2022 UNDERGRADUATE GUIDE

For those who stand out from the crowd.

For the dreamers, the big thinkers.
For the ones who want to make a difference.

For those who see not only what the world is,
but what it could be.

For the people challenging the status quo,
changing the game, and raising the bar.

This is for you.

Welcome Home

#1

#1 in Australia for student experience *15 years in a row*

#1 for employer satisfaction in Australia *in 2017 and 2019*

5 Stars

for

Teaching

Employability

Academic Development

Internationalisation

Facilities

Inclusiveness

10:1

student to teacher ratio

the lowest in Australia

- 2021 Good Universities Guide, a trusted independent consumer guide providing ratings, rankings and comments about all Australian higher education institutions.

- Quality Indicators for Learning and Teaching (QILT), an independent survey by the Australian Government's Department of Education, Skills and Employment.

- QS Stars is a global rating system that provides a detailed overview of a university's excellence, rating educational institutions all over the world. It is internationally recognised as one of a few truly global rating systems.

Bondy

[bond-ee]

noun

1. A student or graduate of Bond University.
2. Someone who stands out at university, and after they graduate.
3. A member of an unbreakable, global, lifelong community.

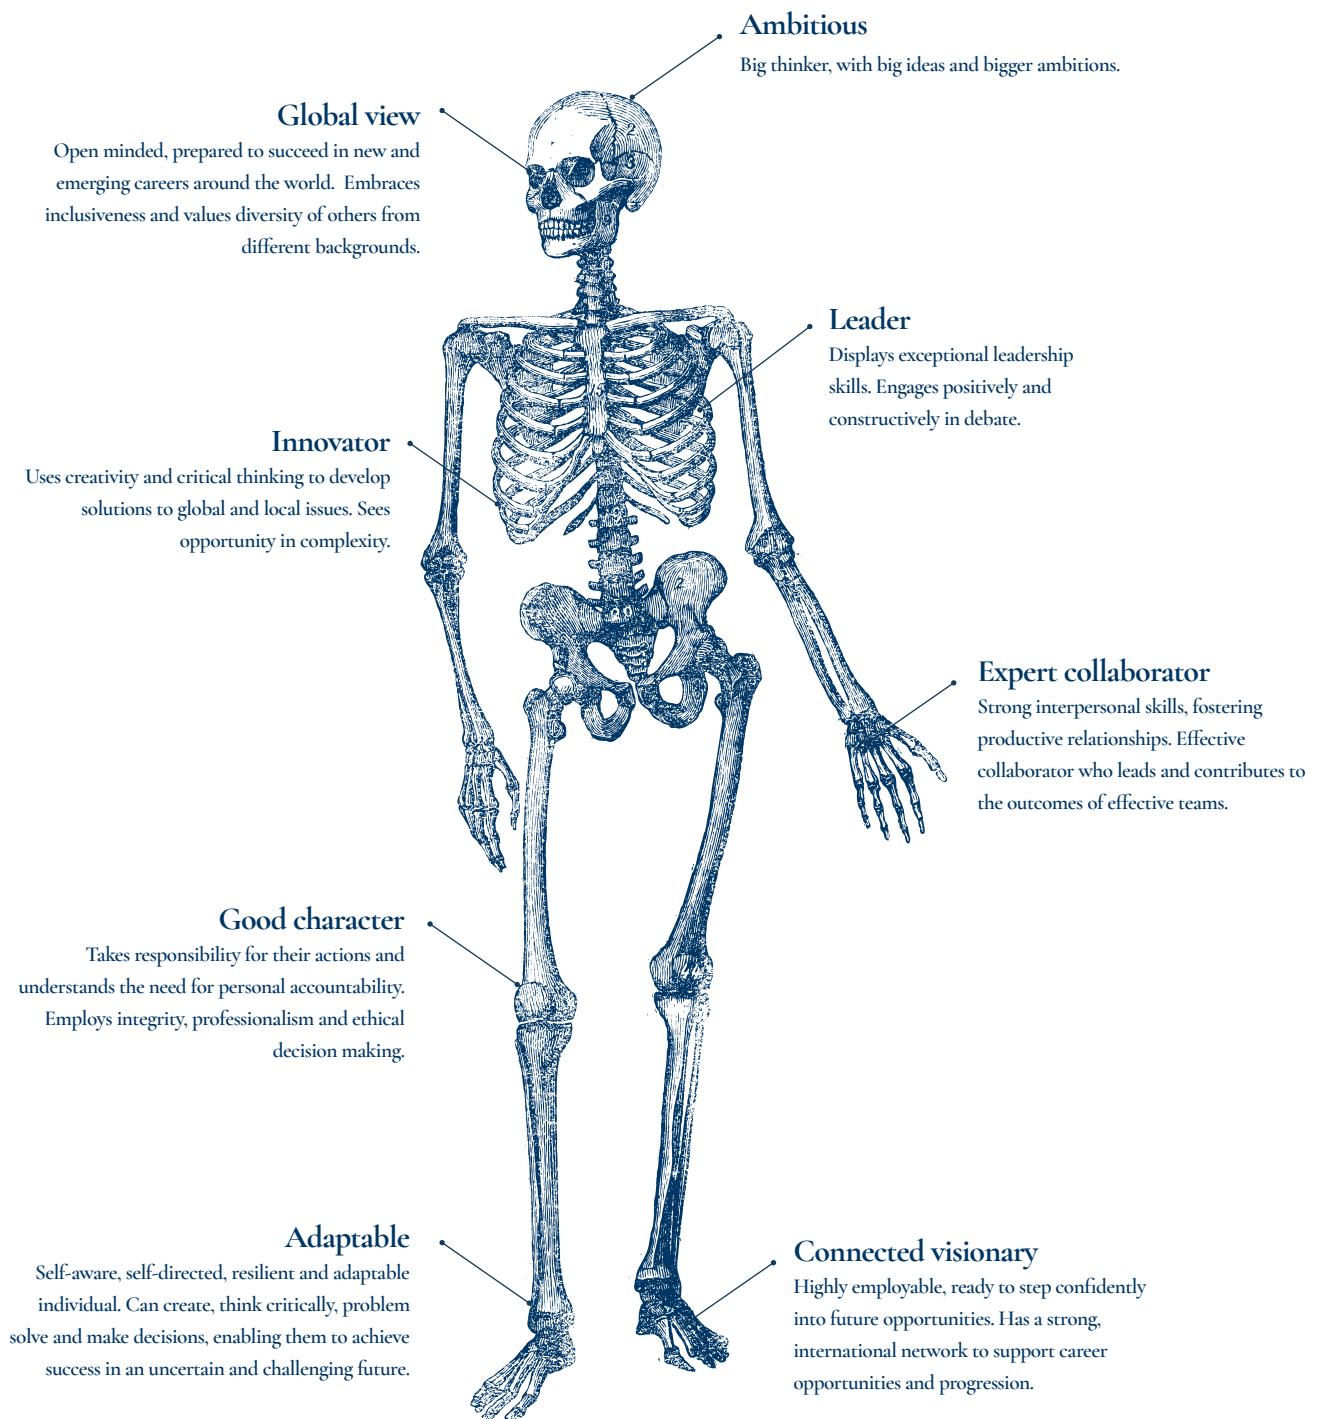

Figure 1.1 Anatomy of a Bondy

Your future is *bright*

When it comes to your career possibilities, the sky is the limit.

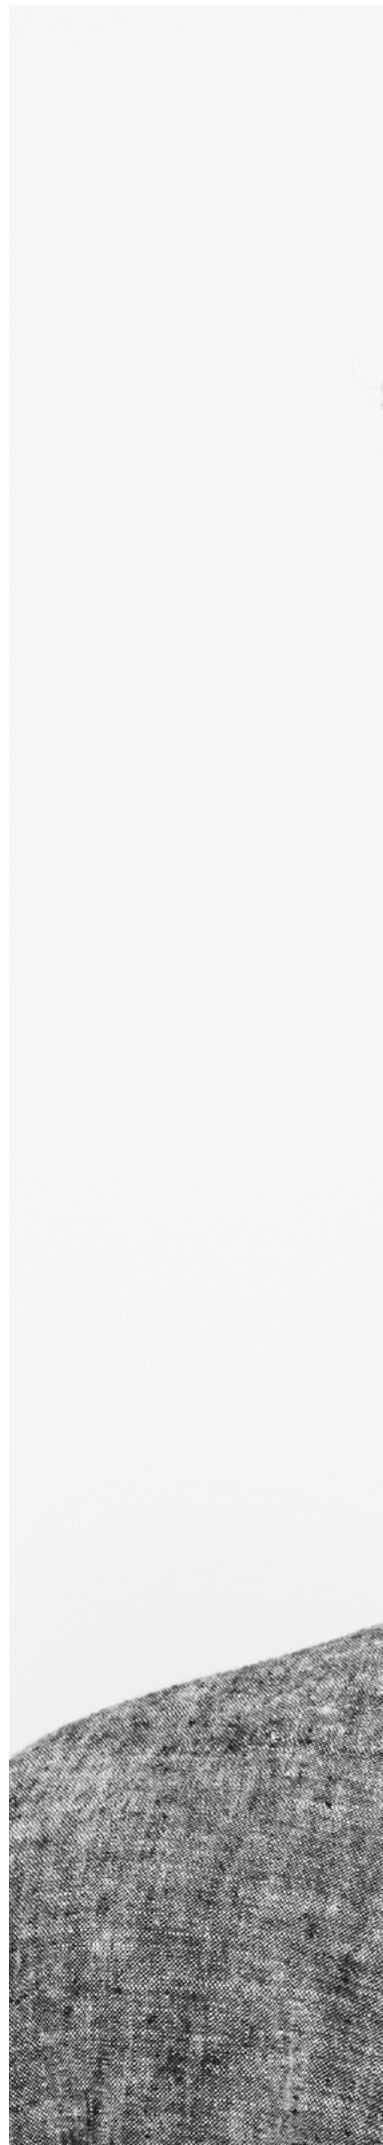

Imagine what you can learn with a 10:1 student to teacher ratio and academics that know your name, and actively mentor your progress.

Imagine what you can achieve with a global network of mentors, connections and supporters.

Imagine the difference you can make working on real issues, with real industry partners.

And imagine what your future can look like with personal support, every step of the way.

Take a stroll through the next couple of years of your journey.

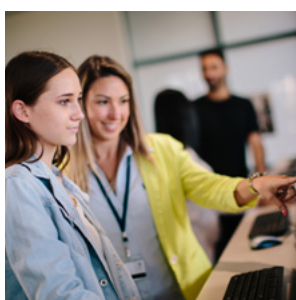

Chisomo Banzi

Architecture and Transformer student.

Story on page 18.

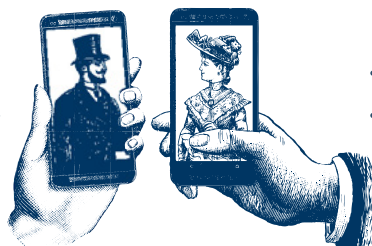

Your experience

An investment in your education is an investment in yourself. At the end of your Bond journey, you'll be out in the workforce up to a year earlier than your peers at other universities, with the skills and practical experiences that make you stand out in your career.

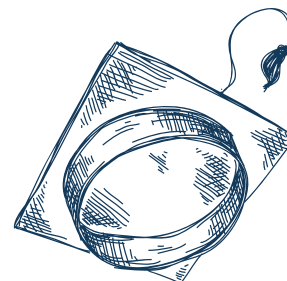

Personalised support.

Individualised career development, personal attention, study support, skills development and coaching.

Innovative, agile learning.

As a progressive and adaptable institution, you'll be learning in one of Australia's most innovative universities, preparing to take on future challenges.

The fast track.

Accelerated, three-semester-per-year timetable where you can complete your degree and start earning an income up to one year ahead of your peers.

The global advantage.

International internships, study tours, competitions, exchange opportunities and a global alumni network across more than 120 countries.

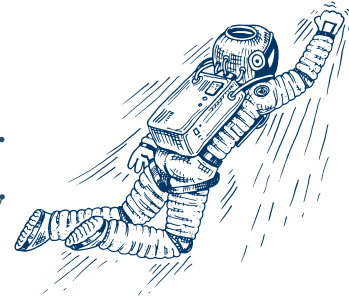

Immersive experiences.

Taking textbooks into the real world, participating in industry placements, international competitions, networking experiences and more.

Your employability.

Through your academics, the Career Development Centre and the support around you, you will access services, industry connections and opportunities to make you one of Australia's most desirable graduates.

Skills outside the classroom.

The Core curriculum, Transformer program and Beyond Bond program will prepare you to achieve your career goals.

The support of a close community.

Friendships and connections you make at Bond will last a lifetime in both your professional and personal life.

Vibrant campus life.

Sporting and cultural clubs and societies, as well as student associations, provide opportunities to enrich your student experience and pursue leadership opportunities.

An investment in your future.

You can use FEE-HELP, an interest-free Australian Government loan, to help you with your tuition fees.

Your Regional Manager is here to help you choose a program, navigate the application process, and answer any questions you have.

The Student Business Centre are the experts on all things enrolment and planning your subjects.

A note from us, to *you*...

This time in your life can be full of questions.

Who are you? What do you want to do? Who do you want to be?

As you explore the stories and opportunities within these pages, take the time to think about what your goals are, and how your university of choice can help you get there.

But importantly – remember that you don't need to only rely on university guides. You have a full Bond support crew to help you along the way. Reach out to us directly with any questions.

START EXPLORING

What interests you, what inspires you, and how do you want to make a difference? See how Bond's programs align with your future goals and remember - it's ok if you're unsure. That's what we're here for.

ARCHITECTURE AND BUILT ENVIRONMENT

For careers relating to architecture, property, project management, construction management and quantity surveying.

	ATAR / IB*
Bachelor of Construction Management and Quantity Surveying	65 / 24
Bachelor of Design in Architecture **	75 / 26
Bachelor of Project Management	65 / 24
Bachelor of Property	65 / 24
▲ Diploma of Built Environment	50

BUSINESS AND COMMERCE

For careers relating to accounting, actuarial science, data analytics, digital business, economics, entrepreneurship, finance, hotel and tourism management, international business, management, sport management and marketing.

	ATAR / IB*
Bachelor of Actuarial Science	90 / 32
Bachelor of Actuarial Science (Honours)	
Bachelor of Business	65 / 24
Bachelor of Business Data Analytics	80 / 28
Bachelor of Commerce	65 / 24
Bachelor of Entrepreneurial Transformation	65 / 24
Bachelor of International Hotel and Tourism Management	65 / 24
Bachelor of Sport Management	65 / 24
▲ Diploma of Business	50

SOCIAL SCIENCES, PSYCHOLOGY AND COUNSELLING

For careers relating to criminology, counselling, behaviour management and psychology.

	ATAR / IB*
Bachelor of Arts	65 / 24
Bachelor of Psychological Science	65 / 24
Bachelor of Psychological Science (Honours)	
Bachelor of Social Science	65 / 24
▲ Diploma of Arts	50
Popular degree combinations	
Bachelor of Business / Bachelor of Social Science	65 / 24
Bachelor of Psychological Science / Bachelor of Laws	85 / 30

▲Admission Pathway, please refer to page 54 for more details.

*Entrance scores are indicative for 2022 entry and are subject to change. Applicants require a comparable score to be considered for admission into our Bachelor programs. Applicants who do not meet this minimum entry score will be considered for admission into a Bond University College pathway program. In addition to our minimum University admission requirements, some of our Bachelor programs may require applicants to have achieved a higher minimum entry score standard, subject prerequisites, and / or some other additional selection criteria. IB score refers to the achieved scores for the IB Diploma award.

**Portfolio entry may be possible with minimum ATAR of 65

^oPrerequisites are required for entry into these programs. Refer to program listings for details.

[^]Medical Program is comprised of two sequential degrees - Bachelor of Medical Studies and Doctor of Medicine. Applications for Medical Program must be lodged through QTAC.

^{**}Please refer to semester start dates for each undergraduate and postgraduate program to determine length of completion of both degrees. Enrolment into the postgraduate program will be conditional on academic performance and / or interview.

HOW IS A DEGREE STRUCTURED?

Applicants who have not previously studied at university would normally enrol in an undergraduate bachelor's degree or diploma.

ENTRY REQUIREMENTS

Admission to a bachelor's degree is based on Year 12 academic results (ATAR, IB or equivalent) or on the completion of a recognised pathway program.

From 2020, the Australian Tertiary Admissions Rank (ATAR) replaced the Overall Position (OP) as the pathway to tertiary study for Queensland Year 12.

Undergraduate-postgraduate pathways are also in demand. A Bachelor of Commerce and Master of Accounting can be completed in 3 years and 4 months (10 semesters).

This is just one more reason why Bond graduates stand out from the crowd - you could graduate with two degrees in the same time it takes others to complete one.

BACHELOR'S DEGREE

An undergraduate award of 24 subjects which is commonly the entry qualification for many professions or further study. Each subject has a value of 10 credit points (cps). Some subjects may only be worth 5cps; others may be worth 20cps if they involve a major industry project or thesis.

Ultimately, the value of subjects successfully completed will need to total 240cps for a standard bachelor's degree. (Exceptions include Bachelor of Laws and our ^Medical Program.)

PREREQUISITES

Some Bond University programs require specific ATAR subjects as a prerequisite. Please refer to program listings.

MAJORS, MINORS AND DOUBLE MAJORS

A major is a cluster of six subjects selected from one area of specialisation, a minor is four subjects and a double major is 12 subjects.

FOUNDATION SUBJECTS AND ELECTIVES

Each degree will comprise a specified number of compulsory foundation subjects and electives.

In many cases, Bond allows electives to be chosen from any faculty, enabling you to design your degree to suit your individual career ambitions or personal interests.

DIPLOMA

Diplomas are non-degree offerings which are offered in practical and occupational fields of study.

A diploma can also be completed as a pathway for students who do not meet the academic requirements for direct entry into their chosen bachelor's degree.

COMBINED DEGREES

Bond's accelerated schedule inspires many students to undertake a combined degree.

Bachelor of Laws combinations are particularly popular, with the Bachelor of Business / Bachelor of Laws taking just 3 years and 8 months (11 semesters).

WHAT YOUR ATAR REALLY MEANS

The Australian Tertiary Admissions Rank (ATAR) is a number between 0 and 99.95 that indicates your position relative to all the other students who finish Year 12 at the same time. It is worked out by a formula that considers your results from every subject, balancing your strong subjects, your weak subjects and core subjects like English that are essential to further study.

ATAR is used by Australian universities as an entry requirement for various courses, not only as an assessment of academic capability, but also as a way to limit student enrolments according to the number of places available. A high entry ATAR may indicate that there is a strong demand for a particular program but may also mean that there is a high academic standard required for that degree.

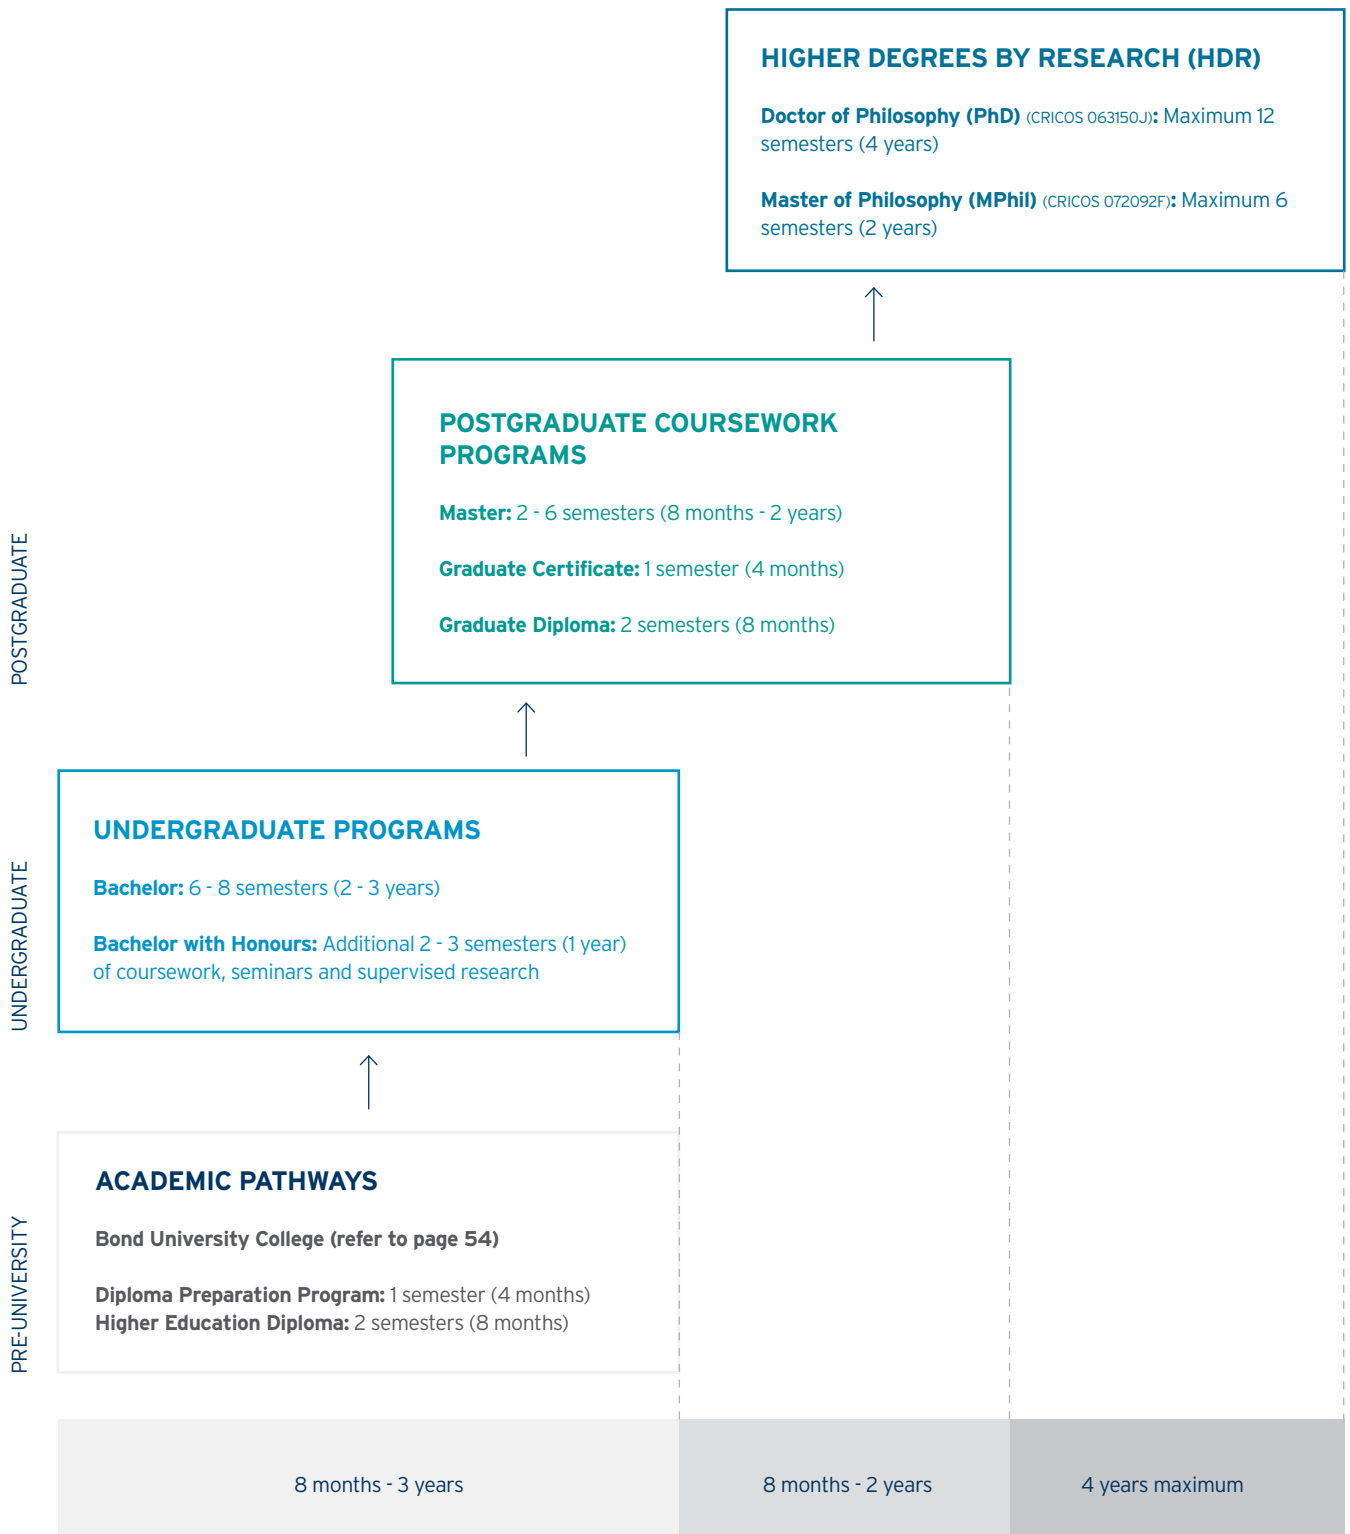

The most important thing is to choose a study program that matches your interests. Whether you're passionate about being a doctor, a lawyer, an entrepreneur or a journalist, you will do well in your studies if you choose the right degree for you.

If your ATAR does not meet the entry requirements for your chosen program or if you chose not to get an ATAR, there are alternative pathways to university study through Preparation Programs and Higher Education Diplomas, such as those offered by Bond University College. Please refer to page 54.

^Medical Program is comprised of two sequential degrees - Bachelor of Medical Studies and Doctor of Medicine. Applications for Medical Program must be lodged through QTAC.

WHAT CAN I STUDY?

Bond University provides options for all levels of tertiary study - from academic preparation programs through to bachelor's, master's and doctorate degrees.

CHISOMO BANZI

NANONEST CREATOR. TRANSFORMER. FUTURE ARCHITECT.

I am passionate about innovation in architecture because...

Climate events, urbanisation and rapid population growth are making cities harder to live in, and smart and sustainably designed built environments will play a large part in solving these issues.

Through my second-year project and the Transformer program I...

Created Nanonest, an architectural system consisting of self-assembling aerial robots that work together to form architectural spaces.

At Bond I've been able to...

Rigorously pursue ideas and solutions with abundant support and resources, and test those ideas in real world situations.

My best advice is...

Take risks and be curious.

The Bachelor of Design in Architecture in a word...

Daring.

Bachelor of Construction Management and Quantity Surveying	Selection Rank ATAR / IB**	Starting	Duration	Fees per semester*
CRICOS Course Code 078183K	65 / 24	Jan May Sep	6 semesters (2 years)	\$15,560

The Bachelor of Construction Management and Quantity Surveying covers a comprehensive range of subjects in the field of construction management and quantity surveying, focusing on the management and delivery of complex construction projects. The curriculum addresses a range of topics including construction technology, construction techniques, plant and equipment, site management, contract administration, building measurement, planning processes and risks. It also contains a strong sustainability theme which equips you with distinctive skill sets that are highly sought after in the built environment.

KEY FEATURES

- Learn in the University's Sustainable Development Building Precinct promoting sustainable practices of tomorrow.
- Graduate with a professionally recognised qualification.
- Apply theoretical knowledge learnt in the classroom to practical settings.

PROFESSIONAL OUTCOMES

The Bachelor of Construction Management and Quantity Surveying will provide you with access to a wide range of career pathways in the construction industry. Opportunities include building and construction management, contract administration, site management, facilities management, building services, quantity surveying, property development, project management, cost management and general management. The skill sets obtained in this degree may also be applied to related sectors such as civil engineering and mining. Graduates will be equipped with a comprehensive knowledge of sustainable development, and will be able to seek work anywhere in Australia or around the world.

PROFESSIONAL RECOGNITION

Students graduating with this degree are internationally recognised by the Royal Institution of Chartered Surveyors (RICS) as well as the Chartered Institute of Building (CIOB). This program is also nationally accredited with the Australian Institute of Quantity Surveyors (AIQS), and meets the educational requirement set by the Queensland Building Construction Commission (QBCC) for the granting of an Open Builders Licence.

Bachelor of Design in Architecture	Selection Rank ATAR / IB**	Starting	Duration	Fees per semester*
CRICOS Course Code 0101291	75^ / 26	Jan May Sep	6 semesters (2 years)	\$15,560

Students undertake the Bachelor of Design in Architecture in a unique setting; the national and international award-winning Abedian School of Architecture. This facility and its associated Fabrication and Robotics Lab are dedicated for student use, creating an environment to support creative activity that is accessible 24 / 7 throughout the year. Students enjoy their own studio-based desk in the school for the duration of their studies, which becomes the point of personalised contact with program staff for an individualised, highly supported education. The limited student cohort size of the School is maintained to ensure all students have unique access to workshop facilities and program staff that is unparalleled almost anywhere globally.

KEY FEATURES

- Experience first-hand state-of-the-art technology including 3D printers, laser cutters, CNC Routers and industrial robots.
- Enjoy learning in small class sizes and a dedicated studio environment.
- Learn from industry-leading architects through tutorials, critiques, competitions and the monthly Architecture Lecture Series.
- Design Charette Experience.
- International study tour.

PROFESSIONAL OUTCOMES

This degree will prepare you with theoretical and practical experience relating to design, problem solving, construction and communication that can be applied to a wide range of careers. Graduates of this degree may gain employment in architectural firms, government, construction, development, infrastructure and planning industries in Australia and around the world. The strategic thinking, visual creativity, public engagement, design and technology skills, and entrepreneurial outlook developed in this degree will provide you with a wide range of career opportunities. Many architectural graduates establish careers in design studios, virtual environment design (such as gaming, cinema and animation), web and graphic design, fashion, advertising, industrial design, arts management and the visual arts.

To become a registered architect, you are required to complete both an undergraduate and postgraduate qualification as well as requisite work experience. Successful completion of the Bachelor of Design in Architecture will enable you to progress to the Master of Architecture.

FURTHER STUDY AT BOND

- Graduate Diploma of Architecture (CRICOS 0101412)
- Master of Architecture (CRICOS 078184J)
- Master of Architecture / Master of Project Management (CRICOS 087931D)

^Portfolio entry may be possible with minimum of ATAR 65.

*Fees per semester are based on an average calculation of 2021 fees and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the year of enrolment. For more information on current fees, visit bond.edu.au/fees. Fees are not inclusive of additional costs such as Student Services and Amenities Fee, accommodation, textbooks and living costs.

**Entrance scores provided are indicative only for 2022 admission and are subject to change.

The Bachelor of Project Management concerns projectised decision-making applicable to a wide range of different industry sectors. It builds on three foundation semesters comprising business acumen, project framework, process analysis and core skill development before three further practice semesters comprising technical, tactical and strategic decision-making. The program includes comprehensive coverage of project schedule, cost, resource, scope, quality, procurement, communications, risk and stakeholder management, two elective choices and concludes with a capstone subject on project integration management.

KEY FEATURES

- Learn how to deliver projects on time, within budget, as specified, and with no surprises.
- Be an effective decision maker.

- Built around the PMBOK® Guide, which is the international standard for the project management discipline.
- Gain critical leadership skills.

PROFESSIONAL OUTCOMES

Project management is a global profession, with over 750,000 certified practitioners in Project Management Institute (PMI) alone. Upon completion of the Bachelor of Project Management you will have the skills most needed to keep up with trends, lead a team and problem solve in today's digital era.

MATT EAGLE

AWARD WINNING ARCHITECT. FOUNDER OF ME.
CLINICAL ASSISTANT PROFESSOR.

"Our buildings shape the identity of our places and profoundly influence the way we interact and engage with our environment and fellow citizens. Our teaching methods focus on the utilisation of a broad range of practice based skills and technologies. We aim to inspire curiosity, empathy and meaningful design focused solutions to real world challenges both globally and locally. No day is ever the same practising as an architect!"

CALLUM ROBERTS

MATHEMATICIAN. SURFER. FUTURE ACTUARY.

I wanted to study actuarial science because...

I've always enjoyed mathematics and problem solving.

I've spent some late nights...

Working on the Big Data Capstone project. We had exclusive use of the advanced computer systems in the Big Data Centre and engaged with industry clientele on a weekly basis.

My advice to new students is...

Be diligent with your studies and take opportunities as they present themselves. Hard work gets rewarded.

In five years I will be...

A Fellow of the Actuary Institute working as an actuary in the insurance industry.

The Bachelor of Actuarial Science in a word...

Inspiring.

Bachelor of Actuarial Science	Selection Rank ATAR / IB	Starting	Duration	Fees per semester*
CRICOS Course Code 083205M	90 / 32	Jan May Sep	6 semesters (2 years)	\$15,560

The Bachelor of Actuarial Science develops techniques for the management of risk and big data analytics. Actuaries combine skills in mathematics, economics, finance and statistics to analyse risk and uncertainty. Accredited by the Actuaries Institute, this program provides Part I (Foundation program) accreditation. Bond is one of only seven universities in Australia to offer the degree, and one of two where you will be trained by specialists in their subject area. It is an excellent program for students who want to learn mathematical and logical reasoning in a business context. There is a focus on the analysis of risk and financial applications, but the quantitative skills acquired can be applied to a broad range of industries.

MAJORS / SPECIALISATIONS

- Big Data
- Finance
- Accounting
- Economics

PROFESSIONAL OUTCOMES

This program serves as a pathway to the Bachelor of Actuarial Science (Honours) (CRICOS 086364E), which provides all the university components of Part II (Actuary Program) Accreditation. Actuaries traditionally have worked in the fields of insurance and superannuation. However, Actuarial Science alumni from Bond University have secured jobs in a wide variety of industries including insurance, banking and finance, professional services and accounting, reserve bank, data analytics consulting, telecommunications, engineering, marketing, mining and government.

DEGREE COMBINATIONS

- Bachelor of Actuarial Science / Bachelor of Laws (CRICOS 093910C)

Bachelor of Actuarial Science (Honours)	Starting	Duration	Fees per semester*
CRICOS Course Code 086364E	Jan May Sep	2 semesters (8 months)	\$20,965

Undertaking the Bachelor of Actuarial Science (Honours) allows students with an Actuarial Science degree to further develop their technical skills and learn how they can be best used within a broader business and economic setting.

You will complete all the Part II (Actuary Program) university subjects. Part II accreditation requires the completion of two subjects which are delivered by the Actuaries Institute in an online environment. It is a requirement to complete Honours (Part II) if you wish to become an Actuary.

An integral part of the Honours degree is the development of research skills and actuarial judgement through the Actuarial Control Cycle subjects and the Actuarial Research Thesis subject.

PROFESSIONAL OUTCOMES

You could work as a highly sought after Actuaries Associate or Actuary in industries including data analytics, marketing, economics, finance, health, insurance and more.

ENTRY REQUIREMENTS

To be considered for entry, students should achieve a minimum Credit average in a relevant undergraduate degree.

*Fees per semester are based on an average calculation of 2021 fees and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the year of enrolment. For more information on current fees, visit bond.edu.au/fees. Fees are not inclusive of additional costs such as Student Services and Amenities Fee, accommodation, textbooks and living costs.

**Entrance scores provided are indicative only for 2022 admission and are subject to change.

Bachelor of Business	Selection Rank ATAR / IB**	Starting	Duration	Fees per semester*
CRICOS Course Code 063055G	65 / 24	Jan May Sep	6 semesters (2 years)	\$15,560

The Bachelor of Business offers a comprehensive multi-disciplinary foundation leading to high level careers in a wide variety of business environments. Bond Business School's strong focus on entrepreneurship and leadership includes the opportunity to develop and launch your own business and teaches you how to contribute to the strategic decision making process as an effective leader and as a member of collaborative and successful teams.

KEY FEATURES

- Access to Bond Business Commercialisation Centre.
- Every student will develop a start-up through our Business Model Generation and Business Model Execution subjects.
- Complete an internship or participate in an international experience (study abroad / exchange program or an international study tour) to further augment this highly practical program.

MAJORS / SPECIALISATIONS

- Entrepreneurship and Innovation
- International Business
- Management
- Marketing
- Marketing Communication
- Tourism Management

PROFESSIONAL OUTCOMES

Graduates are not defined by a field of work, but rather by the manner in which they deliver value for their employers, or themselves. Graduates have gone on to secure jobs with Google and Uber, have started their own businesses and successfully exited for millions of dollars, and have become productive and innovative employees in firms of all types. Additionally, you'll be set up for an analyst role or a coveted leadership training program in multinational enterprises. If you want to apply your knowledge and skills to an array of businesses, the Bachelor of Business prepares you for a career in management consulting, particularly in firms with strong international profiles.

DEGREE COMBINATIONS

- Bachelor of Business / Bachelor of Commerce (CRICOS 088305M)
- Bachelor of Business / Bachelor of Laws (CRICOS 093909G)
- Bachelor of Business / Bachelor of Social Science (CRICOS 088309G)
- Bachelor of International Relations / Bachelor of Business (CRICOS 088310C)

FURTHER STUDY AT BOND

- Doctor of Philosophy (CRICOS 063150J)
- Master of Financial Management (CRICOS 077990J)
- Master of Accounting (CRICOS 063115A)
- Master of Actuarial Science (CRICOS 092654M)
- Master of Business (CRICOS 063119G)
- Master of Business Administration (CRICOS 0101410)
- Master of Business Data Analytics (CRICOS 098313F)
- Master of Finance (CRICOS 063125K)
- Master of Sport Management (CRICOS 096559M)

Bachelor of Business Data Analytics	Selection Rank ATAR / IB**	Starting	Duration	Fees per semester*
CRICOS Course Code 0101005	80 / 28	Jan May Sep	6 semesters (2 years)	\$15,560

The Bachelor of Business Data Analytics program is focused on understanding how data analytics techniques are used to improve business decision making. It is a quantitative program, combining elements of statistics, computing, big data and machine learning. Students will first learn the technical skills, including R and Python languages most commonly used in data analytics programming and implementation; then focus on the practical application, based on actual business problems in a range of industry sectors such as health, marketing and finance.

We teach students to understand the importance of data to modern businesses. The challenges of Data Analytics centre on the need for multiple disciplines to produce employable graduates who understand data analysis, capture, curation, search, sharing, storage, transfer, visualisation and privacy.

Students select one minor from the following:

- Accounting
- Business Economics
- Entrepreneurship and Innovation
- Finance
- Management
- Marketing
- Tourism Management

PROFESSIONAL OUTCOMES

The growing unmet demand for graduates equipped to analyse and interpret increasingly complex and vast amount of data is at a critical phase in Australia, and indeed, in other parts of the world. There are endless opportunities and a huge demand.

- Data Analyst
- Data Scientist
- Statistics Consultant

Bachelor of Commerce	Selection Rank ATAR / IB**	Starting	Duration	Fees per semester*
CRICOS Course Code 063059D	65 / 24	Jan May Sep	6 semesters (2 years)	\$15,560

If you want a career that has global relevance to business, governments, economies, and society, then the Bachelor of Commerce is for you. This program prepares you for specialist disciplines or professions like accounting, actuarial science, data analysis, economics, and finance, and you will gain technical and practical knowledge and skills relevant to your chosen field. Your analytical abilities and problem solving capabilities will be key to responding to the disruptive changes occurring in all aspects of business and society due to digitalisation and technical advancements, and you will have plenty of opportunities to hone these skills and be effective in your chosen career. We seek to prepare our Commerce students for the future of work in a rapidly changing environment, and our authentic learning activities will help set you up for that future through the use of real world cases, professional knowledge bases and resources, contemporary software platforms, and technologies actually in use by business and professionals.

KEY FEATURES

- Have unparalleled access to 40 Bloomberg terminals in the Bond FinTech Hub and have the opportunity to gain Bloomberg certification during your studies at no extra cost.
- Recognised worldwide, completion of the program certifies that the individual has attained a high level of competency using the Bloomberg professional service used in finance and banking.
- A pathway to professional membership, most of our majors are recognised and/or accredited with their respective professional bodies as providing the educational requirements for entry to their professional programs.

MAJORS / SPECIALISATIONS

- Accounting
- Actuarial Science
- Big Data
- Economics
- Finance

PROFESSIONAL OUTCOMES

The Bachelor of Commerce is accepted around the world by leading employers in the commercial and public sectors. Graduates can work in a range of fields, as specialists or professionals. Their knowledge and skills are relevant for all types and sizes of business, whether start-ups or large multinational corporations, specialist organisations, government departments, or as consultants or researchers.

DEGREE COMBINATIONS

- Bachelor of Business / Bachelor of Commerce (CRICOS 088305M)
- Bachelor of Commerce / Bachelor of Laws (CRICOS 093908G)

Bachelor of Entrepreneurial Transformation	Selection Rank ATAR / IB**	Starting	Duration	Fees per semester*
	65 / 24	Jan May Sep	6 semesters (2 years)	\$15,560

The Bachelor of Entrepreneurial Transformation prepares graduates for professional and transdisciplinary roles in the modern ever-changing work environment with the inclusion of an immersive industry-based learning program. Students will also explore global sustainable development goals through the completion of a collaborative and creative design studio option.

PROFESSIONAL OUTCOMES

On successful completion of this program the learner will be able to:

- Apply appropriate analytical methods and design tools to create meaningful and consumable information.
- Create transformation in a personal, organisational and societal context.

- Evaluate the risks and costs associated with strategic change.
- Identify and communicate organisational challenges to a range of audiences.
- Apply sound moral reasoning and appropriate legal and ethical judgement in diverse situations.
- Implement design thinking strategies and methodologies when addressing complex problems.

*Fees per semester are based on an average calculation of 2021 fees and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the year of enrolment. For more information on current fees, visit bond.edu.au/fees. Studying a Bachelor of International Hotel and Tourism Management opens international job opportunities in the massive travel, hospitality, leisure, and entertainment sectors.

You will learn about the main revenue and cost centres that drive hospitality and tourism businesses and about the strategies managers use to achieve success. In event management subjects you will learn about the creative development process, project management, and you will develop and run a live event as part of your industry applied learning.

Our students get paid work experience with many of the major hotels, theme parks, convention and event venue providers, and event management companies on the Gold Coast

KEY FEATURES

- Undertake an Industry Experience Placement or an Employment Activity as part of the Beyond Bond program.

- Travel overseas or domestically for approved placements mid-program.
- Networking events each semester for students to make industry contacts and potentially find an internship or job opportunity.

DR COLETTE SOUTHAM

TEACHING EXCELLENCE AWARD. FOUNDER OF BUSINESS
CASE NETWORK. ASSOCIATE PROFESSOR OF FINANCE.

"I am passionate about teaching with business cases because it will help you to make better decisions. Case learning will develop your analytical and communication skills and give you the confidence to tackle any business problem you will encounter in your career."

MAEVE MORONEY

ARTS STUDENT. SWIM TEACHER. GLOBAL CITIZEN.

My first love is...

Arts and the Humanities. I always knew I wanted to study something in this area.

My best advice is...

Make sure you persist with new experiences for at least two semesters. New students face a lot of changes, so make sure you give things a genuine try so you can make informed, important decisions.

Outside of university I...

Am a learn-to-swim teacher, ocean swimmer, hockey player, and have recently completed a half marathon.

In five years I will have...

Graduated, and have spent some time travelling and visiting some of the exchange students I've become friends with at Bond. I will also have completed lots of work experience and will be well into my career.

The Bachelor of Arts in a word...

Unique.

Bachelor of Arts	Selection Rank ATAR / IB**	Starting	Duration	Fees per semester*

The Bachelor of Creative Arts is an innovative program that tailors its offerings to your unique ambitions and interests. The personalised nature of the program empowers you to identify your own ambitions, then equips you with the skills, theory and practice to navigate existing pathways – or design your own. Creative Arts students will begin with a creative writing foundation to develop a range of foundation skills in creative thinking and narrative. You will also select a specialist creative major. Within the creative specialisation, you will learn through a hands-on, project-based approach to learning, where you are encouraged to develop industry relationships, undertake creative internships and practice and publish within your chosen creative niches. The flexible program enables students to ground their creative endeavours within an additional major from Humanities or Business. In the final stages of your degree, you will have the opportunity to develop a capstone creative work project, knitting together your three selected content areas together into a major portfolio piece showcasing your skills and talents.

CREATIVE MAJOR OPTIONS

- Advertising
- Communication
- Corporate Storytelling
- Digital Media
- Film and Television
- Media Studies
- Public Relations
- Social Media

HUMANITIES MAJOR OPTIONS

- Advertising
- Australian Studies
- Chinese Language and Culture
- Communication
- Counselling Interventions
- Criminology
- Digital Media
- Film and Television
- French Language and Culture
- Global Studies (Sustainability)
- International Relations
- Japanese Language and Culture

- Language and Culture
- Media Studies
- Philosophy
- Psychology
- Public Relations
- Social Media
- Spanish Language and Culture

BUSINESS MAJOR OPTIONS

- Entrepreneurship and Innovation
- Marketing Communication
- Marketing

PROFESSIONAL OUTCOMES

Graduates of this program will be equipped for success in both creative and corporate environments and have the ability to integrate contemporary theory with cutting-edge creative practice, incorporating digital technologies. You will have critical and analytical cognitive skills, as well as the ability to consolidate and synthesise knowledge within your chosen discipline areas. You will also have the technical and creative skills for problem solving, the ability to craft narratives that resonate with audiences, an understanding of the market and cultural forces that drive the creative industries, a command for the technologies of new-media storytelling and the flexibility to apply your creative practice to a range of industries.

You can expect to find a wide range of employment opportunities in the creative industries and various external industries depending on your chosen majors. This could include creative arts roles such as: creative writing, publishing, screenwriting, screen production, journalism (including long-form writing and documentary production), content creation, brand journalism, Podcasting, copywriting, social and digital media content creation, digital curatorship, graphic design, games writing, TV production, multi-media design, video animation, and creative direction. Graduates could also work in creative or communications roles within other industries, for example communications and content creation in corporate, political or not-for-profit sectors. Students may also start their own business or work on a freelance basis.

The Bachelor of Digital Transformation prepares graduates for professional and transdisciplinary roles in the modern ever-changing work environment with the inclusion of an immersive industry-based learning program. Students will also explore global sustainable development goals through the completion of a collaborative and creative design studio option.

PROFESSIONAL OUTCOMES

On successful completion of this program the learner will be able to:

- Formulate appropriate frameworks to identify technological innovation and its impact on a variety of social processes.
- Apply concepts and models of organisational and technological change to complex transformation problems.

- Evaluate and report cultural and technical risks and opportunities in a digital capacity.
- Develop projects to enhance individual and organisational capabilities across key stages of digital transformation.
- Collaborate effectively with colleagues and clients in change processes.
- Synthesise historical and cultural factors with emerging social, technological, and economic demands for change.

Bachelor of Film and Television	Selection Rank ATAR / IB**	Starting	Duration	Fees per semester*
CRICOS Course Code 063066E	65 / 24	Jan May Sep	6 semesters (2 years)	\$15,560

The Bachelor of Film and Television is a heavily hands-on and project-based degree, which allows students to balance practical filmmaking production experience with creative practice theory, which enables them to explore and develop their individual creativity and artistic voice. This comprehensive filmmaking program is focused on visual storytelling through the key creative areas of producing, screenwriting, directing, cinematography, editing, sound design, production design, and television broadcasting. Teaching is by staff with long professional careers in the film, television and screen-based industries. Students acquire craft skills in modern production techniques, using professional filmmaking equipment and technologies. Students develop strong visual aesthetics, and storytelling capabilities, and receive insight into the business and industrial aspects of the international film, television and screen-based industries.

The Bachelor of Journalism is driven by a digital-first ethos and grounded in core journalistic traditions and values of truth, fairness and accuracy. This approach empowers students to harness and exploit established and emerging technologies to create career opportunities and new pathways. Students learn to conceptualise and create original and compelling content across platforms and are encouraged to use digital storytelling to engage with social issues and advocate for change. Throughout their degree, students build a substantial portfolio of practical work aligned with industry standards, in the process defining themselves as specialised professionals via a choice of real-world majors and minors. Students have access to world-class facilities and opportunities to report for local, national and international media outlets. We offer journalism and digital media internships in Australia and abroad, including New York, Washington, Beijing and London.

KEY FEATURES

- Tailored study opportunities with the choice from 20 specialist majors.
- Learn practical and relevant skills from experienced industry professionals.
- Enhanced learning experience through small class sizes and accelerated degree options.

MAJORS / SPECIALISATIONS

- Advertising
- Australian Studies
- Business Context and Environment
- Chinese Language and Culture
- Communication
- Corporate Storytelling
- Creative Writing
- Criminology

Students are advised to check the degree study structures online to confirm for which subjects they may receive credit.

ROB LAYTON

JOURNALISM EDUCATOR.
SMARTPHONE CONTENT CREATOR.
SENIOR TEACHING FELLOW.

"Great change brings great opportunity. Storytelling practices that were once elite are now in the hands of everyday users, thanks to mobile technologies. That smartphone you are holding is your gateway to the world. My role is to help you open the door."

GYAN WIJEKULASURIYA

RESEARCHER. EXERCISE AND SPORTS SCIENCE FANATIC. GOAL SHOOTER.

I chose to study exercise and sports science because...

I wanted to learn more about sport, physiology and exercise and gain a strong foundation before moving into further study.

When I'm not at university you'll find me...

Playing netball or one of the other many social sports on campus.

In five years I will be...

Studying my PhD and hopefully travelling to the Paris 2024 Summer Olympics as part of the support staff for the Australian Olympic Team.

My best advice is...

The more involved you get, the more Bond gives to you. The Bond experience is unique in that you have the opportunity to participate in bespoke activities which are often tailored just for you. Also, get involved in campus life and make friends! Bondies help Bondies and that community is what makes the university special.

The Bachelor of Exercise Science in a Word...

Unforgettable.

Bachelor of Biomedical Science	Selection Rank ATAR / IB**	Starting	Duration	Fees per semester*
CRICOS Course Code 063085B	80 / 28	Jan May	6 semesters (2 years)	\$15,560

The Bachelor of Biomedical Science provides you with the ideal undergraduate foundation for a career in medicine and health sciences. The accelerated program develops your knowledge in the molecular, cellular, anatomical and physiological processes of the human body and prepares you for graduate entry programs such as medicine and the allied health professions.

You will have the opportunity to focus your studies in the last few semesters in a major relevant to your area of interest. The majors are designed to develop detailed knowledge and skills relevant to the particular discipline of study undertaken, providing structured pathways to specialist postgraduate study.

Extensive laboratory training from the first semester, as well as case studies and problem solving techniques are applied within a variety of clinical, research and allied healthcare settings.

KEY FEATURES

- Broad science degree with pathways into a number of areas including medicine, physiotherapy, nutrition and dietetics, and occupational therapy and research.
- Small class sizes provides greater access to academics.
- Ability to learn using the latest virtual reality and augmented reality programs, developed by your own teachers.

MAJORS / SPECIALISATIONS

- Laboratory / Research
- Pre-Health Professional

ENTRY REQUIREMENTS

Entry into this program requires successful completion of prerequisite subjects:

- English; and either
- Mathematical Methods or Physics or equivalent

PROFESSIONAL OUTCOMES

The broad scope of the Bachelor of Biomedical Science program assists graduates to enter a wide range of professions that may include:

- Health Promotion Officer
- Laboratory Assistant / Technician
- Medical Equipment Officer
- Pathways to other health professions or medical research

The program provides the ideal foundation for you to pursue postgraduate studies for a career in medicine or health sciences such as medical research, pharmacy, nutrition and dietetics, occupational therapy, as well as broader public health programs.

FURTHER STUDY AT BOND

Students who complete the Bachelor of Biomedical Science, and meet the entry requirements may apply for the following Bond University programs:

- Doctor of Physiotherapy (CRICOS 075478G)
- Master of Nutrition and Dietetic Practice (CRICOS 089734D)
- Master of Occupational Therapy (CRICOS 090670E)

Domestic and international students eligible to graduate from the Bond University Bachelor of Biomedical Science (in the Pre-Health Professional major), meeting the minimum required GPA will be eligible to be considered for selection to enter Year 2 of the Bachelor of Medical Studies (BMedSt) (CRICOS 0101292) at Bond University.

In addition, you can also undertake research-based honours studies, or a Master of Science By Research leading to a PhD.

*Fees per semester are based on an average calculation of 2021 fees and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the year of enrolment. For more information on current fees, visit bond.edu.au/fees. Fees are not inclusive of additional costs such as Student Services and Amenities Fee, accommodation, textbooks and living costs.

**Entrance scores provided are indicative only for 2022 admission and are subject to change.

Bachelor of Exercise and Sports Performance	Selection Rank ATAR / IB**	Starting	Duration	Fees per semester*
CRICOS Course Code 0100510	70 / 25	Sep	6 semesters (2 years)	\$15,560

The Bond University Bachelor of Exercise and Sports Performance equips you with comprehensive understanding of the basic and applied sciences as they apply to personal and community health and fitness, and sport performance at all levels.

Drawing on the Faculty expertise from Health Sciences & Medicine, Society & Design and Bond Business School, the Bachelor of Exercise & Sports Performance combines the anatomical sciences and physiology of sports performance with the flexibility to tailor your studies to your interests including a business-focussed discipline of your choice.

The program is delivered at world-class Bond Institute of Health & Sport, where you will gain exceptional and high-quality practical experience in our award winning facilities.

ENTRY REQUIREMENTS

Entry into this program requires successful completion of prerequisite subjects:

- English
- Mathematics at the level of General Mathematics or equivalent
- One (1) of Physical Education or Biology or Chemistry or Physics or equivalent.

PROFESSIONAL OUTCOMES

The Bachelor of Exercise and Sports Performance will equip you with a strong understanding of exercise and sport performance. Graduates of this degree may seek employment in a range of careers around the world that may include:

- Community Health
- Community Fitness
- Corporate Health
- Disability
- Athletic / Sport Program Coordinator
- Strength and Conditioning in community, school, college or university settings

The Bachelor of Exercise and Sports Performance also provides you with an accelerated[^] undergraduate pathway to postgraduate studies in physiotherapy, occupational therapy, nutrition and dietetics, as well as broader sporting and allied health programs. Students who complete the Bachelor of Exercise and Sports Performance, and meet the entry requirements may apply for the following Bond University programs:

- Doctor of Physiotherapy (CRICOS 075478G)
- Master of Nutrition and Dietetic Practice (CRICOS 089734D)
- Master of Occupational Therapy (CRICOS 090670E)

You can also undertake higher degree qualifications by research in areas such as strength and conditioning through research-based honours studies, leading to a PhD.

[^]Please refer to semester start dates for each undergraduate and postgraduate program to determine length of completion of both degrees.

*Fees per semester are based on an average calculation of 2021 fees and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the year of enrolment. For more information on current fees, visit bond.edu.au/fees. Fees are not inclusive of additional costs such as Student Services and Amenities Fee, accommodation, textbooks and living costs.

**Entrance scores provided are indicative only for 2022 admission and are subject to change.

Bachelor of Exercise and Sports Science	Selection Rank ATAR / IB**	Starting	Duration	Fees per semester*
CRICOS Course Code 080641D	70 / 25	Jan	6 semesters (2 years)	\$15,560

The Bachelor of Exercise and Sports Science offers a comprehensive, science-based curriculum covering human anatomy and physiology, exercise and sport physiology, exercise biochemistry, molecular biology, biomechanics, motor learning and control, exercise and sports psychology.

Throughout the program, you will be involved in delivering a wide range of athlete testing, performance analysis and exercise prescriptions for non-athletes as well as strength and conditioning opportunities for high-performance athletes.

Practical experience is embedded throughout with a minimum of 140 hours of internship experience in a variety of settings, a capstone work-based research project and the opportunity to undertake an international placement.

The program is delivered at the world-class Bond Institute of Health & Sport, where you will gain exceptional and high-quality practical experience in our award winning facilities.

ENTRY REQUIREMENTS

Entry into this program requires successful completion of:

- English
- Mathematics at the level of General Mathematics or equivalent
- One (1) of Physical Education or Biology or Chemistry or Physics or equivalent.

PROFESSIONAL OUTCOMES

The Bachelor of Exercise and Sports Science will equip you with a strong understanding of exercise and sport science, and graduates of this degree may seek employment in a range of careers in Australia and around the world that may include:

- Accredited exercise scientist
- Accredited strength and conditioning coach
- Athletic/sport program coordinator
- Corporate and community health and fitness consultant

The Bachelor of Exercise and Sports Science also provides you with an accelerated^ undergraduate pathway to postgraduate studies in physiotherapy, occupational therapy, nutrition and dietetics, as well as broader sporting and allied health programs.

FURTHER STUDY AT BOND

Students who complete the Bachelor of Exercise and Sports Science, and meet the entry requirements may apply for the following Bond University programs:

- Master of Nutrition and Dietetic Practice (CRICOS 089734D)
- Master of Occupational Therapy (CRICOS 090670E)

You can also undertake higher degree qualifications by research in areas such as strength and conditioning through research-based honours studies, leading to a PhD.

^Please refer to semester start dates for each undergraduate and postgraduate program to determine length of completion of both degrees.

Bachelor of Health Sciences	Selection Rank ATAR / IB**	Starting	Duration	Fees per semester*
CRICOS Course Code 063068C	65 / 24	Jan May Sep	6 semesters (2 years)	\$15,560

The Bond University Bachelor of Health Sciences is designed for students who wish to explore a variety of disciplines in the health sciences, as well as providing a pathway to postgraduate specialised study.

During this program, you will gain an understanding of basic and applied sciences including the anatomical, molecular, physiological and psychological processes of human health and function.

The program provides a degree of flexibility, enabling you to select a variety of subjects to explore which best suit your career and study goals.

This program provides an undergraduate pathway into Bond University's Master of Occupational Therapy, Master of Nutrition and Dietetic Practice, or research-based honours.

PROFESSIONAL OUTCOMES

The Bachelor of Health Sciences will equip you with a strong foundational understanding of the health sciences. Graduates of this degree may seek employment in a range of careers in Australia and around the world that may include:

- Health Promotion
- Community Health

- Health Education
- Health Officer
- Health Administration
- Laboratory Assistant
- Clinical Trials or Drug Registration
- Intellectual Property
- Pathways to study other health professions

The Bachelor of Health Sciences will provide you with a variety of career opportunities as well as an accelerated undergraduate pathway to graduate-entry studies in registered health professions such as occupational therapy, nutrition and dietetics, as well as broader public health programs and the education sector.

FURTHER STUDY AT BOND

Students who complete the Bachelor of Health Sciences, and meet the entry requirements may apply for the following Bond University programs:

- Master of Nutrition and Dietetic Practice (CRICOS 089734D)
- Master of Occupational Therapy (CRICOS 090670E)

You can also undertake research-based honours studies, leading to a Master of Science by Research and PhD programs.

Bachelor of Health Sciences (Honours)

Starting

Duration

Fees per semester*

CRICOS Course Code 063044M

Jan

3 semesters
(1 year)

\$11,670

The Bachelor of Health Sciences (Honours) is a one-year program of independent research and study culminating in the production of a research thesis and presentation of a research seminar. Students undertake a program of coursework and research in which they conceptualise, plan, organise, undertake and report on an independent research project, whilst being supervised by a member of the academic staff. Projects in the numerous disciplines vary on an annual basis.

FURTHER STUDY AT BOND

The Honours program provides a pathway to postgraduate study, typically Master of Science by Research (Health Sciences) (CRICOS 073729K) or Doctor of Philosophy (Health Sciences & Medicine) (CRICOS 063150J).

PROFESSIONAL OUTCOMES

Graduates may also seek employment as research assistants in various industries.

May
Sep

6 semesters
(2 years)

\$15,560

The Bachelor of Health Transformation prepares graduates for professional and transdisciplinary roles in the modern ever-changing work environment with the inclusion of an immersive industry-based learning program. Students will also explore global sustainable development goals through the completion of a collaborative and creative design studio option.

PROFESSIONAL OUTCOMES

On successful completion of this program the learner will be able to:

- Contextualise current healthcare systems and the potential opportunities for change within those systems.

- Implement an evidence-based approach to identify possible solutions to healthcare problems.
- Investigate transdisciplinary considerations that impact healthcare priorities and potential innovations.
- Apply collaborative and adaptive approaches to transcultural, ethical and sustainable changes in healthcare.
- Apply principles of advocacy and social entrepreneurship to address healthcare issues.
- Understand how legal and ethical responsibilities, sustainability, and commercialisation impact modern healthcare.

Medical Program [^]	Starting	Duration	Fees per semester*
Bachelor of Medical Studies (BMedSt) CRICOS Course Code 0101292	May	8 semesters (2 years 8 months)	\$28,960
Doctor of Medicine (MD) CRICOS Course Code 0101293		6 semesters (2 years)	\$28,960
		TOTAL 14 semesters (4 years 8 months)	

The Medical Program is designed to equip graduates with the foundational knowledge, skills and attributes required to safely and effectively practise medicine in today's complex healthcare environment. The first of Bond's two-part Medical Program - Bachelor of Medical Studies (BMedSt), is distinguished by its strong educational focus on small group learning, interactive workshops and clinical simulation.

The second of Bond's two-part Medical Program - Doctor of Medicine (MD), must be completed for students to be eligible for registration as a medical practitioner in any state or territory in Australia or New Zealand. The MD is distinguished by its strong focus on evidence-based medicine and integrated clinical practice.

BACHELOR OF MEDICAL STUDIES (BMedST)

The Bachelor of Medical Studies (BMedSt) is the first of two sequential degrees at Bond University that must be completed in order to be eligible to practise medicine. The Bachelor of Medical Studies is an undergraduate program, sitting at Level 7 of the Australian Qualifications Framework.

The Bachelor of Medical Studies is designed to equip graduates with the foundational knowledge, skills and attributes required to safely and effectively practise medicine in today's complex healthcare environment.

The program is distinguished by its strong educational focus on small group learning, small group medicine and integrated clinical practice. Due to small class sizes, students learn in a highly personalised environment with state-of-the-art equipment. Students benefit from a variety of teaching and learning systems, including small group learning, practical classes, clinical skills and laboratory training, self-directed learning, web-based and e-learning, interactive seminars and lectures. This contemporary approach to medical education ensures that learning relates directly to patient care and prepares graduates to assume a high level of responsibility.

The Bachelor of Medical Studies comprises eight semesters delivered over two years and eight months, and is followed by the Doctor of Medicine comprised of six semesters delivered over two years. The two sequential degrees are 14 semesters in total and are equivalent to seven standard academic years in duration. However, with Bond University's three-semester-per-year timetable and intensive clinical training periods, these two programs are completed in just four years and eight months, with graduates then eligible to apply for hospital internships.

FURTHER STUDY AT BOND

Students who successfully complete the Bachelor of Medical Studies proceed directly into the Doctor of Medicine program.

DOCTOR OF MEDICINE (MD)

The Doctor of Medicine (MD) component is an extended master's level program and is undertaken through clinical rotations in hospital and community healthcare settings, as well as face-to-face teaching at timetabled education sessions. During this time, students undertake a research or professional project, or a capstone experience and prepare a portfolio of their work.

PROFESSIONAL OUTCOMES

Graduates of the sequential degrees (BMedSt and MD) will have the appropriate knowledge, attitudes and skills to function effectively as interns in Australian hospitals and will be ideally positioned to undergo further training in any of the Australasian specialty colleges.

Our previous Medical graduates have secured internships in hospitals across Australia and New Zealand.

PROFESSIONAL RECOGNITION

The Bachelor of Medical Studies and Doctor of Medicine degrees are accredited by the Australian Medical Council (AMC) ensuring that they meet or exceed the agreed national guidelines for medical education. Upon successful completion of both of the degrees, graduates are eligible for registration as a medical practitioner in any state or territory in Australia or New Zealand.

[^]The Medical Program is comprised of two sequential degrees - the Bachelor of Medical Studies (BMedSt) and the Doctor of Medicine (MD). Applications for Medical Program must be lodged through QTAC.
All students selected for entry into the Medical Program will have to complete both the BMedSt and MD to be eligible for registration as a medical practitioner in any state or territory in Australia or New Zealand. Both degrees are awarded at the completion of Year 5.

Diploma of Health Sciences

Fees per
semester*

CRICOS Course Code 093260K

60

Jan
Sep

2 semesters
(8 months)

\$15,560

The Diploma of Health Sciences offers a broad foundation in biological and chemical sciences where you will gain an understanding of basic and applied sciences, including the anatomical, molecular and physiological processes of human health and function, in a supported learning environment. You will develop technical scientific and research skills using some of the latest research equipment, which can be applied across a broad range of industries.

KEY FEATURES

- Complete your diploma in only eight months.
- Integrate into the University environment from day one.
- Have the support of extra tutorials just for diploma students.
- Articulate into the third semester of a Bond undergraduate degree.

FURTHER STUDY AT BOND

Successful completion of the Diploma of Health Sciences guarantees students a place in Bond's Bachelor of Health Sciences with 80 credit points credited to the degree.

The Diploma of Health Sciences is also a pathway into other bachelor's degrees with varying credit.

Completing the Diploma of Health Sciences satisfies the prerequisite subjects required for entry to the Bachelor of Biomedical Science (CRICOS 063085B), Bachelor of Exercise and Sports Science (CRICOS 080641D) and Bachelor of Exercise and Sports Performance (CRICOS 0100510).

DR CHRISTIAN MORO

NATIONAL AND INTERNATIONAL AWARD WINNER. SCIENCE
AND SCHOLARSHIP DOMAIN LEAD. ASSOCIATE PROFESSOR.

"A degree in sciences or medicine opens a wide variety of doors for our graduates,
and it's been incredible seeing so many achieve their goals".

ERIN CRONIN

IR STUDENT. HONORARY BELGIAN. FUTURE EUROPEAN RESIDENT.

I've always had an interest in....

Global affairs and working internationally, and International Relations provides me the skills to do both.

In 2019 I...

Spent a semester living and studying in Brussels, Belgium.

In five years I will be...

Living in Europe, starting a career which allows me to apply the knowledge and skills I've learned at Bond.

My best advice is...

Be willing to step outside your comfort zone and try something new while you're at uni; you might find an area you love!

The Bachelor of International Relations in a word...

Fascinating.

Bachelor of Arts	Selection Rank ATAR / IB**	Starting	Duration	Fees per semester*

- Spanish Language and Culture

PROFESSIONAL OUTCOMES

The Bachelor of Arts provides students with a strong and broad set of skills essential to all professions, no matter what the chosen career.

Bachelor of Global Studies (Sustainability)	Selection Rank ATAR / IB**	Starting	Duration	Fees per semester*
CRICOS Course Code 078186G	65 / 24	Jan May Sep	6 semesters (2 years)	\$15,560

The Bachelor of Global Studies (Sustainability) is a unique interdisciplinary degree which equips students with a capacity to formulate solutions to the challenges of globalisation and the development of sustainable communities. The structure of the program follows world megatrends, reflected in the interconnectivity and interplay within diverse fields of study: climate change, sustainable development, global health and disease, international institutions and transnational business. The program also aims to prepare students for fronting increased human security threats through sustained transnational collaboration. The global dialogue needed for the security of globalised communities requires competencies in international relations, diplomacy and intercultural partnership. The Bachelor of Global Studies (Sustainability) develops an active global citizen with knowledge and skills enabling them to contribute to the development of sustainable societies of the future.

SUBJECTS

- Introduction to International Relations OR Geopolitics
- Diplomacy: Theory and Practice
- World Languages
- International Business
- Climate Change and the Future World
- Sustainable Development and Society
- Contemporary Globalisations
- Economics of Sustainable Development
- Terrorism
- Global Health Issues
- Capstone or Internship

View full program structure and subject list online.

MAJORS / SPECIALISATIONS

- International Relations
- Australian Studies
- Digital Media
- Global Business
- Language and Culture (choice of either Chinese, French, Japanese or Spanish)

PROFESSIONAL OUTCOMES

This degree will provide you with an understanding of critical sustainability issues in the global and local contexts. You will have cognitive skills to identify, analyse and synthesise knowledge relating to different causes and possible solutions for global sustainability challenges. Potential career pathways include:

- Agriculture and fisheries
- Community development
- Diplomacy
- Environmental impact assessment
- Ethical supply chain management
- Foreign trade

*Fees per semester are based on an average calculation of 2021 fees and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the year of enrolment. For more information on current fees, visit bond.edu.au/fees. Fees are not inclusive of additional costs such as Student Services and Amenities Fee, accommodation, textbooks and living costs.

**Entrance scores provided are indicative only for 2022 admission and are subject to change.

The Bachelor of International Relations prepares students for fascinating careers in a globalising world. Global and regional interdependence means that no state is unaffected by developments beyond its borders. Prosperity and security are based on international orientations. Businesses, governments and organisations need people equipped not only with relevant professional skills, but also with competencies in International Relations. Students explore a rich variety of interconnected issues in International Relations and the factors which shape them, including war and peace on our planet, human security, diplomacy, governance and the influence of climate change on the future world. Graduates of the program will gain an insight into the politics, economy and diplomacy both in Australia and other world geographic regions. An in-depth understanding of the world around us and the skills needed for its interpretation, equip students for their future employment in international relations and many other areas where such capacities are required.

SUBJECTS

- Introduction to International Relations
- Hacking, Networks and Security
- Australian Public and Foreign Policy
- The United Nations
- Public Diplomacy and Social Media
- Political Economy
- Terrorism
- China's Defence Policy
- Eurasia
- Australia and the Asia-Pacific
- Diplomacy: Theory and Practice

- Contemporary Globalisations
- Peace and War
- The Americas
- Climate Change and the Future World
- World Languages
- Asia's Rising Powers
- The New Europe
- Africa and the Middle East
- Political Philosophy: Freedom, Justice and the State
- Geopolitics

View full program structure and subject list online.

PROFESSIONAL OUTCOMES

This degree will give you a global perspective to suit your areas of interest and professional goals while developing the skill base necessary to operate in a global environment. Potential career pathways include:

- Defence
- Diplomacy
- Foreign affairs
- International business
- Media
- Trade

The Bachelor of Policy, Philosophy and Economics at Bond University draws on legal policy, government, philosophy and economics themes to prepare graduates for a career in public governance, public leadership and ultimately public influence. Encompassing subjects from the Faculty of Law, Bond Business School and Faculty of Society & Design, this truly multi-disciplinary program will prepare adaptable students for the fast-paced global demands of the 21st century. During this degree you will study the global challenges faced by changing institutional and geo-political structures, search for practical solutions, draw on theory and history from economics, law and international relations, all set within the context of dynamic and multicultural value systems.

PROFESSIONAL OUTCOMES

The Bachelor of Policy, Philosophy and Economics equips students for future positions in the public sector, including career opportunities in the public service, politics, public policy institutes, advocacy groups and the not-for-profit sector. Such as:

- Policy Officer
- Senior Advisor
- Legal Research Officer
- Public Policy Officer
- Public Advocacy Fellow
- and more

The Diploma of Arts opens up a wide range of career and further study opportunities in disciplines including Communication, Creative Arts, Film and Television, Global Studies (Sustainability), Humanities, International Relations, Journalism, Policy, Philosophy and Economics, Psychological Science and Social Science.

The Diploma of Arts will teach students core skills to enhance their career prospects, whether that be a student fresh out of school or someone wishing to upgrade their qualifications.

KEY FEATURES

- Complete your diploma in only eight months.
- Integrate into the University environment from day one.
- Have the support of extra tutorials just for diploma students.
- Articulate into the third semester of the corresponding bachelor program.

FURTHER STUDY AT BOND

Successful completion of the Diploma of Arts guarantees students a place in most undergraduate degrees at Bond University, with a possible 80 credit points credited towards their new program of study. Students are advised to check the degree study structures online to confirm for which subjects they may receive credit.

Opportunities to participate in technologically enhanced simulation based learning and international Model United Nations experiences.

BECCI TANNENBAUM

LAW STUDENT. MOOTER. FASHION ENTHUSIAST.

I've wanted to be lawyer since...

I was 10 years old. I've always had a passion for public speaking and debating, and a career in law means I can do that every day.

A highlight for me has been...

Taking the start up law elective, it opened so many doors and allowed me to become proficient in a niche area of law.

My best advice is...

Keep your mind open! There are so many opportunities that you may not have even thought of that could pave the way to the perfect career for you.

In five years I will be...

Admitted to the Bar and living the dream at a top-tier law firm in start up law and media and technology.

The Bachelor of Laws in a word...

Riveting.

Bachelor of Business Law	Selection Rank ATAR / IB**	Starting	Duration	Fees per semester*
CRICOS Course Code 063057F	80 / 28	Jan May Sep	6 semesters (2 years)	\$15,560

This degree provides an opportunity to combine legal subjects of particular interest with study in related disciplines such as international business and management.

PROFESSIONAL OUTCOMES

Bond's flexible degree structure permits various combinations of law and non-law subjects. This flexibility enables you to design your program to meet a variety of career interests. Law is increasingly regarded as an excellent preparation for a wide range of careers and is an important source of liberal education within business and management. Careers in banking and finance, teaching, industrial relations, politics and public service are among the many opportunities available to graduates.

PROFESSIONAL RECOGNITION

Unlike the Bachelor of Laws degree, the Bachelor of Business Law is not designed to provide a qualification for the professional practice of law. If you wish to practise law, you must complete a Bachelor of Laws (CRICOS 093922K) or Juris Doctor (CRICOS 093923J) degree and a Graduate Diploma in Legal Practice (CRICOS 098084C).

PROFESSIONAL OUTCOMES

The Bachelor of Arts provides you with a strong and broad set of skills essential to all professions, no matter what the chosen career.

Bachelor of Psychological Science	Selection Rank ATAR / IB**	Starting	Duration	Fees per semester*
CRICOS Course Code 062655C	65 / 24	Jan May Sep	6 semesters (2 years)	\$15,560

The Bachelor of Psychological Science will provide you with a scientific understanding of normal psychological processes such as perception, memory, learning, motivation, psychobiology, personality, emotion, developmental psychology and social relationships, as well as training in abnormal psychology. A basic understanding of these topics is acquired across the two introductory subjects before a greater depth of coverage is undertaken within the advanced second and third level subjects. You will also participate in laboratory work and be introduced to the Australian Psychological Society Code of Ethics. To underpin the scientific nature of the discipline, you will receive training in a range of data analytic techniques and research methods used by psychologists. The program is designed to equip you with the basic scientific grounding and theoretical understanding required for advanced level studies.

PROFESSIONAL OUTCOMES

This degree will qualify you for employment in professional areas such as counselling and various functions associated with human resources. It is also the building block for further studies where you are able to pursue careers in the professional practice of psychology including clinical, organisational or forensic psychology, counselling, clinical neuropsychology, health and community psychology, research and other specialist areas.

PROFESSIONAL RECOGNITION

This program is fully accredited by the Australian Psychology Accreditation Council (APAC) as the equivalent of three years' university training in psychology.

DEGREE COMBINATIONS

- Bachelor of Psychological Science / Bachelor of Laws (CRICOS 093921M)

ALTERNATIVE PATHWAY

The Graduate Diploma in Psychology (Bridging) allows students to fast-track a qualification equivalent to a three-year undergraduate sequence in the discipline of Psychology. It is designed for students who have completed an undergraduate program in a discipline other than psychology, and looking to transition to the pathway required for registration or for students who have completed an undergraduate psychology qualification but have not met the entry threshold to progress to fourth year.

FURTHER STUDY AT BOND

The Bachelor of Psychological Science (Honours) (CRICOS 063047G) is designed to provide students with an integrated, comprehensive, and complete education in the discipline of psychology.

The Graduate Diploma of Psychological Science (CRICOS 063195G) prepares you for entry into a career in psychology (that is provisional registration as a psychologist in addition to two years of supervised training). The Master of Professional Psychology (CRICOS 096695C) and Master of Psychology (Clinical) (CRICOS 063429E) are also offered at postgraduate level.

*Fees per semester are based on an average calculation of 2021 fees and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the year of enrolment. For more information on current fees, visit bond.edu.au/fees. Fees are not inclusive of additional costs such as Student Services and Amenities Fee, accommodation, textbooks and living costs.

**Entrance scores provided are indicative only for 2022 admission and are subject to change.

Bachelor of Psychological Science (Honours)	Starting	Duration	Fees per semester*
CRICOS Course Code 063047G	Jan May Sep	2 semesters (8 months)	\$17,885

The Bachelor of Psychological Science (Honours) is designed to provide students with an integrated, comprehensive, and complete education in the discipline of psychology. Students undertake advanced training in a range of methodological (research methods, psychometrics, statistics) and applied areas, and develop competence in conducting research. All applied material is based on the scientist-practitioner model, and evidence-based approaches to psychological intervention are stressed.

KEY FEATURES

- Access to a dedicated Lab Space with data analysis software, and access to Cognitive Research Labs to perform face-to-face research.
- Advanced theoretical and empirical knowledge in some of the core research areas of the discipline.
- Knowledge of the theoretical and empirical bases underpinning the construction, implementation and interpretation of some of the most widely used cognitive and personality assessments.
- Knowledge of the theoretical and empirical bases underpinning evidenced based approaches to psychological intervention.

- Explaining how the science and practice of psychology is influenced by social, historical, professional and cultural contexts.

The Bachelor of Psychological Science (Honours) prepares graduates for a career in psychology. On completion of this course, graduates may apply for provisional registration as a Psychologist providing they enrol in further postgraduate studies or undertake two years' supervised training.

PROFESSIONAL OUTCOMES

Under supervision, you will be able to pursue careers in the professional practice of psychology including clinical, forensic or organisational psychology, counselling, clinical neuropsychology, health and community psychology, sports psychology, research and other specialist areas.

PROFESSIONAL RECOGNITION

This program is fully accredited by the Australian Psychology Accreditation Council as the equivalent to four years of university training in psychology.

Bachelor of Social Science	Selection Rank ATAR / IB**	Starting	Duration	Fees per semester*
CRICOS Course Code 063082E	65 / 24	Jan May Sep	6 semesters (2 years)	\$15,560

The Bachelor of Social Science encompasses a mix of several disciplines including criminology, psychology, counselling and behaviour management. The program allows you to combine subjects to complete a degree that reflects a specialisation of studies in the social sciences area of the Faculty.

MAJORS / SPECIALISATIONS

- Psychology and Criminology (Combined majors)
- Psychology and Counselling Interventions (Combined majors)
- Criminology and Counselling Interventions (Combined majors)
- Criminology (Double major)

PROFESSIONAL OUTCOMES

This degree will provide you with a basis for working in areas such as welfare, government departments, disability services or as

disability officers or case workers, client support and advocacy, as well as working with behavioural difficulties of children in educational settings. Students who choose a criminology focus will gain the ability to understand a typical behaviour patterns. Those students who combine their studies with psychology will be provided with the basis for understanding the presenting problems with clients in order to develop effective needs-based treatment programs. Students who choose a counselling focus will gain the ability to assess, diagnose and understand human behaviour as well as be able to apply ethical, legal and professional issues in counselling.

DEGREE COMBINATIONS

- Bachelor of Business / Bachelor of Social Science (CRICOS 088309G)

*Fees per semester are based on an average calculation of 2021 fees and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the year of enrolment. For more information on current fees, visit bond.edu.au/fees. Fees are not inclusive of additional costs such as Student Services and Amenities Fee, accommodation, textbooks and living costs.

**Entrance scores provided are indicative only for 2022 admission and are subject to change.

Diploma of Arts	Selection Rank ATAR / IB**	Starting	Duration	Fees per semester*
CRICOS Course Code 0101729	50	Jan May Sep	2 semesters (8 months)	\$15,560

The Diploma of Arts opens up a wide range of career and further study opportunities in disciplines including Communication, Creative Arts, Film and Television, Global Studies (Sustainability), Humanities, International Relations, Journalism, Psychological Science and Social Science. The Diploma of Arts will teach students core skills to enhance their career prospects, whether that be a student fresh out of school or someone wishing to upgrade their qualifications.

FURTHER STUDY AT BOND

Successful completion of the Diploma of Arts guarantees students a place in most undergraduate degrees at Bond University, with a possible 80 credit points credited towards their new program of study. Students are advised to check the degree study structures online to confirm for which subjects they may receive credit.

KEY FEATURES

- Complete your diploma in only eight months.
- Integrate into the University environment from day one.
- Have the support of extra tutorials just for diploma students.
- Articulate into the third semester of the corresponding bachelor's program.

DR PETA STAPLETON

EMOTIONAL FREEDOM TECHNIQUES EXPERT. 2019 AUSTRALIAN
PSYCHOLOGIST OF THE YEAR. ASSOCIATE PROFESSOR.

"We tend to only properly celebrate the bigger, impressive, outstanding achievements in our lives. But if you think about it, most of our lives are spent between these large milestones. Make sure to celebrate the journey along the way, and the smaller wins too."

PATHWAYS TO BOND UNIVERSITY

If you don't meet the entry requirements for your chosen degree, Bond University offers a range of Bond University College pathways to help you achieve the academic requirements you need.

Our pathway programs are delivered on campus by Bond University College where you will benefit from extra hours of face-to-face teaching in a small class mentored environment. Located in the heart of the Bond University campus, you will have access to all of the University resources and facilities, and will be welcomed as a fully fledged member of the University community from the day you arrive.

Successful completion of a Bond University College program gives you the opportunity to gain entry to a Bond University undergraduate degree, with varying credit. The time to completion from a diploma program to a bachelor's program is essentially the same. Once you successfully complete your diploma you enter your bachelor's program in Semester 3*, enabling you to still graduate ahead of your peers. For additional admission pathways, please refer to page 70.

*Not applicable to all bachelor level programs.

Admission pathways

Diploma Preparation Program

CRICOS Course Code 0101445

Duration: 4 months (1 semester)

Starting: January, May, September

The Diploma Preparation Program has been specifically designed for students to pathway into Bond University Diploma programs. You will learn the core skills necessary for academic success, delivered by experienced and supportive teachers in small, personalised classes. The three subjects covered in this one semester program are:

- Academic Communication Skills
- Applied Academic Communication Skills
- Digital Literacy

Key Features

- Prepare yourself for a Bond University Higher Education Diploma program.
- Gain the academic skills required to succeed in your further studies.
- Transition into your diploma program seamlessly with our dedicated teachers and supportive environment.

Higher Education Diplomas

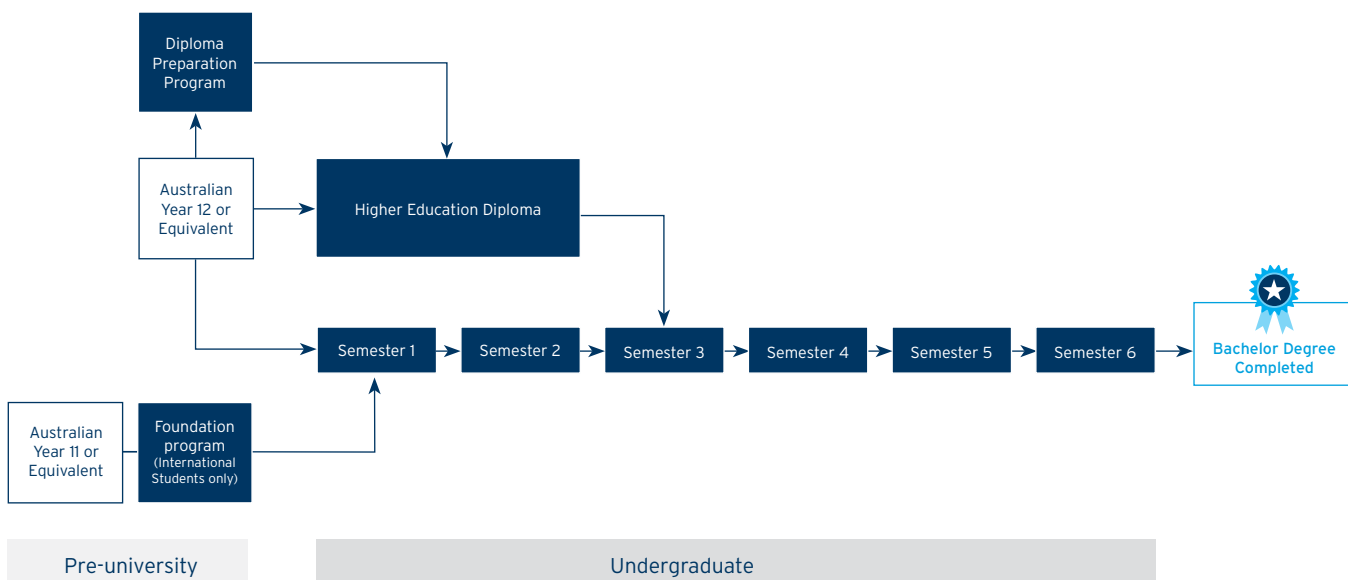

Duration: 8 months (2 semesters)

Starting: January, May, September

Our diploma level studies provide a pathway for students who do not meet the academic or English language requirements for direct entry into their chosen bachelor's degree, or who would prefer to start their university journey in a more supported environment. Successful completion of your diploma qualifies you for entry into a Bond Bachelor's degree, with varying credit.

- Diploma of Arts (CRICOS 0101729)
- Diploma of Built Environment (CRICOS 098537A)
- Diploma of Business (CRICOS 078663E)
- Diploma of Health Sciences (CRICOS 093260K)
- Diploma of Legal Studies (CRICOS 080298C)

Pathways to Bond University

*The average Bond University undergraduate is two years but may be longer in some areas of study.

How will I be assessed?

SCHOOL LEAVER

Secondary academic results and / or rank

Non ATAR student but have received a Senior Statement, Admissions will use your final subject results to calculate an entry rank.

NON SCHOOL LEAVER

Secondary academic results and / or rank

Resume of work and life experience may be required. It may be possible to use your work skill level and history to allocate an entry rank.

Special Tertiary Admissions Test (STAT)*

Any complete or incomplete prior study such as AQF, Certificate IV or higher from a recognised provider.

DID NOT COMPLETE SCHOOL / HAVE NO OTHER QUALIFICATIONS

There are a number of alternative means of gaining admission besides formal study. Bond will calculate an entry rank based on any one of the following:

Resume of work and life experience. It may be possible to use your documented work skill level and history to allocate an entry rank.

Special Tertiary Admissions Test (STAT)*

Any complete or incomplete prior study such as AQF Certificate IV or higher from a recognised provider.

Past school results

Please contact your Domestic Regional Manager at bond.edu.au/regional-managers to have a conversation about admission.

*Special Tertiary Admissions Test (STAT) will allow you to demonstrate your potential for university study refer to QTAC for more information.

HEAVEN ELISHAV

LEGAL EAGLE. CHESS MASTER.
FUTURE PROSECUTOR.

My journey to a Bond degree started...

With a Diploma of Legal Studies through Bond University College.

The best experiences I've had at Bond have been...

Participating in all the practical skills activities in my classes.

My advice to new students is...

Don't be complacent at university! Try everything and don't worry if you experience failure. Also, make new friends.

The Diploma of Legal Studies, Bachelor of Laws and Bachelor of International Relations in a word...

Multifaceted.

STUDENT LIFE AT BOND

For the past 15 years, Bond has received the highest possible ranking for student experience in the independent Australian Student Satisfaction Survey.

The personalised attention you receive in the classroom extends to every aspect of life at Bond. It starts from the moment you arrive on campus with Orientation's full calendar of information sessions and social activities where you'll have a chance to meet lots of other new students.

Once your classes get underway, you may also find some of our other Student Support services helpful, such as the Academic Skills Centre, Computer Support, Disability Support, and Medical and Psychological Services.

There are many opportunities to get involved in university life through our active on-campus clubs and societies. You can connect with people from your program, your faculty, your political persuasion and your religious beliefs, or get involved with local charities, philanthropic causes and global organisations.

You'll also find a wealth of opportunities to take on various leadership roles, committee positions and volunteering experiences which will help you stand out to future employers.

SPORT IS IN OUR DNA

Sport and education are entwined at Bond University. We have a proud sporting tradition and we provide opportunities for students to participate at a social, competitive or elite level.

BOND UNIVERSITY SPORTS CENTRE

The University's multi-million dollar Sports Centre incorporates a state-of-the-art gymnasium, TRX Suspension Training Studio, boxing circuit training room, and a regular timetable of group exercise classes.

Bond's Aquatic Centre includes a 50m Olympic-size heated swimming pool and a FINA-rated 10-lane, 25m pool. The campus also features extensive outdoor sporting facilities for rugby, AFL, cricket and tennis as well as indoor basketball, netball, esports, futsal, badminton, volleyball, cricket nets and squash courts.

Access to the Sports Centre, group exercise classes, outdoor sporting facilities and aquatic centre is included as part of the Student Services and Amenities Fee.

SPORT CLUBS

Joining a sporting club is a great way to meet new friends and Bond has more than 20 to choose from. Competing under the Bond Bull Sharks banner you'll have the opportunity to compete in the Australian University Nationals.

HIGH PERFORMANCE SPORTS

Bond has key high performance sports including swimming, rugby, rugby sevens (men and women), AFL (men and women), triathlon, netball, equestrian and esports, offering world-class coaching, facilities and partnerships to ensure we compete at the highest level both domestically and internationally. Olympic and international athletes of distinction populate the sports in these programs.

ESPORTS

A recent addition to Bond's High Performance sports facilities is the state-of-the-art esports Hub. Devoted to competitive video-gaming, the esports Hub is equipped with 12 high-performance gaming machines, a training and coaching facility for analysis and strategy and the ability to stream to Bond's 500-seat theatre for an audience.

ELITE SPORT PROGRAM

Bond University is a member of the Australian Sport Commission's Elite Athlete Education Network (EAEN), which provides flexible study loads and requirements for athletes at the very top of their sport. Athletes competing at a state, national or international level in their chosen sport are invited to apply to the Bond Elite Sport Program.

bond.edu.au/programs/elite-sport-program

SPORTS RESEARCH

The Bond Institute of Health & Sport is a world-class teaching and training centre which regularly hosts international athletes and professional teams. Specialist training and preparation facilities of the Institute's High Performance Training Centre include a 25m indoor lap pool, temperature controlled recovery pools, oxygen-regulated altitude training room and the sports science laboratories. The Institute is also used extensively by students studying exercise and sports science, physiotherapy, occupational therapy, and nutrition and dietetics.

SPORTING SCHOLARSHIPS

A number of sporting scholarships are offered each year, giving high performance athletes in a wide range of sports the opportunity to compete at the elite level while gaining a premium. Refer to page 63 for a full list of scholarships on offer.

Bond University Sports Centre

LIFE ON THE GOLD COAST

Students from every state and territory in Australia (and almost every continent!) call the Gold Coast and Bond University home. Here are just some of the reasons why.

THE GOLD COAST IS AN ENTREPRENEURIAL AND INNOVATION HUB

More people on the Gold Coast own and run their own businesses than any other city in Australia, and it attracts some of the world's best and brightest minds. Here, the entrepreneurial and creative spirit runs through the veins of both born and bred locals and adopted Gold Coasters.

IT'S A CITY OF OPPORTUNITY

The Gold Coast is one of the fastest growing cities in the nation, and the sixth largest. It has a diverse industry who offer strong employment opportunities, with Bond's Career Development Centre to support you along the way.

IT'S HOME TO A GLOBAL COMMUNITY

Bond students come from over 90 countries around the world, and the Gold Coast itself is a welcoming and diverse city with almost one in three residents born overseas. You will join students from all corners of the globe, preparing you with an international perspective on study and work.

THE WEATHER DOESN'T GET ANY BETTER THAN THIS

On the Gold Coast, expect an average of 300 days of sunshine per year, with an average temperature of 29 degrees.

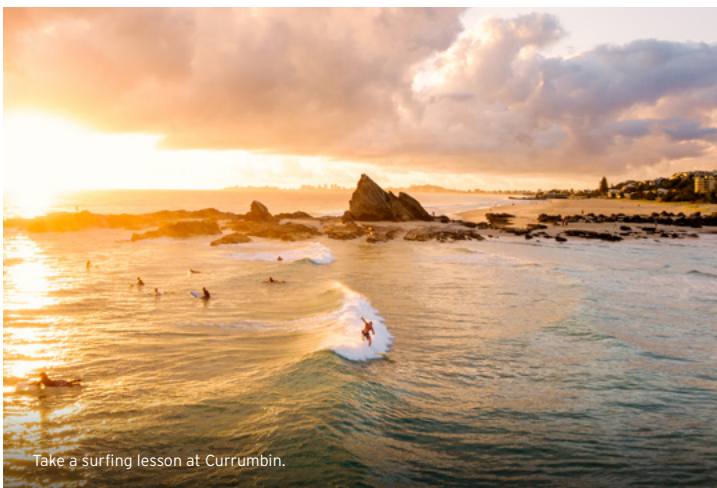

YOU'LL NEVER BE BORED

From world-class beaches to shopping, dining and endless entertainment, there is no shortage of things to do on the Gold Coast.

AT BOND, YOU'RE IN THE HEART OF IT ALL

Bond is located in Robina - the geographical centre of the Gold Coast. Here, you're within easy reach of everything the city has to offer. In addition to main campus, the Bond Institute of Health & Sport is just a short eight-minute drive away.

Take a surfing lesson at Currumbin.

Explore Springbrook's waterfalls and bush walks.

Finish up a week of study by heading out to Surfers Paradise and Broadbeach.

Enjoy diverse culture and food from around the world at Gold Coast Chinatown and Miami Marketta street food night market.

JESSICA BORTEN

STUDENT JOURNALIST. CAT LOVER. SKY NEWS INTERN.

In my first year at Bond I have...

Been involved in so many different opportunities already. I'm a student reporter at the Bond University Newsroom, a former Project Consultant for the A21 Campaign, and am currently the Head of Writing for the Bound student magazine. Through the Career Development Centre at Bond, I managed to score employment as a Guest Liaison at the Sky News Gold Coast Office in Southport. My role includes setting up guests for remote interviews and attending press conferences.

In five years I will be...

On my way to achieving an executive producer or editor-in-chief role.

My advice to new students is...

Take part in as much as you can - you'll get out what you put in - and make sure to utilise the Career Development Centre when possible. University is definitely the time to explore opportunities outside your comfort zone so keep an eye out for things you wouldn't normally consider, and then do it.

ACCOMMODATION

Bond is located in a landscaped residential neighbourhood with a wide range of on-campus and off-campus accommodation available for our students within easy walking distance of all University study and recreational facilities.

ON-CAMPUS

On-campus housing offers your choice of air-conditioned single or shared rooms. Residents benefit from one-on-one academic and personal support from the live-in team of Senior Resident Fellows, Resident Student Fellows and Tutor Fellows.

MEAL PLANS

For students living on campus, it is compulsory to have a dining plan. These flexible prepaid plans can be used to purchase meals on campus at Lakeside Bar and Restaurant, Papyrus Café, Don's Tavern, the Coffee Cart, Bond Express and the University Club.

APPLYING FOR ON-CAMPUS ACCOMMODATION

Our on-campus rooms are in high demand, so we recommend you complete your application as soon as the accommodation booking period opens.

To view rooms online: bond.edu.au/accommodation

HOMESTAY

Homestay accommodation offers students a fully supported living experience with a local host family. Bond University's homestay program is professionally managed by the Australian Homestay Network. Homestay accommodation is recommended for all students under the age of 18 years old.

View homestay options: homestaynetwork.org

OFF-CAMPUS

There is a wide range of rental accommodation surrounding the University if you would like to live off campus. Options include houses or apartments on a single or shared basis with weekly rent varying, depending on size, location and the number of bedrooms. You will also need to budget for a security deposit (bond), food, electricity, telephone, internet and cleaning.

Bond's off-campus Support Officer can assist you with off-campus housing, for more information email housingsupport@bond.edu.au or to view off-campus accommodation options, please visit bond.edu.au/off-campus.

SHARE ACCOMMODATION

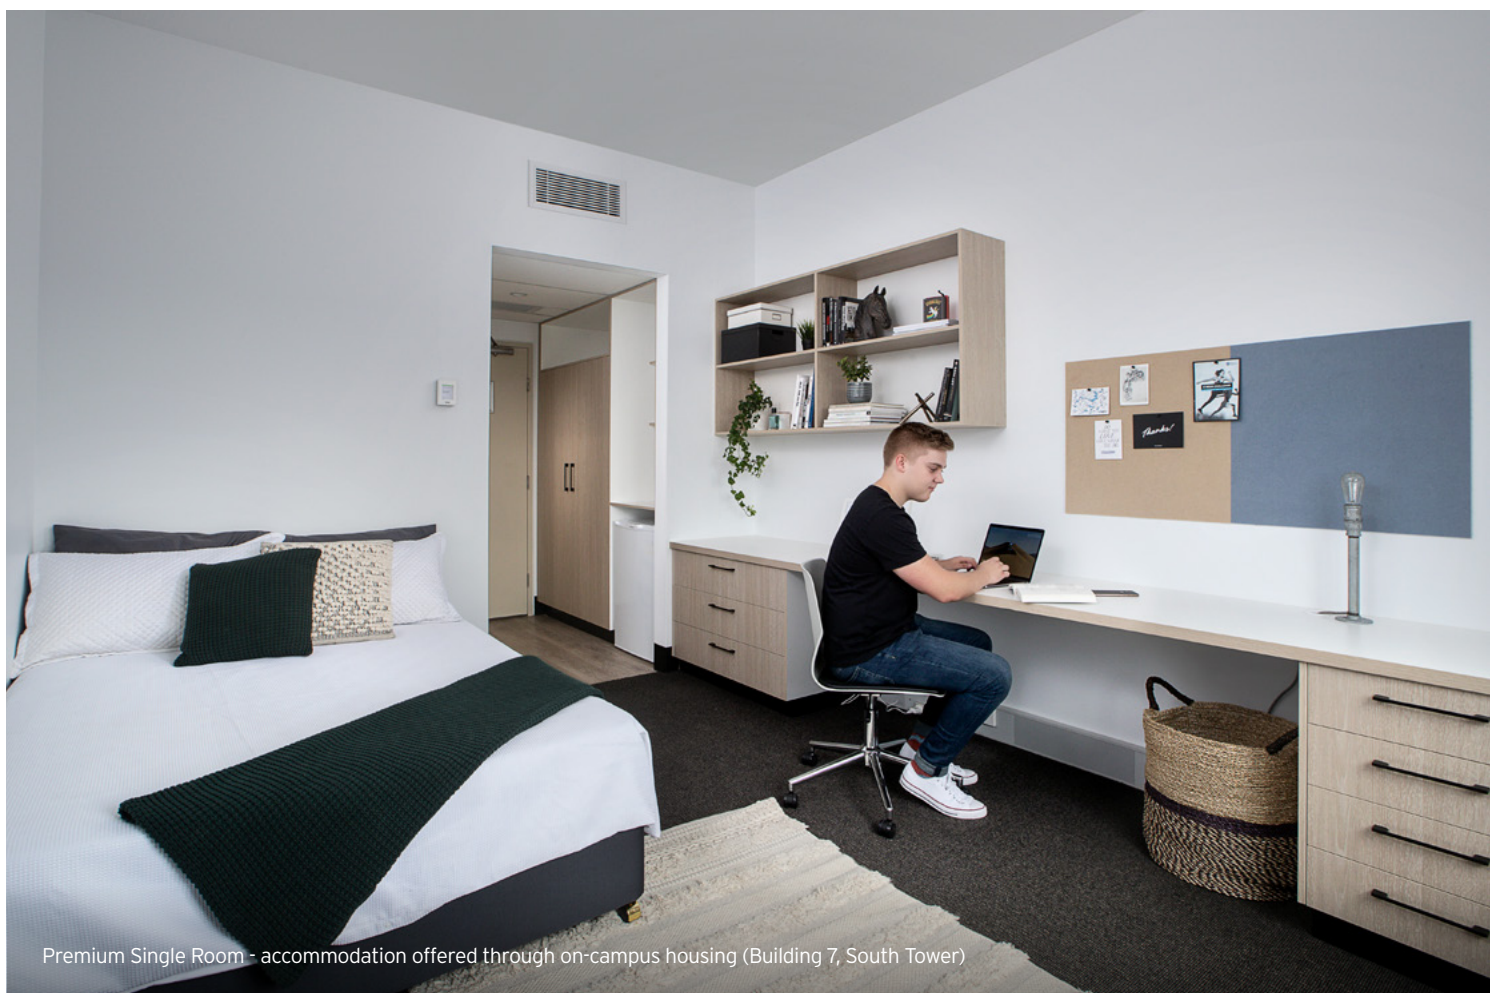

Students regularly advertise for flatmates in a variety of units, townhouses and larger homes located in suburbs adjacent to the campus (Varsity Lakes, Robina) and further afield.

Popular website: flatmates.com.au

COUPLE AND FAMILY ACCOMMODATION

There is a variety of rental accommodation available across the Gold Coast, ranging from beachside apartments to suburban family homes near schools, business precincts and retail centres.

Popular websites:
realestate.com.au
domain.com.au

Premium Single Room - accommodation offered through on-campus housing (Building 7, South Tower)

FEES AND COSTS

Bond University is a fully independent, not-for-profit institution that invests 100% of your tuition fees into providing a five-star educational experience, state-of-the-art facilities and a truly personalised student framework.

While our tuition fees are not subsidised by the Australian Government, they can be financed by the Government's interest free student loan program, FEE-HELP.

In addition to your university tuition fees, there are a number of other costs to consider when planning your budget.

WEEKLY LIVING COSTS*

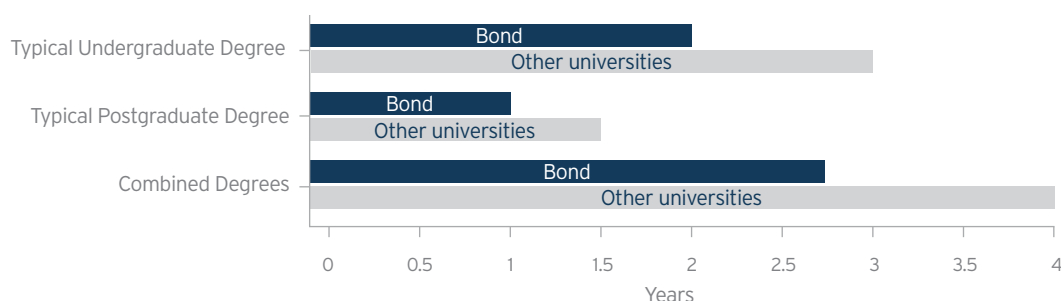

The Australian Government's Department of Home Affairs requires students to have access to a minimum of \$21,040 per year to fund their living expenses (excluding tuition fees).

	On-campus accommodation	Off-campus accommodation	Homestay
Rent	\$165 - \$270	\$165 - \$440	\$255 - \$275
Food	\$134 - \$166**	\$80 - \$280	Included
Utilities	Included	\$20 - \$50	Included
Transport	N/A (on campus)	\$15 - \$55	\$20 - \$40
Mobile phone	\$5 - \$10	\$5 - \$10	\$5 - \$10
Entertainment	\$30 - \$100	\$30 - \$100	\$30 - \$100
Total cost per week	\$334 - \$846	\$315 - \$935	\$310 - \$425
Tuition fees per semester**	\$15,560		
Total cost per semester	\$20,570 - \$23,750	\$22,085 - \$31,385	\$22,010 - \$23,735

Source: studyinaustralia.gov.au/english/live-in-australia/living-costs

*Prices are approximate and can vary depending on budget and lifestyle. **Average cost based on four subjects per 15 week semester. Prices can vary per program.

When considering the costs associated with your university studies, keep in mind that Bond's accelerated schedule means you'll finish your degree sooner. Not only does this mean a substantial reduction in your total accommodation and living costs, it also represents a full year of earnings from being out in the workforce earlier.

FINANCING YOUR DEGREE

FEE-HELP

FEE-HELP is an interest-free student loan program funded by the Australian Government for all Australian citizens and others who meet the eligibility requirements. From 1 January 2020, a combined HELP loan limit replaced the FEE-HELP limit and will include FEE-HELP, VET Student Loans, VET FEE-HELP and HECS-HELP. Only HECS-HELP borrowing from 1 January 2020 onwards counts towards a person's HELP limit. Any existing FEE-HELP, VET FEE-HELP or VET Student Loans that counted towards your FEE-HELP limit would count towards the combined HELP limit.

In 2021 the combined HELP loan limit will be \$108,232 for most students. The limit for students in the Medical Program will be \$155,448. Repayments are made through the taxation system at a minimum rate of 1% per annum when your annual income reaches \$46,620. The rate of repayment increases as annual income increases. You can apply for FEE-HELP online once you have received an offer from Bond University with your Student Identification Number.

studyassist.gov.au

LOYALTY DISCOUNTS

Bond offers a number of loyalty discounts to students who have a direct family member attending an eligible program at Bond or who have completed an eligible program here. These loyalty programs may provide a reduction of up to 10% on tuition fees.

OTHER GOVERNMENT ASSISTANCE

Most Australian students who receive some form of government income support are on either Youth Allowance or AUSTUDY / ABSTUDY. Contact Centrelink for more information on eligibility.

STUDENT OPPORTUNITY FUND

As a Bond student, you will have access to a range of experiences and activities that will enhance your learning. The Student Opportunity Fund can help to finance those added extras with assistance available up to \$2,000. For more information, visit bond.edu.au/student-opportunity-fund.

SCHOLARSHIPS

One of the ways Bond University identifies future leaders is through our scholarship program.

Full and part tuition scholarships are awarded to applicants who have demonstrated outstanding academic ability, community involvement, sporting achievements and strong leadership skills.

VICE CHANCELLOR'S ELITE SCHOLARSHIPS

Our prestigious Vice Chancellor's Elite Scholarships are awarded each year to a small group of outstanding applicants. These students are selected on the basis of their exceptional academic achievements, proven leadership abilities and strong personal character. Applicants will be required to provide a school reference to demonstrate their ability to meet the characteristics and traits of Vice Chancellor's Elite Scholars. Short-listed applicants will also be required to attend a scholarship selection weekend from Saturday, 25 to Sunday, 26 September.

Successful applicants receive full tuition remission for any undergraduate degree combination (with the exception of the Bond Medical Program). Every Vice Chancellor's Elite Scholar is also invited to participate in the Vice Chancellor's Mentoring Program where they will be teamed with a leader in their field for one-on-one professional and personal guidance.

EXCELLENCE SCHOLARSHIPS

Excellence scholarships offer up to 50% tuition remission for any undergraduate degree combination (excluding the Bond Medical Program) and are awarded annually to a number of outstanding applicants who have demonstrated high academic achievement, proven leadership skills and extensive community involvement.

LEADERSHIP SCHOLARSHIP

The Leadership Scholarship aims to recognise current Year 12 students who have outstanding leadership experience and community involvement with a 25% tuition remission scholarship for any undergraduate degree combination (excluding the Bond Medical Program).

SPORTING SCHOLARSHIPS

Through key corporate partnerships, Bond University is proud to offer a number of unique sports scholarships to students with exceptional sporting achievements. These include the:

- ADCO Sports Excellence Scholarship
- John Eales Rugby Excellence Scholarship
- Riewoldt Family AFL Excellence Scholarship

INDIGENOUS SCHOLARSHIPS

Bond University is strongly committed to closing the gap for Indigenous Australians. Through the generous support of corporate sponsors, alumni and community donations, we offer a number of scholarships to Aboriginal and Torres Strait Islander students who have demonstrated extracurricular involvement, leadership potential and academic achievements. These scholarships are valued at up to 50% of tuition fees for any single undergraduate degree (excluding the Bond Medical Program) or 100% tuition for any diploma program.

HOW TO APPLY

Scholarship applications can be made online using the Scholarship Application Form after you have completed and submitted a Bond University Study Application Form.

Review scholarship application opening and closing dates at bond.edu.au/scholarships.

NICOLA CAIN

FORMER STUDENT FOR A SEMESTER.
EXCELLENCE SCHOLARSHIP RECIPIENT.
FUTURE ACTUARY.

"While in high school I participated in the Student for a Semester program at Bond. During this experience it became clear to me that Bond provides their students with a well-rounded learning experience that focuses on so much more than just academic skills. This was also reflected in me receiving an Excellence Scholarship as recognition of not only my academic achievement but my contribution to the community."

WHAT SCHOLARSHIPS ARE AVAILABLE?

**Visit bond.edu.au/scholarship for full eligibility criteria

GOING GLOBAL

You don't have to take a gap year or time out from your degree to see the world.

Bond University not only delivers globally focused course content, but a world of cultural opportunity.

With Bond's international industry partnerships and placements, academic exchange partners, study tours, international competitions and extensive global alumni network, you'll be professionally and culturally set up to work anywhere in the world.

Bond's campus is home to staff and students from more than 90 different countries. You'll meet people from every corner of the globe right here on campus and have access to Bond graduates wherever you travel as a lifelong member of our global alumni.

STUDY TOURS

Head to Silicon Valley and visit the entrepreneurial hub - the start-up hotspot for many global tech companies like Facebook, Apple and Google!

GLOBAL ALUMNI NETWORK

Bond alumni network with over 27,000 people is active in over 120 countries around the world.

INTERNATIONAL COMPETITIONS

Take part in BUMUN or even compete in the International Criminal Court Moot in The Hague.

STUDENT EXCHANGE

Over 80 exchange partnerships in 24 countries.

A BONDY ABROAD

With the support of Bond, I received the Australian Government's New Colombo Plan Scholarship and it was one of the most amazing, eye-opening and challenging experiences I've had in my life.

Between studying international law in Hong Kong, to interning with an NGO in Nepal, it's safe to say I've made memories that will last me a lifetime.

After travelling to Hong Kong in 2018 to represent Bond at an international mooting competition, I became extremely passionate about international legal practice, particularly in east Asia. In late August 2019, I jumped on my flight with my one-way ticket to begin my study component at the University of Hong Kong.

Something that initially struck me about Hong Kong was how much of a hub for internationalism it truly was. I lived, studied and travelled with students from all walks of life - India, South Korea, Spain, Germany, North America, and of course, a fair few Australians.

I learned from some absolutely amazing lecturers, one of whom was a barrister; the others had studied at Yale, Oxford, Columbia and Georgetown. And when I wasn't in class I was travelling around Hong Kong in one of its neighbouring countries, catching up with fellow Bondies in Taiwan, Malaysia, China, Philippines and Thailand. I'll never forget those experiences.

Jacob Cookson,
Bachelor of Biomedical Science / Bachelor of Laws

YOUR BOND JOURNEY STARTS NOW

We'd love to get to know you before you leave school - and we're sure you'd like to know more about us.

There are lots of ways to engage with Bond in your last few years at school - from coming along to our annual Open Day or one of our Experience Days through to completing a full university subject while you're still in Year 10, 11 or 12. We also put on some serious competitions for high school students where you could win a scholarship to study at Bond.

STEPS TO TAKE IN YEAR 10

CREATE A STUDY PLAN

This is the best time to get organised. Talk to your housemaster, teacher or career advisor about creating an effective study plan.

SUBJECT SELECTION

Select subjects for Year 11 and 12. Check out the interstate subject and grading equivalents. To find out more, visit bond.edu.au/your-future

ATTEND HEADSTART DAY

For Year 10 students who want to experience life as a Bond student. You can take part in simulated lectures and tutorials, enjoy interactive activities, meet our professors and current students, and get to know your way around our campus.

Visit bond.edu.au/Headstart-Day

Experience the Bond faculties and facilities at Headstart Day

I WANT TO... BE TRANSFORMATIONAL

TRANSFORMATION DEGREES

For professional and trans-disciplinary roles in the modern ever-changing work environment with the inclusion of an immersive industry-based learning program.

IDEAL SUBJECTS

- Digital Solutions
- Information and Communication Technology
- Extra-curricular programs such as STE(a)M / ABW Enterprise / Innovation Hubs
- Business
- Philosophy and Reason
- Health
- Legal Studies
- Psychology

I WANT TO... PLAN AND BUILD THINGS

ARCHITECTURE AND BUILT ENVIRONMENT

For careers relating to architecture, real estate, property and sustainable development, urban design and planning, environmental management, environmental science, construction management and quantity surveying.

IDEAL SUBJECTS

- Building / Construction Skills
- Earth and Environmental Science
- Engineering Skills
- Engineering
- English
- Design
- General Mathematics
- Physics
- Visual Art

I WANT TO... USE DATA TO INFLUENCE

BUSINESS AND COMMERCE

For careers relating to accounting, actuarial science, big data, digital business, economics, entrepreneurship, finance, hotel and tourism management, international business, management, marketing and sport management.

IDEAL SUBJECTS

- Accounting
- Business
- Economics
- English
- Hospitality Practices
- General Mathematics
- Mathematical Methods
- Specialist Mathematics
- Tourism

I WANT TO... BE CREATIVE

COMMUNICATION AND CREATIVE MEDIA

For careers relating to advertising, film and television, computer game development, communication and media, journalism, marketing and public relations.

IDEAL SUBJECTS

- Business
- Drama
- English
- Fashion
- Film, Television and News Media
- Design
- Information Technology
- Social and Community Studies
- Visual Art

I WANT TO... HELP OTHERS

HEALTH SCIENCES AND MEDICINE

For careers relating to exercise and sports science, health sciences, biomedical science and medicine.

IDEAL SUBJECTS

- Biology
- Chemistry
- English
- Health
- Mathematical Methods
- Specialist Mathematics
- Physical Education
- Physics

I WANT TO... EXPLORE THE WORLD

HUMANITIES, LANGUAGES AND INTERNATIONAL STUDIES

For careers relating to applied linguistics, Australian studies, diplomacy, language and culture, international affairs, international relations, foreign correspondence, history, politics, international trade law and philosophy.

IDEAL SUBJECTS

- Ancient History
- English
- Geography
- Languages
- Legal Studies
- Modern History
- Philosophy
- Social and Community Studies

STEPS TO TAKE IN YEAR 11

ATTEND CAREER MARKETS AND EXPOS

Expos make it easier for students to come to one place and gather information from a wide variety of tertiary education institutions. Don't pass up this free and valuable opportunity!

SEE FOR YOURSELF

Coming to campus to attend events is a great way to experience the Bond difference for yourself! We host a number of events throughout the year including Experience Days. These events are a great way to get a taste of university life along with finding out what degree is right for you. Add a few Experience Days to your calendar so you can make a well informed decision for your choice of university.

Visit bond.edu.au/see-for-yourself for event dates and details.

GET INVOLVED IN FACULTY COMPETITIONS

Bond University offers several competitions that are open to high school students including The Bond University High School Model United Nations (BUHMUN) Conference, Bond University Film and Television Awards (BUFTA) and National High School Mooting Competition.

STEPS TO TAKE IN YEAR 12

OPEN DAY

Join us at Bond University Open Day as we provide the opportunity for students, parents and mature age applicants to have an all-access pass to campus, giving you the opportunity to explore the campus and what's on offer. Visit bond.edu.au/Open-Day.

CAMPUS TOURS AND CAREER CONSULT

What better way to discover and experience Bond yourself than with a Bondy? Our current students can give you a true insider's guide to student life and studying at Bond. We offer tailored tours specific to your interests, which can be arranged at any time to suit you. For more information, visit bond.edu.au.

TEST DRIVE A CLASS

During the school holiday period, come and sit in on a class of your choice alongside current Bond students and see what university life is really like.

BOND IN YOUR CITY

Our Domestic Regional Managers are available for meetings all around Australia, see bond.edu.au/regional-managers for more information on when they will be in your region or to book a personalised online consultation.

APPLY TO BOND

Apply to a few universities or training colleges that you may be interested in. Remember, you will be giving yourself another option when it comes to making that all important decision. If your application is successful, you will receive an email from us offering you a place at Bond and outlining fee payment options and the process to accept.

SCHOLARSHIPS

Start applying early for scholarships you researched. Remember, don't rush! Give yourself plenty of time during the application process so you can do your best.

EXPLORE FINANCE OPTIONS

With FEE-HELP the benefits of a Bond University degree are available to everyone. Visit bond.edu.au/fee-help for more information.

STUDENT FOR A SEMESTER

DO YOU HAVE WHAT IT TAKES TO BECOME A BONDY WHILE YOU'RE STILL IN HIGH SCHOOL?

As a Student for a Semester you'll have a unique opportunity to launch your tertiary studies at Bond ahead of time.

Challenge yourself to achieve all that's possible and gain a huge advantage for your future. You'll be rewarded with an unforgettable experience, a global network of friends and the chance to gain credit towards your university studies. You'll enrol in a Bond subject, get your own Student ID card and attend a weekly lecture and tutorial.

Student for a Semester is open to Year 11 and 12 students from the Gold Coast, Brisbane and Northern NSW regions and subjects cover a range of topics such as architecture, law, marketing, screenwriting and health.

APPLYING

We accept applications in each of our three semesters: January, May and September. Student for a Semester subjects are offered at the exclusive rate of \$250 per subject.

Applicants must be in the top 30% of their year level and have the support of their school to participate. Your school's Career Advisor will be asked to verify this during the application process.

Visit bond.edu.au/sfs to learn more about the subjects available, application deadlines and to apply online.

WHY JOIN THE PROGRAM?

As a participant of the Student for a Semester program, you will receive the following benefits:

- Your very own Student for a Semester mentor - a current Bondy, who you can call upon any time throughout the semester.
- An exclusive invitation to a career counselling session, hosted by the Bond University Career Development Centre.
- Full use of all University facilities including the Sports Centre, libraries and Multimedia Learning Centre.
- Access to all support services such as Student Learning Support, Student Counselling Services and Faculty teaching staff.
- An extended census date for withdrawal from the program without any financial or academic penalty.
- A celebration of participation in the program at a Student for a Semester Awards Ceremony.
- Students who successfully pass their subject may be eligible to use the credit towards their Bond University undergraduate degree*.

*Direct subject credit will depend upon your chosen degree program and may not be applied toward the Bachelor of Design in Architecture or the Bond Medical Program, due to the structure of these programs. Please check with Bond University prior to enrolment.

Student for a Semester students are matched with a current student mentor and have access to all of Bond's facilities.

ADMISSION PATHWAYS

ADJUSTMENT FACTORS

If you are a current Australian Year 12 applicant, or you successfully completed your Australian Year 12 studies no more than two years ago and have not commenced any university studies, you may be eligible for adjustments to help you get into your intended program at Bond University.

HOW DO ADJUSTMENT FACTORS WORK?

You will only be considered for adjustments if you do not meet the minimum ATAR / IB or selection rank required for the program. The adjustments will be applied if you meet the criteria for the relevant adjustment factor/s.

If you meet the eligible criteria, Bond University will grant you adjustment points to increase your selection rank. Adjustment can increase your selection rank, and this may get you an offer for your intended program. You must still meet any prerequisites specified for entry into your intended program.

VET QUALIFICATION

CAN I USE A VET QUALIFICATION FOR ENTRY?

For 2022 admission, Bond University will continue to accept VET Certificate IV, Diploma or Advanced Diploma qualifications for entry with the following assigned ranks. Please note that the assigned selection rank is provided as a guide only. You must still meet prerequisites and any additional requirements for the program.

VET QUALIFICATION*	ASSIGNED SELECTION RANK
Completed ungraded AQF Certificate IV	74
Completed ungraded AQF Diploma	78
Completed ungraded AQF Advanced Diploma	91

*Graded VET qualifications will be assigned a rank based on the grades attained. For admission to Bond University from 2021 onwards, ungraded VET qualifications will no longer be accepted for direct entry into some of our programs. For more information please speak with your Domestic Regional Manager about our Bond University College Diploma pathways.

HAVE YOU COMPLETED AN IN-SCHOOL VET QUALIFICATION?

If you complete a VET qualification in school and successfully complete Year 12 (with or without an ATAR), Bond will consider your VET qualification for admission. You may be required to demonstrate English language proficiency by passing the English subject with a grade of C or better, or by undertaking an English proficiency test and achieving the required scores for entry.

If you have also attained an ATAR, then Bond University will consider the higher ranked of the two qualifications (ATAR or VET) for admission. Advanced standing (credit) may be provided in a similar undergraduate degree.

WHAT IS THE MAXIMUM ADJUSTMENT?

The maximum adjustment applied to each applicant is five (5) ranks from one or more adjustment factors. Each adjustment factor has a maximum adjustment rank.

Adjustment factors cannot be used for entry into the Bond Medical Program, the Bachelor of Laws program and undergraduate programs with additional requirements such as auditions, interviews, portfolios or questionnaires.

For more info, please visit: bond.edu.au/adjustment-factors.

For admission to Bond University from 2021 onwards, ungraded VET qualifications will no longer be accepted for direct entry into the following programs:

- Any combined program that includes a program mentioned below
- Bachelor of Actuarial Science
- Bachelor of Business Data Analytics
- Bachelor of Biomedical Science
- Bachelor of Business Law
- Bachelor of Jurisprudence
- Bachelor of Laws
- Bond Medical Program^.

^The Medical Program is comprised of two sequential degrees – the Bachelor of Medical Studies (BMedSt) and the Doctor of Medicine (MD). All students selected for entry into the Medical Program will have to complete both the BMedSt and MD to be eligible for registration as a medical practitioner in any state or territory in Australia or New Zealand. Both degrees are awarded at the completion of Year 5.

HOW TO APPLY TO BOND

1

PICK YOUR PROGRAM

Deciding on a degree or program is a personal choice. It's about choosing the right program for you - your interests, your future. Bond's Future Students team are also available to discuss your study options.

bond.edu.au/search-program

2

APPLICATION PROCESS

Applying to study at Bond is easy! Applications for most Bond programs can be lodged online at any time directly to us after checking our entry requirements on our program pages - you do not need to go through the Queensland Tertiary Admissions Centre (QTAC)*, and there are no fees to apply.

bond.edu.au/apply

*Applications for the Medical Program^ are only open to domestic students and must be lodged through QTAC at qtac.edu.au.

3

REQUIRED DOCUMENTS

Make sure that you complete all required fields in your application form including uploading required documentation.

This documentation may include:

- Academic Transcripts
- Photo identification
- Any other documents required for specific programs such as certificates or awards

bond.edu.au/application-tips

4

APPLICATION SUBMISSION

Agree to the application declaration and click 'Submit'. You'll receive an email from Bond University to confirm your application was successfully submitted.

5

APPLICATION PROCESS TIME

The application review process will normally take two weeks provided all supporting documentation has been submitted. Our future students team will be in touch with you if they require any further information, so keep an eye on your email inbox.

You can also track your online application on our Online Application Service with the same log-in details.

6

RECEIVE YOUR LETTER OF OFFER

As a successful applicant, you will receive an email from us offering you to officially become a Bond student.

This email includes:

- A formal Letter of Offer from Bond University
- Information about fee payment options and accommodation

7

ACCEPT YOUR OFFER

You are two steps away from confirming your place at Bond. To accept your offer all you need to do is log into our online application service and follow the instructions, complete the FEE-HELP form online or pay the required fees as listed on your offer. If you are a current Year 12 student, once you receive your ATAR results, take a photo of your results and SMS them to your Domestic Regional Manager. Visit bond.edu.au/contact for your Regional Manager's contact details.

8

ORIENTATION

Your first introduction to university life! Orientation is the perfect time to make new friends, find your way around campus and complete your enrolment at Bond. The Orientation experience features an exciting program of social activities where you can relax and meet people, and there are lots of information hotspots to help you get ready for university life. Orientation information will be sent to you in the lead up to your first semester.

When it comes to your future, the sky is the limit.

Explore all the possibilities inside the pages of Bond's undergraduate guide, from stories of study success to boundless industry opportunities and invaluable work experiences. And if you want to dive even deeper into the story, get in touch. We're here to help you write your next chapter.
