'During my EAP course, I improved my English a lot. More than this, I learnt many other skills, which are required in a further degree, such as formal writing, referencing, presentations and becoming familiar with learning platforms, like Moodle.

I chose CQUniversity because they provided me the best offer in terms of a scholarship, the convenience of application and a great qualification. If you are considering a university to pursue a further degree, CQUniversity is the right choice for you.'
