# University life

University is about so much more than just what happens in the classroom – so make the most of it!

Expand your university experience with our 260+ student clubs and societies, 30 cafes, bars and food outlets, live performance spaces, museums and art galleries, 24-hour libraries, Olympic-size swimming pool, fully equipped gym and sports facilities, climbing wall and heritage-listed graffiti tunnel – to name just a few of the things that make up life at Sydney!

Our diverse community of students is made up of more than 32 cultural groups and 130 nationalities, so you'll be able to make friends from all around the world. And our co-curricular activities offer a diverse, supportive and vibrant student experience for you to gain new skills, develop your hobbies – and have fun!

- Orientation to university
- Settling into Sydney
- Adjusting to student life
- Opportunities to meet fellow students and staff
- Information about available support services

# Disability and accessibility services

- Accessible buildings and facilities
- Assistive technologies
- Alternative formatting
- Lecture support
- Academic adjustments

### Accommodation

- Residential colleges
- On-campus student housing
- Off-campus living

### Language and learning

- Intensive preparation programs
- English language programs
- Online learning resources
- One-to-one coaching

### **Academic learning support**

- Bridging courses
- Academic language workshops
- Mathematics learning support
- Online learning resources
- One-to-one consultations
- Peer programs

### **Career support**

- International student career development program
- Support with transition to the Australian workplace
- Employability skills workshops
- Careers fairs and events where you can meet employers
- Sydney CareerHub online jobs database

### **Financial wellbeing**

- Scholarships, bursaries and interest-free loans
- Help with essential living costs and study-related expenses

### Health and physical wellbeing

- Doctors
- Dentists
- Optometrists
- Physiotherapists
- Pharmacists
- Childcare information

### **Mental health**

- Clinical psychologists and counsellors
- Mental health support services
- Workshops for success
- Resilience training

### **Faith**

- Multifaith chaplaincy
- Chaplains from 12 faith groups available for consultations
- Dedicated prayer rooms

### More information

More information about our student support services is available at:

Whether you're an undergraduate, postgraduate or research student, we offer a range of scholarships to support you.

# Vice-Chancellor's International Scholarship

This is a prestigious scholarship awarded on academic merit to exceptional international students to pursue coursework studies. Value: Up to \$40,000.

### Faculty scholarships

We also offer faculty-specific scholarships for international students, depending on your Faculty or University School.

# Research Training Program International Scholarship

Many high-achieving students apply for a research degree and a scholarship at the same time. The Research Training Program International Scholarship, funded by the Australian Government, covers tuition fees, Overseas Student Health Cover, relocation costs and a living allowance.

Browse the full list of scholarships:

- sydney.edu.au/scholarships/international

### Other funding options

As an international student, you may be eligible for student loans or benefits from your home government, some of which the University of Sydney is accredited to administer.

- sydney.edu.au/study/int-loans

# Department of Foreign Affairs and Trade (DFAT) Australia Awards

This Australian Government scholarship attracts scholars of the highest calibre from countries that have a development partnership with Australia. It covers full tuition fees and provides a living allowance.

"Receiving the Sydney Scholars India Equity Scholarship was a life-changing experience for me. Studying at the University has broadened my perspectives of my life and career. It allowed me to dream big and achieve the highest goals of my life."

Abhishek Handa Master of Management (CEMS) (2021) Home country: India

# Careers and employability

### BECOME ONE OF AUSTRALIA'S MOST EMPLOYABLE GRADUATES\*

Throughout your studies with us you'll have opportunities to work on real-life projects with leading industry partners, so you'll graduate with the skills and experience you need to secure a competitive job and build an impactful career.

- You'll have access to a range of industry and community projects where you can collaborate and network with leading organisations while gaining authentic experience working on real-world projects.
- Our Careers Centre offers career counselling and other services and resources that enable you to be in the best career-ready position by the end of your degree course.
- Our Innovation Hub hosts events to equip our students with the skills they need to accelerate their business idea, career or research.
- Sydney Knowledge Hub is our oncampus research commercialisation and industry engagement hub, enabling our students and researchers to build strong partnerships with industry to improve commercialisation outcomes.

### Internships and placements

The majority of our courses offer either embedded or elective placements and internships that range in duration from two weeks to a full year. Each hands-on program is developed specifically to enhance your employability in your chosen area of study.

# Our global alumni community

When you study at the University of Sydney, you're joining a network of over 420,000 alumni spread across more than 200 countries and regions around the world.

From multicultural organisations to local businesses, our alumni are employed in meaningful and impactful work.

### Experience campus life at your doorstep

Whether you choose to live on or off campus, you'll have a wide range of accommodation options to choose from.

### Living on campus

- Residential colleges offer fully furnished single rooms with daily meals provided.
- University residences offer fully furnished single rooms with shared living, learning and study spaces.

### Living off campus

The University's campuses are surrounded by vibrant and multicultural suburbs. You can choose to live in independently run student housing or in private rental accommodation.

### New to Sydney?

We recommend you book a temporary place to stay before committing to longer-term accommodation.

Wherever you choose to live when you arrive and throughout your studies with us, our Accommodation Services website is a great place to get started. It's full of helpful advice on all your accommodation options and expected costs. It also allows you to register for a place at University-owned housing.

- sydney.edu.au/accommodation

For further information on the approximate costs involved in living in Sydney, including transport, groceries and other everyday expenses as well as accommodation costs, visit:

 sydney.edu.au/study/accommodation/ living-costs.html

"I live on campus as a Resident Assistant at the Queen Mary Building. I find it very helpful in making new friends, learning from different cultures, and challenging myself to step out of my comfort zone. I participate in so many events like sports, arts, cooking sessions and hiking."

Note: All accommodation fees listed here are in Australian dollars. They are intended as a guide only, and are based on 2023 fees for new students. These fees are correct at the time of printing to the best of the University's knowledge but are subject to change. Students should contact the individual accommodation providers for detailed and up-to-date information, including additional costs and fees. Note that some colleges charge non-refundable application fees. Also note that some residences have 52-week contracts, while others only provide accommodation during semester.

For current information, see sydney.edu.au/accommodation

The Centre for English Teaching (CET) offers English language courses and academic skills programs to prepare you for university.

Achieve your goals in English language learning, academic skills development, or teacher training in a supportive face-to-face or online environment.

Learn more about CET programs:

- sydney.edu.au/cet/

### **CET offers**

- highly qualified and experienced teaching staff
- co-curricular activities
- academic and wellbeing support
- four hours of interactive in-class learning per day
- online learning materials and activities
- engagement opportunities to develop your language skills outside the classroom

### **Direct Entry Courses (DEC)**

The Direct Entry Course (DEC) (CRICOS 083314F) is a tailored on-campus program which helps you develop your English and academic skills before commencing a degree at an Australian university.

Gain entry to your degree at the University of Sydney and build peer networks through our Direct Entry Course. You can package your degree studies with a Direct Entry Course to ensure your success at university.

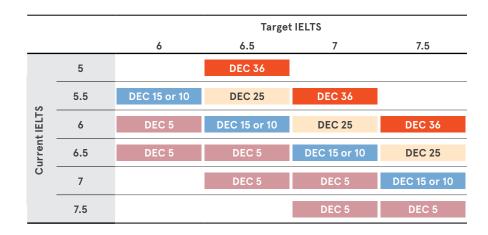

Learn more about DEC:

 sydney.edu.au/cet/ programs/admission/ direct-entry-course.html

# Choosing the right Direct Entry Course (DEC)

If you need to improve your IELTS\* score, check the table for what program is for you:

### Conditions

### DEC 36

- No more than 1.5 bands below degree entry requirement overall.
- For students requiring 6.5 overall, no more than 1.5 bands below degree entry requirement in any skill.
- For students requiring 7 or more overall, no more than 1 band below degree entry requirement in any skill but a minimum of 5.5 in reading and listening.

### DEC 25

- No more than 1 band below degree entry requirement overall.
- No more than 1.5 bands below degree entry requirement in any skill.
- For students requiring 7 or more in every skill, no more than 1 band below degree entry requirement in any skills.

### DEC 15

- No more than 0.5 bands below degree entry requirement overall.
- No more than 1 band below degree entry requirement in any skill.

### DEC 10

- No more than 0.5 bands below degree entry requirement overall.
- Degree entry requirements already achieved for each skill.

### DEC 5

- Overall degree entry requirement already achieved.
- 0.5 bands below degree entry requirement in one skill only.

# Preparation programs

These university preparation programs – also known as enabling courses – offer alternative pathways to university admission while providing strong academic foundations that enable you to thrive in your university studies.

Delivered on behalf of the University of Sydney by Navitas (trading as Taylors College, CRICOS Provider Code: 01682E), these programs are ideal for international students who do not have the existing qualifications or grades to gain direct admission to a degree course at the University of Sydney.

They have been designed by the University to include subjects that prepare you for your university studies, as well as other subjects of wider interest to you.

If you successfully complete your preparation program and meet all other admission requirements of your chosen course, you will be offered a place at the University. Some courses have limited numbers of places available, so admission may also be dependent on availability of places.

# A quality teaching and learning experience

The University oversees the delivery of these programs, as well as the student experience, progression and outcomes – so you're assured of the highest-quality teaching and learning experience and the best preparation for your university studies.

### **Academic and personal support**

Taylors College staff will assist you with settling in to life in Australia, while also supporting you to achieve your academic goals. The Academic Support team will help you with any academic issues, while their Student Support and Experience Team will help you with any personal issues relating to your health and wellbeing.

# The University of Sydney Foundation Program (USFP)

This program is available in Extended, Standard and Intensive formats. This means you can complete the program in as little as 40 weeks or up to 75 weeks, depending on your abilities and preference.

Intakes are as follows:

- 75-week Extended Program (CRICOS Course Code: 048302A) commences in January and July
- 52-week Standard Program (CRICOS Course Code: 022310D) commences in January and July
- 40-week Intensive Program (CRICOS Course Code: 036126M) commences in April and October.

For more information, visit

 www.taylorssydney.edu.au/ programs/the-university-ofsydney-foundation-program

# High Achievers Preparation Program (HAPP)

This accelerated program is designed for high-achieving students who have excellent academic results and English skills, but just missed out on direct entry to the University. This program will fast-track you into the first year of a bachelor's degree at the University within 3.5 months, with dedicated mentoring to familiarise you with the University and keep you on track for success. This program is available only for certain international qualifications.

Intake for this course is as follows:

 14-week program (CRICOS Course Code: 089556F) commences in September.

For more information, visit

 www.taylorssydney.edu.au/ programs/the-high-achieverspreparation-program

### How to apply

 www.taylorssydney.edu.au/ how-to-apply

University study isn't just about gaining credentials – it's about investing your time to discover what you really love doing.

Start by thinking about which subjects interest you, as well as how you like to learn and what you want from your university experience.

Want to design the future? When you study at Sydney you'll combine your creative flair with finely tuned technical skills to shape the spaces, services and experiences – both physical and digital – in which we live, work and play.

### Combining creativity and technology

Develop the big-picture thinking needed to address global challenges, and graduate ready for a career that's creatively driven and technically challenging.

35

We're ranked in the top 35 in the world for architecture and built environment.\*

Our Wilkinson
Building has one of
the best-equipped
design, modelling and
fabrication labs in
Australia, and includes
dedicated studio
space for students.

You'll gain hands-on experience through our extensive network of industry partners.

\* QS World University Rankings by Subject 2023

"Studying at the University of Sydney has put me in touch with global architectural practice and equipped me with a plethora of new problemsolving skills. I am grateful to the team of researchers and educators that go out of their way to support and uplift their students."

**Luis Philippsen**Master of Architecture (2022)
Home country: Germany

A degree in the Arts and Social Sciences will hone your analytical skills and help you to become an independent thinker who is able to form and articulate judgements based on argument and evidence. Acquire the skills that will set you up for careers you can imagine now – and those that don't exist yet.

# Transformative careers in every industry

In a world as disrupted as ours,
Arts graduates' capacity for
leadership, creativity and analysis
has never been more relevant
or sought after by employers.
Invest in a future where you will be
sustained by your passion for your
work, and where your skills will be
valued contributions to the world.

"The course has offered me a combination of theory and practical assignments, and opportunities to meet the best professors and individuals with different backgrounds. These equipped me with a strong base of knowledge and skills to be ready for my future career."

Ho Minh Thu Nguyen
Bachelor of Arts and
Bachelor of Advanced Studies
Home country: Vietnam

We're ranked equal 1st in Australia and 24th globally for Arts and Humanities.\*

40 + You'll learn from leading experts across more than 40 subject areas.

You'll gain on-the-job experience through our partnerships with corporate, government and not-for-profit organisations.

At the University of Sydney
Business School, you'll acquire
the skills to futureproof your
career in a dynamic global
economy. You'll graduate with
the technical skills, experience
and mindset to drive positive,
responsible impact and
become a respected leader in
your field.

### Global leaders in business education

Our business degrees will prepare you for career success in a dynamic and disruptive global economy. You'll be equipped with advanced disciplinary knowledge as well as critical-thinking, communication and leadership skills. From internships to consulting projects and global mobility opportunities, you'll have access to a whole range of work-ready learning experiences integrated into your program. With our award-winning employability degree for international students, Job Smart Edge, and a dedicated careers office, you'll be empowered to carve your own path to success.

"Being exposed to many cultural backgrounds and the ability to learn from the cohort as well as the academics is the beauty of this MBA."

Economics is a fascinating and diverse discipline. This important field addresses a range of issues that we face in modern life, playing a central role in shaping our society at every level.

### Solve complex, global challenges

Economics is crucial to understanding and solving the major problems and unique challenges the world faces today. Our economics courses equip you with the skills, knowledge, flexibility and industry expertise to address these issues, make real-world differences and succeed in your career – wherever it takes you. You'll graduate with a globally relevant and highly sought-after qualification.

"Studying the mathematical side of Economics has allowed me to develop strong analytical and integral critical-thinking skills, while also aiding me in making decisions that focus on optimising the outcome, thus acting as stepping stones for my career."

**Dhyana Nikunj Shah** Bachelor of Economics Home country: India

Join an outstanding and diverse graduate community, contributing in valuable ways across the globe.

We offer Australia's most popular economics program.\*

You'll study and engage with your peers in our new, architecturally designed Social Sciences Hub.

Do what you love and make a world of difference through teaching or social work. At Sydney you'll be challenged to explore complex ideas and issues in your chosen field, and you'll graduate as an informed and effective practitioner.

### Help shape the lives of the next generation

With strong connections in both the education and social work sectors our placement program encourages meaningful practical experiences. Throughout your course you'll apply your theoretical knowledge in real-world settings and develop the professional skills to graduate with confidence.

26<sup>th</sup>

We're ranked 26th in the world for education.\*

Our teacher education degrees are accredited by the NSW Education Standards Authority (NESA).

Our social work degrees are accredited by the Australian Association of Social Workers (AASW).

\* QS World University Rankings by Subject 2023

"The knowledge I've obtained at The University of Sydney was very beneficial in helping me solve the current issues of English language teaching and learning. I have become a more critical thinker in order to be ready to face the challenges ahead."

Anggi Saputra Simorangkir Master of Education (TESOL) Home country: Indonesia

Our fantastic new multimillion-dollar engineering and technology precinct includes unique student learning spaces.

### Solve tomorrow's problems today

Our digitally focused curriculum prepares you for the jobs of the future. From space engineering and the built environment to cybersecurity and nanotechnology, our broad range of specialisations, majors and cross-disciplinary units, as well as our award-winning Professional Engagement Program ensures that you're able to pursue your passions while standing out in the job market.

We're creating a digital, sustainable, healthier future by educating tomorrow's leaders and pioneering technological research. If you're passionate about developing innovative and sustainable solutions to some of the world's greatest challenges, then a degree in engineering, project management or computer science at Sydney is right for you.

"I am really lucky that I got the chance to learn about data science. As Semester One commenced, I taught myself how to code in R, a space where I could enhance my creativity and problem-solving skills."

Josephine Antonio
Bachelor of Advanced Computing
Home country: Indonesia

# 2<sup>nd</sup>

We're ranked second in Australia and 29th globally for computer science and engineering.\*

# \$200<sup>M</sup>

We've invested more than \$200m into our facilities, including new study spaces and cutting-edge research labs.

# 1200<sup>+</sup>

You'll gain professional experience through our award-winning programs and network of 1200+ industry partners.

With more than 165 years of research-led education, we are proud to be recognised as one of the world's leading law schools. Together with one of our five partner degrees, your Sydney law degree will equip you with highly sought-after skills to become a leader in your chosen career and create change in a global environment.

### Learn from the best legal minds

At Sydney Law School you'll learn from globally recognised legal educators and highly respected professional practitioners, gain an internationally relevant legal education with overseas opportunities, and develop skills that will prepare you for the global marketplace.

5th We're ranked world for law.\*

You'll apply classroomlearned knowledge to real-world cases with social justice and law reform activities.

Our strategic international partnerships provide you with global opportunities to study with world-leading universities abroad.

\* QS World University Rankings by Subject 2023

"My combined degree will provide me with knowledge regarding both the legal and business disciplines, enabling me to better prepare for my dream job as a corporate lawyer. The diverse modules especially from [the Open Learning Environment] will develop my soft skills such as public speaking and critical thinking."

### Yee Ler Chua

Bachelor of Laws and Bachelor of Commerce Home country: Malaysia

# Our degrees will kickstart your career in health

Health care is one of the fastest-growing industries around the world. At Sydney you'll learn from academic experts and students in a range of health disciplines to develop a range full suite of invaluable skills from patient interaction to teamwork, leadership and research.

"I wanted to take a break from clinical medicine and the Master of International Public Health was a good fit as it had a broad scope and helped me explore different facets of public health and research. The highlight of my degree was the research exposure which I got working with distinguished professors which helped me line up a PhD in sports and exercise science. This helped me set up my career trajectory."

### **Dr Najeeb Soomro**

Chief Medical Officer, Pakistan Cricket Board Master of International Public Health (2021) Home country: Pakistan

25

We're ranked in the top 25 worldwide for medicine, nursing, anatomy and physiology, pharmacy and sports-related subjects.\*

You'll learn in our new state-of-theart Susan Wakil Health Building.

Gain hands-on experience through our network of clinical placements across eight major health districts.

The Sydney Conservatorium of Music has been at the forefront of Sydney's musical and cultural life for more than 100 years. Our diverse range of programs is designed to allow you to develop your unique musical voice, and includes classical performance, jazz, music composition for creative industries or the concert hall, digital music and media, contemporary music, Indigenous music, Asian music, music theatre, musicology and music education.

The Conservatorium offers some of the best facilities for studying music in the Asia-Pacific region. You'll have plenty of opportunities to perform or to have your work performed or recorded. As part of your studies you'll also have extensive opportunities to rehearse and perform with some of our ensembles led by industry experts, including our Symphony Orchestra, Wind Symphony, Choir, Jazz Big Band, Modern Music Ensemble and Early Music Ensemble.

"Studying at the Sydney
Conservatorium of Music has
exposed me to innumerable
opportunities that have satisfied
my craving for limitless selfexpression that catalyses my
introspective journey of selfdiscovery. It has been a wonderful
experience for me."

Noriko Wijaya Bachelor of Music (Performance) Home country: Indonesia

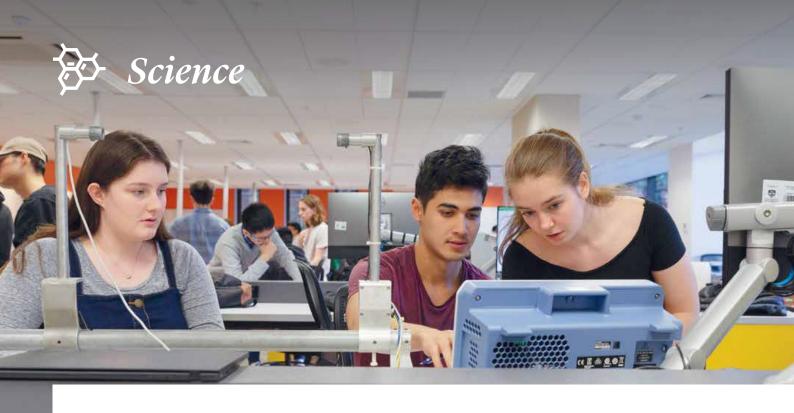

Complement your music degree with a specialisation of your choice from the University's shared pool of majors and minors.\*

Apply for a wide range of merit and equity scholarships worth \$1.5 million annually.

Learn directly from acclaimed musicians, award-winning scholars and music industry leaders.

Studying science opens up a whole world of opportunities. Whether you dream of joining the forefront of scientific research, learning to analyse and think critically, or making the planet a better place, studying science will give you highly sought-after skills for a huge range of careers.

### Learn from world-leading scientists

You'll be taught by dedicated scientific experts, including members of the Australian Academy of Science, Australian Research Council Fellows and other prestigious prize winners. Study in world-class facilities, including our multimillion-dollar Life, Earth and Environmental Sciences (LEES) Building, the Sydney Nanoscience Hub and the world-renowned Charles Perkins Centre.

We're ranked second in Australia and and 25th in the world for life sciences and medicine.\*

You'll learn from experts at the University of Sydney Nano Institute, the Charles Perkins Centre and Taronga Conservation Society Australia.

"I've been given the opportunity to deliver workshops for international students to guide and make their transition to uni easier, including teaching high school students about psychology and neuroscience. This built my confidence as a researcher-and-psychologist-to-be."

### **Gal Matana**

Bachelor of Science Advanced (Psychology and Neuroscience) Home country: Israel

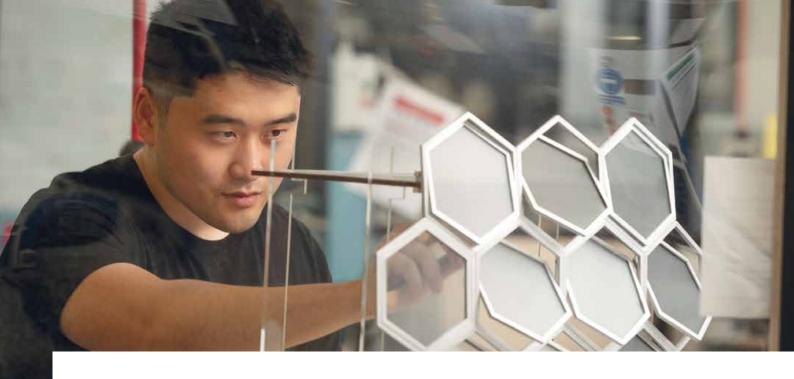

You can choose from our range of flexible science degrees or professionally accredited courses, including in psychology and veterinary medicine.

# The Sydney undergraduate experience

The University of
Sydney undergraduate
experience is like no
other. Our flexible
degree structures
will prepare you for
a career that is yours
to define. With more
than 450 study areas,
you can create a path
that's right for you.

Apply your passions inside and outside the classroom as you:

- work with industry and community leaders through internships and work placements to get you job-ready, no matter what you study
- follow all your interests through our shared pool of majors and minors and gain expertise in a second field that sits outside your primary degree
- develop a global mindset
   by taking advantage of
   international experiences and
   one of the largest study abroad
   and international exchange
   programs in Australia
- extend your skills and gain an edge by combining your primary degree with our Bachelor of Advanced Studies, which lets you access advanced coursework and projects, develop specialist skills, and tailor your degree to your passions

- build your academic and leadership capabilities with our innovative Dalyell Scholars stream for high-achieving students
- support your career aspirations
   with our unique Open Learning
   Environment (OLE), which gives
   you access to a diverse range
   of online learning modules and
   workshops to master new skills or
   home in on your special interests.

Whatever path you choose, your experience with us will be truly unique. You'll gain the technical knowledge and expertise, along with the practical skills and real-world experiences that employers are looking for – and that the world needs.

# Undergraduate courses

# Building your degree

As long as you fulfil the requirements of your chosen degree, there are many ways in which you can shape your study and uni experience.

Your degree will require you to complete a sequence of related units of study, working towards your chosen area of expertise. This sequence might be called a stream, a program or a specialisation, depending on how much study it requires and/or the accepted terminology within your field. But the most common terms you'll hear are major and minor. A major is usually made up of eight units of study, and a minor is made up of six. Through our global mobility

Some degrees have set components that you must complete. For example, the Bachelor of Psychology requires you to complete the Psychology Program. Other degrees are more flexible, allowing you to select from a wide range of relevant majors and minors. Examples of this kind of degree are the Bachelor of Arts, the Bachelor of Science and the Bachelor of Commerce.

### Make your degree unique

If your degree allows you access to our shared pool of majors and minors (see page 33), you could choose to study a couple of units or even an entire major or minor in a field that would usually sit outside your degree. For example, you could enjoy learning Korean while studying science.

### Study overseas

program, you can choose to spend a few weeks, a semester or even a full year studying at an overseas university as part of your degree.

### Gain a competitive edge

Undertake a research project with an honours year, a common pathway to a PhD.

- sydney.edu.au/honours

### **Access our Open Learning Environment**

Some degrees allow you to complete units from our Open Learning Environment (OLE), where you can extend your skills and knowledge by exploring other fields of study. These short online tutorials and masterclasses boost your personal and professional development - and some even include overseas experiences.

### Get a head start on real-world experience

Don't forget that in addition to your regular study, you can also build in internships and work placements, allowing you to start gaining realworld experience while you study.

### Sample degree structure

Here's an example of what uni could look like for you. Once you're here, we provide lots of support and course planning tools to help you access the full range of opportunities across your area(s) of study.

Year S	Semester	Units	of	study
--------	----------	-------	----	-------

1	1	Major	Minor	Elective	OLE
'	2	Major	Minor	Elective	OLE
2	1	Major	Major	Minor	Minor
2	2	Elective	Elective	Elective	Elective
7	1	Major	Major	Minor	Internship
3	2	Major	Major	Minor	Internship

Note: This is a sample progression plan and may not be applicable to your degree. OLE = Open Learning Environment (minimum requirement is 6 credit points).

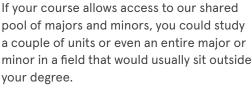

"It's been fantastic to study at the University. I've met people from around the world, stepped outside of my comfort zone and had many hands-on experiences with lab work and demonstrations, which have improved my confidence in my work!"

### Nicolas Cheah Zang Yu

Bachelor of Science and Bachelor of Advanced Studies (Medical Science) Home country: Malaysia

# Follow your interests. *All of them*.

With more than 100 options to choose from, our shared pool of majors and minors allows you to explore a wide range of study areas.

For example, you could complement a major in marketing with the study of design.

You can pursue all your interests, acquire expertise in a second field of study and build interdisciplinary knowledge and skills, preparing you for your future career.

"I fell in love with the range of majors available at the University of Sydney. Moreover, students also get the opportunity to pick a second major or a minor from the shared pool, allowing me to expand my interest in subjects outside of my chosen faculty."

#### **B Architecture and Environments**

ATAR: 80 IB: 29 Entry: Feb

**Duration (full time):** 3 years

Assumed knowledge: English Advanced and Mathematics Advanced or higher

#### Programs, majors and minors

Core areas of study include architectural and environmental design, architectural history and theory, architectural sciences and technologies, property and sustainability, urban design and planning. The University of Sydney School of Architecture, Design and Planning electives may include acoustics, lighting, structures and interaction design.

#### Career possibilities

Architect (with additional study), roles in property, real estate and construction, project manager, urban designer, urban planner

#### **B Design (Interaction Design)**

B Design/B Advanced studies (Interaction Design)

ATAR: 75 IB: 26 Entry: Feb/Jul

Duration (full time): 3 years (single)/

4 years (combined) **Dalyell by invitation** 

Assumed knowledge: Mathematics Advanced

or higher

#### Programs, majors and minors

Core areas of study include app design, creative technology, design thinking, graphic design, information architecture, physical computing, sound design, user experience (UX) and user-centred design. The four design studios focus on user experience design, interaction design, information visualisation, and interactive product design. Related units may be taken from Arts and Social Sciences, Business, Engineering, Computer Science, Music and Visual Arts. In the combined Design (Interaction Design)/B Advanced Studies, you will also take a major from the shared pool.

In the final year of the combined degree you will undertake advanced coursework and a substantial real-world industry, community, entrepreneurship or research project, or an honours project.

#### Career possibilities

Interaction designer, UX designer, creative director, business developer, marketing consultant, communications adviser, project manager, design manager, web and multimedia designer, multimedia strategist, creative technologist

# B Design in Architecture

ATAR: 90 IB: 34 Entry: Feb

Duration (full time): 3 years

**Assumed knowledge:** English Advanced and Mathematics Advanced or higher

#### Programs, majors and minors

Core areas of study include architectural design, architectural history and theory, architectural technologies, architecture workshops, environment and sustainability, professional practice and architectural communications. You can take electives from the University of Sydney School of Architecture, Design and Planning, as well as from other faculties and schools.

#### Career possibilities

Architect (with additional study), architectural technologist, interior and spatial designer, urban designer, project manager, property developer

Combine this degree with

B Engineering Honours (Civil)

# B Design in Architecture (Honours)/M Architecture

ATAR: 92 IB: 35 Entry: Feb

Duration (full time): 5 years

**Assumed knowledge:** English Advanced and Mathematics Advanced or higher

#### Programs, majors and minors

Core areas of study include architectural design, history and theory, technologies, architecture workshops, environment and sustainability, professional practice and architectural communications. You can take electives from the University of Sydney School of Architecture, Design and Planning, as well as from other faculties and schools.

#### Career possibilities

Architect, design manager, academic

**Assumed knowledge:** Depends on majors or units of study chosen

#### Programs, majors and minors

In the B Arts, you will choose one major from the options below and a minor or second major from these options or from the shared pool. In the B Arts/B Advanced Studies, you will choose one major from the list below, and a second major from the shared pool or from the following: American Studies; Ancient Greek; Ancient History; Anthropology; Arabic Language and Cultures; Archaeology; Art History; Asian Studies; Chinese Studies; Criminology; Cultural Studies; Digital Cultures; Diversity Studies

(minor only); Econometrics; Economics; Economic Policy; Education Studies; English; Environmental, Agricultural and Resource Economics; European Studies; Film Studies; Financial Economics; French and Francophone Studies; Gender Studies; Germanic Studies; Hebrew (Modern); History; Indigenous Studies; Indonesian Studies; International Comparative Literary Studies; International Relations; Italian Studies; Japanese Studies; Jewish Civilisation, Thought and Culture; Korean Studies; Latin; Linguistics; Modern Greek Studies; Philosophy; Political Economy; Politics; Sanskrit (minor only); Socio-legal Studies; Sociology; Spanish and Latin American Studies; Studies in Religion; Theatre and Performance Studies; Visual Arts; Writing Studies (minor only). In the final year of the combined degree you will undertake advanced coursework and a substantial realworld industry, community, entrepreneurship or research project, or an honours project.

#### Career possibilities

Anthropologist, archaeologist, archivist, art historian, business administrator or manager, historian, heritage specialist, foreign affairs and trade officer, government policy officer, information specialist, journalist, museum or gallery curator, language specialist, media and communications officer, editor or publisher, researcher, sociologist. This degree equips you with the breadth and depth of knowledge and the critical and analytical skills to pursue an extensive range of established and emerging careers. It prepares you for the jobs of the future.

#### **Combine B Arts with**

B Engineering Honours, B Laws, B Social Work, D Medicine, M Nursing

#### B Arts/B Advanced Studies (Dalyell Scholars)

ATAR: 98 IB: 41 Entry: Feb/Jul

Duration (full time): 4 years
Dalyell by application

**Assumed knowledge:** Depends on majors or units of study chosen

#### Programs, majors and minors

Refer to B Arts/B Advanced Studies for degree requirements. As a Dalyell Scholar, you will undertake 12 credit points of distinctive Dalyell units complemented by a suite of additional enrichment opportunities including mentoring, professional skill development, co-curricular activities, and the option of a global mobility experience. You'll also complete units from the Open Learning Environment.

#### Career possibilities

Anthropologist, archaeologist, business administrator or manager, economist, editor or publisher, foreign affairs and trade officer, government policy officer, historian, language specialist, journalist, museum or gallery curator, public relations manager. This degree equips you with the breadth and depth of knowledge and the critical and analytical skills to pursue an extensive range of established and emerging careers. It prepares you for the jobs of the future.

#### B Arts/B Advanced Studies (International and Global Studies)

ATAR: 85 IB: 31 Entry: Feb/Jul

**Duration (full time):** 4 years **Dalyell by invitation** 

**Assumed knowledge:** Depends on majors or units of study chosen

#### Programs, majors and minors

This stream requires completion of a program in international and global studies which includes a major in Global Studies, a minor in a language from the School of Languages and Cultures, and a minimum of 12 credit points of study abroad/exchange. A second major, which may be an extension of the language minor, must be taken from those available in the B Arts or from the shared pool. You'll also have access to the Open Learning Environment. In the final year of the combined degree, you

will undertake advanced coursework and a substantial real-world industry, community, entrepreneurship or research project, or an honours project.

# Career possibilities

Community development program manager, diplomat, foreign aid worker, foreign correspondent, human rights advocate, international business consultant, policy adviser, trade negotiator

#### B Arts/B Advanced Studies (Languages)

ATAR: 85 IB: 31 Entry: Feb/Jul

Duration (full time): 4 years Dalyell by invitation

**Assumed knowledge:** Depends on majors or units of study chosen

#### Programs, majors and minors

This stream requires completion of a program in Languages. You will complete two language majors as well as translation-focused units, and have the opportunity to complete electives from the shared pool. You'll also have access to the Open Learning Environment. You will have the opportunity to apply for exchange scholarships to undertake exchange semesters, as well as opportunity for short-term study programs with our international partners.

In the final year of the combined degree, you will complete advanced coursework units in languages, multilingual projects and translation in up to three languages.

# Career possibilities

Language localisation specialist, public relations officer, public policy officer, foreign affairs and trade officer, researcher, translator. This degree equips you with global capability plus the breath and depth of knowledge and the critical and analytical skills to pursue an extensive range of established and emerging careers. It prepares you for the jobs of the future with an international focus.

#### **Professional recognition**

The course is an Endorsed Qualification for the National Accreditation Authority for Translators and Interpreters (NAATI) at the Certified Translator level. Graduates who wish to become Certified Translators will need to take the certification test.

# Arts and social sciences

#### B Arts/B Advanced Studies (Media and Communications)

#### B Arts (Dual Degree, Sciences Po, France)

ATAR: 80 + other admission criteria IB: 29 + other admission criteria Entry: Aug (in France) Duration (full time): 2 + 2 years Dalyell by application

Assumed knowledge: Depends on majors or units of study chosen

#### Programs, majors and minors

This dual degree enables you to work towards both a B Arts degree at Sciences Po in France for the first two years, and a B Arts degree at the University of Sydney for the remaining two years. As part of your B Arts at the University of Sydney, you'll have access to the shared pool of majors and minors. Refer to the B Arts for University of Sydney-based majors. For information on studies in France, including units of study, refer to the Sciences Po website: www.sciencespo.fr/en

#### Career possibilities

Anthropologist, archaeologist, business administrator or manager, economist, editor or publisher, foreign affairs and trade officer, government policy officer, historian, language specialist, journalist, museum or gallery curator, public relations manager, researcher, sociologist

#### Additional admission criteria

Admission to the Sciences Po dual degrees is highly competitive and determined jointly by the University of Sydney and Sciences Po. Applicants to the Bachelor of Arts and Bachelor of Economics dual degrees with Sciences Po need to be recent school leavers - transfer applicants are not eligible to apply. In addition to meeting the academic requirements of an accepted secondary education (Year 12) qualification, you need to submit an online application directly to the University, including a personal statement, resume and school reports or transcripts from the past three years, as well as attend an online interview. For more information about admission criteria, tuition fees and the application process, visit the relevant course page: sydney.edu.au/courses

#### **B Visual Arts** B Visual Arts/B Advanced Studies

ATAR: 70 + portfolio IB: 24 + portfolio Entry: Feb **Duration (full time):** 3 years (single)/4 years (combined)

#### Programs, majors and minors

You will study across many areas in contemporary art, including ceramics, glass, jewellery, painting, photography, print media, screen arts and sculpture. In the combined degree, you will also take a major from a range of majors offered across the University, and complete advanced coursework units, including a substantial research, community, industry or entrepreneurship project, or an honours project in the final year.

#### Career possibilities

Artist, arts writer, craftsperson, curator, digital artist, art educator (with further tertiary qualifications), exhibition designer, filmmaker, illustrator, painter, product designer, sound artist, web and multimedia designer

#### Additional admission criteria

You will also be assessed based on a portfolio of artwork. You are required to submit the portfolio by the relevant deadline. When submitting the portfolio online, you will need to include a short statement describing one of the more developed projects in your portfolio. sydney.edu.au/arts/creative-arts-portfolio

# Programs, majors and minors

In this new, revitalised degree, you'll take core units of study in education, along with intensive study and professional experience in two teaching areas and units from the Open Learning Environment. Your two teaching areas can be selected from either Arts or Science, in areas including: Aboriginal Studies, Biology, Business Studies, Chemistry, Drama, Economics, English, Geography, History, Judaic Studies, Languages, Linguistics, Mathematics, Physics, and Teaching English to Speakers of Other Languages (TESOL). You will need to complete at least a minor in your first teaching area. Professional experience placements (totalling 80 days) begin in the third year of the course and progressively increase until the final placement, when you will be competent to teach under minimal supervision.

The B Education/B Advanced Studies (Secondary) also offers you the opportunity to undertake advanced coursework, an honours research project or a third teaching area in either TESOL or Aboriginal Studies.

#### Career possibilities

Teacher in secondary schools in areas including Aboriginal studies, biology, chemistry, drama, English, history, languages, mathematics, physics, and TESOL; curriculum consultant, educational administrator, educational researcher, government policy adviser, human resource manager

#### **Professional recognition**

NSW Education Standards Authority (NESA)

# Education and social work

#### **B Social Work**

ATAR: 75 IB: 26 Entry: Feb

**Duration (full time):** 4 years **Assumed knowledge:** Depends on majors or units of study chosen.

#### Programs, majors and minors

The Social Work program includes studies in mental health, social justice practice, work with children and families, social policy, human service systems, domestic violence, disability, disasters and climate change, impacts of poverty, First Nations studies and social research. You will learn to work alongside diverse groups and communities in Australia and overseas addressing critical social issues.

#### Career possibilities

Aged care worker, children and families support worker, community worker in programs for people with disabilities, migrant and refugee liaison officer, international development worker, social policy adviser

#### **Professional recognition**

Australian Association of Social Workers

#### B Arts/B Social Work

ATAR: 75 IB: 26 Entry: Feb

Duration (full time): 5 years

Assumed knowledge: Depends on
majors or units of study chosen.

Dalyell by invitation

#### Programs, majors and minors

You will choose a major from the B Arts, and a second major or a minor either from those options or from the shared pool. You must complete a major in Sociology, or a minor in either Sociology or Social Policy. You will also complete the Social Work professional program alongside your BA for four years. Social work includes mental health, social justice practice, work with children and families, social policy, human service systems, domestic violence and research.

#### Career possibilities

Social worker in health, community services, ageing, disability, mental health, community development, social policy, disasters and climate change, leadership and work with non-government organisations in Australia and overseas. Career opportunities also available related to the major chosen from the B Arts degree. See B Arts for more career possibilities.

#### **Professional recognition**

Australian Association of Social Workers

#### Additional admission criteria

Applicants for all Bachelor of Education degrees (except Early Childhood) are required to complete a brief personal statement as part of the application for admission. This requirement also applies to the Bachelor of Music (Music Education). For more information, visit sydney.edu.au/teachereducation-personal-statement

#### ^ NESA prerequisites for teaching degrees

The New South Wales Education Standards Authority (NESA) requires students entering the following teaching degrees to achieve a minimum of three Band 5s in their NSW HSC, one of which needs to be English (Standard or Advanced or English as a Second Language (ESL) or English as an Additional

Language or Dialect (EALD) or equivalent):

- Bachelor of Education (Health and Physical Education)
- Bachelor of Education (Primary)
- Bachelor of Music (Music Education)

Additionally, the Bachelor of Education (Primary) requires students to achieve Band 4 in Mathematics Standard (or equivalent) or higher. For equivalent requirements for other Australian Year 12 qualifications, refer to the UAC website:

uac.edu.au/future-applicants/admission-criteria/

year-12-qualifications

#### **B Advanced Computing**

ATAR: 90 IB: 34 Entry: Feb/Jul

Duration (full time): 4 years
Dalyell by invitation

Mathematics prerequisite may apply‡
Assumed knowledge: Mathematics Extension 1

#### Majors

You'll choose one computing major from the list below, with the option of also choosing either a second major or a minor from this list or from the shared pool: Computer Science, Computational Data Science, Cybersecurity, Software Development. You'll also have access to the Open Learning Environment to broaden your skills and explore other areas of study.

#### Career possibilities

Computer programmer, computer system administrator, consultant, entrepreneur.

information services manager, systems analyst, software engineer, user experience designer, web developer and manager

#### **Professional recognition**

This degree is accredited by the Australian Computer Society. Our graduates are recognised internationally through the Seoul Accord.

#### Combine this degree with

B Commerce, B Science, B Science (Health), B Science (Medical Science)

#### **B Advanced Computing/B Commerce**

ATAR: 95 IB: 37 Entry: Feb/Jul

**Duration (full time):** 5 years **Dalyell by invitation** 

Mathematics prerequisite may apply‡
Assumed knowledge: Mathematics Extension 1.
For B Commerce: Depends on majors or units of study chosen.

#### Majors

Refer to B Advanced Computing and B Commerce. You'll choose one major from each degree. You'll also have access to the Open Learning Environment to broaden your skills and explore other areas of study.

#### Career possibilities

Accountant, business systems analyst, computer programmer, computer system administrator, economist, financial specialist,

information services manager, management consultant, project manager, software engineer, web developer and manager

#### **Professional recognition**

This degree is accredited by the Australian Computer Society. Our graduates are recognised internationally through the Seoul Accord.

#### **B Advanced Computing/B Science**

ATAR: 90 IB: 34 Entry: Feb/Jul

**Duration (full time):** 5 years **Dalyell by invitation** 

Mathematics prerequisite may apply‡
Assumed knowledge: Mathematics Extension 1.
For B Science: Depends on majors or units of

study chosen.

#### Majors

Refer to B Advanced Computing and B Science. You'll choose one major from each degree. You'll also have access to the Open Learning Environment to broaden your skills and explore other areas of study.

#### Career possibilities

Computer programmer, consultant, geophysicist, information services

manager, mathematician, microbiologist, software engineer, systems analyst, web developer and manager

# Professional recognition

This degree is accredited by the Australian Computer Society. Our graduates are recognised internationally through the Seoul Accord.

#### B Advanced Computing/B Science (Health)

ATAR: 90 IB: 34 Entry: Feb/Jul

**Duration (full time):** 5 years **Dalyell by invitation** 

Mathematics prerequisite may apply‡
Assumed knowledge: Mathematics Extension 1,

Biology

#### **Programs and majors**

Refer to B Advanced Computing and B Science (Health). You'll complete a major from the options available in the B Advanced Computing and the Health major. You'll also have access to the Open Learning Environment to broaden your skills and explore other areas of study.

#### Career possibilities

Roles in computer programming, consultancy, corporate health, disability and ageing management and research, global health research and policy analysis, hospital management, information services management, mental health and safety, software engineering, web development and management

#### **Professional recognition**

This degree is accredited by the Australian Computer Society. Our graduates are recognised internationally through the Seoul Accord.

## B Advanced Computing/B Science (Medical Science)

ATAR: 90 IB: 34 Entry: Feb/Jul

Duration (full time): 5 years
Dalyell by invitation

Mathematics prerequisite may apply‡
Assumed knowledge: Mathematics Extension 1,

Chemistry and Biology

#### Majors

Refer to B Advanced Computing and B Science (Medical Science). You'll choose one major from the options available in the B Advanced Computing; and complete the stream in Medical Science, which requires a program in Medical Science, including a Medical Science major.

#### **Career possibilities**

Computer programmer, consultant, doctor (after further study in medicine), geneticist,

infectious diseases researcher, information services manager, microbiologist, pathologist, software engineer, systems analyst, web developer and manager

#### **Professional recognition**

This degree is accredited by the Australian Computer Society. Our graduates are recognised internationally through the Seoul Accord.

# Engineering and computer science

#### **B Engineering Honours (Aeronautical)**

ATAR: 85 IB: 31 Entry: Feb/Jul

Duration (full time): 4 years

Mathematics prerequisite may apply‡
Assumed knowledge: Mathematics Extension 1

and Physics

#### **Specialisations**

You may choose an Aeronautical Engineering specialisation that focuses on aerospace systems or aerospace research. You may also broaden your studies by choosing a specialisation in Engineering Data Science, Innovation and Entrepreneurship, Humanitarian Engineering or Computer Systems. Specialisations are optional. If you are a high-achieving student with an ATAR of 99+ (or equivalent) you may apply for Space Engineering.

#### Career possibilities

Design research and certification in the airline/ aerospace industry, general engineering positions, and manufacturing and assembly

#### **Professional recognition**

This engineering degree is accredited by Engineers Australia. Our graduates are recognised internationally through the Washington Accord of the International Engineering Alliance.

# Combine this degree with

B Arts, B Commerce, B Laws, B Project Management, B Science

#### **B Engineering Honours (Biomedical)**

ATAR: 85 IB: 31 Entry: Feb/Jul

Duration (full time): 4 years

Mathematics prerequisite may apply‡
Assumed knowledge: Mathematics Extension 1,
Physics and/or Chemistry

#### **Specialisations**

You may choose a Biomedical Engineering specialisation in Nanoscale Biotechnology, Biocomputation, Bionics and Bioelectronics or Biomedical Modelling and Design. You may also broaden your studies by choosing a specialisation in Engineering Data Science, Innovation and Entrepreneurship, Humanitarian Engineering or Computer Systems. Specialisations are optional.

#### Career possibilities

Biomedical engineers design and manufacture implantable and external medical devices. Careers include instrumentation engineer, device design engineer, medical device assessor, quality control and validation

engineer, patent examiner, clinical support specialist, and field service engineer, for medtech companies, hospitals, medical research centres, and government institutions.

#### **Professional recognition**

This engineering degree is accredited by Engineers Australia. Our graduates are recognised internationally through the Washington Accord of the International Engineering Alliance.

#### Combine this degree with

B Arts, B Commerce, B Laws, B Project Management, B Science, B Science (Health), B Science (Medical Science)

#### **B Engineering Honours (Chemical and Biomolecular)**

ATAR: 85 IB: 31 Entry: Feb/Jul

Duration (full time): 4 years

Mathematics prerequisite may apply‡
Assumed knowledge: Mathematics Extension 1

and Chemistry

#### **Specialisations**

You may choose a Chemical and Biomolecular Engineering specialisation in Biochemical and Food Technologies, Chemical and Digital Technologies, Chemical Engineering for Energy or Chemical Engineering for the Environment. You may also broaden your studies by choosing a specialisation in Engineering Data Science. Specialisations are optional.

#### Career possibilities

Research the properties of raw materials in order to design solutions that help manage resources, protect the environment and

improve health and safety products and procedures.

#### **Professional recognition**

This degree is accredited by Engineers Australia and the Institution of Chemical Engineers. Our graduates are recognised internationally through the Washington Accord of the International Engineering Alliance.

#### Combine this degree with

B Arts, B Commerce, B Laws, B Project Management, B Science

# **B Engineering Honours (Civil)**

ATAR: 85 IB: 31 Entry: Feb/Jul

Duration (full time): 4 years

Mathematics prerequisite may apply‡
Assumed knowledge: Mathematics Extension 1

and Physics

#### Specialisations

You may choose a Civil Engineering specialisation in Structures, Environmental Fluids, Integrated Building Engineering, Geotechnical Engineering, Humanitarian Engineering, Project Management, or Transport. You may also broaden your studies by choosing a specialisation in Engineering Data Science, Innovation and Entrepreneurship, or Computer Systems. Specialisations are optional.

#### Career possibilities

Aid worker; roles with airport and harbour authorities, banks, construction and mining

companies; roles in project management and public works; engineering and infrastructure consultant; humanitarian engineer; town planner; sustainability specialist

#### Professional recognition

This degree is accredited by Engineers Australia. Our graduates are recognised internationally through the Washington Accord of the International Engineering Alliance.

## Combine this degree with

B Arts, B Commerce, B Design in Architecture, B Laws, B Project Management, B Science

# Engineering and computer science

#### **B Engineering Honours (Dalyell Scholars)**

ATAR: 98 IB: 41 Entry: Feb/Jul

**Duration (full time):** 4 years **Dalyell by application** 

Mathematics prerequisite may apply‡

Assumed knowledge: Mathematics Extension 1 and either Physics or Chemistry, depending on the engineering stream (refer to the relevant stream)

Career possibilities

**Specialisations** 

Along with career options from your chosen stream, the valuable insights you gain through your studies as a Dalyell Scholar will set you apart from your peers and open up a

As a Dalyell Scholar, you will undertake

complemented by a suite of additional

enrichment opportunities, including

12 credit points of distinctive Dalyell units

the option of a global mobility experience.

mentoring, professional skill development and

range of opportunities across the public and private sectors, including: business, banking, consulting, entrepreneurship and project management.

#### **Professional recognition**

The Dalyell stream is completed within an Engineering stream accredited by Engineers Australia. Our graduates are also recognised internationally through the Washington Accord of the International Engineering Alliance.

## **B** Engineering Honours (Electrical)

ATAR: 85 IB: 31 Entry: Feb/Jul

Duration (full time): 4 years
Mathematics prerequisite may apply‡
Assumed knowledge: Mathematics Extension 1

and Physics

#### **Specialisations**

You may choose an Electrical Engineering specialisation in Computer Engineering, Internet of Things, Intelligent Information Engineering, Power Engineering or Telecommunications Engineering. You may also broaden your studies by choosing a specialisation in Engineering Data Science, Innovation and Entrepreneurship, or Humanitarian Engineering.

Specialisations are optional.

#### Career possibilities

Grid maintenance and stability contractor, industry power supply engineer, power transmission and generating systems engineering, roles with specialised consulting companies and telecommunications.

#### **Professional recognition**

This engineering degree is accredited by Engineers Australia. Our graduates are recognised internationally through the Washington Accord of the International Engineering Alliance.

#### Combine this degree with

B Arts, B Commerce, B Laws, B Project Management, B Science

#### **B Engineering Honours (Flexible First Year)**

ATAR: 85 IB: 31 Entry: Feb

Duration (full time): 4 years

Mathematics prerequisite may apply‡
Assumed knowledge: Mathematics Extension 1,

Physics and/or Chemistry

#### **Specialisations**

After commencing your studies in the Flexible First Year stream, you will have the opportunity to pursue an area of specialisation once you have transferred to a stream. Refer to the individual engineering streams for areas in which you may be able to specialise.

#### Career possibilities

Refer to individual engineering streams for examples.

#### **Professional recognition**

Students in the Flexible First Year pathway transfer to an Engineering stream accredited by Engineers Australia. Our graduates are also recognised internationally through the Washington Accord of the International Engineering Alliance.

## Combine this degree with

B Arts, B Commerce, B Laws, B Project Management, B Science

# **B Engineering Honours (Mechanical)**

ATAR: 85 IB: 31

Entry: Feb/Jul

Duration (full time): 4 years

Mathematics prerequisite may apply‡
Assumed knowledge: Mathematics Extension 1

and Physics

#### Specialisations

You may choose a Mechanical Engineering specialisation in Energy and the Environment, Computational Engineering, Mechanical Design, Thermofluids, Materials Science and Engineering, or Industrial and Product Design Engineering. You may also broaden your studies by choosing a specialisation in Engineering Data Science, Innovation and Entrepreneurship, Humanitarian Engineering or Computer Systems. Specialisations are optional. If you are a high-achieving student with an ATAR of 99+ (or equivalent) you may apply for Space Engineering.

#### Career possibilities

Roles in automated facilities, automatic control systems, biomedical implant design, construction, design of automotive, undersea exploration and space vehicles, environmental pollution control, manufacturing industry, and mineral exploration

# Professional recognition

This degree is accredited by Engineers Australia. Our graduates are recognised internationally through the Washington Accord of the International Engineering Alliance.

#### Combine this degree with

B Arts, B Commerce, B Laws, B Project Management, B Science

## **B Engineering Honours (Mechatronic)**

ATAR: 85 IB: 31 Entry: Feb/Jul

Duration (full time): 4 years

Mathematics prerequisite may apply‡
Assumed knowledge: Mathematics Extension 1
and Physics

Specialisations

You may choose a Mechatronic Engineering specialisation in Robotics and Intelligent Systems. You may also broaden your studies by

choosing a specialisation in Engineering Data Science, Innovation and Entrepreneurship, Humanitarian Engineering or Computer Systems. Specialisations are optional. If you are a high-achieving student with an ATAR of 99+ (or equivalent) you may apply for Space Engineering.

#### Career possibilities

Roles in automatic control systems, product design and development, robotics and automation for advanced manufacturing, and software design and development for real-time computer systems

#### Professional recognition

This degree is accredited by Engineers Australia. Our graduates are recognised internationally through the Washington Accord of the International Engineering Alliance.

#### Combine this degree with

B Arts, B Commerce, B Laws, B Project Management, B Science

# (O)

# Engineering and computer science

#### **B Engineering Honours (Software)**

ATAR: 85 IB: 31 Entry: Feb/Jul

Duration (full time): 4 years

Mathematics prerequisite may apply‡
Assumed knowledge: Mathematics Extension 1

and Physics

#### **Specialisations**

You may choose a Software Engineering specialisation in Computer Engineering, Engineering Data Science, Internet of Things

or Intelligent Information Engineering. You may also broaden your studies by choosing a specialisation in Innovation and Entrepreneurship, or Humanitarian Engineering. Specialisations are optional.

#### Career possibilities

Roles in artificial intelligence, control systems, database management, information technology, internet programming, language compilers, multimedia and telecommunication software systems, real-time software engineering and reliable biomedical systems

#### **Professional recognition**

This degree is accredited by Engineers Australia and the Australian Computer Society. Our graduates are recognised internationally through the Washington Accord of the International Engineering Alliance and the Seoul Accord.

#### Combine this degree with

B Arts, B Commerce, B Laws, B Project Management, B Science

#### **B Engineering Honours with Space Engineering**

ATAR: 97 IB: 39 Entry: Feb/Jul

**Duration (full time):** 4 years **Dalyell by invitation** 

Mathematics prerequisite may apply‡
Assumed knowledge: Mathematics Extension 1

and Physics

#### **Programs and majors**

Space Engineering is available to students in Aeronautical, Mechanical and Mechatronic streams - refer to the relevant stream. Space Engineering covers studies in aerospace systems, electronic devices and circuits, orbital mechanics, space vehicle design, and systems engineering.

#### Career possibilities

Along with career options from your chosen stream, you can apply your specialised knowledge of the space environment to careers in the aerospace, defence, environmental and research sectors

#### Professional recognition

Space Engineering is completed within an Engineering stream accredited by Engineers Australia. Our graduates are also recognised internationally through the Washington Accord of the International Engineering Alliance.

#### Combine this degree with

B Arts, B Commerce, B Laws, B Project Management, B Science

#### B Engineering Honours/B Arts

ATAR: 85
IB: 31
Entry: Feb/Jul

Duration (full time): 5.5 years

Dalyell by invitation

Mathematics prerequisite may apply‡

Assumed knowledge: Mathematics Extension 1 and either Physics or Chemistry, depending on the engineering stream (refer to the relevant stream). For B Arts: Depends on majors or units of study chosen.

Specialisations and majors

In addition to the relevant B Engineering Honours stream requirements, you will take a major from B Arts.

# Career possibilities

Refer to relevant B Engineering Honours stream and B Arts.

#### **Professional recognition**

This engineering degree is accredited by Engineers Australia. Our graduates are recognised internationally through the Washington Accord of the International Engineering Alliance.

## **B Engineering Honours/B Commerce**

ATAR: 95 IB: 37 Entry: Feb/Jul

Duration (full time): 5.5 years

Dalyell by invitation

Mathematics prerequisite may apply‡

Assumed knowledge: Mathematics Extension 1 and either Physics or Chemistry, depending on the engineering stream (refer to the relevant stream). For B Commerce: Depends on majors or units of study chosen.

#### Specialisations and majors

In addition to the relevant B Engineering Honours stream requirements, you will take a major from B Commerce.

#### Career possibilities

Refer to relevant B Engineering Honours stream and B Commerce.

#### Professional recognition

This combined degree is accredited by Engineers Australia. Our graduates are recognised internationally through the Washington Accord of the International Engineering Alliance.

# B Engineering Honours (Civil)/B Design in Architecture

ATAR: 90 IB: 34 Entry: Feb

Duration (full time): 5 years

Mathematics prerequisite may apply‡

Assumed knowledge: Mathematics Extension 1 and Physics. For Architecture: English Advanced.

#### Specialisations and majors

Refer to the B Engineering Honours (Civil) stream and B Design in Architecture for requirements.

#### Career possibilities

Aid worker; roles with airport and harbour authorities; architect (with further study); roles in architectural technology, banking, construction and mining; engineering and infrastructure consultant; humanitarian engineer; roles in interior and spatial

design; roles with municipal councils and in project management, property development, public works and urban design; sustainability specialist

# **Professional recognition**

This combined degree is accredited by Engineers Australia. Our graduates are recognised internationally through the Washington Accord of the International Engineering Alliance.

## (Q) (0)

# Engineering and computer science

#### B Engineering Honours/B Project Management

ATAR: 85 IB: 31 Entry: Feb/Jul

Duration (full time): 5 years

Mathematics prerequisite may apply‡

Assumed knowledge: Mathematics Extension 1 and either Physics or Chemistry, depending on the engineering stream; refer to the relevant stream

**Specialisations and majors** 

In addition to the B Engineering stream requirements, you will undertake a selection of core project management units of study.

#### Career possibilities

Refer to the relevant B Engineering Honours stream and B Project Management.

**Professional recognition** 

This combined degree is accredited by Engineers Australia and the Project Management Institute Global Accreditation Centre. Our graduates are recognised internationally through the Washington Accord of the International Engineering Alliance.

#### **B Engineering Honours/B Science**

ATAR: 85 IB: 31

Entry: Feb/Jul

**Duration (full time):** 5 years **Dalyell by invitation** 

Mathematics prerequisite may apply‡

Assumed knowledge: Mathematics Extension 1 and either Physics or Chemistry, depending on the Engineering stream (refer to the relevant stream). For B Science: Depends on majors or units of study chosen.

#### Specialisations and majors

In addition to the relevant B Engineering Honours stream requirements, you will take a major from B Science.

#### Career possibilities

Refer to the relevant B Engineering Honours stream and B Science.

#### Professional recognition

This combined degree is accredited by Engineers Australia. Our graduates are recognised internationally through the Washington Accord of the International Engineering Alliance.

#### B Engineering Honours (Biomedical)/B Science (Health)

ATAR: 85 IB: 31 Entry: Feb/Jul

**Duration (full time):** 5 years **Dalyell by invitation** 

Mathematics prerequisite may apply‡
Assumed knowledge: Mathematics
Extension 1, Chemistry, Biology

#### Programs and majors

In addition to the B Engineering Honours (Biomedical) stream requirements, you will complete a Health major in B Science (Health).

#### Career possibilities

Refer to B Engineering Honours (Biomedical) stream and B Science (Health).

#### **Professional recognition**

This combined degree is accredited by Engineers Australia. Our graduates are recognised internationally through the Washington Accord of the International Engineering Alliance.

# B Engineering Honours (Biomedical)/B Science (Medical Science)

ATAR: 85 IB: 31 Entry: Feb/Jul

**Duration (full time):** 5 years **Dalyell by invitation** 

Mathematics prerequisite may apply‡
Assumed knowledge: Mathematics Extension 1,

Chemistry, Biology

#### Specialisations and majors

In addition to the relevant B Engineering Honours stream requirements, you will complete a program in Medical Science, including a Medical Science major in B Science (Medical Science).

#### Career possibilities

Refer to the relevant B Engineering Honours stream and B Science (Medical Science).

#### **Professional recognition**

This combined degree is accredited by Engineers Australia. Our graduates are recognised internationally through the Washington Accord of the International Engineering Alliance.

#### **B Project Management**

ATAR: 80
IB: 29
Entry: Feb/Jul

Duration (full time): 3 years

Mathematics prerequisite may apply‡
Assumed knowledge: Mathematics Advanced
and/or higher (depending on major chosen);
other assumed knowledge: Depends on major
or units of study chosen

#### Programs and majors

Choose one major either from the project management options in Construction or Built Environment, or from the shared pool of majors. Built Environment major units are offered by the University of Sydney School of Architecture, Design and Planning. You can also take a project management minor in People and Change, or Project Controls.

#### Career possibilities

Professional and management roles in property development, construction, mining, events, IT, banking and finance, state or federal government, and consultancy roles in the engineering, water health or energy sectors

#### **Professional recognition**

This degree is accredited by the Project Management Institute Global Accreditation Centre for Project Management Education programs.

#### Combine this degree with

B Engineering Honours

#### B Arts/B Laws

ATAR: 95.5 **IB:** 38 Entry: Feb

Duration (full time): 5 years Dalyell by invitation

Assumed knowledge: For B Arts: Depends on the majors or units of study chosen. For B Laws: English Advanced.

#### Programs, majors and minors

Refer to B Arts. Units of study for B Laws: First year: Foundations of Law, Legal Research, Torts. Second year: Civil and Criminal Procedure, Contracts, Criminal Law. Third year: Torts and Contracts II. Public International Law, Public Law, Legal Research II. Fourth year: Administrative Law, Corporations Law, Equity, Evidence, Federal Constitutional Law, Introduction to Property and Commercial Law, Real Property and the Legal Profession. Fifth year: Private International Law A and seven elective units of study.

#### Career possibilities

Refer to B Arts. For B Laws: Solicitor, barrister, magistrate, judge, and roles in diplomacy. foreign affairs, human rights, international relations, investment banking, journalism, management consultancy and public policy.

#### B Commerce/B Laws

ATAR: 95.5 **IB:** 38 Entry: Feb

Duration (full time): 5 years Dalvell by invitation

Mathematics prerequisite may apply‡ Assumed knowledge: For B Commerice: Mathematics Advanced or higher, other assumed knowledge depends on majors or units of study chosen. For B Laws: English Advanced.

#### Programs, majors and minors

Refer to B Commerce. Units of study for B Laws: First year: Foundations of Law, Legal Research, Torts. Second year: Civil and Criminal Procedure, Contracts, Criminal Law. Third year: Torts and Contracts II, Public International Law, Public Law, Legal Research II. Fourth year: Administrative Law, Corporations Law, Equity, Evidence, Federal Constitutional Law, Introduction to Property and Commercial Law, Real Property and the Legal Profession. Fifth year: Private

International Law A and seven elective units of study.

#### Career possibilities

Refer to B Commerce. For B Laws: Solicitor, barrister, magistrate, judge, and roles in diplomacy, foreign affairs, human rights, international relations, investment banking, journalism, management consultancy and public policy.

#### B Economics/B Laws

**ATAR:** 95.5 IB: 38 Entry: Feb

Duration (full time): 5 years Dalyell by invitation

Mathematics prerequisite may apply‡ Assumed knowledge: For B Economics: Mathematics Advanced or higher. For B Laws: English Advanced.

#### Programs, majors and minors

Refer to B Economics. Units of study for B Laws: First year: Foundations of Law, Legal Research, Torts. Second year: Civil and Criminal Procedure, Contracts, Criminal Law. Third year: Torts and Contracts II, Public International Law, Public Law, Legal Research II. Fourth year: Administrative Law, Corporations Law, Equity, Evidence, Federal Constitutional Law, Introduction to Property and Commercial Law, Real Property and the Legal Profession. Fifth year: Private International Law A and seven elective units of study.

#### Career possibilities

Refer to B Economics. For B Laws: Solicitor, barrister, magistrate, judge, and roles in diplomacy, foreign affairs, human rights, international relations, investment banking, journalism, management consultancy and public policy.

#### B Engineering Honours/B Laws

**ATAR:** 95.5 IB: 38 Entry: Feb

Duration (full time): 6.5 years Mathematics prerequisite may apply‡ Assumed knowledge: For B Engineering Honours: Mathematics Extension 1 and either Physics or Chemistry (depending on the engineering stream chosen). For B Laws: English Advanced.

#### Programs, majors and minors

In addition to the relevant B Engineering Honours stream requirements, you will undertake law units of study. Units of study for B Laws: First year: Foundations of Law, Legal Research, Torts. Second year: Civil and Criminal Procedure, Contracts, Criminal Law. Third year: Torts and Contracts II, Public International Law, Public Law, Legal Research II. Fourth year: Administrative Law, Corporations Law, Equity, Evidence, Federal Constitutional Law, Introduction to

Property and Commercial Law, Real Property and the Legal Profession. Fifth year: Private International Law A and seven elective units of study.

#### Career possibilities

Refer to the relevant B Engineering Honours stream. For B Laws: Solicitor, barrister, magistrate, judge, and roles in diplomacy, foreign affairs, human rights, international relations, investment banking, journalism, management consultancy ans public policy.

#### B Science/B Laws

ATAR: 95.5 **IB:** 38 Entry: Feb

Duration (full time): 5 years Dalvell by invitation

Mathematics prerequisite may apply‡ Advanced stream: Available Assumed knowledge: For B Science: Mathematics Advanced and/or higher (depending on units of study chosen); other assumed knowledge depends on majors or units of study chosen. For B Laws: English Advanced.

# Programs, majors and minors

Refer to B Science. Please note that the only stream available in this combined degree is the Dalvell stream. Units of study for B Laws: First vear: Foundations of Law. Legal Research, Torts, Second year: Civil and Criminal Procedure, Contracts, Criminal Law. Third year: Torts and Contracts II, Public International Law, Public Law, Legal Research II. Fourth year: Administrative Law, Corporations Law, Equity, Evidence, Federal Constitutional Law, Introduction to Property and Commercial Law, Real Property and the Legal Profession. Fifth year: Private International Law A and seven elective units of study.

#### Career possibilities

Refer to B Science and the possibilities below for science-specific careers: Environmental lawyer, urban and regional planner, occupational health and safety specialist, forensic science technician, science policy specialist, technical specialist or associate undertaking intellectual property cases in science patents, copyright and trademark disputes. For B Laws: Solicitor, barrister, magistrate, judge, and roles in diplomacy, foreign affairs, human rights, international relations, investment banking, iournalism, management consultancy and public policy.

# Medicine and health

Use the QR code to see Medicine and health course details

#### **B Applied Science (Diagnostic Radiography)**

ATAR: 94
IB: 37
Entry: Feb

**Duration (full time):** 4 years **Assumed knowledge:** Mathematics

Advanced, Physics

#### Programs, majors and minors

You will cover studies in anatomy, biological sciences, equipment and imaging techniques, image processing, pathology, physics, psychology and radiation biology.

#### Career possibilities

Diagnostic radiographer, with the possibility

of working in a range of settings, such as small regional clinics, large metropolitan imaging departments, and hospital emergency departments

#### **Professional recognition**

Medical Radiation Practice Board of Australia

#### **B** Applied Science (Exercise and Sport Science)

ATAR: 80 IB: 29 Entry: Feb

**Duration (full time):** 3 years **Assumed knowledge:** Chemistry and Mathematics Advanced or higher

#### Programs, majors and minors

You will complete a major in Exercise Science, and a minor or second major in Physical Activity and Health. You can also take electives or an optional major or minor from the shared pool, or access the Open Learning Environment to broaden your learning. You will complete two practicum experiences in the final year. For the combined degree you must complete a second major, selecting either the Physical Activity and Health major or a major from the shared pool.

#### Career possibilities

Accredited exercise scientist, coach, personal trainer, strength and conditioning specialist. Our graduates find careers in the sport, fitness and health industries; work health and safety; injury prevention; public health; exercise rehabilitation; research and technology; education and health; and medical insurance.

#### **Professional recognition**

See the course page at sydney.edu.au/courses

#### **B Applied Science (Exercise Physiology)**

ATAR: 89 IB: 33 Entry: Feb

**Duration (full time):** 4 years **Assumed knowledge:** Chemistry
and Mathematics Advanced or higher

#### Programs, majors and minors

You will cover studies in biomechanics, clinical exercise practice, ergonomics, exercise physiology, functional anatomy, motor control and behaviour.

#### Career possibilities

Exercise physiologist. As an accredited exercise physiologist, you will have the opportunity to work across all sectors of

health care, including cardiac rehabilitation, musculoskeletal rehabilitation, mental health, long-term rehabilitation following spinal cord injury, ageing, occupational rehabilitation and programs for people with an intellectual disability.

#### **Professional recognition**

See the course page at sydney.edu.au/courses

#### **B Applied Science (Occupational Therapy)**

ATAR: 91 IB: 34 Entry: Feb

Duration (full time): 4 years

#### Programs, majors and minors

You will complete a major or minor in Disability and Participation and cover studies in physical and psychosocial capacity as well as human anatomy, neuroscience, occupational therapy theory and practice, disability rights and participation and infancy and preschool occupational performance. You will also undertake a wide variety of placements totalling 1000 hours.

#### Career possibilities

Occupational therapist. The breadth of occupational therapy means you can diversify

your career while staying within the same profession. For example, you could work in the National Disability Insurance Scheme (NDIS), one-on-one in rehabilitation with stroke or cancer survivors, then work with babies in a neonatal intensive care unit or young adults in a community mental health program.

# Professional recognition

Occupational Therapy Board of Australia, Australian Health Practitioner Regulation Agency, Occupational Therapy Council of Australia and World Federation of Occupational Therapists

#### **B Applied Science (Physiotherapy)**

ATAR: 97.5 IB: 40 Entry: Feb

Duration (full time): 4 years

Assumed knowledge: Chemistry and Physics

# Programs, majors and minors

You will cover studies in biomedical sciences, behavioural and social sciences, exercise science, human anatomy, human movement and neuroscience as well as theory and practice of musculoskeletal, neurological and cardiopulmonary physiotherapy across the lifespan. You will also undertake a placement to gain valuable practical experience.

# Career possibilities

Physiotherapist. You can choose from a diverse range of physiotherapy and health promotion career options in both the public and private sectors, in settings such as healthcare organisations as well as sports, schools and community, and private practice.

#### **Professional recognition**

Australian Physiotherapy Council and Australian Health Practitioner Regulation Agency (AHPRA)

#### **B Applied Science (Speech Pathology)**

ATAR: 92 IB: 35 Entry: Feb

Duration (full time): 4 years

#### **Programs**

You will study anatomy, neurobiology, psychology and research methods alongside a range of speech pathology units such as communication, linguistics, language development and disorder, speech, phonology, literacy, hearing loss, dysphagia, stuttering and voice. You will also undertake multiple clinical placements to gain essential professional experience.

#### Career possibilities

Speech pathologist. You can be employed across diverse settings, including hospitals and community health, mental health and justice services, aged care facilities, non-government organisations, education, and private practice.

#### **Professional recognition**

Speech Pathology Australia

#### **B Arts/D Medicine**

ATAR: 99.95 + other admission criteria

IB: 45 + other admission criteria

Entry: Feb

**Duration (full time):** 7 years **Dalyell by invitation** 

Mathematics prerequisite may apply‡
Assumed knowledge: For B Arts: Depends on
majors or units of study chosen. For Medicine:
Mathematics Advanced or higher.

#### Programs, majors and minors

Refer to B Arts. You will choose a major from the options available in the B Arts, and either a second major or a minor from those options or the shared pool. During the B Arts, you will also complete foundational knowledge units for medicine (in science), a zero-credit-point subject in medicine, and Open Learning Environment units. If you become a Dalyell Scholar, you will complete 12 credit points of distinctive Dalyell units designed to cultivate high-level graduate attributes. You will also have access to a suite of additional enrichment opportunities. In the Doctor of Medicine component, practical experience – including

contact with patients and observation of the physical aspects of disease – commences in the first year and continues to the final year.

#### Career possibilities

Registered medical practitioner in a variety of specialties, subject to further training (e.g. medicine, surgery, general practice, mental health, women's health, child and adolescent health), biomedical and clinical research, teaching, health advocacy, health service management

#### **Professional recognition**

Australian Medical Council (AMC)

#### B Arts/M Nursing

ATAR: 80 IB: 29 Entry: Feb

Duration (full time): 4 years

**Assumed knowledge:** For B Arts: Depends on the majors or units of study chosen; For M Nursing: None.

Programs, majors and minors

Refer to B Arts. You will choose a major from the B Arts and electives from those available in the B Arts or the shared pool. You'll also have access to the Open Learning Environment. The areas of study include: Acute care, aged care, chronic illness, clinical practice, Indigenous health, mental health, pharmacology, physiology, professional practice, social and health policy.

#### Career possibilities

Registered nurse in a range of healthcare areas including emergency, intensive care, mental health, cancer and palliative care, aged care, child and adolescent health, community health, education and research. Allows for study in other areas of interest.

#### **Professional recognition**

Leads to registration to practice as a nurse in Australia with Australian Health Practitioner Regulation Agency

#### **B Nursing (Advanced Studies)**

ATAR: 80 IB: 29 Entry: Feb

Duration (full time): 3 years

#### Programs, majors and minors

Focus areas for nursing: Acute care, aged care, child and adolescent health, chronic illness, clinical practice, Indigenous health, mental health, pharmacology, physiology, primary health care, professional practice, social and health policy

#### Career possibilities

Registered nurse in a range of healthcare areas, including emergency, intensive care, mental health, cancer and palliative care, aged care, child and adolescent health, education and research

#### **Professional recognition**

Leads to registration to practice as a nurse in Australia with Australian Health Practitioner Regulation Agency.

## **B** Oral Health

ATAR: 82 IB: 30 Entry: Feb

**Duration (full time):** 3 years **Assumed knowledge:** Biology and/or

Chemistry

#### Programs, majors and minors

Your studies will include dental hygiene and dental therapy service as well as oral health promotion.

# Career possibilities

Oral health therapist, dental hygienist, dental therapist, community oral health educator/consultant/advocate

#### Professional recognition

Australian Dental Council, Dental Board of Australia

# Medicine and health

#### **B Pharmacy (Honours)/M Pharmacy Practice**

ATAR: 85 IB: 31 Entry: Feb

Duration (full time): 5 years
Mathematics prerequisite may apply‡
Assumed knowledge: Mathematics Advanced or higher, Biology and Chemistry

#### Programs, majors and minors

Your studies will integrate knowledge and skills in biology, physiology pharmaceutical sciences, pharmaceutics, pharmacy

practice. In the fourth year, you will undertake your honours research project, which could be based overseas in pharmacy-related settings or in the pharmaceutical industry. Work-integrated learning is a key component of this course, and the fifth year (M Pharmacy Practice) has been developed to meet the Australian Pharmacy Council pre-registration training requirements to become a registered pharmacist and to meet the requirement to complete one year of supervised practice training. Completion of a major is not a requirement in this degree.

#### Career possibilities

Registered pharmacist in a community pharmacy (community practice) or hospital pharmacy; researcher within a university or research institute; or roles in the pharmaceutical industry in drug development, production or marketing.

#### **Professional recognition**

This degree is accredited by the Australian Pharmacy Council and the supervised practice component is approved by the Pharmacy Board of Australia.

#### B Pharmacy and Management (Honours)/M Pharmacy Practice

ATAR: 85 IB: 31 Entry: Feb

Duration (full time): 6 years
Mathematics prerequisite may apply‡
Assumed knowledge: Mathematics Advanced
or higher, Biology and Chemistry

#### Programs, majors and minors

Your studies will integrate knowledge and skills in biology, physiology, pharmaceutical sciences, pharmaceutics, pharmacology and pharmacy practice, as well as business. In the

fifth year, you will undertake your honours research project, which could be based overseas in pharmacy-related settings or in the pharmaceutical industry. Work-integrated learning is a key component of this course, and the sixth year (Master of Pharmacy Practice) has been developed to meet the Australian Pharmacy Council pre-registration training requirements to become a registered pharmacist and to meet the requirement to complete one year of supervised practice training. Completion of a major is not a requirement in this degree.

#### Career possibilities

Registered pharmacist in a community pharmacy (community practice) or hospital pharmacy; researcher within a university or research institute; or roles in the pharmaceutical industry in drug development, production or marketing.

#### **Professional recognition**

This degree is accredited by the Australian Pharmacy Council and the supervised practice component is approved by the Pharmacy Board of Australia.

#### B Science/D Dental Medicine

ATAR: 99.6 + other admission criteria IB: 44 + other admission criteria

Entry: Feb

**Duration (full time):** 7 years **Dalyell by invitation** 

Mathematics prerequisite may apply‡

Advanced stream: Available
Assumed knowledge: For B Science:
Mathematics Advanced and/or higher
(depending on units of study chosen);
other assumed knowledge depends
on majors or units of study chosen.
For D Dental Medicine: None.

## Programs, majors and minors

During the B Science, you may choose from a wide range of majors and minors from across the sciences. Refer to B Science. You will also complete foundational knowledge units for biology and a zero-credit-point unit of independent learning related to dentistry and oral health. If you become a Dalyell Scholar, you will complete 12 credit points of distinctive Dalyell units designed to cultivate high-level graduate attributes. For the Doctor of Dental Medicine, you will study integrated clinical dentistry and life sciences, and conduct a research project related to dentistry and oral health.

## Career possibilities

Dentist in private practice, public service (hospitals, schools, health departments), defence forces, oral health researcher, academic careers and a variety of specialisation options on completion of professional and research experience.

# Professional recognition

Dental Board of Australia, Australian Dental Council

## **B Science/D Medicine**

ATAR: 99.95 + other admission criteria IB: 45 + other admission criteria

Entry: Feb

**Duration (full time):** 7 years **Dalyell by invitation** 

Mathematics prerequisite may apply‡

#### **B Science/M Nursing**

ATAR: 80 IB: 29 Entry: Feb

**Duration (full time):** 4 years **Dalyell by invitation** 

Mathematics prerequisite may apply‡
Assumed knowledge: For B Science:
Mathematics Advanced and/or higher
(depending on units of study chosen); other
assumed knowledge depends on majors or
units of study chosen. For M Nursing: None.

#### Programs, majors and minors

You will choose one major from those available in B Science (refer to B Science) and Open Learning Environment units. The areas of study include: Acute care, aged care, child and adolescent health, chronic illness, clinical practice, Indigenous health, mental health, pharmacology, physiology, professional practice, social and health policy.

#### Career possibilities

Registered nurse in a range of healthcare areas including emergency, intensive care, mental health, cancer and palliative care, aged

care, child and adolescent health, community health, education and research with the ability to use your knowledge of science in health issues such as infectious and noncommunicable diseases, infection control, anatomy, physiology and biomedical science, pharmacology and research.

#### **Professional recognition**

Leads to registration to practice as a nurse in Australia with Australian Health Practitioner Regulation Agency

#### B Science (Health)/M Nursing

ATAR: 80 IB: 29 Entry: Feb

**Duration (full time):** 4 years **Dalyell by invitation** 

Mathematics prerequisite may apply‡
Assumed knowledge: For B Science (Health):
Mathematics Advanced or higher; other
assumed knowledge depends on majors or
units of study chosen.

#### Programs, majors and minors

You will complete a major in Health within the Health stream, a second major and Open Learning Environment units – refer to B Science (Health). The areas of study include: Acute care, aged care, child and adolescent health, chronic illness, clinical practice, Indigenous health, mental health care and management, pharmacology, physiology, professional practice, social and health policy.

#### Career possibilities

Registered nurse in a range of healthcare areas including emergency, intensive care,

mental health, cancer and palliative care, aged care, child and adolescent health, community health, education and research. You can apply your knowledge of health systems in industries supporting health care, including e-health, mental health, industrial relations and management.

# **Professional recognition**

Leads to registration to practice as a nurse in Australia with Australian Health Practitioner Regulation Agency

#### **B Science/M Nutrition and Dietetics**

**ATAR:** 92.5 **IB:** 35 **Entry:** Feb

**Duration (full time):** 5 years **Dalyell by invitation** 

Mathematics prerequisite may apply‡

**Assumed knowledge:** Mathematics Advanced or higher, Chemistry and Biology; other assumed knowledge depends on major or units of study chosen for the B Science.

#### Programs, majors and minors

For the B Science, you will complete a program in Nutrition and Dietetics, including a major in Nutrition Science, a minor or a second major and units of study from the Open Learning Environment. You will require a credit average in the Bachelor of Science to proceed to the Master of Nutrition and Dietetics.

For M Nutrition and Dietetics, your studies will include nutritional science, nutritional assessment, professional studies, methods in research, medical nutrition therapy, public health nutrition, food service management.

and 20 weeks of dietetics training placements and a semester of nutrition research.

#### Career possibilities

Hospital dietitian, dietitian-nutritionist in private practice, primary care, aged care, community, public health, government or industry

#### **Professional recognition**

Graduates of this program are eligible to become full members of Dietitians Australia and to join the Accredited Practising Dietitian Program

#### Additional admission criteria

#### DENTISTRY

# **Bachelor of Science/Doctor of Dental Medicine**

Admission is based on ATAR or equivalent and satisfactory performance in an assessment process comprising a written assessment and a panel discussion.

Applicants are only eligible for admission to the first available course intake following receipt of final results. Find out more about eligibility and how to apply at sydney, edu.au/dentistry/dddp

There are separate requirements for progression to the Doctor of Dental Medicine component of the double degree. For details, visit the course page: sydney.edu.au/courses/courses/uc/bachelorof-science-and-doctor-of-dental-medicine.html

Our graduate entry option is available if you already have a bachelor's degree. You should start the application process at least 12 months in advance. sydney.edu.au/courses/courses/pc/doctor-of-dental-medicine.html

#### MEDICINE

#### Bachelor of Arts/ Doctor of Medicine

#### Bachelor of Science/ Doctor of Medicine

Admission to the double degree medicine pathway is based on ATAR or equivalent and satisfactory performance in an assessment process that includes a written assessment and a panel discussion.

Applicants are only eligible for admission to the first available course intake following receipt of final results. Find out more about eligibility and how to apply at sydney.edu.au/medicine/ddmp

There are separate requirements for progression to the Doctor of Medicine component of the double degree. For details, visit the course page:

# ABORIGINAL AND TORRES STRAIT ISLANDER PATHWAYS

Find out about our pathways for Indigenous applicants: sydney.edu.au/ medicine-health/ indigenous-student-pathways

#### **B** Music

ATAR: 70 + portfolio and interview IB: 24 + portfolio and interview

Entry: Feb

Duration (full time): 4 years Assumed knowledge: Music 1

#### Programs, majors and minors

You will choose from the following programs: Contemporary Music Practice; Composition for Creative Industries; Digital Music and Media; or a major in Musicology. You may also take an optional major, minor or electives from the shared pool and the Open Learning Environment.

#### Career possibilities

These depend on the areas of study and could include: arts administrator, music producer, singer/songwriter, contemporary musician, festival or venue manager, composer, music arranger, sound installation designer, interactive music designer, music journalist. music researcher, event producer.

# **B Music (Composition)**

## B Music/B Advanced Studies (Composition)

ATAR: 70 + portfolio and interview IB: 24 + portfolio and interview

Entry: Feb

Duration (full time): 4 years (single)

/5 years (combined)

Assumed knowledge: Music 2

#### Programs, majors and minors

You will have the opportunity to study in both traditional and electroacoustic composition areas, including computer music, digital music and sound art. You will take core studies in compositional techniques and analysis, instrumentation and orchestration, music theory and aural training, and historical and cultural studies. In the combined B Music/B Advanced Studies (Composition) you will complete a major from the shared pool and units from the Open Learning Environment. In the fifth year, you will undertake advanced coursework and a substantial real-world industry, community, entrepreneurship project, or an honours project.

#### Career possibilities

Composer, music arranger, concert entrepreneur, artistic curator, music researcher

#### **B Music (Music Education)**

ATAR: 70 + audition/portfolio and special requirements for teaching courses IB: 24 + audition/portfolio and special requirements for teaching courses

Entry: Feb/Jul

Duration (full time): 4 years Assumed knowledge: Music 2

Prerequisites: NSW Education Standards Authority (NESA) requirement of Band 5 in three HSC subjects, one of which must be English (Standard or Advanced or ESL/EALD)

or equivalent. See page 41.

#### Programs, majors and minors

You will undertake core Music Education studies, plus a principal study in either a classical instrument, voice, jazz studies, drum set, historical performance, non-Western instruments, composition, contemporary music practice, or musicology. You will also undertake studies in analysis, history and cultural studies, and music skills (aural perception, harmony and analysis).

#### Career possibilities

Classroom music teacher, private music teacher

#### **Professional recognition**

NSW Education Standards Authority (NESA)

# **B Music (Performance)**

#### B Music/B Advanced Studies (Performance)

ATAR: 70 + audition IB: 24 + audition Entry: Feb/Jul **Duration (full time):** 4 years (single)/ 5 years (combined)

Assumed knowledge: Music 2

## Programs, majors and minors

You will take an instrumental or vocal principal study from either classical music, jazz, historical performance, music theatre, non-Western music or drum set. In addition, vou will complete core studies in music skills and analysis, history, culture, performance, ensemble studies and pedagogy. In the combined B Music/B Advanced Studies (Performance), you will complete a major from the shared pool and units from the Open Learning Environment. In the fifth year, you will undertake advanced coursework and a substantial real-world industry, community, entrepreneurship project, or an honours project.

#### Career possibilities

Concert soloist, musician, private music teacher, orchestral musician, chamber musician, jazz musician, conductor, concert entrepreneur, arts manager

# Additional admission criteria

For admission to the Sydney Conservatorium of Music, you will also be assessed based on an audition (or portfolio) and interview. An audition fee applies.

For more on requirements and deadlines, visit sydney.edu.au/music/audition

For the Bachelor of Music (Music Education), also see requirements under Education (see page 41).

#### **B Agricultural Science B** Agricultural Science Honours

**ATAR:** 75 **IB:** 26 Entry: Feb

Duration (full time): 3 years /4 years with honours

Assumed knowledge: Mathematics Standard or above, English Standard or above

#### Programs, majors and minors

You will complete a comprehensive degree core in Agricultural Science, plus one related major chosen from: Animal Production; Ecology and Evolutionary Biology; Environmental, Agricultural and Resource Economics; Food Science; Genetics and Genomics; Microbiology; Plant Science; Soil Science and Hydrology. In the final year of the honours degree, in addition to a research project, you will undertake advanced coursework units and complete a professional development unit involving farm, industry and community placements.

#### Career possibilities

Agronomist, agricultural scientist, horticultural scientist, sustainable agriculture consultant, researcher, plant geneticist, animal reproduction specialist, environmental microbiologist, food scientist, food safety specialist, botanist, agricultural journalist, agribusiness consultant, commodities trader, agricultural marketing and banking, agricultural data analytics, precision soil scientist

#### **B Liberal Arts and Science**

**ATAR:** 70 IB: 24 Entry: Feb/Jul

Duration (full time): 3 years Dalyell by invitation

Assumed knowledge: Depends on the major or units of study chosen

#### Programs, majors and minors

You will complete one major in either science or arts and a sequence in the other. A 'sequence' is similar to the structure of a minor and includes six units of study.

Arts and social sciences majors include: American Studies; Ancient Greek; Ancient History; Anthropology; Arabic Language and Cultures; Archaeology; Art History; Asian Studies; Biblical Studies and Classical Hebrew; Chinese Studies; Criminology; Cultural Studies; Digital Cultures; Economics; Economic Policy; Econometrics; English; Environmental,

Agricultural and Resource Economics; European Studies; Film Studies; Financial Economics; French and Francophone Studies; Gender Studies; Germanic Studies; Hebrew (Modern); History; Indigenous Studies; Indonesian Studies; International Comparative Literary Studies; International Relations; Italian Studies; Japanese Studies; Jewish Civilisation, Thought and Culture; Korean Studies; Latin; Linguistics; Modern Greek Studies; Music; Philosophy; Political Economy; Politics; Socio-legal Studies; Sociology; Spanish and Latin American Studies; Studies in Religion; Theatre and Performance Studies; Visual Arts.

Science majors include: Anatomy and Histology; Animal Health, Disease and Welfare; Animal Production; Applied Medical Science; Biochemistry and Molecular Biology; Biology; Chemistry; Computer Science; Data Science; Ecology and Evolutionary Biology; Environmental Studies; Financial Mathematics and Statistics; Food Science; Genetics and Genomics; Geography; Geology and Geophysics; Health; History and Philosophy of Science; Immunology and Pathology; Infectious Diseases; Marine Science; Mathematics; Medicinal Chemistry; Microbiology; Nutrition Science; Pharmacology; Physics; Physiology; Plant Production; Psychological Science; Psychology (program); Software Development; Soil Science and Hydrology; Statistics.

#### Career possibilities

Anthropologist, archaeologist, archivist, art or science historian, business administrator or manager, biosecurity researcher, documentary maker, editor or publisher, ecologist, environmental policymaker, food chemistry analyst, foreign affairs and trade officer, geologist, government policy officer, historian, heritage specialist, human resources manager, hydrologist, information specialist, journalist, language specialist, media and communications adviser, museum or gallery curator, plant geneticist, researcher, scientist, sociologist

#### **B Liberal Arts and Science (Advanced)**

**ATAR:** 90 **IB:** 34 Entry: Feb/Jul

Duration (full time): 3 years Dalvell by invitation

Assumed knowledge: Depends on the major or

units of study chosen

#### Programs, majors and minors

You will complete one Science major chosen from the majors with enough Advanced units to complete the Advanced stream, Refer to the majors listed under the B Science (Advanced). You will also complete a sequence in sequence in Arts. Refer to B Liberal Arts and Science.

#### Career possibilities

Anthropologist, archaeologist, archivist, art or science historian, business administrator or

manager, biosecurity researcher, documentary maker, editor or publisher, ecologist, environmental policymaker, food chemistry analyst, foreign affairs and trade officer, geologist, government policy officer, historian, heritage specialist, human resources manager, hydrologist, information specialist, journalist, language specialist, media and communications adviser, museum or gallery curator, plant geneticist, researcher, scientist, sociologist

# **B** Psychology

**ATAR:** 80 IB: 29 Entry: Feb

Duration (full time): 3 years Dalyell by invitation

Mathematics prerequisite may apply‡

Assumed knowledge: Mathematics Advanced or higher; other assumed knowledge depends on minors or units of study chosen

#### Programs, majors and minors

You will complete a program in Psychology, a minor from the shared pool and electives from either B Science, the shared pool or the Open Learning Environment.

#### Career possibilities

Clinical psychologist (with additional study), neuroscientist, organisational psychologist, market researcher, advertising executive,

social psychology researcher, learning and attention researcher

#### **Professional recognition**

Completion of this degree meets the Level 1 program (Foundational Competencies) requirement of the Australian Psychologists Accreditation Council (APAC), allowing graduates to apply for Level 2 in the registration pathway. Refer to the APAC website for further detail.

#### **B Psychology Honours**

ATAR: 91 IB: 34 Entry: Feb

**Duration (full time):** 4 years **Dalyell by invitation** 

Mathematics prerequisite may apply‡
Assumed knowledge: Mathematics Advanced or higher; other assumed knowledge depends on minors or units of study chosen

#### Programs, majors and minors

You will complete a program in Psychology, a minor from the shared pool and electives from either B Science, the shared pool or the Open Learning Environment. You will then undertake honours units in psychology.

#### Career possibilities

Clinical psychologist (with additional study), neuroscientist, organisational psychologist, market researcher, advertising executive, social psychology researcher, learning and attention researcher

#### **Professional recognition**

Completion of this degree meets the Level 1 and 2 program (Foundational and Pre-Professional Competencies) requirements of the Australian Psychologists Accreditation Council (APAC), allowing provisional registration with the Australian Psychological Society. Refer to the APAC website for further detail.

# B Science

# **B Science/B Advanced Studies**

ATAR: 80 IB: 29 Entry: Feb/Jul

**Duration (full time):** 3 years (single) /4 years (combined)

Dalyell by invitation

Mathematics prerequisite may apply‡

Assumed knowledge: Mathematics Advanced and/or higher (depending on units of study selected); other assumed knowledge depends on majors or units of study chosen

# Programs, majors and minors

You will choose Open Learning Environment units, one major from the options below and either a second major (mandatory for the B Science/B Advanced Studies) or a minor from these options, or from the shared pool: Agroecosystems (program); Anatomy and Histology; Animal Health, Disease and

Welfare; Animal Production; Applied Medical Science; Astrophysics (program); Biochemistry and Molecular Biology; Biology; Chemistry; Computer Science; Data Science; Ecology and Evolutionary Biology; Environmental Science (program); Environmental Studies; Financial Mathematics and Statistics; Food Science Genetics and Genomics; Geography; Geology and Geophysics; History and Philosophy of Science; Immunology (minor); Immunology and Pathology; Infectious Diseases; Life Sciences (program); Marine Science; Mathematical Sciences (program - available for ATAR 98+ or equivalent); Mathematics; Medicinal Chemistry; Microbiology: Neuroscience (program): Nutrition Science; Pathology (minor); Pharmacology; Physics; Physiology; Plant Production; Plant Science; Psychological Science; Psychology (program): Software Development: Soil Science and Hydrology; Statistics; Virology (minor only). In the final year of the combined degree, you

will undertake advanced coursework units and a substantial real-world industry, community, entrepreneurship or research project, or an honours project

#### Career possibilities

Agricultural scientist, astronomer, biosecurity researcher, conservation biologist, ecologist, environmental policymaker, food chemistry analyst, hydrologist, mathematician, medical scientist, nanoscientist, nutritionist (after further study), psychologist (after further study), plant geneticist, soil scientist

#### Combine B Science with

B Advanced Computing, B Engineering Honours, B Laws, D Dental Medicine, D Medicine, M Mathematical Sciences, M Nursing, M Nutrition and Dietetics

# B Science (Advanced) B Science/B Advanced Studies (Advanced)

ATAR: 90 IB: 34 Entry: Feb/Jul

Duration (full time): 3 years (single)

/4 years (combined)

Dalyell by invitation

Mathematics prerequisite may apply‡

Assumed knowledge: Mathematics Advanced and/or higher (depending on units of study selected); other assumed knowledge depends on majors or units of study chosen

#### Programs, majors and minors

Refer to B Science/B Advanced Studies. The majors with enough Advanced units of study to complete the Advanced stream are: Anatomy and Histology; Applied Medical Science, Biochemistry and Molecular Biology; Biology; Chemistry; Computer Science; Data Science; Ecology and Evolutionary Biology; Environmental Studies; Financial Mathematics and Statistics; Genetics and Genomics; Geography; Geology and Geophysics; Immunology and Pathology; Infectious Diseases; Marine Science; Mathematics; Medicinal Chemistry; Microbiology; Neuroscience; Pharmacology; Physics; Physiology; Psychological Science; Statistics. You will also complete a second major (for B Science you may choose between a second major or a minor) from the majors and minors listed under the B Science or from the shared pool. You will also complete Open Learning

Environment units. In the final year of the combined degree, you will undertake advanced coursework units and a substantial real-world industry, community, entrepreneurship or research project, or an honours project.

# Career possibilities

Agricultural scientist, astronomer, biosecurity researcher, conservation biologist, ecologist, environmental policymaker, food chemistry analyst, hydrologist, investment banker, journalist, mathematician, medical scientist, nanoscientist, nutritionist (after further study), psychologist (after further study), plant geneticist, soil scientist, veterinarian (after further study)

#### B Science/B Advanced Studies (Dalyell Scholars including Mathematical Sciences)

ATAR: 98 IB: 41

Entry: Feb/Jul

**Duration (full time):** 4 years **Dalyell by application** 

Mathematics prerequisite may apply‡

Assumed knowledge: For Dalyell Scholars:
Mathematics Advanced and/or higher (depending on units of study selected); other assumed knowledge depends on majors or units of study chosen. For Mathematical Sciences: Mathematics Extension 2; other assumed knowledge depends on majors or units of study chosen

#### Programs, majors and minors

Refer to B Science/B Advanced Studies.
A second major must also be taken from these options or from the shared pool. As a Dalyell Scholar, you will undertake 12 credit points of distinctive Dalyell units complemented by a suite of additional enrichment opportunities including mentoring, professional skill development, co-curricular activities, and the option of a global mobility experience. You'll also complete units from the Open Learning Environment. In the final year of the combined degree, you will undertake advanced coursework units and a substantial real-world industry, community, entrepreneurship or research project, or an honours project.

#### **Career possibilities**

Agricultural scientist, astronomer, biosecurity researcher, data analyst, ecologist, environmental policymaker, food chemistry analyst, hydrologist, investment banker, journalist, mathematician, medical scientist, nanoscientist, nutritionist (after further study), psychologist (after further study), plant geneticist, soil scientist

#### **B Science (Health)**

ATAR: 80 IB: 29 Entry: Feb/Jul

Duration (full time): 4 years

Dalyell by invitation

Mathematics prerequisite may apply‡
Assumed knowledge: Mathematics Advanced
and/or higher, Biology and Chemistry; other
assumed knowledge depends on majors or

units of study chosen

# Programs, majors and minors

This stream requires completion of a program in Medical Science, including a Medical Science major. You will also complete a second major (mandatory for B Science/B Advanced Studies (Medical Science) or minor from those available in the B Science or from the shared pool. You'll also complete units from the Open Learning Environment. In the final year of the combined degree, you will undertake advanced coursework units and a substantial real-world industry, community, entrepreneurship or research project, or an honours project.

#### Career possibilities

Medical researcher, pathologist, doctor (with further study), dentist (with further study), histologist, physiologist, microbiologist, biochemist, biomedical device designer, anatomy researcher, infectious diseases researcher, geneticist

#### Combine B Science (Medical Science) with

B Advanced Computing, B Engineering Honours (Biomedical), D Medicine

# Programs, majors and minors

This stream requires completion of a program in Animal and Veterinary Bioscience, including an Animal and Veterinary Bioscience major. You will also complete a second major from those available in the B Science or from the shared pool. You'll also complete units from the Open Learning Environment. In the final year of the combined degree, in addition to a professional placement, you will undertake advanced coursework units and a real-world industry,

community, entrepreneurship or research project, or an honours project.

#### Career possibilities

Agricultural scientist, animal health and welfare professional, animal ethicist, animal nutritionist, biosecurity researcher, ecologist, environmental policymaker, geneticist, wildlife population manager, veterinarian (with further study in the Doctor of Veterinary Medicine)

# B Science/B Advanced Studies (Taronga Wildlife Conservation)

Mathematics prerequisite may apply‡
Assumed knowledge: Mathematics Advanced or higher and Biology; other assumed

knowledge depends on majors or units of study chosen

#### Programs, majors and minors

You will take a program in Taronga Wildlife Conservation which includes a Wildlife Conservation major that combines biology and conservation management. You will also complete a second major from the B Science or the shared pool. The Taronga Wildlife Conservation stream also includes additional prescribed units of study in mathematics and animal sciences. It provides extensive training in wildlife conservation by incorporating the study of biodiversity and evolution, animal science, and animal behaviour and management. You'll also complete units

from the Open Learning Environment. In the final year of the combined degree, in addition to fieldwork, you will undertake advanced coursework projects, or an honours project.

#### Career possibilities

Ecologist, animal reproduction specialist, conservationist, environmental policymaker, teacher (with further training), veterinarian (with further study), in fields including wildlife conservation, sustainability, environmental consulting, animal health, government and policy, NGOs, business and analytics

#### **B Science/M Mathematical Sciences**

ATAR: 93 IB: 36

Entry: Feb/Jul

Duration (full time): 4.5 years

Dalyell by invitation

Mathematics prerequisite may apply‡
Assumed knowledge: Mathematics Extension 2;
other assumed knowledge depends on major
or units of study chosen for the B Science.
Students with top band Mathematics Extension
1 are also encouraged to apply.

#### Programs, majors and minors

In the B Science, you will complete a major at advanced level in either Mathematics, Statistics, Financial Mathematics and Statistics, or Data Science. You will also complete a second major or minor chosen from those available in the B Science or from the shared pool. You will also complete units from the Open Learning Environment. In the M Mathematical Sciences, you will complete advanced units chosen from pure mathematics, applied mathematics, financial mathematics, statistics and data science.

#### Career possibilities

Business analyst, bioinformatician, data scientist, economic modeller, energy forecaster, game designer, health planner, quantitative analyst in banking, statistician, market analyst, meteorologist, financial analyst, teacher (with further training), researcher, web analyst

#### B Veterinary Biology/D Veterinary Medicine

ATAR: 94 + statement and test IB: 37 + statement and test

Entry: Feb

Duration (full time): 6 years

Mathematics prerequisite may apply‡
Assumed knowledge: Mathematics Advanced

or higher, Chemistry, Biology

#### Programs, majors and minors

Your studies will include animal behaviour and welfare science, animal diseases and pathobiology, animal husbandry, cell biology, clinical and professional practice, pharmacology, veterinary anatomy and physiology, veterinary conservation biology, veterinary medicine, veterinary public health and veterinary surgery.

#### Career possibilities

Veterinarian, veterinary geneticist, small animal veterinarian, livestock veterinarian, equine veterinarian, biosecurity researcher, veterinary cardiologist, public health policymaker

#### Professional recognition

Graduates are eligible for registration with the Veterinary Practitioner Board in each state and territory in Australia. The Bachelor of Veterinary Biology/Doctor of Veterinary Medicine is also recognised internationally.

#### Additional admission criteria

Applicants to the Bachelor of Veterinary Biology/Doctor of Veterinary Medicine are required to complete a Commitment to Veterinary Science form and a situational judgement test, in addition to the application for admission. For details, visit the relevant course page: sydney.edu.au/courses

There are separate requirements for progression to the Doctor of Veterinary Medicine component of the combined degree. For details, visit:

sydney.edu.au/handbooks/science

<sup>▲</sup> Admission is based on a combination of ATAR or equivalent, plus additional admission criteria.

Below is a guide to the Australian Tertiary Admission Rank (ATAR) required for admission in 2024, and equivalent scores for some common overseas qualifications. For notes to this table and explanations of the qualifications and entry scores listed, see pages 66-69. Admission to any course is subject to meeting all essential admission criteria, including the ATAR or equivalent, and availability of places.

All scores published are indicative. ATAR-equivalent admission scores listed for other qualifications are also subject to changes in assessment schedules used to convert scores.

For a full list of qualifications and the latest on admission criteria, visit

- sydney.edu.au/study/secondary-qualifications

<sup>&</sup>quot;This double degree lists two tuition fee rates.

The first tuition fee is for students commencing in the undergraduate degree in 2024 for Year 1.

The second tuition fee is for students commencing the postgraduate degree in 2024 for Year 1.

Tuition fees are subject to annual review and will increase each year of your study.

Refer to important fee information on page 73.

<sup>##</sup> Tuition fees are subject to annual increases. For further information, see page 73.
O Not available for full-time study in Australia on a student visa.
^, \*\*, † See table notes on pages 66-69.

<sup>\*\*</sup> Tuition fees are subject to annual increases. For further information, see page 73.

O Not available for full-time study in Australia on a student visa.

^, \*\*, † See table notes on pages 66-69.

# Table *notes*

The information published in these tables (pages 58–65) is a guide for admission to our courses in 2024. The information is correct at the time of publication and may be subject to change. For the latest course information, including admission criteria, course structure and availability, refer to the relevant course at

- sydney.edu.au/courses

#### International students

Courses listed in the '2024 guide to admission criteria for international students' (pages 58-65) are CRICOS registered and available to student visa holders, unless otherwise indicated with a  $\Diamond$ . For more information on CRICOS-registered courses, visit

- cricos.education.gov.au

#### **Admission scores**

The admission criteria published in our tables are to be used as a guide and will not necessarily result in an offer of a place for all courses. Admission is subject to meeting all admission criteria, including English language requirements and prerequisites where applicable for some students. For some courses (marked with a triangle), there are additional admission criteria such as auditions and interviews.

ATAR-equivalent admission scores listed for non-Australian qualifications are also indicative and subject to changes in assessment schedules used to convert scores.

For full course details, check the relevant course at

- sydney.edu.au/courses

For a comprehensive list of secondary education (Year 12 or high school) qualifications accepted by the University, visit

- sydney.edu.au/study/secondary-qualifications

# Programs, majors, minors and specialisations

The programs, majors, minors and specialisations listed are indicative and subject to change. Unless specified as a major or a minor only, majors are also available as minors. For the latest information, visit

- sydney.edu.au/handbooks

#### Assumed knowledge and prerequisites

The assumed knowledge and prerequisites listed in our course tables refer to subjects in the NSW Higher School Certificate (HSC) curriculum. For example, Mathematics Advanced refers to the two-unit HSC subject or an equivalent subject for other qualifications. Refer to the HSC syllabus to understand the required subjects and standards.

 www.educationstandards.nsw.edu.au/wps/portal/ nesa/11-12/Understanding-the-curriculum/syllabuses-a-z

## **Recommended studies**

Some courses may also have recommended studies. For details, check the relevant course at

- sydney.edu.au/courses

#### **Dalyell by invitation**

Dalyell by invitation refers to the Dalyell Scholars stream for high-achieving students that eligible students may be invited to join.

# Key to the tables

#### ▲ Additional admission criteria

Combination of ATAR (or equivalent score) plus additional admission criteria (eg, portfolio, audition, interview). Check the details for your specific course at

sydney.edu.au/courses

# na Not available or not applicable

Not applicable as an admission score cannot be applied.

#### **◊** Bachelor of Nursing Post Registration (Singapore)

This course is delivered in Singapore by a third-party provider and is not available for full-time study in Australia on a student visa. For more information, visit the Singapore Institute of Management's website.

- www.simge.edu.sg

# **Prerequisites**

## **‡ Mathematics prerequisite**

For the courses marked with this symbol, the mathematics prerequisite will apply to international students undertaking an Australian state or territory Year 12 qualification in or outside Australia, any Year 12 qualification in Australia, or the University of Sydney Foundation Program. For more information about the mathematics prerequisite, including equivalent requirements for other qualifications and options available if you have not studied mathematics, visit

- sydney.edu.au/study/maths

#### ^ NESA prerequisites for teaching degrees

- Bachelor of Education (Primary)
- Bachelor of Education (Health and Physical Education)
- Bachelor of Music (Music Education)

The New South Wales Education Standards Authority (NESA) requires students entering these teaching degrees to achieve the equivalent of a minimum of three Band 5s in their NSW HSC, one of which must be English (English Standard, English Advanced, or English as an Additional Language or Dialect (EALD) previously known as English as a Second Lanugage (ESL)). For equivalent requirements for other Australian Year 12 qualifications, refer to the UAC website:

 uac.edu.au/future-applicants/admission-criteria/ year-12-qualifications

For other non-Australian secondary education (high school) qualifications, the University will assess whether you have achieved an equivalent standard through your high school studies. If you need to meet English proficiency requirements through a test such as IELTS, you will complete those requirements separately.

## \*\* Sciences Po and University of Sydney dual degrees

- B Arts (Dual Degree, Sciences Po, France)
- B Economics (Dual Degree, Sciences Po, France)

Applicants will need to meet the minimum admission requirements for their degree of choice at the University of Sydney, including English language requirements. The higher of the English language requirements of the two partner institutions will apply.

The Sciences Po degree requires a total of four years of full-time study to be eligible for two separate awards from Sciences Po and the University of Sydney. During years 1–2, students will enrol at Sciences Po, France, and pay the applicable fee direct to Sciences Po. During years 3–4, students enrol in the applicable Sydney degree (international students enrol in the applicable CRICOS-registered Sydney degree), with eligible transfer credits for studies undertaken at Sciences Po. Students will pay the applicable Sydney fee in years 3–4 to the University of Sydney.

Student visa holders who commence this course may face additional costs associated with their student visa. For visa information, visit

- www.homeaffairs.gov.au

# Explanation of qualification admission scores

These relate to the '2024 guide to admission criteria for international students' table on pages 58-65.

#### **English language test scores**

All English test scores need to be no more than two years old at the date of course commencement. For a full list of English language tests accepted by the University, visit

sydney.edu.au/study/english-reqs

English – IELTS Academic: The first score is the overall score; the score listed within brackets is the minimum score required in each section (L for Listening, R for Reading, S for Speaking, W for Writing).

English – TOEFL iBT (internet-based TOEFL): The first score is the total score required. The first score within brackets is the minimum score for each section – Listening, Reading and Speaking. The second score is the minimum score for Writing. Where specific section scores are required, L is for Listening, R for Reading, S for Speaking, and W for Writing.

#### **International ATAR**

The Australian Tertiary Admissions Rank (ATAR) is a measure of a student's overall academic achievement relative to other students undertaking an Australian state or territory Year 12 qualification. The figures shown in the 'International ATAR' column apply to international applicants.

# **IB Diploma**

Entry is based on the total score for the completed International Baccalaureate (IB) Diploma.

#### **GCE A Levels**

(Applies to UK General Certificate of Education Advanced Level examination and select comparable qualifications.) The first score listed is the requirement for three subjects, the second score is for four subjects. If there are more than four subjects, the best four will be used to calculate the aggregate. The aggregate is calculated from the A2 subjects based on A\*=6, A=5, B=4, C=3, D=2, E=1. Advanced Subsidiary (AS) subjects are not used in calculating the aggregate. At most, one Applied A level subject may be included in the aggregate.

#### Canada

**Ontario:** Ontario Secondary School Diploma (OSSD) average of six university/college preparation courses, including English.

**British Columbia:** Certificate of Graduation (Dogwood diploma). Grade average from all grade 12 subjects except Graduation Transition based on: A=4, B=3, C+=2.5, C=2, C-=1, F=0. Also applies to Adult Secondary School graduation diplomas, comparable qualifications in the Yukon territory and the Diplome de fin d'etudes.

**Nova Scotia:** Nova Scotia High School Completion Certificate average of five Grade XII academic courses.

#### China

**Gaokao:** Gaokao requirement is listed as a percentage for each course. Calculate the score required as a percentage of the maximum score for your province. The maximum score is 750 in most provinces, with exceptions including Shanghai (660) and Hainan (940). For example, for Beijing, 70% = 525 out of a maximum score of 750. Gaokao scores have changed for 2024. The scores published in this guide apply if you provide your Gaokao results after 1 September 2023. For more information on how these scores will apply, visit

sydney.edu.au/courses

#### France

French Baccalaureat: French Baccalaureat score for the following (including French territories and departments):

- Baccalaureat General
- Baccalaureat de l'Enseignement du Second Degre
- Diplome de Bachelier de l'Enseignement du Second Degre
- Option Internationale du Baccalaureat (OIB) –
   International option of the French Baccalaureate

#### Germany

**Abitur:** Average grade or 'Durchschnittsnote' required for the following qualifications:

- Zeugnis der Allgemeinen Hochschulreife
- Abiturientenzeugnis
- Zeugnis der Reife
- Reifezeugnis

#### **Hong Kong**

**HKDSE:** Hong Kong Diploma of Secondary Education (HKDSE) aggregate based on the best five subjects, including any combination of compulsory and Category A and C electives, but excluding Category B (Applied Learning) subjects. For compulsory subjects and Category A electives, the aggregate score is worked out based on 5\*\*, 5\*=6, 5=5, 4=4, 3=3, 2=2 and 1=1. For Category C electives, A=2.5, B=2.0, C=1.5, D=1.0, E=0.

#### India

**CBSE:** All India Senior School Certificate awarded by the Central Board of Secondary Education (CBSE). Total of the best four externally examined subjects, where A1=5, A2=4.5, B1=3.5, B2=3, C1=2, C2=1.5, D1=1, D2=0.5.

Indian School Certificate: Indian School Certificate awarded by the Council for Indian School Certificate Examinations (CISCE). The required score is the average of the best four subjects, including English. Indian School Certificate scores are changing for 2024. The scores published in this guide apply if you provide your Indian School Certificate results after 1 September 2023. For more information on how these scores will apply, visit

- sydney.edu.au/courses

Indian HSSC: Average of the best five academic subjects in the Higher Secondary School Certificate (HSSC) in the states of Andhra Pradesh, Gujarat, Karnataka, Maharashtra, Tamil Nadu and West Bengal. The requirement is higher for other states.

#### Israel

**Teudat Bagrut:** Average weighted mark of the Ministry-examined subjects appearing on the certificate: for each subject multiply the result by its unit value and sum the products. Divide this total sum by the total number of units for Ministry-examined subjects. School-based subjects on the certificate are not included.

#### Kenva

**Kenyan Certificate of Secondary Education:** Aggregate based on maximum seven subjects, where A=12, A=11, B+=10, B= 9, B=8, C+=7, C=6, C=5, D+=4, D=3, D=2, E=1.

#### Malaysia

**UEC:** Unified Examination Certificate (UEC) grade average (A1, A2 or B3) based on the best five subjects\* (excluding vocational subjects), taking the numerical value of the grades, for example, A1=1, A2=2, B3=3, B4=4 and so on, where a sum of 5=A1 average, 6-10=A2 average, and 11-15=B3 average.

\*Dentistry and medicine double degrees require nine A1 subjects.

#### Norway

**Vitnemal:** Grade average in the Norwegian Certificate of Completion of Upper Secondary School Examinations (Vitnemal fra den Videregaende Skole).

#### **Singapore**

**Singapore A Levels:** Applicants must present at least three H2 subjects and the aggregate can be raised as follows:

- 4 x H2, or
- 3 x H2 + H3\*, or
- 3 x H2 + Knowledge and Inquiry (KI at H2 level), or
- 3 x H2 + General Paper (GP at H1 level) + content-based subject (at H1 level)

The aggregate is calculated as follows:

- H2 subjects based on A=120, B=100, C=80, D=60, E=40
- H3 subjects are ranked the same as H2, based on Distinction = 120, Merit = 100, Pass = 80
- H1 subjects based on A=60, B=50, C=40, D=30, E=20
- Project Work and Mother Tongue are not included.
- Aggregate is calculated from H2 subjects taken in the same sitting.
- Applicants must present either GP or KI, even if the result may not count toward their aggregate.

\*H3 subject can only be included if it is not the same unit taken at H2 level.

#### **South Africa**

**South African National Senior Certificate:** Average of the best four subjects (with the highest percentage results), excluding Life Orientation.

## South Korea (Republic of Korea)

**South Korea CSAT:** Aggregate calculated from four standard scores in Korean Language, Mathematics and the best two subjects from Social Studies or Science area. The Korean Senior High School Diploma is not assessable.

#### Sri Lanka

**Sri Lanka A Levels:** GCE Advanced Level examination aggregate of the best three Advanced Level subjects based on A=4, B=3, C=2, S=1, F=0. A fourth subject grade may be added if three A grades are achieved.

#### Sweden

**Slutbetyg:** Swedish Upper Secondary School Leaving Certificate (from a Gymnasieskolan). From 2014, the entry requirement is the average of grades based on A=20, B=17.5, C=15, D=12.5, E=10, F=0. Different requirements apply prior to 2014.

#### United States (in or outside the US)

ACT\*: American College Test (ACT) composite score. Evidence of graduation from a secondary education qualification is also required. ACT scores required can be lower for applicants presenting Advanced Placement tests (APs) with a score of 4 or better. ACT scores are changing for 2024. The scores published in this guide apply if you provide your ACT results after 1 September 2023. For more information on how these scores will apply, visit

#### - sydney.edu.au/courses

SAT\*: Scholastic Aptitude Test (SAT) composite score out of 1600 for tests taken from 2016. Evidence of graduation from a secondary education qualification is also required. SAT scores required can be lower for applicants presenting Advanced Placement tests (APs) with a score of 3 or better.

\*Note: The SAT and ACT do not meet the University of Sydney's mathematics course prerequisite for applicants who are required to meet this requirement. For information on the mathematics prerequisite, visit

- sydney.edu.au/study/maths

#### **USFP GPA/USFP English**

In the admission criteria table, the University of Sydney Foundation program (USFP) score or GPA is the first listed score, and the second letter grade listed after the forward slash is the English grade required. This score can serve as a guide to admission to other Australian university foundation programs. However, depending on the foundation program, the requirements may vary from course to course. Some foundation programs are expressed as a percentage. In this table, an 8 is equal to 80 percent, 9.5 is 95 percent and so on. Separate English requirements will apply for other foundation programs.

† For Nursing pre-registration degrees, the USFP English test result will not meet the English requirements set by the Nursing and Midwifery Accreditation Council (ANMAC). USFP students will be required to meet the IELTS requirement of an overall 7.0 with no band below 7.0. For more information, visit

#### - sydney.edu.au/courses

USFP package offers are not available with Sciences Po Dual Degrees due to the structure of these degrees, which require the first two years to be undertaken in France, and the resulting implications on a student visa.

#### **Vietnam**

Vietnamese High School Graduation Certificate: (Bằng tốt nghiệp THPT) Year 12 GPA from an approved Gifted High School.

# sydney.edu.au - 2024 International Guide

# How to apply

#### TO OUR UNDERGRADUATE COURSES

2

# CHOOSE YOUR COURSE

At the University of Sydney, you have the flexibility to combine study areas from more than 450+ options across nine disciplines, to create the degree that's right for you. Explore your options at

sydney.edu.au/courses

#### CHECK THE ADMISSION CRITERIA FOR THE COURSE

Admission to the University of Sydney is competitive, and is based on meeting admission criteria specific to the course you wish to enter. The following is some general information about our admission requirements. To check the specific admission criteria for your chosen course, search for the individual course page at

- sydney.edu.au/courses

#### Inherent requirements

Some courses in areas such as education, health, medicine and veterinary medicine have inherent requirements that you need to be able to meet to successfully complete that course, such as the ability to carry out essential activities involving children, patients or animals, as relevant. (Reasonable adjustments will be made for disability, cultural and religious factors.) While these are not admission requirements, you need to consider them when making your course selection. Learn more at

sydney.edu.au/students/ inherent-requirements

#### **Academic requirements**

Admission to most of our undergraduate courses is based on one of the following:

- your results in a recognised secondary education (high school) qualification (for a full list of accepted qualifications, see sydney.edu.au/ study/secondary-qualifications)
- your academic average in previous higher education studies that include at least one year of full-time study in a bachelor's degree or, for some courses, a recognised diploma
- your academic performance in an approved university preparation program (or enabling course), such as one of the University of Sydney Preparation Programs (see page 15).

#### **Prerequisites**

Some courses have specific prerequisites that you need to meet before you can receive an offer of admission.

#### Mathematics prerequisites

Mathematics prerequisites apply to some of our courses. This requirement is equivalent to a band 4 in the NSW HSC subject Mathematics Advanced.

For more information about our mathematics prerequisites, including equivalent subjects for other Year 12 qualifications, visit

- sydney.edu.au/study/maths

#### NESA prerequisites for education degrees

Applicants for certain education degrees, including music education, must meet the requirements set by the New South Wales Education Standards Authority (NESA). For more information, see page 41.

#### Additional admission criteria

Some courses, including some medicine, dentistry, education, music, visual arts and veterinary medicine courses and Sciences Po dual degrees, have additional admission criteria, such as an audition, interview, portfolio or personal statement.

#### Assumed knowledge

Some courses expect you to have a certain level of existing knowledge through your high school or other studies in relevant areas such as mathematics, physics, biology or chemistry.

The subjects we list under 'Assumed knowledge' are NSW HSC subjects, but equivalent subjects in other recognised high school qualifications will also meet the expected standard.

All course prerequisites, assumed knowledge and recommended studies are listed under the relevant course at:

- sydney.edu.au /courses

www.educationstandards.nsw.
 edu.au/wps/portal/nesa/k-10/understanding-the-curriculum/syllabuses-a-z

If you have not studied the 'Assumed knowledge' subjects for your course in high school, we recommend that you undertake appropriate bridging courses before you begin your course. For details, visit

- sydney.edu.au/ug-bridging

#### **English language requirements**

Depending on your country of origin and educational background, you may need to provide evidence of your English proficiency to be able to study with us. Learn more at

sydney.edu.au/study/english-reqs

Courses with external registration or accreditation may have additional English language requirements set by the registration or accreditation body.

As an international student, you should apply as early as possible to allow time for visa and travel arrangements.

### Apply directly to the University of Sydney

Most international students apply directly to the University through

sydney.edu.au/courses

Application deadlines vary by course. Check the relevant course page for specific closing dates for your chosen course.

A \$150 (AUD) application processing fee applies.

#### For personalised application advice:

- contact one of our regional experts listed at sydney.edu.au/ study/regional-contacts, or
- apply through one of the University of Sydney's authorised agents (representatives) listed at sydney.edu.au/ study/overseas-agents

#### **Apply through UAC**

You should apply through the Universities Admissions Centre (UAC) if you are currently studying:

- an Australian Year 12 qualification either in or outside Australia; or
- an International Baccalaureate
   (IB) diploma in Australia.

A UAC application fee applies. For details, visit www.uac.edu.au

If you are applying with the New Zealand National Certificate of Educational Achievement (NCEA Level 3), you have the option of applying either directly to the University or through UAC.

#### **Sciences Po dual degrees**

For these degrees, you need to apply directly to the University of Sydney, even if you are applying through UAC for your other preferences.

#### WHAT HAPPENS NEXT?

- 4 You will receive a response

   either an unconditional
  offer if your application is
  successful, or a conditional
  offer if you are required to
  satisfy additional admission
  criteria.
- 5 Accept your unconditional offer (instructions will be included with the offer).
- 6 Pay the required fees
  (instructions will be included
  with the offer) your first
  semester of course tuition fee
  plus your Overseas Student
  Health Cover (OSHC) fee –
  and receive an electronic
  Confirmation of Enrolment
  (eCoE), which you will need for
  your visa application.
- 7 Apply for your student visa and make the necessary travel arrangements.

- 8 Enrol online in your course (includes selecting your subjects instructions will be included with the offer).
- Arrive in time for orientation, welcome activities and course commencement.

For more information about the application process, visit sydney.edu.au/study/how-to-apply/international-students.html

# Important information

#### FOR UNDERGRADUATE APPLICANTS

As an international student, there are several important things you need to know about the application and enrolment process.

An international student is anyone who does not hold Australian or New Zealand citizenship (or dual citizenship), Australian permanent residency, or an Australian permanent humanitarian visa.

If you are a dual citizen who holds Australian or New Zealand citizenship as well as citizenship of another country, you are not an international student and you will be assessed for admission as an Australian domestic student.

#### Student visas

As an international student studying in Australia, you must hold a valid Australian visa for the duration of your study. It is important that you are familiar with all the conditions of your visa, especially if you are considering making any changes to your university enrolment.

As a student visa holder, you must also be aware of the Education Services for Overseas Students (ESOS) framework, established by the Australian Government to ensure that universities deliver quality education and a high level of care to international students. Learn more at

- sydney.edu.au/student-visas

## Students younger than 18 years of age

If you will be younger than 18 years of age when you start your course, you need to provide evidence to the Australian Department of Home Affairs that you have appropriate accommodation and welfare arrangements in place in Australia.

If you will not be accompanied by a parent, legal custodian or approved nominated relative and would like the University to make the appropriate arrangements for you, visit

 sydney.edu.au/ under-18-student-visas

#### **Recognition of prior learning**

Recognition of prior learning (RPL) is when your previous studies are recognised and counted towards your current course completion requirements. If your previous studies are recognised as being equivalent or comparable to some of the content of your chosen course at the University of Sydney, you may be offered credit towards the completion of your course. This can reduce the overall number of credit points required to complete your course, and may also reduce your course duration.

RPL is often assessed on a caseby-case basis, but some faculties and some courses have existing international articulation pathways (see below) for some qualifications.

If you apply for admission directly to the University, you will be asked as part of the application process whether you wish to apply for RPL. If you tick 'Yes', you will receive an email with information about how to log in to the Sydney Student portal and submit an application for RPL. If your application is successful, you will receive an updated offer showing RPL credit offered. You may either accept or decline this RPL credit once you accept your offer to study with us.

For faculties and courses with existing international articulation pathways (see below), you will be awarded RPL credit without having to submit a separate application.

For more information about RPL, visit

sydney.edu.au/study/rpl

### International articulation pathways

The University of Sydney has a range of formal international articulation pathway arrangements with selected overseas universities, polytechnics and colleges. These arrangements can help to fast-track your studies by providing you with RPL credit towards your Sydney degree. For details, visit

 sydney.edu.au/study/ international-articulation

#### **Mandatory work requirements**

Some courses have a mandatory work component that must be completed as part of the course. For courses with this requirement, this work will not count towards your student visa work limits.

# Fees and costs

#### FOR UNDERGRADUATE COURSES

#### **Tuition fees**

Tuition fees vary depending on the course and the year in which you study. See the course tables on pages 58–65 for indicative tuition fees for study beginning in 2024.

All tuition fees listed in this guide are:

- listed in Australian dollars (AUD)
- based on a full-time enrolment load of 48 credit points per year, or a 1.0 Equivalent Full-Time Student Load (1.0 EFTSL), unless otherwise indicated; if your study load is greater or less than this, your tuition fees will vary accordingly
- exclusive of the costs of textbooks and other required course materials, additional course costs, health insurance, and living expenses such as food and accommodation
- exclusive of the Student Services and Amenities Fee (SSAF), which was introduced by the Australian Government to fund university services and support programs.

#### **Estimating your total tuition fees**

For courses that are longer than one year, we are unable to provide you with a precise indication of tuition fees beyond your 2024 tuition fees. Tuition fees increase annually (effective at the start of each calendar year), and our website is updated accordingly. For the most up-to-date tuition fees, search for your course at

- sydney.edu.au/courses

#### **Combined degrees**

For most combined degrees (e.g. Bachelor of Arts and Bachelor of Laws), a single course tuition fee (subject to annual review) applies to the entire period of your studies, regardless of the units of study that you select in each of the two qualifications. The exception to this is the combined Bachelor of Veterinary Biology and Doctor of Veterinary Medicine degree (see below).

# Bachelor of Veterinary Biology and Doctor of Veterinary Medicine

The course tuition fees for this combined degree are calculated differently from those of other combined degrees. This combined degree has two separate course tuition fee rates: one rate for Years 1 and 2 when you are studying the Bachelor of Veterinary Biology, and a higher rate for Years 3 to 6 when you have progressed to the Doctor of Veterinary Medicine. Both course tuition fees are subject to annual increases.

#### Double degrees comprising an undergraduate plus a postgraduate degree

For double degrees comprising an undergraduate degree plus a postgraduate degree, students usually complete the undergraduate-level degree first, before they progress to the postgraduate-level degree. These double degrees have two separate course tuition fee rates, with a higher rate applying to the postgraduate degree. The two separate course tuition fee rates are listed in the tables on pages 58-65. It is important to note both rates when calculating the likely total course cost.

#### Other costs

As well as course tuition fees, you should budget for:

- additional course costs, which may be substantial and may include (but may not be limited to) the costs of course-specific materials and textbooks, tools and protective clothing (see sydney.edu.au/additional-course-costs)
- the annual Student Services and Amenities Fee (SSAF), which is up to \$326 in 2023 and is indexed annually for the duration of your course (see sydney.edu.au/ssaf)
- Overseas Student Health Cover (OSHC), an Australian Government requirement for student visa holders for the full duration of their student visa (see sydney.edu.au/study/oshc)
- living expenses, including accommodation, transport, food and other expenses (see sydney.edu.au/study/living-costs).

#### **Annual fee reviews**

All course tuition fees and the Student Services and Amenities Fee (SSAF) are subject to annual review (and indexation, when required) and will increase for each year of your study, effective at the start of each calendar year.

#### Payment methods

When you receive an offer to study with us, you will be required to make an initial payment equal to your first semester of course tuition fees plus your Overseas Student Health Cover (OSHC) fee, in order to formally secure your place and apply for a student visa. Instructions on how to pay these will be included with the offer.

There are several ways you can pay your fees, including by credit card, bank transfer, BPAY (Australian accounts only), Paypal or one of our online payment gateway providers (Convera, HSBC, Flywire and CIBC). A surcharge of between 0.3% and 2.8% will apply (subject to review and change), depending on the card type used.

For more information about payment methods and surcharges, as well as refund procedures and policies, visit

# stgraduate COURSES

# Why study postgraduate at Sydney?

450+

courses across 9 areas of study

1st

in Australia and 4th in the world for graduate employability\* 150+

research centres and networks

Study and network with your peers, who are the future leaders of this world

Learn from leading lecturers, researchers and industry partners from Australia and around the globe

World-class facilities with cutting-edge technology

PhD students can apply for travel grants to facilitate research activities with our international partners in Asia, Europe, the UK and North America

"As a creative writing practitioner balancing passion and practicality, I have truly benefitted from how the University of Sydney postgraduate program opened doors to a diverse spectrum of both academic and professional opportunities. Moreover, the level of mentoring I have experienced is world-class and truly rewarding."

**Naomi Cammayo** Doctors of Arts (Creative Writing) Home country: Philippines

# Postgraduate coursework degrees

Advance your career, pursue your passion and gain a higher qualification with a postgraduate coursework degree.

Master's degrees by coursework allow you to develop specialised knowledge so you can take the next step in your career, embark on a new one, gain professional qualifications or develop academic expertise in your chosen field.

Graduate diplomas (usually 12 months full time, but in some cases available as six months full time) and graduate certificates (usually six months full time) are shorter coursework programs that are usually based on the associated master's degree and offer a subset of the master's degree units. They offer a shorter qualification or a pathway into the relevant master's degree, or allow you to get a taste of your chosen subject area before committing to a master's degree.

sydney.edu.au/pg

# Postgraduate research degrees

Whether you're an aspiring academic or want to explore a topic you are passionate about, a research degree at the University of Sydney will enable you to make a difference.

The Doctor of Philosophy (PhD) is our premier research degree, and the highest qualification you can attain in Australia. It comprises independent research and writing on an approved topic towards a thesis for examination.

The Master of Philosophy (MPhil) is awarded based on submission of a thesis that makes a substantial contribution to the knowledge of the subject concerned. This degree can also provide a pathway to further study at PhD level.

All of our research is driven by the big picture. We provide a hub for industry, government and community groups to connect and collaborate with our researchers and students. We are home to more than 100 world-renowned multidisciplinary research and teaching centres and institutes, which tackle some of the world's most pressing issues. These include the Marie Bashir Institute for Infectious Diseases and Biosecurity, the University of Sydney Nano Institute, the Charles Perkins Centre, and the Brain and Mind Centre.

Our interdisciplinary approach unites experts in diverse and complementary fields. You'll work alongside some of the world's brightest and most accomplished academics, and have access to our unique international partnerships with institutions including Stanford, UCLA, the University of Edinburgh and Utrecht University.

#### Architecture, design and planning

**Master of Architecture** 060904G 7.0 (6.0) Feb/Jul 44000

This degree qualifies graduates to work in a range of roles within the architectural profession, including as an accredited architect.

082896J 7.0 (6.0) **Master of Architectural Science** Feb/Jul 1.5

In the Architectural Science degree, you have the option to specialise in a single stream or a double stream in Audio and Acoustics, High Performance Buildings, Illumination Design, and Sustainable Design.

#### Master of Architectural Science (Audio and Acoustics)

This stream provides a foundation in the design, measurement and theory of audio and acoustics. Graduates move into communication and entertainment industries in roles including audio production, system design and environmental acoustic consulting.

#### Master of Architectural Science (High Performance Buildings)

This stream provides education in the design, service provision and operation of buildings in a sustainable manner. Graduates work in a wide range of areas including architectural engineering or practice, business, sustainable design, commercial development, property management and more.

#### Master of Architectural Science (Illumination Design)

This stream develops expertise in lighting for architectural and urban environments. Career pathways for graduates include lighting design, engineering, lighting manufacturing, architectural offices and independent consultancies.

#### Master of Architectural Science (Sustainable Design)

This stream equips you with the skills and knowledge to develop efficient and environmentally responsive buildings. Graduates are sustainability experts who choose from a range of career paths including architecture, property development, construction or urban planning.

This degree provides an understanding of public relations theory and practice consistent with an evolving industry and media landscape, in preparation for a career as a public relations adviser, media and communications officer, public affairs consultant, digital communication strategist and more.

#### **Business**

Master of Business Administration (Leadership and Enterprise)

095861B

7.0 (6.0)

Jul

1.5

55000

Our full-time MBA (Leadership and Enterprise) encompasses workshops with industry leaders, intensive group work and tackling real-world issues with a diverse cohort. Graduates have the skills and knowledge to build and lead future enterprises in a digital, hyperconnected world, from tech start-ups to major corporations.

**Master of Commerce** 

019181A

7.0 (6.0)

Feb/Jul

The Master of Commerce offers eight future-focused specialisations with practical experiential projects. It creates adaptable, responsible business mindsets in our graduates, preparing them for resilient leadership in volatile times. This 1.5 year program is most suitable for those with a business or cognate first degree/qualification. Specialisations for this degree include accounting, business information systems, data analytics for business, economics, finance, global logistics, marketing, and strategy, innovation and management.

Master of Commerce (Extension)

7.0 (6.0)

Feb/Jul

56500

The Master of Commerce (Extension) offers eight future-focused specialisations with practical experiential projects. It creates adaptable, responsible business mindsets in our graduates, preparing them for resilient leadership in volatile times. This two-year program allows the selection of up to two specialisations and for optional Research and Exchange semesters. Specialisations for this degree include accounting, business information systems, data analytics for business, economics, finance, global logistics, marketing, and strategy, innovation and management.

Master of Human Resource Management and Industrial Relations

061140E

7.0 (6.0)

Feb/Jul

1.5

56500

Accredited by the Australian Human Resource Institute (AHRI), this degree will equip you with a sound understanding of key employment issues and the rapid changes reshaping local and international work practices and policies.

**Master of International Business** 

074087.1

7.0 (6.0)

Feb/Jul

1.15

56500

This degree will give you the skills to devise and implement strategic decisions that facilitate sustainable, global corporate growth. Career pathways for graduates include roles in trade, consultancy, government and strategy.

Master of Logistics and Supply Chain Management

088747G

7.0 (6.0)

Feb/Jul

1.5 56500

This course is taught at the University's Institute of Transport and Logistics Studies, recognised by the Australian Government as a key centre of excellence in transport and logistics. This degree covers the key analytical and communication skills needed to succeed in Logistics and Supply Chain Management. Our graduates play a key role in building resilient, sustainable and effective logistics and supply chains.

**Master of Management** 

063099G

7.0 (6.0)

Feb/Jul

1.15

49500

Ranked number one in Australia by The Financial Times and QS, our Master of Management will dramatically increase your employment prospects. Specifically designed for recent graduates and early career changers from any area of study, this program develops strong business foundations along with essential soft skills.

Master of Management (CEMS)

063100G

7.0 (6.0)

Feb/Jul

1.5

53000

The University of Sydney is the only university in Australia to offer the CEMS Master in International Management program as part of this degree. Students must be fluent in a second language, and will graduate as highly skilled, in-demand international business and management professionals.

Master of Professional Accounting and Business Performance

107966A

7.0 (6.0)

Feb/Jul

56500

This degree will develop your technical expertise alongside the key analytics, technology and communication skills needed to lead in accounting practice management and beyond. This program meets the requirements for professional accounting accreditation with CPA Australia, Chartered Accountants Australia and New Zealand (CAANZ) and Association of Chartered Certified Accountants (ACCA).

**Graduate Certificate in Human and Community Services** 068550G 6.5 (6.0) Jul 0.5 24750\* Understand and appreciate the latest developments in policy and its application, practice and research in this vital and growing sector. Strengthen your professional knowledge and specialise in your preferred sector, including community work policy and practice, mental health practice standards, and policy responses to domestic violence in Australia. 000674B 49500 Master of Education 6.5 (6.0) Feb/Jul This degree is designed to develop and support the careers of trained teachers who are teaching professionals, educational administrators, researchers and policymakers. It offers advanced learning and development opportunities across a range of specialisations. 000674B 49500 Master of Education (Educational Management and Leadership) 6.5 (6.0) Feb/Jul This degree examines concepts in educational administration and management, from theories and models of organisational behaviour to understanding change processes and their effects on organisations. You'll research a range of human resources development and management issues and their relationship to other developments in education, the economy and society. Master of Education (Educational Psychology) 6.5 (6.0) Feb/Jul 49500 If you aspire to develop a deep understanding of learning, motivation, child and adolescent development (including brain development), thinking skills and individual differences, to apply to your career in the many diverse fields of education practice and policy, then this degree is for you. Master of Education (Special and Inclusive Education) 000674B 49500 6.5 (6.0) This degree will develop the specialised skills and knowledge to teach children with special education needs, and for leadership, consultancy and resources roles in special and inclusive education. Master of Education (Sports Coaching) 000674B 49500 This degree will equip you with knowledge to develop and implement effective learning experiences in the field of sports coaching, examine the technological resources available to support the implementation of specific strategies in coaching athletes and teams, and develop an integrated model with the right mix of training activities, coaching pedagogy and sports science to optimise athletic performance. 49500 Master of Education (TESOL) 000674B 6.5 (6.0) Feb/Jul This degree will develop your professional expertise and knowledge in the areas of applied linguistics and English language education whether you are, or are aspiring to become, an English language teacher of children, adolescents or adults. (Note: this degree does not in itself lead to a professional teaching qualification.) 072217J 49500 Master of Social Work (Qualifying) 7.5 (7.0) Feb 2 Become an accredited social worker by completing this degree. You'll advance your career and be ready for social work roles in health and community services. This degree equips you to take on leadership roles in social work, the health and community services sector and related fields of practice. 020155D 7.5 (7.0 R/W: 8.0 L/S) 49500

#### Master of Teaching (Early Childhood)

This degree enables you to qualify to teach children from birth to five years. You will develop the knowledge and skills to become an outstanding early childhood teacher, professional decision-maker, ethical leader, and theoretical and practical thinker. This degree is listed under the Australian Children's Education and Care Quality Authority (ACECQA) approved qualification list.

#### Master of Teaching (Primary)

020155D 7.5 (7.0 R/W; 8.0 L/S)

49500

This degree prepares you to teach all primary school subjects from kindergarten to Year 6 (K-6). As well as learning about the policy frameworks that shape teaching in NSW, Australia and internationally, you will learn about issues in teaching, learning and curriculum in all school years, from kindergarten to the Higher School Certificate. This degree is a graduate-entry professional teaching qualification to become an accredited teacher in NSW and other Australian jurisdictions.

#### Master of Teaching (Secondary)

020155D 7.5 (7.0 R/W; 8.0 L/S) 49500

You'll specialise in either one or two teaching areas at secondary education level, depending on your areas of interest. If your ambition is to teach science, mathematics, music or languages, you can study one of these as a 'double method' teaching area, and you won't need to study a second area. Alternatively, you can choose to study two 'single method' teaching areas, potentially broadening your future employment options. This degree is a graduate-entry professional teaching qualification to become an accredited teacher in NSW and other Australian jurisdictions.

 53000

 Master of Computer Science (advanced entry)

The Master of Computer Science combines foundational knowledge with specialist skills and real world experience for those looking to operate as a computer scientist or enter the IT industry.

The Master of Computer Science (advanced entry) suits those looking to build on their experience and qualifications to specialise in computer science and advance their career in a future-focused field.

Master of Cybersecurity108761F6.5 (6.0)Feb/Jul1.553000This degree is designed to equip you with knowledge and skillsets in the cybersecurity field, covering both technical topics as well as management

and political/social aspects of cybersecurity.

 Master of Data Science
 108764C
 6.5 (6.0)
 Feb/Jul
 1.5
 53000

This professional degree develops the necessary analytical and technical skills for graduates to use data science to guide strategic decisions and understand customer behaviour, market intelligence and operational performance.

 Master of Digital Health and Data Science
 106003E
 6.5 (6.0)
 Feb/Jul
 1
 53000

The Master of Digital Health and Data Science will equip you to deliver data-driven solutions to meet complex health challenges in leadership roles in various medical and health professions.

 Master of Engineering
 077463K
 6.5 (6.0)
 Feb/Jul
 1.5
 53000

The Master of Engineering is tailored for qualified engineers seeking to move into management roles, or to develop specialised technical knowledge in a particular area. See the specialisations below for more information.

#### Master of Engineering (Automation and Manufacturing Systems)

Learn the engineering principles to understand, modify and control the manufacture, delivery and maintenance of technology components in automation and manufacturing systems.

#### Master of Engineering (Biomedical Engineering)

Become familiar with the technology used to monitor physiological functions and assist in the diagnosis and treatment of patients.

#### Master of Engineering (Chemical and Biomolecular Engineering)

Become equipped with specialised technical knowledge in chemical and biomolecular engineering and learn to understand the design and management of industrial processes guided by economic, environmental and societal considerations.

#### Master of Engineering (Civil Engineering)

Develop specialised skills for planning, designing and testing structures within the built environment including dams, bridges, pipelines, roads, towers and buildings.

#### Master of Engineering (Electrical Engineering)

Acquire technical knowledge in electrical engineering to design and build systems that generate, transmit, measure, control and use electrical energy.

#### Master of Engineering (Fluids Engineering)

Develop specialised technical knowledge in fluids engineering and understand fluid mechanics and engineering systems associated with the fluid environment.

#### Master of Engineering (Geomechanical Engineering)

Obtain the necessary skills to examine soil and rock layers and determine their physical and chemical properties to design foundations and earthworks structures.

#### Master of Engineering (Intelligent Information Engineering)

Learn about the generation, communication and processing of intelligent information engineering, technologies and its applications as it relates to the fields of telecommunications, electrical, computer and software engineering.

	ICOS	glish – IELTS ademic	mmencing mester(s)	ration .ars) 24 indicative ar 1 tuition fe.
Course name	꼾	Eng Aca	Ser	Dul (ye Yes (\$A

#### Master of Engineering (Mechanical Engineering)

Gain an advanced understanding of the design of mechanical components, whole machines, mechanical systems and mechanical processes.

#### Master of Engineering (Power Engineering)

Develop advanced skills to plan, design, construct, operate and maintain power systems and equipment.

#### Master of Engineering (Software)

Gain specialised technical knowledge covering all aspects of software production from strategy and design to coding, quality and management.

#### Master of Engineering (Structural Engineering)

Understand how structures and buildings resist and transfer natural and other forces to the ground.

#### Master of Engineering (Sustainability and Environmental Engineering)

Become familiar with concepts to develop sustainable products and processes that maximise efficiency and minimise environmental impact.

#### Master of Engineering (Telecommunications Engineering)

Learn the design, construction and management of systems that carry out wireless transmission and broadcasting of information.

Master of Professional Engineering	077470M	6.5 (6.0)	Feb/Jul	3	53000
Master of Professional Engineering (Accelerated)	098247M	6.5 (6.0)	Feb/Jul	2	53000

The Master of Professional Engineering offers an accredited qualification for professionals wanting to become an engineer and practise in Australia or overseas.

The two-year accelerated degree provides a shorter path for applicants with an undergraduate engineering degree who want to obtain an Australian degree in a related field of engineering.

See the specialisations below for more information. All specialisations are available in the accelerated degree, with the exception of Sustainability and Environmental Engineering.

#### Master of Professional Engineering (Aerospace)

#### Master of Professional Engineering (Accelerated) (Aerospace)

Learn about spacecraft and satellite design, aerodynamics, aircraft design analysis and smart materials.

#### Master of Professional Engineering (Biomedical)

#### Master of Professional Engineering (Accelerated) (Biomedical)

Learn about biomaterials engineering, applied tissue engineering, advanced engineering materials and computational fluid dynamics.

#### Master of Professional Engineering (Chemical and Biomolecular)

#### Master of Professional Engineering (Accelerated) (Chemical and Biomolecular)

Explore industrial processes in which material in bulk undergoes physical or chemical changes.

#### Master of Professional Engineering (Civil)

#### Master of Professional Engineering (Accelerated) (Civil)

Learn about planning, designing and testing structures within the built environment, including dams, bridges, pipelines, roads, towers and buildings.

#### Master of Professional Engineering (Electrical)

#### Master of Professional Engineering (Accelerated) (Electrical)

Learn about designing and building systems that generate, transmit, measure, control and use electrical energy.

#### Master of Professional Engineering (Fluids)

#### Master of Professional Engineering (Accelerated) (Fluids)

Gain advanced knowledge about fluid mechanics and engineering systems associated with the fluid environment.

#### Master of Professional Engineering (Geomechanical)

#### Master of Professional Engineering (Accelerated) (Geomechanical)

Acquire the skills to examine soil and rock layers and determine their physical and chemical properties to design foundations and earthworks structures.

# CRICOS CRICOS CRICOS CRICOS Commencing Semester(s) Commencing Semester(s) Vear 1 tuition fe (SAI/1.0 EFTSL\*

#### Master of Professional Engineering (Intelligent Information Engineering) Master of Professional Engineering (Accelerated) (Intelligent Information Engineering)

Explore the three key aspects of intelligent information – generation, communication and processing – combining the study of telecommunications, electrical, computer and software engineering with intelligent information-processing technologies and their applications.

#### Master of Professional Engineering (Mechanical)

#### Master of Professional Engineering (Accelerated) (Mechanical)

Gain an advanced understanding of the design of mechanical components, whole machines, mechanical systems and mechanical processes.

#### Master of Professional Engineering (Power)

#### Master of Professional Engineering (Accelerated) (Power)

Become equipped with the advanced skills to plan, design, construct, operate and maintain power systems and equipment.

#### Master of Professional Engineering (Software)

#### Master of Professional Engineering (Accelerated) (Software)

Examine all aspects of software production from strategy and design to coding, quality and management.

#### Master of Professional Engineering (Structural)

#### Master of Professional Engineering (Accelerated) (Structural)

Explore the design of high-rise buildings, industrial complexes, bridges, stadiums, and sporting and exhibition centres.

#### Master of Professional Engineering (Sustainability and Environmental Engineering)

Acquire the skills to analyse and design solutions to pressing global issues such as global warming, decarbonising the energy economy, and ensuring sustainable food and water supplies. (Note: this specialisation is not available in the accelerated degree.)

#### Master of Professional Engineering (Telecommunications)

#### Master of Professional Engineering (Accelerated) (Telecommunications)

Examine the design, build and management of systems that carry out the transmission and broadcasting of information using wireless signals.

 Juris Doctor
 071754C
 7.5 (7.0)
 Feb
 3
 56500

This degree includes study of all the required areas of knowledge for admission to practise in NSW and focuses on international, comparative and transnational aspects of law. Whether you are planning to undertake further postgraduate study or research, or pursue a career as a solicitor, at the bar or in government service, industry or the not-for-profit sector, this degree will equip you with the analytical, ethical and problem-solving skills you will need to excel.

Master of Administrative Law and Policy

020152G

7.0 (6.0)

Feb/Jul

56500

56500

This degree is designed to develop your understanding of the relationship between law and the analysis and implementation of public policy. It examines the values inherent in administrative law and those of public administration, together with the practical aspects of the application of the law.

 Master of Business Law
 050921M
 7.0 (6.0)
 Feb/Jul
 1
 56500

This specialist qualification in business law and regulation offers you an opportunity to choose from the entire range of units of study offered through Sydney Law School's commercial law, corporate, securities and finance law, international business law, international taxation and taxation programs. This degree reflects the growing importance of legal literacy and business law expertise among non-lawyers working in business, finance, commercial and corporate environments. It also provides a master's-level qualification that builds on the completion of professional accountancy qualifications.

 Master of Criminology
 008404D
 7.0 (6.0)
 Feb/Jul
 1
 49500

This degree allows you to gain a critical understanding of criminology through a broad selection of interdisciplinary units delivered by some of Australia's leading criminologists. Designed for anyone with an interest in crime, punishment and criminal justice, the criminology program addresses contemporary questions about crime and control within theoretical and policy contexts.

**Master of Environmental Law** 016239A 7.0 (6.0) Feb/Jul 1 56500

This degree has been designed to meet the needs of both Australian environmental specialists and those from other countries. Climate and environmental law form one of the most rapidly expanding areas of specialisation in the law. At Sydney Law School, this expansion is reflected in the abundance and variety of units available in the study of this field.

 Master of Health Law
 031432G
 7.0 (6.0)
 Feb/Jul
 1
 56500

This degree is a flexible, specialist qualification covering wide-ranging legal and ethical issues in health care. You will learn to identify, analyse and develop solutions to complex legal, ethical and policy issues affecting health and health services.

Master of International Law 029884J 7.0 (6.0) Feb/Jul 1 56500

This degree prepares you for professional work and academic research in the fields of public international law and international policy by equipping you with skills and knowledge to negotiate the legal and policy issues affecting relations between states; states and international organisations; and states and individuals

Master of Labour Law and Relations 008405C 7.0 (6.0) Feb/Jul 1

This flexible degree allows you to pursue specific units in labour law, employment law, discrimination law and dispute resolution. If you are a lawyer or other professional working in the human resources field in government, business, industry or private practice, you will find this interdisciplinary master's degree an invaluable professional training experience.

**Master of Laws** 006449G 7.0 (6.0) Feb/Jul 1 56500

This flexible and highly sought-after degree caters specifically for the needs of the legal profession, offering more than 20 areas of specialisation as well as a number of specialised units of study, with units taught by our own experts as well as by international visitors. As a law graduate, you may choose from the entire range of units of study offered through Sydney Law School's postgraduate coursework program, allowing you to tailor a program that suits your academic and professional needs.

 Master of Taxation
 008407A
 7.0 (6.0)
 Feb/Jul
 1
 56500

This degree is a specialist qualification in Australian tax law, drawing upon the Sydney Law School's taxation program, one of the world's most respected and established. The curriculum has been designed to meet professional requirements at national and international levels and is relevant to those in the Australian tax profession, whether as lawyers, accountants, public administrators or academics, who wish to build on their experience and attain a high level of specialist tax expertise. Sydney Law School is internationally renowned for tax education.

Master of Dental Public Health This degree benefits qualified dentists who wish to specialise in dental public health as well as those seeking a premier education in dental public health. You will develop practical skills in problem identification, designing and implementing public health interventions, and policy analysis and development. You will also complete a research project in the field of dental public health under the supervision of an academic staff member.

102403K

equip you with the knowledge and skills to assess, manage and evaluate the oral health needs of patients and populations. Through simulated clinical learning environments and clinical placements across both the public and private sectors, you will learn to apply your knowledge and care for patients within a range of clinical settings. You will also complete a research project related to dentistry under the supervision of an academic staff member.

7.0 (7.0)

Feb

English – IELTS Commencing semester(s) Duration (years) CRICOS Course name

#### Health sciences and allied health

#### Master of Diagnostic Radiography

In this degree, you will learn how to work with a range of innovative imaging technologies including small mobile X-ray machines and larger units such as MRI and CT scanners, as well as sophisticated cardiac units to enable accurate patient diagnosis and treatment. You will learn in our purpose-built laboratories, onsite health clinics and use high-calibre equipment across our dedicated health facilities. Through a number of clinical research and professional placement opportunities in both public and private sectors, you will learn to combine your theoretical study with the practical capabilities of a professional diagnostic radiographer.

#### Master of Exercise Physiology

0100634

058352G 7.0 (6.0 R/L: 6.5 W/S)

Feb

58500

This degree gives you the knowledge, competencies and clinical experience required to deliver safe and effective clinical exercise practice that has a real impact on people's health. Led by experts in exercise physiology practice and research, it will equip you with the knowledge and skills to assess physical and functional capacity, identify risks and design targeted, functional and sustainable exercise programs. Through clinical training across both the public and private sectors, you will learn to apply your knowledge and work within a range of different clinical settings.

#### **Master of Occupational Therapy**

027888K

57000

This degree prepares graduates for clinical practice in the profession of occupational therapy. Through practical learning and extensive clinical placements, you will learn to work in partnership with individuals, groups and communities to facilitate their performance and participation in everyday living by focusing on their strengths. Equity and justice are promoted in all occupation-related matters, including teaching alternative techniques to achieve a given task and facilitating skill improvement for individuals across their lifespan.

#### **Doctor of Physiotherapy**

110744M

7.0 (7.0)

63500

The Doctor of Physiotherapy course provides an innovative and world-class program to comprehensively prepare you to work in, respond to and lead the modern healthcare system. By the end of this degree, you will be a confident, ethical, and professional practitioner who can prevent, diagnose, manage, and treat a wide range of health conditions and practice in variety of healthcare settings. You will build skills through evidence-based and practice-based learning in a three-year degree developed to meet the changing health needs of the community. This course incorporates significant clinical, research, and professional fieldwork opportunities, providing hands-on experience with real clients throughout

#### Master of Speech Language Pathology

052756C

7.0 (7.0)

Feb

63500

2

This degree prepares you for professional practice as a speech pathologist, developing the skills to assess and treat people of all ages, backgrounds and cultures, and change lives by making it easier for people to to communicate or swallow safely. You will learn from leading experts on how to work with children and adults with such communication and speech difficulties, as well as those clients who have swallowing difficulties or need alternative ways to communicate. Case-based learning underpins this program and is complemented by comprehensive clinical placements which provide hands-on experience with real clients in supervised environments in our new purpose-built health building.

#### Medicine and public health

**Doctor of Medicine** 

079216J

7.0 (7.0)

91000

This is a four-year, professional masters degree providing students with world-class clinical and research training. On completion, graduates are eligible for registration with the Australian Medical Board as a doctor, and some of our international graduates choose to practise back in their home countries. Our students come from a range of backgrounds and academic disciplines. You will have opportunities to learn in Sydney's premier teaching hospitals, as well as in rural and international locations. Graduates leave as medical practitioners, responsive to the health needs of individuals, families and communities and committed to improving the healthcare system at all levels.

In 2020 a new curriculum and course structure was introduced, maintaining the best aspects of the existing course while enhancing learning opportunities through earlier clinical exposure, added personalisation options, new research opportunities, and immersive clinical placements in the final year of the program, preparing students for practice as a doctor.

**Master of Bioethics** 

054972A

7.0 (6.5)

Feb/Jul

56500

Bioethics is concerned with ethical questions that arise within the contexts of biological and health sciences. Social concern about such issues has grown with the advancement of biomedical and reproductive health technologies, genetic engineering, cloning and stem cell research. This degree will train and equip you with new skills in bioethics and prepare you for a highly rewarding new career in or related to health.

#### Master of Biomedical Science (Infection and Immunity)

102404J

7.0 (6.5)

Feb/Jul

56500

This degree is designed and taught by world-leading medical microbiologists and immunology researchers from across the University, including the Marie Bashir Institute for Infectious Disease and Biosecurity. You will graduate with a thorough understanding of the latest techniques, developments and breakthroughs in immunology and their application to the diagnosis and treatment of clinically relevant pathogens.

#### Master of Brain and Mind Sciences

068825G

6.5 (6.0)

56500

This degree provides focused education and training for the next generation of science, medical, nursing, psychiatry and psychology workforces, preparing you to meet the needs of those suffering from disorders of the brain and mind. It promotes interdisciplinary research, encouraging investigation into disease in areas of the brain and mind, and draws on the strengths of the Brain and Mind Centre to assist you in your professional and clinical skills development.

Course name	CRICOS	English – IELTS Academic	Commencing semester(s)	Duration (years)	2024 indicative Year 1 tuition fe (\$A)/1.0 EFTSL#
Master of Global Health	097038F	6.5 (6.0)	Feb/Jul	1.5	56500

This degree prepares you to work in public health in settings around the world, with a specific focus on achieving equity in health in some of the world's most challenging and demanding conditions. You will learn to think critically and reflectively about the broad issues of public health problems, communicate with stakeholders and develop and foster partnerships to effect improved health. The program offers flexibility to develop advanced skills in methodological approaches, and opportunities to undertake a diverse range of international and national placements. Our graduates work in a range of settings in Australia and internationally including the World Health Organization, non-government agencies, bilateral aid agencies and ministries of health.

#### Master of Health Policy and Planning

This degree provides you with a comprehensive and practical understanding of health systems and policymaking processes. It offers a critical perspective on how health systems operate, how policies across a range of sectors, both public and private, influence health, and how to create health policy change. You will develop a comprehensive and practical understanding of policymaking, including systems thinking; economic evaluation; health financing and budgets; power, politics and agenda setting; and the critical use of evidence. This is an accelerated degree for people who have existing work experience, and can be completed in one year of full-time study.

Master of Medicine (Clinical Epidemiology)*	053865A	6.5 (6.0)	Feb/Jul	1	56500
Master of Science in Medicine (Clinical Epidemiology)**	053863C	6.5 (6.0)	Feb/Jul	1	56500

Clinical epidemiology is the science behind good clinical research and evidence-based clinical decision-making. These degrees are designed to develop both clinical researchers and practitioners by teaching the skills needed to generate high-quality clinical research and the skills to locate, appraise, interpret and apply the best research evidence to patient care. You will also develop the research skills required by many clinical training positions.

Master of Medicine (Sexual and Reproductive Health)*	107850B	7.0 (6.5)	Feb/Jul	1	56500
Master of Science in Medicine (Sexual and Reproductive Health)**	107853K	7.0 (6.5)	Feb/Jul	1	56500

This newly enhanced degree enables you to address the challenges of sexual and reproductive health through a wide range of subjects, with an option to choose one of four pathways: HIV and STIs; Psychosexual Therapy; Reproductive Health and Fertility; or Public Health. The interprofessional and multidisciplinary structure of the degree encourages you to develop effective collaborative approaches to employment in a variety of healthcare settings.

#### Master of Public Health 097037G 6.5 (6.0) Feb/Jul 1.5 56500

This newly enhanced degree focuses on the prevention of illness and the promotion of health. Its underlying philosophy is that the application of critical thinking combined with skills in research, advocacy, public policy and community engagement provide the best foundation for improving the health of the population. You'll develop the essential knowledge and methodological and practical skills required of practitioners in the practice of modern population health. After completing the comprehensive core units, you'll select from a wide variety of elective options from within the School of Public Health and across the University. Alternatively, you may decide to focus on a specialisation in Chronic Disease Prevention, Communicable Disease Control, Health Promotion and Advocacy, or Research Methods.

#### Nursing

#### Master of Advanced Nursing Practice 084691F 7.0 (7.0)

Designed for registered nurses, this degree explores the ways nurses work and practise within clinical environments. You'll learn from leading researchers in nursing practice and the study of the clinical environment and solidify your theoretical foundations of nursing practice. You will also develop your confidence to use the latest research-based evidence to inform your clinical decision-making. Upon completion of this degree, you will have the knowledge, skills and attributes required to develop initiatives in health care and make a substantial contribution to healthcare policy and development.

#### Master of Cancer and Haematology Nursing 068705E 7.0 (7.0) Feb 1.5 47000

Designed for registered nurses, this degree aims to assist nurses who care for people affected by cancer and haematological illness to develop the knowledge and skills for their care. You will develop a comprehensive knowledge of the prevention, diagnosis and management of cancer, future treatment trends and the impacts of these illnesses on the individual, family and community. You will investigate the biology of cancer and haematology, associated treatments, and integrated multidisciplinary management. Taught by leading cancer and haematology care researchers, you will learn to make evidence-based decisions using research.

#### Master of Emergency Nursing 068708B 7.0 (7.0) Feb 1.5 47000

This degree is designed for registered nurses currently working in the emergency environment who are looking to build their professional practice capabilities and advance to a leadership role in nursing. You'll develop the knowledge and skills to assist emergency presentations, support the patient and family at a time of great vulnerability, and assist them with their journey to either hospital admission or safe discharge home. You'll learn from leading researchers in the field of emergency nursing care as you build upon your individual clinical experience, and acquire the specialist knowledge and skills to provide high-quality patient care as a leader in emergency nursing treatment.

<sup>\*</sup> Master of Medicine is for applicants who have graduated with a medical degree.
\*\* Master of Science in Medicine is for applicants who do not have a medical degree.

Course name	CRICOS	English – IELTS Academic	Commencing semester(s)	Duration (years)	2024 indicative Year 1 tuition fee (\$A)/1.0 EFTSL##
Master of Intensive Care Nursing	0687094	7 (7 (7 0)	Feh	1.5	47000

This degree is for nurses currently working in the intensive care environment to develop the expertise and skills to provide high-quality patient care and become clinical leaders. As an intensive care nursing student, you will learn to work across complex environments that often demand rapid, sophisticated and challenging decisions as you help patients and their families understand their illness and deliver high-quality care. You will build upon your individual clinical experience and learn to provide sophisticated care and advice to critically ill patients and their families. This requires application of advanced physiological knowledge during the assessment and management of patients who may be experiencing single or multiple organ dysfunctions. Upon graduation, you will have the specialist knowledge and skills to provide comprehensive care to patients and their families in intensive care, with opportunities to further work across nursing education, administration, research and consulting.

**Master of Nursing** 068773D 7.0 (7.0) Feb 2 47000

This degree builds on your previous undergraduate education, preparing you for work in local, national and international healthcare settings. You will gain a comprehensive understanding of how to work with other health professionals to provide the highest-quality person-centred care. You will learn from leading experts through hands-on learning in our new purpose-built health building as you develop a strong theoretical understanding of health and illness, and how care is provided and experienced. You will complete extensive clinical placements in varied settings. Beyond clinical care, you will also study human biology, pharmacology, research and evidence-based practice, social contexts of health and illness, illness experiences, healthcare systems, leadership in healthcare and other professional topics, including legal and ethical issues in health care.

#### **Nutrition and Dietetics**

#### **Master of Nutrition and Dietetics**

008414B 7.0 (7.0)

56500

This degree is a pathway into professional practice as a dietitian and nutritionist. With practical training and access to eminent dietitians, it will place you at the forefront of dietetic and nutrition research and practice. A graduate of this program is eligible to apply to Dietitians Australia and to join the provisional Accredited Practising Dietitian Program.

#### **Pharmacy**

 Master of Pharmacy
 050004D
 7.0 (6.5)
 Feb
 2
 56500

This degree offers an entry pathway to fast-track your career into the pharmacy profession. It is an accredited degree designed to prepare you for all aspects of the pharmacy profession, including leadership in innovative and evidence-based practice. With a strong practical focus, underpinned by evidence-based practice and research, you will develop valuable knowledge, skills and experience in all aspects of the pharmacy profession. Your studies will consist of a variety of blended learning opportunities including lectures, tutorials, labs, small-group work and problem-based learning, as well as clinical placements across the community, hospital and industry sectors.

CRICOS

# Important information

#### ABOUT OUR POSTGRADUATE COURSEWORK DEGREES

The information below relates to the courses listed in the tables on pages 78-91.

The information published in these tables is correct at the time of publication for admission in 2024 but may be subject to change. For the latest information, including admission criteria, course structure and availability, search for the relevant course at

- sydney.edu.au/courses

#### Postgraduate courses available for full-time study onshore

The postgraduate courses listed on pages 78-91 are CRICOS-registered and available to international students who intend to study full time in Australia on a student visa. For more information about CRICOS-registered courses, visit the CRICOS register at

- cricos.education.gov.au

Several of the courses offered as master's degrees are also available as graduate diplomas and/or graduate certificates. For more information about these options, visit

- - sydney.edu.au/courses

# Postgraduate courses not available for full-time and/or onshore study

The University of Sydney also offers a range of postgraduate courses that may be available to international students who are not on a student visa. Examples include courses offered in online mode, which are available to international students from their home country. Some courses offered online also include intensive study periods onshore.

International students in Australia who are not on a student visa, depending on their visa type, may also be eligible to undertake courses that are not offered full time onshore and/or are not CRICOS-registered. Some CRICOS-registered courses offered onshore also have an online mode available to non-student visa applicants.

For more information, visit

- sydney.edu.au/courses

## Double degree progression requirements

Double degrees have progression requirements that must be satisfied before you can be admitted to your second degree. For important information on progression rules, visit

- sydney.edu.au/handbooks

#### Key to the table

#### English - IELTS Academic

The first score listed is the overall score required. The score listed within the brackets is the minimum score required in each section (L for Listening, R for Reading, S for Speaking, W for Writing).

For information about other English language tests and requirements, visit

sydney.edu.au/study/english-reqs

# sydney.edu.au - 2024 International Guide

# How to apply

#### TO OUR POSTGRADUATE COURSEWORK COURSES

1

2

#### CHOOSE YOUR COURSE

At the University of Sydney, you have the flexibility to combine study areas from more than 450 options across nine disciplines, to create the degree that's right for you. Explore your options at

sydney.edu.au/courses

# CHECK THE ADMISSION CRITERIA FOR THE COURSE

Admission to the University of Sydney is competitive, and is based on meeting admission criteria specific to the course you wish to enter. The following is some general information about our admission requirements. To check the specific admission criteria for your chosen course, search for the individual course page at

- sydney.edu.au/courses

#### Inherent requirements

Some courses in areas such as education, health, medicine and veterinary medicine have inherent requirements that you need to be able to meet to successfully complete that course, such as the ability to carry out essential activities involving children, patients or animals, as relevant. (Reasonable adjustments will be made for disability, cultural and religious factors.) While these are not admission requirements, you need to consider them when making your course selection. Learn more at

 sydney.edu.au/students/ inherent-requirements

#### **Academic requirements**

Admission to most of our postgraduate coursework degrees requires a recognised tertiary qualification such as a bachelor's degree and, in some cases, relevant work experience and/or other prerequisites. This information is included on the relevant course page.

#### Additional admission criteria

Some courses, including some business, education, dentistry, medicine, music, nursing, clinical psychology, veterinary medicine and visual arts courses, have additional admission criteria, such as a standardised admission test (e.g. GAMSAT, MCAT), audition, interview, portfolio or personal statement of motivation. This information is included on the relevant course page.

#### Assumed knowledge

Some postgraduate courses expect you to have a certain level of existing knowledge in specific areas of study. This information is included on the relevant course page.

#### **English language requirements**

Depending on your country of origin and educational background, you may need to provide evidence of your English proficiency to be able to study with us. Learn more at

- sydney.edu.au/study/english-reqs

Courses with external registration or accreditation may have additional English language requirements set by the registration or accreditation body. This information is included on the relevant course page.

#### SUBMIT YOUR APPLICATION

As an international student, you should apply as early as possible to allow time for visa and travel arrangements. You should apply direct to the University through

sydney.edu.au/courses

Application deadlines vary by course. Check the relevant course page for specific closing dates.

A \$150 (AUD) application processing fee applies.

For personalised application advice:

- contact one of our regional experts listed at sydney.edu.au/study/regional-contacts, or
- apply through one of the University of Sydney's authorised agents (representatives) listed at sydney.edu.au/study/overseas-agents.

#### Helpful link

All course prerequisites, assumed knowledge and recommended studies are listed under the relevant course at:

sydney.edu.au/courses

#### WHAT HAPPENS NEXT?

#### Architecture, design and planning (Research)

Doctor of Philosophy (Architecture, Design and Planning) 003519M

The degree of Doctor of Philosophy may be undertaken across the faculty's active research areas: architectural design; architectural theory and history; architectural science; design lab; and urbanism. This research degree is awarded for a thesis considered to be a substantial, original contribution to knowledge in one of these areas.

Master of Philosophy (Architecture, Design and Planning) 000685K 7.0 (6.0) Mar/Jul 1-2 47500

This master's degree by research allows you to undertake research and advanced specialisation in any of the faculty's active research areas: architectural design; architectural theory and history; architectural science; design lab; and urbanism. Admission criteria include a bachelor's degree with first or second-class honours in a relevant discipline

#### Arts and social sciences (Research)

The following list is inclusive of the research degree options also available for the areas of economics, and education and social work.

#### **Doctor of Philosophy (Arts and Social Sciences)**

47500

The Doctor of Philosophy allows you to undertake research in a field of the faculty's expertise, culminating in a thesis of up to 80,000 words. We offer supervision in visual arts and art history; archaeology and classics; diverse languages and their cultures; economics; English language and literature; ancient, medieval and modern history; philosophy; the global political economy and international governance; sociology and cultural studies; media and communications; education and social work; linguistics; gender studies; and studies in religion.

Master of Arts (Research) 050922K 6.5 (6.0) 47500

The Master of Arts (Research) is designed to help you pursue your passion for research in a range of subject areas, by research and thesis only, or by a combination of thesis and coursework through the Faculty of Arts and Social Sciences. You will develop advanced skills including critical thinking, data interpretation and analysis, and project management, as well as communication and problem-solving.

#### Master of Education (Research) 105726M 6.5 (6.0)

This degree offers advanced training in education research and provides a research pathway to doctoral research in education. It is designed for people who wish to undertake a research degree, but not one of the length and scale of a Doctor of Philosophy (PhD) or Master of Philosophy (MPhil). It is also applicable for those who wish to enrol in a PhD in the future, but lack either an honours year or a degree that would permit them direct admission.

**Master of Fine Arts** 068924E 6.5 (6.0) Mar/Jul 43000

The Master of Fine Arts by research gives you the opportunity to develop your art practice within the structure of a research culture. You will build on practice by investigating a proposed area of research and will be encouraged to produce work of an original and speculative nature. Your research supervisor will provide personalised and dedicated attention to the development of your research outcomes.

#### 009061C Master of Philosophy (Arts and Social Sciences)

Research can be undertaken across a diverse range of disciplines in the humanities and social sciences, embracing traditional, emerging and cross-disciplinary subjects. Candidates for this degree will research and write a thesis of 30,000 to 40,000 words on an approved topic under the supervision of a member of the academic staff.

Commencing research periods English – IELTS Course name

#### **Business** (Research)

#### **Doctor of Philosophy (Business)**

This degree may be undertaken in any Business discipline, within one of our research centres, and/or in association with one of our dynamic research groups. The degree requires the satisfactory completion of selected coursework units of study and a research thesis of 80,000 words on an approved topic, under the supervision of an academic panel.

# How to apply

#### TO OUR POSTGRADUATE RESEARCH COURSES

1

2

3

#### CHOOSE A SUITABLE RESEARCH DEGREE AND DETERMINE YOUR ELIGIBILITY

Determine which research degree you are eligible for. The most important criteria are your previous research experience (e.g. a research capstone project in a master's by coursework degree) and your undergraduate performance. For more information, visit

- sydney.edu.au/study/ pg-research
- sydney.edu.au/honours

# DEVELOP YOUR RESEARCH PROPOSAL AND FIND A SUPERVISOR

You will need to develop an initial research proposal as part of the application process. This is your opportunity to explain your research ideas, describe your academic background, and showcase your previous research experience. Learn how to write a research proposal at

sydney.edu.au/phd-research-proposal

You will also need to identify a potential academic supervisor to supervise your research. Carefully consider the subject of your proposed research, and check whether your interests align with any potential academic supervisors at the University of Sydney. Search for potential academic supervisors at

sydney.edu.au/ find-a-researcher

You might already have a research project of your own in mind, or you might wish to contribute to an existing research project in your chosen field. Browse current research opportunities at

sydney.edu.au/research/ search

# FUNDING YOUR RESEARCH DEGREE

For international students, tuition fees apply to research degrees. Scholarships and awards are available to fund your research with tuition fee and stipend (living allowance) support. Some scholarships and awards are specific to a particular research project or discipline, and many are awarded based on academic merit and/or potential research impact. Search for scholarships at

 sydney.edu.au/scholarships/ international/postgraduateresearch.html

For more information on the application process and additional admission requirements, visit

- sydney.edu.au/pg-research-req

#### SUBMIT YOUR APPLICATION

Once you have secured a research supervisor and finalised your research proposal, you can:

- apply directly to the University of Sydney at sydney.edu.au/courses, or
- apply through one of our regional experts listed at sydney.edu.au/ study/regional-contacts, or
- apply through one of our authorised overseas agents (representatives) listed at sydney. edu.au/study/overseas-agents.

Your application will need to include the following documents:

- final research proposal
- official academic transcripts from previous studies
- evidence of English language proficiency if required
- curriculum vitae (CV) or resume
- evidence of a University of Sydney academic staff member's agreement to supervise your research project
- two referee reports
- a portfolio of work or audition arrangement if required.

#### **Academic requirements**

To be eligible for admission to a postgraduate research degree, you need to show sufficient prior research experience and capability, such as:

- a bachelor's degree with first or upper-second-class honours, or
- a master's degree by coursework, performed at a high academic standard, which included a substantial component of original research, or
- an equivalent qualification that demonstrates research experience, excellence and capability.

#### **English language requirements**

Depending on your country of origin and educational background, you may need to provide evidence of your English language proficiency to be able to study with us. Learn more at

sydney.edu.au/study/english-reqs

**Application** deadlines

We encourage you to apply well ahead of time, even before you have completed your current qualifying degree.

Applications are open all year round, and we offer four research periods each year when you can start your research degree (depending on your faculty). The main research periods are research period 2 (which begins 1 March) and research period 3 (which begins 1 July).

For key dates relating to research degrees, visit

- sydney.edu.au/study/ admissions-timeline

For more information on admission requirements and the application process, visit

sydney.edu.au/pg-research-req

# Important information

#### FOR POSTGRADUATE APPLICANTS

An international student is anyone who does not hold Australian or New Zealand citizenship (or dual citizenship), Australian permanent residency, or an Australian permanent humanitarian visa.

If you are a dual citizen who holds Australian or New Zealand citizenship as well as citizenship of another country, you are not an international student and you will be assessed for admission as an Australian domestic student.

#### **Student visas**

As an international student studying in Australia, you must hold a valid Australian visa for the duration of your study. It is important that you are familiar with all the conditions of your visa, especially if you are considering making any changes to your university enrolment.

As a student visa holder, you must also be aware of the Education Services for Overseas Students (ESOS) framework, established by the Australian Government to ensure that universities deliver quality education and a high level of care to international students. Learn more at

- sydney.edu.au/student-visas

#### **Recognition of prior learning**

Recognition of prior learning (RPL) is when your previous studies and/or professional experiences are recognised and counted towards your current degree completion requirements.

The University of Sydney recognises that students begin their postgraduate studies with different levels, areas and forms of prior learning. If your previous studies or professional experience are recognised as being equivalent or comparable to some of the content of your chosen course at the University of Sydney, you may be offered credit towards the completion of your course. This can reduce the overall number of credit points required to complete your course, and may also reduce your course duration.

RPL can be granted as specific credit, non-specific credit in a given discipline, reduced volume of learning (RVL), or a waiver. The type of RPL credit you may be granted will be determined by the course you are enrolled in and the level, content and completion status of your previous studies.

RPL is often assessed on a caseby-case basis, but some faculties and some courses have existing international articulation pathways (see below) for some qualifications.

If you apply for admission directly to the University, you will be asked as part of the application whether you wish to apply for RPL. If you tick 'Yes', you will receive an email with information about how to log in to the Sydney Student portal and submit an application for RPL. If your application is successful, you will receive an updated offer showing RPL credit offered. You may either accept or decline this credit once you accept your offer to study with us.

For faculties and courses with existing international articulation pathways (see below), you will be awarded RPL credit without having to submit a separate application.

For more information about RPL, visit

sydney.edu.au/study/rpl

#### International articulation pathways

The University of Sydney has a range of formal international articulation pathway arrangements with selected overseas universities, polytechnics and colleges. These arrangements can help to fast-track your studies by providing you with RPL credit towards your Sydney degree. For details, visit

 sydney.edu.au/study/ international-articulation

#### **Mandatory work requirements**

Some courses have a mandatory work component that must be completed as part of the course. For courses with this requirement, this work will not count towards your student visa work limits.

#### Verification of qualifications

The University is committed to preserving the integrity of our academic programs and will admit students with valid qualifications. We may need to check on the validity of your admission documents at any time. It is recommended that you keep a copy of all original documents submitted and bring these to Australia with you.

# Fees and costs

#### FOR POSTGRADUATE COURSES

#### **Tuition fees**

Tuition fees vary depending on the course and the year in which you study. See the course tables on pages 78-91 for indicative tuition fees for study beginning in 2024.

All tuition fees listed in this guide are:

- listed in Australian dollars (AUD)
- based on a full-time enrolment load of 48 credit points per year, or a 1.0 Equivalent Full-Time Student Load (1.0 EFTSL), unless otherwise indicated; if your study load is greater or less than this, your tuition fees will vary accordingly
- exclusive of the costs of textbooks and other required course materials, additional course costs, health insurance, and living expenses such as food and accommodation
- exclusive of the Student Services and Amenities Fee (SSAF), which was introduced by the Australian Government to fund university services and support programs.

#### **Estimating your total tuition fees**

For courses that are longer than one year, we are unable to provide you with a precise indication of tuition fees beyond your 2024 tuition fee. Tuition fees increase annually (effective at the start of each calendar year), and our website is updated accordingly. For the most up-to-date tuition fees, search for your course at

sydney.edu.au/courses

#### Other costs

As well as course tuition fees, you should budget for:

- additional course costs, which may be substantial and may include (but may not be limited to) course-specific materials and textbooks, tools and protective clothing (see sydney.edu.au/ additional-course-costs)
- the annual Student Services and Amenities Fee (SSAF), which is up to \$326 in 2023 and is indexed annually for the duration of your course (see sydney.edu.au/ssaf)
- Overseas Student Health Cover (OSHC), an Australian Government requirement for student visa holders for the full duration of their student visa (see sydney.edu.au/study/oshc)
- living expenses, including accommodation, transport, food and other expenses (see sydney. edu.au/study/living-costs).

#### **Annual fee reviews**

All course tuition fees and the Student Services and Amenities Fee (SSAF) are subject to annual review (and indexation, when required) and will increase for each year of your study, effective at the start of each calendar year.

#### **Payment methods**

When you receive an offer to study with us, you will be required to make an initial payment equal to your first semester of course tuition fees plus your Overseas Student Health Cover (OSHC) fee, in order to formally secure your place and apply for a student visa. Instructions on how to pay these will be included with the offer.

There are several ways you can pay your fees, including by credit card, bank transfer, BPAY (Australian accounts only), Paypal or one of our online payment gateway providers (Convera, HSBC, Flywire and CIBC). A surcharge of between 0.3% and 2.8% will apply (subject to review and change), depending on the card type used. For more information about payment methods and surcharges, as well as refund procedures and policies, visit

 sydney.edu.au/study/ paying-your-fees

# Important dates

#### FOR 2024

#	↑ Summer holiday	February 2023 – January 2024	Application deadlines vary and for some courses can be up to a year in advance. For course-specific deadlines, visit: sydney.edu.au/courses
Semester One February - June Autumn			Orientation and welcome events take place in the weeks leading up to the start of Semester One. These are a great way to get to know your faculty, teaching staff and fellow students before classes begin.  Visit sydney.edu.au/welcome
	January – February 2024 March 2024	Semester One begins in February 2024, but some courses have an earlier start date. Check specific start dates at <a href="sydney.edu.au/courses">sydney.edu.au/courses</a>	
		Once classes start, you have two weeks to try out different units of study (depending on the flexibility within your degree), as long as you finalise your enrolment no later than the Friday of Week 2.	
		Research period 1 begins.	
		If you change your mind about a unit of study, you can still withdraw without academic penalty, as long as you do so before the census date. This usually falls on the last day of March.	
		-	Research period 2 begins.
Semester One exam period	May - June 2024	A one–week study vacation takes place during May/June. The examination period is then held in June. Semester One ends at the end of June.	
		Applications close for mid-year entry (Semester Two intake) in June. To see which degrees are open for mid-year entry, visit sydney.edu.au/courses	
#	Winter holiday	July 2024	Research period 3 begins.
Semester Two July - December Spring	•	Some faculties and schools host welcome events in the weeks leading up to the start of Semester Two.	
		Semester Two begins in July 2024, but some courses have an earlier start date. Check specific start dates at <a href="mailto:sydney.edu.au/courses">sydney.edu.au/courses</a>	
		You can try out different units of study before finalising your enrolment at the end of the second week of semester.	
			You can withdraw from a unit of study without academic penalty as long as you do so before the census date, which usually falls on the last day of August.
	October 2024	Research period 4 begins	
	Semester Two exam period	November 2024	A one–week study vacation takes place during November. The examination period is then held in November. Semester Two ends at the end of November.
#	Summer holiday ↓	December 2024	

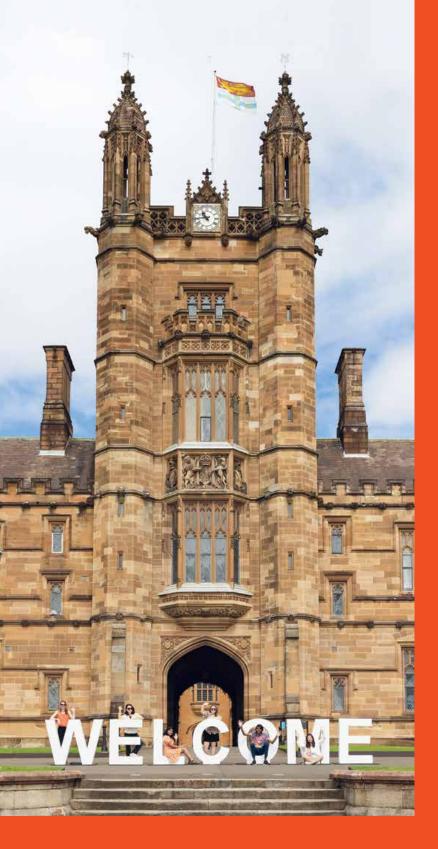

Join us in our overseas or virtual events to find out how you can begin your journey to Sydney.
