Welcome to Deakin

G'day and welcome!

Each year thousands of students from around the world choose Australia as their study destination, and you too could soon be on your way to join them. Like Australia, Deakin University offers a safe and welcoming environment, and we support you at every step to ensure you not only succeed at your studies, but also enjoy your Deakin experience.

World-class degrees

When you study a Deakin degree you will be ready to take your next step with confidence and gain the experience you need to succeed. With a wide range of study areas to choose from, Deakin can help you find the right degree to pursue your dream career.

Career focus

We want to ensure you gain the exposure and experience you need to graduate with confidence. At Deakin you will find there is a practical focus across all our programs. We prepare our students for employment by providing practical instruction on real-world problems, career guidance and work experience opportunities. You can learn more about this in the course pages of this guide.

Campus locations

Experience life in Australia at one of Deakin's campuses located in: Melbourne, Geelong and Warrnambool. Our four modern campuses are right on the doorstep of some of Australia's most popular destinations. When you study here, you will discover both incredible scenery and wildlife, and a welcoming and engaging culture. Deakin also offers programs through our innovative online Cloud Campus.

Scholarships

Deakin offers different scholarships to assist high-achieving international students throughout their studies, and you may be eligible. Learn more at deakin.edu.au/ug-scholarships.

Trimester system

At Deakin we run on a trimester system. This means that our programs may offer intakes in March (Trimester 1), July (Trimester 2) and November (Trimester 3). This system gives you the option of completing your degree sooner, if you choose to study three trimesters in a single year. You will find more information on Trimesters in the course pages of this guide.

Impressive subject rankings

Deakin is among the best in the world across many study areas, including:

- 3rd in the world for Sport Science*
- 30th in the world for Nursing*
- 31st in the world for Education*

* ShanghaiRankings Global Ranking of Sport Science Schools and Departments 2020
* QS Rankings by Subject 2021

* ShanghaiRankings World University Rankings
* QS Young University Rankings
Australian Graduate Survey and Graduate Outcomes Survey, QILT

Your Deakin home

As a Deakin student you can study at one of our four campuses, or our innovative online Cloud Campus. You will find a unique study experience at each of our campuses. The local communities that surround Deakin are friendly, safe and full of life, creating the perfect study environment.

Melbourne Burwood Campus

The Melbourne Burwood Campus is Deakin's largest. A short trip from Melbourne's central business district, Burwood offers the perfect balance between city lifestyle and suburban comfort. On campus you will find impressive buildings and world-class facilities, a wide range of learning and social spaces, and a relaxed atmosphere. If you enjoy getting outdoors between classes, the Melbourne Burwood Campus also sits alongside parkland, which is great for walking, jogging and cycling.

On-campus accommodation
Indicative weekly rates: A\$259–A\$326

deakin.edu.au/ug-burwood

Living in Melbourne

A welcoming community

Living in Melbourne means you will become a part of an international community. People from all over the world call the city their home.

Many activities

Enjoy live music at Federation Square, or ride a bike along the Yarra River trail. Visit the native animals at the Melbourne Zoo, or spend mornings exploring the Queen Victoria Market tasting fresh and local produce. With so much to see and do, you will never be bored in Melbourne.

Geelong Warrn Ponds Campus

At Deakin's Geelong Warrn Ponds Campus, you are surrounded by expansive grounds and impressive new buildings. It offers state-of-the-art engineering and medical facilities, including some of the most advanced research spaces in the world. The campus also features our incredible sporting facilities, such as Deakin's Elite Regional Sports Precinct, which includes an Australian rules football oval, FIFA-grade soccer pitch, athletics track, basketball courts, and more.

On-campus accommodation
Indicative weekly rates: A\$236–A\$249

deakin.edu.au/ug-warrn-ponds

Geelong Waterfront Campus

Located in the heart of Geelong, the Geelong Waterfront Campus has spectacular views of the bay. Used as wool stores in the 19th century, this campus has been converted to create an impressive, modern space that offers an inspiring study environment. The unique mix of old and new allows for engaging and creative spaces, and its central location means students can visit Geelong's central business district between classes.

In 2019 a new ferry travelling between Melbourne and Geelong was launched. The ferry offers a comfortable and convenient mode of transport. It docks a short walk from the Geelong Waterfront Campus. Train and bus services are also regularly available between Geelong and Melbourne.

On-campus accommodation
Indicative weekly rates: A\$259–A\$288

deakin.edu.au/ug-waterfront

Living in Geelong

Be by the ocean

Just a short train or ferry ride from Melbourne, Geelong is a coastal city located near some of Australia's best surf beaches. Take a break from your studies and head to the Surf Coast, where you can enjoy a swim or surf in the pristine water.

Support the local team

Engage with the local community at GMHBA Stadium where the Geelong Cats – an Australian Football League (AFL) team and partner of Deakin – play their exciting games. You might even become a fan!

Our campus locations

Beautiful surroundings

Deakin's campuses in Geelong and Warrnambool are set in established regional communities that are surrounded by incredible scenery. You will experience Australia's true natural beauty when you live and study in these locations.

Warrnambool Campus

Become a part of a close community where students and lecturers have the opportunity to get to know each other and work closely together. Deakin's Warrnambool Campus is located on the doorstep of beautiful surf beaches and popular tourist attractions, and you will experience a sense of community that extends across the whole town. Warrnambool is known for being a safe place. The area also offers a range of restaurants and an extensive arts and cultural scene to keep our students entertained. For those looking for an occasional jolt of big city excitement, trains run four times a day to Melbourne.

On-campus accommodation
Indicative weekly rates: A\$212–A\$215

deakin.edu.au/ug-warrnambool

Living in Warrnambool

Made for exploring

Set along one of the country's most scenic coastlines, Warrnambool is the place to be for exploring Australia's famously unique plant and animal habitats.

A cost-effective choice

For students and parents concerned about expenses, Warrnambool offers a lower cost of living than Melbourne and Geelong without sacrificing quality.

Consider online study

Same quality education

Cloud Campus students receive the same quality of education as our on-campus students. Cloud students participate in lectures in real time and can contribute and ask questions like on-campus students do. Deakin staff are also available to chat online should you need any assistance outside of class.

Engaging platform

Deakin's Cloud Campus is delivered through innovative and engaging systems that allow students to access the same materials and services as on-campus students.

Cloud Campus (online)

As a leading provider of distance and online education for more than 40 years, Deakin has a unique understanding of students who need to study from afar.

Our Cloud Campus is virtual and vibrant. You will have access to lectures and resources and can participate in live-streamed seminars and class discussions. Chat with lecturers and students in real time, and submit assignments easily and efficiently. It is your choice of when, where and how you study. You can be confident that you will receive the same quality education as an on-campus student.

Studying online means you need to be a disciplined, independent and organised learner. Our Cloud Campus comes with orientation sessions, tailored support services, easy-to-use digital tools and resources, and a dedicated 'student success coach' to keep you on track.

deakin.edu.au/ug-cloud

What it costs to live in Australia

Beyond tuition fees, there are a number of other costs you need to consider before deciding to study in Australia.

The Australian Government provides average living cost estimates for international students living and studying in the Australian state of Victoria. Costs vary depending on where you choose to live. For example, living in Melbourne is slightly more expensive than living in Geelong or Warrnambool. The information to the right lists some of these estimated costs but for more detailed information visit studyinaustralia.gov.au.

Overseas Student Health Cover

In addition to tuition fees, all on-campus international students are required to pay Overseas Student Health Cover (OSHC). The amount payable will be included in your Letter of Offer – you will receive this from Deakin if your application is successful.

Scholarships

You may be eligible for a range of scholarships through Deakin and through other organisations, including the Australian Government.

Deakin offers specific scholarships to support high-achieving students. These include the:

- **Deakin Vice-Chancellor's International Scholarship**, which offers a 100% or 50% tuition fee reduction for the normal duration of your course.
- **Deakin International Scholarship**, which offers a 25% tuition fee reduction for the normal duration of your course.

Both scholarships recognise students with consistently high academic performance who have the potential to make a valuable contribution to the University.

Deakin also offers scholarships related to certain study areas, degrees, campuses and countries.

For a full list of scholarship opportunities open to international students, and information on how to apply, visit deakin.edu.au/ug-scholarships.

Accommodation

✓ Hostels and guest houses	A\$90 to A\$150 per week
✓ Shared rental	A\$95 to A\$215 per week
✓ On campus at Deakin (inclusive of amenities)	A\$259 to A\$326 per week*
✓ Homestay	A\$235 to A\$325 per week
✓ Rental	A\$185 to A\$440 per week

Other living expenses

✓ Groceries and eating out	A\$140 to \$280 per week
✓ Gas, electricity	A\$10 to A\$20 per week
✓ Phone and internet	A\$15 to A\$30 per week

Minimum cost of living

The Australian Government Department of Home Affairs has financial requirements you must meet in order to receive a student visa for Australia. From 23 October 2019 the 12-month living cost is:

✓ You	A\$21,041 per year
✓ Partner or spouse	A\$7,362 per year
✓ Child	A\$3,152 per year

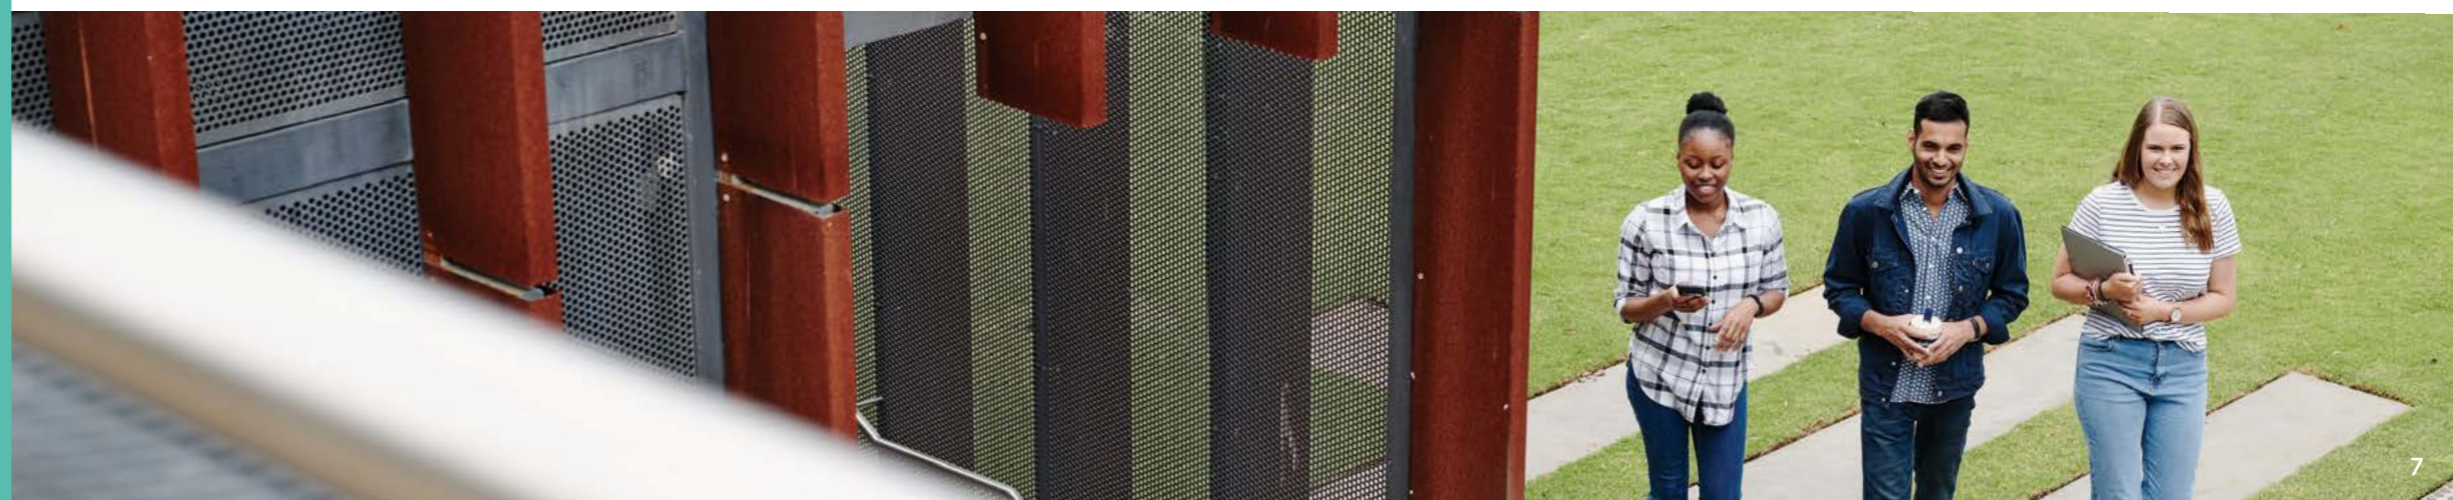

All costs are in Australian dollars.

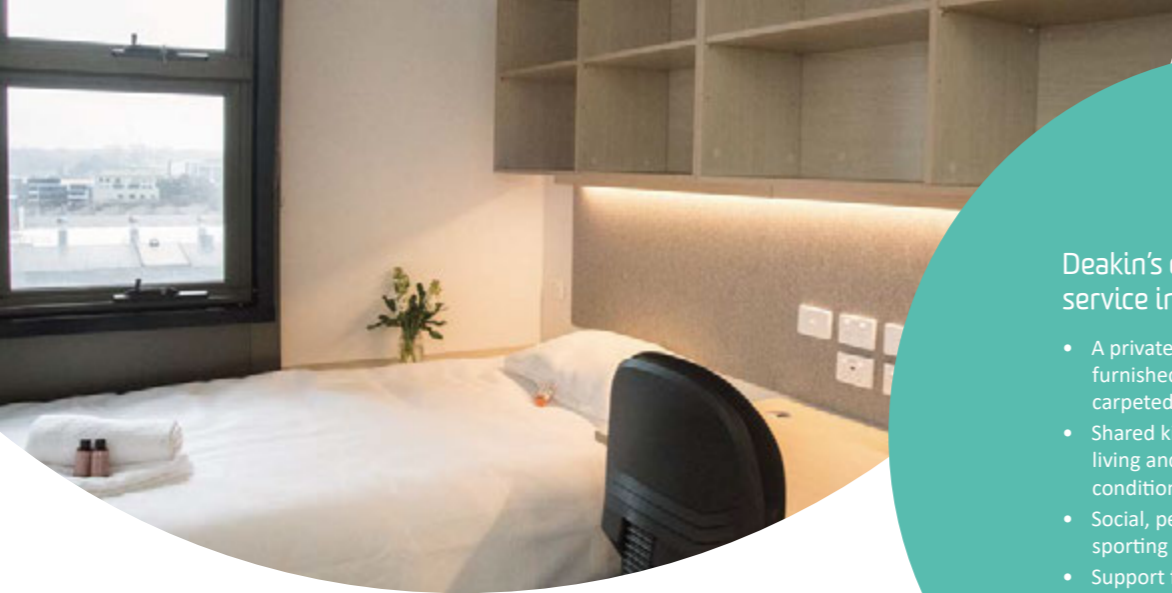

* On-campus estimated cost is for Deakin's Melbourne Burwood Campus and includes amenities, such as electricity, gas and internet. On-campus accommodation costs for the Geelong and Warrnambool campuses are lower.

^ This price range is a guide only. Actual costs may vary.

Destination Australia Scholarship

If you study at Deakin's Warrnambool Campus you may be eligible for the Australian Government's Destination Australia Scholarship. This scholarship supports study and living expenses and is valued at A\$15,000. Learn more at education.gov.au/destination-australia.

Deakin's on-campus housing service inclusions

- A private bedroom, which is furnished (including a bed and desk), carpeted, heated and has Wi-Fi.
- Shared kitchen, bathrooms, spacious living and dining room, and air conditioning.
- Social, personal, academic and sporting activities calendar.
- Support from Deakin residential management and administration team, and 24-hour security.

Accommodation options

Deakin is here to support you when it comes to finding accommodation in Australia. Whether you want to live on campus or nearby in a local community, we are here to help.

On-campus accommodation

Living on campus is the best way to immerse yourself in the Deakin experience. We offer accommodation across all our campuses with various lease lengths available. Life on campus is affordable, COVID Safe, convenient and secure – it is the perfect place to meet new people and live close to where you study.

Living on campus is affordable, utility bills and internet are included in the fee, and there is no accommodation bond.

Indicative weekly rates: A\$259–A\$326*

deakin.edu.au/ug-accom

New accommodation precinct: Geelong Waurin Ponds Campus

In 2021 Deakin opened 32 brand new townhouses at the Geelong Waurin Ponds Campus with each housing 10 occupants.

* Price based on the Melbourne Burwood Campus costings. Rates are cheaper at the Geelong and Warrnambool locations.

Off-campus accommodation

Deakin can assist you in searching for off-campus accommodation using our Houseme database. This can be accessed at studystays.deakin.edu.au. You will find a variety of rental opportunities, including long-term, short-term and casual options. You can also access a range of free self-help resources to find out:

- when to start your accommodation search and how to go about it
- the costs associated with off-campus accommodation
- things to consider at property inspections
- locations around each campus
- rights and responsibilities when renting in the Australian state of Victoria.

Homestay

As a Deakin student you can also consider staying with a host family. This is a great way to learn more about living in Australia and to improve your English.

deakin.edu.au/ug-homestay

How we support you

Deakin wants you to have a meaningful learning experience. That is why we offer a complete range of support services, from orientation and welcome sessions to academic support and social activities.

Get started

- ✓ We make it our priority to ensure that as a new student you make a smooth transition into life at Deakin.

Our welcome program includes:

- airport pick-up
- orientation program
- workshops
- social events
- study groups
- opportunities to get involved in campus life
- plus additional orientation activities for students who live on campus.

Students helping students

- ✓ We have student mentors available to help you with academic, practical and social matters as part of Deakin's Students Helping Students program. Plus, many student mentors are international students themselves!

Specialised support for international students

- ✓ Deakin's Student Central can assist you with matters such as enrolment, course, units and financial queries. Through Student Central you can seek advice from dedicated support officers who can help you with visa enquiries, settling into life in Australia, homesickness, cultural adjustment, emergency assistance and more.

Health, safety and wellbeing

- ✓ Deakin offers a range of services to help you stay healthy and safe, and to promote personal wellbeing.
 - Deakin Medical Centres are located on all campuses and provide medical and nursing healthcare and advice to students.
 - If you feel homesick or lonely you can talk with a Deakin counsellor or chaplain who are located at each campus.
 - Deakin is a safe place. Regardless, security officers are on duty 24 hours a day, seven days a week across all our campuses. You will also have access to a free SafeZone app that connects you to Deakin's security division.
 - Deakin offers a number of services and initiatives to ensure everyone feels welcome, including the Disability Resource Centre (DRC) and Deakin University Student Association (DUSA).

Cutting-edge online student hub

DeakinSync is your personalised online student hub, where you will find everything you need to stay on track. Log in to access your study units, manage your enrolment, collaborate with peers, view your timetable, and much more. Your DeakinSync dashboard keeps track of your class materials, lectures, discussion boards and more. All your classes are recorded so if you do miss a live lecture, you can catch up on learning content no matter where you are in the world.

Prepare for your future career

Deakin is dedicated to preparing you for your dream career. Experience practical, real-world learning, and be ready to enter the workforce with confidence.

DeakinTALENT

DeakinTALENT is our graduate employment division and is dedicated to providing expert career guidance. DeakinTALENT can help you to:

- identify and communicate your personal brand
- create a LinkedIn profile that stands out
- develop an effective resume and cover letter
- manage interview nerves
- excel at networking and connect with employers.

deakintalent.deakin.edu.au

DeakinTALENT International Students' Careers (DISC) program

DISC has been designed specifically for international students and graduates. It offers a suite of workshops to help you understand the workplace, learn what employers are looking for, and help you connect with and present confidently to employers. The program provides opportunities to network with Deakin alumni and – if you are returning home after your degree – DISC also helps you to connect with your home employment market.

FreelancingHUB

The FreelancingHUB is an exciting initiative designed to develop job-ready graduates through work experience opportunities. The HUB positions you in not-for-profit or community organisations where you work to develop a solution to a real-world project. Students are assigned an experienced mentor and project manager and will gain key employability skills, such as communication, collaboration, creativity and critical thinking. FreelancingHUB placements are open to students across all study areas, but places are limited.

EEEExpo

The DeakinTALENT Experience and Employment Expo (EEEExpo) brings over 100 employers to Deakin in Trimester 1 and 2. It is a great way to meet, network and gain insights from a range of employers. You will learn about opportunities such as internships, vacation work, volunteering, international experiences and graduate programs.

Internships as part of your degree

Many Deakin degrees offer the opportunity to complete an internship as part of the program. With the help of our dedicated work integrated learning team, you can find a short-term work opportunity in a local organisation where you will gain exposure to real-life projects. Deakin students have worked in advertising firms, sporting organisations, local hospitals and wildlife parks – just to name a few. The experience gained as part of these internships adds to your portfolio of work, which you can present to future employers.

Respected program

Australian employers have voted DeakinTALENT the most popular university career service in Australia four years in a row.*

* Australian Association of Graduate Employers 2017 – 2020

How to apply

1

Find your course

Browse the many exciting undergraduate courses we have on offer throughout this guide, and choose the degree you wish to study.

2

Understand the entry requirements

It is important that you understand the entry requirements for your degree before you submit your application to Deakin. Entry requirements for each Deakin degree differ and also depend on your country of residence. The minimum academic entry requirements for our undergraduate degrees can be found on page 12.

3

Understand the English language requirements

All applicants need to meet Deakin's English language requirements to the level necessary for their course. Minimum International English Language Testing System (IELTS) scores are included on the course information pages of this guide. For more information see page 18.

4

Gather supporting documents

When you apply to study at Deakin it is important to attach all required supporting documentation, otherwise your application could be delayed or rejected. Most documents need to be certified before they are submitted to Deakin, so give yourself plenty of time to get organised. Certified copies must include: award certificates, academic transcripts and formal identity papers (e.g. your passport). Documents must be translated into English.

5

Submit your application

You can submit your application to study at Deakin using a variety of methods:

- **Through a Deakin authorised agent:** One of Deakin's friendly agents can assist you to submit your application and ensure you have all the necessary documents ready. Visit deakin.edu.au/ug-reps to search for a Deakin authorised agent located near you.
- **Direct to Deakin:** You can apply directly to Deakin through Deakin's StudyLink Connect platform. Here you will be guided through each step of the application process.

deakin.edu.au/ug-apply

Applying to Deakin

You can apply to Deakin at any time throughout the year, and Deakin's international admissions team is always ready to quickly process applications and assist with any questions you may have. Application processes and requirements may differ slightly depending on your chosen degree, as well as your country of residence and entry pathway.

How to certify your documents

Certified copies of documents are photocopies that have been viewed along with the original document by an authorised person who will stamp them as being authentic copies. Visit deakin.edu.au/ug-apply to see how you can certify your documents and who they can be certified by.

Academic admission requirements

Deakin degrees have entry requirements that you will need to meet in order to gain entry into the University.

Using the academic admission requirements table

The following table (pages 12 to 16) details the academic admission requirements for entry into Deakin undergraduate degrees. Review the table for the qualification most relevant to your secondary school studies. Some qualifications will require you to make a quick calculation to convert your results into scores that Deakin will use to assess your application. Use the footnotes below the table to learn how to calculate your total score.

If your country is not mentioned

If your academic results or country of origin are not mentioned on these pages it does not mean that you are unable to apply to Deakin. Our Admissions Team can assess your academic scores and other achievements upon submission of your application.

If you do not meet the requirements

If you are not sure you meet the academic admission requirements for a Deakin degree, there may still be a pathway available for you to study at Deakin in the future. See page 17 of this Guide to learn about the alternative pathway options to Deakin.

Select countries not in the table

China entry requirements – Gaokao (高考)

Gaokao students who meet the higher Tier One university cut off score for their province will meet the academic requirements for entry into most Deakin undergraduate degrees.

Vietnam entry requirements

For entry into most bachelor degrees, Vietnamese students must graduate with a National High School Graduate Certificate and achieve an overall GPA of at least 8.0 for Year 11 and Year 12. In addition, applicants must achieve a minimum score of 8.0 for three major subjects in Year 12. Major subjects include maths, english, chemistry, literature, physics, or biology. A minimum score of 8.5 in maths is required for engineering-related programs.

Indonesia entry requirements

Deakin accepts students into bachelor degree programs who have successfully completed the SMA 3 and achieved the specified average grade in SMA 3 School Average Report and National Standardised School Examination (USBN). Most Deakin bachelor degrees require an average grade of at least 7.5 in SMA 3 school report average grade and USBN.

Canada entry requirements

Applicants must achieve a minimum of five Grade 12 credits. All applications are assessed individually based on specific provincial and territorial level and credit requirements.

New Zealand NCEA requirements

Applicants must have a New Zealand University Entrance certification and a minimum of 80 credits, including at least 60 credits at Level 3 or higher on the NZ qualifications framework, and an achievement of the University Entrance (UE). For more information visit nzqa.govt.nz/qualifications-standards/awards/university-entrance.

Footnotes

¹ The ATAR score presented here is the 2020 score and should only be used as a reference for 2022. Please note, clearly-in ATAR scores can change from year to year.
² To calculate eligibility, total up results of best three A-level subjects, where A=5, B=4, C=3, D=2, E=1. You must complete a minimum of three A Levels.
³ To calculate eligibility, total up results of best three A-level subjects, where A=5, B=4, C=3, S=2. You must complete a minimum of three A Levels.
⁴ High school mathematics is an entry requirement of this course.
⁵ Entry is based on a minimum ATAR of 80 or equivalent in the Victorian Certificate of Education (VCE) or its equivalent, with pre-requisite units 3 and 4; a study score of at least 25 in English EAL (English as an additional language) or 20 in English other than EAL.
⁶ The requirement of the Australian Government is that all teaching graduates must pass the Literacy and Numeracy Test for Initial Teacher Education Students (LANTITE) in order to teach. Students must pass the test to graduate from the course. Visit www.education.gov.au/literacy-and-numeracy-test-initial-teacher-education-students for more information.
⁷ Students enrolling in this course will need to pass CASPer, an online test used to assess the personal attributes of applicants to initial teacher education courses. For more information visit deakin.edu.au/ug-casper.

Your pathway to Deakin University

Are you worried that you will not meet the academic admission requirements for Deakin University? Deakin College is the perfect pathway to gain entry into your dream degree.

Deakin College is a direct pathway to Deakin University, and provides an excellent avenue for students who do not yet meet the admission requirements for Deakin University programs.

Diplomas

Deakin College offers diplomas in the areas of business; commerce; construction management; design; engineering; film, television and animation; health sciences; information technology; and science.

Diplomas at Deakin College are equivalent to the first year of a Deakin University undergraduate degree, and may provide entry into the second year of a relevant Deakin University bachelor degree.

Foundation Program

Deakin College also offers a Foundation Program which is equivalent to Australian Year 12. The program prepares you for entry into a Deakin College Diploma, or first year of a Deakin University undergraduate degree.

Location

Located at Deakin University's Melbourne Burwood, Geelong Waterfront and Geelong Waurrn Ponds campuses, Deakin College students have full access to Deakin University's facilities and services, and can get involved in university life while undertaking Deakin College studies.

Program structure

Each Deakin College program consists of eight academic units, which you must complete and pass to receive a Diploma or Foundation Program award. Most units have four contact hours per week. Assessment for all units is ongoing and continuous, and includes tests, assignments and case study analysis.

Deakin College advantages

- Starting with Deakin College offers a number of advantages, including:
- fast-tracking your studies
 - three trimesters per year in March, June and October
 - entry into the second year of a Deakin University degree (diploma studies only)
 - small group teaching and individual attention
 - academic and welfare support services.

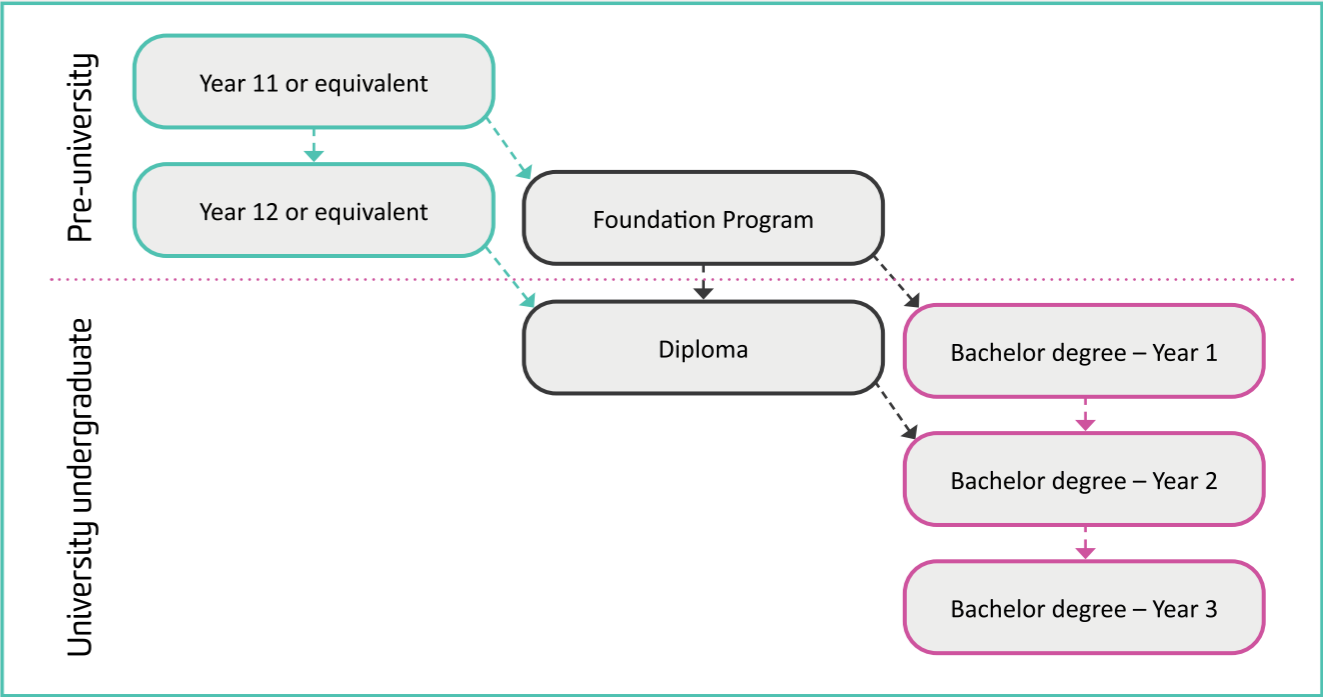

deakincollege.edu.au

Who should apply?

Deakin College programs are aimed at students who do not meet Deakin University's academic entry requirements.

Accreditation

Deakin College diploma programs are accredited by the Tertiary Education Quality and Standards Agency (TEQSA).

English language requirements

To enrol in a Deakin degree, you will need to be able to read, speak, write and listen in English at a certain level. Different Deakin programs have different English language requirements.

How to meet English language requirements

All students must prove that they can meet Deakin's English language requirements. You will be able to provide evidence of your English language skills if you have:

- met the required scores in a recognised English language test, such as IELTS or TOEFL
- completed university (tertiary) or high school (secondary) studies taught in English
- lived and worked in an English-speaking country for at least five years.

English language tests accepted by Deakin

International English Language Testing System (IELTS)

IELTS is the most popular English language test in the world. IELTS tests are available in nearly every country. IELTS tests assess listening, reading, writing and speaking skills.

Test of English as a Foreign Language (TOEFL)

The TOEFL test is available in two formats — one is delivered via the internet and the other is a paper-based test. The majority of TOEFL test takers worldwide sit the TOEFL iBT test, delivered via the internet. The TOEFL Paper-delivered Test is offered only in locations where testing via the internet is not available.

Other accepted English language tests

- C1 Advanced (formerly Cambridge English Advanced CAE)
- C2 Proficiency (formerly Cambridge English: Proficiency CPE)
- English language test for healthcare professionals (OET)
- Pearson Test of English Academic (PTE Academic)

English language in this guide

This guide uses IELTS exam scores as the standard for English language requirements, but if you have taken a test other than IELTS you can find equivalent requirements in the below table.

deakin.edu.au/ug-english

Approved English language tests

	IELTS	TOEFL IBT	TOEFL PBT	C1 PROFICIENCY	C2 PROFICIENCY	PTE	OET*	DUELI EAP PROGRAM
BAND A[^]	Overall 6 No band less than 6	69 Writing 21	550 Writing 4.5	169 No band less than 169	169 No band less than 169	50 No less than 50 in each skill	Overall C	EAP 3 (60%)

^{*} For health-related award courses only.

[^] This standard is relevant for all Deakin undergraduate degrees unless otherwise specified.

[#] This standard is relevant for Deakin undergraduate health degrees (unless otherwise specified), Bachelor of Marketing (Psychology) and Bachelor of Human Resource Management (Psychology).

⁻ This standard is relevant for Deakin undergraduate education degrees (except Bachelor of Arts/Master of Teaching and Bachelor of Science/Master of Teaching) and Deakin undergraduate law degrees.

^{**} This standard is relevant for Bachelor of Nursing (and related combined degrees), Bachelor of Medical Imaging, Bachelor of Occupational Therapy, Bachelor of Social Work and Bachelor of Vision Science/Master of Optometry.

NOTE: The information presented is current at the time of printing. For the most-up-to-date information about English language requirements, visit deakin.edu.au/int-english.

IELTS: International English Language Testing System (Academic Module)

TOEFL: Test of English as a Foreign Language (PBT: Paper Based Test) (iBT: Internet Based Test)

C1 Proficiency: Formerly known as Cambridge English Proficiency (CPE)

C2 Proficiency: Formerly known as Cambridge English Advanced (CAE)

PTE: Pearson's Test of English (Academic)

OET: Occupational English Test

DUELI EAP: Deakin University English Language Institute English for

Academic Purposes program

Improve your English at Deakin

If your current English level does not meet Deakin's English language requirements, or you want to improve your English before starting your degree, the Deakin University English Language Institute (DUELI) is the place for you.

Meet Deakin's English language requirements

DUELI can help you meet the English language requirements for your Deakin University degree. Successful completion of DUELI's English for Academic Purposes (EAP) pathway programs can provide you with entry into most degrees at Deakin University. DUELI also has specialised English programs for commerce, nursing, and teaching.

The DUELI advantage

DUELI is recognised as one of the best English language centres in Australia. DUELI will do more than improve your English: it will give you the chance to improve your study skills and become familiar with studying at an Australian university. Courses start every five weeks.

What can you study?

English for Academic Purposes (EAP)

EAP programs prepare students for university studies in Australia. You can meet Deakin University's English language requirements for most undergraduate courses by successfully completing the EAP 3 program.

General English (GE)

GE programs offer students at all levels the chance to use English confidently and correctly. GE programs can prepare beginner English speakers for the EAP program.

English for Commerce

This five-week program is designed for students wishing to undertake the Bachelor of Commerce at Deakin University. You will develop your English skills for accounting, law, finance and marketing, and extend your reading and writing skills for a range of complex business ideas and concepts.

Entry requirements:

- IELTS score of 5.5 (no band lower than 5), or
- Completion of EAP 3 with an overall score of 60 per cent.

English for Nursing

English requirements are generally higher for Nursing programs than other degrees. The five-week English for Nursing program is an intensive English program for advanced students. This program will prepare you to sit the required English language tests in order to gain admission into Deakin's Bachelor of Nursing.

Entry requirements:

- IELTS score of 6.5 (no band lower than 6.5), or
- Completion of EAP 4 with an overall score of 65 per cent.

English for Teaching

English requirements are generally higher for teaching programs at Deakin. The five-week English for Teaching program is an intensive English program for advanced students. You can meet the English language requirements for education courses by successfully completing the English for Teaching program.

Entry requirements:

- IELTS score of 7 (no band lower than 7), or
- Completion of EAP 4 with an overall score of 70 per cent.

Intensive Academic Preparation (IAP)

This is a five-week program for students with IELTS scores of 6.5 or above. It is designed to develop the writing, reading, listening and speaking skills needed to achieve success at university. This is for students who wish to excel in their degree, and for Australia Award scholarship students.

DUELI is a part of Deakin

DUELI is more than an English language centre; it is part of Deakin University. As a DUELI student you will have access to all of Deakin's facilities and services, including libraries, health services, and sport facilities.

deakin.edu.au/ug-dueli

Find your degree

The rest of this guide explores Deakin's undergraduate degrees. Identify the entry requirements and learn about our state-of-the-art facilities, work experience opportunities, accreditations and more.

Campuses

- B** Melbourne Burwood Campus
- WP** Geelong Waurn Ponds Campus
- WF** Geelong Waterfront Campus
- WB** Warrnambool Campus
- C** Cloud Campus (online)

Trimester intakes

Deakin University uses a trimester system. Two trimesters are still equal to a full academic year, but the third trimester can offer the opportunity to finish certain degrees sooner.

- T1** Trimester 1 (March)
- T2** Trimester 2 (July)
- T3** Trimester 3 (November)

Course duration

- 3** Course duration in years

Course code

- S465** Every Deakin degree has a corresponding course code for easy reference and identification.

Course fees

Example: A\$30 800

The annual course fee indicates the tuition fee for two trimesters of full-time study, or 8 credit points, unless otherwise indicated. Additional fees may apply and course fees may be subject to change. All fees are listed in Australian dollars.

deakin.edu.au/ug-fees

English requirements

Example: IELTS score 6.5/6

IELTS is the International English Language Testing System. The numbers reflect the minimum overall score required as well as the lowest score allowed for any band (overall score/lowest band score). Deakin also accepts the results of other English language tests. For more information about English language requirements see page 18.

Course structure

Unit

A unit is normally one trimester long and most have a value of 1 or 2 credit points.

Credit point

For each unit you successfully complete, you will receive the credit point value of that unit towards your studies. You must complete a specified number of credit points to obtain your degree. Most undergraduate degrees require 24 or 32 credit points.

Major sequence

A major sequence is a group of related units in a particular study area or academic discipline. A major can be made up of either 6 or 8 units. A successfully completed major sequence will be listed on your academic transcript.

[^] Pending approval, this intake is available to students who are a Registered Nurse in their home country and meet the course's recognition of prior learning requirements (Melbourne Burwood and Geelong Waterfront campuses only).

[#] Students enrolled at the Geelong Waterfront in this course will be required to undertake units of study at both the Geelong Wairn Ponds and Geelong Waterfront campuses.

[~] This intake available through the Cloud Campus (online) only.

Architecture and Construction Management

Whether you want to create sustainable design concepts for cities or project manage commercial developments, an architecture or construction management degree will take you in the right direction.

Take the next step in your career

Studying architecture at Deakin means you will gain hands-on experience from the first day of your degree. You will build models, examine professional architects' projects, and develop drawing and digital design skills. Our construction management students also experience practical learning in all aspects of industry, including cost estimation, project management, construction methods, contracts and scheduling.

Innovative teaching and facilities

The School of Architecture and Built Environment has an expansive, modern, and inspiring learning space that has won three prestigious Australian Institute of Architects awards for design excellence. The a+b studio and workshop provides students with a place to design and build models, and encourages experimentation with technology, materials and processes. These interdisciplinary spaces provide access to a variety of digital tools with an open plan studio design facilitating project collaboration.

deakin.edu.au/ug-abe

Professional recognition

When followed by successful completion of an accredited Master of Architecture, the Bachelor of Design (Architecture) is accredited within Australia by the Australian Institute of Architects (AIA), the Architects Registration Board of Victoria (ARBV) and the Architects Accreditation Council of Australia (AACA). The Bachelor of Design (Architecture) is also recognised by the Board of Architects Malaysia (Lembaga Arkitek Malaysia), and included on their 'List of Recognised Architectural Programmes'.

Graduates of the Bachelor of Construction Management (Honours) will be recognised for practice in more than 50 countries. The degree is accredited by the:

- Australian Institute of Building (AIB)
- Australian Institute of Quantity Surveyors (AIQS)
- Chartered Institute of Building (CIOB)
- Royal Institution of Chartered Surveyors (RICS).

Highly ranked

Deakin is ranked in the Top 200 universities in the world for its architecture and built environment courses, based on the QS World University Rankings. These rankings are informed by academic and employer perspectives, as well as research impact.

Bachelor of Design (Architecture)

When you choose to study Deakin's Bachelor of Design (Architecture) you choose a path of discovery. Explore the creative possibilities of architectural design and its potential to make a positive impact on the built environment. Discover architectural ideas through cutting-edge content, develop your creativity. Gain a practical understanding of the built environment and its relationship with the community through meaningful and sustainable design, from houses to high-rise projects.

Working together

Deakin construction management students work closely with our architecture students. The insight into each other's work is invaluable when you graduate and begin to work together on real-world projects.

* Students have the opportunity to complete this course in three years of full-time study by undertaking units in Trimester 3.

Business

Discover Deakin's wide range of undergraduate business courses and how they can help you develop the skills and knowledge needed to succeed in a wide variety of business settings. Our degrees have been developed in consultation with industry and offer opportunities to build an invaluable network and learn directly from professionals.

Gain practical, real-world experience

Deakin's business courses offer work experience opportunities, known as Work Integrated Learning. These include internships, cultural engagement, industry based learning, consultancy experience, and entrepreneurship experience, some of which are offered by industry partners in Australia and overseas.

Get a recognised education

Deakin is ranked in the Top 1% of universities worldwide for Business and Management Studies (QS). Deakin Business School is accredited by EQUIS and AACSB. These prestigious accreditations are awarded to business schools that meet strict standards of quality, academic and professional excellence, and demonstrate a commitment to ongoing improvement and innovation in their courses. A hallmark of excellence, these accreditations place the Deakin Business School in the Top 1% worldwide.

Graduate with an advantage

EQUIS accreditation means a business school is globally recognised, internationally benchmarked and part of an ongoing quality improvement system enriched by involvement with a vibrant learning community.

As one of only 10 universities in Australia with this accreditation, you can confidently embark on your studies with the knowledge that Deakin Business School has international relevance which offers an employment advantage.

Additional business degrees

Deakin also offers a Bachelor of Business (Sport Management) and Bachelor of Sport Development. You can learn more about these degrees in the Sport section of this guide (page 64).

Bachelor of Business

Deakin's Bachelor of Business focuses on preparing you with the skills and experience you need to succeed in the business world. Explore emerging and innovative contexts, build embedded soft skills and work on personal development. You can major in event, people or project management, entrepreneurship, sustainability and innovation and more.

A pathway to becoming a registered psychologist

Completion of the Bachelor of Human Resource Management (Psychology) or the Bachelor of Marketing (Psychology) provides students with an APAC accredited three-year degree in psychology. This allows students to then undertake additional study in pursuit of professional registration as a practising psychologist through the Psychology Board of Australia. Read more on page 60 of this guide.

Communication and Media

Studying communication and media at Deakin is all about identifying, creating and analysing different contexts and audiences to deliver tailored messaging and communications solutions. Discover the different programs we offer and choose an area of focus that interests you.

Experience outstanding facilities

Deakin has heavily invested in state-of-the-art facilities so that our media and communication students can take their knowledge and skills from the classroom and apply them in practical settings. You will have access to a range of contemporary learning spaces, including:

- a high-definition television studio used by commercial broadcasters
- a green screen studio linked to the newsroom and other creative production suites, enabling production of video content
- a collaborative news production area with an editorial hub, including workstations and monitors to stream live TV news channels
- editing booths for audio and audiovisual editing, and to conduct recorded interviews in soundproof spaces
- a creative media lab and collaborative workspaces
- an extensive media resource centre for borrowing equipment and getting technical advice
- creative spaces with shared computer stations for collaborative learning and team projects.

Gain professional experience

Deakin communication students gain practical experience through our internship program. In your first year you will start working on your professional identity and learn how to make and pursue industry contacts. This will prepare you to undertake an internship in your chosen industry. Through a specialised third year unit, and after your internship, you will learn how to think strategically about career readiness and career development. These experiences, along with your study, will allow you to build your resume and portfolio of work. You will graduate with confidence, ready to demonstrate your professional skills to employers.

Bachelor of Communication (Advertising)

Designed to inspire the next generation of 'big idea' thinkers, the Bachelor of Communication (Advertising) gives you the skills to understand complex audiences, analyse media effectiveness and master your creative thinking. Prepare for the challenge and excitement of developing intelligent brand communication as you work across real-world projects and connect with clients and advertising practitioners.

Creative Arts and Writing

Dreaming of a career made on stage, behind a camera, or in the pages of books? Learn from professional practitioners who will help you unlock your creative voice, find your preferred form of expression, and channel your ideas.

Learn in world-class creative facilities

You will have the opportunity to work in dedicated studio spaces. Develop your skills and build a portfolio of work in facilities including our:

- photographic lighting studio
- darkroom and film scanning facilities
- visual arts studios
- gallery and presentation spaces
- dance and drama studios
- black box theatre
- digital print lab.

Everything you need at your fingertips

Students can borrow professional-grade equipment from Deakin's extensive media resource centre, including lighting and professional audio gear, digital video cameras, and SLR cameras for projects and practice. We have a team of technicians who can provide support and expertise. Deakin is one of the first universities in the world to offer RED EPIC cameras – the digital camera of choice for the world's best filmmakers and photographers.

Cross-disciplinary learning

Deakin's creative arts programs provide you with the opportunity to collaborate with students across disciplines. You will be encouraged to explore complementary skills to maximise career options, including specialist electives in other creative arts disciplines. This encourages innovation and ensures you are industry-ready to work across a wide range of disciplines and with many varied professionals.

Gain real-world experience

As a creative arts student you will engage with professional practitioners and workplaces. You will create and present work in industry-standard productions or exhibitions, building key administrative, marketing and self-management skills.

Creative writing students learn from passionate industry specialists who are published authors. You will have opportunities to see your work published before graduating and gain industry experience in a range of areas.

Bachelor of Creative Arts (Dance)

Immerse yourself in the exciting physical, creative and social possibilities of contemporary dance. Study a Bachelor of Creative Arts (Dance) at Deakin to learn how the art of contemporary dance intersects with conceptual and innovative thinking, community enrichment and technology.

Course information

^ Geelong Waterfront Campus students can take units of study at the Geelong Warrn Ponds Campus.

This intake available at Melbourne Burwood and Cloud (online) campuses only.

Design

Design can drive business through innovation, as well as facilitate positive change in society. Learn the tools and strategies to become a creative thinker. Deakin offers different design degrees so you can specialise in an area that interests you most.

Cross-disciplinary learning

Deakin's design degrees give you the opportunity to collaborate with a variety of industry sectors as well as students across a range of disciplines. Students are encouraged to explore complementary skills to maximise their career options, including specialist electives in design, visual arts, film, photography, media, digital technology, advertising, and marketing. This encourages innovation and ensures you graduate ready for a career as a well-rounded creative practitioner.

Collaborate with industry partners

Final year design students gain industry experience collaborating on a dynamic, cross-discipline project where they work with not-for-profit clients. You will assist with brand development or creative campaigns and have the opportunity to present your final works in an industry showcase.

Learn from leaders in the sector

Our academics are design practitioners with a wealth of experience across the design sector. Their international expertise ensures you work on projects with industry standard procedure to build your career at the highest level of design innovation. Design students also learn from industry mentors who help guide you through a range of design projects. This ensures you develop critical professional industry experience to ensure you are prepared for the challenging and exciting world of design.

Accreditation

Design degrees at Deakin are informed by industry leaders across the world. We are active members of the Design Institute of Australia (DIA) and the International Council of Design (Ico-D) and support the Australian Graphic Design Association (AGDA). Our three design degrees are accredited by the Design Institute of Australia – so you know you will be studying at the cutting edge of industry research and practice.

Student work: Visual Communication
by Dennis Shubham Aditya

Bachelor of Design (3D Animation)

Use your imagination to create the unexpected with the Bachelor of Design (3D Animation) at Deakin. Explore how animation is used across film, television, advertising, web, motion-capture and game design – and learn to draw or digitally create characters that leap off the screen.

Course information

Course code: A343
Years (full time): 3
Campus: B
Intake: T1 (March), T2 (July), T3 (November)
2022 annual fee: A\$32,400
IELTS score: 6/6

Structure

24 credit points, including:

- 19 core units
- 2 course elective units
- 3 elective units
- 0-credit-point academic integrity unit.

Careers

Graduate ready to work in motion design; animation, film, television and web design; motion capture performance; or augmented reality and virtual reality. Potential roles may include 2D or 3D animator, augmented realities designer, cartoonist, digital designer, game developer, illustrator, modeller, motion graphics designer, multimedia developer or virtual reality designer.

Bachelor of Design (Digital Technologies)

If you are a creative problem-solver with an interest in design and technical IT skills, you should explore our Bachelor of Design (Digital Technologies). Learn about user experience (UX), design strategies, digital technologies and interactive media, and deliver impactful digital solutions for creative and social issues in our changing world.

Course information

Course code: A344
Years (full time): 3
Campus: B
Intake: T1 (March), T2 (July), T3 (November)

- 2 course elective units
- 5 elective units
- 0-credit-point academic integrity unit.

Careers

Our graduates have worked in advertising, graphic design studios, print houses, publishers, corporate companies who host in-house design services, government, and private practices. Potential roles may include, communications designer, web designer, graphic designer, interactive designer or illustrator.

* This intake available at the Melbourne Burwood Campus only.

Education and Teaching

If you are motivated to teach, you have the opportunity to make a big difference to young people's lives. Deakin's education and teaching degrees focus on leadership, communication and organisational skills, providing a solid foundation for your future career.

Highly ranked

Deakin is ranked in the Top 31 universities in the world for its education courses, based on the 2020 QS World University Rankings by Subject, which are informed by academic and employer reputation, as well as research impact.

Professional experience

Deakin's professional experience program gives you real-life teaching experience and study credit towards your degree. Completed in schools, these work placements give you the chance to apply your learning in a teaching role with the support of a qualified and experienced teacher. This experience means that your resume will be filled with the practical skills employers look for.

If you are enrolled in early childhood, primary or health and physical education degrees you will undertake at least 80 days of placements. If you are enrolled in a secondary teaching degree you will undertake at least 60 days.

Links with the education sector

Deakin maintains close links with the education sector – like the Victorian Department of Education and Training (DET), Australian Children's Education and Care Quality Authority (ACECQA) and Victorian Institute of Teaching (VIT) – to ensure our degrees are developed and reviewed with industry and professional input. Deakin also has several school alliances, providing more opportunity for teaching students to get the placement positions they want.

The CASPer assessment

If you are applying for entry into an initial teacher education course*, you will be required to complete a test to assess your non-academic attributes or 'people skills'. CASPer (Computer-based Assessment for Sampling Personal Characteristics) is an online, scenario-based test that assesses your suitability for a teaching career. For more information on dates and sample test content, visit deakin.edu.au/casper.

*CASPer test not required for entry into the Bachelor of Early Childhood Education. Students applying for D303 and D304 need to complete CASPer before Trimester 3 of Year 3 of their course.

Bachelor of Early Childhood Education

If you are inspired to teach young children, Deakin's Bachelor of Early Childhood Education could be the degree for you. You will have the opportunity to explore early childhood education curriculum theories and pedagogies, child development, health and wellbeing, and professional studies. This degree also covers teaching and learning in the discipline areas of literacy, mathematics, science and the arts.

Course information

Course code: **E333**
 Years (full time): **3**
 Campus: **B**
 Intake: T1 (March)
 2022 annual fee: A\$30,400
 IELTS score: 7/6.5

Accreditation

This program is currently undergoing approval by the Australian Children's Education and Care Quality Authority (ACECQA) as an early childhood teaching qualification in Australia. Graduates of this degree who are intending to apply for registration in Victoria or interstate may be required to provide further information.

Structure

- 24 credit points, including:
- 24 core units
 - 0-credit-point academic integrity unit

Careers

Graduates are qualified to work in early childhood settings as early childhood teachers, educational leaders, coordinators or advisers. Opportunities also exist in policy, consultancy, not-for-profit organisations, and research or community based organisations.

Bachelor of Early Childhood and Primary Education

If you are passionate about children's education, Deakin's Bachelor of Early Childhood and Primary Education opens the door to a range of career opportunities. Covering the early childhood and primary education sectors, this dual-accredited degree focuses on contemporary issues in children's learning and development, curriculum theories and pedagogies, discipline knowledge, and the changing work context within early childhood and primary education.

Course information

Course code: **E334**
 Years (full time): **4**
 Campus: **B**
 Intake: T1 (March)
 2022 annual fee: A\$30,400
 IELTS score: 7/6.5

Accreditation

This program is currently undergoing accreditation by the Victorian Institute of Teaching (VIT) as an initial teacher education program against the Australian Institute of Teaching and School Leadership (AITSL) program standards and the Australian professional standards for graduate teachers. This program will also undergo approval by the Australian Children's Education and Care Quality Authority (ACECQA) as an early childhood teaching qualification in Australia.

Graduates of this course who are intending to apply for registration in Victoria or interstate may be required to provide further information.

Specialisations

Language **B** **C**
 Literacy **B** **C**
 Mathematics **B** **C**
 Science **B** **C**

Structure

- 32 credit points, including:
- 30 core units
 - 2 specialisation units
 - 0-credit-point academic integrity unit
 - 2 zero-credit-point units for Literacy and Numeracy Testing for Initial Teacher Education (LANTITE).

Careers

Graduates of this dual-accredited degree have the flexibility to work in early childhood and primary school settings. Graduates are qualified to work in early childhood settings as early childhood teachers, educational leaders, coordinators or advisers and as primary teachers from foundation through to grade 6. Graduates may also find work in community services, education organisations, government agencies and not-for-profit organisations.

Bachelor of Education (Primary)

Build a solid foundation in primary school curriculum and discover what it takes to teach and lead young people. Deakin's accredited Bachelor of Education (Primary) equips you with the essential knowledge and skills required to guide children through their primary learning years. From mathematics to science to technology; you will learn how to teach across a wide range of subjects and specialisations.

Course information

Course code: **E359**

Accreditation

This degree is accredited with the Victorian Institute of Teaching (VIT) as a nationally accredited course and students are eligible to apply for registration with the VIT upon graduation. If you plan to apply for registration in Victoria or interstate you may need to provide further information.

Structure

- 36 credit points, including:
- Bachelor level studies:**
- 2 arts major sequences (totalling 16 credit points)
 - 4 elective units from another group of arts majors
 - 4 course elective units
 - 0-credit-point compulsory unit.
- Postgraduate level studies:**
- 7 core teaching units (8 credit points)
 - 4 curriculum study units
 - 2 zero-credit-point units for Literacy and Numeracy Testing for Initial Teacher Education (LANTITE).

Careers

Graduates are qualified to teach in secondary schools within private, independent or public sectors. You may also have the opportunity to work in roles including community services, government agencies and not-for-profit organisations.

Bachelor of Science/ Master of Teaching (Secondary)

This degree combines a postgraduate teaching qualification with undergraduate discipline studies in science. It prepares graduates with the discipline-specific knowledge and standards required to be a secondary school teacher, from year 7-12 including two senior secondary science majors.

Course information

Course code: **D304**
Years (full time): **4**^{*}
Campus: **B**
Intake: T1 (March)
2022 annual fee: A\$36,000
IELTS score: 6/6

Teaching method areas

- Biology **B**
Chemistry **B**
Environmental science **B**
General science **B**
Geography **B**
Mathematics **B**

Accreditation

This degree is accredited with the Victorian Institute of Teaching (VIT) as a nationally accredited course and students are eligible to apply for registration with the VIT upon graduation. If you plan to apply for registration in Victoria or interstate you may need to provide further information.

Structure

- 36 credit points, including:
- Bachelor level studies:**
- 7 core science units
 - 2 science units
 - 1 six-credit-point science major sequence
 - 5 science major sequence units
 - 4 credit points from selected list
 - 3 zero-credit-point compulsory units.
- Postgraduate level studies:**
- 7 core teaching units (8 credit points)
 - 4 curriculum study units
 - 2 zero-credit-point units for Literacy and Numeracy Testing for Initial Teacher Education (LANTITE).

Careers

Graduates are qualified to teach in secondary schools within the private, independent or public sectors. You may also have opportunities to work in science-related areas, such as science writing and interpretation; public-sector positions, such as with conservation groups; and in other research and communication positions.

Engineering

Develop the engineering expertise to design roads, power generation or complex mechanical systems. Tackle real-world engineering problems in collaborative projects with industry partners and through work placements.

Practical learning

Gain practical learning experiences throughout your engineering course with our innovative and student-centred teaching method: Project-oriented design-based learning (PODBL). In collaboration with industry, PODB is a key feature of our engineering degrees. You will learn via team-based projects, taking real-world industry problems, and designing, researching, testing and evaluating solutions with the support of an academic.

Professional Engineering Practice is also a compulsory unit in many undergraduate engineering degrees at Deakin. You will gain a minimum of 60 days of work experience in one or more organisations, giving you insight into your future career options.

Accreditation

The School of Engineering's long-standing partnership with Engineers Australia is an important relationship and informs our teaching program. This ensures our curriculum is relevant and that you will graduate with the skill set that employers want. Choose to study civil, electrical and electronics, mechanical or mechatronics engineering and you will get a degree that is professionally accredited and internationally recognised* – so you will be able to practise as a professional engineer in numerous countries around the world.

^{*} Deakin has also been awarded provisional accreditation for the Bachelor of Environmental Engineering (Honours) by Engineers Australia.

World-class facilities

Access world-class facilities located within the engineering precinct at the Geelong Waurin Ponds Campus, including some of the most advanced and future-focused systems, laboratories and learning spaces in the Australian sector. Our state-of-the-art engineering spaces contain versatile equipment and technologies, ensuring you gain practical experience and a deeper understanding of relevant engineering principles.

deakin.edu.au/ug-eng-facilities

Choose your degree

Deakin offers five undergraduate engineering programs and the degree you choose will depend on your area of interest. See the next page to explore your engineering study options.

Highly ranked

Deakin is ranked in the Top 1% worldwide for Engineering and Technology by Times Higher Education, which is a reflection of the University's high-quality engineering programs.

Join the Peer Support Program

The Faculty of Science, Engineering and Built Environment offers the Peer Support Program as part of its commitment to providing new students with the best possible transition into university life. By joining the program, you will receive support and guidance from students who are more experienced. They will help you become familiar with the support services and facilities available, while gaining useful tips about studying at Deakin. Visit deakin.edu.au/sebe/ug-peer-support

Bachelor of Civil Engineering (Honours)

Deakin's Bachelor of Civil Engineering (Honours) gives you the building blocks to plan, design, construct and maintain the infrastructure systems that are necessary in our day-to-day lives. It covers the broad range of civil engineering disciplines, including engineering materials, structural engineering, water engineering, geotechnical engineering and road and transport engineering.

Course information*

Course code: **S460**
Years (full time): **4**
Campus: **WP** **C**^{*}
Intake: T1 (March), T2 (July)
2022 annual fee: A\$36,400
IELTS score: 6/6

Structure

32 credit points, including:

- 31 core units
- 1 elective unit
- 3 zero-credit-point-units relating to safety and project orientated learning, career tools for employability, and academic integrity.

Careers

Employers seek out Deakin graduates for their forward thinking, innovation and entrepreneurial qualities. As a civil engineering graduate, you may gain employment with government bodies and departments, consulting firms, construction companies, water authorities, road authorities and public works.

Related degrees

Bachelor of Construction Management (Honours)

Bachelor of Electrical and Electronics Engineering (Honours)

Gain practical, industry-ready skills when you study Deakin's Bachelor of Electrical and Electronics Engineering (Honours). Explore renewables, alternative energy generation and the role of energy production in climate change, and get the hands-on experience and theoretical knowledge needed to work in energy production in a changing world.

32 credit points, including:

- 31 core units
- 1 elective unit
- 3 zero-credit-point-units relating to safety and project orientated learning, career tools for employability and academic integrity.

Careers

Employment opportunities exist as an electrical design engineer, power engineer, telecommunications engineer, industrial engineer, electronic test engineer, design engineer, special effects technician, robotics engineer and technician, automotive electrician, and multimedia systems specialist.

Bachelor of Environmental Engineering (Honours)

Graduate industry-ready to tackle global environmental issues such as climate change, sustainability, and pollution when you study the Bachelor of Environmental Engineering (Honours) at Deakin. Gain knowledge across the environmental engineering industry in areas including waste management, water engineering, catchment management and soil and water remediation. Develop solutions-led technical and professional skills to put you in high demand in this future-focused field.

Course information*

Course code: **S465**
Years (full time): **4**
Campus: **WP** **C**^{*}
Intake: T1 (March), T2 (July)
2022 annual fee: A\$36,400
IELTS score: 6/6

Structure

32 credit points, Including:

- 31 core units
- 1 elective unit
- 4 zero-credit-point-units relating to safety and project orientated learning, career tools for employability, laboratory and fieldwork safety, and academic integrity.

Careers

Employment opportunities exist in roles such as: air pollution and emissions control, natural resource management, environmental protection, engineering consultancy, local, state and federal government departments, resources (mining, oil and gas), waste management and recycling, and water and wastewater treatment.

Bachelor of Mechanical Engineering (Honours)

Deakin's Bachelor of Mechanical Engineering (Honours) allows you to turn your passion into a rewarding career. Today, mechanical engineers lend their expertise to the development of almost every design imaginable. You will cover many mechanical disciplines, including machine design, thermo-fluids, structural design and industrial control, while developing skills in project management, communication and financial management. You will also explore product and process modelling, and how to design for sustainability.

Course information*

Course code: **S462**
Years (full time): **4**
Campus: **WP** **C**^{*}
Intake: T1 (March), T2 (July)

- 3 zero-credit-point-units relating to safety and project orientated learning, career tools for employability, and academic integrity.

Careers

Employment opportunities for mechanical engineers are diverse and exist in areas such as: product development, biomedicine, aerospace, automotive, mining, railroad, research and design, and control and systems design.

Bachelor of Mechatronics Engineering (Honours)

Deakin's Bachelor of Mechatronics Engineering (Honours) prepares you to become an industry-ready engineer capable of creating the electronics, robots and autonomous systems that power our future. You will learn how to design, program and integrate electronic devices with mechanical designs to deliver innovative solutions to real-world problems such as anti-lock brakes, self-driving cars and even artificial hearts.

Course information*

Course code: **S463**
Years (full time): **4**
Campus: **WP** **C**^{*}
Intake: T1 (March), T2 (July)
2022 annual fee: A\$36,400
IELTS score: 6/6

Structure

32 credit points, including:

- 30 core units
- 2 elective units
- 3 zero-credit-point-units relating to safety and project orientated learning, career tools for employability and academic integrity.

Careers

Employment opportunities as a mechatronics engineer are diverse. They include roles such as: biomedical service engineer, control systems engineers, automation engineer, electronics test engineer, and robotics engineer.

Graduates in high demand

With an international skills shortage in the engineering industry, and roles expected to rise significantly in the next five years, Deakin graduates are in demand both in Australia and other countries.

Environment

Play a vital role in creating a sustainable future for the Earth. Deakin's courses in environmental science have a strong focus on fieldwork and practical experiences. We offer degrees in Environmental Management and Sustainability, Marine Biology, or Wildlife and Conservation Biology.

First-class facilities and equipment

Your learning is enhanced by the use of state-of-the-art facilities and equipment, such as a Geographic Information Systems (GIS) laboratory, wildlife tracking technology, aquaculture facilities, infrared motion sensing wildlife cameras, high-tech research laboratories, research vessels, and remotely operated underwater vehicles.

Deakin is a partner at the Queenscliff Marine Research Centre, providing students with access to laboratories and a variety of remarkable nearby marine and coastal ecosystems.

For Deakin marine students, researchers have developed Deakin's purpose-built research vessel *Yolla* – which houses one of the most advanced sonar systems in the world – and have created a detailed continuous map of Victoria's sea floor habitats. This data is playing a key role in supporting fishery and conservation management of the state's marine environments.

deakin.edu.au/les-facilities

Work experience

Professional experience is included in all of Deakin's environment degrees. It allows you to complete a placement for a minimum of two weeks (80–160 hours) within a relevant, course-related organisation. A number of elective units also offer you the opportunity to gain additional practical experience, including undertaking a Global Environment Placement, Global Science Placement, Industry Based Learning, Career Placement or a STEM Placement.

Hands-on learning

All of Deakin's environment degrees have a focus on hands-on learning, with experiences taking place from year one. Depending on the degree you choose, you may learn skills such as measuring the health of freshwater environments, coastal planning, surveying wildlife populations, conducting sustainability assessments, and studying seals and penguins.

For example, students will undertake work in:

- community environment parks and sustainability centres where you will learn about sustainable communities, green technologies and community engagement with diverse stakeholders;
- urban parks where students learn how to conduct vegetation surveys, analyse water quality, map soils and microclimates, and analyse groundwater pollution and water table profiles;
- businesses to analyse waste management programs and develop waste management strategies and environmental improvement programs;
- national parks to learn about scientific research, data analysis and teamwork, and to gain experience handling animals such as bandicoots, potoroos, antechinus, possums and gliders.

Other activities undertaken include GPS and GIS exercises, radio-tracking, camera trapping and bird surveys.

Accreditation

After graduating and gaining experience working in industry, you may become a Certified Environmental Practitioner through the Environment Institute of Australia and New Zealand.

Bachelor of Environmental Science (Environmental Management and Sustainability)

Throughout the Bachelor of Environmental Science (Environmental Management and Sustainability) you will explore ways to manage the interaction between people and the environment. Combining the latest research with the application of skills in professional, community, lab and field settings you will create and implement innovative solutions to protect natural resources both locally and globally.

Health▶ What you can study

Health professionals have rewarding careers helping people lead healthier and happier lives. Whether you are looking for a career in health sciences, occupational therapy, social work or public health, a Deakin health degree will provide many exciting opportunities across hospital, private practice, corporate and government settings.

Gain real-world experience in health

What better way to learn than in real-life healthcare settings? Deakin health courses offer extensive opportunities in actual workplaces, so you can gain valuable skills and experience under the supervision of qualified practitioners. This practical approach sees our students placed in schools, hospitals, clinics, community health organisations, or corporate settings. And most degrees offer this experience from the first year of study, meaning you will build an impressive resume by the time you graduate.

Access our growing health precinct

Health students at Deakin's Geelong Waurin Ponds Campus have access to incredible facilities that offer a supportive environment for supervised placements. Within the medical precinct at Deakin's Geelong Waurin Ponds Campus, the \$53 million Regional Community Health Hub (REACH) and the Epworth HealthCare's 250-bed private hospital enhance our students' learning experience.

Learn about other areas in health

Deakin's multidisciplinary approach means that students in one area, for example occupational therapy, have the opportunity to work as part of a multidisciplinary health team with medicine, nursing, social work and dietetics students. This experience will help you develop an understanding of the expertise and roles of the different health professionals you will likely find yourself working with in the future.

Rural and regional experiences

Gain a broader perspective through a rural and regional focus to your course, helping to address the significant health workforce shortage throughout rural, regional and outer metropolitan areas. Your rural and regional placements will complement knowledge and skills gained from metropolitan settings.

Health sciences

If you are looking to discover your passion in the health and human services sector, a degree in health sciences allows you to tailor your qualification to suit your career aspirations. You will become a specialist in the health sector through choosing from a broad range of majors to select the study areas you are passionate about.

Medical imaging

Otherwise known as medical diagnostic radiography, medical imaging is the technique of creating visual representations of the internal organs of the body for clinical analysis and medical intervention. As a medical imaging student you will gain exposure to industry-grade equipment and techniques, and participate in extensive clinical practice in clinical centres nationally, as well as at Deakin's own state-of-the-art medical imaging teaching laboratory.

Occupational therapy

Occupational therapy is a career where you will have a direct impact on people's lives. Through study in this area you will gain the specialised knowledge needed to promote good health and wellbeing both at home and in the workplace.

Optometry

Learn to manage the health and function of the eyes and visual system, and to diagnose and manage a range of ocular conditions. Through study in optometry you will also learn about visual health issues and their local and international impact on populations.

Public health and health promotion

Explore the social and environmental factors that cause poor health, and those that create and sustain good health. As a public health specialist, you will have the unique opportunity to be involved in campaigns that save lives.

Deakin is ranked in the Top 1% of universities worldwide for Public Health by ShanghaiRankings.

Social work

If you have a strong sense of social justice and are passionate about human rights, a career in social work could be for you. In this diverse profession you will work with individuals, families and communities to address inequality and improve lives.

Choose your degree

Deakin offers six undergraduate health programs and the degree you choose will depend on your area of interest. See the next page to further explore your study options.

Bachelor of Health Sciences

A rewarding career in a health-related field gives you the chance to reduce health disparity and help people to lead fuller, healthier and happier lives. As a Bachelor of Health Sciences student, you can be confident you will acquire a solid grounding in multiple fields of health sciences, and be prepared for a successful career in a growing sector.

Bachelor of Medical Imaging

Deakin's Bachelor of Medical Imaging has been developed to provide you with the latest knowledge in medical radiation science, and train you in techniques such as general radiography, computed tomography (CT), digital vascular imaging and magnetic resonance imaging (MRI). You will learn in our medical imaging labs that replicate the capabilities of real-world medical imaging clinics with functional image intensifiers, x-ray and ultrasound machines.

Course information

Course code: **H309**
 Years (full time): **4**
 Campus: **WP**
 Intake: S1^{*}
 2022 annual fee: A\$38,400
 IELTS score: 7/7

Accreditation

Deakin's Bachelor of Medical Imaging is accredited by the Australian Health Practitioners Regulation Agency (AHPRA). Once you graduate, you will be eligible to receive AHPRA registration as a Medical Radiation Practitioner, which enables you to work in a range of medical imaging settings across Australia.

Work experience

From your first year you will start clinical placements, allowing you to develop clinical skills under the supervision of experienced practitioners. You will work in a range of settings, including hospitals and private radiology clinics throughout Australia. You will further strengthen your skills in our state-of-the-art medical imaging training unit at the Geelong Waurn Ponds Campus.

Structure

32 credit points (all units are core units), and a 0-credit-point academic integrity unit.

Careers

A degree in medical imaging prepares you for careers in hospital radiology departments, specialist medical facilities, and private radiology practices. As a graduate, you will be eligible to work as a skilled practitioner across the broad range of diagnostic medical imaging, including general radiography, CT, fluoroscopy, and MRI.

Bachelor of Occupational Therapy

Occupational therapy enables people to lead active, healthy and productive lives. Deakin's Bachelor of Occupational Therapy will prepare you to identify people's strengths and limitations, and the role these play on their ability to achieve their goals. You will gain the knowledge and skills to improve people's ability to participate in activities and occupations that are meaningful to them. You will gain the expertise to implement a range of evidence-based interventions for people who live with a range of health limitations, including those caused by injury, illness, developmental or environmental barriers.

Course information

Course code: **H355**
 Years (full time): **4**
 Campus: **WF**
 Intake: T1 (March)
 2022 annual fee: A\$38,400
 IELTS score: 7/7

Accreditation

Deakin's Bachelor of Occupational Therapy is accredited by Occupational Therapy Australia, the Occupational Therapy Council, and the World Federation of Occupational Therapists, enabling you to work in Australia and around the world.

Work experience

You will complete over 1000 hours of placements throughout this program, starting in year one. Placements are completed in a range of settings, including schools, hospitals, community health organisations and industry.

Structure

32 credit points, including:

- 29 core units
- 1 selective unit
- 2 credit points of elective units
- 0-credit-point academic integrity unit.

Careers

As a graduate you will be able to assist people of all ages to engage in any aspect of daily living – helping them to achieve independence at home, at work and in the community, as well as enhancing their quality of life. For example, you may work with a person with an intellectual disability; support an older adult living at home; or with someone returning to work after having lived with a mental illness. You may find work in a range of both public and private health organisations.

Bachelor of Public Health and Health Promotion

Learn to make a difference to people's lives through Deakin's Bachelor of Public Health and Health Promotion. You will learn how to tackle health issues and improve the wellbeing of individuals, communities and populations. Combined approaches involving community engagement, policy development, research, education and the media will give you the expertise needed to address the causes of poor health and improve wellbeing throughout society.

Course information

Course code: **H313**
 Years (full time): **3**
 Campus: **B** **WP**
 Intake: T1 (March), T2 (July)
 2022 annual fee: A\$32,600
 IELTS score: 6.5/6

Accreditation

Graduates may be eligible to become members of the Public Health Association of Australia (PHAA) and obtain professional accreditation as a Health Promotion Practitioner with the Australian Health Promotion Association (AHPA).

Structure

24 credit points, including:

- 16 core units
- 8 elective units
- 0-credit-point academic integrity unit.

Careers

Graduates may work as a community development coordinator, health policy developer, health promotion officer, heath researcher, program development coordinator, program evaluator, social planning officer, or women's health officer. Employment areas may include healthy eating, mental health, physical activity and environment health, social inclusion, chronic illness (such as asthma, arthritis, heart disease), and women's health.

Bachelor of Social Work

If you are passionate about human rights and have a strong sense of social justice, this is the perfect degree to begin your journey towards a rewarding career in social work. Deakin's Bachelor of Social Work provides you with the knowledge and skills to enhance the wellbeing of others through developing your understanding of policy, socioeconomic factors and social equity issues.

Course information

Course code: **H330**
 Years (full time): **4**
 Campus: **WF**
 Intake: T1 (March)
 2022 annual fee: A\$32,600
 IELTS score: 7/7

Accreditation

Deakin's Bachelor of Social Work is an Australian Association of Social Workers (AASW) accredited qualification. Students completing the course are eligible to apply for membership of AASW and can practise throughout Australia.

Work experience

Work placements provide an opportunity for students to learn under the supervision of qualified social work practitioners. During the course there is a minimum of 1000 hours of work placements conducted in a variety of communities and workplaces in metropolitan and regional settings.

Structure

32 credit points, including:

- 29 core units
- 3 elective units
- 0-credit-point academic integrity unit.

Careers

You may be involved in policy development and research, counselling, family therapy, drug and alcohol counselling, community development and refugee assistance. Social workers also work as program managers or coordinators, and as advocates, facilitators, activists or consultants. You may work in specialist areas such as health, housing or education, or with groups such as the aged, families, women, youth or multicultural populations.

Bachelor of Vision Science/ Master of Optometry

Deakin offers Australia's first accelerated optometry course. You complete the five-year degree in just 3.5 years by studying three trimesters per year. Learn how to manage the health and function of the eyes and visual system, and to diagnose and manage a range of ocular conditions. The Bachelor of Vision Science/Master of Optometry will see you graduate as a qualified optometrist. You will learn about visual health issues and their impact at local and international levels.

Course information

Course code: **D302**
 Years (full time): **3.5**^{**}
 Campus: **WP**
 Intake: T1 (March)
 2022 annual fee: A\$38,400^{**}
 IELTS score: 7/7

Accreditation

Graduates of Deakin's Bachelor of Vision Science/Master of Optometry are eligible to apply for registration with the Australian Health Practitioner Regulation Agency (AHPRA) and as Medicare Service Providers. This course is accredited by the Optometry Council of Australia and New Zealand (OCANZ). Please note that there are English language requirements for registration.

Work experience

Clinical placements are an integral part of this degree. You will undertake a variety of short-term clinical placements and spend the final six months of the course as a 'student resident' in a clinical optometric and medical setting. These rotations take place in both metropolitan and regional or rural settings and will enable you to apply your knowledge and skills under the supervision of qualified optometrists.

Structure

40 credit points, including:

- 22 core units
- 2 zero-credit-point compulsory units.

Careers

Deakin optometry graduates are well prepared for employment in a diverse range of work settings, including private practice, corporate and community settings, health services, hospitals, non-government organisations, research institutes, government, and tertiary education institutions. Career opportunities include private and public eye care; research and education; and special interests within optometry, such as myopia control, dry eye management, low vision, and paediatric vision.

^{*} Cloud Campus (online) students will be required to attend some campus-based activities.

[#] Some units are available in the Cloud Campus (online).

^{*}Individual units may not be available at every campus.

^{*}Unlike most Deakin courses, the Bachelor of Medical Imaging runs on a Semester system.

^{**} This degree is a 3.5-year accelerated full-time program delivered over 10 consecutive trimesters. This means you will study three trimesters each calendar year.

^{**} The 2022 course fee is for three trimesters of full-time study in a single calendar year.

Humanities and Social Sciences

From anthropology and philosophy to criminology and international studies, apply your natural curiosity and creative instincts to pursue a career through studies in humanities and social sciences.

Learn from teachers who are leaders in their fields

Our teaching staff are passionate professionals, recognised as leaders and innovators in their fields. They conduct important research, making a positive impact in Australia and around the world.

Practical, real-world learning

Work experience can make all the difference when you graduate and are applying for jobs. That is why Deakin degrees focus on practical learning, to ensure you use the knowledge learned in class in real-world scenarios. Your degree could include work-integrated learning, where you gain practical experience through professional work placements with a government, private sector, NGO or community organisation.

Highly ranked

Deakin is ranked in the Top 1% worldwide for Arts and Humanities, Philosophy, Politics and International Studies, Social Sciences and Management, and Sociology by QS. This is a reflection of the University's high-quality programs.

Additional degrees

Deakin also offers a Bachelor of Arts/Master of Teaching and Bachelor Arts (Psychology). You can learn more about these degrees in the Education and Teaching (page 36) and Psychology (page 58) sections of this guide.

Explore interesting and complementary areas

Open up a world of career options by studying a humanities and social sciences degree. You can explore combined degrees to complete both courses in as little as four years. For example, combine politics and policy studies with nutrition, for a career in health policy in the Bachelor of Health Sciences/Bachelor of Arts.

Bachelor of Arts

Deakin's Bachelor of Arts degree offers many opportunities, allowing you to keep your career options open and design your course around your interests. All arts majors and minors are taught as a combination of practical and theoretical learning, with many areas of study offering work experience opportunities. You will develop specialist knowledge in your chosen disciplines and learn how to apply critical, creative and strategic thinking to real-world issues.

Course information

Course code: **A300**
 Years (full time): **3**
 Campus: **B** **WP** **C**

Practical experience

Get a head start in your career with real-world criminology work experience during this degree. You will receive course credit and develop valuable industry connections through internship opportunities in areas, including:

- community corrections
- health and human services
- government and private sectors.

Structure

24 credit points, including:

- At least 12 credit points of criminology units
- Up to 12 credit points of elective units
- 0-credit-point academic integrity unit.

Careers

Potential career opportunities await in both the public and private sector. Graduates can look forward to a diverse and challenging career in roles including: criminal intelligence analysts, correctional officers (including community correctional officers), crime data analysts, criminologists, criminal justice oversight and accountability specialists.

Related degrees

- Bachelor of Criminology/Bachelor of Cyber Security
- Bachelor of Criminology/Bachelor of Laws
- Bachelor of Criminology/Bachelor of Psychological Science

International experience

Real-world learning experiences with other cultures and countries will give you the soft skills required to pursue a global career. Opportunities may include short study tours, internationally focused internships in Australia or overseas, language study, or longer study abroad exchange experiences.

Structure

24 credit points, including:

- 6 core units
- 1 major sequence
- 8 elective units
- 2 credit points of approved international experience
- 0-credit-point academic integrity unit.

Careers

Our graduates work in a wide range of fields, including local and national government, diplomacy and foreign affairs, international aid and development, the business sector (communications, human resources, analysts, marketing), law, international education, and social entrepreneurship.

Related degrees

- Bachelor of International Studies (Global Scholar)
- Bachelor of International Studies/Bachelor of Commerce
- Bachelor of Laws/Bachelor of International Studies

* Remaining credit points may be used to undertake additional major or minor sequences, or electives.

* All majors except language and cultural studies can be taken as minors.

* Students wishing to complete multiple majors/minors under creative arts are recommended to apply for a Bachelor of Creative Arts.

* Offered to Geelong Waurin Ponds Campus students by combination of online and campus-based learning.

Information Technology

Whether you want to investigate cyber attacks or identify hidden patterns in big data, Deakin's information technology courses offer an immersive learning experience. Access the latest technology and facilities, pursue industry internships, and graduate ready to stand out to employers.

Use state-of-the-art facilities

Deakin regularly invests in facilities so that our students have access to some of the best learning spaces, equipment and technology that the Australian university sector has to offer. This means you will have the opportunity to gain experience with the same equipment that is used in industry.

► Robotics and Internet of Things (RIoT)

The RIoT lab is equipped with the latest technologies in computing, robotics and cyber-physical systems. You will also have access to current state-of-the-art professional software products, such as programming IDEs, VR and content development systems.

deakin.edu.au/it-facilities

► Applied Artificial Intelligence Institute (A²I²)

A²I² contributes to the development of AI functions and experimentation across many sectors. Drawing from the institute's global partnerships and research capacity, Deakin AI students have unparalleled access to AI leaders, thinkers and researchers, enabling you to build your professional networks.

a2i2.deakin.edu.au

Highly ranked

Deakin is ranked in the Top 100 universities worldwide for Computer Science and Engineering by ShanghaiRankings.

Work experience

All Deakin IT degrees include a compulsory work placement. If you study artificial intelligence, computer science, cyber security or information technology degrees, you will be required to undertake a minimum of 100 hours in industry, providing professional work experience with an approved host organisation. Software Engineering students are required to undertake at least 60 days of industry work experience.

These opportunities will allow you to work on real industry projects, ensuring you are well prepared to enter the workforce upon graduation.

Bachelor of Artificial Intelligence

Deakin's Bachelor of Artificial Intelligence provides you with the knowledge and skills to design, develop and evolve software solutions that utilise the latest advances in artificial intelligence (AI). Get hands-on experience developing AI-driven software solutions with the support of academics who are leaders in this emerging field. Our world-class research in AI feeds directly into our classrooms, ensuring what you learn meets the latest industry expectations and capabilities.

 Campus: **B** **C**
 Intake: T1 (March), T2 (July)
 2022 annual fee: A\$34,400
 IELTS score: 6/6

Accreditation

Deakin has been awarded accreditation for the Bachelor of Software Engineering (Honours) with the Australian Computer Society (ACS), as well as provisional accreditation with Engineers Australia.

Structure

32 credit points, including:

- 24 core units (totalling 28 credit points)
- 4 elective units
- 4 zero-credit-point units (safety and project orientated learning, safety induction, career tools for employability, and academic integrity).

Careers

As a graduate, you will have access to a wide range of industries, such as health, agriculture, manufacturing and transport. You may pursue a career as a business analyst, data engineer, embedded systems developer, machine learning engineer, mobile applications developer, project manager, robotics programmer, software engineer, software developer, systems architect, or web applications developer.

Law

Deakin Law School offers world-class and prestigious degrees that explore commercial law, criminology and more. You will become prepared for a challenging and rewarding career.

Many areas of law

A centre for excellence in commercial law, Deakin Law School delivers a diverse range of study and research areas, including intellectual property, corporate law, torts, sentencing and law practice, property law, human rights law, family law and cyber law, as well as migration and refugee law.

Deakin Law Clinic

Deakin Law Clinic provides a free community legal service to those seeking legal advice in a range of areas, including civil and commercial law, criminal law, employment law, family law, and venture law. Students interview real clients under the supervision of qualified legal practitioners, conduct research on legal issues, and offer advice where appropriate. Students also have the opportunity to attend court proceedings. These clinical programs empower students to expand on the rigorous academic knowledge and the critical skills they gain during their degree.

Nursing and Midwifery

If you enjoy working in a team and have good communication and decision-making skills, a career in nursing and midwifery may be for you. Deakin offers a single nursing degree and a nursing and midwifery combined degree, as well as other nursing combined degrees.

Among the best

Deakin is ranked in the top 30 universities in the world for nursing by the prestigious QS World University Rankings by Subject, which is informed by academic and employer reputation, as well as research impact.

Professional recognition

As a graduate of the Bachelor of Nursing, Bachelor of Nursing/Bachelor of Midwifery or other combined nursing degree, you will be eligible to apply for registration as a registered nurse with the Nursing and Midwifery Board of Australia (NMBA). On completion of the Bachelor of Nursing/Bachelor of Midwifery, you are also eligible to apply for registration as a midwife.

Practical, real-world experience

You will gain clinical experience in a variety of nursing settings. Clinical placements begin in Trimester 1 of your first year and continue throughout your course in every trimester. They offer extensive opportunities to develop and consolidate your learning, and are undertaken in metropolitan, regional and rural health care settings under the supervision of qualified practitioners.

Clinical Simulation Centres

Deakin's Clinical Simulation Centres replicate hospital and community settings with state-of-the-art equipment. These purpose-built, flexible learning spaces and simulated clinical facilities offer a safe, supportive and realistic environment for you to develop essential clinical nursing and midwifery skills. You will take part in case-based scenarios, and these will become more complex as your nursing degree progresses.

Bachelor of Nursing

Deakin's Bachelor of Nursing gives you the knowledge, skills and ethical understanding needed to become a competent and successful registered nurse – launching you into a career where you can make a real difference. This degree prepares you to provide high-quality, safe, patient-centred care in a range of settings. Students with current or previous nursing experience may be eligible to apply for up to 16 credit points in recognition of prior learning.

Course information

Course code: **H326**
 Years (full time): **3**
 Campus: **B** **WF** **WB**
 Intake: T1 (March), T2 (July)*

Your pathway to becoming a registered nurse

Deakin's undergraduate nursing degrees are specifically designed to fulfil the registration standards of the Nursing and Midwifery Board of Australia (NMBA). The diagram below highlights the study options available to achieve NMBA registration as a registered nurse.

Nutrition and Dietetics

Issues related to food and health are increasing around the world as we face challenges such as obesity, mental illness and disease. Food and nutrition play a huge part in human health, so there is high demand for qualified professionals to educate the community about how to live a healthy life.

Strong links to industry

Through Deakin's strong connections with industry and opportunities to complete work placements, you will learn from leading professionals in healthcare and food settings. This experience will enable you to build your network from early on in your career, which will prove useful when you begin your job search.

State-of-the-art facilities

Put theory into practice in our state-of-the-art food sensory labs located within our Centre for Advanced Sensory Science. Designed just like those found in industry settings, our labs provide hands-on experience that prepares you for the workplace.

Accreditation

Enrolled students and graduates of Deakin's undergraduate nutrition programs can apply for membership of the Nutrition Society of Australia. If you choose to undertake the food innovation major, you may also be eligible for membership of the Australian Institute of Food Science and Technology.

Graduates are eligible to apply to become a Registered Associate Nutritionist with the:

- Nutrition Society of Australia
- Hong Kong Nutrition Association
- UK Association for Nutrition.

Work experience

You may choose to undertake an industry placement elective unit and/or volunteer unit to gain hands-on experience while completing your degree. In the final year of your degree, you can enhance your employment prospects and consolidate your knowledge and skills by undertaking at least 75 hours of placement within the Food and Nutrition practicum unit. The practical experience you will complete is a core feature of this program and it sets you apart from other graduates.

Bachelor of Nutrition Science

Study Deakin's Bachelor of Nutrition Science to develop an understanding of human nutrition and its impact on health. Learn how to approach the challenges facing our society including disease prevention, obesity, the spread of misinformation, and the social and physiological effects of food on our wellbeing.

This degree provides an opportunity to complete the prerequisites required to apply for Deakin's Master of Dietetics, and is a direct pathway for students to apply for the Master of Human Nutrition or Master of Nutrition and Population Health.

Course information

Course code: **H315**
 Years (full time): **3**
 Campus: **B**
 Intake: T1 (March), T2 (July)
 2022 annual fee: A\$36,400
 IELTS score: 6.5/6

Structure

24 credit points, including:

- 13 core units
- 6 unit Food Innovation major sequence and 5 elective units OR 5 nutrition and food elective units and 6 elective units
- 3 zero-credit-point compulsory units.

Major sequences

Careers

Graduates are well prepared for careers requiring knowledge of nutrition and health in different populations and life stages, diet and disease relationships, food sustainability, food composition and analysis, and food policy. Students completing the food innovation major will be prepared for careers requiring knowledge of consumer behaviour, sensory analysis, product development, food quality and safety, and food manufacturing. You may also gain employment in food regulation, consumer education and awareness campaigns, and community nutrition.

Bachelor of Nutrition Science (Dietetics Pathway)

Deakin's Bachelor of Nutrition Science (Dietetics Pathway) offers guaranteed entry into our Master of Dietetics if you achieve a 75 weighted average mark or above. The degree develops your understanding of human nutrition and its impact on health. Learn how to approach the challenges facing our society including disease prevention, obesity, the spread of misinformation, and the social and physiological effects of food on our wellbeing.

Psychology

Studying psychology allows you to explore the human mind, its processes, behaviour and mental states. With increasing focus on mental health in modern society, a psychology qualification can lead to a range of opportunities and a career that is both rewarding and challenging.

Highly ranked

Deakin's psychology programs are ranked in the Top 200 universities worldwide by QS. That means we are in the Top 1% in the world, so you can be confident that your Deakin psychology degree will be respected by employers across a wide range of industries.

Accreditation

All of the psychology courses offered at Deakin meet the requirements of the Psychology Board of Australia (PBA) and the Australian Psychological Society (APS), translating into excellent job and career opportunities for our graduates. Deakin's Bachelor of Psychological Science is accredited by the Australian Psychology Accreditation Council (APAC).

Deakin's Bachelor of Arts (Psychology) with a 10-credit-point major in psychology is accredited by the Australian Psychology Accreditation Council (APAC), and enables you to undertake additional study in pursuit of provisional registration as a psychologist.

Explore our industry connections

Deakin has close ties with industry – so you will benefit from learning the most up-to-date industry skills and knowledge. This means you will graduate work ready and with the confidence needed to succeed. Our industry partnerships involve collaborations with government agencies, public and private organisations, hospitals, as well as other universities.

Additional psychology degrees

Deakin also offers a Bachelor of Human Resource Management (Psychology) and Bachelor of Marketing (Psychology). Both degrees are accredited by the Australian Psychology Accreditation Council (APAC). You can learn more about these degrees in the business section (page 26) of this guide.

The right degree for you

Wondering whether to study Deakin's Bachelor of Psychological Science or Bachelor of Arts (Psychology)? It depends on your interests. The Bachelor of Psychological Science explores clinical and behavioural psychology, and focuses on the affect our mental health has on relationships and our wellbeing. The Bachelor of Arts (Psychology) allows you to combine your study of psychology with other areas, from sociology to creative writing. Both courses contain the accredited major sequence in psychology, ensuring you are on the right pathway if you would like to apply for provisional registration as a psychologist once you have completed the required additional study (see page 60).

Bachelor of Arts (Psychology)

Study the Bachelor of Arts (Psychology) and gain insight into why people think, feel and behave the way they do. At the same time, you will also be exposed to a range of opportunities through your study in the Arts. Learn a variety of skills sought by employers by studying one degree, with exposure to two distinct areas of interest.

* All majors except language and cultural studies can be taken as minors.

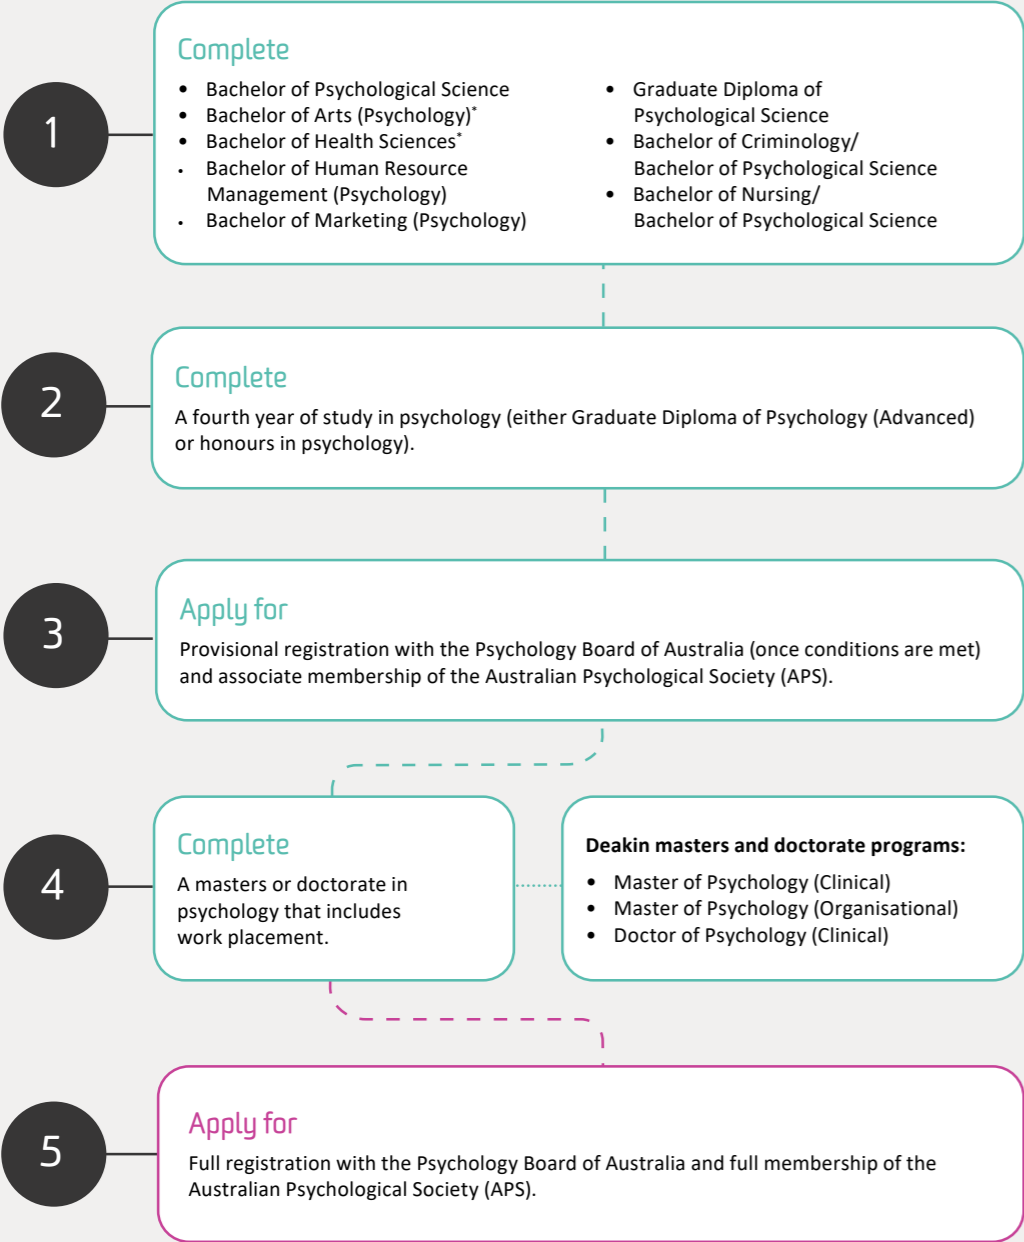

* Students wishing to complete multiple majors/minors under creative arts are recommended to apply for a Bachelor of Creative Arts.

Offered to Geelong Warrn Ponds Campus students by combination of online and campus-based learning.

Pathways to registration as a psychologist

To obtain registration as a provisional psychologist, you will need to complete four years of psychology studies recognised by the Psychology Board of Australia. After completing a Deakin undergraduate psychology degree, there are a number of further study options you can take to be eligible for registration. The following diagram provides an overview of potential pathway options.

* Students must complete the 10-credit-point major in psychology.

Science

Science often plays a key role in finding solutions to world issues. If you would like to improve the world around you, a degree in science can help you make an impact in areas such as climate change, stem cell research or forensic crime.

Experience before graduating

Deakin's science degrees have a focus on practical experience and offer hands-on learning to ensure you graduate skilled and work-ready. These experiences might include workplace visits, field trips, industry learning and networking opportunities, helping to build your resume before you graduate.

Work experience

As a Deakin science student, you gain experience through innovative practical programs, including professional practice units. This means you will have 80-160 hours of work experience in a course-related organisation, giving you the opportunity to apply the knowledge gained in your course, experience workplace culture and workplace practices, explore career options, and develop a professional network.

Learn in outstanding facilities

Studying at Deakin gives you access to cutting-edge technology and is enhanced by a range of facilities and equipment, like our Geographic Information Systems (GIS) lab, purpose-built crime scene training facility, wildlife tracking technology, aquaculture facilities and high-tech biomedical research laboratories.

deakin.edu.au/les-facilities

Supporting women in STEMM

Deakin has been awarded a prestigious Athena SWAN Institution Bronze Award for its programs that encourage more women to study in Science, Technology, Engineering, Mathematics and Medicine (STEMM). The award recognises Deakin's extensive work in promoting gender equity, inclusivity and diversity.

Choose your degree

Deakin offers five undergraduate science programs and the degree you choose will depend on your area of interest. See the next page to explore your science study options.

Bachelor of Science

Deakin’s Bachelor of Science prepares you to enter the exciting world of scientific discovery, while allowing you to create your own unique path by choosing from a wide range of majors. The degree is about more than just laboratory work and prepares you for a variety of real-life settings in which today’s science graduates work.

Course information*

Course code: **S320**
Years (full time): **3**
Campus: **B** **WP**
Intake: T1 (March), T2 (July)
2022 annual fee: A\$37,000
IELTS score: 6/6

Major sequences

Animal biology **B** **WP**
Cell biology **B** **WP**
Chemistry **B** **WP**
Environmental science **B**
Genomics **B** **WP**
Human biology **B** **WP**
Mathematical modelling **B** **WP** **C**
Plant biology **B**

Structure

24 credit points, including:

- 8 core units
- 10 elective units
- 6 major sequence units
- 3 zero-credit-point units (laboratory and fieldwork safety, career tools for employability and academic integrity).

Careers

The flexibility of this degree means you can find employment in a range of areas such as government institutions, environment and natural resources, teaching or science journalism. A science degree with Deakin can lead to roles as a research scientist, field botanist, park ranger, secondary teacher, environmental manager, technician, clinical trial leader, scientific editor, chemist, project manager or environmental consultant.

- Master of Sustainability

Bachelor of Biomedical Science ••► Your pathway to medicine

Develop an in-depth understanding of human biology through the Bachelor of Biomedical Science and graduate with the skills and experience to play an important role in the diagnosis and treatment of diseases at molecular, cellular and systems levels. Expertise in biology and the science behind disease puts you in a position to make a real difference in people’s lives. Explore early diagnosis, disease progression and prognosis, and the role of pharmaceutical science in the treatment of disease and improved health.

Course information

Course code: **S323**
Years (full time): **3**
Campus: **B** **WP**
Intake: T1 (March), T2 (July)
2022 annual fee: A\$37,400
IELTS score: 6/6

Major sequences

Environmental health **B** **WP**
Infection and immunity **B** **WP**
Medical biotechnology **B** **WP**
Medical genomics **B** **WP**
Molecular life sciences **B** **WP**
Pharmaceutical science **B** **WP**

Structure

24 credit points, including:

- 15 core units
- 3 elective units
- 6 major sequence units
- 3 zero-credit-point units (laboratory and fieldwork safety, career tools for employability and academic integrity).

Careers

Biomedical science provides opportunities in a range of health-related industries, including medical research, genetic engineering, the pharmaceutical industry, pharmaceutical/medical sales and laboratory technology. You could also advance to honours or postgraduate studies, enhancing your professional development as a scientist, which will complement your scientific training and broaden your career opportunities. Deakin also offers three preferential places into the Doctor of Medicine for international students who successfully complete our Bachelor of Biomedical Science and meet the Doctor of Medicine admission criteria.

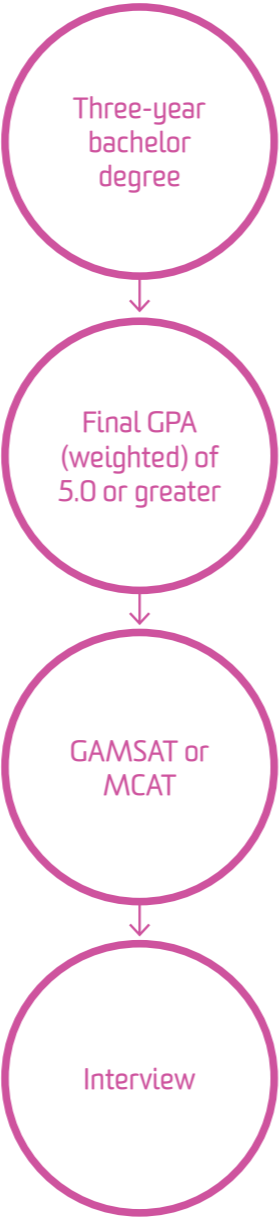

Further study

- Bachelor of Science (Honours)
- Doctor of Medicine
- Master of Biotechnology and Bioinformatics

If you are interested in a career as a medical doctor, the Bachelor of Biomedical Science can be your first step.

Deakin offers three preferential places each year into Deakin’s Doctor of Medicine for international students who successfully complete our Bachelor of Biomedical Science and meet the Doctor of Medicine admission criteria.

Deakin’s medicine programs are among the best in the world. We have been ranked in the Top 200 universities worldwide for medicine by QS World University Rankings by Subject. These rankings are informed by academic and employer reputation, as well as research impact.

Bachelor of Forensic Science

Deakin’s Bachelor of Forensic Science lets you experience the full scope of modern forensic science, from simulated crime scenes to courtroom presentations. With a strong focus on practical training, you will graduate with the skills needed to confidently examine, interpret and present forensic evidence. You will enhance your courtroom skills by building knowledge of the science behind criminal investigations and gain authentic experiences in our unique crime scene training facility.

Course information

Course code: **S324**
Years (full time): **3**
Campus: **WP**
Intake: T1 (March), T2 (July)
2022 annual fee: A\$37,000
IELTS score: 6/6

Major sequences

Forensic biology **WP**
Forensic chemistry **WP**

Accreditation

Deakin is the first university in Australia – and the only university in the Asia-Pacific region – to offer a professionally-accredited forensic science degree. The Bachelor of Forensic Science is accredited by the Chartered Society of Forensic Sciences.

Structure

24 credit points, including:

- 11 core units
- 1 major sequence of study in either forensic chemistry or forensic biology
- 7 elective units
- 3 zero-credit-point units (laboratory and fieldwork safety, career tools for employability and academic integrity).

Careers

Graduates may find work in areas such as forensic laboratories insurance investigation, risk analysis, research science, policing, government, and within chemical, food and pharmaceutical industries.

Bachelor of Forensic Science (Honours)

Bachelor of Marine Science

Study marine science at Deakin’s Geelong Waurm Ponds Campus where you will have access to spectacular marine environments full of rich biodiversity. Become an expert in ocean systems by exploring a broad range of disciplines, including marine microbiology and genomics, oceanography, coastal processes, marine modelling, marine biology, marine ecology, fisheries and aquaculture. The Bachelor of Marine Science provides you with the skills needed to create a sustainable future for the world’s oceans.

Course information

Course code: **S337**
Years (full time): **3**
Campus: **WP**
Intake: T1 (March), T2 (July)
2022 annual fee: A\$37,000
IELTS score: 6/6

Structure

24 credit points, including:

- 17 core units
- 7 elective units
- 3 zero-credit-point units (laboratory and fieldwork safety, career tools for employability and academic integrity).

Careers

As a marine scientist, you will gain skills across multi-disciplinary areas which allow for a diverse range of career opportunities in both research and applied fields in areas such as oceanography, marine biochemistry and biotechnology, fisheries, remote sensing, marine biology and ecology, microbiology and genomics, mathematics or economics. Further postgraduate studies, including research training, could lead you to becoming a research scientist in a specific field of marine science.

Related degrees

Bachelor of Environmental Science (Marine Biology)

Further Study

- Bachelor of Environmental Science (Honours)
- Bachelor of Science (Honours)

Bachelor of Zoology and Animal Science

Through Deakin’s Bachelor of Zoology and Animal Science you will explore the social and economic impact that human activity has on animals and their ecosystems. You will also investigate how animals respond and adapt to changes in the environment, including climate change. The program has a strong focus on Australian fauna and its unique importance in the global environment. Apply the latest research techniques to test theories in real-world settings and develop decision-making skills that are based on evidence and valued by industry.

Course information

Course code: **S369**
Years (full time): **3**
Campus: **WP**
Intake: T1 (March), T2 (July)
2022 annual fee: A\$37,000
IELTS score: 6/6

Structure

24 credit points, including:

- 17 core units
- 7 elective units
- 3 zero-credit-point units (laboratory and fieldwork safety, career tools for employability and academic integrity).

Careers

You will be well placed to explore opportunities in zoological research, government environmental monitoring, private environmental consulting, museums, school and university education, primary industries, quarantine and wildlife biology. Successful completion of the degree may also lead to opportunities for further study, including postgraduate research training. The course may also be a potential pathway to veterinary science programs (subject to specific entry requirements).

Further study

Bachelor of Science (Honours)

Sport

Sport is more than medals, trophies and sponsorship. It is about community, finding your passion, helping others and striving to be the best you can possibly be. Gain a world-class qualification in a country that is known globally for its sporting culture and achievement.

Get ready for a future in sport

Career outcomes in the sporting industry are exciting, varied and growing. With an increase in obesity issues and chronic disease rates in Australia and around the world, the importance of physical activity and participation in exercise and sport continues to grow. Professional and community sport leagues and organisations are expanding around the world, requiring qualified individuals who can manage them and nurture their development.

World-class sporting facilities

Our new world-class specialised indoor exercise and sport science building at the Melbourne Burwood Campus features four levels of state-of-the-art sport science learning facilities. The building accommodates our growing suite of courses, increases your exposure to real-world technology and equipment, and enhances your opportunities for research projects and community engagement.

Specialised features

- A climate chamber that can simulate extreme conditions and alter temperature, humidity and altitude.
- 40m running lanes and a walking track with overhead harness gantry.
- A 16-piece cardio area and an open group fitness area with over 40 stations.
- 3D motion capture systems and specialised AV equipment.
- Specialised 8m high ceilings, with retractable catch netting to accommodate sport actions in teaching, research and consultation.

Centre for Sport Research

The Centre for Sport Research (CSR) focuses on improving the health and performance of people and organisations participating in sport. As well as promoting sport and exercise, CSR conducts research that informs Deakin's sport programs, meaning the curriculum is current, relevant and will prepare you for the diverse career you hope to pursue or progress.

Highly ranked

Deakin's School of Exercise and Nutrition Sciences is ranked the **number three** sports science school in the world, and **number one** in Australia by the prestigious ShanghaiRanking's Global Ranking of Sport Science Schools and Departments. These rankings recognise academic excellence and industry-leading research so you can be confident that your degree will be valued by employers everywhere.

Bachelor of Business (Sport Management)

Make a difference behind the scenes in the fast-paced sport industry through Deakin's Bachelor of Business (Sport Management). You will develop the skills required to manage sport organisations, coordinate sporting competitions and major events, and work in community-based sporting programs. With the increased professionalism of sport, you will learn how to manage the business side of sport, with specialised training in sport marketing, finance, management and law. You can also build your expertise with a complementary business major.

Course information

Course code: **M391**
 Years (full time): **3**
 Campus: **B** **C**
 Intake: T1 (March), T2 (July), T3 (November)*
 2022 annual fee: A\$35,800
 IELTS score: 6/6

Industry connections

Deakin's Bachelor of Business (Sport Management) is the longest-running sport management course in Australia. This has allowed us to build strong relationships with partners from all sectors within the sports industry, and means you will learn relevant skills and knowledge.

Structure

24 credit points, including:

- 16 core units
- 8 elective units (which may include a major sequence)
- 0-credit-point academic integrity unit.

Careers

Career opportunities include: player agent, professional players' manager, professional sports association official, sports event coordinator, sports governance official, sports journalist, sport analyst, and sports management consultant.

Related degrees

Bachelor of Exercise and Sport Science/
 Bachelor of Business (Sport Management)

Bachelor of Exercise and Sport Science

Deakin's Bachelor of Exercise and Sport Science provides an accredited pathway to register and practise as an Accredited Exercise Scientist with the national accrediting body, Exercise and Sport Science Australia (ESSA). You will learn how to apply knowledge and skills in exercise and sport science to improve the performance, health and participation of individuals, athletes and teams.

Course information

Course code: **H343**
 Years (full time): **3**
 Campus: **B** **WP**
 Intake: T1 (March), T2 (July)
 2022 annual fee: A\$37,000
 IELTS score: 6.5/6

Work experience

Students in this degree complete two industry-based practical experiences: 80 hours of practical experience in Exercise Programming in second year, and 140 hours of practical experience in the Exercise and Sports Science Practicum in final year. These are a core feature of the course and, when combined with one-on-one career mentoring by staff in particular units, will set you apart from other graduates.

Structure

24 credit points, including:

- 16 core units
- 8 elective units
- 2 zero-credit-point compulsory units.

Careers

As well as typical roles in the sport, exercise, coaching and fitness industry, you may pursue employment in sport science, sports administration, facility management, community health and wellness, or rehabilitation. Employment opportunities also exist in elite sport, professional sporting clubs, government agencies, professional sporting bodies, sporting clubs, hospital and rehabilitation clinics, fitness and aquatic centres, private health and recreation centres, and large organisations in corporate health.

Related degrees

- Bachelor of Exercise and Sport Science/Bachelor of Business (Sport Management)
- Bachelor of Exercise and Sport Science/Bachelor of Nutrition Science

Further study

- Bachelor of Exercise and Sport Science (Honours)
- Master of Clinical Exercise Physiology
- Master of Dietetics

Bachelor of Sport Development

With Deakin's Bachelor of Sport Development you will examine the science of coaching as well as the practical methods of encouraging health and wellbeing through participation in sport. Explore sport pathways and coaching, as well as the marketing and management of sport in ways that impact the health and wellbeing of communities, and turn your lifelong passion into a rewarding career.

Course information

Course code: **M320**
 Years (full time): **3**
 Campus: **B**
 Intake: T1 (March)
 2022 annual fee: A\$35,800
 IELTS score: 6/6

Structure

24 credit points, including:

- 3 Foundation of Sport Development units
- 7 Sport Organisation Development units
- 6 Coaching units
- 6 Community Development units
- 2 Practicum units
- 2 zero-credit-point academic integrity and induction units.

Careers

This course will prepare you for roles in coaching, the leisure industry, sports science and in the field of community sports development. Roles include community sports development officer, high performance manager, player agent, professional sports association official, sports governance official, recreation officer, sport development officer, sports coach, and sports policy officer.

* This intake is available through the Cloud Campus (online) only.

Research and honours

After completing a bachelor degree at Deakin University, you may be interested in continuing your studies through an honours year, or even a research degree. Deakin offers a number of further study opportunities, and we invite you to explore these by visiting deakin.edu.au/ug-international.

Research at Deakin

At Deakin, we are proud to provide our research students with access to world-class facilities, a network of academic supervisors who are leaders in their fields, and a large range of research disciplines.

Deakin's research portfolio extends across many areas, including advanced materials, biotechnology, built environment, ageing and chronic illness, citizenship and globalisation, intelligent systems, natural resource management, physical activity and nutrition, education, social and mental health, and more. Using our industry, government and institutional networks, Deakin is building our global research footprint across four key themes, supported by world-class research institutes and strategic research centres. The themes are:

Improving health and wellbeing

Our world-class research in health and wellbeing supports healthy ageing across the life span. Deakin researchers are involved in a broad range of studies that address individual and population health challenges – engaging with communities and Deakin partners to solve real-world challenges.

Creating smarter technologies

A world leader in materials science research, including carbon and short fibre, metals and steel, electromaterials, corrosion, nanotechnology, and composite materials, Deakin is home to state-of-the-art engineering and design facilities such as the unique Carbon Nexus research plant in Geelong.

Enabling a sustainable world

Deakin's ecologists and evolutionary biologists are helping to protect Australia's vulnerable flora and fauna from disease, rapid development and climate change. Through every project in this field, our research drives outcomes that address global environmental and sustainability issues.

Building safe and secure communities

Researchers across many disciplines are focused on building safe and secure communities, from finding ways to boost community resilience, to developing cutting-edge cyber security systems or solutions for Australian defence.

Advancing society, culture and the economy

Humanities and social sciences scholars at Deakin undertake outstanding, internationally recognised research in diverse fields for the social good. These include political and ethical theory; contemporary histories; cultural heritage and museum studies; human ecology; religious and social change; criminal justice reform; cybercrime; humanitarian and disaster relief; international and community development; state, national and regional politics and policy issues; international relations; and democracy and democratisation. Much of our research in these domains takes place within the nationally recognised Alfred Deakin Institute for Citizenship and Globalisation (ADI), the Centre for Humanitarian Leadership (CHL) and the Contemporary Histories Research Group (CHRG).

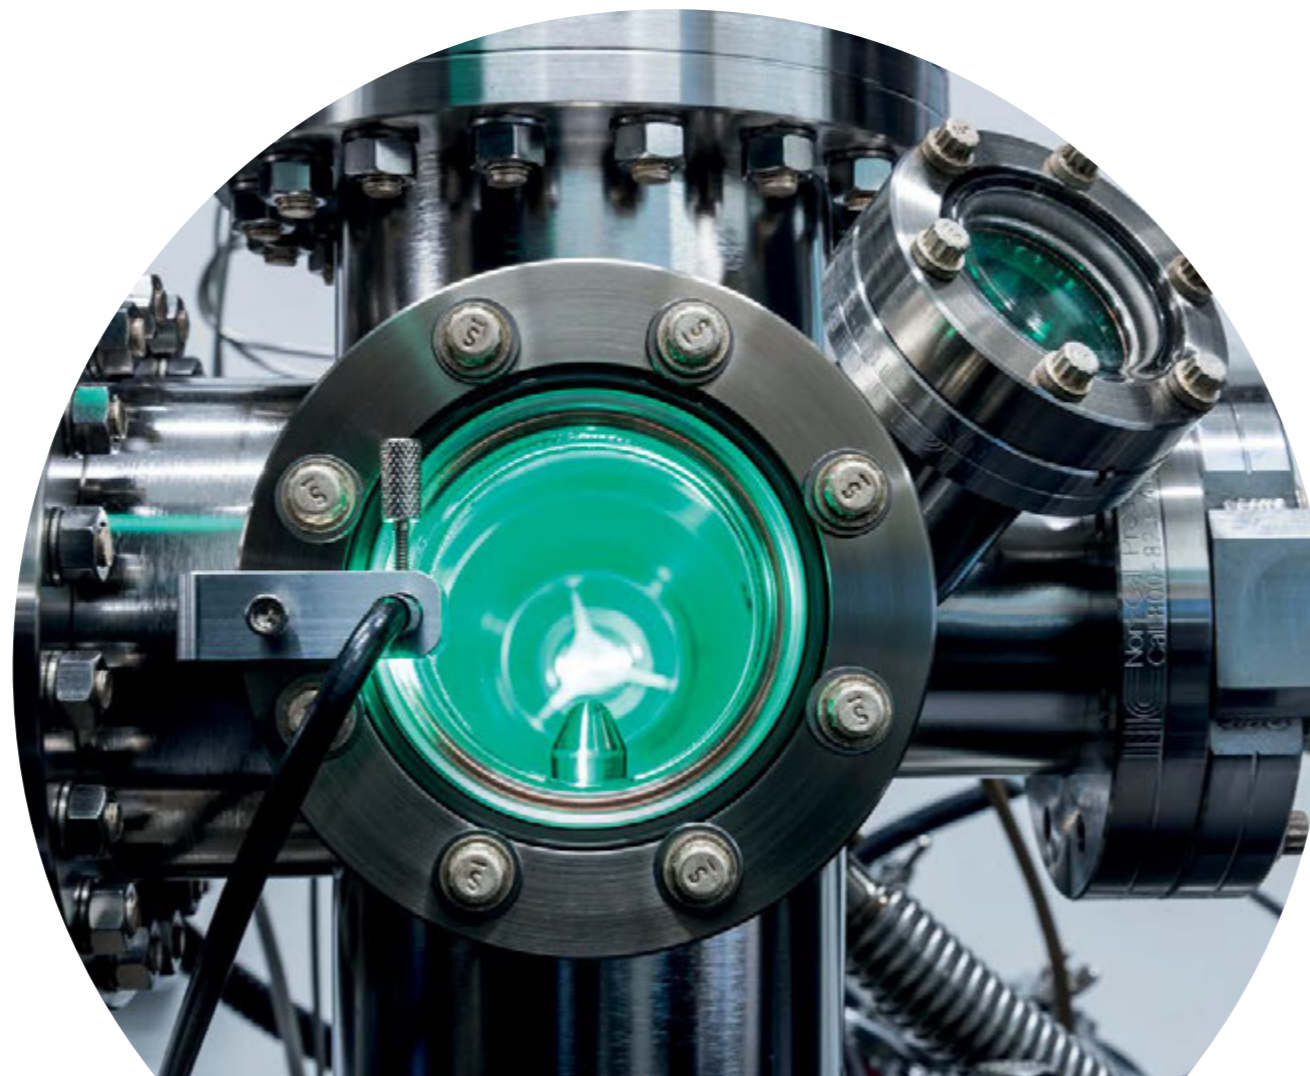

Research degrees

You can pursue postgraduate research studies in three different ways:

- Masters by research, which is awarded for an original contribution to knowledge, achieved in up to two years of full-time candidature or part-time equivalent
- Doctor of Philosophy (PhD), which is awarded for a substantial original contribution to knowledge, achieved in two to four years of full-time candidature or part-time equivalent
- Doctor of Psychology (DPSych), which is a professional doctorate program that combines a research project, coursework and structured research tasks that specifically relate to professional practice.

Research rankings

Our strong commitment to research can be seen in Deakin's excellent performance in the ShanghaiRankings, which has positioned Deakin in the Top 1% of universities worldwide. The University has also been ranked among the Top 50 young universities in the world by QS.

Honours degrees at Deakin

If you are a high-achieving student set to finish your bachelor degree at Deakin, you might have the opportunity to undertake an honours degree with us. Honours is a specialised year of study drawing together the theory and practical skills gained in your undergraduate studies. Studying at the honours level is a great way to get valuable research experience, improve your career opportunities or specialise in an area that you love. You will develop your knowledge of your chosen discipline through research and additional course work. Honours students are encouraged to take part in research seminars and forums and to present their research at conferences.

At Deakin you can apply to undertake honours in one of two ways:

On-course honours award

An on-course honours degree is one where the honours component is embedded within the bachelor's degree, e.g. Bachelor of Occupational Therapy. This type of honours award recognises outstanding achievement in a bachelor degree program of four or more years that has an embedded honours component.

Research-based honours award

Choose a course that allows you to undertake an additional year of study, e.g. Bachelor of Arts. This type of honours award allows you to undertake specialised research and research training while being supervised by an academic with a proven research record.

Both honours awards will provide you with significant experience and exciting opportunities to expand your skill base before moving into employment or postgraduate study. An honours award also provides the standard (and shortest) pathway for entry into research degrees.

Virtual Open Day 2021

On **Sunday 15 August 2021**, Deakin will be running a Virtual Open Day. Join us for this interactive live online experience and have the opportunity to engage directly with Deakin from anywhere in the world.

Alongside degree information sessions there will also be specific sessions run for international students which will cover the following topics:

- Applying to Deakin – entry requirements and pathways
- Funding your studies – living costs, part time work and scholarships
- International student life – live Q&A session with current Deakin international students

Register your attendance at openday.deakin.edu.au.
