STOTT'S
COLLEGE

Welcome to Acknowledge Education. In its 130+ year history in education, the school has seen many changes, but has always kept true to its mission and values. Our mission: to stay a challenging, relevant and creative leader in the education industry. Our values: honesty and integrity in dealing with all stakeholders.

– SUZANNE JACKSON, ACKNOWLEDGE EDUCATION

“The gap between the skills people learn and the skills people need is becoming more obvious, as traditional learning falls short of equipping students with the knowledge they need to thrive.”

“Today’s job candidates must be able to collaborate, communicate and solve problems – skills developed mainly through social and emotional learning (SEL). Combined with traditional skills, this social and emotional proficiency will equip students to succeed in the evolving digital economy.”

– WORLD ECONOMIC FORUM REPORT
