# Making our mark everywhere we go

With a degree from Swinburne, you can go anywhere in the world.

Melbourne. Milan. Malaysia. Our graduates are spread around the globe and work for some of the most dynamic organisations, from startups to not-for-profits to multinationals.

A degree from Swinburne means you'll have the prestige of a globally renowned university paired with the confidence that comes from genuine workplace experience.

When you graduate, you'll become one of thousands of Swinburne graduates around the world who are writing their own success stories.

And that's all because a degree from Swinburne sets you up for life.

# Everything your résumé needs

## We want your résumé to look good, like – really good!

University should be the place that makes you resilient, adaptable, driven, and employable. Which is why we arm you with this unmatched range of tools and experiences.

### Adobe Creative Campus

We're the first university in Australia to become one. Why? Because we want your résumé to stand out. Whether it's creating content, solving problems or knowing fact from fake, you'll know what to do, when to do it and how. Bonus – get free access to over 20 Adobe Creative Cloud apps and free consultations with our Adobe Digital Coaches!

### Real clients, real experience

Whether you plan to work in Australia or return to your home country, you'll gain valuable industry experience with a professional master degree. What sets it apart is the opportunity to apply your knowledge and problem-solving skills to an industry project, which will be a genuine challenge posed by a real client. You may even have the chance to work within their office.

### Careers and employment services

Our Careers and Employability team has experienced career counsellors who provide a range of free career services for current students and recent graduates. The centre also offers a range of additional services to assist students with employment, including:

- résumé-checking
- interview practice sessions
- on-campus employment fairs
- job workshops.

For more, visit [swinburne.edu.au/study/life/careers-employment](https://swinburne.edu.au/study/life/careers-employment)

# Our campuses

## Melbourne, Australia

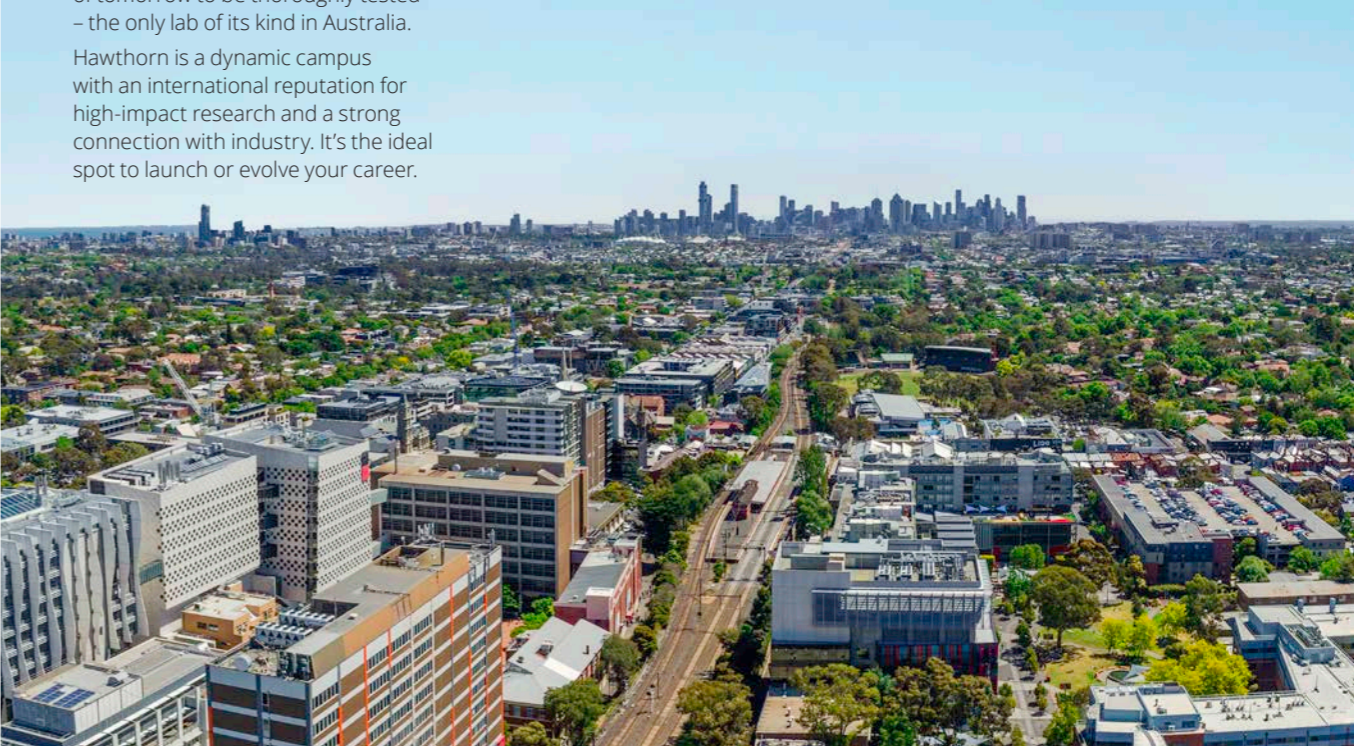

Our flagship campus is located in the leafy inner-city suburb of Hawthorn, close to cafés, gyms, specialty grocery stores and shops of every kind. It's here you can study our courses in business, engineering, health, IT, science, and much more.

Hawthorn campus is home to modern, world-class facilities fitted with cutting-edge technology. The A\$100 million Advanced Manufacturing and Design Centre enables students and industry to explore conceptual ideas for manufacturing next generation products. The Advanced Technologies Centre plays host to the Smart Structures Laboratory, a space that allows the structures and construction materials of tomorrow to be thoroughly tested – the only lab of its kind in Australia.

Hawthorn is a dynamic campus with an international reputation for high-impact research and a strong connection with industry. It's the ideal spot to launch or evolve your career.

## Sarawak, Malaysia

This campus is located in the city of Kuching in Sarawak, Malaysia. Kuching has been described as one of Southeast Asia's most liveable cities. Swinburne Sarawak offers courses in business, design, engineering, IT, and science. All courses are identical to those offered on the Hawthorn campus, and degrees are awarded with Australian testamurs. Swinburne Sarawak boasts a modern and pristine study environment with state-of-the-art facilities housed in contemporary buildings. The many recreational clubs, societies and activities make campus life at Swinburne Sarawak colourful and engaging.

Swintopia is the perfect place to visit us from wherever you are! Explore our campus anytime, meet the locals, and get to know our courses before you start studying in real life. Head to [swintopia.swinburne.edu.au](https://swintopia.swinburne.edu.au)

# Melbourne: Australia's top student city

Studying at Swinburne means studying in one of the world's most liveable cities.\*

Melbourne has been named Australia's top student city and third best in the world by the QS Best Student Cities Ranking\*. When you get to know Melbourne, it's easy to see why. Home to five million people, Melbourne is a thoroughly international city with amazing food, culture, scenery, and sport. Swinburne's Hawthorn campus is just ten minutes by train from the city centre. And, with Glenferrie train station directly on campus, plus bustling Glenferrie Road on our doorstep, you'll soon fall in love with this place you'll call home.

\*Melbourne named among the Top 10 most liveable cities in the world by The Global Liveability Index, 2021  
\*QS Best Student Cities Ranking, 2019

# Living in Melbourne

## Living costs

To live as a student in Melbourne you will require approximately A\$23,000 to A\$30,000 per year for ongoing living costs – not including tuition fees or airfares. Depending on your visa, you'll be able to work while you study in Australia.

It's also important to budget for the costs of moving to Melbourne and setting yourself up. We advise budgeting approximately A\$2500 to A\$5000 for these costs.

Keep in mind, your living costs will depend on your choice of accommodation, any dependents you might have, and your type of lifestyle.

Therefore, please use the information here as a rough guide only.

There are ways we might be able to help, for more information visit: [swinburne.edu.au/study/life/living-in-melbourne/costs-banking](https://swinburne.edu.au/study/life/living-in-melbourne/costs-banking)

The Australian Government requires prospective student visa applicants and any family members accompanying them to have access to minimum funds to meet the living costs requirements. For more, visit: <https://immi.homeaffairs.gov.au/visas/getting-a-visa/visa-listing/student-500>

## Amazing weather

Melbourne has warm summers, sunny springs, crispy leaved autumns and cool winters.

There's something for everyone with snow in the mountains and sun at the beaches.

## Incredible sport

Melbourne is the sporting capital of the world!

Here you can enjoy tennis at the Australian Open, cricket, horse racing, Formula 1 racing and, of course, Australian Rules Football.

## World's most liveable

Since 2015, Melbourne has consistently ranked as one of the world's most liveable cities, often in the #1 spot.

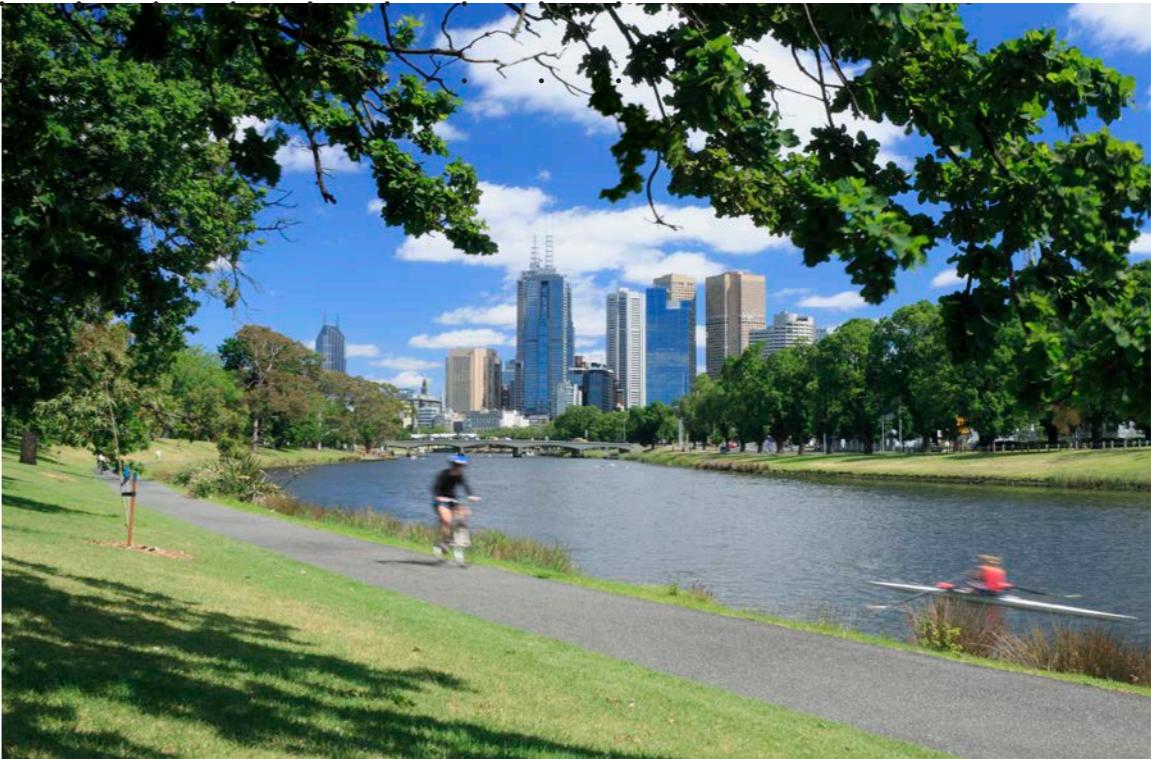

Global Liveability Index, The Economist Intelligence Unit.

Cara United States

"I love it here. Living in Melbourne is super convenient with amazing food all around. Having the train so close to campus makes it easy to get myself around pretty quickly and explore."

# Swinburne life is what you make it

## Uni is more than a place to study.

It's a place to expand your horizons, make new friends and experience – everything. We're here to empower your adventure with everything from clubs, activities and events to overseas trips and support services that can help you on your journey. Get involved in all that Swinburne has to offer.

### Facilities and services

There's a huge range of services to support your study and wellbeing:

- Careers and employment
- Housing
- Health
- Counselling
- Computer Labs
- Library
- Financial Advice
- Advocacy
- Legal Advice
- Disability support
- Campus wi-fi
- Child care

### Learning and Academic Skills Centre

Attend free workshops and seminars, access online resources, or chat with an adviser. Develop your skills in:

- essay, report and thesis writing
- maths, statistics, physics and chemistry
- presenting
- researching and referencing
- making assignments more professional
- preparing for exams.

Visit [swinburne.edu.au/las](https://swinburne.edu.au/las)

### Mathematics and Statistics Help Centre

Here's where you can ask questions about the maths and statistics in your course. Visit [swinburne.edu.au/mash](https://swinburne.edu.au/mash)

### International Student Advisers

Living and studying away from your home country can be challenging. That's why, at Swinburne, we have dedicated International Student Advisers available to help you at any time. Whether you've had an accident, or need advice on jobs, visas, or accommodation, Swinburne's International Student Advisers are here to help you – no matter what issues you face.

For more, visit [swinburne.edu.au/internationalstudentsupport](https://swinburne.edu.au/internationalstudentsupport)

### Swinburne student life

Swinburne Student Life coordinates clubs, societies, sporting programs and events across all campuses. Get along to these and get the full university experience.

Visit [swinburne.edu.au/studentlife](https://swinburne.edu.au/studentlife)

### Your safety comes first

At Swinburne, your safety and wellbeing is our priority. That's why we provide services, which include:

- an after-hours information hotline
- a night bus service from campus to local destinations
- security and public service officers
- the Safe@Swin App available to download.

# Scholarships

## Excited about moving here to study?

We're just as thrilled to welcome you.

When you apply for a Swinburne course, we'll automatically consider you for an international scholarship. If you are successful, we'll advise you of both your course application and scholarship success by email.

With an international scholarship, you could get up to 75% off your course fees. Even though you might start your Swinburne studies online in your home country, you can still apply for a course and be considered for one of our amazing international scholarships. You're also welcome to apply for our general scholarships.

### Swinburne International Alumni Direct Scholarship

Up to A\$21,000 total

This could be for you if you:

- are applying for a postgraduate degree at Swinburne
- are applying directly to Swinburne and not via an agent or authorised representative
- already hold an undergraduate or postgraduate degree from Swinburne, or have recently completed a Swinburne pathway course.

### Swinburne International Excellence Postgraduate Scholarship

10–75% off your course fees every year

This could be for you if you're studying any master degree by course work or research. You can receive this scholarship for a maximum of two years.

### ELICOS+ Exclusive

Up to 10 weeks ELICOS tuition included in packaged programs, valued up to A\$4400.

ELICOS+ Exclusive helps get your English up to university standard so you're ready to start your Swinburne course with confidence. It refunds up to 10 weeks of your ELICOS tuition fees across the first three semesters of your Swinburne course.

### George Swinburne Postgraduate Scholarship

30% off your course fees for the duration of the course

The scholarship is available to all international students who meet the entry requirements of the eligible courses. For a full list of eligible courses, please head to our website.

### Swinburne X LinkedIn International Program

30% fee reduction for online study in your home country

Start your course from home. If eligible, you'll receive a 30% fee reduction on any units completed online before you join us on campus. You're automatically considered for the Swinburne X LinkedIn International Program when you apply for a course with a 2022 start date\* you'll also get:

- credit for every online unit you complete
- exclusive access to LinkedIn Learning for the duration of your course
- seminars with LinkedIn experts on finding a job in Australia & boosting your CV.

\*Please note that on-campus start dates are dependent on government travel advice.

For our full range of scholarships, visit [swinburne.edu.au/study/international/scholarships](https://swinburne.edu.au/study/international/scholarships)

"I chose Swinburne because of its connections with industry."

Monica

Master of Engineering Science, scholarship recipient

Winning a scholarship has made study in Australia possible for Monica, who hails from Colombia. In her previous job, she was a petroleum engineer, but she is fascinated by renewable energy and hopes to contribute to advances in the field when she graduates.

# They came, they thrived

Once Swinburne students, these graduates now work in Melbourne and around the world — as directors, managers, engineers and more.

Leading social enterprise and creating jobs

**Huong Dang Thi**

Director of Marketing and Partnerships Engagement, KOTO and Founder, Hopebox  
Master of Entrepreneurship and Innovation

For Huong Dang Thi, success means helping others. She is a leader in Vietnam's social enterprise movement and the founder of HopeBox, a not-for-profit creating jobs for women who have fled domestic violence.

As a young woman, Huong lived on the streets of Hanoi and dreamed of an education. She received a scholarship to study in Australia through Know One Teach One (KOTO), an organisation providing training to disadvantaged youth. After completing her master degree at Swinburne, Huong returned to work at KOTO, the organisation that changed her life. Huong thrived at Swinburne and calls Australia her "second home".

From student to site engineer

**Salonie Saxena**

Site Engineer, Coleman Rail  
Bachelor of Engineering (Civil) (Honours)

For Salonie Saxena, a six-month professional placement at Coleman Rail led to a full-time position. She is now a Site Engineer managing light rail projects in Melbourne, a role she describes as "very hands-on". She says her degree helped her transition smoothly into the workforce.

Salonie excelled in her studies, receiving an Engineers Without Borders scholarship in 2015. In 2016 she spent over 300 hours volunteering at Swinburne, alongside part-time work and full-time study. She was also a Swinburne Ambassador and tutored a first-year subject for two semesters. Salonie says these experiences helped her become the confident person she is today.

A small business champion

**Abdul Hafiz**

Managing Director, Purplesoft Technology Pty Ltd  
Master of Information Technology (Network Systems)

Abdul Hafiz always wanted to run his own business. In 2016 his dream became a reality when he launched Purplesoft Technology, a leading Australian software development and digital marketing company.

Purplesoft was named one of Anthill Magazine's Top 100 Coolest Companies in Australia in 2018 and was also a finalist in the 2019 Australian Small Business Champion Awards. Abdul says that working part-time during his degree helped him build his network and taught him valuable lessons about having a successful career in Australia.

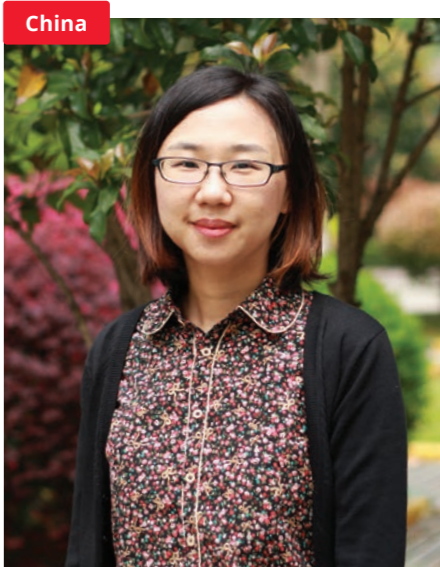

Designing for top developers and Mercedes-Benz

**Tennyson Chia**

Managing Director, Sachi Interior Design Sdn Bhd  
Master of Design (Interior Design)

Tennyson's proudest achievement is founding an award-winning interior design firm only a few years after graduating. His firm, Sachi Interior Design, won a Best Interior Design (Showhouse) award at Malaysia's Designer of the Year Awards 2018.

Networking for success

**Yue Chenxi**

Marketing Operations Manager, Chinasoft  
Bachelor of Engineering (Civil) (Honours)

Hard work, determination and strong relationships have helped Yue Chenxi excel in top Chinese information technology companies. After returning to China, Yue accepted a role at Huawei, one of the world's top 100 enterprises. She now leads marketing operations at Chinasoft International. Yue believes that a strong network is vital to career success. The lifelong friendships she made at Swinburne have led to several job referrals. She enjoyed the small class sizes and says that her degree gave her better English skills and a deeper understanding of Western culture compared to many of her peers in China.

# Arts, Humanities and Social Sciences

Imagine the world differently or invent new ones.

When you study arts and humanities with us, you'll learn the theory and the practice of your discipline. It's why 96% of our grads find full-time jobs within four months of graduating. You'll develop the knowledge and skills to explore and explain the world differently.

**A\$16K**

# Built Environment and Architecture

Create, build, and thrive in the future you want to live in.

Take on the challenge in the following areas: design, professional architectural practice, urban policy, landscape architecture, and sustainability.

### Our Smart Cities Research Institute

As cities continue to grow, we face enormous challenges – climate change, a potential decrease in energy, food and water security, an ageing population, mobility issues, and disruptions to the nature of work and living, to name the most pressing concerns. Swinburne's Smart Cities Research Institute seeks new and innovative transdisciplinary approaches to solve these unique challenges. Be a part of it.

### Master of Architecture

🕒 2yrs 📍 Melbourne 📅 February, August 💰 A\$37,080/year

Core professional practice studies prepare students for the current status and future trajectories of the regulatory, ethical, entrepreneurial, and management landscape of professional architectural practice. The research-driven, studio-centric curriculum provides students with global understanding of built, virtual and Industry 4.0 environments through local engagement.

**Topics covered:** Design studio, construction and professional practice, contextual studies, communication.

### Master of Architecture and Urban Design

🕒 2yrs 📍 Melbourne 📅 February, August 💰 A\$37,080/year

The first of its kind in Australia, this course embraces aspects of strategic planning, urban policy, landscape architecture and architecture as well as health, mobility, data science and technology.

The course focuses on use of big-data and analytics combined with emerging digital technology, aimed towards addressing issues of sustainability, liveability and health and wellbeing.

**Topics covered:** Design strategy, design management, sustainability in design, design studio, construction and professional practice, contextual studies, communication.

### Master of Urban Design

🕒 2yrs 📍 Melbourne 📅 February, August 💰 A\$37,080/year

The discipline of urban design embraces aspects of strategic planning, urban policy, landscape architecture and architecture as well as health, mobility, data science and technology.

This course has a focus on use of big-data and analytics combined with emerging digital technology, aimed towards addressing issues of sustainability, liveability and health, and wellbeing.

**Topics covered:** Design strategy, design management, sustainability in design.

**Key** 🕒 Duration 📍 Location 📅 Intake 💰 Tuition fee

Master of Business Information Systems

🕒 2yrs 📍 Melbourne 📅 February, August 💰 A\$35,900/year

Discover the power of information systems and how they impact business. Learn what information systems can do, how they can be deployed effectively and about models to elicit business intelligence. You'll learn to understand the technology from a business and strategy perspective.

**Topics covered:** Database analysis and design, requirements analysis and modelling, strategic project management, technology essentials, enterprise architecture, strategy and governance, IS/IT risk and professional issue.

**Specialisations:** Accounting, Business Analytics, Digital Marketing, Entrepreneurship and Innovation, Finance, Financial Technologies, Human Resource Management, International Business, Project Management, Research, Supply Chain Innovation.

**Professional recognition:** This course is professionally accredited by the Australian Computer Society (ACS). Graduates will also receive a certificate from the International Institute of Business Analysis, the world’s leading association for business analysis.

Master of Entrepreneurship and Innovation

🕒 2yrs 📍 Melbourne 📅 February, August 💰 A\$39,900/year

Gain an understanding of the hurdles, opportunities and fundamental requirements that must be in place in order to realise your vision for a new or renewed, organisation.

Discover the specific needs of entrepreneurs seeking to successfully commercialise an idea.

**Topics covered:** Entrepreneurship and innovation across a range of settings, critical thinking and problem solving, business strategy, finance, venture planning, and growth management.

Master of Finance

🕒 2yrs 📍 Melbourne 📅 February, August 💰 A\$38,300/year

Gain specialised knowledge in modern finance. Learn how to become a proficient analyst, respectful of ethical values and social responsibilities and able to demonstrate expertise in financial technology.

This degree incorporates at least 70 per cent of the CFA Program Candidate Body of Knowledge (CBOK), so you will have a head start on obtaining the Chartered Financial Analyst® designation.

**Topics covered:** Financial technology, data analysis and visualisation.  
**Specialisations:** Accounting, Business Analytics, Business Information Systems, Digital Marketing, Entrepreneurship and Innovation, Financial Technologies, Human Resource Management, International Business, Project Management, Research, Supply Chain Innovation.

Master of Financial Planning

🕒 1.5yrs 📍 Melbourne 📅 February, August 💰 A\$38,300/year

Designed for both new and already practising financial planners, you’ll gain the knowledge and skills required to provide tailored, professional financial advice while navigating complex financial matters.

Using the latest financial planning software for wealth management and financial planning (XPLAN), engage with industry through site visits, annual roadshows and guest speakers.

**Topics covered:** Accounting, ethics and client management, financial planning and management, international finance, economics.

**Professional recognition:** This course is professionally accredited through the Financial Planning Education Council (FPEC).

Master of Financial Technologies

🕒 2yrs 📍 Melbourne 📅 February, August 💰 A\$38,300/year

This master program includes a specialisation or electives from a wide selection of complementary business areas such as entrepreneurship and innovation, finance, project management, business information systems and business analytics.

Gain specialised skills to apply technology concepts, critical thinking and problem-solving methodologies in financial contexts.

Learn to communicate effectively within professional teams, and build your leadership and management skills.

**Specialisations:** Accounting, Business Analytics, Business Information Systems, Digital Marketing, Entrepreneurship and Innovation, Finance, Human Resource Management, International Business, Project Management, Research, Supply Chain Innovation.

Master of Human Resource Management

🕒 2yrs 📍 Melbourne 📅 February, August 💰 A\$38,300/year

Gain specialised human resource management and business knowledge. Develop skills in organisation behaviour, business strategy and entrepreneurial thinking. Gain the skills and knowledge to become a strategically astute, outcome-focused, innovative and entrepreneurial HR practitioner.

**Topics covered:** Human resource management strategy, professional communication, ethics, change management.

**Specialisations:** Accounting, Business Analytics, Business Information Systems, Digital Marketing, Entrepreneurship and Innovation, Finance, Financial Technologies, International Business, Project Management, Research, Supply Chain Innovation.

**Professional recognition:** This course is professionally accredited through the Australian Human Resources Institute (AHRI).

Master of Marketing

🕒 2yrs 📍 Melbourne 📅 February, August 💰 A\$38,300/year

Gain specialist knowledge in all aspects of marketing. Learn about branding and creative innovation, integrated advertising, digital marketing and marketing management. Acquire industry-relevant marketing tools and skills to apply your knowledge in the workplace.

**Topics covered:** Marketing strategy, social media marketing, market research and analysis, digital marketing, branding.

**Specialisations:** Accounting, Business Analytics, Business Information Systems, Entrepreneurship and Innovation, Finance, Financial Technologies, Human Resource Management, International Business, Project Management, Research, Social Media, Supply Chain Innovation.

Master of Project Management

🕒 2yrs 📍 Melbourne 📅 February, August 💰 A\$38,300/year

This degree takes an entrepreneurial perspective to provide a unique focus on managing complex, high-risk and innovative projects.

Gain expertise in project management across a range of industries. Learn about managing project teams, human resource management, change management, budgets and organisational behaviour. Develop problem-solving skills and learn how to establish and communicate innovative solutions to a range of audiences.

**Topics covered:** Strategic and complex project management; risk, quality, resource and financial management; leadership and governance.

**Specialisations:** Accounting, Business Analytics, Business Information Systems, Digital Marketing, Entrepreneurship and Innovation, Finance, Financial Technologies, Human Resource Management, International Business, Research, Supply Chain Innovation.

# Design

## Design the world the way you want it to be.

A design program could be right for you if you're interested in developing your skills in:

- design practice
- design research
- design strategy
- design management
- innovation processes
- sustainability in design.

### Swinburne Design Factory Melbourne

Swinburne Design Factory Melbourne is the first 'living lab' dedicated to design in Australia. It is part of the Design Factory Global Network – an international collective of universities offering innovative education, research and partnerships.

Student teams work in a professional setting to solve problems or improve products and services for business, government and not-for-profit organisations.

At Swinburne Design Factory Melbourne, students who aspire to a leading role in the global design business or in the area of design for social innovation have the freedom and resources to create solutions for contemporary needs, from idea generation and proof-of-concept to prototyping and testing.

Top 100

in the world for art and design.

### Master of Design

🕒 2yrs 📍 Melbourne 📅 February, August 💰 A\$33,580/year

Enhance your expertise in interdisciplinary design practice across visual communication design, industrial design, interior architecture and digital media design.

Broaden your skills and knowledge in design practice, 3D printing, interaction design, design management, computer-aided design and visualisation tools. Gain practical skills in a project-based studio environment that focuses on the role of design in society, innovation and the global economy. Undertake one of two interdisciplinary industry-connected streams. The Applied Design stream focuses on design practice and entrepreneurship, and the Design Factory Melbourne stream focuses on design innovation and strategy.

**Topics covered:** Design strategy, design research, digital design, entrepreneurship.

### Entry requirements

A recognised bachelor degree (or higher award) in design or related field\*, or a recognised bachelor degree in any discipline plus relevant professional experience\*\* in design or a related field.

\* Related fields may include architecture, landscape architecture, urban planning, digital arts, creative arts, multimedia or digital media, product design engineering, design technology, games, animation and interactivity, and creative industries.

\*\* Relevant professional experience must be documented in either a portfolio or a detailed CV.

**Key** 🕒 Duration 📍 Location 📅 Intake 💰 Tuition fee

# Education

## Mentor the next generation.

This is for you if you have a bachelor degree in a different field but would now like to become a school teacher.

You will complete 60 days of professional experience as part of your degree. Every class is held in an interactive workshop format so that you start developing your teaching and presenting skills from day one.

The end result – an easy, seamless transition to leading a classroom.

### Professional recognition

Both Master programs meet the academic requirements outlined by the Victorian Institute of Teaching (VIT), so graduates can register as teachers Australia-wide.

### Master of Teaching (Primary)

🕒 2yrs 📍 Melbourne 📅 February 💰 A\$28,390/year

Learn the latest technology, educational theories and practical skills required to teach in primary and middle school settings. Gain invaluable professional experience through a supervised placement in a primary school.

**Topics covered:** Teaching, learning and development; literacy and numeracy; health and physical education.

All students are required to have a valid police check and a Working with Children Check.

### Entry requirements

A recognised bachelor degree with at least one year of study relevant to one or more learning areas of the primary school curriculum. All applicants must demonstrate suitable English language proficiency and sit a non-academic online test to assess an applicant's personal and professional attributes.

### Master of Teaching (Secondary)

🕒 2yrs 📍 Melbourne 📍 O 📅 February 💰 A\$28,390/year

Learn innovative delivery techniques and combine contemporary research and advanced pedagogical knowledge and skills, with practicum opportunities.

Gain invaluable professional experience through three professional placements at a secondary school.

**Topics covered:** Teaching, learning and development; literacy and numeracy; innovation for education.

All students are required to have a valid police check and a Working with Children Check.

### Entry requirements

A recognised bachelor degree with at least one major in an approved secondary teaching area, and a minor in at least one other teaching area. All applicants must demonstrate suitable English language proficiency and sit a non-academic online test to assess an applicant's personal and professional attributes.

# Engineering

Learn the skills that will reshape the future.

Choose from our engineering programs in:

- building design
- engineering project management
- infrastructure modelling
- operations
- manufacturing processes
- risk management
- sustainability.

### Master of Professional Engineering

The key features of this course are the Professional Engineering Entrepreneurship Project unit and the Professional Industry Project.

These are opportunities to work on solutions for current, real industry briefs. You'll also be equipped for the transition to work via the Career Success Program, which includes specialist coaching and workshops to help you build your network and plan for the future.

engineering degrees.

### Entry requirements

A recognised bachelor degree in one of the following allied fields: civil engineering, building, architecture, quantity surveying, construction management, real estate; or other cognate engineering/technology disciplines assessed to be appropriate; or approved equivalent.

### Master of Engineering Practice

🕒 1yr 📍 Melbourne 📅 February, August 💰 A\$38,600/year

Build on your undergraduate study and develop specialised technical knowledge in the same or related engineering discipline.

Work on industry-based research projects and be prepared for careers in R&D, consulting, design, and testing across a variety of engineering disciplines.

**Topics covered:** Civil, electronics, mechanical and microelectronic engineering.

### Entry requirements

A recognised engineering honours degree (minimum four years of full-time study) in civil, infrastructure or construction; or a graduate certificate of engineering in civil, structural or construction management following on from a four-year engineering honours degree; or approved equivalent.

### Master of Engineering Practice/Master of Construction Management

🕒 2yrs 📍 Melbourne 📅 February, August 💰 A\$38,600/year

Develop advanced. knowledge and skills in civil or structural engineering and construction management practice related to design, construction, operation and maintenance of buildings and civil infrastructure.

**Topics covered:** Civil or structural engineering, and construction management.

### Entry requirements

A recognised engineering honours degree (minimum four years of full-time study) in civil, infrastructure or construction; or a graduate certificate of engineering in civil, structural or construction management following on from a four-year engineering honours degree; or approved equivalent.

### Master of Engineering Science

🕒 2yrs 📍 Melbourne 📅 February, August 💰 A\$38,600/year

Develop specialised technical knowledge in your engineering field or expand your expertise into a related engineering discipline. The degrees build on your existing engineering studies and knowledge, and expands your professional skills. Select a specialisation from one of seven options.

The Master of Engineering Science includes a research component designed to prepare you for independent research work.

### Entry requirements

A recognised engineering degree or engineering honours degree (minimum four years of full-time study) in an approved cognate field, or a graduate certificate or graduate diploma in engineering in an approved cognate field following on from a four-year engineering honours degree, or approved equivalent.

Specialising in

### Advanced Manufacturing

Gain an understanding of advanced and emerging manufacturing technologies. Learn the skills needed to direct the design, development and implementation of specific technologies and/or processes in modern global and local industries.

**Topics covered:** Manufacturing processes, sustainability, management, mechatronics and nanofabrication.

Specialising in

### Civil Engineering

Gain advanced theoretical and practical knowledge about the design, procurement and asset management aspects of civil infrastructure projects. Develop a comprehensive understanding of the issues and challenges associated with the civil engineering industry, including codes of practice; sustainability issues; environmental impacts; and financial, legal, project management and risk considerations.

Topics covered: Planning and management, sustainability, project management.

Specialising in

### Electrical and Electronic Engineering

Study four major areas of electrical and electronic engineering: power systems design, safety and control; signal processing; microelectronics; and control systems. Develop entrepreneurial thinking to foster innovation in your business, workplace or community.

Topics covered: Power systems design and analysis, problem solving, planning and management.

Master of Engineering Science (continued...)

Specialising in	Specialising in
<b>Industry 4.0 and Systems Engineering</b> In this first of a kind specialisation in Australia, you'll explore how Industry 4.0 – the future of manufacturing – integrates business and engineering systems to optimise how organisations operate. Plus, you'll get hands-on experience applying and designing the hardware and software systems and tools making it happen. Topics covered: cyber-physical systems, digital twinning, manufacturing, software and hardware systems, product lifecycle management, computer-aided design.	<b>Mechanical Engineering</b> Learn how to design items that move in an efficient and effective manner and how to apply this knowledge to any industry you can think of, including energy, manufacturing, defence and metal industries. Topics covered: CAD/CAM; computer modelling, analysis and visualisation; surface engineering.
Specialising in	Specialising in
<b>Structural Engineering</b> Gain advanced discipline-specific knowledge and skills for the design and analysis of building and civil structures as well as the advanced uses of both ordinary and new construction materials. Learn skills relevant to professional practice in all sizes of organisations, including public sector, private sector and non-profit. Topics covered: Building and civil structure maintenance, sustainability, infrastructure modelling, building design.	<b>Network Systems and Telecommunications</b> Gain advanced knowledge and mastery of practical skills related to network design, management and service provision of private and public network systems, wireless and broadband technologies, and the security and protection of networked and computer systems. Topics covered: Coding and compression algorithms, Internet for Things (I4T), advanced security.

Master of Professional Engineering

🕒 2yrs 📍 Melbourne 📅 February, August 💰 A\$42,600/year

Develop skills in professional management, communication, and research methods and principles in the engineering discipline.

Undertake research and project work. Apply your knowledge and skills to industry problems through a professional industry project. Enhance your awareness of industry and gain valuable networking opportunities.

**Topics covered:** Project management, sustainability, risk management, research methodology.

**Specialisations:** Construction engineering management, electrical and electronic engineering, engineering management, mechanical and production engineering, renewable energy, robotics and mechatronics, civil and structural engineering, sustainable manufacturing.

Entry requirements

A recognised four-year engineering degree or engineering honours degree, or a graduate certificate or graduate diploma in engineering following on from a four-year engineering honours degree, or approved equivalent.

**Note:** choice of specialisation is subject to students having completed an appropriate cognate undergraduate qualification.

**Key** 🕒 Duration 📍 Location 📅 Intake 💰 Tuition fee

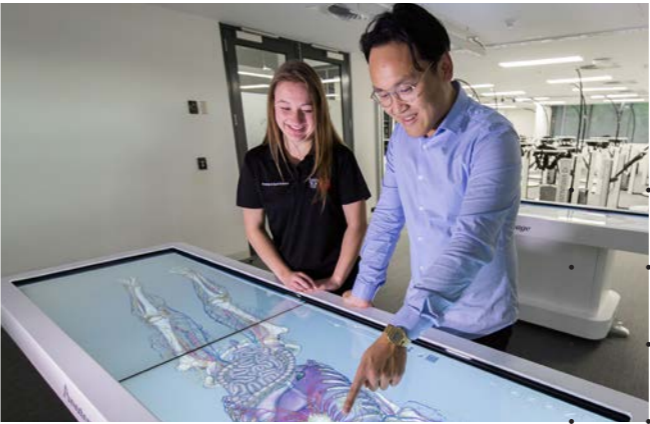

Health

As a health professional, you're a critical part of society.

Master your profession by coursework in the following areas:

- counselling
- dietetics
- forensic science
- occupational therapy
- physiotherapy.

You're also able to complete research degrees at the master and PhD level.

Master of Dietetics

🕒 2yrs 📍 Melbourne 📅 February 💰 A\$42,180/year

Develop skills in both traditional and emerging areas of dietetic practice, learning to work with a range of evolving food and health management strategies.

**Topics covered:** Sports nutrition, paediatric nutrition, entrepreneurship, leadership and business.

A\$11M

investment on state-of-the-art health facilities, including Anatomage tables, AR and VR learning devices.

Only uni in Australia

to have both MRI and MEG at a single site.

Scan for more info about our health degrees.

Entry requirements

A three-year degree in a related study area completed in the last ten years with a minimum 65% GPA in the last year of study; or postgraduate studies completed in the last ten years with a minimum 65% GPA in the last year of study; or significant relevant work experience. Subject prerequisites include: chemistry/biochemistry, human biology and human physiology, and food and nutrition science.

Master of Forensic Behavioural Science

🕒 1.5yrs 📍 Online\* 📅 February, August 💰 A\$32,960/year<sup>†</sup>

Learn to work effectively in the widest range of forensic environments and with the widest range of forensic populations and to deal with complex and challenging issues in an autonomous manner.

**Topics covered:** Risk assessment and management, mental disorder, difficult personalities, substance misuse, problem behaviours.

**Research:** Students have the option to undertake a specialised research component.

Entry requirements

A recognised three-year bachelor degree in social work, psychology, nursing, occupational therapy, youth work, child and family studies or policing; or approved equivalent; or at least five years' relevant work experience.

**Key** 🕒 Duration 📍 Location 📅 Intake 💰 Tuition fee

<sup>\*</sup>Courses taught online are only available to international students studying outside Australia.  
<sup>†</sup>Fees are for 2021. Visit [swinburne.edu.au/courses](https://www.swinburne.edu.au/courses) for more information

Graduate Diploma of Forensic Mental Health Nursing

🕒 1yr 📍 Online\* 📅 February, August 💰 A\$32,960/year<sup>†</sup>

Acquire in-depth knowledge and skills required to work effectively in forensic mental health nursing, including an understanding of legal and correctional systems, advanced instruction in the complex systemic and individual mental health factors that influence offending behaviour, and how to work effectively with challenging patients and behaviours.

**Topics covered:** Risk assessment and management, mental disorder, difficult personalities, substance misuse, problem behaviours.

Entry requirements

A recognised three-year bachelor degree in nursing or mental health nursing; or successful completion of the Graduate Certificate of Forensic Mental Health Nursing.

Master of Occupational Therapy

🕒 2yrs 📍 Melbourne 📅 June 💰 A\$39,230/year

Gain skills and knowledge to work with clients who have difficulty participating in everyday life activities due to neurological, musculoskeletal or mental health issues.

Complete three professional work placements in community- or hospital-focused agencies that offer short-and long-term therapy, as well as an innovative project-based placement in the Design Factory Melbourne. Working in teams, gain industry experience by developing innovative solutions to problems provided by industry partners and consumers.

**Topics covered:** Occupational therapy theory, progressive neurological disorders, stroke, acquired brain injury, autism, mental health conditions, developmental delay in children, assistive technology.

All students are required to have a valid police check and a working with children check.

Entry requirements

A recognised degree completed in the last ten years with a minimum 65% GPA in the last year of study plus at least one unit in anatomy and physiology; or postgraduate studies completed in the last ten years with a minimum 65% GPA in the last year of study plus at least one unit in anatomy and physiology; or equivalent qualification and/or significant relevant work experience.

Master of Physiotherapy

🕒 2yrs 📍 Melbourne 📅 August 💰 A\$45,810/year

Gain skills and knowledge to assess and treat individuals who are experiencing physical difficulties caused by illness, disability, chronic disease or injury.

Be equipped with problem solving and critical reasoning skills, knowledge and understanding to become a confident, resilient and enterprising entry-to-practice physiotherapist. Complete four clinical practice placements during the course to experience authentic clinical environments and health care systems.

**Topics covered:** Musculoskeletal, neurological and cardiorespiratory physiotherapy; digital health and technology; business, leadership and enterprise, community physiotherapy.

All students are required to have a valid police check and a working with children check.

Entry requirements

A three-year degree completed in the last ten years in a health science discipline and/or degree-level studies in human musculoskeletal anatomy and physiology with a minimum 70% GPA in the last year of study. Degrees completed more than 10 years ago may be considered on the basis of recent postgraduate study and/or relevant work experience.

Master of Data Science

🕒 2yrs 📍 Melbourne 🌐 SY 📅 February, August 💰 A\$37,080/year

Learn how to gain meaningful insight from data obtained from business, government, scientific and other sources.

Expand your knowledge and understanding of computer science and data analytics, develop skills in state-of-the-art techniques and contemporary tools covering the entire data management lifecycle.

**Topics covered:** Big data, statistics, data management, data visualisation, data mining, data science, machine learning.

**Entry requirements**

A recognised bachelor degree in any discipline, or completion of the Postgraduate Qualifying Program.

Master of Information Technology  
Master of Information Technology (Professional Computing)

🕒 1.5 to 2yrs 📍 Melbourne 🌐 SY 📅 February, August  
💰 12 units A\$27,112/year or 16 units A\$36,150/year

Gain the knowledge and skills required to design, develop and maintain complex systems using state-of-the-art technologies and methodologies.

Develop advanced specialist skills in areas such as networks, software development, and information systems analysis and management.

Apply your skills through industry-related project work, including industry-linked projects for real clients.

**Topics covered:** Business information systems, working with data, programming and applications, project management.

**Specialisations:** Data analytics, information systems, mobile and cloud computing, and software development.

**Professional recognition:** This program is professionally accredited by the Australian Computer Society.

**Entry requirements**

A recognised bachelor degree or successful completion of the Postgraduate Qualifying Program.

Applicants with a recognised bachelor degree in an IT-related discipline covering at least the fundamental knowledge of computer programming, web system development, database, and business applications of computer systems, are eligible to apply for the Master of Information Technology (Professional Computing).

Master of Science (Network Systems)

🕒 1.5 to 2yrs 📍 Melbourne 📅 February, August 💰 A\$27,112/year

Undertake advanced studies in telecommunication systems and the management of networks.

Develop theoretical knowledge and practical skills related to network design, the management and service provision of private and public network systems, wireless and broadband technologies, and the security and protection of networked and computer systems.

The programs prepare students for the Cisco Certified Network Associate and the Microsoft Certified Professional certification exams. Preparation for the Cisco Certified Network Professional programs is also available.

**Topics covered:** Network administration and programming, network design and management, wireless and mobile networks, digital security.

**Professional recognition:** These programs are professionally accredited by the Australian Computer Society.

**Entry requirements**

A recognised bachelor degree in engineering, science, or information technology.

Media and Communication

The digital age continues to disrupt industries across the world. Media and communication is no different.

- Put yourself at the cutting edge of digital disruption in:
- interactive content creation
  - journalism
  - radio
  - public relations
  - communications research
  - advertising
  - digital media production.

Master of Media and Communication

🕒 2yrs 📍 Melbourne 📅 February, August 💰 A\$32,550/year

Gain a range of media production skills and the digital technology, professional development, research and project management skills that can take your career to the next level.

Choose to specialise in media practice, strategic communication or social media management. Build relationships with industry and external stakeholders before you graduate with an industry-based media project.

**Topics covered:** New media, media production and practice, global media, media policy.

**Also see:** Master of Writing page 16.

# Psychology

Dive deeper into our understanding of human nature.

Take your career in clinical or forensic psychology to the next level in:

- research centres
- psychiatric hospital settings
- community mental health centres
- secondary and post-secondary education
- clinical rehabilitation services
- private practice.

**Swinburne's \$40 Million Neuroimaging Facility**

Swinburne is now set up to take part in the next big wave in data-driven insight. Located in the Advanced Technologies Centre, the facility is equipped with every contemporary type of technology for measuring brain activity, including a state-of-the-art magnetic resonance (MRI) scanner, plus six electroencephalography labs, and a magnetoencephalography lab for measuring brain activity. According to the facility's director, Professor Tom Johnstone, "Neuroscience has moved far beyond simply looking at blobs of brain activation, to looking at complex networks and interactions between neural, behavioural and physiological measures." This creates a lot of data. And to manage it, Prof Johnstone has introduced the Brain Imaging Data Structure (BIDS), that standardises data formats and parameters to minimise errors.

**Professional recognition**

The Graduate Diploma of Psychology and the Doctors of Philosophy in Clinical Psychology and Clinical and Forensic Psychology are professionally accredited by the Australian Psychology Accreditation Council.

**Graduate Diploma of Psychology**

🕒 1.5yrs 📍 Online\* 📅 March, July, November 💰 A\$28,600/year

Develop knowledge in psychology and apply this to research projects and psychology practice activities. Analyse human behaviour, neurological disorders and cognitive processes to deepen your understanding of human nature.

**Topics covered:** Social psychology, cognition and human performance, developmental psychology, psychology of personality, abnormal psychology.

**Professional recognition:** This course is professionally accredited by the Australian Psychology Accreditation Council (APAC), and is the first step to becoming a professional psychologist.

# Science

Home to internationally-leading research centres.

**Centre for Astrophysics and Computing**

We operate OzStar, a national supercomputing facility where simulations are conducted and observational data is processed. Our agreement with the Keck Observatory guarantees our researchers at least 15 nights of observation a year, and we have an active program of research and development in the planned Square Kilometre Array project, among other ongoing ones.

**Centre for Quantum Technology Theory**

Modern problems in theoretical physics are wide-ranging. We focus on a variety of topics from ultra-cold atoms to genetics, computational science, quantum information, condensed matter and the foundations of quantum mechanics.

**Centre for Translational Atomaterials**

Our research directly contributes to the development of a new generation of atomic materials and technologies, which will have a long-lasting impact in the societal and business enterprise landscape of Australia, and worldwide.

**Optical Sciences Centre**

We conduct research addressing scientific and technological challenges in the domain of optical sciences spanning classical and quantum photonics, light-matter interactions, nanotechnology, biomedical and biosciences, quantum gases and quantum materials.

**Master of Science (Astronomy)**

🕒 1.5yrs 📍 Online\* 📅 February, August 💰 A\$21,680/year<sup>†</sup>

Explore the stars and the Milky Way and gain an insight into galaxies and theories of dark matter. Investigate the origins and evolution of our solar system, the terrestrial and giant planets, planetary atmospheres and surface phenomena.

**Topics covered:** Astrophotography, cosmology, stars and the solar system, galaxies, planetary science, stellar astrophysics.

**Master of Science (Biotechnology)**

🕒 2yrs 📍 Melbourne 📅 February, August 💰 A\$38,110/year

Gain an in-depth understanding of the fundamental principles of biotechnology, including molecular biology; biochemistry; microbiology; and medical, industrial, forensic, agricultural and environmental biotechnology.

**Topics covered:** Environmental biotechnology, genes and molecular biology, scientific problem-solving, research methodology.

**Professional recognition:** Graduates may be eligible for membership of AusBiotech Ltd, Genetics Society of Australia, Australian Society of Biochemistry and Molecular Biology, and Australian Society for Microbiology.

**Entry requirements**

A recognised bachelor degree in biological or chemical science.

## Higher Degrees by Research

Expand your understanding.

Research degrees give you the opportunity to lead original research and dive deeper into a topic than anyone else has before you. It could be your gateway to academia, the next step in your career, or simply your way of understanding the world around us.

## Outstanding world-changing research

At Swinburne, we are dedicated to undertaking outstanding research that creates impact. Our research addresses issues that relate to modern societal challenges, regularly making deep intellectual contributions in fields that inspire and excite us.

As a trusted and respected leader in research excellence, we are determined to create real-world impact that transforms our global and local communities for the better.

Swinburne's research and development activities are concentrated on the following outcomes:

- [illegible]

## Australia's first Nobel Peace Prize

A lifelong activist, Dimity has always pursued the goal of nuclear weapon disarmament. She co-founded ICAN, the International Campaign to Abolish Nuclear Weapons. In 2017, ICAN worked with governments around the world to advocate for the Treaty on the Prohibition of Nuclear Weapons in the United Nations, where 122 countries voted in its favour.

Dimitry says that what she learnt at Swinburne really built her abilities in writing, research and critical thinking, key skills when it comes to her complex work. And for their efforts, ICAN was awarded a Nobel Peace Prize. However, she knows that the fight is far from over – 69 nations abstained from the vote, including countries with nuclear weapons and members of NATO. Yet she looks forward to every coming challenge.

In 2019, Dimity was recognised in the Queen's Birthday Honours List for her significant service to the global community as an advocate for nuclear non-proliferation and disarmament.

Dimity Hawkins AM

Co-Founder of ICAN, Nobel Peace Prize Winner  
Bachelor of Arts (Honours) majoring in Politics  
and current PhD student

Master by Research

🕒 2yrs 📍 Melbourne 📍+ S 📅 All year 💰 See page 45

Undertake supervised research in a related discipline of your choice. Develop a range of skills, including independent thinking, project management, data analysis and critical thinking as well as refined communication skills.

Swinburne offers Masters by Research study in broad research areas:

- Arts
- Business
- Design
- Engineering
- Health Sciences
- Information and Communication Technologies
- Law
- Science

## Doctor of Philosophy

🕒 2yrs 📍 Melbourne 📍+ S 📅 All year 💰 See page 45

Undertake supervised research with the aim of making a significant and original contribution to a discipline or profession.

Swinburne offers PhD study in broad research areas:

- Business
- Business – Practice Based Research
- Clinical Psychology
- Design
- Engineering
- Health Sciences
- Humanities, Arts and Social Sciences
- Information and Communication Technology
- Information Systems
- Law
- Science
- Technology Innovation – Science, Engineering and Technology
- Technology Innovation – Health, Arts and Design
- Technology Innovation – Business and Law.

Doctor of Psychology [Clinical and Forensic Psychology]

🕒 4yrs 📍 Melbourne 📅 All year 💰 A\$36,360/year

This professional doctorate combines intensive high-level research training in clinical psychology and training in forensic psychology by way of coursework, clinical placements and a research thesis concerned with clinical forensic psychology.

### Entry requirements

A three-year degree with a minimum average of 65% in the final-year units of study. Other relevant experience will also be taken into account in assessing applications.

### Entry requirements

Completion of at least four years (or equivalent) of tertiary education studies in a relevant discipline at a high level of achievement, and approved for the award of the degree(s) for which they studied. A high level of achievement is defined as the equivalent of a four-year Swinburne honours degree that includes a significant research component in the fourth year, leading to an honours degree class 1 (average grade 80–100) or class 2A (average grade 70–79) level.

### Entry requirements

A four-year degree from an Australian university and completion of a four-year sequence of studies in psychology at first or upper second-class level in a course or courses accredited by the Australian Psychological Society, or equivalent overseas qualifications recognised by the APS, or a masters degree in psychology recognised by the APS.

A 3x15 grid of dots, representing a 3x15 grid of points. The dots are arranged in three rows and fifteen columns, forming a rectangular grid.

# English language courses

## ELICOS+ Exclusive

Up to 10 weeks ELICOS tuition included in packaged programs, valued up to A\$4400. ELICOS+ Exclusive helps get your English up to university standard so you're ready to start your Swinburne course with confidence. It refunds up to 10 weeks of your ELICOS tuition fees across the first three semesters of your Swinburne course. Swinburne is the only Australian university offering ELICOS+ Exclusive.

## Why study English at Swinburne?

- As an English language student at Swinburne, you'll enjoy the following benefits:
- learning at one of the top 75 universities in the Asia Pacific for student satisfaction<sup>1</sup>
  - excellent education – Swinburne is ranked the top 20% of Australian universities for overall educational experience<sup>2</sup>
  - the ability to progress directly into other Swinburne programs
  - personalised study experience and extensive student support
  - free English testing
  - a maximum of 18 students per class
  - studying in Australia's top student city – and third best in the world<sup>3</sup>

1 Times Higher Education World University Rankings 2019  
2 Student Experience Survey 2019 and 2020  
3 QS Best Student Cities Ranking 2019

## What will it cost?

English language courses cost A\$440 per week. Course duration 5 to 60 weeks.

## When can I start?

- Don't wait to start improving your English. We run classes every five weeks:
- 3 January 2022
  - 14 February 2022
  - 21 March 2022
  - 2 May 2022
  - 6 June 2022
  - 18 July 2022
  - 29 August 2022
  - 10 October 2022
  - 14 November 2022

## General English (levels G1 to G3)

Think of these as your English essentials. These fun and interactive classes are designed to maximise your independence and personal development. They'll help you improve your overall English so you can speak with confidence and take on our higher level English programs.

## English for Academic Purposes (levels EAP 3 to EAP 5)

These courses are a step up from General English and will give you direct pathways into Swinburne's certificate, diploma, bachelor, master and even PhD courses. You'll delve into the finer details of effective and persuasive communication to help prepare you for success in your studies and career.

These classes use scientifically-supported learning strategies and real-world case studies. You'll learn how to critically analyse and respond to a range of current media, including TED talks.

## English language requirements for postgraduate study

- If you want to pursue postgraduate studies at Swinburne, you'll need to successfully complete one of the following English language requirements:
- Swinburne's EAP 5 (Advanced level) with overall 70% and all skills 65% or above
  - Minimum IELTS overall band of 6.5 (Academic Module) with no individual band below 6.0
  - TOEFL (internet-based) minimum score of 79 with no band less than 13 in reading, 12 in listening, 18 in speaking, 21 in writing
  - Pearson (PTE) minimum score of 58 (no communicative skills less than 50).

Note: the Masters of Dietetics, Occupational Therapy, Physiotherapy, and Teaching have higher English proficiency requirements. Refer to Course Search for more information:  
[swinburne.edu.au/study](http://swinburne.edu.au/study)

# Postgraduate Qualifying Program

## The skills to succeed

The Postgraduate Qualifying Program (PQP) combines English language training and academic studies to equip you with the skills you'll need to succeed in postgraduate study.

Successful completion of the PQP provides a guaranteed pathway to the first year of a range of postgraduate degrees including:

- Master of Business Administration (MBA)
- Master of Business Information Systems
- Master of Data Science
- Master of Entrepreneurship and Innovation
- Master of Finance
- Master of Financial Planning
- Master of Financial Technologies
- Master of Human Resources Management
- Master of Information Technology
- Master of Marketing
- Master of Media and Communication
- Master of Professional Accounting
- Master of Professional Accounting (Extended)
- Master of Project Management
- Master of Social Impact
- Master of Supply Chain Innovation.

## International Excellence Pathway Scholarship

You may be eligible for our International Excellence Pathway Scholarship and get A\$2500 deducted off your pathway program fees. You may then be eligible for a Swinburne International Excellence Postgraduate Scholarship with 10%–75% off your master degree fees every year for a maximum of two years.

## PQP at a glance

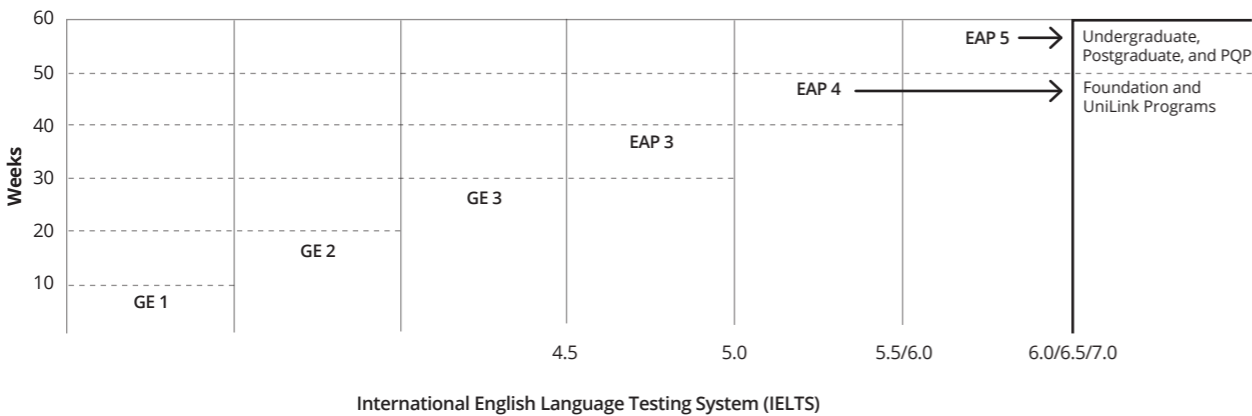

Duration	6 months
Intake	February, August
Location	Melbourne, Australia
Tuition fee	A\$14,100
Course structure	You'll complete four units: COM10010: Academic Practices and Communication Skills LAL10003: Applied Academic Literacies MFP30001: Critical Thinking for Further Study MFP30002: Research Techniques for Further Study
Academic requirement	Successful completion of an accredited three-year post-secondary qualification from a recognised institution (equivalent to post-Year 12).
English language requirements	Swinburne's EAP 5 (Advanced level) with overall 65% and all skills 60% or above. Minimum IELTS overall band of 6.0 (Academic Module) with no individual band below 5.5. TOEFL (internet-based) minimum score of 60 with no band less than 10 in reading, 9 in listening, 16 in speaking, 19 in writing. Pearson (PTE) minimum score of 50 (no communicative skills less than 45). Duolingo English Test Overall score of 95-100

# How to apply

Follow these steps carefully to ensure your application is processed properly.

- 1

### Check your start date

Visit [swinburne.edu.au/study/options/find/start-dates](https://swinburne.edu.au/study/options/find/start-dates) to check start dates for intakes. If you're an offshore international student, you should apply at least 3 months before your intake's start date.
- 2

### Gather your documents

  - Certified academic transcripts with grading system
  - English translations where applicable
  - Certified English proficiency test results
  - Referee reports (if applicable)
  - Portfolio (for design courses, if applicable)
  - Course or unit syllabus if you're applying for credit transfer or Recognition of Prior Learning
  - Copy of passport (photo page and relevant visa page).
- 3

### Complete your application

Visit <https://student-swinburne.studylink.com> If you need help, please speak to your registered Swinburne representative in your home country.
- 4

### Wait for your offer

We will assess your application. If you're successful, you will receive a letter of offer via email. The letter will indicate the:

  - course you've been offered
  - annual tuition fee
  - course commencement date
  - course duration
  - deposit you need to pay
  - fee for your visa-length overseas student health cover
  - conditions to the offer.

Note: If you receive a conditional offer, you need to meet the condition(s) outlined in your offer letter.
- 5

### Accept your offer

Accept by the date specified in your offer letter. For more information on how to accept your offer, visit [swinburne.edu.au/study/international/offer](https://swinburne.edu.au/study/international/offer)

Visit [swinburne.edu.au/study/international/apply](https://swinburne.edu.au/study/international/apply) for detailed application instructions.

If you need help with your application, email our application adviser at [international@swinburne.edu.au](mailto:international@swinburne.edu.au)

You can also speak with a registered Swinburne representative in your home country. Visit [swinburne.edu.au/study/international/connect/representatives](https://swinburne.edu.au/study/international/connect/representatives) to search for a list of Swinburne representatives in your country.

## Applying for credit transfer

**What is credit transfer?**

Credit transfer is exemption from certain course requirements in recognition for previous study. The term 'credit' is used interchangeably with 'Recognition of Prior Learning', 'advanced standing' and/or 'status' in Australian universities.

**How to apply for credit transfer**

You can apply for credit transfer by submitting a course or unit (subject) syllabus or other evidence of your skills with your application. You must also indicate on your application form that you're applying for credit transfer.

If you're applying for credit transfer for a design course you may need to submit a portfolio.

If your application for credit transfer is successful, your letter of offer will state the updated course duration and the amount of credit for which you have been assessed. If you do not apply for credit transfer when you submit your application, you can do so within the first week of commencing your course. Applications for credit transfer made after this time may not be approved.

**Applying for your student visa**

You will need to obtain an Overseas Student Confirmation of Enrolment (CoE) from Swinburne to complete your student visa application. Your CoE must accompany your application. Visit [homeaffairs.gov.au](https://homeaffairs.gov.au) for more information.

**Overseas student health cover**

All student visa holders must have overseas student health cover (OSHC) for the duration of their study.

Swinburne will arrange your visa-length OSHC membership with our preferred provider, Medibank Private. The OSHC fee will be included with your deposit indicated in your letter of offer.

Visa-length OSHC membership is a once-only payment that provides rate protection for the duration of the visa. This means that even if OSHC fees increase during the duration of your visa, you do not have to pay any increase.

If you need to extend your OSHC (for example, if you fail some units and need to extend your stay in Australia to complete your course), it is your responsibility to do this directly with the OSHC provider. Additional fees

will be charged at time of renewal.

Exceptions apply to Norwegian students insured under the Norwegian National Insurance Scheme (NIS), Swedish students with health insurance provided by Kammarkollegiet, and Belgium students covered under the Reciprocal Health Care Agreement within Australia. Please include evidence with your application if you're covered under one of these programs.

Visit [swinburne.edu.au/international/arrival/health-cover](https://swinburne.edu.au/international/arrival/health-cover)

## Students with families

If you plan to bring your family to Australia, check if any restrictions apply by contacting the Department of Home Affairs or the Australian diplomatic mission in your country. You will also need to hold OSHC membership for your family.

Visit [swinburne.edu.au/study/international/plan-arrival/family](https://swinburne.edu.au/study/international/plan-arrival/family)

**Children**

If you have children between five and 15 years of age who you plan to bring to Australia, you must enrol them in school. Full fees are payable at both government and non-government schools.

If you will be enrolled as a postgraduate research student at Swinburne, the Victorian Government may provide exemption from tuition fees in Victorian government primary and secondary schools for your children.

Visit [education.vic.gov.au](https://education.vic.gov.au) to find a complete list of Victorian primary and secondary schools. Information about fees, applications and enrolment for

government, primary and secondary schools may be found online at [study.vic.gov.au](https://study.vic.gov.au)

Applications to non-government schools must be made directly to the school of your choice.

*Note:* Your student visa assessment criteria may change if your family is accompanying you to Australia.

## Your rights and responsibilities

The Educational Services for Overseas Students (ESOS) Act regulates the education and training sector's involvement with overseas students studying in Australia on student visas.

Visit [studyinaustralia.gov.au/global/australian-education/education-system/esos-act](https://studyinaustralia.gov.au/global/australian-education/education-system/esos-act) to read a description of the ESOS framework.

Restrictions may apply if you wish to change your enrolment. Visit [swinburne.edu.au/current-students/manage-course/enrolment-timetable/time-off/international/](https://swinburne.edu.au/current-students/manage-course/enrolment-timetable/time-off/international/) for more information about deferring, suspending or cancelling your enrolment.

Visit [swinburne.edu.au/international/apply/after-you-apply/accept-offer](https://swinburne.edu.au/international/apply/after-you-apply/accept-offer) to read Swinburne's refund provisions, which are outlined in the offer acceptance form.

# Course summary
