UTS

UNIVERSITY
OF TECHNOLOGY
SYDNEY

A young man with dark hair, wearing a blue t-shirt and a black backpack, stands in a modern, brightly lit interior space. He is holding a silver laptop in his left hand and looking upwards and to the right. The background features large glass panels and metal railings, suggesting a contemporary architectural setting. A large, semi-transparent blue circle is overlaid on the right side of the image, containing the title text.

International Postgraduate Course Guide 2020

Welcome

At UTS, innovation is core to our global approach to education.

From our state-of-the-art campus to our boundary-crossing degrees in technology, innovation and creative intelligence, our signature outlook on learning ranks us among the best in the world.

We're ranked first in Australia and tenth globally in the world's top 50 young universities (QS Top 50 Under 50, 2019), 16th globally in Times Higher Education's Young University Rankings (2018) and we've received a five-star rating for excellence across seven categories (QS Stars 2018-2021).

UTS is a university for the real world. Located in the heart of Sydney within a thriving business and creative industries hub, UTS students are part of a fast-growing entrepreneurial community.

Every year we welcome over 5000 new international students to UTS. Our students come from 120 different countries, which makes our campus a dynamic place to study in one of the world's most beautiful cities.

We're committed to the success of our international students. We offer a range of programs from academic support to career and leadership skills development.

Our courses are developed in consultation with industry so you'll learn everything you'll need to advance your career and impact the future of your chosen field.

Our dynamic teachers combine theory with practice giving you hands-on experience in the classroom, and beyond, through real-life case studies, group work, internships, and networking opportunities.

Many of our lecturers are experienced industry professionals who've moved into academia. Others are world-leading researchers who are positively contributing to the challenges of tomorrow, today.

Discover what makes us different.

Iain Watt
Deputy Vice-Chancellor
and Vice-President (International)

Within the Australian Technology Network (ATN) agreement, UTS has committed to a 30 per cent reduction in greenhouse gases (from 2007 levels) by 2020/21. For more information, visit: sustainability.uts.edu.au

UTS is a member of the Australian Technology Network (ATN), an influential alliance of four distinctive and prominent Australian universities. ATN is committed to forging partnerships with industry and government to deliver practical results through focused research. The Network educates graduates who are ready to enter their chosen profession, dedicated to the pursuit of knowledge and eager to claim a stake in building sustainable societies of the future. The Network continues to champion the principles of access and equity that have ensured its members are the universities of first choice for more students.

Acknowledgement of Country

Acknowledging country is a cultural protocol that is a respectful public acknowledgment of the traditional custodians of the land.

UTS acknowledges the Gadigal People of the Eora Nation and the Boorooberongal People of the Dharug Nation upon whose ancestral lands our campuses stand. We would also like to pay respect to the Elders both past and present, acknowledging them as the traditional custodians of knowledge for these Lands.

Experience Sydney

Impressive beaches, iconic buildings, year-round festivals, and a thriving sports culture – Sydney's got it all. With a great climate, a true mix of cultures and world-class national parks right on your doorstep, there's something for everyone in this stunning harbour city. Sydney is a great place to live and an even better place to study!

Apple Davalos

Philippines
Master in Digital Information Management

“Being in Sydney was crucial for me. Here you get to enjoy the bustle of the city along with the beauty of nature just a bus ride away. I also love that Sydney has a lot of green public spaces. When you have so many things going on, being in a public space and enjoying the moment is really necessary.”

Top 10 things to do around Sydney

1 Don't miss the international symbol of Sydney – the Sydney Opera House. Step beneath the sails of Danish architect Jørn Utzon's masterpiece to see a performance or take a tour.

2 Explore Sydney by ferry, crossing our sparkling harbour to learn to surf at Manly, for fish and chips at Watson's Bay or to discover our convict history at the World Heritage-listed Cockatoo Island.

3 Take a spectacular cliff top coastal walk from Bondi Beach to Coogee. Discover sweeping views, pristine beaches, and if you look carefully, ancient Aboriginal rock engravings. During October catch Sculpture by the Sea: the world's largest free outdoor sculpture exhibition.

4 Get cultured in the great outdoors. Enjoy a free concert under the stars at Symphony in the Domain, explore a wonderland of light art and urban projections during Vivid Sydney or take a seat at the open-air cinema where a giant movie screen rises from Sydney Harbour.

5 Discover our rich history in The Rocks. Explore Sydney's oldest pubs, historic laneways and archaeological remains under the shadow of the Harbour Bridge. Mingle at the Rocks Markets and sample foods from around the world.

6 Grab a meal and catch an incredible fireworks display every Saturday night at Darling Harbour. During the day, visit the Sea Life Sydney Aquarium to see magnificent dugongs, sharks, stingrays, and thousands of tropical fish. Escape the crowds in the serene Chinese Garden of Friendship.

7 Meet Australia's unique native animals at the world-famous Taronga Zoo. Hear stories of Australian wildlife and the Dreaming from an Aboriginal guide and get up close with koalas, kangaroos and wallabies.

8 Explore the twisting inlets and harbour islands of Sydney Harbour National Park. Walk over the Sydney Harbour Bridge (affectionately known as The Coat Hanger) and enjoy a picnic in Wendy Whiteley's Secret Garden at Lavender Bay.

9 Barrack for your team while watching a game of cricket, tennis, rugby league, footy or soccer at one of our popular sports grounds. Get in the mood by wearing team colours and tasting a meat pie with tomato sauce – our classic Aussie cuisine.

10 Catch the train to the World Heritage-listed Blue Mountains. Visit the iconic Three Sisters and explore the magnificent lookouts, waterfalls and hazy blue valleys. Get your adrenaline pumping mountain biking, canyoning or rock climbing.

CROWD PLEASERS

See Sydney shine throughout the year thanks to our lively events calendar. Whether it's the Sydney Festival – a celebration of performing arts, Sydney Biennale – the largest visual arts event in Australia or one of our many music, film, comedy, food or sporting festivals, you'll always find something to do, most likely outdoors and for free.

“

No longer a stranger to Sydney

Vanessa Truong

Before arriving in Sydney, Vanessa had only seen UTS in photos and videos. Fresh out of high school, she'd never even travelled away from her home in Vietnam.

"I was very nervous," says Vanessa. "When I got here all those worries went away. I immediately fell in love with UTS. I met so many people. Everyone was so friendly."

The Bachelor of Business and Bachelor of Creative Intelligence and Innovation student found it easy settling into Sydney despite the fact that she had no family or friends here.

"I grew up in a big city so Sydney is like home for me," says Vanessa. "Actually, I feel more myself here than back home. Sydney people respect your differences. I'm living in UTS Housing and it's amazing. I love my roommates. We go to the gym together. Everything is new and exciting."

Sydney enjoys a sunny climate with mild winters and warm summers. During summer, (December – February) average temperatures range from 19 – 26°C (65 – 78°F). During winter (June – August) average temperatures drop to between 9–17°C (48 – 63°F). There's an average of 243 days sunny days recorded every year.

Information source: australia.com

Sydney's city university

Expand your horizons in the heart of Sydney

Imagine waking up in Australia's most dynamic, cosmopolitan and dazzling city. Welcome to Sydney: our nation's cultural centre and business capital.

A GREAT PLACE TO BUILD YOUR FUTURE

Location is everything. At UTS, you'll study in the centre of a rapidly changing urban environment with industry opportunities on your doorstep. We're part of an energetic technology hub that hosts more than 60 per cent of regional technology operations.

More than 90 per cent of banks base their regional headquarters here. While more than 40 per cent of Sydney's digital and creative industries reside in our neighbourhood. Sydney is also the place to be an entrepreneur: we're home to 60 per cent of Australia's start-ups, many bursting with possibilities and inspired thinking right by our campus.

A SAFE AND FRIENDLY CITY

Our reputation as a safe and sociable city is one of the reasons why 35 000 international students* choose to make Sydney their home-away-from-home. Australians are known for their relaxed attitude to life. We take pride in our friendliness, respectful nature and culture of equality.

As you settle into student life, you'll become part of a caring multicultural community. With new friends and a supportive UTS network around you, your transition to life in Australia will be a rewarding and exciting experience.

CONVENIENT, INSPIRING, FUN

No matter where you're coming from, or going to, UTS is easy to get to. We're walking distance to the CBD, Darling Harbour, shopping, food, sport, and nightlife. You're also a few minutes' walk away from transport hubs Central Station and Railway Square so you can safely spread your wings and explore. When you need to travel interstate or overseas, you're close to Australia's biggest international and domestic airports. From breakfast in Bondi to an evening at the Opera House, you'll experience many unforgettable moments in our wonderful city.

*City of Sydney international student survey.

UTS BEYOND AUSTRALIA

You can also study at UTS in China. Our fully accredited offshore courses are taught at SHU-UTS Sydney Institute of Language and Commerce (SILC) Business School at Shanghai University. All courses feature the same structure, learning outcomes and award as their Sydney counterparts.

uts.edu.au/future-students/international/offshore-courses

UTS, minutes away from the best of Sydney

SPICE ALLEY

Tucked behind the narrow laneways alongside Central Park, Spice Alley is Australia's first outdoor Singaporean-style hawker centre. From behind a façade of heritage terraces, the aroma of exotic spices entices hungry locals to meet under swinging red lanterns as they tuck in to street food staples at student prices. Operated by Sydney's most popular Asian restaurants, enjoy Vietnamese market foods, Chinese-Malay fusions, Thai curries, the fast foods of China, and more.

BROADWAY SYDNEY

For 90 years Broadway was home to the grand old Grace Bros Building with its elegant architecture and distinctive clock towers. This sensitively restored heritage building now serves 21st century shoppers. A ten-minute stroll from UTS, Broadway Shopping Centre features three supermarkets, a 500-seat food court, a 12-screen cinema and major retailers including Kmart, Target and Apple plus 100 speciality shops.

CENTRAL PARK

Central Park is a downtown oasis directly opposite UTS. Enter the main tower dripping with a living tapestry of plants and vines (the world's tallest vertical garden) to experience shopping, cinemas and surrounding parklands. Grab a bite at one of the many outlets including Cuban, Mexican, Chinese, Indian or Brazilian or relax at the Old Clare Hotel for a lazy afternoon.

Photo: Destination NSW

CHINATOWN AND HAYMARKET

Chinatown and Haymarket's dumpling houses, yum cha palaces and neon-lit nooks are irresistible. A short walk from UTS, you'll also explore night markets, arcades and malls while discovering some of Sydney's best Asian supermarkets. The iconic Paddy's Markets dates back to colonial times and is also packed with bargains. At night, get your sing-along on at a quirky karaoke lounge. During February, celebrate the Lunar New Year with dazzling lion and dragon dances, giant zodiac lanterns and, of course, fabulous food.

Well connected and entrepreneurial

We've built partnerships with some of the world's most innovative and successful companies that share our passion for creativity and technology – partnerships that will play a key role in shaping your future.

INDUSTRY CONNECTIONS

Our courses are developed and reviewed in consultation with leading industry practitioners ensuring your learning is relevant to the changing needs of your profession.

You'll work on industry projects, create solutions to real-world problems and participate in industry-run competitions. You may even undertake a workplace internship or placement as part of your degree.

Beyond the classroom, we'll offer mentorship opportunities and help you establish valuable professional connections.

Many of our degrees are industry-accredited meaning your degree will be recognised nationally and internationally.

TEACHING EXCELLENCE AND PRACTICAL EDUCATION

Practice makes perfect. Nobody knows that better than our exceptional teaching staff.

Many are acclaimed professionals who bring a wealth of industry expertise to the classroom through live case studies and practice-based assessment.

They're at the top of their game, but they're also committed to nurturing their students. They will push you in ways you didn't think possible so you can excel in ways that matter.

Our adjunct professors and visiting practitioners also ensure your education is relevant by sharing how theory is applied in real-world situations.

RESEARCH THAT MATTERS

UTS is a future-focused research university with an emphasis on technology, creativity and social disruption.

We believe universities should work for the greater good by driving social change beyond campus, locally and globally, through research and practice.

We are committed to fostering the next generation of progressive researchers for academia and industry.

We're collaborative too. Our Key Technology Partnerships Program is responding to the expectations of industry by building unique, long-lasting relationships with research partners.

UTS STARTUPS

startups.uts.edu.au

Designed to inspire and connect student-led startups across UTS, UTS Startups is a group of young entrepreneurs who have big ideas they're making a reality.

A founder-focused community, they support students who have a compelling idea that uses technology to address a large market and create meaningful impact.

If your idea is selected, or as part of a UTS startup, you'll access free mentorship, community-building activities, funding opportunities, and industry resources so you can develop your new venture.

UTS BUILD

build.uts.edu.au

UTS BUILD is a dynamic leadership program that propels you beyond your degree. You'll grow personally while learning the strength of collaboration and effective leadership through social enterprise, entrepreneurship, sustainability, and social justice.

Enhance your employability by attending workshops, seminars, networking sessions, and hearing presentations from leading influencers.

BUILD Abroad is your launching pad to explore the world through experiential learning projects, conferences and community development schemes.

Recent projects include a business field trip to Shanghai and driving change through humanitarian design in developing Indian and Cambodian communities.

EMBRACING GLOBAL PERSPECTIVES

global-exchange.uts.edu.au

As part of our commitment to integrating international perspectives in all aspects of university life, UTS boasts one of the largest student mobility programs in Australia. More than a third of UTS students spend time overseas during their degree.

You can join our Global Exchange Program and spend one or two sessions studying overseas.

Student entrepreneur

Carmen Aichhorn

Carmen chose to study her MBA in Strategic Management at UTS because of our connections with industry.

"UTS was my first and only choice," says Carmen. "UTS is well respected in Austria. Everyone knows the professors are experienced in their field."

As part of her studies, Carmen collaborated with UTS Shopfront and People Like Us, a not-for-profit that advocates for refugees.

"We developed a business plan and strategic positioning document that will grow their organisation," says Carmen. "That's unique. We don't get to do that in Austria. I like doing assignments that reflect the real world of business I'll be working in."

Carmen also participated in UTS Startups. She was encouraged to develop a business idea she had planned to implement in Austria. Her idea, Prost Australia, connects students from different backgrounds so they can network and socialise in a more affordable way.

"Prost is German for 'Cheers'", says Carmen. "UTS Startups helped me with the ideation phase and user testing. I also got to talk with other startup founders. They were so encouraging. Because of UTS, I decided to found my company here in Sydney."

UTS SHOPFRONT

shopfront.uts.edu.au

UTS SHOPFRONT places students at the centre of the community sector so they can make a difference to local not-for-profit organisations.

Through collaborative projects and community-engaged research, you'll gain valuable experience and help build sustainable communities.

Our award-winning projects and internships are initiated by our community partners, supervised by experienced academics and undertaken as part of your coursework.

Recent projects include developing a strategic plan for an asylum seeker group, managing volunteer coordinators for a youth safe space program and planning tourism facilities for an Aboriginal Land Council.

Learn at the most innovative campus in Australia

We've invested A\$1.3 billion to create an immersive new university experience using sustainable design to shape the way you learn.

Our iconic buildings, tech-driven learning spaces and designated industry hubs place students at the centre of the creative learning experience so they can benefit from an active, connected and collaborative education.

Artist's impression: FJMT

UTS CENTRAL

Opened in 2019, UTS has its own 'heart of glass' in the form of UTS Central.

Bringing a striking transparency to the centre of campus, the futuristic 17-storey glass façade encloses a student hub, food court, a range of collaborative teaching, faculty and research spaces, and a 270-seat Hive Super Lab.

The highlight of UTS Central is a new sun-drenched library featuring a three-level reading room. Echoing the world's great scholarly reading rooms, its towering floor-to-ceiling bookshelves house an impressive collection of books for student use.

UTS TECH LAB

UTS Tech Lab is a multidisciplinary engineering and IT facility designed to disrupt traditional university approaches to research.

Located in the Botany industry hub next to Sydney's airport, this incubator for researchers promotes collaboration with industry and government to develop innovative technologies in countless arenas.

UTS Tech Lab's specialist laboratories possess advanced capabilities and equipment unique to Australia. Combined with its collaborative workspaces, UTS Tech Lab seamlessly blends new and traditional modes of working so that people and ideas flow freely.

DR CHAU CHAK WING BUILDING

A Sydney landmark, The Dr Chau Chak Wing Building is home to UTS Business School.

Inspired by a tree house as 'a growing learning organism with many branches of thought,' it's the only building in Australia designed by world-renowned architect Frank Gehry.

Its classrooms and oval lecture theatres facilitate discussion and encourage collaboration while large student commons offer inviting places for students to study and relax.

ENGINEERING AND IT BUILDING

Described as a 'living laboratory,' the Engineering and IT Building is covered in binary code screens that display real-time performance data internally throughout the building.

Inside, technology-enabled teaching, research and social spaces are clustered around a fissure shaped atrium.

Home to the most advanced data visualisation facility in Australia, the building's immersive 3D Data Arena creates 360-degree representations of data enabling academics and industry to visualise complex information, identify trends and solve problems.

VICKI SARA BUILDING

Home to the Faculty of Science and Graduate School of Health, the Vicki Sara Building boasts world-class laboratories, simulation labs and health care consulting clinics.

It features a world-first Super Resolution Imaging System that enables research into the cell biology of living microorganisms, which is crucial to understanding the behaviour of infectious diseases. While a Super Lab, the first of its kind in Australia, accommodates up to 220 students from 12 classes facilitating a multidisciplinary learning environment.

STUDY SPACES

Whether it's a quiet spot to study, an AV-equipped pod for group work or somewhere to host a social catch-up, there's plenty of space for students on campus.

Our many student commons are available to relax between classes, meet friends or read over coffee. Students without a laptop can use our free desktop computer workstations around campus.

These purpose-built student spaces, most offering power outlets, USB ports for charging devices and free Wi-Fi, are another way to make UTS feel like home.

MOORE PARK CAMPUS

Our new Moore Park campus, next to the Sydney Cricket Ground and the Rugby Australia Building, is the first in Australia to combine university programs with a major sporting venue.

UTS students, sector-leading sport and exercise scientists, physiotherapists, and elite athletes are connected in Sydney's premier sporting precinct.

This integration of science and sport offers UTS hands-on access to elite athletes and provides the Australian Rugby Union with valuable performance, injury-management and rehabilitation data.

ALUMNI GREEN

Modelled after leading European town squares, Alumni Green is a welcoming green oasis and ceremonial gathering space at the centre of campus.

Its gardens provide a sanctuary of trees, plants and shade. While a range of spaces (including outdoor ping pong tables) are ideal for socialising, studying and relaxing.

Connect. Live. Learn

As an international student, you'll experience a new country with fresh outlooks, foods and customs. We're here to help you immerse yourself in your new culture, discover interests you wouldn't encounter back home and make lifelong friends. The best way to start is to dive right in!

UTS INTERNATIONAL international.uts.edu.au

Our team understands what's required to achieve academic success and wellbeing at UTS. We're here to help you settle in and stay happy and safe. We provide friendly advice and assistance to all international students. You'll find us on level 3A of the Tower Building.

ORIENTATION orientation.uts.edu.au

Experience the best introduction to life at UTS during orientation. Attend seminars, workshops and social events to learn about our support services, make friends and gain insider tips on living in Sydney.

On O'Day, take a campus tour so you can easily find the library, computer labs and your lecture rooms. Join clubs and societies and take advantage of free giveaways, food, student offers, and demos.

Make sure you attend one of the mandatory international student sessions and your faculty welcome to get important information about your course, meet your lecturers, other students, and discover exciting upcoming opportunities.

PEER NETWORK uts.edu.au/current-students/opportunities/peer-network-program

You've travelled a long way from home to study here. If you're looking for a friendly face when you arrive on campus, seek out one of our Peer Networkers in their signature orange t-shirts.

They're UTS students who'll answer questions, help you find your way around campus and make Sydney feel a little more like home.

Our weekly Network Café also brings together overseas students. Hosted by current UTS students, you can practise your English, learn about Australian culture and ask questions about life at UTS.

Simin Peng (left) Thi Ngoc Minh Nguyen (right)

More than passing

U:PASS

When Simin Peng arrived from China to study nursing at UTS, she immediately signed up for U:PASS.

U:PASS sessions are run by students who've achieved high marks in the subject they're coaching. They know what current students are going through; instead of providing answers, they guide students to solve problems through teamwork.

Simin found the more she attended U:PASS, the more she benefitted. So much so, she received a Distinction.

"U:PASS not only helped me navigate university, it increased my confidence to speak up," says Simin. "At U:PASS I felt safe to make mistakes and ask questions. My U:PASS leaders also inspired me to become a leader."

As a U:PASS leader, Simin worked closely with new nursing student Thi Ngoc Minh Nguyen. "It's been amazing seeing the progress of students like Minh," says Simin. "She started out nervous about university then finished semester with increased confidence and great marks."

"U:PASS definitely helped my marks," says Minh. "Simin was also involved in social activities at UTS. She encouraged me to get involved. The experiences I had at U:PASS really helped me feel supported at UTS."

Minh is now a U:PASS leader too.

"I've been enjoying it," says Minh. "I incorporate a lot of group work. After all, discussion is where some of the best revision occurs."

uts.edu.au/current-students/support/upass

SPORT AND RECREATION

activateuts.com.au/sport

Join one of our 30 sports and recreation clubs or sign up with ActivateFit: our on-campus gym. You can also combine your love of fitness and travel with our ActivateUTS Recreation program where you can explore Sydney and its surrounds through sports events, day trips and weekend getaways.

HIGHER EDUCATION LANGUAGE AND PRESENTATION SUPPORT (HELPS)

helps.uts.edu.au

Sometimes we all need a bit of extra support with our studies. UTS HELPS is a study skills program that provides free English language and academic support. Our team can help you develop your writing, reading, speaking, and study skills or work on specific assignments, through workshops and one-on-one meetings.

Our Conversations@UTS sessions and HELPS Buddy program also give you the opportunity to improve your spoken English skills by practising with student volunteers.

Support services

Being alone in a new city can be overwhelming at times. If you're having trouble adjusting to life in Sydney or at university, take advantage of our free support services including health and wellbeing services, counselling, English language tutoring, and study skills workshops.

HEALTH AND WELLBEING

uts.edu.au/current-students/support

We offer a range of services to ensure you stay healthy and safe on and off campus.

Medical service

Our UTS Health Service provides free friendly and confidential medical consultations to students, staff, alumni, and their families.

Traditional Chinese Medicine clinic

Our Traditional Chinese Medicine clinic within the Faculty of Science offers discounted acupuncture, herbal medicine and remedial massage to UTS students, staff and the community.

Mental health services

Our confidential and free counselling service can help you with a range of personal, relationship, academic, and psychological difficulties. Our group counselling workshops can support you through the pressures of study, work and life. Face-to-face counselling sessions are also available in Mandarin and Cantonese.

UTS Psychology Clinic

The UTS Psychology Clinic is a not-for-profit research clinic and training facility for postgraduate Clinical Psychology students in the Graduate School of Health. It's open to UTS students, staff and the public offering reduced-fee services.

SAFE, FAIR AND SUPPORTIVE

uts.edu.au/current-students/support
students-with-accessibility-requirements/accessibility-service

We value diversity at UTS. We're committed to supporting all students to join in all university activities. If you've got a disability or ongoing health condition that could affect your studies, our UTS Accessibility Service can help.

MULTI-FAITH CHAPLAINCY

uts.edu.au/current-students/support

We welcome and respect beliefs of all kinds at UTS. Our Multi-faith Chaplaincy represents Buddhist, Christian, Jewish, and Islamic staff and students. Our chaplains can assist you with a variety of concerns including homesickness, loneliness and spirituality.

SOCIAL CLUBS AND EVENTS

activateuts.com.au

Engaging in extra-curricular activities will give you a rewarding, well-rounded university experience. There's lots of ways to get involved at UTS beyond the classroom. With over 130 clubs and societies, you'll find the right one for you. We also host a jam-packed events calendar that includes free weekly breakfasts, BBQs, live music, art exhibitions, and festivals.

“

Finding her place at UTS

Manroop Johal

When Manroop arrived from India to study a Bachelor of Science in Information Technology at UTS, she was nervous about starting her degree so she decided to visit UTS Counselling.

“My first session was very comfortable,” says Manroop. “I talked about my anxieties, how I felt like a totally different person, very shy. My counsellor told me many international students have the same difficulty adjusting.”

Manroop’s counsellor taught her some exercises to control her nerves, suggested activities outside of study and connected her with volunteer work where she could meet like-minded people.

“I now feel so confident,” says Manroop. “I’ve learnt I don’t have to change. I just have to be myself. UTS is my place. UTS accepts every person however they are. They accepted me – a girl from a Punjabi family who didn’t know whether she should speak up or stay silent. I’ve learnt so much about Australia and how other people do things. I’ve met many different students here who are just like me. Together we’re building an exciting future.”

A day in the life

University isn't just about attending classes. At UTS, we encourage you to get involved in campus life so you can grow your skills, make new friends, uncover a new passion or simply take time out to relax and recharge. Explore how colourful life at UTS can be.

7.30AM

Start the day right with a group fitness class at our fully equipped gym. It's a fun way to manage stress, stay motivated and make new friends.

9.15AM

On Wednesdays during session quell those hunger pangs with a free breakfast at the student-designed Bluebird Brekkie Bar. Meet your friends for free muesli, fruit, yoghurt, sourdough bread, and fair-trade tea or coffee in a relaxed pop-up space.

10.15AM

Attend a lecture or tutorial in one of our state-of-the-art theatres or purpose-built collaborative spaces.

12.00PM

Meet up with your favourite club or society. Whether it's a cultural club like the UTS Bangladeshi Society, a Business Society networking event or the UTS Football Club, you'll socialise with a group of like-minded students while contributing to our community.

1.00PM

Drop in to one of our Student Centres to get your questions about fees, scholarships, subject enrolment or timetabling answered.

1.15PM

Refuel at one of the many eateries on campus. You'll find our international food zone in The Marketplace featuring Japanese, Mexican, Lebanese, and Indian delights. Enjoy burgers, salads, tapas, and sandwiches at Towers Café, Universal Café, Penny Lane, The Art of Food or 80 Bar and Café.

2.00PM

Play a game of table tennis or relax on the grass at Alumni Green to review your lecture notes in preparation for your group work meeting.

2.45PM

Meet your classmates at an AV enabled study pod. Plug in your laptop, connect to free Wi-Fi and work on the big screen. Whether you want to bounce ideas around, finish a group presentation or form a study huddle, these spaces make collaboration easy.

4.15PM

Compete with your team in a UTS Social Sports competition. Gather some friends or make new ones competing in a range of sports including mixed basketball, futsal or netball.

6.30PM

Grab a snack and head to a HELPS workshop to improve your academic skills. Boost your spoken English, get one-on-one help structuring your assignment or become a better writer or public speaker.

8.45PM

Enjoy the latest films, karaoke or a game of pool with friends at The Underground. Head to The Loft for a small bar experience featuring live music and a leafy outdoor courtyard.

11.30PM

If you need to finish an assignment, all UTS computer labs are open 24/7. Security can escort you between buildings, residences and Central Station. A free nightly security shuttle also services the Broadway and Haymarket precincts from 6.30pm to 1.30am.

Your pathway to graduate success

careers.uts.edu.au

Your career is in your hands. Preparation for a successful professional career starts from your first week at university. UTS Careers offers tools and resources to guide you on the path to reaching your career goals.

GET TO KNOW US IN YOUR FIRST YEAR

Connecting with UTS Careers at the beginning of your degree is a must. At Orientation, you'll be introduced to us at our U:Professional session where you'll be shown how to start planning for your career.

We can help you along every step of your professional development journey. From crafting the ultimate resume, cover letter and LinkedIn profile to mastering interview techniques, finding an internship and making the most of networking opportunities – we've got you covered.

Recruiters are always on the look out for students who are engaged in industry and extra-curricular activities from day one so don't wait until the end of your studies to build your professional skills.

GAIN SPECIALISED EMPLOYABILITY SKILLS DURING YOUR DEGREE

As a UTS student, you'll access a free 15-minute consultation with one of our friendly Recruitment Advisors at our drop-in service. Discuss your future career options, ask work-related questions and get advice on job applications, excelling in interviews and networking.

We'll help you develop a resume and cover letter that's perfect for the job you want. Go online for our Rate My Resume program, which lets you upload your resume and have it reviewed instantly (day or night) so you can receive constructive feedback.

Take advantage of our Career Action Plan. This valuable collection of resources will help you navigate your career development process.

Excel in your job interviews by building your communication skills in one of our workshops and signing up for a mock interview so you can get experience and overcome nervousness. Browse the 'Resources' and 'Events' tabs at CareerHub to see what's on.

We also offer workshops that help you develop your LinkedIn profile and connect with professionals in your industry.

IMMERSE YOURSELF IN YOUR INDUSTRY

Reaching out and making industry connections is a big part of setting yourself up for success upon graduation.

Our Professional Mentoring Program makes connecting with professionals in your field easier. This university-wide online community fosters connections and organic conversations between mentees and professional mentors.

Another way to build your professional network is through an internship. To find the right internship for you, have a chat with one of our Recruitment Advisors or visit: interns.uts.edu.au and click on 'Students'.

Taking on part-time work during your studies is a great way to meet people and learn more about Australian workplace culture. UTS CareerHub is your one-stop-shop for exclusive job opportunities. With hundreds of jobs advertised each week, we'll help you find your dream role with an employer who is interested in hiring UTS talent.

ENTER THE WORKPLACE WITH CONFIDENCE

Our Accomplish Award is a program filled with insights and advice to prepare you for life after university. You'll learn what employers look for in candidates, how to improve your interview skills, how to dress for interview success and how to optimise your resume. After completing the Accomplish Award, you'll be ready to tackle the recruitment process head-on.

UTS Careers hosts an annual careers fair, faculty-focused career fairs and an exclusive international student careers fair so you can meet future employers and explore life after your degree.

Every August we run the Festival of Future You. This careers festival boasts events, workshops and networking opportunities designed to get you thinking about your career, developing your skills and building those key professional relationships.

CONNECT WITH US

Visit us Monday - Friday for a 15 minute drop-in with a Recruitment Advisor. Simply walk-in (without an appointment) from 10am-12pm. Or you can book an appointment with us between 1:30pm-4:30 pm via CareerHub.

For more information see: uts.ac/IntDrop-in

You can access all of our online resources via our website: careers.uts.edu.au

On the right track

Jayesh Nakrani

Jayesh is the first in his family to study engineering. When he graduated from his bachelor degree in India, he decided to pursue a Master of Mechanical Engineering overseas.

“I was planning to study in the US,” says Jayesh. “But after exploring the course structure, rankings and industry connections, I chose UTS.”

When Jayesh arrived in Sydney, his top priority was to find an internship to complement his studies. UTS Careers was his first stop.

“UTS Careers has helped me so many times,” says Jayesh. “I learned how to write an effective resume and cover letter.

They also showed me how to create a LinkedIn profile that gets results. At interviews employers say, ‘This is such a good resume. How did you do it?’ I tell them UTS Careers taught me everything.”

Jayesh successfully gained an internship at Chatoyer Environmental, a manufacturer and importer of pollution control products.

“It’s so exciting. I’m learning leadership skills and responsibility here,” says Jayesh. “As soon as the owner saw I was studying at UTS he said, ‘You’re on the right track.’ The owner is a great motivator. He tells me to never give up. He’s always pushing me, ‘You can do it. Jay, you can do it.’”

Scholarships

uts.edu.au/scholarships

UTS is making a big investment in high-achieving international students. We've dedicated A\$30 million in grants and scholarship support over a five-year period.

As part of our ongoing commitment to educating the world's future leaders, we're recognising students from around the globe who've put in the hard work and perseverance to excel in their chosen field.

Through offering scholarships to deserving students, we're sharing our passion for education, equity and innovation.

We want our international students to return home equipped with specialised knowledge, technological innovation and global perspectives so they can contribute to their home country's future.

UTS Insearch Scholarships for UTS students

insearch.edu.au/au/how-to-apply/scholarships

UTS Insearch is the premium pathway provider to UTS. Our vision is to bring university success within reach of more people around the world.

As part of its relationship with UTS Business School, UTS Insearch funds three scholarships for international students to complete their PhD in Business.

Faculty scholarships

uts.edu.au/scholarships

Many UTS faculties offer international scholarships to reward achievement and recognise motivation to succeed.

As these scholarships are always evolving visit our website for current information.

Postgraduate scholarships and grants

uts.edu.au/scholarships

Our scholarships are for top performers. These highly competitive scholarships and grants are open to international students and are awarded on the basis of academic

achievement. To be eligible, you must meet the selection criteria and have been admitted to, or are eligible for admission to, a course at UTS.

Note: several UTS scholarships, including full tuition scholarships, also require a personal written statement.

Australian Government scholarships

dfat.gov.au/people-to-people/australia-awards/Pages/australia-awards.aspx

The prestigious Australia Awards International Scholarships and Fellowships offer the next generation of global leaders an opportunity to undertake study, research and professional development in Australia.

Funded by the Australian Government's Department of Foreign Affairs and Trade, the awards help international students gain qualifications that will allow them to contribute to development success back home.

Endeavour scholarships and fellowships

internationaleducation.gov.au

The Endeavour Scheme is designed for high-achieving international students who've been accepted to study a postgraduate course or PhD at UTS.

These scholarships are funded by the Australian Government's Department of Education and Training. Before you apply, you need to gain admission to UTS. You'll also need to be living in a partner country that has links to the Endeavour program.

Home country sponsored scholarships

A number of countries offer scholarships or sponsorship opportunities to citizens who wish to study in Australia:

- **Brazil:** Program for Institutional Internationalisation of the Higher Education Institutions and Research Institutions of Brazil (PrInt)
- **Colombia:** Fundación para el Futuro de Colombia (COLFUTURO) scholarship program
- **China:** China Scholarship Council and Dr Chau Chak Wing Scholarships and China Scholarship Council
- **Ecuador:** Secretaría de Educación Superior, Ciencia, Tecnología e Innovación (SENESCYT) Program
- **Guatemala:** Guatafuturo – loans and scholarships program for Guatemalan citizens who want to study a Master, PhD or Graduate diploma overseas.
- **Indonesia** – Direktorat Jenderal Pendidikan Tinggi (DIKTI) and Lembaga Pengelola Dana Pendidikan (LPDP)
- **Mexico:** Fondo para el Desarrollo de Recursos Humanos (FIDERH)
- **Peru:** Programa Nacional de Becas y Crédito Educativo (PRONABEC)
- **Vietnam:** Vietnam International Education Development (VIED)

Check with your home government for current information.

Alumni advantage

alumni.uts.edu.au/advantage

UTS graduates who are thinking of pursuing further study could be eligible for a 10 per cent saving on their tuition fees through the Alumni Advantage Program. This discount applies to full-fee-paying courses and will be applied automatically when you enrol.

Financial aid and loans

If you're from Canada, Denmark, Germany, Norway, Sweden or the USA, you may be eligible for financial aid to support your studies at UTS. Check with your government for requirements.

Thinking differently at UTS

Priyanka Chadha

Priyanka has travelled the world for work and study. Originally from India, she completed her undergraduate degree in Melbourne then worked in sports event management in Dubai before choosing to further her career with an MBA in Sports Management at UTS.

“I decided to come to Australia to throw myself completely out of the box and do something different,” says Priyanka. “Sydney is a beautiful city and UTS has a lot to offer. It’s one of the few universities that delivers an MBA in Sports Management.”

Priyanka was also attracted to UTS because of its reputation for teaching excellence.

“The academics here are incredibly committed,” says Priyanka. “If you don’t understand something they sit down and explain it. They put in that extra effort to help you achieve your goals.”

Priyanka was awarded the Postgraduate Academic Excellence Scholarship for high achieving international students, which is granted on academic merit.

“Hard work does pay off,” says Priyanka. “This scholarship is recognition that UTS appreciates my efforts. The MBA is very demanding. If you want to get the most out of this degree, you need to give it everything. The practical insights have taught me a lot. We’re being prepared to become managers or CEOs. We’re constantly reflecting on who we are and where we want to go.”

Feel at home

housing.uts.edu.au

UTS-OWNED ACCOMMODATION

International students at UTS can choose from four residences close to campus:

- Geegal is a purpose-built group of townhouses accommodating 57 students in studio and shared apartments
- Bulga Ngurra is a modern apartment building accommodating 119 students in studio and shared apartments
- Gumal Ngurang is a modern apartment building accommodating 252 students in studio and shared apartments
- Yura Mudang accommodates 720 students in studios and shared apartments conveniently located above UTS Building 6.

Wattle Lane, UTS's fifth residence, houses 58 students in studios located only minutes away from the main UTS building. This residence is dedicated to Indigenous students at UTS.

All UTS residences feature spacious communal and BBQ areas, study rooms and games and computer rooms (except Wattle Lane). Gumal Ngurang and Yura Mudang also have a rooftop garden and Yura Mudang has a music room.

All are self-catered, secure and competitively priced. Bedrooms are for one person (unless described as twin shares) with shared kitchens, bathrooms and living areas. Apartments are fully furnished and rent includes gas, electricity, water, cabled Internet in bedrooms and limited wireless Internet in communal areas.

You will need to provide your own bed linen and cooking equipment. Licence fees are different for each residence and room type. There are two non-refundable fees: A\$45 application fee and A\$120 acceptance fee (subject to change).

Due to the high volume of applications, UTS Housing also has reserved beds for students with off-campus providers (Iglu and Scape).

RENTING PRIVATE ACCOMMODATION

If you're seeking private accommodation, we recommend you arrange short-term accommodation in Sydney so you can view properties on your arrival and choose something that suits your long-term needs.

Visit UTS Housing's off-campus accommodation website to find share rooms in private houses and apartments around UTS: uts.studystays.com.au

Share accommodation means you usually have your own room and share a kitchen, living area and bathroom with other students or people who work. Alternatively, you may choose a studio or one-bedroom apartment to live in on your own, but this is more expensive.

All accommodation rentals should come with a share or residential or tenancy agreement. If you need any help or advice, please contact the UTS Housing Off-Campus Officer at housing.welfare@uts.edu.au or the UTS Student Legal Service at studentlegalservice@uts.edu.au who are here to help you.

ESTABLISHMENT COSTS

You should expect to pay approximately A\$5200 in establishment costs for independent accommodation. Allow an additional A\$1000 to A\$1500 for a computer and printer, if required.

These costs include items such as a rental bond (up to four weeks' rent), rent in advance, linen, furniture, kitchenware, personal items, and telephone, Internet, and electricity connection.

For UTS Housing, you'll need to budget for the application fee (A\$45), the acceptance fee (A\$120), the bond (equivalent of four weeks' rent), two weeks rent in advance, and any personal items.

RESIDENTIAL LIFE PROGRAM

UTS Housing accommodates 1206 students from across Australia and around the world.

Our Residential Life program provides students with a dedicated support network that assists with the transition of living away from home, enhances learning and organises social activities.

ACCOMMODATION TIP

Don't pay any money before viewing and being satisfied with a non-UTS property. Until you arrive and get a feel for the area you want to live in, you won't know whether it is right for you.

Out of respect for the traditional owners of the land, we've used Aboriginal language to name our residences

Bulga Ngurra (Mountain Camp):

5-10 minutes' walk from UTS

Geegal (Shelter):

10-15 minutes' walk from UTS

Gumal Ngurang (Friendly Place):

5 minutes' walk from UTS

Yura Mudang (Students Live):

Next to main tower

		INDEPENDENT ACCOMMODATION		UTS ACCOMMODATION	
		Weekly	Annual	Weekly	Annual
Rent per person in shared accommodation within a short commute to UTS		A\$250* – A\$350	A\$13 000 – A\$18 200	A\$242 – A\$422	A\$12 584 – A\$21 944
LIVING COSTS					
	Groceries (e.g. food, drinks, toiletries)	A\$100	A\$5200	A\$100	A\$5200
	Phone (mobile)	A\$20	A\$1040	A\$20	A\$1040
	Internet	A\$10	A\$520	Free cabled Internet in room and limited free Wi-Fi access	
	Utilities – Gas/electricity	A\$20	A\$1040	Included	Included
	Books/supplies/printing	A\$16 [#]	A\$832 [#]	A\$16 [#]	A\$832 [#]
	Transport costs	A\$35 [^]	A\$1820 [^]	A\$10 [^]	A\$520 [^]
	Total costs	A\$426 – A\$536	A\$22 152 – A\$27 872	A\$388 – A\$568	A\$20 176 – A\$29 536

This table details approximate costs that you may incur while studying at UTS and living in Sydney. It should be used as a guide only.

It's a requirement of the Australian Government that prospective international students demonstrate they have access to at least A\$20,290 a year to fund their living costs and additional funds if bringing partners or family.

Note: Prices vary depending on the condition of the property, the number of people you share with and the proximity of the accommodation to the centre of Sydney.

* Any amount below this will likely be twin share.

Costs may vary according to course.

[^] Transport costs will vary depending on how close you live to campus.

Course description

The UTS Advanced MBA is a one-year program, co-developed, co-designed and co-delivered with industry partners from a range of sectors and organisations. It focuses on the development of the future of work skills: problem solving, critical thinking, digital literacy, communication, critical analysis, collaboration, and leadership.

It has an innovative and adaptable structure that combines knowledge-developing short, focused subjects offered in blended mode with three project-based studios that enable learner-focused, experiential learning and intensive industry engagement, including coaching and mentoring. The studios feature digital labs that introduce students to the key digital tools and methodologies needed to successfully operate in a digital environment and drive digital strategies. The Advanced MBA is bookended by two leadership labs which focus on assessing and developing students' leadership skills, emotional and cultural intelligence and ability to lead a diverse workforce in intensive coaching and mentoring sessions.

The program introduces students to tools and methodologies from a range of disciplines by working with academics and industry experts from business, technological and social sciences backgrounds. This enables students to address creatively complex challenges and opportunities.

Note: This course includes a compulsory summer session and non-standard sessions.

The Advanced MBA is designed for professionals wishing to upskill and advance their careers. It features:

- applied and learner-focused training in latest discipline-based and transdisciplinary tools and methodologies
- upskilling into key digital technologies and agile and user-centred delivery approaches
- applied, work-integrated problem solving in live client projects with a focus on solving complex problems and opportunities in digital contexts
- upskilling in skills and methodologies for successful implementation of concepts and solutions
- ongoing coaching and mentoring by experienced industry professionals
- self-development through immersive leadership labs
- accelerated one-year completion, utilising a blend of online, face-to-face, weekends and block mode learning; all subjects are taught in intensive mode over full Fridays and Saturdays, which means students can keep working while they study, applying what they learn right away on their jobs; weekly sessions are only scheduled for in-class assessments and group coaching and mentoring sessions
- delivery by leading academics from UTS Business School who are joined by experts from other UTS faculties; students also engage with an extensive network of adjuncts and industry partners who facilitate sessions and coach and mentor students
- a cohort model fostering the development of lasting relationships with like-minded peers.

Areas of study

Business administration, leadership, sustainability, management, innovation, technology management, business strategy, sustainable enterprises, people management, opportunity discovery, opportunity design, opportunity delivery.

Course structure

Applied Financial Management
Philosophy, Politics and Economics
Leadership Lab 1
Challenge/Opportunity Discovery
Accounting Practices and Tools
Delivering Customer Value
Innovative Strategies
Sustainable Enterprise in Dynamic Systems
Decision Making Under Uncertainty
Managing Technological Descriptions
Leadership Lab 2
Challenge/Opportunity Design
People and the Future of Work
Transition Management
Challenge/Opportunity Delivery

Career opportunities

The course is suitable for students from business and non-business backgrounds who seek to upskill and develop the skills needed to be prepared for the changing nature of work. Career options include a range of management roles with a focus on driving transformational change in large private, public and non-profit organisations as well as in SMEs.

Course code: C04367
CRICOS code: 098170E
Course duration: 1 year
Number of credit points: 72
Intake: February
Location: City
Fees: A\$20,955 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

The course structures outlined in this course guide are based on a March (Autumn) intake. The structure may vary for our July (Spring) intake. Students may be required to undertake elective subjects to complete their degree. Most subjects at UTS are valued at 6-8 credit points each.

Refer to the online handbook for the most up-to-date information and for specific information on available electives and their credit-point value (handbook.uts.edu.au).

ⓘ Courses flagged with this icon include a work-based training component which must be undertaken as part of the course of study and refers to all clinical, professional and industrial or other work placements.

Master of Business Administration in Entrepreneurship

Course description

The Master of Business Administration in Entrepreneurship is a unique 12-month intensive MBA designed for entrepreneurs and innovators. The program provides students with the skills, knowledge and networks needed to take an idea, develop it into a product or service offering, create a commercial or social venture and take the venture to market. Students learn fundamental business skills in accounting, finance, marketing, sales and data analytics, and develop knowledge in important areas of entrepreneurship and innovation management including learning how to identify and commercialise opportunities, apply start-up methods to develop products and services, seek support and funding for ventures, and scale entrepreneurial organisations. Students are embedded in the local entrepreneurial ecosystem (incubators, accelerators, venture capitalists) and exposed to global best practices while they develop networks useful for their own ventures.

Students with commercial or social venture ideas who want to develop their business and entrepreneurial skills and knowledge benefit from studying this program. The flexible modular structure of the program allows students to study the program in stages while developing and working on their entrepreneurial or innovation project. Students also have access to a project space, a mentor program and non-award-based master classes and events with entrepreneurs and other relevant industry practitioners who provide reality and rigour to supplement their classroom study.

Note: This course includes non-standard sessions.

Course code: C04304
CRICOS code: 087948F
Course duration: 1 year
Number of credit points: 72
Intake: March
Location: City
Fees: A\$20,955 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144

Areas of study

Accounting, finance, statistics and sales and marketing, leadership and managing people for performance, corporate structures and intellectual property law, developing a business plan and pitch presentations for venture capital funding, and experiential learning working on start-up projects.

Course structure

Start-up Finance and Accounting
 Start-up Data, Marketing and Sales
 Opportunity Commercialisation
 Leadership, Teams and Scalability
 Start-up Structures, IP and Negotiation
 Entrepreneurship and Innovation Practice
 Venture Planning and Pitching
 Founder at Heart
 Venture Growth and Internationalisation

Career opportunities

The course suits students from business and non-business backgrounds who are interested in entrepreneurship and developing their own business, corporate innovation managers and executives wanting to upgrade their skills and knowledge, and current entrepreneurs who seek specific skills and knowledge in entrepreneurship.

Master of Business Administration

Course description

The UTS MBA is designed for early career professionals seeking to either extend their knowledge and capabilities into managerial roles, or to change careers into a new field of business. The flexible 16-subject program features a core of eight subjects that introduce students to key managerial and business concepts, with the eight remaining subjects allowing a choice of major, sub-majors and or electives. All MBA subjects are approved by an industry board that insists on 'relevance to workplace' as a pre-eminent subject design principle. The MBA provides knowledge and skills that are essential for superior management performance.

There are many reasons to do the UTS MBA, with the course providing the flexibility to adapt to each student's unique educational needs, background and career aspirations. Students can structure the program to include a choice of majors, or two sub-majors, or one sub-major plus up to four electives from throughout the business school.

Course code: C04018
CRICOS code: 025004A
Course duration: 2 years
Number of credit points: 96
Intake: March, July
Location: City
Fees: A\$20,955 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

Majors

Accounting, financial analysis, finance, human resource management, management, marketing, operations and supply chain, international business, technology management, project management, information technology, business law.

Sub-majors

Accounting information systems, business law, engineering management, event management, finance, human resources management, information technology, international business, international exchange, management, marketing, marketing research, operations and supply chain management, project management, public relations, sport management, strategic management, strategic marketing, sustainable enterprise and responsible management, not-for-profit and social enterprise management.

Course structure

Year 1

Organisational Dialogue: Theory and Practice
 Accounting for Managerial Decisions
 Economics for Management
 Managing, Leading and Stewardship
 Financial Management
 Marketing Management
 Companies and Securities Law
 People, Work and Employment
 Strategic Management

Year 2

Select 48 credit points of options. Electives can be taken in one of three ways:

- as one major (eight subjects, totalling 48 credit points),
- as two sub-majors (usually four subjects, totalling 24 credit points for each sub-major), or
- as one sub-major (24 credit points), plus four mixed electives (24 credit points).

Career opportunities

The MBA is a widely recognised and transportable postgraduate degree. Students in the MBA know that to realise their full career potential, additional managerial skills and credentials are essential. Personal investment in an intellectually demanding and practically applied MBA program may provide students with the knowledge and skills required for career progression or career change.

Professional recognition

Accounting: CPA Australia; Institute of Chartered Accountants in Australia (ICAA); Institute of Public Accountants (IPA)

The MBA with Professional Accounting major meets the formal academic requirements for associate membership of CPA Australia and the ICAA. In order to meet the educational requirements for membership of CPA Australia and the ICAA, students undertaking the Professional Accounting major must also complete an introductory law subject. Students who have not previously completed an undergraduate law subject by examination must study 79708 Contemporary Business Law in place of 21928 People, Work and Employment.

Finance: Financial Services Institute of Australasia (FINSIA), Certified Finance and Treasury Professional at the Finance and Treasury Association (FTA)

Students completing this degree with a major in finance are eligible to apply for associate membership at the Financial Services Institute of Australasia (FINSIA) and are also eligible to apply for Certified Finance and Treasury Professional at the Finance and Treasury Association (FTA).

Human Resources: Australian Human Resources Institute (AHRI)

Students completing this degree with a major in human resource management are eligible to apply to the Australian Human Resources Institute (AHRI) for the professional member (MAHRI) status.

Project Management: The MBA with a major in Project Management is accredited with the Project Management Institute Global Accreditation Centre for Project Management Education Programs (GAC).

The course structures outlined in this course guide are based on a March (Autumn) intake. The structure may vary for our July (Spring) intake. Students may be required to undertake elective subjects to complete their degree. Most subjects at UTS are valued at 6-8 credit points each.

Refer to the online handbook for the most up-to-date information and for specific information on available electives and their credit-point value (handbook.uts.edu.au).

Graduate Certificate in Business Practice

Course description

The Graduate Certificate in Business Practice aims to upskill professionals with latest knowledge and methodologies in key business practice areas. This is achieved by knowledge- and capability-building subjects that have been co-developed with industry to provide an applied learning experience, and a studio subject focused on understanding, analysing and evaluating challenges and opportunities organisations face. Students examine a range of environmental, social and economic drivers of megatrends influencing organisations, industry sectors and societies as they operate within planetary boundaries, and become familiar with systems thinking, multi-level perspectives and multidisciplinary methods for envisioning futures. Students are also introduced to digital technologies and explore how they change existing practices.

Note: This course includes non-standard sessions.

The course is designed for professionals wishing to strengthen their career by extending their analytical skills and leadership capability. It features:

- applied and customised training in key discipline-based and transdisciplinary tools and methodologies
- applied, work-integrated problem solving with a focus on identifying and analysing complex problems and opportunities in digital contexts
- development of leadership skills and capabilities
- all subjects are taught in intensive mode over full Fridays and Saturdays, which means students can keep working while they study, applying what they learn right away on their jobs; weekly sessions are only scheduled for in-class assessments and group coaching and mentoring sessions
- delivery by leading academics from UTS Business School who are joined by experts from other UTS faculties; students also engage with an extensive network of adjuncts and industry partners
- a cohort model fostering the development of lasting relationships with like-minded peers.

The course structures outlined in this course guide are based on a March (Autumn) intake. The structure may vary for our July (Spring) intake. Students may be required to undertake elective subjects to complete their degree. Most subjects at UTS are valued at 6-8 credit points each.

Refer to the online handbook for the most up-to-date information and for specific information on available electives and their credit-point value (handbook.uts.edu.au).

☉ Courses flagged with this icon include a work-based training component which must be undertaken as part of the course of study and refers to all clinical, professional and industrial or other work placements.

Master of Professional Accounting (Extension)

Course description

The Master of Professional Accounting (Extension) is designed to provide non-accounting graduates with the necessary skills and knowledge required for a career in professional accounting. The completion of the course satisfies the academic requirements for entry to the professional programs of CPA Australia and the Institute of Chartered Accountants in Australia (ICAA).

This course provides the ideal academic foundation to pursue a career in accounting. It provides the knowledge, understanding and expertise necessary for employment in the accounting profession. Further, the professional recognition of the course by CPA Australia and ICAA provides students with internationally recognised qualifications that enhance both their employment and promotion opportunities.

Areas of study

Professional accounting, accounting for managerial decisions, financial management, economics for management, financial reporting and analysis, business communication skills.

Course structure

Year 1

Organisational Dialogue: Theory and Practice
Accounting for Managerial Decisions
Financial Management
Contemporary Business Law
Economics for Management
Financial Reporting and Analysis
Cost Management and Analysis
Corporate Accounting

Year 2

Management Planning and Control
Auditing and Assurance Services
Business Valuation and Financial Analysis
Companies and Securities Law
Introduction to Taxation Law
Select 18 credit points of options

Course code: C04237

CRICOS code: 061286J

Course duration: 2 years

Number of credit points: 96

Intake: March, July

Location: City

Fees: A\$20,555 per session (see page 148 for further fees information)

Academic and additional requirements: See page 144

English language requirements: See page 144

Professional recognition

CPA Australia; Institute of Chartered Accountants Australia; Institute of Public Accountants (IPA)

Career opportunities

Career options include management-level positions in industry or government, as well as not-for-profit organisations. With the CPA and ICAA qualification being recognised internationally, the prospect for overseas employment is also enhanced.

Master of Professional Accounting

Course description

The Master of Professional Accounting is designed to provide graduates with little or no accounting exposure with the necessary skills and knowledge required for a career in professional accounting. The course satisfies the academic requirements for entry to the professional programs of CPA Australia and the Institute of Chartered Accountants in Australia (ICAA).

This course provides the ideal academic foundation to pursue a career in accounting, with the subjects providing the knowledge, understanding and expertise necessary for employment in the accounting profession. The professional recognition of the course by CPA Australia and ICAA provides students with internationally recognised qualifications that enhance both their employment and promotion opportunities.

Areas of study

Professional accounting, accounting for managerial decisions, financial management, economics for management, contemporary business law, financial reporting and analysis, corporate accounting, auditing and assurance services.

Fees: A\$20,555 per session (see page 148 for further fees information)

Academic and additional requirements: See page 144

English language requirements: See page 144

Professional recognition

CPA Australia; Institute of Chartered Accountants Australia; Institute of Public Accountants (IPA)

Career opportunities

Career options include management-level positions in industry or government, as well as not-for-profit organisations. With the CPA Australia and ICAA qualification being recognised internationally, the prospect for overseas employment is also enhanced.

Graduate Certificate in Professional Accounting

Course description

The Graduate Certificate in Professional Accounting is a four-subject introductory course designed to provide a general understanding of accounting and related areas of business study. It provides foundation knowledge in the areas of accounting, finance, economics and law.

This course is designed for students who:

- do not have an undergraduate background in accounting and wish to further their business knowledge
- have extensive business experience but lack the formal qualifications for direct entry to the master's programs in professional accounting, or
- want to complete an introductory course in accounting and related fields, and want to prove their ability to undertake postgraduate study and attain a postgraduate qualification.

As this course articulates into the master's programs in professional accounting, this enables students who do not possess formal undergraduate qualifications, including TAFE diplomas, to acquire the relevant academic qualification for membership of CPA Australia, the Institute of Chartered Accountants in Australia (ICAA) and the Institute of Public Accountants (IPA).

Areas of study

Professional accounting, accounting for managerial decisions, financial management, economics for management, contemporary business law.

Course structure

Accounting for Managerial Decisions
Financial Management
Contemporary Business Law
Economics for Management

Career opportunities

Career options include management-level positions in industry, government, or not-for-profit organisations.

Course code: C11206
CRICOS code: 061284M
Course duration: 0.5 years
Number of credit points: 24
Intake: March, July
Location: City
Fees: A\$20,555 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

Master of Marketing (Extension)

Course description

The Master of Marketing (Extension) provides the opportunity for students to extend their knowledge in the areas of digital marketing and social media, advertising and communications, strategy and sales management, entrepreneurial marketing, product innovation management and new product development, channel management and business-to-business marketing, marketing research and analytics, pricing and revenue management, branding and consumer insights, and the legal and ethical implications of marketing.

The marketing program provides contemporary theoretical marketing knowledge and the practical skills required for superior performance in Australian and international markets. The additional elective subject choices provide an opportunity to specialise more deeply in the marketing discipline and to further enhance students' skills, professional practice, specialist knowledge and capabilities. Students have a range of study options including commencing or fast-tracking studies during Autumn, Spring and Summer sessions.

Areas of study

Buyer behaviour, marketing management, marketing strategy, marketing research, marketing, sales management, business-to-business marketing.

Course structure

Year 1

Marketing Management
Buyer Behaviour
Select 36 credit points of options

Year 2

Business Project: Marketing (Capstone)
Select 42 credit points of options

Course code: C04383
CRICOS code: 098042B
Course duration: 2 years
Number of credit points: 96
Intake: March, July
Location: City
Fees: A\$20,555 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

Career opportunities

The course equips students with a comprehensive understanding of contemporary marketing strategies and concepts and their application to business. It can lead to roles in marketing planning, sales, brand management, product marketing, digital marketing, market research and analytics. Career options also include senior management-level positions in government or industry including start-ups and not-for-profit organisations.

The course structures outlined in this course guide are based on a March (Autumn) intake. The structure may vary for our July (Spring) intake. Students may be required to undertake elective subjects to complete their degree. Most subjects at UTS are valued at 6-8 credit points each.

Refer to the online handbook for the most up-to-date information and for specific information on available electives and their credit-point value (handbook.uts.edu.au).

Master of Marketing

Course description

The Master of Marketing provides the opportunity for students to extend their knowledge in the areas of digital marketing and social media, advertising and communications, strategy and sales management, entrepreneurial marketing, product innovation management and new product development, channel management and business-to-business marketing, marketing research and analytics, pricing and revenue management, branding and consumer insights, and the legal and ethical implications of marketing.

The course prepares students with practical skills and theoretical knowledge to analyse markets and formulate strategies that connect with industry and best practice. The program has undergone changes to make it more flexible so that students can choose a mixture of relevant subjects to help facilitate entering or progressing a marketing career across a broad range of sectors in Australia and internationally. The program also caters to those wishing to begin, spread or accelerate their studies over Autumn, Spring and Summer with options to complete the program in as little as 12 months.

Areas of study

Buyer behaviour, marketing management, marketing strategy, marketing research, marketing, sales management, business-to-business marketing.

Course structure

Year 1

Marketing Management
Buyer Behaviour
Select 36 credit points of options

Year 2

Professional recognition

Completion of this course meets the requirements for professional membership with the Australian Marketing Institute (AMI).

Career opportunities

The course equips students with a thorough understanding of current marketing concepts and how to apply strategies to business. It can lead to roles in marketing planning, sales, brand management, product marketing, digital marketing, market research and analytics. Career options include senior management-level positions in government or industry including start-ups and not-for-profit organisations.

Graduate Diploma in Marketing

Course description

The Graduate Diploma in Marketing provides a thorough understanding of the basic principles of marketing, the motivations of customers and marketing management. Students are also given opportunity to consider various topics of their own choosing, including marketing communications, digital marketing, international marketing, new products and innovations, and marketing research, as well as entrepreneurial marketing and branding.

The course assists students in developing the ability to identify and analyse marketing management problems and fosters skills in generating marketing strategies to solve problems in the marketing domain, both in Australia and overseas.

Students have flexible program options including subject choices, full-time or part-time study options and studying over Autumn, Spring or Summer sessions.

Academic and additional requirements: See page 144

English language requirements: See page 144

Professional recognition

Students completing this degree are eligible to apply to the Australian Human Resources Institute (AHRI) for the Professional Member (MAHRI) status and/or advancement to a higher level of membership for those who have appropriate work experience.

Career opportunities

Career options include positions in change management and general management, human resources, and organisational training and development.

Master of Human Resource Management

Course description

The Master of Human Resource Management focuses on developing expertise in contemporary human resource management issues. The course is for current and aspiring HR professionals who are seeking the in-depth knowledge and skills necessary to engage in decision-making at senior levels within an organisation.

The Master of Human Resource Management focuses on developing greater understanding of human resource management, employment relations and organisational behaviour. It provides participants with a thorough understanding of the business issues and challenges surrounding HRM and IR, and equips participants with the skills necessary to add value to an organisation.

Areas of study

Human resource management, managing, leading and stewardship, research and project management skills, industrial relations, performance and talent management, business models and strategic planning, people work and employment, human resource strategies.

Master of Management

Course description

The Master of Management provides knowledge, skills and conceptual frameworks to enable students to identify and address a broad range of issues characterising the working environments of senior managers - that is, in conditions of complexity and uncertainty, where judgment and related accountabilities are defining capabilities. Students acquire the conceptual and analytical skills necessary for successful management performance in a range of contexts, including the business, public and non-profit sectors, and a variety of professional settings.

The course provides students with knowledge and experiences to enhance their professional and public responsibilities in leading and managing, and the stewardship of resources and enterprises. An innovative, flexible structure provides students with maximum choice in selecting subjects and programs of study tailored to meet their personal and professional needs.

Areas of study

International management, management skills, managing work and people, managing operations, global strategic management, performance management.

Course structure

Master of Not-for-Profit and Social Enterprise Management (Extension)

Course description

This course reflects best practice, current issues and emerging trends in not-for-profit and social enterprise, and has been designed for individuals who are passionate about social innovation and social justice, enabling them to develop innovative solutions to solve complex problems and generate social impact. The course is particularly relevant to policy-makers, senior managers and chief executives of social economy, community, public and third sector organisations. It also applies to those seeking to apply business and management principles to help a wider range of organisations - governments, businesses and social ventures - thereby creating economic and social value concurrently.

This course offers advanced insights into social entrepreneurship and social innovation as drivers of not-for-profit, community-oriented enterprises.

The additional elective subject choices provide an opportunity to specialise more deeply in the not-for-profit and social enterprise fields, and further enhance students' management skills, professional practice, specialist knowledge and capabilities.

Master of Strategic Supply Chain Management (Extension)

Course description

The ever-growing interest among business managers and academics in supply chains, the emergence of advanced service economies, connected information systems including disruptive technologies, cloud computing and data analytics, new management practices and approaches, and the pressure of global competition has placed a premium on those who have a broad understanding of how to plan and manage complex business operations and related processes. Further, in today's volatile environment, risk and complexity in supply chains have been major issues faced by industry which encourage businesses to engender a more organic capability to deal with unexpected disruptions. This course is designed to cater for the needs of those employed in all sectors of business and who seek advanced knowledge of supply chain networks, procurement strategies, operations and logistics management. The Master of Strategic Supply Chain Management (Extension) is designed for students who wish to gain significant insight and skills in these areas.

The additional subject choices this program provides include opportunity to specialise more deeply in the core strategic and tactical aspect of network and logistics network design, as well as the systematic application of improvement methodology within procurement and supply chain processes which help reduce variability and uncertainty through the supply chain, enabling better control of product and service quality. In addition to operations and supply chain management capabilities, students further enhance skills, professional practice, specialist knowledge and capabilities through better understanding of organisational and management practices and international contexts.

The course is designed to cater for the needs of those employed in all sectors of business.

Course code: C04325
CRICOS code: 082831D
Course duration: 2 years
Number of credit points: 96
Intake: March, July
Location: City
Fees: A\$20,555 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

Areas of study

Managing operations, global strategic management, project management principles, quality management in organisations and supply chains, strategic procurement.

Course structure

Year 1

Organisational Dialogue: Theory and Practice
 Managing Operations within Supply Chains
 Strategic Supply Chain Management
 Quality Management in Organisations and Supply Chains
 Legal Aspects of Contracts Administration
 Business Project Management
 Strategic Procurement
 Services and Network Productivity with Data Analytics

Year 2

Global Logistics and Value Network Design
 Managing in International Contexts
 Accounting and ERP
 Quantitative Management Practice
 Global Supply Chain Complexity and Risk Management
 Managing for Sustainability
 Organisational Improvement in Procurement and Supply Chain
 Management Research Project (Capstone)

Career opportunities

Career options include positions in operations management, service operations management, global logistics and network design, supply chain and logistics management, and strategic procurement.

Professional recognition

This course has been accredited to MCIPS standard with the Chartered Institute of Purchasing and Supply (CIPS). Following completion of the course and three years' relevant work experience, graduates are eligible to apply for MCIPS. Students who wish to apply for MCIPS must meet the following conditions:

- 21927 Management Research Project (Capstone) must be completed on a procurement and supply chain-related topic, and
- students must pass all subjects, with no credit given for any form of advanced standing, credit transfer, exemption or condonement.

More information is available from CIPS.

CIPS offers complimentary student memberships to those undertaking an accredited program, for its duration.

Communication

Advanced Journalism | Creative Writing |
Digital Information Management |
Media Practice and Industry |
Sports Media | Strategic Communication

With more than 30 years of teaching expertise, we've got the wisdom of experience led by the best in the field. We're also young, vibrant and dynamic, shaped by the agility and entrepreneurial spirit that have come to define UTS.

THINK BIG

Consider the world beyond UTS. We'll open doors to international subjects, placements and global programs. You'll look at the world, and your place in it, from a different perspective.

PRACTICAL LEARNING

There's no point learning theory if you don't know how to apply it. Real-world assessments, professional placements and industry interaction will ensure you translate theory to practice, with stunning results.

CONNECT WITH INDUSTRY

Develop your practical skills through hands-on experience with one of our many industry partners.

BUILD A PROFESSIONAL PORTFOLIO

Promote your work through U:Mag, Central News, Vertigo, 2SER-FM, and the UTS Writers' Anthology.

ALUMNI SUCCESS

You'll join the ranks of graduates who regularly win national and international competitions and awards.

Digital Information Management courses are accredited by the Australian Library and Information Association (ALIA) and the Records and Information Management Professionals Australasia.

Executive Master of Strategic Communication

Course description

The Executive Master of Strategic Communication is a new UTS postgraduate degree which provides advanced study for communication professionals working in corporate, government, organisational or marketing communication, advertising, or public relations. The course is open to applicants with a minimum of five years' experience in professional public communication and an undergraduate degree. Students can select corporate and marketing communication or government communication streams and the course culminates with a practice-related project relevant to the student's field of interest. Course content addresses up-to-date issues such as audience insights through data analysis, digital communication, and strategic communication informed by research and evaluation.

The world of public communication is changing rapidly through digitalisation, 'big data' analysis, new platforms and channels and shifting attitudes and concerns. These are leading to changing practices and challenges, and new ethical concerns. The UTS Executive Master of Strategic Communication is based on the latest research and is taught by a combination of senior academic researchers and leading industry professionals.

Note: This course has a compulsory summer session.

Course code: C04384
CRICOS code: 098386M
Course duration: 1 year
Number of credit points: 72
Intake: March, July
Location: City
Fees: A\$16,300 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

Areas of study

Organisational strategy, communication strategy, contemporary digital communication, research methods to gain audience understanding and insights, research for evaluation of communication, advanced human communication theory, contemporary media including social media, ethics and intercultural and international communication.

Course structure

Core subjects:

- Exploring Human Communication: Theories and Practice
- Understanding and Engaging Audiences
- Strategic Communication and Integration
- Strategic Communication Project

Executive Master stream choice:

Students choose to complete 4 subjects in either the Government Communication stream OR the Corporate and Marketing Communication stream.

Professional recognition

Programs in the public communication discipline at UTS are accredited by the Public Relations Institute of Australia (PRIA). Students have access to free student membership of the PRIA and graduates have an accelerated path to professional membership of the PRIA.

Career opportunities

Graduates of this course are equipped to work in senior strategic planning and management roles in corporate, government, political, organisational, or marketing communication, advertising, public relations, or integrated communication, including positions related to marketing and promotion, stakeholder engagement, employee communication, community relations, media relations and public affairs.

The course structures outlined in this course guide are based on a March (Autumn) intake. The structure may vary for our July (Spring) intake. Students may be required to undertake elective subjects to complete their degree. Most subjects at UTS are valued at 6-8 credit points each.

Refer to the online handbook for the most up-to-date information and for specific information on available electives and their credit-point value (handbook.uts.edu.au).

☉ Courses flagged with this icon include a work-based training component which must be undertaken as part of the course of study and refers to all clinical, professional and industrial or other work placements.

Master of Strategic Communication

Course description

The Master of Strategic Communication is a new postgraduate degree that provides advanced study in public communication practices. It is relevant for graduates seeking a career in corporate, government, political, organisational or marketing communication, advertising, or public relations and for communication professionals seeking to advance their career to senior level. The course includes theoretical and practical perspectives on up-to-date issues such as audience insights through ethical data collection and analysis, digital media communication, and strategic communication informed by research and evaluation.

The world of public communication is changing rapidly through digitalisation, 'big data' analysis, new platforms and channels, and shifting attitudes and concerns. These are leading to changing practices and challenges, and new ethical concerns. The UTS Master of Strategic Communication is based on the latest research and is taught by a combination of senior academic researchers and leading industry professionals.

Course code: C04385
CRICOS code: 098387K
Course duration: 1.5 years
Number of credit points: 72
Intake: March, July
Location: City
Fees: A\$16,300 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

Areas of study

Organisational strategy, communication strategy, digital communication, research methods to gain audience understanding and insights, research for evaluation of communication, human communication theory, contemporary media including social media, ethics, and intercultural and international communication.

Course structure

Core subjects:

- Exploring Human Communication: Theories and Practice
- Influence in the Digital World
- Understanding and Engaging Audiences
- Strategic Communication and Integration
- Intercultural and International Communication
- Managing Public Communication

Electives:

Students choose to complete 3 subjects from a list of Strategic Communication electives.

Professional recognition

Programs in the public communication discipline at UTS are accredited by the Public Relations Institute of Australia (PRIA).

Students have access to free student membership of the PRIA and graduates have an accelerated path to professional membership of the PRIA.

Career opportunities

Graduates of this course are equipped to work in senior roles in corporate, government, political, organisational or marketing communication, advertising, public relations or integrated communication, including positions related to marketing and promotion, stakeholder engagement, employee communication, community relations, media relations, and public affairs.

Graduate Diploma in Strategic Communication

Course description

The Graduate Diploma of Strategic Communication is a new postgraduate course that provides advanced study in public communication practices. It is relevant for graduates seeking a career in corporate, government, political, organisational or marketing communication, advertising or public relations, and for communication professionals seeking to advance their career. The course includes theoretical and practical perspectives on up-to-date issues such as audience insights through ethical data collection and analysis, digital media communication, and strategic communication informed by research and evaluation.

The world of public communication is changing rapidly through digitalisation, 'big data' analysis, new platforms and channels, and shifting attitudes and concerns. These are leading to changing practices and challenges, and new ethical concerns. The UTS Graduate Diploma of Strategic Communication is based on the latest research and is taught by a combination of senior academic researchers and leading industry professionals.

Course code: C06129
CRICOS code: 098388J
Course duration: 1 year
Number of credit points: 48
Intake: March, July
Location: City
Fees: A\$16,300 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

Areas of study

Organisational strategy, communication strategy, digital communication, research methods to gain audience understanding and insights, research for evaluation of communication, human communication theory, contemporary media including social media, and ethics.

Course structure

Core subjects:

- Exploring Human Communication: Theories and Practice
- Influence in the Digital World
- Understanding and Engaging Audiences
- Strategic Communication and Integration

Electives:

Students choose to complete 2 subjects from a list of Strategic Communication electives.

Professional recognition

Programs in the Public Communication Discipline at UTS are accredited by the Public Relations Institute of Australia (PRIA).

Students have access to free student membership of the PRIA and graduates have an accelerated path to professional membership of the PRIA.

Career opportunities

Graduates of this course are equipped to work in corporate, government, political, organisational or marketing communication, advertising, public relations or integrated communication, including positions related to marketing and promotion, stakeholder engagement, employee communication, community relations, media relations and public affairs.

Master of Arts in Creative Writing

Course description

The Master of Arts in Creative Writing is designed for experienced writers who want to further develop their theoretical knowledge and skills. Students learn valuable skills and work towards developing a major project under the guidance of an academic faculty member with expertise in creative writing.

Students study one genre in depth or explore a range of genres and media.

Areas of study

Non-fiction writing, narrative writing, theory and creative writing, professional writing project.

Course structure

Core subjects:

- Creative Non-fiction
- Narrative Writing
- Theory and Creative Writing
- Writing Project 1
- Writing Project 2
- Writing Seminar

Electives:

Students choose to complete 3 subjects from a list of Creative Writing electives

Career opportunities

Career options include advertising, computing, creative writing, freelance writing and editing, journalism, media research, publishing or scriptwriting, and editing in community organisations or government departments.

Course code: C04109
CRICOS code: 032331E
Course duration: 1.5 years
Number of credit points: 72
Intake: March, July
Location: City
Fees: A\$16,300 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

Graduate Diploma in Creative Writing

Course description

The Graduate Diploma in Creative Writing is part of an articulated program designed to meet a range of needs for people who want to start a career in writing and for experienced writers wanting to further develop their theoretical knowledge and skills.

This course is for people who want to commence their writing career or experienced writers looking to hone their skills.

Areas of study

Non-fiction writing, advanced narrative writing, theory and creative writing.

Course structure

Core subjects:

- Creative Non-fiction
- Narrative Writing
- Theory and Creative Writing

Electives:

Students choose to complete 3 subjects from a list of Creative Writing electives

Career opportunities

Career options include advertising, computing, freelance writing and editing, journalism, media research, publishing, scriptwriting, and editing in community organisations or government departments.

Master of Media Practice and Industry

Course description

The Master of Media Practice and Industry is for creative media graduates or experienced industry practitioners seeking to advance their skills and employability in a hybrid and dynamic media environment. The course is focused towards media industry transformations with respect to ethics, social justice, technology and sustainability. Students select from innovation, industry and production subject choices which share entrepreneurial, collaborative and iterative approaches to the ideas, practices and audiences for screen, digital media and emerging platforms. Curation, design thinking and project-based work are key aspects of the course which aims to produce graduates who can provide leadership to harness and shape opportunities in the field.

This course is unique in integrating advanced media production practices and future-focused capabilities and technologies with social justice, ethics and sustainable industry practices. Graduates from this course are highly sought after as leaders in a rapidly evolving media landscape.

Course code: C04394
CRICOS code: 098414A
Course duration: 1.5 years
Number of credit points: 72
Intake: March, July
Location: City
Fees: A\$18,620 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

Areas of study

Media, production, ethical and sustainable practices, screen business and creative entrepreneurship, curation, design thinking, digital influence and media as experience, screenwriting, post-production and immersive media.

Course structure

Core subject:

- Ethical and Sustainable Media Practices

Choices:

Students complete 2 subjects from each of the following choices:

- Innovation
- Industry
- Production

Electives:

Students choose to complete 2 subjects from a list of electives

Career opportunities

Graduates are creative and cultural producers who can incubate, produce and post-produce for screen, digital and emerging media. Career options include directors, producers, multiplatform storytellers, advertising creatives, festival and digital channel curators and post-production specialists in screen and immersive media. Graduates have the capacity to generate and deliver sophisticated creative media industry prototypes, portfolios and projects.

Graduate Certificate in Media Practice and Industry

Course description

The Graduate Certificate of Media Practice and Industry is part of an articulated program in media and creative practices that includes media industry transformations with respect to ethics, social justice, technology and sustainability and entrepreneurial, collaborative and iterative approaches to the ideas, practices and audiences for screen, digital media and emerging platforms. It offers an entry-level introduction to media and creative processes and practices.

This course is unique in integrating advanced media production practices and future-focused capabilities and technologies with social justice, ethics and sustainable industry practices.

Course code: C11289
CRICOS code: 098416K
Course duration: 0.5 years
Number of credit points: 24
Intake: March, July
Location: City
Fees: A\$18,620 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

Areas of study

Media, production, ethical and sustainable practices, screen business and creative entrepreneurship, curation, design thinking, digital influence and media as experience, screenwriting, post-production and immersive media.

Course structure

Core subject:

- Ethical and Sustainable Media Practices

General Choice:

Students choose to complete 2 subjects from a list of electives

Career opportunities

The course prepares students for advanced study and orientates them to the media and creative industries, particularly roles such as creative and cultural producers who can incubate, produce and post-produce for screen, digital and emerging media.

Master of Advanced Journalism

Course description

The Master of Advanced Journalism equips students with the skills, deep knowledge and adaptive capabilities to build a career in today's rapidly changing and often highly disrupted media landscape.

Students gain hands-on experience in reporting, editing and related production and design skills in a wide variety of text, audio and visual mediums. They have the opportunity to use, experience and think about emerging areas of journalistic practice, including drones, virtual reality and computer-assisted reporting, and work with leading practitioners in investigative, sports and entrepreneurial journalism.

The overarching aim is to foster agility and innovation in the local, regional and global media landscape.

This course is part of an articulated program of study and is suitable for anyone interested in learning how to fully harness the power of journalism, from existing media professionals and journalism graduates needing to upgrade skills or try new things to people interested in realising the full potential of digital disruption.

Areas of study

Advanced journalism, broadcast and mobile journalism, journalism studies and defamation, drones and ethics, media accountability, numeracy, data and computational journalism.

Course structure

Core subjects:

- Advanced Journalism
- Digital Journalism and Beyond
- Journalism Studies
- Media Law and Accountability
- Data and Computational Journalism
- Journalism Major Project

Electives:

Students choose 3 subjects from a list of electives.

Career opportunities

Career options include reporter, producer, presenter and editor across all types of private and public media, broadcast and publishing organisations including digital start-ups, the not-for-profit sector and non-media publishers.

Course code: C04321
CRICOS code: 092500G
Course duration: 1.5 years
Number of credit points: 72
Intake: March, July
Location: City
Fees: A\$17,640 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

The course structures outlined in this course guide are based on a March (Autumn) intake. The structure may vary for our July (Spring) intake. Students may be required to undertake elective subjects to complete their degree. Most subjects at UTS are valued at 6-8 credit points each.

Refer to the online handbook for the most up-to-date information and for specific information on available electives and their credit-point value (handbook.uts.edu.au).

Master of Advanced Journalism (Extension)

Course description

The Master of Advanced Journalism (Extension) is designed to meet the needs of mid-career journalists and graduates seeking a career change. It is a highly industry-focused course that equips students with deep knowledge of journalism, technical skills and the adaptive capacities needed in the current digital dominated media environment. Students who successfully complete the course have current, and forward-looking skills that allow them to operate in digital newsrooms and on other digital facing programs.

Class seminars are conducted by journalism professionals and academics. Students gain hands on reporting, editing and other production experience with the opportunity to learn in a state-of-the-art 'live' newsroom under the tutelage of a highly experienced multimedia producer.

Students are exposed to the latest journalistic trends, discussion of the digital changes changing the industry and state-of-the-art technical training. In addition to in-seminar training, students work on publishable journalism. They have the opportunity to learn about and discuss emerging areas of journalistic practice with lecturers who have been at the forefront of change, and work with leading practitioners of investigative, sport and entrepreneurial journalism.

Course code: C04397
CRICOS code: 099639J
Course duration: 2 years
Number of credit points: 96
Intake: March, July
Location: City
Fees: A\$17,640 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

Areas of study

Advanced journalism, broadcast and mobile journalism, journalism studies and defamation, drones and ethics, media accountability, numeracy, data and computational journalism.

Course structure

Core subjects:

- Advanced Journalism
- Digital Journalism and Beyond
- Journalism Studies
- Media Law and Accountability
- Data and Computational Journalism
- Journalism Major Project

Electives (Advanced Journalism):

Students choose 3 subjects from a list of electives.

Electives (Extension):

Students choose 3 subjects from a list of electives.

Professional recognition

- Graduates are eligible to apply for membership of the Media, Entertainment and Arts Alliance (MEAA)
- Students are eligible for student membership of the MEAA and access to the MEAA, Women in Media and Walkley Foundation network which provides skill development programs.

Career opportunities

Career options include reporter, producer, presenter and editor across all types of private and public media, broadcast and publishing organisations including digital start-ups, the not-for-profit sector and non-media publishers.

Graduate Diploma in Advanced Journalism

Course description

The Graduate Diploma in Advanced Journalism equips students with the skills, knowledge and agility to build a career in today's rapidly changing, multidiscipline and often highly disrupted digital media landscape.

Students gain hands-on experience in reporting, editing and related production and design skills in a wide variety of text, audio and visual mediums. There is an emphasis on storytelling with digital tools, exploring innovation and embracing entrepreneurship.

Students have the opportunity to use, experience and think about emerging journalistic practices across different areas, including drones, virtual reality and computer-assisted reporting.

This course is part of an articulated program of study and is suitable for anyone interested in learning how to fully harness the power of journalism.

Course code: C06104
CRICOS code: 092501F
Course duration: 1 year
Number of credit points: 48
Intake: March, July
Location: City
Fees: A\$17,640 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

Areas of study

Advanced journalism, broadcast and mobile journalism, journalism studies and defamation, drones and ethics, media accountability.

Course structure

Core subjects:

- Advanced Journalism
- Digital Journalism and Beyond
- Journalism Studies
- Media Law and Accountability

Electives:

Students choose 2 subjects from a list of electives.

Career opportunities

Career options include reporter, producer, presenter and editor across most types of public and private media, broadcast and publishing organisations.

Graduate Diploma in Sports Media

Course description

The Graduate Diploma in Sports Media equips students with the skills, techniques and knowledge to build careers across multiple areas of sports management, administration, journalism and communication.

The course draws from the disciplines of journalism, public relations and business to deliver invaluable learning experiences in media management, sports administration and marketing, audience development, and reporting and editing across text, video and audio.

UTS's unique arrangement with the Sydney Cricket Ground Trust delivers a range of opportunities for students across sporting codes, adding an in-house, hands-on element to every aspect of the course. Students are behind the scenes and in front of the action.

The course is delivered by teachers from UTS's School of Communication and School of Business along with leading industry practitioners. The emphasis is on delivering both practical and reflective learning opportunities, so that graduates are doers and thinkers, and possess both practical and strategic skills.

Course code: C06119
CRICOS code: 092502E
Course duration: 1 year
Number of credit points: 48
Intake: March, July
Location: City
Fees: A\$16,690 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

Areas of study

Public relations and audience strategies in sports, digital sports journalism, sports media, sport business, communicating with publics and media relations.

Course structure

Core subjects:

- Stakeholder Engagement
- Public Relations for Sport
- Digital Sports Journalism
- Influence in the Digital World
- Sports Media
- Sport Business

Career opportunities

Career options include reporter, producer, presenter and editor across all forms of sport media and sporting bodies, agencies and related private and public organisations.

Design, Architecture and Building

Applied Policy | Architecture |
Construction Management | Design |
Landscape Architecture |
Local Government | Planning |
Project Management | Property
Development | Public Sector Innovation |
Real Estate Investment

Become a creative and critical thinker, build connections with leading practitioners and develop solutions to the big challenges that shape the world we live in. At UTS Design, Architecture and Building, we're creating the future – and you can too.

INDUSTRY DRIVEN

Our curriculum is the outcome of ongoing engagement with industry, government and the creative sectors to understand growth areas and emerging issues.

REAL CLIENTS

You'll be applying up-to-date practices to real business scenarios and briefs. Depending on your degree, you could be addressing a challenge for Westfield or analysing a development for Lendlease.

PROGRESS WITH THE BEST

Learn from expert academic staff who are proven practitioners and world-class researchers.

FIND YOUR NICHE

Our many electives allow you to specialise in areas such as construction methodologies or sustainable design.

LATEST TECHNOLOGY

Use the latest software and professional equipment to bring your grand ideas to life.

Master of Design

Course description

Unique in Australia, the Master of Design is intellectually vibrant, socially engaging, visionary, practice-focused and actively linked to industry. The course centres on building a design community network and has two main components: specialised master classes led by a studio leader and industry partners; and theory and technology subjects taught across the program.

The program focuses on and integrates research, industry collaboration, internationalisation and a design culture through the delivery of specialist, core and transdisciplinary subjects. It provides a postgraduate education that is flexible in both its practice orientation and research integration.

With a focus on design evolution, innovative integration of new technologies, practice and student experimentation, this Master of Design is delivered by experienced studio leaders who are acknowledged leaders in their specific industries and professions.

Academic and additional requirements: See page 144
English language requirements: See page 144

Career opportunities

Graduates' careers are enhanced by high-level professional knowledge and skills for the workplace, with possession of specialised knowledge in interaction, sustainable design and innovation.

Master of Architecture

Course description

The Master of Architecture is a focused, professional degree and is required to become a practising architect. It is the second of two degrees, undertaken after the successful completion of the Bachelor of Design in Architecture (C10004) or equivalent.

This course is an innovative and flexible professional degree. Through a non-sequential structure, which allows students to select from a range of core and elective subjects, it gives students choice regarding their professional specialisation that can best serve them in their future careers. Architectural design subjects enhance a critical understanding of architecture as both a discipline with an existing body of knowledge and a set of practices that continuously challenge and add to that body of knowledge. Research is undertaken as a preliminary to design decision-making, during design and in reflection on design development. Architectural practice subjects prepare students for expanded practice in emerging media and markets, contemporary business practice and global economies and within challenging social, environmental, political and regulatory contexts. Students who complete a Master of Architecture and subsequent practical experience are eligible to become registered architects.

Areas of study

Design, architecture history and theory, communication, construction, sustainability, environmental control, architectural practice, urban development, urbanism, materials, fabrication, computational media, planning, visualisation.

Location: City
Fees: A\$19,360 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

Professional recognition

The Master of Architecture is a qualification accepted for candidates seeking to take the professional examination of the NSW Architects Registration Board and Royal Australian Institute of Architects (RAIA), as a prerequisite for registration under the provision of the Architects Act administered by the NSW Architects Registration Board, and to professional membership of the institute.

Career opportunities

Career options include architect, designer or urban designer.

Master of Landscape Architecture

Course description

The Master of Landscape Architecture provides students with the opportunity to collaborate alongside celebrated practitioners from award-winning international design studios and leading experts in the area of urban design.

Students engage in a variety of projects that are based upon the big questions that face global contemporary cities and landscapes: urban densification, climate change, declining resource supply (land, food and water) and the loss of biological diversity through ecological fragmentation and habitat destruction.

Using the most relevant and up-to-date methodologies and technologies, students participate in practice-based studios to develop their complex problem-solving skills in order to address the critical role of landscape in the cities of the future.

By building advanced specialist knowledge, UTS students graduate with a range of advocacy, political and professional agency, project management and financial skills in order to tackle contemporary issues in local and global contexts.

The Master of Landscape Architecture offers the opportunity for students to actively and critically consider the agency of landscape in the future city and become active in the discourse of what future cities may become through an integrated design-focused approach. Graduates from the Master of Landscape Architecture are well-equipped to tackle contemporary issues in local and/or global contexts through an expanded understanding of the most relevant and up-to-date methodologies, tools and technologies.

Areas of study

History and theory, landscape analysis and planning, construction technology, management of technical skills, natural and cultural systems, communication and research, professional ethics, professional practice.

Course structure

Year 1

Master of Landscape Architecture Design Studio 1
Practice: Finance and Project Management

Intake: March
Location: City
Fees: A\$19,360 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

Professional recognition

The course has received interim accreditation by the Australian Institute of Landscape Architects. Full accreditation will be sought in late 2019.

Career opportunities

Career options include landscape architect, urban designer, researcher, land management professional, regional planner, educator and policymaker.

Graduate Diploma in Landscape Architecture

Course description

This course has been established to address skill deficits in domestic and international students wishing to enrol in the UTS Master of Landscape Architecture. This course is nested within the master's program to allow graduate diploma students to articulate into the second year of the master's.

This course is intended primarily for international students with a cognate degree with minimal skill deficits but also appeals to local students who have been in the workforce for some time and wish to return to either undertake a master's or simply up-skill with a graduate diploma.

Areas of study

Research cultures (architecture and landscape architecture), finance and project management, practice management and law, professional practice, cartographic techniques and methods, botany, topographic archetypes, ecological systems for landscape architects, landscape construction.

Course code: C06125
CRICOS code: 098385A
Course duration: 1 year
Number of credit points: 48
Intake: March
Location: City
Fees: A\$19,360 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

Course structure

Master of Landscape Architecture Design Studio 1
Practice: Finance and Project Management
Select 6 credit points from the following:
Territory
Botany
Infrastructure
Master of Landscape Architecture Design Studio 2
Practice: Research Cultures
Select 6 credit points from the following:
Spatial Communications 2
Landform
Landscape History and Theory 2
Ecology
Construction

Career opportunities

After students complete the Master of Landscape Architecture, career options are: landscape architect, urban designer, researcher, land management professional, regional planner, educator and policymaker.

Graduate Certificate in Landscape Architecture

Course description

This course has been established to address skill deficits in domestic and international students wishing to enrol in the UTS Master of Landscape Architecture. This course is nested within the master's program to allow graduate certificate students to articulate into the first year of the master's.

This course is intended primarily for international students with a cognate degree with minimal skill deficits but also appeals to local students who have been in the workforce for some time and wish to return to either undertake a master's or simply upskill with a graduate certificate.

Areas of study

Finance and project management, cartographic techniques and methods, botany, landscape infrastructure.

Course code: C11275
CRICOS code: 098384B
Course duration: 0.5 years
Number of credit points: 24
Intake: March
Location: City
Fees: A\$19,360 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

Course structure

Core subjects (LandArch)
Option 1 (Landscape Architecture)

Career opportunities

After students complete the Master of Landscape Architecture, career options are: landscape architect, urban designer, researcher, land management professional, regional planner, educator and policymaker.

Master of Planning

Course description

The Master of Planning provides a new career path for design, planning and property professionals, equipping graduates with a broad understanding of planning issues alongside the negotiation skills and creative thinking required to resolve them.

Whereas planning has often been seen as an approval process, UTS approaches the discipline as a critical task, one that connects communities with governments, institutions and developers.

Through this course, students proactively engage with policy, environmental and demographic frameworks to understand how planning decisions shape the urban environment over the long term. This engagement is multidisciplinary, spanning planning, urban design, property, architecture/landscape architecture, economics, spatial analysis, law and urban ecology.

Areas of study

Major social and environmental issues of cities and regions; economics and practicalities of how development takes place; processes of strategic planning and development control as subjects of academic inquiry; planning decisions and their influence on cost, function, feasibility, building form and aesthetics.

Course code: C04007
CRICOS code: 064794J
Course duration: 1.5 years
Number of credit points: 72
Intake: March, July
Location: City
Fees: A\$16,535 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

The course structures outlined in this course guide are based on a March (Autumn) intake. The structure may vary for our July (Spring) intake. Students may be required to undertake elective subjects to complete their degree. Most subjects at UTS are valued at 6-8 credit points each.

Refer to the online handbook for the most up-to-date information and for specific information on available electives and their credit-point value (handbook.uts.edu.au).

Spatial Analysis in Planning and Property

Year 2

Group Project A: Urban Renewal
Urban Economics and Infrastructure Funding
Major Project: Analysis and Outcomes
Spatial Analysis in Planning and Property

Professional recognition

This program is accredited by the Planning Institute of Australia.

Career opportunities

The degree enables professionals to change careers due to the multidisciplinary nature of the learning. Graduates are in public sector positions, including working for state and local government, and in private consulting and property development firms. There are also careers in strategic planning on major developments and projects, master planning with financial analysis, and the increasingly important area of sub-regional planning.

Graduate Diploma in Planning

Course description

The Graduate Diploma in Planning provides a new career path for design, planning and property professionals, equipping graduates with a broad understanding of planning issues alongside the negotiation skills and creative thinking required to resolve them.

Whereas planning has often been seen as an approval process, UTS approaches the discipline as a critical task, one that connects communities with governments, institutions and developers.

Property development and planning students study a common first year, which develops a mutual understanding of how to balance private and public interests in urban development.

Areas of study

Major social and environmental issues of cities and regions; economics and practicalities of how development takes place; processes of strategic planning and development control as subjects of academic inquiry; planning decisions and their influence on cost, function, feasibility, building form and aesthetics.

Master of Project Management

Course description

UTS's Project Management program provides an immersive learning environment for both aspiring and experienced project managers. This course equip students with the underlying knowledge and practical experience that drive project delivery across all industry sectors, from construction to information technology.

The UTS program was the first Australian program to be accredited by the Project Management Institute's (PMI) Global Accreditation Centre. The foundation subjects are compatible with the structures used by the PMI and Australian Institute of Project Management (AIPM) to certify practitioners.

At a master's level, students have the opportunity to develop a specialised skillset by choosing a sub-major in business, construction, engineering, IT, local government management or health, combining project management disciplines with sector-focused knowledge.

To cater for busy work schedules, UTS delivers classes in an intensive block mode. This creates an immersive experience where students work with their peers in a team-based, simulated project environment.

Students also gain practical experience by working on real-life projects, in the classroom, on site or using computer simulations. For example, students have recently developed project plans for the Jack Thompson Foundation, Complimentary Health Care Council of Australia (CHC) and a number of industry associations.

UTS academics are at the forefront of project management research internationally. This breadth of knowledge ensures that students have access to leading-edge thinking applied in both project-specific and organisational contexts. Teaching staff include specialist guest lecturers from UTS as well as institutions and organisations in Australia and overseas.

Graduates possess a detailed understanding of how project management directly improves business productivity and profitability. They are able to deliver projects that help organisations achieve their strategic objectives.

Areas of study

Project portfolio, strategic project management, managing organisations by project, project performance assessment, graduate project, construction, information technology, engineering, business.

Course structure

Year 1

Project Communication, HR and Stakeholders
Project Risk, Procurement and Quality Management
Project Time and Cost Management
Scope and Integration Management
Advances in Project Management
Select 18 credit points from the following:
Project Management (Advanced)

Year 2

Select 24 credit points from the following:
Project Management (Advanced)

Professional recognition

This program is accredited by the Project Management Institute's (PMI) Global Accreditation Centre for Project Management Education Programs (GAC) and the Royal Institute of Chartered Surveyors (RICS).

This course is also endorsed by the Australian Institute of Project Management (AIPM)

Career opportunities

The course is highly regarded by industry as providing in-demand, 'professionally excellent' graduates. Its focus on leadership, program management and governance increases the employability of graduates at senior levels in many local and international industries, including banking and finance, construction and engineering, event management, government, health and IT.

Graduate Diploma in Construction Management

Course description

Construction management is one of the most rapidly expanding sectors of specialisation in Australia. Construction management specialists have very good job prospects in both construction and infrastructure work areas. The particular mix of skills offered in this degree combine traditional project management frameworks along with specialised preparation in technological advancements and human factors that are a requirement for successful managers in the construction industry.

The course aims to provide graduates with management skills relevant to the operation of construction projects. The course utilises concepts associated with the Project Management Body of Knowledge (PMBOK®) as applied in the construction context. Key areas of construction management are covered in the course including: construction technology and regulations; time, cost and quality management; risk; professional ethics; industrial relations; communication; and contract administration. Student learning establishes underpinning construction management theory that is strongly supported by best practice case studies delivered by leading academics and practitioners, giving students access to relevant, real-world expertise that reflects the realities of today's construction sector. Through the use of digital technologies students receive hands-on experience with real-world estimating, programming and building information modelling (BIM) platforms. Students gain further knowledge in contracts administration, integrated project delivery, and communication and stakeholder management with the option to build specialist knowledge in a chosen elective subject.

Course code: C06126
CRICOS code: 098505J
Course duration: 1 year
Number of credit points: 48
Intake: March
Location: City
Fees: A\$16,535 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

Areas of study

Construction management, construction technology and methodology; time, cost and quality management; risk; professional ethics; industrial relations and contract administration, estimating, programming and building information modelling.

Course structure

Construction Technology and Regulation
Construction Management
Project Communication, HR and Stakeholders
Select 6 credit points from the following:
Elective (Construction Management)
Construction Cost Planning and Control
Time, Quality and Risk Management
Integrated Project Delivery Management
Construction Contracts and Finance

Career opportunities

The course is aimed primarily at career changers, in particular those from other built environment industries interested in expanding their portfolio of skills. Career options include a range of management roles related to the construction sector, such as project, construction, design, environmental, site, contract or facility management; construction economics; quantity surveying; construction programming, cost engineering, estimating or property development.

Master of Property Development

Course description

UTS's Master of Property Development provides a comprehensive understanding of the property development process combined with the practical skills required to work effectively in the industry. This incorporates the political, financial, legal and physical systems that contribute to the successful development of property assets.

In this course, students benefit from close ties to industry. UTS academics have professional backgrounds and connections, and class projects are often based on real development scenarios. Recent project examples include the Gladesville Hospital site, Lindfield Town Centre and the Sydney Light Rail Corridor.

As many students have extensive industry experience too, there are excellent opportunities for peer-to-peer learning and networking across a range of fields including property development, valuation, construction, engineering, town planning and architecture.

Course code: C04008
CRICOS code: 019745C
Course duration: 1.5 years
Number of credit points: 72

Areas of study

Project management context, processes and competencies (strategic, tactical and operational).

Course structure

Select 24 credit points from the following:

- Scope and Integration Management
- Project Risk, Procurement and Quality Management
- Project Time and Cost Management
- Project Communication, HR and Stakeholders

Career opportunities

Graduates from the project management program at UTS can establish careers as project managers, and specialise in sectors through sub-majors (master's only). The knowledge gained from the program equips graduates to improve their skillset to manage projects as part of their current position, and move into senior, director-level positions.

Graduate Certificate in Property Development

Course description

The Graduate Certificate in Property Development offers an entry pathway to the Master of Property Development (C04008) for students who have professional experience in property but do not have an appropriate undergraduate qualification, or who have a bachelor's degree in an unrelated field.

The course gives property development students an introduction to the principles and practice of sustainable urban development, and experience in developing a plan for a real-world urban renewal site.

The course provides students with a combination of experiential learning experiences, teamwork and exposure to practical skills development, together with a thorough understanding of economic, environmental and other knowledge underpinning urban management and development.

Course code: C11271
CRICOS code: 096459D
Course duration: 0.5 years

Graduate Certificate in Project Risk Management

Course description

This course enables project management students and experienced industry professionals to complete a specialist course in project risk management. Project risk specialists have a growing array of career opportunities. Coursework covers commercial project management, managing project complexity and advanced risk management for project managers. Students have the opportunity to choose an elective subject in an area of specialisation. Subjects are offered in block mode, and learning activities emphasise application of concepts to real-world problems, effective professional quality communication, and the role of analysis in identifying and managing project risk.

This program provides practice-based knowledge, skills and tools for the identification and management of risk in projects across several industry sectors, underpinned by theory and research.

Course code: C11245
CRICOS code: 084257B
Course duration: 0.5 years
Number of credit points: 24
Intake: March, July
Location: City
Fees: A\$16,535 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144

Areas of study

Commercial project management, managing project complexity, advanced risk management for project managers.

Course structure

Advanced Project Risk Management
 Managing Project Complexity
 Project Finance and Analysis
 Select 6 credit points from the following:
 Options (Project Risk Management)

Career opportunities

The course was developed in response to industry requests for a specialised course in risk aimed at project managers. It is aimed at practising professionals who wish to develop specialised abilities in this area. It is applicable to professionals in many industries, including banking and finance, construction and engineering, event management, government, health, and IT.

Master of Property Development and Planning

Course description

This course is designed for both property and planning practitioners, and graduates in related fields who wish to extend their qualifications and expertise in property development and planning. Graduates have a commitment to professionalism in the property and planning sector.

This course is for property and planning professionals who want to upgrade their qualifications or expertise or for those who wish to enter the property and planning industries. In their first year students develop an understanding of how to balance private and public interests in urban development, how urban economies work, how urban design and sustainability principles are applied, and how development feasibility is assessed.

Intake: March, July
Location:
Fees: A\$17,175 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

Career opportunities

Career options include positions in banking and government instrumentalities, real estate finance, property management and development, and real estate investment.

Master of Real Estate Investment

Course description

The UTS Master of Real Estate Investment gives investment, property and finance professionals a competitive advantage in the global property investment boom. It deals with the finance, investment, management, valuation and analysis knowledge required to succeed in the global real estate investment sector. Students are able to integrate highly sought-after property and finance skillsets and advance their career.

Through this degree students learn to understand and analyse the many sociopolitical, economic, financial and environmental factors that drive property investment decisions in a globalised world. They benefit from the faculty staff's academic research and significant industry experience. A number of the course's sessional lecturers have over 30 years' corporate experience.

Students are standout professionals, with a strong record in their industry and recognised qualifications. This calibre of students enables unique networking opportunities and rewarding peer-to-peer learning. Most subjects are offered in intensive blocks that accommodate busy work lives, with the exception of two MBA subjects offered in evening sessions.

Areas of study

Finance, property feasibility and valuation, property market analysis, capital markets, fund management, commercial property, retail property.

Course structure

Year 1

Capital Markets
Financial Management
Development Feasibility and Modelling
Property Transactions
Investment Asset Allocation
Investment Management
Real Estate Economics
Real Estate Equities

Year 2

Strategic Asset Management
Investment Property Valuation
Select 12 credit points from the following:
Options (Real Estate Investment PG)

Course code: C04294
CRICOS code: 084258A
Course duration: 1.5 years
Number of credit points: 72
Intake: March, July
Location: City
Fees: A\$17,175 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

Career opportunities

This degree provides the analytical skills for professionals to be promoted more rapidly into decision-making and leadership positions, or gain access to boutique real estate investment firms.

Career opportunities may include advising or managing property investment portfolios, acquisitions and sales, within the property or finance industry, or working for a specialist research firm that does market analysis, forecasting and projections. The course provides new career options for people who work within the property and finance sectors, including analysts, valuers, managers, advisors, economists and accountants.

Master of Local Government

Course description

The Master of Local Government provides professionals, managers and leaders in local government with an advanced body of knowledge and skills to reflect critically on theory and practice. This enables them to apply this knowledge in their roles in strategic thinking, planning and shaping local communities.

The course provides graduates with an evidence-based learning approach to build a high level of influence and leadership in their local government workplace. The course, which is informed by the research and capacity-building activities of the UTS Centre for Local Government, provides an interdisciplinary program with teaching and learning activities ranging across and beyond the faculty. An education program is developed to match the requirements of each participant's individual requirements, and subjects can be studied through intensive block release or in some cases through online delivery mode.

Course code: C04257
CRICOS code: 087647G
Course duration: 1.5 years
Number of credit points: 72
Intake: March, July
Location: City
Fees: A\$12,280 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

Areas of study

Local government studies, public value, public administration, leadership, social planning, service delivery, research methodologies, governance, governance structures, strategic planning, environmental management.

Course structure

Core subjects (Local Government)
Options

Career opportunities

The course is highly suited to professionals wishing to progress their careers as senior managers and leaders of local councils. It is also highly recommended for public administrators and policymakers from other tiers of government, and managers from the non-government sector who partner on a regular basis with local government and wish to better understand the principles and practices of local governance.

Graduate Diploma in Local Government Management

Course description

In the context of rapid technological and socioeconomic change, public administrators working in local government need a high level of professional expertise, a broad range of managerial and organisational skills, and a sound understanding of the changing needs and priorities of the sector and their communities. The teaching and learning provided through this course provides an opportunity for such practitioners to broaden their professional knowledge and skills, underpinned by a strong foundation in public service and democratic values and principles.

Tailored to the local government environment, the course enables participants to build an education program that responds to individual needs as it allows students to develop a study plan that matches the requirements of their professional development. Subjects can be studied through intensive block release and the program can also be used as a stepping stone to a Master of Local Government (C04257).

Course code: C06033
CRICOS code: 087648G
Course duration: 1 year
Number of credit points: 48
Intake: March, July
Location: City
Fees: A\$12,280 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

Areas of study

Corporate management and organisation change, social planning and development, integrated strategic planning, local environmental management, local government service delivery, perspectives in leadership, personal and professional leadership skills.

Course structure

Organising and Managing in Local Government
Local Government Research Project
Local Government Principles and Practice
Select 30 credit points from the following:
Social Planning and Community Development
Strategic Planning
Vocational Competencies 1
Vocational Competencies 2
Local Environmental Management
Leading in Local Government
Contemporary Local Government Leadership

Career opportunities

The course is particularly suited to local government middle-tier managers and unit leaders who wish to advance their careers. It is also highly recommended for public administrators from other tiers of government and professionals from the non-government sector who work in partnership with local councils for the benefit of local and regional communities.

The course structures outlined in this course guide are based on a March (Autumn) intake. The structure may vary for our July (Spring) intake. Students may be required to undertake elective subjects to complete their degree. Most subjects at UTS are valued at 6-8 credit points each.

Refer to the online handbook for the most up-to-date information and for specific information on available electives and their credit-point value (handbook.uts.edu.au).

☉ Courses flagged with this icon include a work-based training component which must be undertaken as part of the course of study and refers to all clinical, professional and industrial or other work placements.

Graduate Certificate in Local Government Leadership

Course description

This course explores the trends, challenges and opportunities of leading in local government. It helps build advanced skills and knowledge to enable current and aspiring local government leaders to make a greater contribution to improving economic, social, environmental and governance performance of their organisations for the benefit of communities now and into the future.

The course is tailored to the local government environment and allows current and aspiring leaders to develop contextual understanding and professional capabilities necessary for leadership in the public sector. There is a particular focus on the need for local government leaders to understand and demonstrate commitment to the production of 'public value' (Moore 1995); outcomes that are truly valued in the community.

The course offers the opportunity to undertake an education program that responds to individual needs as well those in the workplace and the broader community. Subjects involve intensive block mode workshops, action learning, self-directed study, scenario-based challenges and a real-life community leadership project.

Course code: C11215
CRICOS code: 087649F
Course duration: 0.5 years
Number of credit points: 24
Intake: March, July
Location: City
Fees: A\$12,280 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

Areas of study

Perspectives in leadership, personal and professional skills, community leadership, team building and leadership.

Course structure

Contemporary Local Government Leadership

Leading in Local Government

Community Leadership Project

Select 6 credit points from the following:

- Enhancing Local Government Service Delivery
- Local Environmental Management
- Local Government Principles and Practice
- Negotiation and Conflict Management
- Organising and Managing in Local Government
- Project Management Principles
- Social Planning and Community Development
- Strategic Planning
- Systems Thinking for Managers
- Team Building and Leadership
- Vocational Competencies 1

Career opportunities

Career options include local government managers in councils and elected members.

Graduate Certificate in Public Sector Innovation

Course description

The UTS Graduate Certificate in Public Sector Innovation enables professionals working in, and with the public sector to develop their capability to find solutions for the complex problems they face every day.

The first of its kind in Australia, this practical learning program is aimed at equipping students with a design-based innovation methodology called Frame Creation, developed at UTS. Frame Creation provides a structure for exploring problems creatively and can be employed to transform public engagement, practices, services, regulations, policies, organisations and communities.

The course utilises an experiential, peer-learning model within the teaching program and the learning environment offers a great opportunity for collaboration and idea-sharing with fellow students across disciplines and sectors.

Sponsorship by an employing organisation is desired as students work on a self-selected problem within their own professional practice.

Why study this course?

- discover your potential for creative thinking and gain widely applicable skills in design innovation
- collaborate with and expand your network of like-minded people across government
- apply your learning in a self-selected project situated in your own professional practice.

Why sponsor your staff to study?

- invest in and challenge your rising talent
- enable passionate staff to be effective in transforming policy, programs, services, and organisational culture
- explore the opportunity for impact within your own organisation using a design-based problem solving methodology.

Course code: C11257
CRICOS code: 093568A
Course duration: 0.5 years
Number of credit points: 24
Intake: July
Location: City
Fees: A\$16,535 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

Areas of study

International public sector innovation frameworks, frame creation methodology, design-based innovation, managing complex public innovation projects, innovation culture and collaboration, understanding problem complexity and behaviour, creative and iterative problem solving.

Course structure

Foundation Public Sector Innovation Practices
Problem Framing
Co-evolution of Problem and Solution
Leading Public Sector Innovation

Career opportunities

The course is designed for public sector professionals looking to progress their career through innovation and leadership capacity.

Master of Applied Policy

Course description

The Master of Applied Policy, offered by the UTS Institute for Public Policy and Governance (UTS: IPPG), is designed for middle-level and senior professionals and practitioners in the public, private and non-profit sectors seeking to enhance their knowledge, skills base and career opportunities. It provides a transdisciplinary basis for understanding policy across these sectors. The course examines the development and implementation of policy in practice; policy research skills and methodologies; the making and evaluation of policy; and program implementation and management. The course is informed by the applied policy and social research experience of the UTS: IPPG with government, industry and community in the Australian context and internationally.

The course is designed to have an applied focus which is theoretically underpinned. The course offers students the opportunity to work across industry sectors on real-world problems and to critically apply their learning to case studies drawn from UTS: IPPG's research program and their own workplaces to innovate solutions. It includes active approaches to learning, including debates, case studies, role plays, group discussions, presentations and guest speakers.

All students undertake an individual research project, and gain the necessary knowledge and experience to engage in effective policy development, implementation and evaluation. The course offers a general policy stream focusing on professional practice, as well as major streams in local government studies; urban and regional policy; and social research. The core subjects of the course examine contemporary policy challenges; policy in practice; policy and resources and evidence and decision making. To tailor their course, students can choose their electives from a range of subjects from UTS: IPPG, the Faculty of Design, Architecture and Building, and the UTS Business School. The course also offers a sub-major in Project Management. The course utilises several teaching formats, including intensive block mode and online delivery, designed by academics, practitioners and industry leaders. Most subjects are offered in flexible mode and delivered in blocks or online for more effective integration of study and work commitments.

Course code: C04323
CRICOS code: 094553M
Course duration: 1.5 years
Number of credit points: 72
Intake: March, July
Location: City
Fees: A\$17,175 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

Areas of study

Policy for the government, corporate and NGO sectors, resourcing for policy, governance and management of organisations for policy, applied research methods, project management, urban studies, social planning and research, strategic planning, leadership.

Course structure

Year 1

Policy and Resources
Evidence and Decision Making
Select 12 credit points from the following:
Major/Sub-major + two electives/Six electives
Contemporary Policy Challenges
Policy in Practice
Select 12 credit points from the following:
Major/Sub-major + two electives/Six electives

Year 2

Select 12 credit points from the following:
Major/Sub-major + two electives/Six electives
Select 12 credit points from the following:
Project stream choice

Prior study

Applicants must have completed:

- a bachelor's degree
- a master's degree
- a graduate certificate, or
- a graduate diploma.

Career opportunities

This course was developed in response to the increased boundary-spanning of middle and executive management across government, industry and non-profit sectors. It is highly applicable to professionals working in a range of settings, including state and local government, planning, peak bodies, community and non-government organisations and sector-specific career professionals.

Graduate Diploma in Applied Policy

Course description

The Graduate Diploma in Applied Policy, offered by the UTS Institute for Public Policy and Governance (UTS: IPPG), is designed for current or aspiring professionals and practitioners in the public, private and non-profit sectors seeking to enhance their knowledge, skills base and career opportunities.

The course has an applied focus which is theoretically underpinned. It includes active approaches to learning including policy debates, case studies, role plays, group discussions, presentations and guest speakers. The course is informed by the applied policy and social research experience of the UTS: IPPG with government, industry and the community in the Australian context and internationally.

The course offers students the opportunity to critically apply their learning to case studies drawn from UTS: IPPG's research program and their own workplaces to innovate solutions.

The core subjects of the course examine contemporary policy challenges; policy in practice; policy and resources and evidence and decision making. Education

Applied Linguistics and TESOL |
Education (Learning and Leadership) |
Teaching (Secondary Education)

Think differently about how you contribute to the world and to education. We are practice-oriented, research inspired, technology-linked, and creative – all with a global outlook.

PRACTICAL LEARNING

We've established more than 200 secondary school partnerships, where you'll complete hands-on practicums. You'll also study alongside students from various industries, giving you access to diverse perspectives.

PURPOSE-BUILT FACILITIES

Our purpose-built facilities are second to none. From customised science, music, dance and visual arts teaching environments to dedicated research hubs, our spaces are designed to shape your education practice.

BEYOND BOUNDARIES

A global perspective is critical to education. Study with people from multilingual and multicultural backgrounds.

HIGHER RANKING

Education is in the top 100 of the 2019 Times Higher Education World University Rankings.

PROGRESSIVE PROGRAMS

Our courses are built with significant industry input and informed by our world-leading research.

Master of Teaching in Secondary Education

Course description

This teacher education preparation course provides students with a master's qualification to teach in NSW secondary schools. Students who have both the required undergraduate degree and specialisation subjects can complete the course in two years of full-time study or 1.5 years in accelerated mode. The course offers major studies in English, Mathematics, Science, Science/Mathematics and HSIE (Business Studies/Economics).

The core component provides research-based studies of educational theory and practice as a basis for professional decision-making in the secondary school context; the major component provides teaching methods; and the professional experience component includes both campus-based and field-based experiences, and is available in each of the specialisation areas.

This course is a NSW secondary school teaching preparation course and adheres to the subject content knowledge prerequisites as stipulated by the NSW Education Standards Authority (NESA). It is suitable for students about to graduate with a bachelor's degree and for mature-aged graduates who are changing careers and want a teaching qualification. It includes an intensive professional experience program where students spend 60 days in practical experience teaching, and offers extensive, structured and closely supported experiences of secondary school teaching in different settings. The course has the flexibility to enable students who have completed most but not all of the required undergraduate specialisation subjects to undertake the additional required subjects as part of the degree.

Professional recognition

This course has received professional accreditation by the NSW Education Standards Authority (NESA) as a recognised secondary school teaching qualification. To gain employment as a teacher in NSW schools, graduands must meet the requirements of the NESA, including language proficiency.

Career opportunities

Career options include secondary school teaching in the chosen specialisations.

Master of Applied Linguistics and TESOL

Course description

UTS is a leading provider of postgraduate applied linguistics and TESOL courses, with academics who are published authors and internationally recognised experts in the field. This course meets the professional development needs of a wide range of English language teachers in Australia and internationally, teaching children, teenagers and adults. The course focuses on contemporary models of language, learning and teaching. It caters to both those seeking an initial qualification in teaching English to adult speakers of other languages, and those who already possess a teaching qualification and wish to gain a specialist degree in the field. The course has both a strong focus on practice through the supervised teaching practicums, and an emphasis on recent developments in the field of language education. The course consists of subjects that equip teachers with skills and in-depth knowledge in the areas of teaching practice, pedagogical grammars, global Englishes, discourse analysis, phonology and pronunciation, language development and language and literacy for specific purposes.

This course is designed to meet the necessary professional requirements of the TESOL and applied linguistics fields. The course features flexible study options, with classes held at times suitable for students working standard full-time hours. Credit recognition may be available.

The course explicitly meets the needs of students working or wishing to work in the following contexts:

- working with migrants and Indigenous students across all levels of education
- teachers wishing to change discipline areas or add a specialism in Teaching English as an Additional Language
- teaching English outside Australia
- international students wishing to study TESOL at master's level.

Areas of study

TESOL, applied linguistics, language teaching methodologies, EAL, research methodologies, research literacies, teaching, English.

Course structure

Year 1

Introduction to Language
TESOL: Methodology
TESOL Practicum
Language Development
Select 24 credit points from the following:
Options (Applied Linguistics and TESOL)

Year 2

Select 18 credit points from the following:
Options (Applied Linguistics and TESOL)
Research Literacies

Electives

Discourse and Genre
ELT Practices
Global Englishes
Grammar and Meaning
Learning Academic English
Literacies and Numeracies at Work
Multiliteracies and Multimodalities
Phonology and Pronunciation
Programming and Assessment in Language
Literacy and Numeracy
TESOL Practicum 2: Teaching Intensive
Teaching Academic English

Career opportunities

Career options include teacher of English as an additional language, adult literacy and numeracy/foundation skills in Australia or overseas (applicants are advised to check with potential employing bodies regarding employment requirements), manager in the TESOL sector and language roles (e.g. audiology, speech pathology).

Graduate Diploma in Applied Linguistics and TESOL

Course description

UTS is a world-leading provider of postgraduate applied linguistics and TESOL courses, with academics who are published authors and internationally recognised experts in the field. This course meets the professional development needs of a wide range of English language teachers and educators teaching children, teenagers and adults. In its foundation and specialisation subjects, the course presents contemporary models and analysis of language learning and teaching. It caters for those seeking an initial teaching qualification in teaching English to adult speakers of other languages and for those who already possess a teaching qualification and wish to gain a specialist degree in the field.

Students study subjects that equip them with skills and knowledge to teach English in a variety of local and international contexts. The course has both a strong focus on practice through the supervised teaching practicums, and an emphasis on recent developments in the field of language education. The course features flexible study options, with various classes held at times suitable for students working standard full-time hours. Credit recognition may be available. The course is designed by a team of experienced TESOL professionals who are familiar with the full range of English language teaching contexts.

The course explicitly meets the needs of students and educators in the following contexts:

- working with migrants and Indigenous students across all levels of education
- teachers wishing to change discipline areas or add a specialism in Teaching English as an Additional Language
- teaching English outside Australia teaching English to international students preparing to study in Australia
- international students wishing to study TESOL with the possibility of extending into the master's program.

Areas of study

TESOL, applied linguistics, language teaching, education, literacy, language development, English teaching.

Course structure

Introduction to Language
TESOL: Methodology
TESOL Practicum
Language Development
Options (Applied Linguistics and TESOL)
TESOL Practicum 2: Teaching Intensive

Career opportunities

Career options include teacher of English as an additional language, adult literacy and numeracy/ foundation skills in Australia or overseas (applicants are advised to check with potential employing bodies regarding employment requirements).

Course code: C06116
CRICOS code: 088013A
Course duration: 1 year
Number of credit points: 48

Location: City
Fees: A\$15,890 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

Graduate Certificate in Applied Linguistics and TESOL

Course description

UTS is a world-leading provider of postgraduate applied linguistics and TESOL courses, with academics who are published authors and internationally recognised experts in the field. This course provides learners with the opportunity to gain knowledge over the professional domains of teaching English to speakers of other languages (TESOL) and applied linguistics through an initial TESOL teaching qualification.

This course is suitable for postgraduate students who wish to obtain an initial TESOL teaching qualification and advanced and integrated knowledge of language and literacy education, as well as its application in their areas of practice. The course has both a strong focus on practice through the supervised teaching practicums, and an emphasis on recent developments in the field of language education. Credit recognition may be available.

Areas of study

Teaching English to speakers of other languages (TESOL), applied linguistics, literacy, language development.

Course structure

Introduction to Language
TESOL: Methodology
TESOL Practicum
Language Development

Career opportunities

Career options include a teacher of English as an additional language in Australia or a teacher of English as an international language (EIL) in overseas contexts (applicants are advised to check with potential employing bodies regarding employment requirements).

Course code: C11254
CRICOS code: 088014M

Master of Education (Learning and Leadership)

Course description

This course is for educators and learning and development professionals wishing to enhance their practice and future career opportunities. It focuses on innovating, leading, learning and research - all crucial to contemporary professional practice. It uses cutting-edge practice-based approaches that offer a high level of customisation. Students from diverse work backgrounds benefit from interaction with peers from a range of industry contexts, while focusing their work on issues relevant to them and their practice. The course is specifically designed to bring the latest in technology-enhanced teaching to busy professionals, using a blended learning approach.

This course offers a high level of customisation. Students can tailor their course, learning outcomes and assessments to their own workplace practice and career development through the innovative Capability Wrap. The course builds on UTS's renowned learning, futures approach, specifically designed for busy professionals. The research-inspired teaching approach incorporates UTS: Education's strong international reputation for research in professional and workplace learning.

Address global challenges through interdisciplinary connections with international universities, researchers and industry partners.

Master of Engineering

Course description

This course provides an opportunity at master's level for recently graduated engineers and technical specialists to deepen the knowledge and skills gained in their first degree while expanding their managerial and professional engineering knowledge.

The course is designed to allow students to gain in-depth knowledge and skills in the particular major that they undertook as part of their undergraduate engineering studies. The subjects offered follow an integrated approach to professional practice through compulsory disciplinary and professional engineering subjects, compulsory subjects relevant to the chosen major, an independent engineering graduate project in at least one field of engineering, and a set of electives (any engineering or IT subjects, some with prior approval). Students also have the option of not electing a major.

This course allows students to choose a program of study that deepens the body of knowledge acquired in their first degree as well as expands knowledge boundaries into policy and engineering management areas. It also provides a unique opportunity to deepen their knowledge and gain practical skills by undertaking an independent engineering graduate project in a particular major. Students also have the option of not electing a major.

Majors

Biomedical engineering, civil engineering, computer control engineering, cyber security engineering, energy planning and policy, environmental engineering, geotechnical engineering, manufacturing engineering and management, operations engineering, robotics, software systems engineering, structural engineering, telecommunications engineering, water engineering, no specified major.

Course structure

Intake: March, July

Location: City

Fees: A\$19,760 per session (see page 148 for further fees information)

Academic and additional requirements: See page 144

English language requirements: See page 144

Career opportunities

Students who have a basic undergraduate engineering degree are able to enhance their ability and knowledge through master's-level courses in their respective majors, enabling them to gain and hold employment in their respective engineering fields.

Master of Engineering (Extension)

Course description

This course provides an opportunity at master's level for professionally qualified engineers to extend in depth and breadth the knowledge and skills gained from their engineering undergraduate studies. Each program is designed to enhance technological knowledge pertaining to one or more fields of engineering. Students can complete one major in engineering and also choose a sub-major in another field of engineering, information technology or another discipline. The completion of subjects and an independent graduate project in at least one field of engineering is central to this requirement.

The subjects offered in this course follow an integrated approach to professional practice through compulsory professional engineering subjects, compulsory subjects relevant to the chosen major and sub-major, an independent engineering graduate project in at least one field of engineering, and a set of electives (any engineering or IT subjects, some with prior approval).

This course allows students to choose a program of study that deepens the body of knowledge acquired in their first degree as well as expands knowledge boundaries into policy and engineering management areas. It also provides a unique opportunity to broaden knowledge in another discipline through a sub-major, giving an added advantage to students who seek career options in multidisciplinary areas.

Majors

Biomedical engineering, civil engineering, computer control engineering, cyber security engineering, energy planning and policy, environmental engineering, geotechnical engineering, manufacturing engineering and management, operations engineering, robotics, software systems engineering, structural engineering, telecommunications engineering, water engineering, no specified major.

The course structures outlined in this course guide are based on a March (Autumn) intake. The structure may vary for our July (Spring) intake. Students may be required to undertake elective subjects to complete their degree. Most subjects at UTS are valued at 6-8 credit points each.

Electives (Engineering)

Career opportunities

Students who have a basic undergraduate engineering degree are able to enhance their ability and knowledge through master's-level courses in their respective majors, enabling them to gain and hold employment in their respective engineering fields. This course allows students to be desirable for employers in organisations that seek multidisciplinary teams.

Graduate Certificate in Engineering

Course description

This course is designed to provide an opportunity for practising professional engineers or technologists to extend their engineering knowledge and to update their knowledge and skills in line with recent advances.

This course allows busy professional engineers to embark on postgraduate studies while working towards creating a work-life balance before making a commitment to start a master's degree. The subjects follow an integrated approach to professional practice through compulsory professional engineering subjects and compulsory subjects relevant to a particular major. Once completed, all the subjects in this course can be credited towards a master's for a specific major.

Majors

Biomedical engineering, civil engineering, computer control engineering, energy planning and policy, environmental engineering, geotechnical engineering, manufacturing engineering and management, operations engineering, robotics, software systems engineering, structural engineering, telecommunications engineering, water engineering, no specified stream.

Course code: C11236

CRICOS code: 081083K

Course duration: 0.5 years

Number of credit points: 24

Intake: March, July

Location: City

Fees: A\$19,760 per session (see page 148 for further fees information)

Career opportunities

Students who have a basic engineering undergraduate degree are able to enhance their ability and knowledge through this postgraduate course in their respective majors, enabling them to gain and hold employment in their respective engineering fields.

The course structures outlined in this course guide are based on a March (Autumn) intake. The structure may vary for our July (Spring) intake. Students may be required to undertake elective subjects to complete their degree. Most subjects at UTS are valued at 6-8 credit points each.

Refer to the online handbook for the most up-to-date information and for specific information on available electives and their credit-point value (handbook.uts.edu.au).

☉ Courses flagged with this icon include a work-based training component which must be undertaken as part of the course of study and refers to all clinical, professional and industrial or other work placements.

Master of Professional Engineering

Course description

This course provides an opportunity at master's level for recently graduated engineers who have completed either a three- or four-year Bachelor of Engineering or Technology. Students can enrol into the Master of Professional Engineering and continue in the field of specialisation. This course enables students to deepen knowledge and expertise in their field, and be ready to practise in engineering. Students can undertake a major and be recognised for this specialisation on their testamur.

The Master of Professional Engineering is designed to incorporate an integrated approach to professional engineering practice through using compulsory professional engineering subjects, compulsory subjects relevant to the major, an independent engineering graduate project component and compulsory engineering practice stream. This structure allows for efficiency and flexible delivery of courses and enables us to offer subjects in a sustainable manner across the disciplines.

Students who have completed a recognised Bachelor of Engineering that is accredited by Engineers Australia may consider applying for Master of Engineering (C04271).

This course allows students to choose a program of study that not only helps to deepen the body of knowledge acquired in their first degree, but also gives them an opportunity to be prepared to embark on a 12-week professional experience, or equivalent (as required by Engineers Australia). It also provides a unique opportunity to deepen their knowledge and gain practical skills by undertaking an independent engineering graduate project in a particular major.

Majors

Biomedical engineering, civil engineering, cyber security, mechanical engineering, robotics.

Professional recognition

The Master of Professional Engineering (Civil and Mechanical majors) is accredited by Engineers Australia at the Graduate Professional Engineer level, and is recognised internationally by signatories to the Washington Accord. The Biomedical and Cyber Security majors are provisionally accredited, pending full accreditation. UTS is currently seeking accreditation of the Robotics major.

Career opportunities

Students who have a basic undergraduate engineering degree are able to enhance their ability and knowledge through master's-level courses in their respective majors, enabling them to gain and hold employment in their respective engineering fields.

Master of Engineering Management

Course description

The Master of Engineering Management (MEM) is an opportunity for engineers, technical specialists and non-technical professionals to build and stretch their managerial skills and integrate their business and technical knowledge.

The duration of this course is one and a half years; however, applicants with a recognised bachelor's degree are eligible for recognition of prior learning of up to four subjects and are thus able to complete the course in one year on a full-time basis.

The MEM has been specifically designed to emphasise the interface between engineering, technology and management. The integration of carefully tailored coursework and an independent project delivers graduates who understand the professional, societal and environmental context and have developed a range of management and engineering capabilities to respond to it.

Areas of study

Engineering management.

Career opportunities

The MEM program provides an opportunity for those who aspire to excellence to challenge themselves at the master's level, deepen their skills and knowledge and gain a competitive edge in the industry.

Graduate Certificate in Engineering Management

Course description

This course is designed to provide management knowledge which can be tailored to fit students' needs. It is designed to provide practising engineers with extended knowledge beyond their first degree and to update knowledge and skills in recent advances in engineering, technology and business practice. The subjects offered follow an integrated approach to professional practice through a choice of professional engineering subjects and an elective.

Many working engineers and technologists do not have the time to commit to a master's course. However, the demand for management knowledge among engineers is increasing.

Master of Engineering Master of Engineering Management

Course description

This program allows students to complete the Master of Engineering (ME) and the Master of Engineering Management (MEM) in two years of full-time study. The subjects offered in this course follow an integrated approach to professional practice through compulsory professional engineering subjects, compulsory subjects relevant to the major (as part of Master of Engineering), an independent engineering graduate project in the major and a set of electives (any engineering or IT subject).

This course is for students who have a bachelor's qualification in engineering and who want to combine the Master of Engineering with a specific major with the Master of Engineering Management. This enables students to gain engineering-specific skills and engineering management skills in an accelerated way and complete two courses in two years rather than three years individually.

Majors

Biomedical engineering, civil engineering, computer control engineering, energy planning and policy, environmental engineering, geotechnical engineering, manufacturing engineering and management, robotics, software systems engineering, structural engineering, telecommunications engineering, water engineering, no specified major.

Master of Engineering Management Master of Business Administration

Course description

The Faculty of Engineering and Information Technology and the Faculty of Business have developed this master's degree that provides all the advantages of a generalist Master of Business Administration with a focused engineering management program. The subjects offered in this course follow an integrated approach to professional practice through compulsory engineering management/professional engineering subjects, compulsory subjects relevant to business administration and an independent engineering graduate project in engineering management.

This program allows students to complete the Master of Engineering Management and Master of Business Administration in two years of full-time study.

This unique course is for students who have a bachelor's in engineering and who want to combine a Master of Engineering Management with a Master of Business Administration.

Areas of study

Engineering management, business administration.

Career opportunities

This course is suitable for professional engineers who want to master skills in engineering management and business administration. It is suitable for practising engineers who want to take up challenging and leadership roles in their organisation or career.

Master of Environmental Engineering Management

Course description

This course is designed to enable engineers and other technical specialists to take a leadership role in the field of environmental engineering and management. The course deals with the broad aspects of environmental management relevant to practising professionals in engineering science, planning, architecture, law, surveying, health and building. Engineers, scientists, town planners and other professionals working in this field have a compelling duty to ensure that the adverse effects of development on the total environment are minimised.

The duration of this course is one and a half years; however, applicants with a recognised bachelor's degree in engineering or the natural and physical sciences are eligible for credit recognition of up to four subjects and are thus able to complete the course in one year on a full-time basis.

The course combines a set of key subjects that contain information on the nature of environmental problems together with engineering techniques for their solution. This is supplemented by management and policy subjects to empower the engineer, or technical specialist, to lead multidisciplinary teams working in the field of environmental engineering and management.

The subjects offered in this course follow an integrated approach to professional practice through compulsory professional engineering subjects, compulsory subjects relevant to environmental engineering management major, an independent graduate project and a set of electives (any engineering or IT subject, some with prior approval).

Areas of study

Environmental management, engineering management.

Graduate Certificate in Engineering Studies

Course description

This course qualifies individuals who apply a body of knowledge in a range of contexts to undertake professional work and provides a pathway for further learning in engineering. Students with a bachelor's degree in a non-cognate engineering field can apply to this course. All applications are assessed individually and the course structure is tailor-made based on the basic qualifications that students possess.

Candidates without a degree, but who have a TAFE diploma or equivalent in engineering and significant related work experience, may also apply for this course.

This course creates a pathway for students from a different engineering background to explore their potential to undertake postgraduate studies in engineering. Once students complete this course successfully, individual assessment is undertaken to articulate either 12, 18 or 24 credit points towards a master's course.

Areas of study

Engineering, engineering management.

UTS has continually received top rankings in teaching and research from industry and government. We're ranked 10th globally (1st in Australia) for Nursing and Midwifery*. We'll show you the way to the top.

* QS World University Rankings by Subject 2019

LEARN FROM EXPERTS

With their wealth of industry experience, many of our academics are also internationally renowned researchers contributing to future health care practice.

INDUSTRY CONNECTED AND RESPECTED

You'll benefit from our reputation as a preferred industry partner. Collaborate with diverse colleagues through workshops facilitated by recognised leaders in health.

RESEARCH INSPIRED

Connect with seven research centres, including WHO Collaborating Centre for Nursing, Midwifery and Health Development.

BE AT THE FOREFRONT OF PRACTICE

Gain an industry-relevant and research-inspired qualification with courses regularly updated to reflect current health care practices.

A PROGRAM THAT EQUALS CAREER SUCCESS

We've worked with industry partners to ensure you graduate with employable attributes ready to excel.

Master of Advanced Nursing

Course description

This course entails person-centred learning. Developed in conjunction with key industry stakeholders, the course provides a clear pathway for nurses to develop their careers and positively influence the provision of care.

Highly respected by employers and clinicians alike, this course develops nursing skills and knowledge that enable improvement in person-centred care and patient outcomes. This encompasses the areas of clinical, chronic and complex care (ageing and palliation), primary health care, education, management and research.

The course has been developed with a key stakeholder group which includes educators, clinical nurse consultants, nurse unit managers, directors of nursing and consumers. This ensures that graduate attributes are professionally relevant, and meet both current and future needs of employers and the community.

Students are able to customise their program by mixing and matching the seven majors, 11 sub-majors and over 40 elective choices in a variety of ways to achieve their individual goals, whether they be diversified or highly specialised. Course content is focused on innovative, evidence-based practice which enables students to lead improved nursing practice at all levels. The course has been rated as 'excellent' by final-year students in university satisfaction surveys between 2010 and 2013, due in large part to the engaging master class format that encourages feedback, debate and a scholarly community.

Career opportunities

Students develop nursing skills and knowledge that enable improvement in person-centred care and patient outcomes. This course develops a variety of career options depending on the major and sub-major chosen. Career options include leadership positions in advanced roles, for example clinical, chronic and complex care (ageing and palliation), primary health care, education, management, research, clinical nurse specialist or consultant, nursing management, complex case management, nursing education and aged care.

Graduate Diploma in Advanced Nursing

Course description

This course provides registered nurses with the knowledge and skills for a specialist role as an advanced nurse at a graduate diploma level. Students can tailor the diploma to their area of specialty or role. There is a large selection of elective subjects that encompass the areas of clinical, chronic and complex care (ageing and palliation); primary health care; education; management; and research.

This course is designed so that students can tailor their subject choices to meet their individual needs. The knowledge, skills and expertise gained enable students to enhance the quality of care for patients and their families. Students develop skills to actively contribute to the professional development of others and use evidence to make informed decisions about nursing practice. Highly respected by employers and clinicians alike, this course develops a variety of career options.

Master of Health Services Management

Course description

This is a comprehensive course in health services management and aims to expand students' knowledge and future career opportunities. The course develops students' knowledge and skills, leading to an enhanced capacity to manage health services in a diverse range of health settings.

Graduates of this course are exposed to academic and industry leaders who share their experience and knowledge to facilitate insight into the contemporary health service management environment.

Students can focus on health services management or complete a major in:

- Planning
- Clinical Leadership
- Project Management
- Health Research, or
- Health Law, Ethics and Governance.

The Planning major provides a blend of subjects to assist graduates in planning and evaluating health services, understanding health needs, and managing change in a dynamic and complex environment.

The Clinical Leadership major provides a blend of subjects to assist graduates in maximising the efficiency, effectiveness and safety of health services as well as ensuring that governance, quality and risk-mitigation frameworks contribute to excellence in healthcare delivery.

The Project Management major provides a blend of subjects to assist graduates in applying the knowledge, skills and techniques to execute projects effectively and efficiently within a healthcare environment.

The Health Research major provides a blend of health services management, research coursework and independent study subjects to assist graduates in undertaking health services research and those who wish to be considered for admission to a doctoral program.

The Health Law, Ethics and Governance major provides a blend of subjects to assist graduates in developing knowledge of health and contemporary business law, while developing advanced skills in dispute resolution and negotiation.

Course code: C04140
CRICOS code: 040694M
Course duration: 1.5 years
Number of credit points: 72
Intake: March, July
Location: City
Fees: A\$17,640 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

Areas of study

Health management, planning, clinical leadership, project management, health research, health law, ethics and governance.

Course structure

No major

Year 1

Organisational Management in Health Care
 Managing Quality, Risk and Cost in Health Care
 Using Health Care Data for Decision Making
 Foundations of the Australian Healthcare System
 Policy, Power and Politics in Health Care
 Epidemiology and Population Health
 Planning and Evaluating Health Services
 Select 6 credit points from the following:
 Electives (No specified major)

Year 2

Health Systems and Change
 Introductory Health Economics
 Select 6 credit points from the following:
 Electives (No specified major)
 Management for Clinicians

Planning major

Year 1

Using Health Care Data for Decision Making
 Planning and Evaluating Health Services
 Foundations of the Australian Healthcare System
 Managing Quality, Risk and Cost in Health Care
 Organisational Management in Health Care
 Advanced Health Services Planning
 Epidemiology and Population Health
 Select 6 credit points from the following:
 Electives (Planning)

Year 2

Policy, Power and Politics in Health Care
 Health Systems and Change
 Introductory Health Economics
 Select 6 credit points from the following:
 Electives (Planning)

Clinical Leadership major

Year 1

Organisational Management in Health Care
 Managing Quality, Risk and Cost in Health Care
 Foundations of the Australian Healthcare System
 Using Health Care Data for Decision Making
 Epidemiology and Population Health
 Planning and Evaluating Health Services
 Policy, Power and Politics in Health Care
 Select 6 credit points from the following:
 Electives (Clinical Leadership)

Year 2

Health Systems and Change
 Management for Clinicians
 Improving Quality and Safety in Health Care
 Select 6 credit points from the following:
 Electives (Clinical Leadership)

Project Management major

Year 1

Foundations of the Australian Healthcare System
 Using Health Care Data for Decision Making
 Managing Quality, Risk and Cost in Health Care
 Project Risk, Procurement and Quality Management
 Policy, Power and Politics in Health Care
 Project Time and Cost Management
 Select 6 credit points from the following:
 Electives (Project Management PG)
 Project Communication, HR and Stakeholders

Year 2

Epidemiology and Population Health
 Organisational Management in Health Care
 Scope and Integration Management
 Select 6 credit points from the following:
 Electives (Project Management PG)

Health Research major

Year 1

Foundations of the Australian Healthcare System
Using Health Care Data for Decision Making
Organisational Management in Health Care
Evidence-based Practice
Policy, Power and Politics in Health Care
Research in Health
Dissertation in Health Research 1

Year 2

Epidemiology and Population Health
Managing Quality, Risk and Cost in Health Care
Dissertation in Health Research 2

Health Law, Ethics and Governance major

Year 1

Foundations of the Australian Healthcare System
Using Health Care Data for Decision Making
Managing Quality, Risk and Cost in Health Care
Organisational Management in Health Care
Epidemiology and Population Health
Policy, Power and Politics in Health Care
Contemporary Business Law
Select 6 credit points from the following:
Electives (Law, Ethics and Governance)
Law and Medicine

Year 2

Dispute Resolution
Negotiation
Select 6 credit points from the following:
Electives (Law, Ethics and Governance)

Career opportunities

Career options include positions as managers and/or planners in health authorities, hospitals, primary and community care, aged care services, and other healthcare facilities in the public, private, not-for-profit, government and non-government health sectors.

Graduate Diploma in Health Services Management

Course description

This is an intermediate-level course in health services management and aims to expand students' knowledge and future career opportunities. The course develops students' knowledge and skills, which leads to an enhanced capacity to plan and manage health services.

Graduates of this course are exposed to academic and industry leaders who share their experience and knowledge to facilitate insight into the contemporary health service management environment.

Areas of study

Health management.

Master of Advanced Health Services Management

Course description

The Master of Advanced Health Services Management is an innovative course designed to inspire and cultivate a new generation of managers and leaders, equipped to meet the complex and shifting dynamics of health systems and services. The program is suitable for both aspiring and experienced health managers and planners who are looking to further their specialisation in one of two high-demand areas: health information management or health planning. With these majors students undertake the practice-oriented, academically rigorous professional education required of their specialisations, as well as a broader education in health services management and leadership. The program's content is based on innovative and authentic classroom challenges, simulations and teaching materials. Graduates emerge with specialist knowledge in the design, critical thinking and problem-solving skills required to thrive as managers and leaders.

Course code: C04246
CRICOS code: 071627K
Course duration: 2 years
Number of credit points: 96
Intake: March, July
Location: City
Fees: A\$17,640 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

The course is designed and taught in alignment with local and international industry requirements and demands. It is taught by internationally recognised educators and industry experts who share with students their research, practice knowledge and wisdom. This provides students with direct access to valuable insights and networks into the contemporary health service management environment.

Students can complete a major in health services planning or health information management.

- **Health services planning:** This major increases students' specialist planning knowledge and skills, which leads to an enhanced capacity to plan and manage health services in diverse health settings. It provides a blend of subjects to assist graduates to develop skills in planning and evaluating health services and understanding health needs, as well as managing people, resources, systems and processes within health services to meet the changing needs of communities, clinicians, governments and organisations.
- **Health information management:** This major provides a blend of subjects to assist graduates to employ a data-driven approach within the contemporary digitally evolving health environment. It prepares graduates to acquire and excel in positions such as health information managers, clinical coders, data analysts, costing experts or health informaticians.

Both majors capitalise on state-of-the-art learning spaces that enable students to experience a seamless integration of online and face-to-face on-campus learning. Subjects use a broad range of activities, including client briefs, case studies and simulations where students engage in real-world learning around common management tasks and challenges. Each subject includes several intensive study days on campus.

Educators in both programs are part of the UTS Centre for Health Services Management. The centre's team undertakes research into the delivery of health services, which in turn informs their teaching and knowledge of current industry demands. Students have opportunities to examine real-world health services challenges related to consumer engagement, digital health, demographics, health information management, leadership and management, quality and safety improvement, delivery of care to vulnerable groups, and workforce and service planning.

The UTS Faculty of Health has strong and collaborative relationships with a number of health and social care services, as well as with professional bodies and community groups. This course has close and ongoing relationships to industry bodies including the Australasian College of Health Services Management (ACHSM), Royal Australasian College of Medical Administrators (RACMA), Health Information Management Association of Australasia (HIMMA), Australian College of Nursing (ACN), Australian Commission on Safety and Quality in Health Care (ACSQHC), Clinical Excellence Commission (CEC), Health Education Training Institute (HETI) and numerous local health districts and services across Australia.

Areas of study

Health management, health services planning, health information management.

Course structure

Health Information Management major

Year 1

Foundations of the Australian Healthcare System
 Principles and Use of Medical Terminology
 Fundamentals of Health Information and Records Management
 Digital Health for Health Information Professionals
 Health Classification and Clinical Coding A
 Using Health Care Data for Decision Making
 Organisational Management in Health Care
 Health Information Management Principles and Practice

Year 2

Health Classification and Clinical Coding B
 Managing Quality, Risk and Cost in Health Care
 Project Management Principles
 Contemporary Approaches to Health Analytics
 Epidemiology and Population Health
 Research in Health
 Case Mix
 Internship

Planning major

Year 1

Foundations of the Australian Healthcare System
 Using Health Care Data for Decision Making
 Managing Quality, Risk and Cost in Health Care
 Organisational Management in Health Care
 Policy, Power and Politics in Health Care
 Epidemiology and Population Health
 Human Resource Management
 Evidence-based Practice

Year 2

Health Systems and Change
 Planning and Evaluating Health Services
 Introductory Health Economics
 Select 6 credit points from the following:
 Electives (Health Services Management and Planning)
 Project Management Principles
 Health Technology Assessment
 Advanced Health Services Planning
 Select 6 credit points from the following:
 Electives (Health Services Management and Planning)

Career opportunities

Career options include both specialist positions such as health information managers and health planning managers, and generalist positions where additional knowledge of planning or health information management provides a competitive advantage (e.g. clinical and practice managers, directors of nursing, nursing and midwifery unit managers, quality and safety positions). These roles can be held within aged care services, health authorities (departments or ministries), health insurance companies, hospitals, primary and/or community care, and other healthcare facilities in the public, private, not-for-profit, government and non-government health sectors.

Master of Public Health (Advanced)

Course description

Public health refers to organised efforts to prevent disease, promote health and reduce health inequalities in entire populations. A postgraduate public health degree is recognised worldwide as being invaluable for a career in public health. Covering a comprehensive range of subjects, the Master of Public Health (Advanced) develops students' specialist knowledge and skills so that they can contribute to excellence in public health as well as preparing students for leadership roles in public health.

This course offers flexibility, with a wide range of electives, providing the opportunity to specialise in a particular field of public health. UTS utilises a combination of face-to-face teaching, including block days, and online educational delivery. Academic staff are highly experienced clinicians and researchers, and recognised as leaders in their chosen fields of public health.

Areas of study

Health promotion, Indigenous health, disease prevention, surveillance and control, incident/disease investigation, social and economic development, health policy, research methodology, data analysis.

Course structure

Year 1

Foundations in Public Health
Social Perspectives of Public Health
Health Promotion
Epidemiology and Population Health
Non-communicable Disease
Introduction to Biostatistics
Evidence-based Practice

Graduate School of Health

Clinical Psychology | Genetic Counselling |
Good Manufacturing Practice |
Indigenous Health | Orthoptics | Pharmacy |
Physiotherapy | Speech Pathology

Join one of the fastest growing industries in Australia – healthcare. With a high rate of employment, our graduates are work-ready and driven to innovate the health sector.

GRADUATE CAREER READY

Through applied learning, you'll gain the practical experience you'll need as a health professional with hands-on clinical simulations and problem-based interprofessional training.

BENEFIT FROM EXTENSIVE CLINICAL PLACEMENTS

Placements are an integral part of our curriculum. Work in some of Sydney's largest teaching hospitals across a range of health settings or experience rural placements or private practice.

SMALL CLASS SIZES

Benefit from low student-to-teacher ratios and receive individual guidance during your health professional training.

LEARN FROM THE BEST

You'll learn from leaders in their fields who shape current and future clinical practice.

WORLD-CLASS FACILITIES

Study in our state-of-the-art and purpose-built facilities.

Course description

The Master of Pharmacy is an accredited two-year graduate-entry degree leading to eligibility for registration as a pharmacist. Innovative and practice-based in approach, the course builds on students' strong scientific foundation to provide specialist, comprehensive knowledge relevant to contemporary pharmacy practice. In addition to the pharmaceutical sciences, this includes professional pharmacy services, integrated therapeutics and the unique capstone subject, 96014 Molecule to Market, led by industry leader Adjunct Professor John Montgomery. Two elective subjects provide students with the opportunity to individualise their studies with their choice of any available postgraduate subject offered at UTS.

Developed by leading pharmacy academics and our expert educational designer, the course's subject matter is delivered in an integrated, student-focused manner, making use of cutting-edge technologies and strong links with the pharmacy profession. Expert guest lecturers and practitioner teachers are utilised throughout the course to ensure relevance and real-world application of content.

Students undertake clinical practice in a wide variety of settings sourced by UTS throughout the degree. This includes a guaranteed hospital pharmacy placement for eligible students. On-campus learning takes place in the Graduate School of Health's state-of-the-art education and research facility, which opened in 2015.

Note: This course includes a summer session and non-standard sessions.

Areas of study

Pharmaceutical sciences, clinical therapeutics, pharmacy practice, professional services.

Course structure

Year 1

Introduction to Pharmacy
Concepts in Pharmaceutical Sciences
Pharmaceutics
Professional Services 1
Clinical Practice 1
Professional Services 2
Integrated Therapeutics 1
Drug Disposition
Evidence-based Practice
Clinical Practice 2
Clinical Practice 3

Year 2

Professional Services 3
Integrated Therapeutics 2
Primary Health Care
Select 6 credit points of options
Clinical Practice 4
Professional Services 4
Integrated Therapeutics 3
Molecule to Market
Select 6 credit points of options

Career opportunities

Career options include: community pharmacy; professional pharmacy services; hospital pharmacy; drug research, design and development; professional roles in pharmaceutical industry; primary health care; consultancy; education; government and policy; the armed forces; and non-profit organisations.

Professional recognition

The Master of Pharmacy is fully accredited without conditions by the Australian Pharmacy Council and approved by the Pharmacy Board of Australia as a qualification leading to registration as a pharmacist in Australia.

Upon completion of the degree, graduates must complete a compulsory pre-registration training period and Intern Training Program in order to be eligible for registration.

International students

Upon graduation, international students intending to apply for provisional registration with the Pharmacy Board of Australia must meet the Pharmacy English Language Skills Registration Standard. For further information, refer to the following standards:

- Pharmacy English Language Skills Registration Standard
- Pharmacy Implementation of the English Language Skills Registration Standard.

The course structures outlined in this course guide are based on a March (Autumn) intake. The structure may vary for our July (Spring) intake. Students may be required to undertake elective subjects to complete their degree. Most subjects at UTS are valued at 6-8 credit points each.

Master of Pharmacy (International)

Course description

The Master of Pharmacy (International) is an accredited three-year graduate-entry degree leading to eligibility for registration as a pharmacist. The course is an Australian first, extending the Master of Pharmacy (C04252) program to include a one-year overseas clinical placement. This allows students to expand their knowledge even further, gaining practice-based experience of pharmacy in a global context and an understanding of the international factors that influence pharmacy practice and healthcare provision. Overseas clinical placements include those in Asia, Canada, Europe, South America or the USA. Language and culture subjects cater to both beginners and students with prior language knowledge. The course is innovative and practice-based in approach, building on students' strong scientific foundation to provide specialist, comprehensive knowledge relevant to contemporary pharmacy practice. In addition to the pharmaceutical sciences, this includes professional pharmacy services, integrated therapeutics and the unique capstone subject, 96014 Molecule to Market, led by industry leader Adjunct Professor John Montgomery. Two elective subjects provide students with the opportunity to individualise their studies with their choice of any available postgraduate subject offered at UTS.

Developed by leading pharmacy academics and our expert educational designer, the course's subject matter is delivered in an integrated, student-focused manner, making use of cutting-edge technologies and strong links with the pharmacy profession. Expert guest lecturers and practitioner teachers are utilised throughout the course to ensure relevance and real-world application of content.

In addition to the one-year international placement, students undertake clinical practice in a wide variety of settings sourced by UTS throughout the degree. This includes a guaranteed hospital pharmacy placement for eligible students. On-campus learning takes place in the Graduate School of Health's state-of-the-art education and research facility, which opened in 2015.

Note: This course includes a summer session and non-standard sessions.

Master of Genetic Counselling

Course description

The two-year, graduate entry coursework Master of Genetic Counselling is the entry-level qualification for work as a genetic counsellor. This program is developed and delivered by experienced genetic counsellors, supported by expert educational designers, broad consultation with the genetic counselling profession and a skilled Curriculum Advisory Committee.

The program is delivered in blended mode, utilising online, interactive teaching and learning activities coupled with a block of on-campus learning each session. Expert guest lecturers participate throughout the course, ensuring relevance and real-world application of coursework. On-campus learning takes place in the Graduate School of Health's education and research facility at UTS City campus.

Alongside the coursework, students participate in clinical placements, sourced by UTS, throughout the two-year program. Placements are offered in a variety of settings in Australia and may include the option of an approved international placement for interested students. Placements are supported by weekly reflective practice supervision. Students undertake research training to equip them with the skills to provide evidence-based care, talk with clients about research participation and findings and seek opportunities for higher degree research in the future.

Areas of study

Genetic counselling, genetics, genomics, counselling, professional practice, research.

Course structure

Year 1

Communication and Counselling
Medical Genetics and Genomics in Practice
Research Methods in Genetic Counselling
Clinical and Community Placement 1
Genetic Counselling
Research Project 1
Research Issues in Genetic Counselling
Genetic Counselling Clinical Placement 2

Year 2

Advanced Communication and Counselling
Application of Genetics and Genomics
Research Project 2
Genetic Counselling Clinical Placement 3
Advanced Genetic Counselling
Genetics and Genomics in Society
Advanced Professional Practice
Genetic Counselling Clinical Placement 4

Career opportunities

Genetic counsellors have specialist knowledge in human genetics and genomics, counselling and health communication. With rapid developments in genetics and genomics, there is likely to be a range of new opportunities for genetic counsellors in the coming years. Career options include clinical roles in public and private settings, research, education, policy, and laboratory and biotech company genetic counselling roles.

Course code: C04374
CRICOS code: 098052M
Course duration: 2 years
Number of credit points: 96
Intake: February
Location: City
Fees: A\$25,035 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

Professional recognition

A two-year Master of Genetic Counselling from a program accredited by the Human Genetics Society of Australasia (HGSA) is required in order to apply for Board Eligible status through the HGSA. Board Eligible candidates complete a portfolio of work in order to complete certification as a genetic counsellor and become a Fellow of the Human Genetics Society of Australasia (FHGSA).

The UTS Master of Genetic Counselling has received provisional accreditation by the HGSA.

Master of Physiotherapy

Course description

The Master of Physiotherapy is a two-year, graduate-entry degree leading to eligibility for registration as a physiotherapist in Australia. Innovative and practice-based in approach, the course's core areas of study include musculoskeletal, sport rehabilitation, neurological, orthopaedic and cardiorespiratory physiotherapy across the lifespan.

In addition to core areas of physiotherapy, students have the opportunity to learn about evidence-based and professional practice, interprofessional teamwork and leadership, and undertake a research project. Advanced subjects include treatment of complex patients, health promotion and community rehabilitation, telehealth and quality assurance. All students develop a professional portfolio designed to reflect professional competencies.

Developed by experienced physiotherapy academics, the course's subject matter is delivered in an integrated, student-focused manner, making use of cutting-edge technologies. This course has been developed in consultation with a working party of experienced physiotherapy clinicians in hospitals and private practice. The discipline has strong links with industry, such as Sydney FC, Tyromotion, Cronulla Sharks and Rugby Australia.

Over the two-year course students complete approximately 700–800 hours of clinical placement, sourced for them, addressing a variety of client groups across the lifespan. Clinical placements in hospitals and private practice are carefully selected to complement in-class learning and offer supervision by experienced physiotherapists. Students are allocated placements within the Sydney metropolitan area, with potential opportunities also available in rural and regional settings.

Areas of study

Physiotherapy, musculoskeletal, neurological, cardiorespiratory, acute care, rehabilitation, aged care, paediatrics, community health, professional practice, research.

Course code: C04306
CRICOS code: 091975B
Course duration: 2 years
Number of credit points: 96
Intake: February
Location: City
Fees: A\$27,630 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

Course structure

Year 1

Clinical Assessment and Treatment Planning
Professional Practice
Core Practice for Physiotherapists
Pain Neuroscience and Management
Sub-acute Rehabilitation
Outpatient Rehabilitation
Acute Physiotherapy Care
Clinical Placement 1

Year 2

Prevention and Rehabilitation in the Community
Specialist Practice
Clinical Placement 2
Research Project 1
Research Project 2
Transition to Practice
Clinical Placement 3
Clinical Placement 4

Professional recognition

The Master of Physiotherapy is fully accredited (with conditions) by the Australian Physiotherapy Council, and approved by the Australian Physiotherapy Board of Australia and the Australian Health Practitioner Regulation Agency (AHPRA) as a qualification leading to registration as a physiotherapist in Australia.

Career opportunities

Physiotherapists work in a variety of specialisations across public, private or community settings, sporting clubs and rehabilitation centres. The UTS Master of Physiotherapy prepares students for a rewarding career helping improve peoples' quality of life.

Master of Speech Pathology

Course description

The UTS Master of Speech Pathology is a two-year, graduate-entry course. Grounded firmly in the profession with an innovative and practice-based approach, the course enables students to actively participate in learning as they acquire the clinical and professional skills needed to enter the profession of speech pathology.

This postgraduate professional course prepares students with the knowledge, skills and confidence to work in speech pathology in the private and public sectors. Over the two-year course, students have the opportunity to use the latest digital technologies for health and education and learn about the business and professional aspects of speech pathology. They learn ways to prepare for changes to the workforce expected with the growth of the private practice sector, the National Disability Insurance Scheme, and the use of personal electronic health records. Through a variety of learning experiences, students are immersed in meaningful interprofessional coursework, clinical practice with children and adults, and clinical research.

Course code: C04386
CRICOS code: 098167M
Course duration: 2 years
Number of credit points: 96
Intake: February
Location: City
Fees: A\$26,560 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

Areas of study

Speech pathology, language, speech, swallowing, voice, stuttering, augmentative and alternative communication, multimodal communication, disability, disorders, research, children, adults, adolescents, health, disability, education, rights.

Course structure

Year 1

Evidence-based Practice in Speech Pathology
Fundamentals in Speech Pathology
Speech Sound Disorders in Children
Language Disorders in Children
Research Design in Speech Pathology
Augmentative and Alternative Communication
Swallowing Disorders
Speech Pathology Clinical Practice 1

Year 2

Literature Review in Speech Pathology
Stuttering
Acquired Communication Disability in Adults
Speech Pathology Clinical Practice 2
Voice Disorders
Integrated Practice in Speech Pathology
Speech Pathology Clinical Practice 3
Select 6 credit points from the following:
Research Project in Speech Pathology
Social Media in Speech Pathology

Professional recognition

The UTS Master of Speech Pathology has Qualifying Status with the Speech Pathology Australia. The program is currently undergoing accreditation with this association, with the expectation that once accreditation is granted, graduates will be eligible for full membership of Speech Pathology Australia.

Career opportunities

Speech pathologists work with children and adults with communication and swallowing disability in a range of settings including hospitals, health centres, schools and private practices. With the constant advancements in information and communication technologies and digital health solutions, along with growth in the private sector and clinical research, speech pathologists have a diverse range of career trajectories. The UTS Master of Speech Pathology prepares students for a rewarding career that empowers individuals and communities towards improved communication and swallowing, for participation and inclusion in all aspects of society.

Master of Orthoptics

Course description

The Master of Orthoptics provides the requisite in-depth knowledge, skills and experience to work as an orthoptist in the multidisciplinary eye healthcare sector. Innovative and practice-based in approach, it enables the development of specialist knowledge and skills while preparing students for changing practices in response to new evidence and rapidly emerging medical technologies. The Master of Orthoptics is the only course of its type in NSW and one of only two in Australia.

This course is delivered in a student-focused manner that integrates theoretical knowledge with professional practice, building on strong links with the orthoptic profession as well as other professional groups involved in eye and vision care and with industry. During the course, students undertake clinical placements at a variety of sites, including hospitals, private practices and rehabilitation settings. Students are required to take clinical placements in rural, regional or interstate areas of Australia including Indigenous populations, while there is also opportunity to undertake approved international placements. On-campus learning takes place in the Graduate School of Health's state-of-the-art facilities, which opened in 2015.

Students have the opportunity to enhance their leadership skills while learning from internationally recognised teachers and researchers, and from practitioners who are at the forefront of implementing new knowledge and technologies in clinical practice.

Areas of study

Orthoptics, ocular motility, binocular vision, ophthalmic neurology, eye health, ophthalmology, rehabilitation studies, evidence-based practice, research methodologies, scientific writing, journal article critique.

Course structure

Year 1

Eye and Visual Systems
Binocular Vision and Ocular Motility 1
Ocular Pathology 1
Introduction to Professional Practice
Clinical Management of Refractive Error
Binocular Vision and Ocular Motility 2
Ocular Pathology 2
Professional Practice 1

Year 2

Research Project 1
Neurological Ocular Disorders
Therapy, Management and Rehabilitation
Professional Practice 2
Research Project 2
Advanced Professional Practice
Professional Practice 3

Course code: C04299

CRICOS code: 084265B

Course duration: 2 years

Number of credit points: 96

Intake: February

Location: City

Fees: A\$20,145 per session (see page 148 for further fees information)

Academic and additional requirements: See page 144

English language requirements: See page 144

Career opportunities

Career options include orthoptist, employment with ophthalmic industry, scientific researcher.

Master of Good Manufacturing Practice

Course description

The Master of Good Manufacturing Practice provides up-to-date and in-depth good manufacturing practice (GMP) knowledge within the pharmaceutical, biotechnology and medical device industries. The course provides critical knowledge of legislation relating to the registration, manufacture, storage and supply of licenced therapeutic goods; GxP and quality systems compliance; and the concepts of quality management, risk management, quality assurance and quality control within this heavily regulated industry - all essential ingredients for career development.

This being the only course of its kind in the Asia-Pacific region, the UTS Pharmacy discipline has partnered with SeerPharma, the industry's leading provider of technical compliance and quality assurance knowledge, to deliver students a practice-based and research-led education.

Designed by leading experts in the field, the course provides professional development options and career pathways for students at all levels of industry organisations. It is ideal for students wishing to commence or enhance their pharmaceutical industry manufacturing career with an industry-recognised qualification.

Areas of study

Good manufacturing practice, manufacturing operations, validation principles, quality assurance, good laboratory practice, contamination control, good auditing practices, risk management, validation principles and practices, research methodologies.

Course code: C04301

CRICOS code: 084264C

Course duration: 2 years

Number of credit points: 96

Intake: February, July

Location: City

Fees: A\$16,535 per session (see page 148 for further fees information)

Academic and additional requirements: See page 144

English language requirements: See page 144

The course structures outlined in this course guide are based on a March (Autumn) intake. The structure may vary for our July (Spring) intake. Students may be required to undertake elective subjects to complete their degree. Most subjects at UTS are valued at 6-8 credit points each.

Refer to the online handbook for the most up-to-date information and for specific information on available electives and their credit-point value (handbook.uts.edu.au).

 Courses flagged with this icon include a work-based training component which must be undertaken as part of the course of study and refers to all clinical, professional and industrial or other work placements.

Course structure

Year 1

GMP for Manufacturing Operations
Validation Principles
International GMPs and Quality Assurance
Good (Quality Control) Laboratory Practices
Contamination Control
Good Aseptic Practices and Sterile Products
GxP and Quality Auditing Practices
Risk Management for Pharmaceutical Operations

Year 2

Process Development for Therapeutics: A Perspective for Finished Dose Forms
Clinical Trials Quality Assurance Management
Supply Chain Management
Industrial Research Project A
Computer Systems Validation Principles and Practices
Stability
Validation Practices
Industrial Research Project B

Career opportunities

Career options include:

- production, quality assurance, quality control, documentation, validation, supply chain and regulatory compliance in the pharmaceutical, biotechnology and medical device industry
- monitoring and quality assurance in clinical research organisations
- auditing in government regulatory agencies, consultancy in consulting firms and managers and practitioners in various other associated companies where good manufacturing practices are required.

Master of Clinical Psychology

Course description

The UTS Master of Clinical Psychology provides students with a practice-based and research-led education in clinical psychology, encompassing on-campus learning, on-campus and off-campus clinical placement, and research. The course is delivered in custom-built, state-of-the-art facilities including on-campus clinics.

The course offers training in professional practice as a clinical psychologist. Uniquely, all academic staff are also experienced, currently practicing clinical psychologists. Through expert supervision in the university clinic, as well as on placement in a local teaching hospital and community health centre settings, students develop strong clinical and research skills applicable to a wide range of clinical psychology areas of practice.

Areas of study

Core principles of psychotherapy, adult assessment, child and adolescent assessment, psychopathology, research methodologies, cognitive behaviour therapy, psychology, health and wellbeing.

Course code: C04300
CRICOS code: 084263D
Course duration: 2 years
Number of credit points: 96
Intake: February
Location: City
Fees: A\$20,555 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

Course structure

Year 1

Introduction to Clinical Practice Skills
Child and Adolescent Clinical Psychology
Adult Clinical Psychology 1
Assessment Across the Lifespan
Research Project 1
Clinical Placement 1
Adult Clinical Psychology 2
Clinical Health Psychology

Year 2

Clinical Placement 2
Clinical Placement 3
Advanced Clinical Skills 1
Research Project 2
Clinical Placement 4
Advanced Clinical Skills 2
Research Project 3

Professional recognition

The Master of Clinical Psychology provides the fifth and sixth year of study required to register as a psychologist in Australia. Graduates are eligible, following two years of supervised practice, for endorsement as a clinical psychologist with the Psychology Board of Australia (PsyBA) and full membership of the College of Clinical Psychologists of the Australian Psychological Society.

The UTS program has full accreditation by the Australian Psychology Accreditation Council (APAC) and is approved by the College of Clinical Psychologists of the Australian Psychological Society.

Career opportunities

Career options include work in hospitals, community health, specialist and private practice settings addressing, among others, adult mental health, child and family health, and drug and alcohol difficulties.

The course structures outlined in this course guide are based on a March (Autumn) intake. The structure may vary for our July (Spring) intake. Students may be required to undertake elective subjects to complete their degree. Most subjects at UTS are valued at 6-8 credit points each.

Refer to the online handbook for the most up-to-date information and for specific information on available electives and their credit-point value (handbook.uts.edu.au).

 Courses flagged with this icon include a work-based training component which must be undertaken as part of the course of study and refers to all clinical, professional and industrial or other work placements.

Graduate Diploma in Good Manufacturing Practice

Course description

The Graduate Diploma in Good Manufacturing Practice provides up-to-date and in-depth good manufacturing practice (GMP) knowledge within the pharmaceutical, biotechnology and medical device industries. It provides critical knowledge regarding regulations, compliance/GxP, product development and quality assurance within this heavily regulated industry, an essential ingredient for career development.

This being the only course of its kind in the Asia-Pacific region, the UTS: Pharmacy discipline has partnered with SeerPharma, the industry's leading provider of technical compliance and quality assurance knowledge, to deliver students a practice-based and research-led education.

Designed by leading experts in the field, the course provides professional development options and career pathways for students at all levels of industry organisations. It is ideal for students wishing to commence or enhance their pharmaceutical industry manufacturing career with an industry-recognised qualification.

Information Technology

Business Information Systems |
Cyber Security | Data Analytics |
Interactive Media | Internetworking |
Software Development

Rapid advances in IT are re-shaping the future of work. Stay connected with the latest technical knowledge and gain key leadership skills to get a competitive edge. Work with global experts in state-of-the-art facilities and revolutionise the future you.

FLEXIBLE WORK-LIFE BALANCE

We understand there's more to life than study. Schedule classes for day or night around your other life commitments.

BE AMONG THE BEST

We're ranked in the top 200 universities globally placing us in the top 1%. We're also the no. 1 young university in Australia.

PIONEERS IN RESEARCH

Our research centres are recognised as world leading by our partners and industry.

INNOVATION HUB

UTS is located in an innovation precinct surrounded by 40% of Australia's top startup firms.

INTERNATIONAL PERSPECTIVES

Address global challenges through interdisciplinary connections with international universities, researchers and industry partners.

Master of Information Technology (Extension)

Course description

This course is designed to enable students to achieve a comprehensive and greater understanding of information technology in specialised technical or management areas for the IT professional. The wide range of specialisations allows students to tailor the course to satisfy and to broaden their career development needs.

It is essential to keep IT knowledge and skills up to date. This course provides students with an enhanced understanding of the business context and technical developments shaping contemporary information and communications technology (ICT), and equips them to meet the challenges of working in the IT industry, as well as providing the opportunity to develop skills in alternative IT disciplines.

Majors

Business information systems, cyber security, data analytics, interactive media, internetworking, software development, no specified major.

Course structure

Master of Science in Internetworking (Extension)

Course description

This course is intended for graduates from any field who wish to learn or extend their knowledge of networking and networking technologies. As students come from a variety of backgrounds, there is a degree of subject choice in the program to meet individual needs.

The internetworking program provides students with a practical, hands-on learning experience using resources provided by Cisco Systems for internetworking, including routing, switching, security and wireless. Advanced electives in internetworking are available. The program covers all aspects of the organisational use of networks: design, implementation, security, management, end systems and applications.

This course prepares students with undergraduate qualifications that are not in the field of ICT, for entry to the workforce as an ICT networking professional. Students who do have ICT qualifications can extend their learning. Students can develop multiple skills across the internetworking field according to interest and elective choices; for example, switching and routing, systems and network management and analysis, network security, mobility and web development. Students have the option of preparing for Cisco CCNA and CCNP certifications within the program.

Course code: C04224
CRICOS code: 055279C
Course duration: 2 years
Number of credit points: 96
Intake: March, July
Location: City
Fees: A\$23,130 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

Master of Interaction Design (Extension)

Course description

Interaction design is concerned with designing interactive digital products, digital environments, systems, and services that can satisfactorily meet the needs and desires of the intended users. The Master of Interaction Design (Extension) prepares and equips students with up-to-date theoretical knowledge and requisite practical industry-standard skills in this rapidly advancing field.

While industry demand for skilled interaction designers and various other jobs, such as user experience (UX) designers, service designers etc., is increasing, there is a lack of formal education/training offered by universities in interaction design. This course is designed to provide students with the most current and requisite skills in this fast-evolving field. Graduates possess skills in industrially applicable and cost-effective information environments (i.e. multimedia, interactive systems design and associated information technology). The course provides industry with graduates who can combine these skills with those of their original discipline in professional applications-oriented settings.

The course is committed to producing graduates who have a deep understanding of human-centred approaches to designing digital technologies. This ensures that 'products' created are more likely to 'fit' meaningfully into users' lives, because the design process is informed by a deep understanding of people's practices, particular situations and values.

The Master of Interaction Design is attractive to different types of learners, namely:

- those who are currently working in a job that is not related to interaction design
- those working in jobs closely related to interaction design, and
- those already working in interaction design-related jobs.

Areas of study

Interaction design, graduate research, data analytics, games design, interaction programming, user experience, human-centred design methods, prototyping.

Course structure

Career opportunities

Graduates can gain employment in a range of technology design-related roles such as interaction designer, UX designer, UX researcher, service designer, or digital experience architect.

For those currently working in closely related jobs, such as web design, graphic design, interface design, etc., this course provides the necessary formal training in the discipline in order to make a more definitive move into jobs in interaction design. Similarly, many find themselves working within the field of interaction design without formal training, and this course provides a good foundation and opportunities to extend their interaction design skills more formally.

For those not working in a job related to interaction design, this course provides the opportunity to learn about the discipline and to transition into the various jobs under the interaction design umbrella.

Master of Interaction Design

Course description

Interaction design is concerned with designing interactive digital products, digital environments, systems, and services that can satisfactorily meet the needs and desires of the intended users. The Master of Interaction Design prepares and equips students with up-to-date theoretical knowledge and requisite practical industry-standard skills in this rapidly advancing field.

While industry demand for skilled interaction designers and various other jobs, such as user experience (UX) designers, service designers etc., is increasing, there is a lack of formal education/training offered by universities in interaction design. This course is designed to provide students with the most current and requisite skills in this fast-evolving field. Graduates possess skills in industrially applicable and cost-effective information environments (i.e. multimedia, interactive systems design and associated information technology). The course provides industry with graduates who can combine these skills with those of their original discipline in professional applications-oriented settings.

The course is committed to producing graduates who have a deep understanding of human-centred approaches to designing digital technologies. This ensures that 'products' created are more likely to 'fit' meaningfully into users' lives, because the design process is informed by a deep understanding of people's practices, particular situations and values.

This course is attractive to different types of learners, namely:

- those who are currently working in a job that is not related to interaction design
- those working in jobs closely related to interaction design, and
- those already working in interaction design-related jobs.

Areas of study

Interaction design, graduate research, data analytics, games design, interaction programming, user experience, prototyping, human-centred design methods.

Course code: C04222
CRICOS code: 096325G
Course duration: 1.5 years
Number of credit points: 72
Intake: March, July

Law

Intellectual Property | Juris Doctor |
Legal Studies | Master of Laws | Migration
Law and Practice | Overseas Qualified
Lawyer Programs | Practical Legal Training

Graduate ready to practise in Australia in 3.5 years (full-time). We're the only Sydney-based university offering an integrated Juris Doctor and Practical Legal Training program. Our Juris Doctor is a pathway for worldwide legal practice.

WORK READY AND WELL ROUNDED

Our courses prepare you for the real world. You will be trained to become a self-motivated legal professional through building your skills in critical evaluation, collaboration and effective communication.

REAL EXPERIENCE BEFORE YOU'RE IN THE REAL WORLD

There's no shortage of experiential learning to challenge you here. Pursue internships, fieldwork placements, leadership programs, international study, mooting, and mentoring opportunities.

BECOME AN AUSTRALIAN MIGRATION LAW EXPERT

Study our Graduate Diploma in Migration Law and Practice online*.

ENHANCE YOUR LEGAL CAREER

Our Master of Laws offers three specialisations: Corporate and Commercial Law, Dispute Resolution and Intellectual Property.

QUALIFY AS AN AUS/NZ PATENT/TRADE MARK ATTORNEY

Study by distance through our fully online Intellectual Property program*.

* You cannot obtain a student visa to study this program in Australia as it's offered by distance only.

Juris Doctor

Course description

The Juris Doctor (JD) is a graduate law degree that builds on the established reputation of UTS: Law to provide high-calibre, graduate-level education in the theory and practice of the law. It is specifically designed for graduates of disciplines other than law. The Juris Doctor qualifies as an Australian Qualifications Framework level 9 master's degree. The flexible nature of the JD allows students to work while they study and to tailor their workload to suit professional and personal commitments.

The JD offers an alternative pathway to practise as a lawyer for graduates who have successfully completed a first degree. In a globalised environment, the JD is internationally recognised as a graduate-level law qualification. UTS: Law integrates flexible learning options, including day and night classes, block intensive classes and online learning.

Areas of study

Commercial law, corporate law, criminal law, contracts, dispute resolution, employment law, environmental law, family law, finance and banking law, health and medical law, human rights, industrial law, intellectual property, international law, legal theory, torts, Indigenous, justice studies, PG electives.

Course structure

Corporate Governance
Crime, Victims and Criminal Justice
Select 30 credit points from the following:
Options (JD)

Professional recognition

This course satisfies the requirements for admission as a lawyer to the Supreme Court of NSW, provided students undertake a PLT program, such as the Graduate Certificate in Professional Legal Practice (C11232).

Career opportunities

Career options include, but are not limited to, lawyer within a private firm, government department or community law centre, regulatory affairs and policy adviser in the public or private sector or legal specialisation related to students' previous degree or enhanced career options within an existing professional sphere.

Juris Doctor Master of Business Administration

Course description

The Juris Doctor Master of Business Administration is a graduate law and business degree that builds on the established reputations of UTS: Law and the UTS Business School to provide high-calibre, graduate-level education in the theory and practice of the law and business. It is specifically designed for graduates of disciplines other than law.

This course provides students with an integrated exposure to professional practice in both legal and business contexts.

Areas of study

Commercial law, corporate law, criminal law, contracts, dispute resolution, employment law, environmental law, family law, finance and banking law, health and medical law, human rights, industrial law, intellectual property, international law, legal theory, torts, indigenous, justice studies, business management, marketing, finance, economics, accounting, business law, business administration.

Juris Doctor Graduate Certificate in Professional Legal Practice

Course description

New in 2017, UTS is the only university in Sydney to offer an integrated law and PLT program that can be completed in the equivalent of three years of full-time study, including some summer study. The Juris Doctor Graduate Certificate in Professional Legal Practice is a graduate law degree that combines both the academic and practical legal training components for admission as a lawyer to the Supreme Court of NSW. It is specifically designed for graduates of disciplines other than law. The course qualifies as an Australian Qualifications Framework level 9 master's degree. The flexible nature of the course allows students to work while they study and to tailor their workload to suit professional and personal commitments.

The course offers an alternative pathway to practise as a lawyer for graduates who have successfully completed a first degree. In a globalised environment, the course is internationally recognised as a graduate-level law qualification. UTS: Law integrates flexible learning options, including day and night classes, block intensive classes, online learning and authentic assessments.

Note: This course includes a Summer session.

Areas of study

Commercial law, corporate law, criminal law, contracts, dispute resolution, employment law, environmental law, family law, finance and banking law, health and medical law, human rights, industrial law, intellectual property, international law, legal theory, torts, indigenous, justice studies, practical legal training.

This course is accredited by the Legal Profession Admission Board (LPAB) of the Supreme Court of NSW. The course satisfies both the academic and practical legal training requirements for admission as a lawyer to the Supreme Court of NSW.

Career opportunities

Career options include, but are not limited to, lawyer within a private firm, corporation, government department or community law centre, regulatory affairs and policy adviser in the public or private sector or legal specialisation related to students' previous degree or enhanced career options within an existing professional sphere.

Master of Laws

Course description

The UTS Master of Laws (LLM) caters to the changing demands of the legal profession. Providing the opportunity for law graduates to specialise in particular areas that are relevant to their area of legal practice, the UTS LLM is vocationally relevant and intellectually rewarding.

Successful interaction between the legal profession and UTS: Law guarantees a close match between a first-class education and a marketable postgraduate legal qualification. Classes are taught by a mix of practising professionals, full-time academic staff and international visiting academics, and opportunities for cross-institutional study, both inside and outside Australia, are encouraged.

Master of Legal Studies

Course description

The UTS: Law Legal Studies program meets the growing market need for non-law graduates working in the public and private sectors to have a thorough understanding of the legal and regulatory framework in which they operate. This includes an understanding of foundational legal concepts such as contract law and tort law, methods of legal research and theory, as well as the opportunity to develop expertise in specialist legal areas such as compliance and intellectual property law.

The Master of Legal Studies attracts students from a wide variety of backgrounds interested in expanding their skills to include an understanding of the legal framework, including professionals from the insurance, human resources, banking and finance industries, managers and administrators, and HSC legal studies teachers.

Areas of study

Foundations of law, contracts, torts, principles of company law, criminal law and procedure, real property, Australian constitutional law, administrative law, civil practice, commercial law, ethics law and justice, remedies.

Course structure

Year 1

Foundations of Law

Master of Intellectual Property

Course description

UTS has established expertise in and a reputation for providing courses relevant to the needs of the patent and trade mark professions. The UTS Master of Intellectual Property is the first course at an Australian university that fulfils the entire educational requirements for registration as a registered Trans-Tasman patent attorney in Australia and New Zealand under the Trans-Tasman IP Attorneys Board, as well as registration as an Australian trade marks attorney.

The unique feature of this course is that it may be undertaken entirely online, removing the need for students to attend face-to-face classes.

Areas of study

Intellectual property, trade marks law, patent law, copyright, drafting and registering patents.

Course code: C04251
CRICOS code: Not applicable
Course duration: 1.5 years
Number of credit points: 48
Intake: March, July, November

 Research Paper
 Trade Marks Law
 Trade Marks Practice

Professional recognition

The educational requirements for registration as a patent attorney and trade marks attorney in Australia and New Zealand with the Trans-Tasman IP Attorneys Board for Patent and Trade Marks Attorneys can be fulfilled by completing all eight accredited subjects in this course.

Prospective students should check with the Trans-Tasman IP Attorneys Board for specific subjects required to be completed for registration.

Career opportunities

Depending on the subjects taken, graduates may seek registration as a trade mark attorney and/or Trans-Tasman patent attorney in Australia and New Zealand. Arts administrators or media professionals may enhance career options through building expertise in the commercialisation or management of intellectual property assets. Other career options include patent and trade marks attorney, IP lawyer, IP portfolio manager, policy maker and government regulator.

Graduate Diploma in Intellectual Property

Course description

UTS has established expertise and a reputation for providing courses relevant to the needs of the patent and trade mark professions. The UTS Intellectual Property program is the first at an Australian university that fulfils the entire educational requirements for registration as a registered Trans-Tasman patent attorney in Australia and New Zealand under the Trans-Tasman IP Attorneys Board, as well as registration as an Australian trade marks attorney.

The unique feature of this course is that it may be undertaken entirely online, removing the need for students to attend face-to-face classes.

Areas of study

Intellectual property, trade marks law, patent law, copyright, drafting and registering patents.

Course code: C06099

CRICOS code: Not applicable

Course duration: 1 year

Number of credit points: 36

Intake: March, July, November

Location: distance

Fees: A\$22,675 per session (see page 148 for further fees information)

Academic and additional requirements: See page 144

English language requirements: See page 144

Course structure

Select 36 credit points of options:

Copyright Law
 Designs Law and Practice
 Drafting of Patent Specifications
 Global Aspects of Intellectual Property Law
 History and Theory of Intellectual Property
 Intellectual Property Commercialisation
 Intellectual Property and Human Rights
 Intellectual Property and Traditional Knowledge
 Interpretation and Validity of Patent Specifications
 Patent Law
 Patent Systems
 Preparing for Intellectual Property Practice
 Research Paper
 Trade Marks Law
 Trade Marks Practice

Professional recognition

Subject to final board approval, where applicants have a requisite tertiary qualification as stipulated by the Trans-Tasman IP Attorneys Board for Patent and Trade Marks Attorneys, this course provides accredited subjects which satisfy the educational requirements necessary for registration as a Trade Marks Attorney or which lead to completing the educational requirements necessary for registration as a Patent Attorney in Australia and New Zealand.

Prospective students should check with the Trans-Tasman IP Attorneys Board for specific subjects required to be completed for registration.

Career opportunities

Depending on the subjects taken, graduates may seek registration as a trade mark attorney in Australia and may fulfil most of the educational requirements for registration as a Trans-Tasman patent attorney in Australia and New Zealand. Arts administrators or media professionals may enhance career options through building expertise in the commercialisation or management of intellectual property assets. Other career options include: IP lawyer, IP portfolio manager, policy maker and government regulator.

This course enables overseas registered attorneys to undertake the necessary subjects that the Trans-Tasman IP Attorneys Board requires for Australian or New Zealand registration.

The course structures outlined in this course guide are based on a March (Autumn) intake. The structure may vary for our July (Spring) intake. Students may be required to undertake elective subjects to complete their degree. Most subjects at UTS are valued at 6-8 credit points each.

Refer to the online handbook for the most up-to-date information and for specific information on available electives and their credit-point value (handbook.uts.edu.au).

☉ Courses flagged with this icon include a work-based training component which must be undertaken as part of the course of study and refers to all clinical, professional and industrial or other work placements.

Graduate Certificate in Intellectual Property

Course description

Graduate Diploma in Migration Law and Practice

Course description

This course allows students to develop expertise in migration law and practice. The course offers students an integrated program with a focus on applied knowledge and practical skills.

This course is undertaken entirely online, removing the need for students to attend face-to-face classes. All lectures, tutorials, course materials and assessments are distributed by a combination of web-based technology and electronic media. Optional on-campus workshops for each subject and an internship opportunity are also offered. Some course materials are available on YouTube. Audio recordings and/or PowerPoint slides can be made available for the weekly lectures and workshops to accommodate students based outside of Australia who undertake this course in countries where YouTube access is restricted.

On completion of this course, students intending to work in the area of migration practice have the required knowledge and skills to provide immigration assistance, and are eligible to sit a capstone exam approved and facilitated externally by the Office of Migration Agents Registration Authority to satisfy the prescribed knowledge requirements for registration as an Australian migration agent.

Course code: C06122

CRICOS code: Not applicable

Course duration: 1 year

Number of credit points: 36

Intake: March, July, November

Location: Distance

Fees: A\$20,955 per session (see page 148 for further fees information)

Academic and additional requirements: See page 144

English language requirements: See page 144

Areas of study

Migration law and practice.

Course structure

Introduction to Migration Law
Australia's Visa System
Bridging Visas, Work Visas and Study Visas
Family Visas, Refugee and Humanitarian Visas, and Miscellaneous Visas
Compliance and Review of Visa Decisions
Migration Law in Practice

Professional recognition

The prescribed knowledge requirements for registration as a migration agent with the Office of the Migration Agents Registration Authority in Australia can be fulfilled by completing all accredited subjects in this course and passing an external capstone exam approved and facilitated externally by the Office of Migration Agents Registration Authority (OMARA).

Career opportunities

Career options include registration as a migration agent and specialist work in the migration advice and policy industry, provided non-lawyer graduates also pass a capstone exam approved and facilitated externally by Office of Migration Agents Registration Authority, and fulfil all other prescribed requirements for registration.

Research degrees

Course code	Course name	Sessions	Fees per session	Intake	Location	CRICOS code
Doctorate

Science

Biomedical Engineering | Forensic Science |
Marine Science and Management |
Mathematical and Statistical Modelling |
Mathematics | Medical Biotechnology |
Quantitative Finance | Science

We offer world-class facilities, a dynamic approach to learning and a research culture that's second-to-none. A postgraduate degree with UTS Science could be the launching pad for the next stage of your career.

FACILITIES TO HELP YOU GET AHEAD

Access world-class teaching, learning and specialist laboratories, such as proteomics, forensic and analytical chemistry, and environmental sciences.

RESEARCH THAT SHAPES THE WORLD – AND YOU

Learn from academics who are engaged in active research with leading industry organisations. Everything you learn will be informed by the latest research findings from around the world.

COMBINE SCIENTIFIC AND PROFESSIONAL SKILLS

Our courses combine discipline-specific studies with professional attributes like proposal writing, communication, ethics, and leadership skills.

A FLEXIBLE APPROACH

Our blended approach combines online and face-to-face learning with evening class options for compulsory subjects.

NETWORK WITH INDUSTRY LEADERS

Our strong relationships with leading public and private scientific organisations can help shape your career.

Master of Science

Course description

The Master of Science is for two distinct groups of students, namely the professional scientists wishing to update their industry-related skills for career advancement and students considering a research degree.

The course contains a compulsory core of professional subjects relevant to all science disciplines. The subjects in the core provide a backbone of skills important to a professional scientist; be they engaged in research, science businesses, industries or government organisations. These are the skills of communication, critical analysis, project management and innovation and commercialisation. The professional strand is complemented by a choice of major study in a specific science or mathematics discipline. Students may have the option of undertaking a small research project, subject to approval by the faculty. For students with suitable achievement levels, an opportunity to undertake a more substantial research project is available by transferring into the Master of Science (Honours) (C04267). For those considering a research degree, the Master of Science (Honours) provides a pathway to a PhD.

The No specified major option is suitable for students seeking scientific qualifications as entry into the field or wish to gain new specialised skills in a range of theoretical and practical applications to advance their area of expertise.

Students in the Marine Science and Management major are exposed to multi-disciplinary and cross-institutional coursework, with a capstone project taught at the Sydney Institute of Marine Science (SIMS) and multiple lecture series and practical components using real-life data from the Australian Integrated Marine Observatory System.

Majors

Biomedical engineering, marine science and management, mathematical and statistical modelling, and no specified major.

Course structure

Mathematical and Statistical Modelling major

Year 1

Linear Algebra
Innovation, Entrepreneurship and Commercialisation

Select 12 credit points from the following:

- Elective
- Advanced Calculus
- Simulation Modelling
- Quantitative Management Practice
- Design and Analysis of Experiments
- Programming for Data Analysis

Advanced Communication Skills in Science

Project Management in Science

Select 12 credit points from the following:

- Sample Surveys
- Differential Equations
- Mathematical Methods
- Nonlinear Methods in Quantitative Management
- Network and Combinatorial Optimisation
- Advanced Statistical Modelling
- Stochastic Processes
- Mathematical Research Project A

Year 2

Select 24 credit points from the following:

- Advanced Calculus
- Simulation Modelling
- Quantitative Management Practice
- Design and Analysis of Experiments
- Programming for Data Analysis
- Mathematical Research Project B
- Mathematical Research Project

Marine Science and Management major

Year 1

Advanced Communication Skills in Science
Innovation, Entrepreneurship and Commercialisation

External Marine Study 1
Topics in Australian Marine Science

Understanding Data and Statistical Design
Project Management in Science
Climate Change and Ecological Modelling

Select 6 credit points from the following:

- Marine Productivity and Climate Change
- Marine Communities
- Coral Reef Ecosystems

Year 2

External Marine Study 2
Monitoring Ecological Variability
Select 12 credit points from the following:

- Fisheries Resources
- Environment Research Project A

Course code: C04241
CRICOS code: 071909M
Course duration: 1.5 years
Number of credit points: 72
Intake: March, July
Location: City
Fees: A\$20,145 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

The course structures outlined in this course guide are based on a March (Autumn) intake. The structure may vary for our July (Spring) intake. Students may be required to undertake elective subjects to complete their degree. Most subjects at UTS are valued at 6-8 credit points each.

Refer to the online handbook for the most up-to-date information and for specific information on available electives and their credit-point value (handbook.uts.edu.au).

Biomedical Engineering major, Physical Science stream

Year 1

Physiological Bases of Human Movement
Advanced Communication Skills in Science
Programming Fundamentals
Innovation, Entrepreneurship and Commercialisation
Project Management in Science
Biomedical Instrumentation
Human Pathophysiology
Select 6 credit points from the following:
Bionanotechnology
Medical Devices and Diagnostics
Medical and Applied Physiology

Year 2

Select 24 credit points from the following:
Biomedical Engineering Project A
Medical Imaging
Molecular Nanotechnology
Nanomaterials
Neural Networks and Fuzzy Logic
Physiological Systems
Biomedical Polymers
Tissue Engineering Scaffolds

Biomedical Engineering major, Biomedical Sciences stream

Year 1

Advanced Communication Skills in Science
Understanding Data and Statistical Design
Innovation, Entrepreneurship and Commercialisation
Applied Electronics and Interfacing
Biomedical Instrumentation
Human Pathophysiology
Project Management in Science
Select 6 credit points from the following:
Bionanotechnology
Medical Devices and Diagnostics
Medical and Applied Physiology

Year 2

Select 24 credit points from the following:
Biomedical Engineering Project A
Medical Imaging
Molecular Nanotechnology
Nanomaterials
Neural Networks and Fuzzy Logic
Physiological Systems
Programming Fundamentals
Biomedical Polymers
Tissue Engineering Scaffolds

Career opportunities

Career options vary according to the major chosen, but all graduates have training in the professional attributes that employers seek. The skills learnt expand career horizons and enhance prospects for promotion in the rapidly evolving science professions. Graduates in all majors may also proceed to a career in research by transferring into the Master of Science (Honours) (C04267) as a pathway to a PhD.

- Graduates of the **Biomedical Engineering major** will be well prepared for careers in medical device and biotechnology companies, government policy and regulation, hospitals, and research organisations where the ability to combine biology and engineering knowledge and skills is required.
- Graduates of the **Marine Science and Management major** can pursue careers worldwide in private and public agencies, or as private consultants in fields such as policy and conservation, fisheries, environmental sustainability and management, impact assessment, tourism, and education.
- Graduates of the **Mathematical and Statistical Modelling major** may expect to apply their logistic, statistical and modelling skills in careers in a wide range of diverse organisations and industries, including banking and finance, health, information technology, and market research.

Master of Science (Extension)

Course description

The Master of Science (Extension) aims to renew and broaden students' scientific and industry experience with managerial and business acumen. It provides students with numerous opportunities by value-adding to their existing specialisations and bringing them up to speed on knowledge and technologies, or by expanding into different majors of interest to acquire professional and management skills.

The course contains a compulsory core of professional subjects relevant to all science disciplines. The subjects in the core provide a backbone of skills important to a professional scientist; be they engaged in research, science businesses, industries or government organisations. These are the skills of communication, critical analysis, project management and innovation and commercialisation. The professional strand is complemented by a choice of major study in a specific science or mathematics discipline. Students may have the option of undertaking a small research project, subject to approval by the faculty. For students with suitable achievement levels, an opportunity to undertake a more substantial research project is available by transferring into the Master of Science (Honours) (C04267). For those considering a research degree, the Master of Science (Honours) provides a pathway to a PhD. The final session of electives allows students to complement their existing skill set using tailored subjects from related disciplines across health, engineering and business.

Majors

Biomedical engineering, marine science and management, mathematical and statistical modelling, no specified major.

Graduate Certificate in Science

Course description

The Graduate Certificate in Science is suitable for those seeking a scientific qualification to assist them to gain entry into science as well as for those who are already employed but wish to gain new specialised skills to advance their area of expertise.

The course enhances career prospects by providing opportunities to extend knowledge beyond a first degree. It provide the opportunity to extend or renew scientific knowledge and professional skills which are important to career advancement.

Areas of study

Advanced communication skills in science, the scientific method, project management, innovation, entrepreneurship, commercialisation.

Course code: C11216
CRICOS code: 071910G
Course duration: 0.5 years

The skills learnt expand career horizons and enhance prospects for promotion in the rapidly evolving science professions. Graduates may also proceed to a career in research by transferring into the Master of Philosophy in Medical Biotechnology (C04389) as a pathway to a PhD.

Graduates of this course are well prepared for careers in medical device and biotechnology companies, government policy and regulation, hospitals, and research organisations where the ability to combine biology and biotechnology to solve medical problems is required.

Master of Philosophy in Medical Biotechnology

Course description

The Master of Philosophy in Medical Biotechnology provides students with a unique opportunity to undertake original research and gain in-depth knowledge in their particular scientific field. Students have access to staff that are leading researchers and experts in their field. Undertaking this course allows students to explore their research potential and develop research skills. This course is designed to provide a scholarship pathway to the PhD program.

The course contains a compulsory core of professional subjects relevant to all science disciplines. The subjects in the core provide a backbone of skills important to a professional scientist; be they engaged in research, science businesses, industries or government organisations. These are the skills of communication, critical analysis, project management and innovation and commercialisation. The professional stream has options for specialised professional skills development and is complemented by medical biotechnology study.

The second half of the course comprises a substantial research component, giving students an opportunity to undertake original, cutting-edge research. For students with suitable achievement levels, this provides a direct pathway to a PhD, and carries points that can be used in the scholarship application process.

Note: this course is not offered by direct entry. Admission is via Internal Course Transfer with faculty approval.

Graduate Diploma in Medical Biotechnology

Course description

The Graduate Diploma in Medical Biotechnology is designed for two distinct groups of students, namely the professional scientists wishing to update their industry-related skills for career advancement and students considering a research degree.

The course contains a compulsory core of professional subjects relevant to all science disciplines, such as project management, innovation, entrepreneurship and commercialisation. These core subjects provide a solid foundation to skills required and are important to a professional scientist; be they engaged in research, science businesses, industries or government organisations.

Areas of study

Advanced communication skills in science, the scientific method, project management, innovation, entrepreneurship, and commercialisation.

Course structure

Advanced Microscopy and Imaging
Experimental and Diagnostic Flow Cytometry
Select 8 credit points from the following:
Leadership in Science
Innovation, Entrepreneurship and Commercialisation
Ethics in Human Research
Ethics in Animal Research
Laboratory Management
Risk Assessment and Management for Science
Research Proposal Writing
Work Health and Safety for Science
Professional Science Writing
Advanced Communication Skills in Science
Science Business Models and Intellectual Property
Understanding Data and Statistical Design
Proteomics
Biotechnology Solutions to Infectious Diseases
Select 2 credit points from the following:
Ethics in Human Research
Ethics in Animal Research
Risk Assessment and Management for Science
Research Proposal Writing
Professional Science Writing

Course code: C07136

CRICOS code: 098058E

Course duration: 1 year

Number of credit points: 48

Intake: March, July

Location: City

Fees: A\$20,145 per session (see page 148 for further fees information)

Academic and additional requirements: See page 144

English language requirements: See page 144

Career opportunities

The course provides a backbone of skills important to a professional scientist; be they engaged in research, science business, industries or government organisations. Graduates can pursue careers with private and public agencies, such as medical and health sustainability.

The course structures outlined in this course guide are based on a March (Autumn) intake. The structure may vary for our July (Spring) intake. Students may be required to undertake elective subjects to complete their degree. Most subjects at UTS are valued at 6-8 credit points each.

Refer to the online handbook for the most up-to-date information and for specific information on available electives and their credit-point value (handbook.uts.edu.au).

☉ Courses flagged with this icon include a work-based training component which must be undertaken as part of the course of study and refers to all clinical, professional and industrial or other work placements.

Graduate Certificate in Medical Biotechnology

Course description

The Graduate Certificate in Medical Biotechnology is suitable for those seeking a scientific qualification to assist them to gain entry into science as well as for those who are already employed but wish to gain new specialised skills to advance their area of expertise.

The course enhances career prospects by providing opportunities to extend knowledge beyond a first degree. It provides the opportunity to extend or renew scientific knowledge and professional skills which are important to career advancement.

Areas of study

Advanced communication skills in science, the scientific method, project management, innovation, entrepreneurship, commercialisation.

Course structure

Discipline electives (Science PG)
Professional elective(s) (Science PG)

Career opportunities

The course provides a backbone of skills important to a professional scientist; be they engaged in research, science business, industries or government organisations.

Course code: C11285
CRICOS code: 098059D
Course duration: 0.5 years
Number of credit points: 24
Intake: March, July
Location: City
Fees: A\$20,145 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

Master of Forensic Science

Course description

The Master of Forensic Science prepares students for professional and specialist work in the discipline of forensic science and is designed for professional scientists wishing to update their industry-related skills for career advancement and students considering a research degree.

This course is designed to expand students' knowledge and practice of forensic science alongside developing science management and leadership skills. The course contains compulsory core and elective practice-focused forensic science subjects across a range of disciplines from the crime scene to the laboratory. Professional subjects covering a range of skills crucial to all professional scientists – such as project and laboratory management, advanced scientific communication, ethics, innovation and science business models – complete the course. Students also have the option of undertaking a short research internship, subject to approval by the faculty. For students with suitable achievement levels, an opportunity to undertake a more substantial research project is available by transferring into the Master of Philosophy in Forensic Science (C04393). For those considering a research degree, the Master of Philosophy provides a pathway to a PhD.

Areas of study

Forensic science processes, forensic inference and interpretation, chemical criminalistics, human identification (fingerprints, DNA profiling, biometrics), forensic toxicology, recreational drugs, crime scene investigation, advanced scientific communication, statistical design, project or laboratory management, ethics, innovation and science business models.

Course structure

Year 1

Advanced Communication Skills in Science
Foundations of Forensic Science
Select 10 credit points from the following:
Leadership in Science
Innovation, Entrepreneurship and Commercialisation
Ethics in Human Research
Ethics in Animal Research
Laboratory Management
Risk Assessment and Management for Science
Research Proposal Writing
Work Health and Safety for Science
Professional Science Writing
Science Business Models and Intellectual Property
Forensic Inference and Interpretation
Understanding Data and Statistical Design

Select 8 credit points from the following:
Crime Scene Investigation and Management
Forensic Toxicology and Drug Analysis
Advanced Chemical Criminalistics
Biometrics and Identification Sciences
Forensic Science Research Internship Project A
Forensic Science Research Internship Project B
Select 2 credit points from the following:
Ethics in Human Research
Ethics in Animal Research
Risk Assessment and Management for Science
Research Proposal Writing
Professional Science Writing

Year 2

Select 24 credit points from the following:
Crime Scene Investigation and Management
Forensic Toxicology and Drug Analysis
Advanced Chemical Criminalistics
Biometrics and Identification Sciences
Forensic Science Research Internship Project A
Forensic Science Research Internship Project B
Forensic Science Research Internship Project C
Forensic Science Research Internship Project D

Career opportunities

Depending on the area of specialisation, graduates may pursue employment with organisations such as the Australian Federal Police, state policing agencies, ASIO, CSIRO, ANSTO, customs, immigration, and private forensic agencies. Career options include criminalist, trace evidence specialist, forensic toxicologist, DNA specialist, scene-of-crime officer, team leader in investigations, fire investigator, fingerprint analyst.

Graduates may also proceed to a career in research by transferring into the Master of Philosophy in Forensic Science (C04393).

Master of Forensic Science (Extension)

Course description

The Master of Forensic Science (Extension) prepares students for professional and specialist work in the discipline of forensic science and is designed for professional scientists wishing to update and broaden their scientific and professional skillset with managerial/business acumen or research experience.

This course is designed to expand students' knowledge and practice of forensic science alongside developing science management and leadership skills. The course contains compulsory core and elective practice-focused forensic science subjects across a range of disciplines from the crime scene to the laboratory. Professional subjects covering a range of skills crucial to all professional scientists – such as project and laboratory management, advanced scientific communication, ethics, innovation and science business models – complete the course. The final session of electives allows students to complement their existing skillset using tailored subjects from related disciplines across health, engineering and business, or to study a current problem in their discipline area by undertaking a research internship (subject to approval by the faculty).

For students with suitable achievement levels, an opportunity to undertake a more substantial research project is available by transferring into the Master of Philosophy in Forensic Science (C04393). For those considering a research degree, the Master of Philosophy provides a pathway to a PhD.

Areas of study

Forensic science processes, forensic inference and interpretation, chemical criminalistics, human identification (fingerprints, DNA profiling, biometrics), forensic toxicology, recreational drugs, crime scene investigation, advanced scientific communication, statistical design, project or laboratory management, ethics, innovation and science business models.

Course structure

Year 1

Advanced Communication Skills in Science
Foundations of Forensic Science

Select 10 credit points from the following:

- Leadership in Science
- Innovation, Entrepreneurship and Commercialisation
- Ethics in Human Research
- Ethics in Animal Research
- Laboratory Management
- Risk Assessment and Management for Science
- Research Proposal Writing
- Work Health and Safety for Science
- Professional Science Writing
- Science Business Models and Intellectual Property

Forensic Inference and Interpretation

Select 16 credit points from the following:

- Advanced Chemical Criminalistics
- Biometrics and Identification Sciences
- Crime Scene Investigation and Management
- Forensic Toxicology and Drug Analysis
- Forensic Science Research Internship Project A
- Forensic Science Research Internship Project B
- Forensic Science Research Internship Project C
- Forensic Science Research Internship Project D

Year 2

Understanding Data and Statistical Design

Select 2 credit points from the following:

- Ethics in Animal Research
- Ethics in Human Research
- Research Proposal Writing
- Professional Science Writing
- Risk Assessment and Management for Science

Select 16 credit points from the following:

- Advanced Chemical Criminalistics
- Biometrics and Identification Sciences
- Crime Scene Investigation and Management
- Forensic Toxicology and Drug Analysis
- Forensic Science Research Internship Project A
- Forensic Science Research Internship Project B
- Forensic Science Research Internship Project C
- Forensic Science Research Internship Project D

Electives (Science PG)

Course code: C04392

CRICOS code: 098060M

Course duration: 2 years

Number of credit points: 96

Intake: March, July

Location: City

Fees: A\$20,145 per session (see page 148 for further fees information)

Academic and additional requirements: See page 144

English language requirements: See page 144

Career opportunities

Depending on the area of specialisation, graduates may pursue employment with organisations such as the Australian Federal Police, state policing agencies, ASIO, CSIRO, ANSTO, customs, immigration, and private forensic agencies. Career options include criminalist, trace evidence specialist, forensic toxicologist, DNA specialist, scene-of-crime officer, team leader in investigations, fire investigator, and fingerprint analyst.

Graduates may also proceed to a career in research by transferring into the Master of Philosophy in Forensic Science (C04393).

Master of Philosophy in Forensic Science

Course description

The Master of Philosophy in Forensic Science provides students with a unique opportunity to undertake original research and gain in-depth knowledge in their chosen area of forensic science. Students have access to staff that are leading researchers and experts in their field. Undertaking this course allows students to explore their research potential and develop research skills. It is designed to provide a scholarship pathway to the PhD program.

This course is designed to expand students' knowledge and practice of forensic science alongside developing science management and leadership capabilities, culminating in a substantial research project in Year 2. The course contains compulsory core and elective practice-focused forensic science subjects across a range of disciplines from the crime scene to the laboratory. Professional subjects covering a range of skills crucial to all professional scientists – such as project and laboratory management, advanced scientific communication, ethics, innovation and science business models – complete Year 1.

Year 2 comprises a substantial research component, giving students an opportunity to undertake original, cutting-edge research. For students with suitable achievement levels, this provides a direct pathway to a PhD, and carries points that can be used in the scholarship application process.

Note: this course is not offered by direct entry. Admission is via Internal Course Transfer with faculty approval.

Areas of study

Forensic science processes, forensic inference and interpretation, chemical criminalistics, human identification (fingerprints, DNA profiling, biometrics), forensic toxicology, recreational drugs, crime scene investigation, advanced scientific communication, statistical design, project or laboratory management, ethics, innovation and science business models.

Course structure

Year 1

Advanced Communication Skills in Science
Foundations of Forensic Science

Select 10 credit points from the following:

- Leadership in Science
- Innovation, Entrepreneurship and Commercialisation
- Ethics in Human Research
- Ethics in Animal Research
- Laboratory Management
- Risk Assessment and Management for Science
- Research Proposal Writing
- Work Health and Safety for Science
- Professional Science Document Writing
- Science Business Models and Intellectual Property

Forensic Inference and Interpretation

Understanding Data and Statistical Design

Select 2 credit points from the following:

- Ethics in Animal Research
- Ethics in Human Research
- Research Proposal Writing
- Professional Science Document Writing
- Risk Assessment and Management for Science

Select 8 credit points from the following:

- Crime Scene Investigation and Management
- Forensic Toxicology and Drug Analysis
- Advanced Chemical Criminalistics
- Biometrics and Identification Sciences
- Forensic Science Research Internship
- Project A

Year 2

Forensic Science Thesis 1
Forensic Science Thesis 2

Course code: C04393

CRICOS code: 098062J

Course duration: 2 years

Number of credit points: 96

Intake: March, July

Location: City

Fees: A\$20,145 per session (see page 148 for further fees information)

Academic and additional requirements: See page 144

English language requirements: See page 144

Career opportunities

Depending on the area of specialisation, graduates may pursue employment with organisations such as the Australian Federal Police, state policing agencies, ASIO, CSIRO, ANSTO, customs, immigration, and private forensic agencies. Career options include criminalist, trace evidence specialist, forensic toxicologist, DNA specialist, scene-of-crime officer, team leader in investigations, fire investigator, and fingerprint analyst.

Graduates may also proceed to a career in research through entry to a PhD.

The course structures outlined in this course guide are based on a March (Autumn) intake. The structure may vary for our July (Spring) intake. Students may be required to undertake elective subjects to complete their degree. Most subjects at UTS are valued at 6-8 credit points each.

Refer to the online handbook for the most up-to-date information and for specific information on available electives and their credit-point value (handbook.uts.edu.au).

 Forensic Science Research Internship Project C

Career opportunities

Depending on the area of specialisation, graduates may pursue employment with organisations such as the Australian Federal Police, state policing agencies, ASIO, CSIRO, ANSTO, customs, immigration, and private forensic agencies. Career options include criminalist, trace evidence specialist, forensic toxicologist, DNA specialist, scene-of-crime officer, team leader in investigations, fire investigator, and fingerprint analyst.

Graduate Certificate in Forensic Science

Course description

The Graduate Certificate in Forensic Science is suitable for those seeking a scientific qualification to assist them to gain entry into further forensic science studies, as well as for those who are already employed in a scientific field but wish to gain new specialised skills to advance their area of expertise.

The course enhances career prospects by providing opportunities to extend knowledge beyond a first degree. It provides the opportunity to extend or renew scientific knowledge and professional skills that are important to career advancement.

Areas of study

Forensic science processes, forensic inference and interpretation, advanced scientific communication, statistical design, project or laboratory management, ethics, innovation and science business models.

Course structure

Core subjects (Forensic Science)
 Professional elective(s) (Science PG)

Career opportunities

The course provides a backbone of skills important to a professional forensic scientist; be they engaged in research, science business, industries or government organisations.

Course code: C11287
CRICOS code: 098064G
Course duration: 0.5 years
Number of credit points: 24
Intake: March, July
Location: City
Fees: A\$20,145 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

Master of Quantitative Finance

Course description

The Master of Quantitative Finance provides the full gamut of specialised quantitative finance skills and development of professional competency required to be a quantitative finance specialist performing at the cutting edge of the discipline.

Participants have the opportunity to see the application of quantitative finance to advanced financial instruments, an integrated approach to risk management and how to implement quantitative finance strategies.

The quantitative finance program provides the opportunity to acquire the detailed specialised knowledge and the professional competency required to work as a quantitative finance analyst in the modern finance industry.

Note: This course includes a compulsory Summer session.

Course code: C04373
CRICOS code: 088930G
Course duration: 1 year
Number of credit points: 72
Intake: March, July
Location: City
Fees: A\$20,555 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

Areas of study

Computational methods and model implementation, interest rates and credit risk models, derivative security pricing, numerical methods in finance, probability theory and stochastic analysis, portfolio analysis, financial market instruments, risk management, statistics, financial econometrics.

Course structure

Fundamentals of Derivative Security Pricing
 Financial Market Instruments
 Statistics and Financial Econometrics
 Interest Rates and Credit Risk Models
 Probability Theory and Stochastic Analysis
 Risk Management
 Quantitative Portfolio Analysis
 Numerical Methods in Finance
 Computational Methods and Model Implementation

Career opportunities

Career options for graduates include positions as quantitative analysts, risk management analysts, quantitative structures, quantitative developers, forecasters, traders, investment analysts and financial engineers across investment banks, trading banks, hedge funds, investment management companies, consulting companies, energy and mining companies, regulatory bodies and government organisations.

Research degrees

Course code	Course name	Sessions	Fees per session	Intake	Location	CRICOS code

Transdisciplinary Innovation

Master of Data Science and Innovation

A unique, transdisciplinary program where creativity and innovation are integral components. The first of its kind in Australia, our course integrates diverse industry perspectives and aligns data value with human values and ethics to shape future data science practice.

LEARN FROM THE BEST

You'll learn from experienced and renowned academics from across UTS and work with leading industry professionals to help build valuable connections that will kickstart your future career.

REAL-WORLD WORK FOR REAL-WORLD GAIN

Explore real-world projects and actual data sets through coursework and iLab projects coordinated with our industry partners. Solve client problems sourced by the faculty or design your own data project.

CREATIVE COLLABORATION

Work alongside peers from varying professional backgrounds sharing expertise to solve real-life data science problems.

HUMAN-CENTRED DATA

Develop a human-centred perspective on big data by thinking ethically and systematically about its analysis and use.

BUILD SKILLS THAT COUNT

Develop specialist skills that are in high demand across a range of industries.

UTS Animal Logic Academy

Master of Animation and
Visualisation (MAV)

UTS and world-leading creative digital studio, Animal Logic, have partnered to create the UTS Animal Logic Academy. We provide state-of-the-art education, producing next-generation leaders who'll make their mark on the creative industries.

LEARN FROM THE BEST

When you study with us you'll work shoulder-to-shoulder with leading professionals from Animal Logic and the industry at large, shaping the digital creative industries of the future.

BUILD SKILLS THAT COUNT

Build skills in multiple domains. You'll develop advanced capabilities in CGI innovation, digital asset creation, creative practice, visualisation technologies, and dynamic teamwork practices.

WORK WITH THE TOOLS OF THE TRADE

Our studio houses the latest technologies so you'll gain hands-on experience using professional tools.

CREATIVE COLLABORATION

Work in partnership with other students, using your combined expertise to deliver outside-the-square solutions to creative challenges.

A PROGRAM THAT EQUALS SUCCESS

You'll build a robust skill set that's applicable across a wide range of industries.

Master of Animation and Visualisation

Course description

The UTS Master of Animation and Visualisation has been developed in partnership with Animal Logic and is offered through the UTS Animal Logic Academy. The course develops collaborative problem-solving skills and expertise through creative and technical collaborative work in a custom-built studio with real-world production work structures and creative and technical projects, under the guidance and mentorship of practitioners and creative leaders from the industry, including Animal Logic.

The course provides challenges and opportunities that encourage exploration and skills-building across the spectrum of roles in digital production, animation, visual effects and emerging visualisation disciplines. Collaborative work practices guide the development of strong competencies in critical thinking, problem-solving, design thinking and effective communication in a production environment. Graduates are able to work productively and effectively in a professional workplace environment.

Note: This course includes non-standard sessions.

Areas of study

Animation, visualisation, digital content pipeline, digital production, emerging content technologies such as virtual and augmented reality, critical thinking and problem-solving, visual effects, dynamic workflow environments, collaborative work practice.

Course structure

The Connected Studio
The Collaboration Studio
The Challenge Studio

Career opportunities

Graduates gain skills that can be applied across a range of roles, from animation and software development to data visualisation, data science and across emerging technologies. They are also able to innovate in traditional professions as well as drive the development of new industry sectors.

Course code: C04322
CRICOS code: 092411G
Course duration: 1 year
Number of credit points: 72
Intake: January
Location: City
Fees: A\$17,640 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

Master of Data Science and Innovation

Course description

The Master of Data Science and Innovation is a world-leading program of study in analytics and data science.

Taking a transdisciplinary approach, the course utilises a range of perspectives from diverse fields and integrates them with industry experiences, real-world projects and self-directed study, equipping graduates with an understanding of the potential of analytics to transform practice. The course is delivered in a range of modes, including contemporary online and face-to-face learning experiences in UTS's leading-edge facilities.

Work experience/industry placement is an important component of the course.

This course has been developed as a response to a global talent gap for people with data science knowledge, as identified and reported by the McKinsey Global Institute study (2011). The study predicted a shortfall by 2018 of nearly 200,000 data scientists and 1.5 million managers with the capability to make decisions using big data in the United States alone.

The dramatic growth of data in every conceivable industry, from oceanography to market research, presents another major driving force in generating unprecedented global demand for data science skills.

Areas of study

Data sciences practices, leading data science initiatives and innovation laboratories.

Course structure

Year 1

Data Science for Innovation
Statistical Thinking for Data Science
Data, Algorithms and Meaning
Select 12 credit points from the following:
Electives (Data Science and Innovation)
iLab 1

Year 2

Leading Data Science Initiatives
Data Visualisation and Narratives
Data and Decision Making
Select 12 credit points from the following:
Electives (Data Science and Innovation)
iLab 2

Career opportunities

The course prepares students to participate in a variety of emerging careers with the growth of data science – data griot, data analyst, data artist, data journalist, mobile behaviour analyst, data-driven policy expert, advertising insight and online community manager, to name a few. While other offerings also provide the basis for these careers, this course provides an additional level of expertise, targeting professionals who have the desire to lead teams and organisations at the chief executive level.

Course code: C04372
CRICOS code: 084268K (Autumn 2 years); 093052G (Spring 2.5 years)
Course duration: 2 years (Autumn); 2.5 years (Spring)
Number of credit points: 96
Intake: March, July
Location: City
Fees: A\$19,760 per session (see page 148 for further fees information)
Academic and additional requirements: See page 144
English language requirements: See page 144

Research degrees

The course structures outlined in this course guide are based on a March (Autumn) intake. The structure may vary for our July (Spring) intake. Students may be required to undertake elective subjects to complete their degree. Most subjects at UTS are valued at 6-8 credit points each.

Refer to the online handbook for the most up-to-date information and for specific information on available electives and their credit-point value (handbook.uts.edu.au).

☉ Courses flagged with this icon include a work-based training component which must be undertaken as part of the course of study and refers to all clinical, professional and industrial or other work placements.

Admission requirements

ACADEMIC REQUIREMENTS

For admission into most postgraduate courses, you are required to hold at minimum a recognised degree equivalent to an Australian bachelor's degree. Your academic performance at the bachelor's level will be considered as part of your application assessment.

For the current academic requirements for a particular course, please refer to the Course Summary Tables on pages 150–176 or visit uts.edu.au/future-students/international/essential-information/entry-requirements

Note: Eligibility for admission to a research degree is not a guarantee of acceptance. Submission of a research proposal is also required.

ENGLISH LANGUAGE REQUIREMENTS

UTS has English language proficiency requirements for all its courses. Please check the requirements that apply to you.

Assessable qualification undertaken in English

You satisfy the UTS English language requirements if you have an assessable qualification that was undertaken in English from one of the following countries:

- American Samoa
- Australia
- Botswana
- Canada
- Fiji
- Ghana
- Guyana
- Jamaica
- Kenya
- Lesotho
- Liberia
- New Zealand
- Nigeria
- Papua New Guinea
- Republic of Ireland
- Singapore
- Solomon Islands
- South Africa
- Tonga
- Trinidad and Tobago
- United Kingdom
- United States of America
- Zambia
- Zimbabwe.

What is an assessable qualification?

Assessable qualifications must come from the countries listed. They may be accepted as satisfying English proficiency if they include:

- senior secondary studies comparable with the NSW HSC;
- one full year of Australian or comparable tertiary studies, including RATE Associate Diploma and Advanced Diploma, Associate Degree, Bachelor Degree and postgraduate studies;
- comparable AQF Diploma and Advanced Diploma; or
- Australian or comparable non-award studies and tertiary preparation courses, with a full-time equivalence of one year.

Completed a course taught in English

If you do not have an assessable qualification from one of the countries listed, but have successfully completed the equivalent of one year (full-time) of a UTS-recognised, government-accredited, public or private post-secondary/secondary course that is taught in English, you may satisfy the UTS English-language requirement.

This course must be equivalent to the level of Australian Year 12 or higher.

You will need to provide an official document from your institution (on the institution letterhead) that certifies that your qualification was instructed in English.

(For postgraduate Pharmacy courses refer to: Special requirements for evidence of medium of instruction for Pharmacy courses).

Other acceptable qualifications and English programs

The following are also recognised by UTS as meeting the English-language requirements.

(For postgraduate Pharmacy courses, refer to the special requirements for evidence of English of instruction).

- UTS Insearch Academic English (AE) program at the level of AE5, for admission to UTS courses with English language proficiency requirements of IELTS Academic overall score of 6.5 with 6.0 in writing
- UTS Insearch Academic English (AE) program at the level of AE6 for admissions into UTS courses with English language proficiency requirements of IELTS Academic overall score of 7.0
- Australian TAFE (NSW) Certificate IV in English for Academic Purposes (EAP)
- high school English mark equal to or greater than 75 per cent from Austria, Denmark, Finland, France, Germany, Sweden, the Netherlands, Norway or Switzerland
- successful completion of International Baccalaureate Diploma Program subjects English A: literature or English A: language and literature, where the Diploma Program was taught in a language other than English

- C2 Proficiency (formerly Cambridge English: Proficiency CPE):
 - for courses requiring an IELTS academic overall score of 8.0 – Overall CCPE score of 200 or above;
 - for courses requiring an IELTS academic overall score of 7.5 – Overall CCPE score of 191-199;
 - for courses requiring an IELTS academic overall score of 7.0 – Overall CCPE score of 185-190;
 - for courses requiring an IELTS academic overall score of 6.5 – Overall CCPE score of 176-184.
- level 4 or above in the core subject English in the Hong Kong Diploma of Secondary Education (HKDSE) Examination.

Previous education not conducted in English

If your previous education was not conducted in English, you are required to demonstrate proficiency in English by completing an English language test or program recognised by UTS. English language proficiency test scores are recognised by UTS provided they were obtained less than two years prior to application at UTS.

The table opposite shows the results required to meet UTS English language requirements for entry into the respective courses. For all combined courses the highest English language requirement test scores apply.

ENGLISH LANGUAGE TESTS AND PROGRAM DETAILS

Academic English Program Level 5 (AE5) and Level 6 (AE6)

The Academic English Level 5 (AE5) and Level 6 (AE6) programs are offered by UTS Insearch (CRICOS: 00859D).

insearch.edu.au/courses/english

IELTS (International English Language Testing System)

UTS IELTS Centre
ielts@uts.edu.au
ielts.uts.edu.au

TOEFL (Test of English as a Foreign Language)

If you sit the TOEFL test, you must arrange for the official score report to be sent directly to UTS.

The UTS institutional code for TOEFL is **0743**.

Note: The TOEFL paper-based test (PBT) was phased out by TOEFL in 2017. UTS will continue to accept TOEFL PBT scores, provided the test was taken within two years prior to applying to UTS.

The information in this table is correct as of the publication date and is subject to change.

For the most up-to-date information on English requirements visit uts.edu.au/future-students/international/essential-information/entry-requirements

Special requirements for evidence of medium of instruction for Pharmacy courses

Master of Pharmacy (C04252) and Master of Pharmacy (International) (C04395) applicants who provide evidence that their successful tertiary qualifications in the relevant degree with a minimum duration of 3 years were taught and assessed in English, will be accepted from the following countries:

- Australia
- Canada
- New Zealand
- Republic of Ireland
- South Africa
- United Kingdom
- United States of America.

Students sponsored through aid programs

Special consideration for English language requirements may be given to applicants sponsored through aid programs (e.g. Australia Awards, World Bank, etc.). These applicants need to demonstrate an overall IELTS Academic band score of 5.5, with a score of 5.0 in writing (or equivalent) and compulsory completion of 200 hours of English for Academic Purposes during their first six months in Australia, funded by the UTS host faculty.

Note: In some countries the Australian embassy may have different English language requirements for those seeking a student visa. Check with your nearest Australian Diplomatic Post before registering for an English language test.

UTS also accepts diplomas and advanced diplomas from Australian Qualifications Framework (AQF) recognised tertiary institutions in Australia as well as most other Australian foundation studies programs.

2020 ACADEMIC CALENDAR

The UTS academic calendar includes three teaching periods. In 2020, Autumn session will run from 17 February to 27 June 2020, Spring session from 27 July to 14 November 2020 and Summer session from 16 November 2020 to 27 February 2021. This includes an Orientation period for the Autumn and Spring sessions, which all students are encouraged to attend. A compulsory session for international students will be included as part of Orientation.

For courses that follow Calendar B, Autumn session will run from 17 February to 27 June 2020 and Spring session from 20 July to 28 November 2020. Both sessions include a week-long Orientation period, which all students are encouraged to attend. A compulsory session for international students will be included as part of Orientation.

Our courses are scheduled to ensure students can progress through the standard Autumn and Spring teaching periods.

Note: UTS may offer an intake for Summer session 2020 for some courses.

1. COMPLETE THE APPLICATION FORM

All international students must complete an international student application form and either:

LODGE ONLINE:

Visit student.uts.apply.studylink.com
Login and register to apply online.

or **SUBMIT** a **PAPER-BASED** application:

Download an application form:
international.uts.edu.au

2. ATTACH NECESSARY DOCUMENTS

You must attach:

- ☐ a certified[†] copy of your academic records.
- ☐ Documents not issued in English must be officially translated and submitted together with certified copies in the original language.
- ☐ a certified[†] copy of your English test score (or an official document stating that your previous education was conducted in English, see page 144)
- ☐ a portfolio* or personal statement[#] (where applicable)
- ☐ Enclosed a bankdraft of A\$100 non-refundable application fee or enclosed a copy of Tax invoice (proof of payment) for A\$100 non-refundable application fee.

ONLINE:

Scan your documents, save them to your computer and upload them with your online application at the “attach here” section.

Once you have submitted your application online, you must copy your documents and send the certified[†] hard copies to UTS International. See the back cover of this guide for our postal and street address.

PAPER-BASED:

Copy your documents and submit certified[†] copies with your application form. See the back cover of this guide for our postal and street address.

3. SUBMIT YOUR APPLICATION

ONLINE:

- Check that you have completed all sections.
- Agree to the Terms & Conditions and pay your application fee online.
- Submit your application.

PAPER-BASED:

You can pay the application fee by either:

- attaching a bank draft or bank cheque to your application form or
- You can make a payment via our secure payment site: uts.edu.au/internationaladmissionpayments After your payment has been approved you must print a (pdf) copy of the tax invoice and submit it together with your application.

You can submit your application in one of several ways:

- Hand it in in person to UTS International (see back cover of this guide for our street address)
- Send your application by post (see back cover of this guide for our postal address)
- Send your application by registered post or courier to our street address

- Submit your application to a UTS Representative at an education event.
- Submit your application to one of our agents or representatives worldwide. For contact details visit: international.uts.edu.au

APPLICATION CLOSING DATES:

Autumn session (February/March start)
Applicants based outside Australia: 30 November
Applicants based in Australia: 15 December
Spring session (July start)
Applicants based outside Australia: 30 April
Applicants based in Australia: 31 May
Summer session (November start)
Applicants based outside Australia: 31 August
Applicants based in Australia: 30 September

4. APPLICATION OUTCOME

ONLINE:

After submitting your application, you'll receive immediate acknowledgement by email.

PAPER-BASED:

You will receive an email acknowledging receipt of your application approximately one week after it has been received by UTS.

The acknowledgement you receive will include a UTS application number which you should keep and refer to in any future correspondence with UTS International. Once we've received all of your documents, the application process usually takes around four to six weeks. UTS International will advise you by email of your application outcome.

5i. REQUEST FOR ADDITIONAL INFORMATION

If your documents are insufficient for assessment, you will receive a request for additional information by email.

5ii. CONDITIONAL LETTER OF OFFER

If your application is approved, but there are conditions you still need to satisfy, you will receive a conditional Letter of Offer by email. Once these conditions have been met, you will receive an unconditional offer by email.

5iii. LETTER OF OFFER

If you have met all specific requirements you will receive an unconditional Letter of Offer by email.

6. ACCEPT YOUR OFFER

You will receive information on how to accept your offer with your Letter of Offer.

UTS reserves the right to withdraw an offer of admission or Confirmation of Enrolment (CoE) in cases where an applicant has not provided true and complete information for admission to a course or where UTS is not satisfied that the student meets the Genuine Temporary Entrant and/or Genuine Student requirements set by the Department of Home Affairs.

[†] See Certification of Documentation on page 147. ^{*} See page 147. [#] See page 147

SIMPLIFIED STUDENT VISA FRAMEWORK (SSVF)

UTS participates in the Australian Government's Simplified Student Visa Framework (SSVF) and recruits students into its degree courses under the SSVF arrangements of the Department of Home Affairs. The SSVF is designed to make the process of applying for a student visa simpler for genuine students.

As an international student, you should apply for a single student visa (subclass 500) regardless of your chosen course of study. When you are granted a visa under SSVF, you must continue to maintain enrolment in an eligible course and continue to have sufficient financial capacity to support your study and stay in Australia.

All student visa (subclass 500) holders must maintain enrolment at the same or higher Australian Qualification Framework (AQF) level for which they were granted a visa. If you are undertaking a doctoral degree (AQF10) or transferring to a master degree (AQF9), this condition does not apply. Transferring to a lower AQF level course or transferring from an AQF level course to a non-AQF Award course is a breach of the student visa condition and might result in cancellation of your visa.

You must take this important information into account when choosing a course and when considering a course change or a move to another provider.

For more information about student visas, visit the Department of Home Affairs website: homeaffairs.gov.au

CERTIFICATION OF DOCUMENTATION

UTS will accept copies certified by employees of one of the following:

- Australian Overseas Diplomatic Mission
- UTS Authorised Representative or Agent
- Public Notary Office
- the administration of the institution that issued the relevant document
- an Australian university.

Alternatively, documents verified by someone who is currently employed in **Australia** as:

- an accountant – members of the Institute of Chartered Accountants in Australia or the Australian Society of Certified Practising Accountants, or the Institute of Public Accountants, or the Association of Taxation and Management Accountants or Registered Tax Agents
- a bank or credit union manager
- a barrister, solicitor or patent attorney
- a police officer with the rank of sergeant and above
- a post office manager
- a principal of an Australian secondary college, high school or primary school
- a commissioner for declarations
- a Justice of the Peace where the registration number is clearly indicated.

What does correctly certified mean?

Correctly certified means that your original document has been sighted and the copy has been sworn to be a true copy of the original by one of the authorised people mentioned above. Scanned documents or photocopies will not be accepted.

Personal statement

You may need to submit a personal statement for some courses. The personal statement should be written by you and should:

- describe your educational experience and how it has prepared you for studying this course
- indicate your knowledge and interest in the area in which you plan to study
- outline your expectations of the course for which you are applying
- reflect on any work (paid or voluntary) you have undertaken – you may also wish to include details of your work history
- mention anything else about you that will help us assess your application.

If you need to submit a personal statement, UTS will contact you with details.

Portfolio

The Master of Animation and Visualisation requires a portfolio. A portfolio may also be required when you apply to study certain design courses at UTS.

TUITION FEES

Tuition fees vary between UTS courses and must be paid in advance of each session. Textbooks and other course materials are additional expenses.

The fees for any session are determined by the number of credit points being undertaken in that session. Unless noted, the quoted session tuition fee assumes you will enrol in a standard 100 per cent credit point load for your chosen course, which is normally 24 credit points per session. Your actual session course cost may differ from this figure depending on the course and the number of credit points taken per session.

Fees listed are correct for 2020 only and are subject to an increase each calendar year. All fees listed are for 24 credit points in a session unless otherwise stated.

For detailed information about tuition fees for UTS courses and the UTS Fees and Refund Protocol, visit: uts.edu.au/future-students/international/essential-information/fees-information

STUDENT SERVICES AND AMENITIES FEE

Australian universities charge a Student Services and Amenities Fee (SSAF) to support the maintenance of a range of student services at universities. At UTS, the SSAF provides support to Students' Association sponsored activities. This includes the second-hand bookstore, services for skills and language development, the UTS Student Legal Centre, food, beverage and retail outlets, and student clubs run by Activate UTS.

The SSAF is applicable to all students at UTS. You are required to pay it in Autumn and Spring sessions in which you are enrolled. Your liability for the SSAF is based on your enrolled study load as at the census date. Students withdrawing after the census date are not eligible for a refund or remission of this fee.

To give you an estimate of the cost, in 2019 the SSAF was A\$151.50 per session for full-time students (those with a study load of 18 credit points and above per session). The SSAF is subject to an annual government set indexation increase.

For further information go to: uts.edu.au/current-students/managing-your-course/fees-and-payment/student-services-and-amenities-fee-ssaf

HEALTH COVER

You are required to arrange Overseas Student Health Care (OSHC) for the entire time that you are in Australia on a student visa. It is also a visa condition, and your responsibility as a student, to purchase and maintain this health cover throughout your stay in Australia.

OSHC is insurance to assist international students to meet the costs of medical and hospital care that they may need while in Australia. OSHC will also pay limited benefits for pharmaceuticals and ambulance services.

Medibank is the UTS preferred provider for OSHC, but you may purchase OSHC from an authorised provider of your choice. The cost of cover may differ between insurers and the plan you choose. Please note that you will need to submit evidence of your OSHC arrangements when you lodge your visa application with the Department of Home Affairs.

For further information visit: medibankoshc.com.au/uts homeaffairs.gov.au

ACCOMMODATION AND LIVING COSTS

For a guide to accommodation and living costs for living in Sydney, please see page 25 of this guide.

RECOGNITION OF PRIOR LEARNING – RPL (CREDIT RECOGNITION)

Your prior learning may be considered for credit towards a UTS graduate coursework program where the prior learning is related to assessable components of the course. For example, you may be granted:

- exemption from studying a specific subject within your UTS course if you can prove that you have previously studied a subject equivalent to a required UTS subject
- general advanced standing for a specific number of subjects if you can prove your prior studies are relevant to your UTS course, but do not directly correspond to specific subjects in the course and
- automatic credit if the subject and version required for your current course has been completed as part of another UTS course.

Note: Determination of eligibility for recognition of prior learning towards a particular course does not imply or guarantee that a place is available in that course for the particular applicant.

Applying for recognition of prior learning

Submit your application for recognition of prior learning along with your International Student Application form.

The following documents must be attached to your application:

1. a fully completed application for recognition of prior learning available online at: uts.edu.au/future-students/international/essential-information/recognition-prior-learning
2. certified copy of academic transcript(s)
3. certified copies of official subject outlines.

For each subject exemption sought, you must provide a subject outline with the following details:

- year the subject outline is relevant to (this must be the same year in which you passed the subject)
- topics covered in the subject
- number of hours of class time
- method of assessment used
- textbooks required.

A paragraph from an institution's calendar or handbook is not sufficient. Inadequate outlines will not be accepted.

Subject outlines must be in English. If subject outlines have been translated into English, they must be certified and stamped as translated by a professional translator.

ENGINEERING

GRADUATE CERTIFICATES

C11236	Engineering	1	\$19,760	Mar/Jul	081083K	86	A UTS recognised bachelor's degree in engineering, or an equivalent or higher qualification, with less than 25 per cent fails. The selected stream must be in the same field of practice undertaken at the undergraduate level.
C11239	Engineering Management	1	\$19,360	Mar/Jul	081085G	88	A UTS recognised bachelor's degree, or an equivalent or higher qualification, with less than 25 per cent fails.
C11238	Engineering Studies	1	\$19,760	Mar/Jul	081084J	91	A UTS recognised bachelor's degree in a non-cognate Engineering field, or an equivalent or higher qualification. The course is intended for students wishing to gain a qualification in an engineering field of practice different to that undertaken at the undergraduate level.
C11237	Environmental Engineering Management	1	\$19,360	Mar/Jul	081086G	90	A UTS recognised bachelor's degree in engineering or the natural and physical sciences, or an equivalent or higher qualification, with less than 25 per cent fails.

MASTER'S DEGREES BY COURSEWORK

C04275	Engineering Management	3	\$19,360	Mar/Jul	081088E	88	A UTS recognised bachelor's degree, or an equivalent or higher qualification, with less than 25 per cent fails.
C04277	Engineering Extension in: - Biomedical Engineering - Civil Engineering - Computer Control Engineering - Cyber Security - Energy Planning and Policy - Environmental Engineering - Geotechnical Engineering - Manufacturing Engineering and Management - Operations - Robotics - Software Systems Engineering - Structural Engineering - Telecommunications Engineering - Water Engineering - No Specified Major	4	\$19,760	Mar/Jul	081094G	84	A UTS recognised bachelor's degree in engineering, or an equivalent or higher qualification, with less than 25 per cent fails. The selected major must be in the same field of practice undertaken at the undergraduate level.
C04271	Engineering in: - Biomedical Engineering - Civil Engineering - Computer Control Engineering - Cyber Security - Energy Planning and Policy - Environmental Engineering - Geotechnical Engineering - Manufacturing Engineering and Management - Operations - Robotics - Software Systems Engineering - Structural Engineering - Telecommunications Engineering - Water Engineering - No Specified Major	3	\$19,760	Mar/Jul	081087F	84	A UTS recognised bachelor's degree in engineering, or an equivalent or higher qualification, with less than 25 per cent fails. The selected major must be in the same field of practice undertaken at the undergraduate level.
C04272	Environmental Engineering Management	3	\$19,360	Mar/Jul	081089D	90	A UTS recognised bachelor's degree in engineering or the natural and physical sciences, or an equivalent or higher qualification, with less than 25 per cent fails.
C04273	Master of Engineering Master of Engineering Management	4	\$19,760	Mar/Jul	081095F	89	A UTS recognised bachelor's degree in engineering, or an equivalent or higher qualification, with less than 25 per cent fails. The selected major must be in the same field of practice undertaken at the undergraduate level.
C04274	Master of Engineering Management Master of Business Administration	4	\$19,360	Mar/Jul	081096E	89	A UTS recognised bachelor's degree in engineering, or an equivalent or higher qualification, and one of: (i) a minimum GPA of 2.75 out of 4 and less than 10 per cent fails; or (ii) GMAT minimum score of 550 with verbal 25, quantitative 35 and AWA 4.0; or (iii) minimum 4 years' (full-time equivalent) engineering-related work experience.

Note: Fees listed are correct for 2020 only and are subject to an increase each calendar year. The published fee is based on 24 credit points per session. Please see UTS website for fee details. To find the latest information about your course, please search here: uts.edu.au/future-students

ENGINEERING (CONTINUED)

C04309	Professional Engineering in: - Biomedical Engineering - Civil Engineering - Cyber Security - Mechanical Engineering - Robotics		\$19,760	Mar/Jul	088084G	86	A UTS recognised bachelor's degree in engineering, or an equivalent or higher qualification, with less than 25 per cent fails. The selected major must be in the same field of practice undertaken at the undergraduate level.
--------	---	--	----------	---------	---------	----	--

MASTER OF ENGINEERING BY RESEARCH

C03017	Engineering (Research)	4	\$19,360	Mar/Jul	009468B	-	A UTS recognised bachelor's degree in engineering, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies. Before submitting a formal application for admission, applicants should seek the approval of a potential supervisor for their proposed research.
--------	------------------------	---	----------	---------	---------	---	---

DOCTOR OF PHILOSOPHY

C02018	Doctor of Philosophy (Engineering)	8	\$19,360	Mar/Jul	036570B	-	A UTS recognised master's by research or bachelor's degree with first or second class (division 1) honours, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies. Before submitting a formal application for admission, applicants should seek the approval of a potential supervisor for their proposed research.

HEALTH

GRADUATE DIPLOMAS

C07044	Advanced Nursing	2	\$17,640	Mar	000360J	95	A UTS recognised bachelor's degree, or an equivalent or higher qualification. Current registration as a nurse in Australia. Applicants must be a registered nurse in their own country or place of residence and hold a current Authority to Practise with at least one year of post- registration clinical experience.
C07048	Health Services Management	2	\$17,640	Mar/Jul	040692B	97	A UTS recognised bachelor's degree, or an equivalent or higher qualification. At least a minimum of one year, full-time (or part time equivalent) experience in a medium to large organisation. Health or human services experience is preferred. Work experience undertaken in small work settings (e.g. private practice settings with a small number of professionals) or as part of intern requirements are not accepted.
C07126	Public Health	2	\$17,640	Mar/Jul	088082K	100	A UTS recognised bachelor's degree, or an equivalent or higher qualification.

MASTER'S DEGREE BY COURSEWORK

C04246	Advanced Health Services Management	4	\$17,640	Mar/Jul	071627K	98	A UTS recognised bachelor's degree, or an equivalent or higher qualification. At least one year's full-time equivalent experience in a medium to large organisation, in the health or human services area. Work experience undertaken in small work settings (e.g. private practice settings with a small number of professionals) or as part of intern requirements are not accepted.
C04140	Health Services Management	3	\$17,640	Mar/Jul	040694M	96	
C04302	Public Health	3	\$17,640	Mar/Jul	088081M	99	A UTS recognised bachelor's degree, or an equivalent or higher qualification.
C04303	Public Health (Advanced)	4	\$17,640	Mar/Jul	088080A	99	

Course Code	Course Name	Course Duration (Session)	Course Fee (A\$/Session)	Course Intake	CRICOS Code	Page number	Minimum Entry Requirements

HEALTH (CONTINUED)

C04228	Advanced Nursing: - Chronic and complex care ageing and palliation - Clinical - Education - Health Research - Management - Primary Health Care - No Major	3	\$17,640	Mar	055628J	94	<p>A UTS recognised bachelor's degree, or an equivalent or higher qualification. Current registration as a nurse in Australia. Registered nurses who do not have an undergraduate diploma or degree but do have recent relevant work experience and can demonstrate the capacity to undertake tertiary study may also be considered eligible. International applicants must be a registered nurse in their own country or place of residence and hold a current Authority to Practise. International applicants must also have at least one year of post- registration clinical experience.</p> <p>Additional requirements for the Nurse Practitioner major:</p> <ul style="list-style-type: none"> - current registration as a nurse in Australia - length and depth of experience: a minimum of five years, full-time equivalent (FTE) experience as a registered nurse, including three years FTE as a registered nurse in a specialty area and one year FTE at an advanced practice level in the relevant specialty area of practice - requisite education or equivalent in a specialty field as entry to the Nurse Practitioner program, Bachelor of Nursing or equivalent and a postgraduate qualification in a specialty field that has prepared the student for advanced practice (either as a prerequisite or integrated into the master's degree) - required professional activity: active involvement in professional organisations and contribution to the ongoing development of the profession - confirmed support for the applicant to complete all professional experience requirements of the course.
--------	--	---	----------	-----	---------	----	---

MASTER'S DEGREES BY RESEARCH

C03050	Health Services (Research)	4	\$17,640	Mar/Jul	055629G	-	A UTS recognised bachelor's degree, or an equivalent or higher qualification. Applicants are required to have qualifications and experience in the health services sector. Submission of a research proposal and have the agreement of a suitable supervisor at the time of application.
C03049	Midwifery (Research)	4	\$17,640	Mar/Jul	052680G	-	A UTS recognised bachelor's degree, or an equivalent or higher qualification. Applicants are required to have authorisation to practise as a registered midwife. Submission of a research proposal and have the agreement of a suitable supervisor at the time of application.
C03048	Nursing (Research)	4	\$17,640	Mar/Jul	052679M	-	A UTS recognised bachelor's degree, or an equivalent or higher qualification. Applicants are required to have authorisation to practise as a registered nurse. Submission of a research proposal and have the agreement of a suitable supervisor at the time of application.
C03055	Sport and Exercise (Research)	4	\$17,640	Mar/Jul	032336M	-	A UTS recognised bachelor's degree in a related field of study and demonstrated potential to undertake graduate studies. Submission of a research proposal is also required. Applicants will have to submit other evidence of qualifications and experience and satisfy any additional requirements as may be prescribed by the Faculty Board in Health. Each applicant is required, before submitting an application, to discuss the thesis topic with the School Research Coordinator who then advises whether appropriate supervisors and resources are available.

Note: Fees listed are correct for 2020 only and are subject to an increase each calendar year. The published fee is based on 24 credit points per session. Please see UTS website for fee details. To find the latest information about your course, please search here: uts.edu.au/future-students

INTERNATIONAL STUDIES

MASTER'S DEGREE BY RESEARCH

C03034	International Studies (Research)	4	\$14,700	Mar/Jul	043338G	-	A UTS recognised bachelor's degree, or an equivalent or higher qualification. Submission of a research proposal that is aligned with a research area of the faculty, and the development of an outline of intended research that gives a background to the intended area of research. Selection criteria also includes the quality of the research proposal, the faculty's ability to offer appropriate supervision in the applicant's chosen field, and, where necessary, demonstration of generic technical skills.
--------	----------------------------------	---	----------	---------	---------	---	---

DOCTOR OF PHILOSOPHY

C02039	International Studies	8	\$14,700	Mar/Jul	043350M	-	A UTS recognised master's by research or bachelor's degree with first or second class honours (division 1), or an equivalent or higher qualification. Submission of a research proposal that is aligned with a research area of the faculty, and development of an outline of intended research that gives a background to the intended area of research. Selection criteria also includes the quality of the research proposal, the faculty's ability to offer appropriate supervision in the applicant's chosen field, and, where necessary, demonstration of generic technical skills.
--------	-----------------------	---	----------	---------	---------	---	--

LAW

GRADUATE CERTIFICATES

C11211	Australian Law	1	\$23,600	Mar/Jul	064381G	125	A UTS recognised bachelor's degree, or an equivalent or higher qualification. Applicants' bachelor's degree must be in law from outside Australia or they must be admitted to practise as a legal practitioner in a common law jurisdiction outside Australia. Before lodging an application, applicants must contact the Legal Profession Admission Board (LPAB) of the NSW Supreme Court to determine the subjects they are required to complete to be eligible for admission to practise in NSW. Further details about admission is available at: lpab.justice.nsw.gov.au Notification from the LPAB, listing the subjects required, must accompany the application for admission into the course.
C11229	Intellectual Property	1	\$22,675	Mar/Jul/Nov	N/A^	129	A UTS recognised bachelor's degree, or an equivalent or higher qualification.
C11265	Laws	1	\$22,675	Mar/Jul	095711E	125	A UTS recognised bachelor's degree, or an equivalent or higher qualification. A relevant, appropriate first degree is the UTS Bachelor of Laws, or equivalent or higher law qualification. Students who have graduated with a Shari'a law degree are not eligible to apply for this course.
C11264	Legal Studies	1	\$23,600	Mar/Jul	095712D	127	A UTS recognised bachelor's degree, or an equivalent or higher qualification. Previous qualifications must be in a discipline other than law.
C11232	Professional Legal Practice	1*	\$20,145	Mar/Jul	077342G	127	A UTS recognised bachelor's degree, or an equivalent or higher qualification. Applicants may also be eligible to commence their studies in PLT once they have completed all core law subjects and have no more than two electives, or 12 credit points of electives, remaining in their equivalent qualification. For this course the equivalent qualification required is a bachelor's degree in law, the Juris Doctor, the LPAB Diploma in Law, or a law qualification from an overseas jurisdiction. Lawyers with overseas law qualifications should consult with LPAB for admission purposes in order to practise law in NSW.

Note: Fees listed are correct for 2020 only and are subject to an increase each calendar year. The published fee is based on 24 credit points per session. Please see UTS website for fee details. To find the latest information about your course, please search here: uts.edu.au/future-students

^ This course is offered by distance only. You cannot obtain a student visa to study this program in Australia.

* This course includes compulsory 15 weeks of practical experience.

Course Code	Course Name	Course Duration (Session)	Course Fee (A\$/Session)	Course Intake	CRICOS Code	Page number	Minimum Entry Requirements
LAW (CONTINUED)							
C11130	Trade Mark Law and Practice	1	\$22,675	Mar/ Jul/ Nov	N/A^	129	A UTS recognised bachelor's degree, or an equivalent or higher qualification. Applicants who have not gained the requisite tertiary qualifications may be provisionally admitted into the program if they can provide evidence of equivalent work experience. Such applicants should also contact the Trans-Tasman IP Attorneys Board to clarify the full requirements for registration as a trade marks attorney.
GRADUATE DIPLOMAS							
C07073	Australian Law	2	\$23,600	Mar/Jul	016613F	125	A UTS recognised bachelor's degree, or an equivalent or higher qualification. Applicants must hold a bachelor's degree in law from outside Australia or be admitted as a lawyer in a jurisdiction outside Australia. Before lodging an application, applicants must contact the Legal Profession Admission Board (LPAB) of the NSW Supreme Court to determine the subjects they are required to complete to be eligible for admission to practise in NSW. Further details about admission is available at: lpab.justice.nsw.gov.au Notification from the LPAB, listing the subjects required, must accompany the application for admission into the course.
C06099	Intellectual Property	2	\$22,675	Mar/ Jul/ Nov	N/A^	128	A UTS recognised bachelor's degree, or an equivalent or higher qualification.
C07122	Legal Studies	2	\$23,600	Mar/Jul	080597C	126	A UTS recognised bachelor's degree, or an equivalent or higher qualification. Previous qualifications must be in a discipline other than law.
C06122	Migration Law and Practice	2	\$20,955	Mar/ Jul/ Nov	N/A^	130	Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification or work experience.
MASTER'S DEGREES BY COURSEWORK							
C04251	Intellectual Property	3	\$22,675	Mar/ Jul/ Nov	N/A^	128	A UTS recognised bachelor's degree, or an equivalent or higher qualification.
C04143	Laws	2	\$22,675	Mar/Jul	001125A	124	A UTS recognised bachelor's degree, or an equivalent or higher qualification. A relevant, appropriate first degree is the Bachelor of Laws or the Juris Doctor, or a Bachelor of Laws or LPAB Diploma in Law together with a graduate certificate in the discipline of law. Students with a Bachelor of Laws from a non-common law country are required to complete 78234 Common Law Legal Traditions in their first session of study. Students who have graduated with a Shari'a law degree are not eligible to apply for this course.
C04264	Legal Studies	4	\$23,600	Mar/Jul	080598B	126	A UTS recognised bachelor's degree, or an equivalent or higher qualification. Previous qualifications must be in a discipline other than law.
JURIS DOCTOR							
C04236	Juris Doctor	6	\$23,600	Mar/Jul	060932C	122	A UTS recognised bachelor's degree, or an equivalent or higher qualification. The previous qualification required is a bachelor's degree in a discipline other than law or a law qualification from an overseas jurisdiction.
C04320	Juris Doctor Graduate Certificate in Professional Legal Practice	7	\$24,550	Mar/Jul	092803C	123	
C04250	Juris Doctor Master of Business Administration	8	\$24,550	Mar/Jul	074765J	122	
RESEARCH DEGREES							
C03024	Master of Laws (Research)	4	\$16,535	Mar/Jul	006407F	-	A UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies. Previous qualifications must be in a relevant discipline, usually with honours or a distinction average.

^ This course is offered by distance only. You cannot obtain a student visa to study this program in Australia.

SCIENCE (CONTINUED)

C04373	Quantitative Finance	2*	\$20,555	Mar/Jul	088930G	138	A UTS recognised bachelor's degree, or an equivalent or higher qualification. Previous qualifications must be in finance or have a strong mathematical background.
C04388	Medical Biotechnology (Extension)	4	\$20,145	Mar/Jul	098056G	133	A UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies. Entry into the course requires a bachelor's, master's, graduate diploma, or graduate certificate qualification in biochemistry and cell biology, microbiology, human biology, genetics, laboratory technology, medical science, food science and biotechnology, or pharmacology.
C04390	Medical Biotechnology	3	\$20,145	Mar/Jul	098057F	132	
C04392	Forensic Science (Extension)	4	\$20,145	Mar/Jul	098060M	136	A UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies. Entry into the course requires the completion of a bachelor's, master's, graduate diploma, graduate certificate qualification in chemical sciences, biochemistry and cell biology, human biology, forensic science or medical science
C04391	Forensic Science	3	\$20,145	Mar/Jul	098061K	135	

MASTER OF SCIENCE BY RESEARCH

C03026	Mathematical Sciences	4	\$20,145	Mar/Jul	032335A	–	A UTS recognised qualification equivalent to an Australian bachelor's degree in a relevant field and demonstrated potential to undertake research. Submission of a research proposal and demonstration of necessary technical skills required.
C03029	Science (Research)	4	\$20,145	Mar/Jul	030869J	–	

DOCTOR OF PHILOSOPHY

C02030	Mathematics	8	\$20,145	Mar/Jul	009463G	–	A UTS recognised qualification equivalent to an Australian master's degree or bachelor's degree with first or second class honours (division 1) in a relevant field and demonstrated potential to undertake research studies. Submission of a research proposal and demonstration of necessary technical skills required.
C02031	Science (Research)	8	\$20,145	Mar/Jul	008663G	–	

TRANSDISCIPLINARY INNOVATION

MASTER'S DEGREES BY COURSEWORK

C04322	Animation and Visualisation	2**	\$17,640	Jan	092411G	142	<p>A UTS recognised bachelor's degree, or an equivalent or higher qualification.</p> <p>Applicants must also submit:</p> <ul style="list-style-type: none"> - a digital portfolio of art, design or visualisation work (up to 10 pages in PDF or a QuickTime showreel of no more than 10 minutes duration) or documented experience in Programming for Digital Production or Visualisation; and - a 300 word personal statement addressing the applicant's reasons for seeking placement in the ALA MAV; and - a CV that clearly articulates the applicant's education, training and experience in a specialisation area of digital production or visualisation and a concise account of the individual role played in the creation of any work submitted. <p>Selected applicants are required to undertake a short interview. This will be conducted by Skype if the student is unable to attend campus.</p>
--------	-----------------------------	-----	----------	-----	---------	-----	--

* This course includes a compulsory summer session.

** This course include non-standard sessions.

TRANSDISCIPLINARY INNOVATION (CONTINUED)

C04372	Data Science and Innovation	4	\$19,760	Mar	084268K	142	A UTS recognised bachelor's degree, or an equivalent or higher qualification. Previous qualifications should be in one of the following areas: mathematical sciences; computer science; physics and astronomy; engineering; accounting; banking, finance and related fields; economics and econometrics. If academic qualifications are not in these fields, the applicant must provide evidence of prior learning and demonstrated capability with quantitative data skills, key mathematical concepts and programming experience. Applicants must also submit a CV demonstration a minimum of three years professional/ industry experience or a demonstrated equivalent and a one page personal statement.
C04372	Data Science and Innovation	5	\$19,760	Jul	093052G	142	

MASTER OF SCIENCE BY RESEARCH

C03063	Master of Transdisciplinary Innovation (Research)	4	\$17,175	Mar/Jul	098418G	-	A UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies.
--------	---	---	----------	---------	---------	---	---

DOCTOR OF PHILOSOPHY

C02067	Doctor of Philosophy (Transdisciplinary Innovation)	8	\$17,175	Mar/Jul	098417J	-	A UTS recognised master's by research or bachelor's degree with first or second class honours (division 1), or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies.
--------	---	---	----------	---------	---------	---	---

ANALYTICS AND DATA SCIENCE

DOCTOR OF PHILOSOPHY

C02062	Doctor of Philosophy (Learning Analytics)	8	\$17,640	Mar/Jul	088537F	-	A UTS recognised master's by research or bachelor's degree with first or second class honours (division 1), or an equivalent or higher qualification.
--------	---	---	----------	---------	---------	---	---

INSTITUTE FOR SUSTAINABLE FUTURES

MASTER'S BY RESEARCH

C03032	Sustainable Futures	4	\$14,120	Mar/Jul	028886D	-	<p>A UTS recognised bachelor's degree, or an equivalent or higher qualification in a relevant field. Applications to the Institute for Sustainable Futures are assessed based on the following four criteria:</p> <ul style="list-style-type: none"> - professional experience – strength and relevance to the candidate's opportunities (impact) - research output (quality and impact) - research proposal (quality) - academic merit (quality). <p>Submission of a research proposal is also required.</p>
--------	---------------------	---	----------	---------	---------	---	---

DOCTOR OF PHILOSOPHY

C02037	Sustainable Futures	8	\$14,120	Mar/Jul	032334B	-	<p>A UTS recognised master's by research or bachelor's degree with first or second class honours (division 1), or an equivalent or higher qualification. Applications to the Institute for Sustainable Futures are assessed based on the following four criteria:</p> <ul style="list-style-type: none"> - professional experience – strength and relevance to the candidate's opportunities (impact) - research output (quality and impact) - research proposal (quality) - academic merit (quality). <p>Submission of a research proposal is also required.</p>

NON-AWARD PROGRAMS							
C50007	Study Abroad Postgraduate Program	1	\$10,200	Mar/Jul	012083D	n/a	A UTS recognised qualification equivalent to an Australian bachelor's degree.
C50007	Study Abroad Postgraduate Program	2	\$10,200	Mar/Jul	018126E	n/a	
C50008	Visiting Research Students Program	1-4	\$10,200	Mar/Jul	066310G	n/a	<p>Applicants must:</p> <ul style="list-style-type: none"> - Be enrolled in a Doctoral or Masters by Research degree program at a UTS recognised overseas university; and - Meet the academics and language proficiency requirements of research degree programs as specified by the admitting faculty. Visiting Research students will not take out a UTS research degree award and will not be paid but will receive an official academic Transcript.
C50009	Australian Language and Culture Studies Program	1	\$10,200	Mar/Jul	012083D	n/a	The Australian Language and Culture Program Studies allows students who do not meet the English language requirements for Study Abroad or Exchange to study one to two sessions at UTS if they meet the English language proficiency level of IELTS 5.0 - 6.0 or equivalent.
C50009	Australian Language and Culture Studies Program	2	\$10,200	Mar/Jul	018126E	n/a	The Australian Language and Culture Program Studies allows students who do not meet the English language requirements for Study Abroad or Exchange to study one to two sessions at UTS if they meet the English language proficiency level of IELTS 5.0 - 6.0 or equivalent.

Notes: Eligibility for admission to a research degree is not a guarantee of acceptance. Submission of a research proposal is also required.

Each university has its own terminology, grading system and calendar. To make it as easy as possible for you to use this course guide, we have defined some of our key terms below. If you require further information, visit our website international.uts.edu.au or contact us at international@uts.edu.au

Academic adviser: a member of academic staff in a specific faculty who advises students to ensure they satisfy academic progression requirements.

Admission: the process of applying or a course or program at UTS, then being made an offer of admission, accepting that offer, and being admitted to study at UTS.

Advanced standing: see **Credit recognition**.

Assumed knowledge: additional prior knowledge specified by some courses as part of the entry requirements. This prior knowledge is often gained in specific subjects (such as physics or chemistry), or it may have been obtained elsewhere. If you do not have the required assumed knowledge, you may still be accepted, but a bridging course may be required.

Campus: the university grounds including the buildings.

Combined degree: the opportunity to study two programs from different academic areas at the same time and graduate with two degrees.

Course: an award course, non-award study or any part of a program of study offered by UTS, e.g. Master of Business.

Credit point: the unit of measure of workload for individual subjects (allocated based on the amount of work required in that subject). Credit points are gained by students enrolled in award courses when subjects are passed. When accumulated, credit points form one measure of the total requirements of a course. Most subjects at UTS are 6 to 8 credit points each.

Credit recognition: (also known as 'advanced standing', 'recognition of prior learning' and in some cases referred to as 'exemption' or 'credit') is the granting of credit to students for their previous learning for credit towards a course. For more information, please go to page 148.

CRICOS code: CRICOS stands for Commonwealth Register of Institutions and Courses for Overseas Students. The CRICOS code is an official code given to a course and institution to confirm that it is registered to be offered to international students.

Distance mode: is a teaching method that does not require students to attend classes on campus. Instead, distance mode students access their subject materials online or receive them by post. International students undertaking distance mode courses cannot obtain a student visa to study the course in Australia.

Electives: some courses allow you to choose elective subjects outside your core study area as part of your course. Not all electives are available each session. Due to timetabling, you may not always get your first choice electives.

English language requirements: To be eligible for admission into a postgraduate course, you must demonstrate proficiency in written and spoken English if your previous education was not conducted in English. Please see pages 144–145 for specific English language requirements for each course. These are subject to change.

Fees: are charged per credit point. The cost of each credit point will depend on the course you are studying (see uts.edu.au/future-students/international/essential-information/fees-information for the most up-to-date information on fees). The fees in this course guide have been calculated based on a 24 credit point session in 2020, unless otherwise stated.

Lectures: classes that are taught in large groups, usually conducted in lecture halls. The lecturer will provide students with course material, which is often later discussed and debated in smaller tutorial groups.

Major: an area you choose to specialise in during your studies. Your course will be structured around a sequence of subjects that form this major. Students can choose other unrelated subjects to undertake in conjunction with majors subjects, but cannot graduate unless the criteria of their chosen major is met.

Pre-requisite: one or more units of subject/s, specified by the faculty board that a student must already have completed before being eligible to enrol in a particular unit or course.

Recognition of prior learning (RPL): see **Credit recognition**.

Sessions: the blocks of time during which classes run on campus. At UTS, an academic year has three sessions. Autumn session runs from February/March to July, Spring session from July to November and Summer session from November to March.

Sub-major: a group of subjects which, alongside the major, will form the structure of your course. The sub-major works the same way as your major in that there will be a specific number of required credit points that need to be met.

Subjects: units that cover different areas within your chosen course. They are a combination of core subjects (these are compulsory) and electives.

Subject outline: an official document that represents the statement of subject requirements that is authoritative for both the university and the students undertaking the subject. It includes details of the minimum essential requirements necessary to pass the subject, material and equipment that may be taken into an examination and may prescribe attendance and/or participation requirements. All students should receive a subject outline for every subject in the first week of class.

Transnational: Delivery of Australian (or UTS) courses and qualifications overseas, allowing students to study Australian qualifications in their home country or region. Also known as offshore courses.

Tutorials: small classes of students that provide a more personal, interactive teaching space for students and tutors to discuss and debate topics related to the subject. Students can also ask any questions they may have about the course material.
