UNIVERSITY PATHWAYS

TIWA offers pathways to some of Australia's leading universities. With a large range of pathway combinations, TIWA offers more study options for students.

WHAT IS A PATHWAY TO UNIVERSITY?

If you would like to study a university degree, and don't have the academic requirements, a TIWA pathway to university can help you reach your education goals.

HOW DOES IT WORK?

TIWA has a number of diploma and advanced diploma courses that can be packaged with bachelor degrees. If eligible, you will receive two offers — from TIWA and from your chosen university. A university pathway allows you to have a planned pathway for study at both vocational and educational training (VET) and university levels. On completion of your TAFE and university studies, you will have two qualifications that will give you a competitive edge in the global job market. Some courses at TAFE have a strong practical component, which is in high industry demand.

UNIVERSITY PATHWAY PACKAGES

TIWA has partnerships with Curtin University, Edith Cowan University, Murdoch University, and Notre Dame University. We can arrange a TAFE to university packaged offer for a wide range of courses. This allows you to apply for one student visa and the university degree will be your principal course.

Please read the following before you apply for a university package.

You must apply through an education agent registered to represent both TIWA and your chosen university.

- You can package English with your TAFE and university courses, but the duration of your English studies will be limited.
- You must request the university package at the time you are applying to TIWA.
- Any advanced standing or credit for recognised learning will be reflected on your university offer.
- University pathway options are available at TAFEinternational.wa.edu.au/unipathwayfinder

Please note that information regarding university pathways is correct at the time of printing and may change at any time.

ARTICULATION

If you want to keep your study options open, you can still apply to study at university at a later date. TIWA has a number of diploma and advanced diploma courses that will give you advanced standing or credit for recognised learning once you complete your studies. These credit transfers will be applied when you commence your undergraduate degree studies at university and will vary depending on the course and electives you have completed with TIWA.

Visit TAFEinternational.wa.edu.au or contact the universities directly for more information.

"I came to Perth for a TAFE to university package. Studying at TAFE was great, the lecturers are knowledgeable and I feel that the teaching style is holistic. This way of learning prepared me well so that when I started my practical training I felt confident in my ability and skills , and ready to start university. The best advantage for me is that I had to do just two years of university study as I received advanced standing from my TAFE studies."

Alfred Koech | Kenya | Community Services package

"It was difficult for me to apply directly to university so I decided to study at a TAFE college first and take a pathway to university.

TAFE colleges are government owned and I believe that the lecturers are highly qualified educators. My IT course has also given me many practical experiences that have helped to build skills and also improve my English ability. I believe these skills will be very useful for my future career."

STUDENT STORIES

"My lecturers are industry professionals with various careers in events. They teach us the actual day-to-day tasks of event managers, share their stories, tips and contacts, and guide us to be the best we can be based on their experience. Our training is very hands on, and we have been involved in several real-life events."

"I am studying 3D animation, 3D modelling, game design, and visual effects. I have found that drawing is my favourite thing and that my lecturers are really friendly and approachable. There is only one hour time difference between Tokyo and Perth which is handy, and because there's so much diversity you don't feel like you are an outsider. You can make friends easily here."
