edu.au/courses**

Offers of admission into La Trobe courses are made based on academic merit, likelihood of success and sometimes the number of places available.

### HELP

An Australian Government loan scheme to help eligible students enrolled in a CSP pay their student contributions.

### Honours

Honours studies are advanced studies attached to undergraduate degrees that give you a higher qualification than a three-year degree. Many people do Honours so they can continue to postgraduate studies, and many La Trobe undergraduate courses offer an Honours year. Depending on your course, this may involve an additional year of study, although some courses have it built in.

### Industry placements

Industry placements integrate educational theory and workplace experience, preparing you to be work ready, world ready and future ready.

### Major

A sequence of related subjects spread over the duration of an undergraduate course. You'll usually undertake at least one subject from your major each semester, and you have to pass each subject in order to move on to the next one in the sequence.

### Non-Year 12 applicants

You don't have to come straight from high school to get into uni. There are plenty of options available to you, including the Special Tertiary Admissions Test (STAT), Work Recognition and Tertiary Preparation Program.

### Pathways

Pathways let you enter your chosen course through another qualification. For example, the Diploma of Tertiary Studies is one pathway to a Bachelor's degree. Going from Year 12 to TAFE and then uni is another. Read more on **pages 24–25**.

### Postgraduate

The second level of university study. Usually, you can only begin postgraduate studies once you've completed an undergraduate degree.

### Prerequisites

The subjects you must have completed at school (and/or any other qualifications you need) to be eligible for consideration in a specific uni course.

### TAFE

Technical and Further Education.

### Undergraduate

The first level of university study. This generally refers to a three-year single Bachelor's degree, although it also includes Honours studies, which can take an additional year. There are also double degrees that usually take at least four years full-time.

### VET

Vocational Education and Training.

La Trobe University acknowledges that our campuses are located on the lands of many Traditional Custodians in Victoria and New South Wales. We recognise their ongoing connection to the land and value their unique contribution to the University and wider Australian society.

La Trobe University is committed to providing opportunities for Aboriginal and Torres Strait Islander people, both as individuals and communities, through teaching and learning, research and community partnerships across all our campuses.

The wedge-tailed eagle (Aquila audax) is one of the world's largest, and the Wurundjeri people – Traditional Owners of the land where our Melbourne campuses are located – know the wedge-tailed eagle as Bunjil, the creator spirit of the Kulin Nations.

There is a special synergy between Bunjil and the La Trobe University logo of an eagle. The symbolism and significance for both La Trobe and for Aboriginal people challenges us all to gamagoen yarrbat – to soar.

# Key dates

## VTAC

Mostly VIC Year 12 students

Applications open
**3 August 2020**

Timely course applications close
**30 September 2020**

Very late course applications close
**4 December 2020**

VCE and ATAR release
**30 December 2020**

Offers
**14 January 2021**

## UAC

Mostly NSW Year 12 students

Applications open
**1 April 2020**

Early bird applications close
**30 September**

HSC and ATAR release
**18 December 2020**

Offers
**23 December 2020**

Offers
**8 January 2021**

## Aspire

La Trobe's Early Admissions Program

Applications open
**1 May 2020**

Applications close
**31 August 2020**

Notification of outcome by
**20 September 2020**

Keep an eye out for other key dates like change of preference or accepting and deferring periods where you can change your mind about what course you want to study. **All dates are subject to change** and there may be other offer and application dates. Visit uac.edu.au and vtac.edu.au for the latest information.
