THE UNIVERSITY
of ADELAIDE

From our Vice-Chancellor

A member of Australia's prestigious Group of Eight research-intensive universities and ranked in the top 1% of universities worldwide, the University of Adelaide is recognised globally for its research excellence and dedicated staff that are international leaders in their field.

Our undergraduate degrees are world-class, driven by cutting edge research and technology that encourages critical thinking, problem solving, teamwork and communication. The University is focused on preparing students for their careers through employability development activities and internships, while our Industry Engagement Priorities ensure close alignment with the needs of industry.

While the Covid-19 pandemic continues to create some uncertainties, which may impact travel to and within Australia, we are very much looking forward to warmly welcoming our diverse student body, from over 90 countries, to the University and, when possible, back to our campuses, including our beautiful North Terrace campus located at the heart of our city. Our international orientation activities will assist

students, wherever they may be in the world, with making a successful transition and learning more about the South Australian culture.

The University of Adelaide is known for its excellence, creativity of thinking, and innovation. We were established on a foundation of access and equity, and we have a proud history of diversity—we were the first university in Australia and among the first in the world to admit women to all degree programs. With five Nobel Laureates and more than 100 Rhodes Scholars we provide graduates with the support and opportunity to make a major contribution to the world.

Vice-Chancellor and President
Professor Peter Høj AC

Why choose the University of Adelaide?

At the University of Adelaide, we unite and serve those striving to change the world—and themselves—for the better. This is a place where you can make history.

Established in 1874, we're home to around 27,000 students and 3,000 staff, all working to create progress. For everyone in our community. Ours is a university of outstanding quality—ranked among the top 1% globally—in the heart of Australia's most liveable city*.

Relentlessly progressive

Adelaide has made a habit of breaking new ground. We were Australia's first university to welcome female students. The first to offer

Produced over
110 Rhodes
Scholars

science and business degrees. The first with a conservatorium of music.

Among those who've studied, taught, or conducted research here are Australia's first female prime minister; space-walking astronaut; Indigenous Rhodes Scholar; and female Supreme Court judge, state governor and university chancellor. That's in addition to the 2021 Young Australian of the Year; 2020 Australian of the Year; and five Nobel Prize winners.

Exceptional research and education

Our bold spirit continues to drive us to excel. In research, as our state's only member of Australia's prestigious Group

of Eight research-intensive universities, we're rising to global challenges in a huge range of fields, with work universally rated world-standard or above[^].

In fact, our output—frequently collaborative with industry and government—is recognised as 'well above' world standard in 41 distinct areas. These range from space sciences, materials engineering and AI, to cardiorespiratory medicine, crop production and environmental science.

As a teaching university, we're ranked among the top 100 globally in 24 different subject areas[†]. In nine of those—including computer science, dentistry and veterinary science—we're top-50.

We also lead our state in graduate employability^{**}. Our degrees combine deep discipline knowledge with broad, transferable skills, ensuring graduates are well prepared for a multidimensional career in the future workforce.

Adelaide suburbs

Hit the beach

Adelaide is a coastal city, with pristine white sandy beaches that attract thousands for relaxation and recreation in the summer. It takes just 20 minutes on the tram to get from the city centre to the beach.

Live centrally

Student accommodation is more affordable in Adelaide than in many other Australian cities, and much of it is in the heart of the CBD. Many students can simply walk to their lectures.

State stats	
Area	983,482 km ²
Capital	Adelaide
Coastline	5,059 km
Population	Adelaide: 1.3m South Australia: 1.7m
Currency	Australian dollar (AUD)

Adelaide Central Market

South Australia has 5,056km of coastline and over 100 islands.

Glenelg Beach

Adelaide - the perfect city for students

Rundle Street East End

La Moka cafe

Café culture

Adelaide is one of Australia's most cosmopolitan cities, with an array of cafés, restaurants and shops reflecting the diversity of its ethnic communities. Adelaide is reputed to have more cafés and restaurants per head of population than any other city in Australia.

Shopping

Adelaide boasts a range of shopping experiences comparable to anywhere in Australia. Within the CBD, Rundle Mall has the biggest concentration of department and chain stores, while within walking distance are trendy boutiques, bars and cafés.

Climate

Warm, dry summers and short, mild winters. Over 300 days of sunshine per year.

Season	Months	Conditions	Temp

Autumn	Mar – May	Mainly dry	20 – 25°C
Winter	Jun – Aug	Cool and wet	10 – 15°C
Spring	Sept – Nov	Some rain	20 – 25°C

Flight hours to Adelaide

Adelaide is an attractive, vibrant city with lots to do.

Adelaide CBD

Adelaide Oval

Adelaide - the perfect city for students

Easy to get around

Adelaide is a vibrant city that's easy to navigate. Broad, spacious boulevards accommodate an efficient network of public buses, trains and trams, with international students receiving the same discounts as locals.

Festival fever

South Australia is known as the festival state of Australia because of the large number of national and international cultural and sporting festivals it hosts per year.

WOMADelaide

Our campuses

The University of Adelaide has three campuses in South Australia—North Terrace, Roseworthy and Waite—and a new campus in Melbourne, Victoria.

North Terrace campus

The University's main campus on North Terrace is renowned for its historic architecture and lively atmosphere. Located in the heart of Adelaide's central business and shopping district, the campus is adjacent to the State Library, Festival Theatre, South Australian Museum, Art Gallery of South Australia, Adelaide Zoo, and Botanic Gardens. The University's Adelaide Health and Medical Sciences building is also within walking distance, in the Adelaide BioMed City precinct.

Virtual tours

Explore our virtual video tours to discover your place among the iconic heritage-listed architecture and state-of-the-art facilities on our beautiful, historic main campus; experience our innovative Adelaide Health and Medical Sciences building in the heart of the Adelaide BioMed City precinct; or uncover the picturesque settings and advanced technology available at our satellite campuses, Waite and Roseworthy.

Visit: adelaide.edu.au/tours

Waite campus

The Waite campus is home to the internationally renowned Waite Research Institute—the largest agricultural research institute in the southern hemisphere and third largest in the world. A number of research partners are also co-located there. Staff and students work closely with these organisations, providing a unique opportunity for collaboration on national and international research projects. Research areas include wine, plant biotechnology, plant breeding, sustainable agriculture and food science.

The campus is located eight kilometres south of the city centre and is easily accessible by public transport and a Waite-North Terrace campus shuttle bus service. Campus services include a childcare centre, library, cafe, gym and sporting facilities.

Roseworthy has an AUD\$37 million veterinary clinic, where students can gain clinical experience.

Roseworthy campus

Roseworthy campus

Roseworthy campus is an internationally renowned centre for excellence in dryland agriculture, natural resource management and animal production. Set on over 1,600 hectares of land, it is home to South Australia's only veterinary school. It features an AUD\$37 million veterinary clinic, where students can gain clinical experience while studying.

The campus is located 55 kilometres north of Adelaide and 10 kilometres from the town of Gawler (population 24,000). Access is available by a North Terrace-Roseworthy campus shuttle bus. Campus services include student accommodation, a swimming pool, library, cafe and fitness centre.

Roseworthy campus

Waite campus

Waite campus

Melbourne campus

Our Melbourne campus is located on the western fringe of the city in Docklands. The free city circle tram stops at our front door, and there are high-end shops, cinemas and hotels in the neighbourhood.

We offer a selection of degrees at both the undergraduate and postgraduate levels as pathway options as part of our University of Adelaide College offerings.

For information about the campus and the services available, visit: adelaide.edu.au/melbourne

We'll support you on your journey

The University offers a range of support services to help international students succeed.

Friendly staff are available to help students manage their studies, assist with queries related to student visa conditions, help with health or disability needs, support students as they fit into their new life in Adelaide, and help solve personal problems. In addition, doctors at our North Terrace campus Health Practice can provide students with year round health support.

International Student Support

ua.edu.au/iss

One-on-one support from international student advisors for help with personal or financial issues, orientation and social programs to encourage engagement with other students and the broader community. Assistance with Confirmation of Enrolment (CoE) and student visa-related queries.

Careers Services

adelaide.edu.au/student/careers

Individual advice and employability workshops to help students develop career management skills, an extensive database of employment opportunities and resources known as CareerHub, and annual career-related events including

the Careers Expo and employer-on-campus sessions. The service offers expertise in locating graduate vacancies based offshore and within Australia.

Writing Centre

adelaide.edu.au/writingcentre

Support with writing academic English through one-on-one advice from writing mentors, workshops and comprehensive support resources.

Maths Learning Centre

adelaide.edu.au/mathsllearning

Help for all students to develop mathematics skills at every level, with drop-in sessions, lectures, games and resources.

Peer Assisted Study Sessions (PASS)

adelaide.edu.au/pass

Regular extracurricular sessions led by student mentors to help students improve their grades in specific courses.

Childcare

adelaide.edu.au/childcare

Full-time and part-time care for children of students and staff, located on the North Terrace and Waite campuses.

Counselling Support

adelaide.edu.au/counselling

Support is free, confidential and available to onshore enrolled students seeking to address issues that may affect their study or life.

Disability Support

adelaide.edu.au/disability

The Disability Support team provide personalised advice and assistance to students who have a diagnosed disability or an ongoing medical condition, to help them identify relevant reasonable adjustments to help with their studies.

Elite Athlete Support

adelaide.edu.au/eliteathletes

Support to help elite student athletes balance their academic and sporting commitments, by providing a flexible and responsive approach to study.

Student Health and Wellbeing

adelaide.edu.au/student/wellbeing

An online resource to provide information and support to students on a range of health and wellbeing topics, campaigns and events.

Health Practice

adelaideunicare.com.au

Comprehensive health care for all students and staff, with male and female doctors (GPs), offering health checks, immunisations and mental health support.

Library

adelaide.edu.au/library

One of the state's most extensive research collections, quiet study spaces, and support from specialist research librarians.

Be part of our community

The University of Adelaide offers a stimulating environment where students are encouraged to take part in a wide range of extracurricular activities.

Social programs

international.adelaide.edu.au/life-on-campus/social-programs-clubs-and-sports

The University offers a variety of social programs to help international students adjust to their studies and make new friends. These include ongoing English conversation practice (Talking with Aussies), regular culturally-themed social nights (Language and Cultural Engagement program), a chance to improve intercultural and employability skills (Global IQ Connect) and opportunities to develop leadership and employability skills (Peer Mentor program).

StudyAdelaide

studyadelaide.com

StudyAdelaide provides information and support to students both before they arrive in Adelaide and after they settle into life in their new home. It conducts a busy schedule of events and activities each year. These include everything from a welcome ceremony with the Lord Mayor, international student awards, career advancement

workshops, wine education functions, regional trips and social events, such as sports days.

Scholarships to help you on your way

The University of Adelaide is committed to providing educational opportunities for international students by offering a range of scholarships.

Global Citizens Scholarship

Rewards international students commencing an undergraduate degree who have received academic merit in their studies. Students can receive a reduction of between 15% and 30% of the tuition fee.

Global Academic Excellence Scholarship

These are highly competitive awards that reward commencing international students who have demonstrated academic excellence in previous studies. The scholarship offers a reduction of 50% of the tuition fee for the minimum standard full-time duration of the student's chosen undergraduate degree.

Higher Education Scholarship

Rewards international students who have demonstrated their passion for learning and loyalty to Australian education, by successfully completing an Australian year 12 high school qualification or AQF-recognised course or degree at an Australian higher education institution, prior to commencing at the University of Adelaide.

Family Scholarship

This scholarship is for family members (a spouse or sibling) of our current or graduated students. Simply provide an English-translated birth certificate that shows your relationship and receive a 25% tuition fee reduction. Students who study full-time and complete their degree within the minimum timeframe, will receive this reduction in each year of their degree.

Alumni Scholarship

We value our students and appreciate their passion for learning and loyalty to the University of Adelaide. Students will receive a 25% tuition fee reduction if they complete a second or subsequent degree at Adelaide. Graduates will automatically receive this scholarship in each year of their, if they study full-time and complete their degree within the minimum timeframe.

For full details on each of our scholarships visit: international.adelaide.edu.au/admissions/scholarships

A selection of scholarships are also available from the Australian Government. For information on these, visit: australiaawards.gov.au

All scholarship details are subject to change, so interested students are encouraged to check these websites regularly.

A place to call home

Accommodation plays an important part in building a solid foundation for academic success.

Students benefit from the advantages that come from choosing to study in a city where accommodation of all types, including our University-managed accommodation, is not only accessible but affordable.

The University recommends students adopt the RECAS approach to identifying an accommodation option to suit their individual needs and support a positive educational experience.

- Research all available accommodation options
- Establish a realistic budget
- Consider the value of managed student accommodation
- Avoid extended temporary accommodation
- Seek assistance from the University Accommodation Service

Students unfamiliar with Adelaide are encouraged to consider living in managed student accommodation during their first year of university.

Managed student accommodation provides new students with the opportunity to become better acquainted with the city, settle into their academic program and make new friends, without having to worry about the challenges of the private rental market.

Students seeking to study at our Melbourne campus can find out accommodation options at: adelaide.edu.au/melbourne/student-information/accommodation

The Village

The Village

Long-term student accommodation

adelaide.edu.au/accommodation

The University assists international students to obtain suitable longer-term housing. Students may choose any of the following options.

The University of Adelaide Village

The University of Adelaide Village is the largest of our accommodation properties. The Village is home to over 400 students, who experience the safety and security of having access to University staff on-site, 24 hours a day, seven days a week.

Students need only bring their personal belongings, as furniture, kitchen appliances, utilities (including electricity), phone and internet are all included in the accommodation fees. The only additional costs are for groceries (students must cook and clean for themselves) and the on-site, coin-operated laundry facilities.

Roseworthy Residential College

This accommodation is operated by the University and is only available to students of the University's Roseworthy campus,

offering them the opportunity to enjoy the benefits of on-campus residential living.

Independent residential colleges

There are five independent residential colleges situated in North Adelaide that offer accommodation to students. These independent residential colleges are privately owned and operated.

Students can contact the residential colleges directly to better understand what's available. These residential colleges include: Aquinas, Lincoln, St Ann's, St Mark's and Kathleen Lumley (postgraduate only).

Commercial student accommodation

Commercial student accommodation refers to purpose-built off-campus student accommodation facilities, run by private management companies.

These facilities offer fully-furnished, self-contained apartments that give students flexibility to live alone or share with others. There are also rooms for couples. In addition to rent, students may need to budget for additional expenses, including:

- gas
- electricity
- telephone connection (optional)
- internet connection (optional).

Places in commercial student accommodation facilities are offered on a 6 or 12-month fixed-term lease. It's important to note that these facilities are not directly affiliated with the University of Adelaide and students are advised to inspect them before committing.

Private rental and share accommodation

Affordable share accommodation can also be found in the private rental market. Students wishing to find share or rental accommodation when they arrive in Adelaide are encouraged to book temporary accommodation in the first instance.

The University offers a rental database for our students' exclusive use. Visit: adelaide.edu.au/accommodation

Our enrolled students can access the database from our Accommodation Service, Level 3, Hub Central, North

Long-term student accommodation options

This table matches long-term student accommodation options to individual needs.

Type	Options	Student profile
University residential environments	University-managed student accommodation	New students to the University, without a local support network, looking to establish a solid foundation for ongoing academic success, with direct access to University learning and student support services within their residential environment.
Commercial student accommodation	Scape	Students looking for the convenience and comfort of packaged accommodation in a student residential environment.
Independent residential environment	Independent residential colleges	Students looking for an environment that provides a residential lifestyle with other peers who are living away from home.
Independent living	Share/rental accommodation	Students with the skills and experience to enter into tenancy arrangements and pursue an independent lifestyle.

Arrival reception and temporary accommodation

Temporary accommodation and arrival reception services are available to commencing international students. Eligible students can book an arrival reception service and be met by a University representative at Adelaide Airport, via a domestic or international flight. Students will then be transported to their accommodation.

Eligible students who choose not to secure long-term managed student accommodation for their arrival in Adelaide may also be eligible for seven nights of temporary accommodation booked through the University. It is important to note that temporary accommodation options arranged through the University are unlikely to be extended

beyond seven nights due to high demand for short-term accommodation during the traditional student intake periods.

For more information on eligibility criteria, arrival reception and temporary accommodation, contact our Accommodation Service (see below). For more information, visit: adelaide.edu.au/accommodation

Accommodation Service

Opening hours: 9am to 5pm, Mon to Fri

The University of Adelaide
Level 3, Hub Central, SA 5005 Australia

Telephone: +61 8 8313 5220

Fax: +61 8 8313 3338

Email: accommodation@adelaide.edu.au

Skype: uoaaccommodation

Terrace campus, with a username and password. The database is only promoted among the University community, and most accommodation listings are offered by people affiliated with us who would like to share their room/property with a University of Adelaide student.

Once in Adelaide, students should visit the University's Accommodation Service for information on all available options and support in identifying and securing quality long-term living arrangements. Students are discouraged from sending money from offshore to secure share or rental accommodation prior to inspecting it.

Accommodation for families

Students accompanied by family members will find private rental accommodation in houses or apartments the most suitable accommodation option.

It's easier for an individual student to initially travel to Adelaide on their own to arrange suitable permanent family accommodation. Spouses and children who arrive later can then move straight in.

Managing your money

As part of planning, applicants need to consider the financial requirements before applying to the University, and are advised to set a realistic budget.

Accommodation

Although living in Adelaide is more affordable than many other major cities, accommodation remains students' largest variable expense. It can cost anywhere from around AUD\$135 per week for share accommodation outside the city centre to AUD\$259 per week (including electricity, water, gas and unlimited wi-fi) for University-managed accommodation within the city centre.

The average rent for a private studio apartment in the CBD is approximately AUD\$400 per week.

Application fee

An application fee of AUD\$110 must be paid with the University of Adelaide undergraduate online application. An exemption may apply for some government- or externally-sponsored students.

Incidental costs

Prospective students should allow at least AUD\$500 per year for textbooks and basic study materials. Depending on the degree, other costs may include: specialist equipment (e.g. laboratory coats, microscopes, stethoscopes); optional supplementary reading and academic program materials; field trips; and expenses such as thesis preparation, printing and binding.

Tuition fees

International students are required to pay international student tuition fees, which cover the cost of teaching and many student support services. The indicative annual tuition fee quoted in this prospectus is based on the standard full-time enrolment load of 24 units per year, or 12 units per semester.

The quoted fee is reviewed annually and may increase in future years. Fees may also vary depending on enrolment load.

New international students are required to pay a tuition fee deposit when accepting an offer of admission. After enrolment, students are then invoiced for the balance of their fees in that enrolment period. The University invoices students (or their sponsor) each enrolment period according to students' enrolment load.

Student Services and Amenities Fee

International students commencing in 2023 will be required to pay an annual Student Services and Amenities Fee. This covers activities such as clubs, sporting and recreational activities, and many other services. The fee was AUD\$315 for 2022 and is indexed annually. For more information, visit: adelaide.edu.au/student/finance/ssaf

Student Fees Refund Policy

All applicants must read the University's policy on refunds and adjustments before accepting an offer of admission. The policy complies with all requirements for tuition fee refunds stipulated in the Education Services for Overseas Students Act 2000 (ESOS), associated Australian Government regulations, and the ESOS National Code of Practice (2018). For refund policy details, visit: adelaide.edu.au/policies/4343

For information about refund administration and refund amounts, visit: adelaide.edu.au/student/finance/refunds

Health and medical

Student visa holders and their dependants are required to have health insurance for the duration of their student visa through the Overseas Student Health Cover (OSHC) scheme. The University's preferred OSHC provider is Allianz Global Assistance. Visit: allianzcare.com.au/en.html

For additional information, please refer to: international.adelaide.edu.au/life-on-campus/support-services

Students with families

International students who bring their families to Australia will need to take into account the additional costs

associated with health cover, housing, food, transport, childcare and education. For information and advice about schooling, visit: internationalstudents.sa.edu.au/en/students/dependants

Part-time work

Many international students and their dependants hope to obtain part-time work to supplement funds for living costs. While this may be possible, we recommend that students do not rely on it for essential expenses.

Obtaining a job is not guaranteed and can take time. Students should also be aware that the workload for many degrees is intense, so they may not have time to undertake employment.

International students who do find part-time work should be aware that they have the same workplace rights as all other workers in Australia. For more information on working while studying, visit: homeaffairs.gov.au/trav/stud

Additional information and advice about your workplace rights and obligations is available at: fairwork.gov.au

Change to permanent resident status

Different quota restrictions (imposed by the University and the Australian Government) apply to admissions for international students than for Australian residents.

International students whose immigration status changes to Australian Permanent Resident will be required to transfer to a domestic fee-paying place. They may subsequently apply to transfer into a Commonwealth-supported place. Exceptions apply to certain degrees; therefore, students are advised to check the relevant Admissions Guide for their degree to obtain further details.

Study-related costs

This should be viewed as a guide only, as costs can vary significantly from one student to another. These are basic living costs at the time of publication and do not include program tuition fees, costs for textbooks, other study-related needs, running a car, medical expenses or any luxuries.

Before arrival

Expense	Cost (AUD)
Tuition fee deposit (as specified in offer of admission)	up to \$14,000
Overseas Student Health Cover**	\$609–\$4,591
Economy air travel to Adelaide	\$1,200–\$2,000
Visa application charge^	\$550
Medical examination for visa application#	\$300
Refundable deposit for University-managed rental accommodation (if applicable)	\$500

After arrival

Expense	Cost (AUD)
All students:	
Rent in advance	2 weeks' rent
Household set-up (linen, groceries, etc.)	\$500
Remainder of tuition fee	Refer to offer letter
Private accommodation options only:	
Refundable accommodation bond	4–6 weeks' rent
Electricity and gas connection	\$38–\$72
Landline telephone/internet connection	\$59–\$299
Furniture and household goods	\$1,500+

Average weekly living expenses*

Expense	Cost (AUD)
Accommodation	\$135–\$400
Groceries	\$90–\$135
Gas/electricity/water	\$40–\$55
Transport (student concession rates)	\$20–\$35
Telephone/postage/internet	\$20–\$40
Other costs (e.g. clothing, entertainment)	\$50+
Total weekly expenses	\$355–\$705

* Source: Study Adelaide

** The Department of Home Affairs requires all students to have health insurance for the duration of their visa. Visa length varies and is slightly longer than the length of a student's degree. The fee quoted here is for 12 months' cover.

Approximate cost for standard examination only. Additional costs may be incurred if more comprehensive medical exams are required.

^ Surcharge may apply to some subsequent student visa applications.

English language proficiency requirements

English is the language of instruction at the University of Adelaide, therefore proficiency in speaking, reading, writing and listening is essential.

The University accepts the following English language tests (except where otherwise specified):

- IELTS (International English Language Testing System) Academic Test
- TOEFL (Test of English as a Foreign Language)
- Pearson Test of English (Academic)
- C1 Advanced formerly known as Cambridge Certificate in English: Advanced (CAE)
- Occupational English Test (Health Sciences only).

Other evidence of English proficiency may be accepted* such as:

- successful completion of an Australian Year 12 qualification with pass or better in University-recognised English language subject
- completed International Baccalaureate Diploma
- Grade C or above in GCE O Level General Paper
- Successful completion of a pathway program, such as the University of Adelaide College Foundation Studies Program.

In most cases, evidence of English proficiency must be less than two years old.

For more information about other means of demonstrating English language proficiency, please visit: international.adelaide.edu.au/admissions/how-to-apply/admission-requirements#english-language-requirements

The majority of students with English test scores just below the University's minimum English language requirements can choose to undertake an intensive English language program at the University of Adelaide.

An offer to the Academic English Pre-enrolment English Program (PEP) (refer to page 30) will be included for eligible students. This program provides an alternative entry pathway for prospective students who have received offers to the University conditional upon English proficiency. Upon successful completion of the PEP at the required level, students can be granted entry into most degrees at the University.

For more information, visit: international.adelaide.edu.au/admissions/how-to-apply/admission-requirements#english-language-requirements

* Subject to external accrediting body requirements.

Minimum English language requirements - Undergraduate programs

Degrees	IELTS (Academic) minimum scores	TOEFL minimum scores	Pearson Test of English (Academic) minimum scores	C1 (Advanced)
General requirements				
Standard requirements for coursework degrees. Applicable to all undergraduate degrees except those specified below. These entry requirements are correct at time of printing. For up-to-date information, visit: international.adelaide.edu.au/admissions/how-to-apply/admission-requirements

The University of Adelaide reserves the right to make the final decision regarding admission to the University.

* Applicants seeking entry to these degrees must present specified IELTS/TOEFL/Pearson/CAE/OET scores to meet the English language proficiency requirements and are not permitted to undertake an Academic English PEP pathway.

English Language Centre

The University's English Language Centre (ELC) provides outstanding academic and general English programs, and English teacher training services for international students and groups.

Academic English PEP Pathway

The University of Adelaide offers an academic English pathway for students who have not met their degree's minimum English language entry requirements.

This is a direct-entry pathway into further studies at the University of Adelaide. The length of the program depends on the applicant's English proficiency test score.

Students who successfully complete the Pre-enrolment English Program (PEP) at the required level do not need to sit another English test before entering their University degree.

The PEP is offered in lengths of 10, 15, 20 and 25 weeks. For more information on the PEP, visit: adelaide.edu.au/elc/our-courses/pre-enrolment-english-program-pep

Academic English PEP Pathway - Extended

The PEP Extended 30 and 35-week courses combine General English for Academic Purposes (GEAP) classes, and Pre-enrolment English Program (PEP) classes.

Commencing in the GEAP allows students to develop the fundamental linguistic building blocks of grammar and vocabulary for academic-level study, before progressing to English classes specifically tailored for students entering an award program.

- PEP Extended 30-week students will complete 5 weeks of GEAP before commencing 25 weeks of PEP classes.
- PEP Extended 35-week students will complete 10 weeks of GEAP before commencing 25 weeks of PEP classes.

Eligibility

To find out which PEP they are eligible for, students should refer to the diagram opposite.

Other programs

General English for Academic Purposes (GEAP)

Our General English for Academic Purposes (GEAP) program is for students wishing to develop effective oral and written communication skills—and boost their learning confidence—at one of the most prestigious universities in Australia.

Delivered in the University of Adelaide's academic environment and attracting students from all around the world, GEAP is offered in five levels of language proficiency—from elementary through to advanced.

All levels focus on developing speaking, listening, reading and writing skills, with academic tasks added as the student's proficiency increases.

There are no entry requirements and students can choose to enrol for anywhere from five to 45 weeks.

For more information on the GEAP, visit: adelaide.edu.au/elc/our-courses/general-english-for-academic-purposes-geap

Degrees commencing 2023 semester 1

Weeks	Start	Finish	Cost (AUD)
35	2 May 2022	2 February 2023	\$19,600
30	6 June 2022	2 February 2023	\$16,800
25	14 July 2022	2 February 2023	\$14,000
20	25 August 2022	2 February 2023	\$11,200
15	29 September 2022	2 February 2023	\$8,400
10	10 November 2022	2 February 2023	\$5,600

Degrees commencing 2023 semester 2

Weeks	Start	Finish	Cost (AUD)
35	4 October 2022	6 July 2023	\$19,600
30	14 November 2022	6 July 2023	\$16,800
25	3 January 2023	6 July 2023	\$TBC
20	9 February 2023	6 July 2023	\$TBC

10	27 April 2023	6 July 2023	\$TBC

Customised Short Courses for Groups

Customised Short Courses for Groups offer an ideal mix of academic excellence and cultural experience for groups of international students or professionals looking for a rewarding study experience.

Programs are customised to each group's specific needs and can be for any length of time, and can be delivered online, face-to-face in Adelaide, or a combination of both. Homestay accommodation can also be included.

Academic sessions can focus on general English tuition or a specific discipline or interest, while cultural activities include exploration of destinations of cultural, historical, geographical and social interest.

Academic English PEP Pathway program timelines and costs

In addition to the fees (see adjacent table), an enrolment fee of AUD \$295 will apply to Academic English Pathway programs. For trimester dates and fees, please visit: adelaide.edu.au/elc/our-courses/pre-enrolment-english-program-pep/dates-and-fees

For more information about the English Language Centre, visit: adelaide.edu.au/elc

Important information

For students applying for degrees with higher English language requirements, or with an English test score other than IELTS.

Some undergraduate degrees require a higher level of English ability. When studying a PEP in combination with a degree requiring an overall IELTS score greater than 6.5, PEP entry requirements are higher than those shown in the tables.

Please note that, as well as the IELTS test, the ELC accepts the TOEFL iBT, Pearson and C1 Advanced for entry into the PEP.

For more information on scores required, visit: adelaide.edu.au/elc/our-courses/pre-enrolment-english-program-pep/how-many-weeks-of-pep-do-i-need

Academic English (PEP) entry requirements

This diagram shows: the IELTS scores required for entry into PEP programs of various lengths; and the amount of time it takes most students to become proficient enough to enter undergraduate degrees requiring an overall IELTS score of 6.5, with no band less than 6.0 (or equivalent). TOEFL, Pearson and C1 Advanced tests are also accepted.

* Students in PEP Extended 35 week and 30 week courses will first participate in General English for Academic Purposes (GEAP) classes until the 25 week PEP intake and then take classes with other PEP students.

Application information

Applicants should be aware of their specific degree's admission and student visa requirements before applying to the University.

Undergraduate entry requirements

For general information on specific degree requirements, consult the relevant degree descriptions in this prospectus, or search Degree Finder: adelaide.edu.au/degree-finder

Qualifications recognised for undergraduate entry are shown on this page, and a table listing all degrees, prerequisites, and the minimum entry

requirement for students completing these qualifications can be found on pages 128-135.

Students with qualifications obtained in the South Pacific islands, Japan, Korea, Philippines, Saudi Arabia or Taiwan are advised to complete a Foundation Studies program (see page 36) to prepare for entry into the University's undergraduate degrees. International students must also meet English language requirements. See page 28.

For more information about deadlines, visit: international.adelaide.edu.au/admissions/how-to-apply

Additional selection criteria

For some University of Adelaide degrees, other selection criteria are considered in addition to academic qualifications. For example, our music degrees require applicants to undertake an audition. Medicine, dentistry and oral health applicants are required to undertake a University Clinical Aptitude Test (UCAT) and—if successful—attend an interview. Information about additional selection criteria is included in the degree information section of this prospectus.

Students aged under 18 at commencement of studies

Special arrangements are required for students aged under 18. Any student who has not turned 18 before their studies commence must either:

- live with a parent
- live with an eligible relative in Adelaide, or
- have their parents agree to guardianship arrangements organised by the University (additional fees apply).

Guardianship arrangements include prescribed housing placements and compulsory welfare monitoring services up until the student's eighteenth birthday. (Available only to students who will be 17 years of age upon commencement of studies.)

For more information, visit:
international.adelaide.edu.au/admissions/students-under-the-age-of-18

Deferral of admission

Applicants who have been offered a place in a degree may apply to defer their enrolment for up to two years from their original date of admission.

Exceptions apply to some degrees, such as several degrees in the Faculty of Health and Medical Sciences.

Credit for previous study

In some cases, international students may be credited with advanced standing (status/exemptions) on the basis of previous studies at another institution.

Applicants seeking advanced standing must submit detailed syllabuses (course outlines) of the subjects they've completed with their application.

Student personal information

Under Australia's strict privacy laws there are very limited circumstances in which the University can release personal or academic information about a student. Such information will usually only be released to Australian government departments where legislatively required or in a health or safety emergency.

The University cannot release any information about a student's results, attendance, application status or any other matters to their parents.

For more information on the University's Privacy Policy and Management Plan, visit:
adelaide.edu.au/policies/62

2023 academic year dates

Event	Date
Summer school	January 3–March 24
Trimester 1 commences	January 30
Recommended arrival date for international students commencing study in semester 1, 2023	February 14–16
International student orientation and enrolment for semester 1, 2023	February 17–19
University Orientation Week (inc. preliminary lectures)	February 20–24
Semester 1 lectures commence	February 27
Mid-semester break	April 10–21
Trimester 1 concludes	April 28
Trimester 2 commences	May 22
Study leave / exam preparation	June 12–16
Mid-year exams	June 17–July 1
Replacement exams	July 17–22
Mid-year break / Winter school	July 3–21
Recommended arrival date for international students commencing study in semester 2, 2023	July 15–17
International student orientation and enrolment for students commencing study in semester 2, 2023	July 19
Semester 2 lectures commence	July 24
Trimester 2 concludes	August 18
Trimester 3 commences	September 4
Mid-semester break	September 18–29
Study leave / exam preparation	Oct 30–Nov 3
End-of-year exams	November 4–18
Trimester 3 concludes	November 24
Replacement exams	December 6–12

For more details on academic year dates, visit: adelaide.edu.au/student/dates

Application closing dates

Semester 1, 2023 commencement	Apply before*
• Bachelor of Medical Studies • Bachelor of Dental Surgery • Bachelor of Oral Health	30 June 2022
• Bachelor of Occupational Therapy (Honours) • Bachelor of Physiotherapy (Honours) • Bachelor of Science (Veterinary Bioscience) • Bachelor of Speech Pathology (Honours)	30 September 2022
• Honours year in Psychology • Bachelor of Nursing	18 October 2022

* Applicants are advised to apply at least six weeks prior to the commencement of their preferred intake, with the exception of those applying for the degrees listed above. Applicants who apply after that date will have their applications considered for the most suitable intake given their circumstances.

Dates given are a guide only and are subject to change.
Please see the Application Deadlines website for up-to-date information:
international.adelaide.edu.au/admissions/how-to-apply/application-deadlines

Application pathway

Step 1

Application

Apply through one of the University's official international representatives, or via our online application system at: international.adelaide.edu.au/admissions/how-to-apply/apply-now

Payment and documents required

- A non-refundable AUD\$110 application fee.
- Original or certified copies of official student academic qualifications, transcripts, English language test results (if applicable) and any other supporting documents.

Copies can be certified by an authorised staff member of the University of Adelaide, Justice of the Peace, Notary Public, consular official, commissioner for taking affidavits, registrar of the University from which the transcript or parchment is issued, police officer or examining authority.

Australian Year 12 applicants and International Baccalaureate applicants - special group procedure

International students currently completing an Australian Year 12 qualification (in Australia or in any other country) or International Baccalaureate in Australia apply through the South Australian Tertiary Admissions Centre (SATAC) via Uniweb, at: satac.edu.au

International Baccalaureate applicants who are studying overseas apply to: international.adelaide.edu.au/admissions/how-to-apply/apply-now

Medical Studies, Dental Surgery and Oral Health degree applicants

All applicants for these degrees must register and book in for the University Clinical Aptitude Test (UCAT ANZ) and lodge their applications via the online application system before 30 June 2022. The UCAT ANZ booking deadlines can be viewed via: ucat.edu.au/ucat-anz/dates-and-fees

UCAT ANZ fees range from AUD\$305 for tests undertaken in Australia or New Zealand, to AUD\$380 for tests taken overseas/outside Australia and New Zealand.

Further information and contact details

For University of Adelaide cut-off scores, visit:

adelaide.edu.au/degree-finder

To apply directly to the University, visit: international.adelaide.edu.au/admissions/how-to-apply/apply-now

International representatives

For a full listing of the University's international representatives, visit: international.adelaide.edu.au/admissions/find-a-university-of-adelaide-agent

Step 2

Application assessment

All applications will be assessed. Successful applicants will be emailed directly (if they applied directly), or via their official representative.

Successful applicants will receive the following:

- Offer of Admission
- Refund information
- Terms and Conditions
- Offer Acceptance Agreement
- Genuine Temporary Entrant (GTE) Questionnaire*
- Payment Form
- Acceptance Information Leaflet.

Unsuccessful applicants will be informed by email.

Students studying an Australian Year 12 qualification

Examination results will be sent directly to SATAC by all relevant examining boards. When results are available, SATAC will email offer details directly to the email address nominated on the student's SATAC application.

* Where applicable.

Step 3

Accept offer

- Complete and sign Offer Acceptance Agreement.
- Read and agree to Terms and Conditions.
- Arrange payment of tuition fee deposit as per instructions in Offer letter.
- Arrange for payment of Overseas Student Health Cover (OSHC) for duration of visa.
- Arrange for payment of English language program fees (if applicable).
- Provide a copy of the Personal Details section of the student's passport.

- Pay U18 fees and return signed welfare agreement*

Conditional offers

Students who receive a conditional offer must provide documentary evidence that they've met any outstanding conditions, and upload the documentation to their online application to be verified and assessed. A new Offer of Admission may be requested for bank loans or sponsorship purposes.

* Where applicable

Step 5

Obtain international student visa

Applicants should lodge their student visa application immediately. This can be done with the assistance of a recognised University of Adelaide agent or representative. Or, if applying directly, by visiting homeaffairs.gov.au/trav/visa/Immi to create an ImmiAccount.

Step 4

Confirmation of Enrolment

After receiving the acceptance documentation listed, the University sends applicants a Confirmation of Enrolment (CoE). Students should use the CoE to apply for an Australian student visa.

Step 6

Enrolment

Prior to orientation, students will receive information about obtaining their University username and password. Then, when enrolments open, students will be able to log in to the Access Adelaide section of the University website and enrol.

Step 7

Prepare for departure

After making travel arrangements, students should consider their accommodation options by visiting: adelaide.edu.au/accommodation. While there, they can also book an airport pickup and temporary accommodation if required (fees apply).

Step 8

Arrive and attend orientation

Students should aim to arrive in Adelaide in time to attend the international student orientation program. Participation in this program will help familiarise students with the city and campus, and provide a chance to meet staff and other students and make friends before commencing studies.

For more information, visit: international.adelaide.edu.au/preparing-to-arrive/orientation

**Welcome to
the University
of Adelaide!**

Preparing for the University of Adelaide

A university pathway is a program that you can take before enrolling at university. It is designed to bridge the gap between your grades in your home country and those in Australia.

Pathway programs

A university pathway can better prepare you for your academic studies at university. The pathway programs help you develop the required level of language and independent study skills needed for successful university study, while also providing a supportive environment where friendships can be developed with both international and Australian students. Students from all over the world, including China, Hong Kong, Malaysia, India, Vietnam, Indonesia, Singapore, Egypt, Oman, Korea and more, choose to study in Australia each year.

The University of Adelaide College

college.adelaide.edu.au

The University of Adelaide College is our preferred pathway partner and provides students with dedicated pathways to undergraduate studies at the University. International students who choose to study at the College—at either the Adelaide campus or Melbourne campus—are provided with a strong academic program presented by experienced and highly qualified teachers. Students work in small classes to ensure individual attention, support and guidance is provided.

College students are part of the University of Adelaide; they often study on campus, share the University's resources and facilities, and—like all our other students—can make the most of the university experience with access to the student clubs and societies.

The University of Adelaide College is an ideal choice for students who:

- are looking for entry to their undergraduate degree of choice at the University of Adelaide

- have dreamt about studying engineering, architecture, medicine, physiotherapy, nursing, business, IT, science and much more at the University of Adelaide, but do not meet the direct entry requirements
- are seeking flexibility around start dates, as there are at least three intakes per year at both the Adelaide campus and Melbourne campus.

Foundation Studies Program

college.adelaide.edu.au/programs/foundation-studies

Students who have completed the equivalent of Australian Year 11 may enrol in the College's Foundation Studies Program. The College offers a highly supportive environment to enable students to succeed academically and personally. The program is designed to provide students with the core subject knowledge, vital study skills and academic and pastoral support to seamlessly transition into the first year of undergraduate studies at the University of Adelaide.

Students can undertake a standard or accelerated program, across two semesters (Adelaide campus) or three trimesters

(Melbourne), over 10 to 11 months. Intakes are available in March, August and October (Adelaide campus) and March, July and November (Melbourne campus).

Degree Transfer Program

college.adelaide.edu.au/programs/degree-transfer

Students who have completed the equivalent of Australian Year 12, may enrol in the College's Degree Transfer Program.

Studying with the College successfully prepares students for entry into the second year of their packaged bachelor degree at the University of Adelaide. Students are provided with English language and learning support to assist them while studying the Degree Transfer Program.

Students will study the first year University syllabus on campus with University of Adelaide students. Upon successful completion students receive credit for the first-year courses studied and entry into the second year of your packaged degree at the University of Adelaide.

The University of Adelaide College is operated by Kaplan Higher Education Pty Ltd. They deliver pathway programs and services on behalf of the University as part of a third-party agreement.

Eynesbury College

eynesbury.navitas.com

Eynesbury College welcomes students from all over the world. Its education style is designed to give students the best opportunity to progress to university. Eynesbury offers English Language (ELICOS), Foundation Studies and Diploma programs. With small classes, flexible timetables and outstanding academic support, Eynesbury will ensure students develop the learning skills necessary to succeed at university and beyond.

Eynesbury is conveniently located in the centre of the city, close to the University of Adelaide, major retail shopping and the Adelaide Central Market.

Foundation Studies

Eynesbury's Foundation Studies Program is specifically designed for international students. The program has provided an excellent pathway into the first year of degrees at the University of Adelaide since 1992. Key to Eynesbury's success is the personalised attention it can provide students due to its small class sizes. The program takes between 8-12 months to complete, with intakes in February, June and October.

Diploma

Eynesbury offers diplomas in Business, Engineering, and Computing & IT. These programs provide a pathway into a related undergraduate degree at the University of Adelaide, with up to one full year of credit. The diplomas take 8-12 months to complete, with intakes in February, June and October. 98.5% of Eynesbury diploma graduates progress to their preferred degree*.

Diploma Studies programs

Eynesbury also offers a Diploma of Business Studies and a Diploma of Computing & IT Studies. These programs take 16-24 months to complete and are available to students with equivalent

Australian Year 11 qualifications. Upon successful completion of the Diploma Studies programs, students are eligible to progress to a related undergraduate degree at the University of Adelaide with up to one full year of credit. Intakes are in February, June and October.

CRICOS Provider Number 00561M

Other foundation studies programs

The University of Adelaide recognises all foundation programs taught by Australian universities (or their partnered providers). Other foundation programs will be considered on a case-by-case basis.

TAFE SA

tafesa.edu.au/international

The University of Adelaide offers formal pathways for many degrees in conjunction with TAFE SA. By studying a Certificate IV, Diploma, Advanced Diploma or Associate Degree, students can often meet the entry requirements for University of Adelaide degrees**. For some degrees, completed TAFE SA qualifications may also be counted as credit.

CRICOS Provider Number 00092B

** Students must also meet English language entry requirements.

University Senior College

usc.adelaide.edu.au/enrolment/international-enrolment

University Senior College (USC) is a senior secondary independent school based on the University of Adelaide's grounds. The College is dedicated to supporting students through an academic pathway leading to university. It offers English language-intensive courses in preparation for the South Australian Certificate of Education (SACE, years 10, 11 and 12). Students receive up to 40 SACE credits recognising learning undertaken in Intensive English.

Students learn in a vibrant and stimulating environment that encourages collaboration, being located adjacent to numerous other research-oriented and otherwise significant organisations. These include the South Australian Museum, Adelaide Zoo, Adelaide Botanic Gardens, Art Gallery of South Australia, Migration Museum, Adelaide Magistrates Court and the vibrant multicultural precinct around the Central Market.

USC is committed to developing exceptional graduate attributes in students, all of which are embedded in its curriculum, mentoring program, student-led activities and student governance. Its specialist staff, many of whom are leaders in their fields, help every student flourish through personalised learning and intellectual challenge. Students have access to the academic, cultural and social activities provided at the University of Adelaide.

Modelling the belief to succeed, they work purposefully to provide the best opportunities and outcomes for students in the senior years. All SACE subjects are taught in classes that include local and international students. USC is one of the biggest feeder schools to universities in South Australia (in particular the University of Adelaide), with over 90% of its graduates offered entry into their first-preference degree.

International students will complete USC's Intensive English Program before entering Year 11 classes. They will develop English language skills and cultural orientation for senior secondary schooling in South Australia. The Program includes development of research skills, sciences, mathematics and English language in use.

Students will also complete a SACE subject—the Personal Learning Plan—which is compulsory for all students in South Australia, and have opportunities to engage in cultural and social enrichment activities.

Our study areas

Do you feel sure of where your career interests lie, but unclear about which degrees can help you get your start? Then this section's for you.

In the next 50 pages you'll find:

- brief descriptions of 25 broad career and study areas that you can pursue at the University of Adelaide, arranged in alphabetical order
- some of the key reasons why our University is one of the best places in the world to study in those fields
- listings of all the relevant degrees we offer in each area, along with page-number references so you can quickly turn to their full descriptions.

Enjoy your browsing—we know you'll find lots of exciting study options to get you where you want to go.

2019

Agriculture, food and wine

Learn how to sustainably feed the world
in the face of a changing climate, using
leading-edge techniques and technology.

**Ranked #42
globally for
Agricultural
Sciences***

**Australia's
largest
teaching
winery**

01

**South Australia's
#1 for Food
Science and
Technology***

A truly world-class study environment

The majority of the University of Adelaide's agriculture, food and wine degrees are taught at our Waite campus—the largest agricultural teaching and research precinct in the Southern Hemisphere, and third largest in the world. The campus is also renowned for:

- generating 70% of all wine research conducted in Australia
- operating Australia's largest commercial-grade teaching winery
- housing its own fully operational vineyard.

Comprehensive future-focused learning

The knowledge and skills you'll acquire from our agriculture, food and wine degrees are highly informed by industry needs—current, emerging and predicted. Depending on your chosen degree, you could:

- build practical, hands-on skills through multiple internships with industry partners and at our working Roseworthy-campus farm
- learn how to design, formulate, produce, package and market food or wine under real industry conditions

- get experience designing and using industry-transforming technology, like drones, advanced sensing equipment, and electronic apps.

Career prospects

Employment growth in most agriculture, food and wine roles ranges from stable to moderate, with strong growth predicted for nutrition professionals^.

* Academic Ranking of World Universities by Subject, 2021.

work-based
training**

**Broad range
of clinical
placements**

Exceptional interprofessional learning

As a student of one of the allied health disciplines at Adelaide—physiotherapy, speech pathology or occupational therapy—you'll gain next-level holistic health understanding through collaborative interprofessional learning.

You'll study alongside students from all allied health disciplines, and mix with peers in dentistry, oral health, nursing, medicine, psychology and public health.

Outstanding facilities and real-world experience

You'll perfect your clinical skills in premium facilities that accurately reflect the sorts of real-world environments in which you'll work. These include:

- Adelaide Health Simulation, Australasia's most advanced simulation learning facility
- a hospital-like space equipped with multiple height-adjustable treatment tables and beds
- a fully equipped rehabilitation gym.

Learning from registered, practising professionals, you'll also spend more than 800 hours honing your skills in a wide variety of real health care settings, equipping you for careers in a broad range of areas.

Career prospects

Physiotherapists, speech pathologists and occupational therapists are all well paid and in demand, and that's expected to increase in each field*, especially in rural and remote areas^.

Marine Sciences*

Five-star
student
support^

Premium quality, personal attention

Our animal and veterinary sciences degrees are among the world's best, as indicated by our Veterinary Sciences and Marine Sciences programs' global rankings—top-50 and top-100 respectively.

This means you will learn side by side with other high-calibre students. And importantly, you'll do so in relatively small classes, ensuring you receive all the personal assistance you need from our highly experienced teachers and researchers. In fact, our veterinary science students enjoy one of the smallest class sizes of any such program in Australia.

Learn in stunning, multimillion-dollar facilities

Our animal and veterinary sciences degrees place a strong emphasis on practical, hands-on experience.

Naturally, this includes time spent honing skills externally in real-world industry settings—including on farms, in intensive production facilities, and out in the field. But the exceptional quality of our own facilities ensures you'll also have continual opportunities to master your craft on campus.

These state-of-the-art facilities include our:

- full-service Veterinary Hospital
- Small Animal Vet Clinic

- Equine Health and Performance Centre
- Production Animal Health Centre
- fully functional livestock farm, with cattle, sheep, horses, alpacas, pigs and chickens.

Career prospects

Employment growth ranges from moderate to very strong for professionals working with animals, including veterinarians and veterinary technologists, animal behaviourists, marine biologists and wildlife conservation biologists†.

State-of-the-art technology

Studying architecture, landscape architecture or construction management at the University of Adelaide will ensure you're highly proficient in the use of all critical technologies driving those industries. The cutting-edge facilities you'll have access to include:

- computer-aided architectural design (CAAD) studios
- a model-making laboratory with laser and foam cutters
- 3D scanners/digitisers and modelling systems
- BIM (building information modelling)
- 3D printers.

Quality defined by experience

Many forms of 'experience' will come together during your time with us to ensure that you gain an education—and contemporary, real-world skills—of the highest calibre.

- You'll learn from practising, highly experienced and award-winning industry professionals.
- Your teachers themselves will draw from—and pass on to you—educational insights gained from our proud history of 60-plus years of experience in architectural training.
- You will travel interstate and overseas as part of your degree to observe and study outstanding structures first-hand**.

- And you'll have multiple opportunities throughout your studies to hone your developing skills on real-world projects, including through industry internships.

Career prospects

Employment growth for architects, landscape architects, construction managers and architectural engineers ranges from strong to very strong[†].

Please note, however, that if you aspire to become a registered architect or landscape architect, you'll need to complete additional postgraduate study. Our Master of Architecture and Master of Landscape Architecture satisfy this requirement.

* QS World University Rankings by Subject, 2021.

Internships for real-world experience

Incredible subject choice

Our arts and humanities degrees cover a huge range of interests and human activity—from the creative arts, languages, history and media, to criminology, international development, environmental policy and politics. They can equip you to succeed in a wide variety of valuable and rewarding roles, such as in:

- government and public service
- social planning and policy development
- foreign affairs and diplomacy
- festival management and cultural curation
- crime prevention
- humanitarian work
- the creative industries
- journalism.

An enviable location

The University of Adelaide presents an ideal location for arts study. Our main campus's position in the heart of our city's central business district and cultural precinct puts a vast number of related bodies and organisations—government, private sector and not-for-profit—within an easy walk.

Capitalising on this advantage, you'll have ample opportunity to deepen your real-world understanding through hands-on experience with one of these organisations in an extended internship.

Career prospects

Employment growth for arts- and humanities-related roles range broadly from stable to very strong†.

and engagement***

**AACSB-
accredited**

**Ranked
top-100 globally
in Accounting
and Finance^**

Australia’s most experienced business educator

In 1902, the University of Adelaide became the first university in Adelaide to offer degrees in business.

This means your education here will be enriched by our 120 years of collective learnings and insights, and a focus on quality that still has us ranked among the world’s top 100 universities for accounting and finance^. We’re also ranked #1 in South Australia for economics, accounting and finance.

Build the mindset to chart your own path

As Australia’s #1 ranked university for entrepreneurship and engagement*, we will ensure virtually everything you do in your business studies builds your capacity to innovate and make things happen.

- All our business degrees include an entrepreneurship course, to boost your personal development and professional growth.
- All business degrees give you the flexibility to pursue areas of particular interest or passion.
- You’ll also have the opportunity to hone your new-venture-building skills in our eChallenge program, and ThinkLab business incubators.
- And you’ll get the chance to gain priceless real-world experience through industry internships.

Career prospects

Employment growth for the majority of business and management roles range broadly from stable to strong, with very strong growth predicted for ICT (information and communications technology) business and systems analysts†.

Defence, cyber and space

Work in the defence, cyber and space industries offers a highly rewarding blend of challenge, discovery and purpose.

05

Ranked #5 globally for Computer Vision*

Ranked #25 globally for Automation and Control^

STEM jobs predicted to grow nearly twice as fast as others†

An incredibly industry-connected environment

The University of Adelaide provides one of the most stimulating environments in the world for study related to the defence, cyber or space industries. Our main city campus stands literally next door to Lot Fourteen, Adelaide's thriving innovation and technology precinct, which includes:

- our University's own world-leading Australian Institute of Machine Learning (AIML), the largest machine learning research centre in Australia
- the Australian Cyber Collaboration Centre (A3C), in which we collaborate with the Australian Government's Defence Science and Technology group and others
- the Australian Space Agency, Space Discovery Centre, and Mission Control Centre.

Other organisations with a Lot Fourteen presence include Microsoft Azure Space, Amazon, Inovor Technology, and the Massachusetts Institute of Technology (MIT) bigdata Living Lab—all of whom our AIML partners with in ongoing real-world research.

Huge range of degrees to choose from

Making the most of this remarkable environment, we offer 15 different degrees that can start you on your path in the defence, cyber or space industries.

These range from data analytics, computer science and information technology programs, to engineering, space science and astrophysics, and mathematical sciences. We also offer South Australia's only specialist aerospace engineering degree.

And whatever direction you choose, you'll have multiple opportunities to gain practical experience through workplace projects and internships.

Career prospects

Employment growth for the majority of defence, cyber and space roles range broadly from stable to very strong**.

**A proud
100-year
history**

Elite quality, priceless experience

Adelaide is one of the top three-dozen universities in the world in which to study dentistry and oral health. Delivered by a dental school with over 100 years' teaching and research experience, our program ranks #1 in Australia and #34 globally*.

- Build comprehensive clinical skills from year one using state-of-the-art technology in our simulation training lab.
- Sharpen your skills in our full-service Adelaide Dental Hospital and high-demand Community Outreach program.
- Learn from outstanding, national-award-winning teachers.

A remarkable health community

Our world standing in dentistry and oral health ensures you will be learning side-by-side with students of the highest calibre. But that's only the start.

You will also engage in regular interprofessional learning with fellow University of Adelaide students in our medicine, nursing and allied health programs. And you'll do it all in the heart of the Adelaide BioMed City precinct, with numerous other world-class centres all around you. These include:

- the Royal Adelaide Hospital
- South Australian Health and Medical Research Institute

- our own South Australian Immunogenomics Cancer Institute
- Australian Bragg Centre for Proton Therapy and Research (scheduled to begin operations around 2024-25), the first proton therapy centre in the Southern Hemisphere.

Career prospects

Dental and oral health professionals are well paid and in demand, and that's only expected to increase[^]. There are also some exciting technological advances on the industry's horizon. These include the use of:

- AI, augmented reality and virtual reality
- laser treatment, promising little-to-no pain, faster healing and reduced infection risk
- 3D-printed dental prosthetics.

Australia's only university teaching mine automation

Through our Institute for Mineral and Energy Resources, the University of Adelaide has led Australia in the development of fully integrated, AI-driven resource value chains.

We're helping many energy, mining and resources companies incorporate or enhance self-learning extraction-and-processing control systems to extract greater value from increasingly complex resources—faster, safer and at lower cost. And we can pass that knowledge on to you.

Our recent industry experience includes collaborating with:

- BHP, OZ Minerals and others on mining and processing control platforms
- Boart Longyear, a global drilling giant, to allow generation of geological information in close to real time, directly at the drill site
- Orica, an Australia-based multinational commercial explosives and blasting systems specialist, to apply digitally integrated AI to their blast models.

Full-spectrum energy expertise

We also have significant, proven expertise in all areas of the energy sector, with experience advising on—and leading—projects relating to:

- optimal power system and resources planning, modelling and operation
- renewable energy generation and hybrid systems
- energy storage, including advanced batteries and underground hydrogen
- critical minerals, advanced energy materials and catalysts

- microgrids and electric vehicles infrastructure.
- We're highly capable in the areas of environmental sustainability and social licence. And again, we can pass on all this knowledge to you.

Career prospects

Employment growth for the majority of energy, mining and resources roles range broadly from moderate to very strong†, with STEM jobs predicted to grow nearly twice as fast as other occupations**.

Master environmental management at all scales

The University of Adelaide is internationally renowned for its capability in all scales of spatial imaging and environmental management, from unmanned aircraft to satellites and spatial big-data analysis.

Here you'll learn how to use advanced technology such as remote sensing, geographic information systems, ecological modelling tools and multi-objective decision support systems to understand and manage any environment—natural or managed, land-based, aquatic or marine.

Protect our most precious resource

We're also widely recognised for our multidisciplinary expertise in water systems management. Our world-leading researchers are highly experienced in developing bespoke technology and scientific solutions to optimise—both environmentally and commercially—water use, supply and treatment.

Immersed in this learning environment, you could build valuable knowledge and skills in:

- water supply and distribution system planning, design and operation
- rainfall runoff modelling
- river health prediction and management
- predicting, modelling and testing water demand, quality and availability
- soil settlement prediction and microbiology studies
- wastewater treatment and contaminant removal
- environmental remediation.

Career prospects

Employment growth for the majority of environment- and sustainability-related roles ranges broadly from stable to very strong†, with STEM jobs predicted to grow nearly twice as fast as other occupations**.

Join a rich culture of success

The Adelaide Law School was established in 1883, making it Australia's second-most experienced law educator.

In our nearly 140 years of history we've shaped countless future leaders who've gone on to enjoy success not only in the legal profession, but politics, international business, diplomacy, health, policy and the media. Our alumni include:

- Australia's first female Supreme Court judge and state governor, Dame Roma Mitchell, AC
- Australia's first female Foreign Affairs Minister, the Hon. Julie Bishop, MP
- former Premier of South Australia the Hon. Jay Weatherill, AO.

Gain vast real-world experience

Adelaide Law School operates five free legal advice clinics for use by the local community, providing fantastic opportunities for you to sharpen your skills working on real legal matters in your final year of study. Places in these clinics are limited and are subject to an application process.

These include the:

- Adelaide Legal Outreach Services, advising on child support, family matters, fines, contract issues, and criminal law
- Magistrates Court Legal Advice Service, assisting with minor civil disputes

- Equal Opportunity Commission Legal Advice, advising on discrimination, harassment and victimisation
- Entrepreneur and Venture Advice Clinic, providing legal support to individuals and small-to-medium enterprises related to their businesses
- Administrative Appeals Legal Advice Service, supporting clients wishing to appeal decisions at the Administrative Appeals Tribunal (a national body), and the South Australian Civil and Administrative Tribunal.

And in all cases, you'll work under the supervision of qualified solicitors.

Career prospects

Employment growth for the majority of law-related roles ranges broadly from moderate to very strong†.

Mathematical sciences

Mathematical scientists drive progress in everything from biomedical research and finance to cybersecurity, animation and space travel.

112

Ranked #112 globally for Mathematics*

Research 'well above world standard' in Pure and Applied maths^

Research 'well above world standard' in Statistics^

Gain skills in global demand

The University of Adelaide's mathematical sciences degrees are renowned for providing outstanding training in rigour and logical thinking. You'll graduate with exceptional problem-solving and research skills, making you highly sought-after by employers in a wide range of fields. These include:

- engineering and technology
- pharmaceuticals
- telecommunications
- banking, finance and insurance
- meteorology
- scientific research
- video game development
- teaching.

Our graduates have secured high-level jobs with many leading organisations, such as Australia's: Commonwealth Scientific and Industrial Research Organisation (CSIRO); Defence Science and Technology Group (DSTG); Bureau of Meteorology; and Bureau of Statistics.

See the world along the way

Studying overseas is a fantastic way to see the world, diversify your studies and enhance your CV—and you'll get that opportunity at the University of Adelaide (travel restrictions permitting).

All our mathematical sciences degrees give you the opportunity to study abroad through a

range of programs, including student exchange, study tours and summer and winter schools, with exciting opportunities in Europe, Asia, the Americas and Africa.

Career prospects

Employment growth for the majority of mathematical sciences-related roles ranges broadly from moderate to very strong†, with STEM jobs predicted to grow nearly twice as fast as other occupations††.

Medicine

Protect and promote health and wellbeing, alleviate pain and suffering, and help people live full and active lives.

100

Ranked top-100 globally for Clinical Medicine*

Producing medical research 'well above world standard'^

Most advanced health simulation technology in Australasia

Be part of a remarkable health culture

By studying medicine at the University of Adelaide you'll become part of a rich history of world-class health education and research that stretches back over 135 years.

During that time, we've educated 24 health-focused Rhodes Scholars and been associated with four health-related Nobel Laureates. This includes Howard Florey, whose contribution to penicillin's development has helped save hundreds of millions of lives all over the world.

Health excellence is written in our DNA—and we'd be delighted to share it with you.

Gain an incredible depth and breadth of experience

Throughout your time with us you will have near continual opportunities to practise applying the medical knowledge and skills you're building. This includes through:

- our Adelaide Health Simulation facility, the most technologically advanced health simulation facility in Australasia

- multiple clinical placements in real health care settings
- regular interprofessional learning with peers in our world-class nursing, dentistry and physiotherapy programs.

You'll emerge with not only the intellectual and practical capability to heal and save lives, but the real-world confidence to immediately contribute in collaborative health care settings.

01

Ranked #1 in South Australia for Arts and Humanities*

Australia's longest established music conservatorium

Producing music research rated 'above world standard'^

Experience a remarkable musical culture

As a University of Adelaide music student you'll be part of an incredibly rich history.

Our Elder Conservatorium was established in 1883 as the first conservatorium of music in Australia, and we've remained one of our country's most distinguished tertiary music schools for almost 140 years.

We've built close ties with other leading musical institutions around the world, including in the UK, USA, Canada, Asia and Europe. Our graduates have gone on to hold positions of national and international influence throughout the industry. This includes as performers, composers, educators, scholars and administrators.

Gain strong industry connections

Whichever musical path you choose with us—and we offer many—you'll benefit from a breadth and depth of industry connections that only an institution of our standing can provide.

Your opportunities will include:

- exciting industry internships
- guest instruction and mentoring from leading professionals
- frequent networking opportunities with potential employers at student performances and other on-campus events.

Your passion for music could take you anywhere from being a session musician, composer or recording artist, to a songwriter, musical theatre performer, producer, sound engineer or music teacher.

Career prospects

Employment growth for music-related roles is predicted to remain stable†.

An incredibly industry-connected environment

The University of Adelaide provides one of the most stimulating environments in the world for technology-related study. Our main city campus stands literally next door to Lot Fourteen, Adelaide's thriving innovation and technology precinct, which includes:

- our University's own world-leading Australian Institute of Machine Learning (AIML), the largest machine learning research centre in Australia
- the Australian Cyber Collaboration Centre (A3C), in which we collaborate with the Australian Government's Defence Science and Technology group and others
- the Australian Space Agency, Space Discovery Centre, and Mission Control Centre.

Other organisations with a Lot Fourteen presence include Microsoft Azure Space, Amazon, Inovor Technology, and the Massachusetts Institute of Technology (MIT) bigdata Living Lab—all of whom our AIML partners with in ongoing real-world research.

Give yourself a career superpower

Technology and AI is reshaping virtually every industry. Gaining the skills to play a part in that at the University of Adelaide—recognised worldwide for computer science leadership—will give you incredible career scope. You could find yourself:

- developing applications that strengthen capabilities in fields as varied as disease treatment, climate and weather prediction, cybersecurity, defence, or space exploration

- harnessing critical insights from large datasets to inform public health or environmental policy, social services, or business practices
- enhancing, testing and maintaining precision-engineered products, processes, systems and services.

And whichever path you take, we'll ensure you have the confidence to contribute from your first day in the workforce, by including up to 760 hours of hands-on industry experience in your degree.

Our degrees

Our degrees

Ready to start making some choices? The following 35 pages contain full descriptions of our entire suite of undergraduate degrees, arranged in alphabetical order.

As well as describing what each degree involves and where it could take you in your career, the entries also include key details such as:

- the degrees' durations
- which campus or campuses they're studied at
- any prerequisite school subjects you'll need to have completed
- the minimum International Selection Rank you'll need to gain entry
- indicative annual tuition fees.

And just in case you missed them, you can return to our study area summaries from page 40 at any time to get an idea of which degrees most closely relate to your career interests.

Bachelor of Agricultural Sciences

CRICOS code 069204G

2023 International Selection Rank 70

Duration 3 years full-time

Campus North Tce, Roseworthy and Waite

Indicative annual tuition fee \$45,500

Intakes February and July

Assumed knowledge

Chemistry and Mathematics

Enquiries adelaide.edu.au/degree-finder
(search *agriculture*)

Agriculture is about understanding the land, animals, crops and community.

For those seeking a career in the industry, our Bachelor of Agricultural Sciences is the degree of choice. It is ranked 42nd in the world and is the only Agricultural Science degree in South Australia#.

What will you do?

Our hands-on approach to teaching will set you up to join this booming industry. You will:

- learn how to respond to global food shortages and a changing climate with sustainable practices, environmental stewardship, modern agribusiness and new technology
- practice the latest methods, from adapting genes and cells for new crops to the business of livestock, and explore emerging trends, like vertical farming
- build practical skills through at least 450 hours of internships and real-world learning at our working farm at Roseworthy
- learn about industry-transforming technology, like drones, GPS and crop sensors
- go on field trips across Australia, exploring everything from dryland farming to glasshouse systems^
- develop skills in agribusiness that will allow you to work in the business of farming
- access the latest research, innovation and technology through government and industry partners.

Where could it take you?

By 2030, 1 in 3 new jobs in agriculture will be technology related.*. In fact, on average there are four jobs available for every graduate**. You'll be set to improve primary production outputs in both rural and city locations. You could work as a consultant, conduct sustainability research, advise on government policy or innovate in urban and vertical farming. You might get a job in ag media, connecting farmers to their customers. Perhaps you'll come up with ways to increase farming efficiency using modern drone technology.

* *Delivering Ag2030, Department of Agriculture, Water and the Environment*

Academic Ranking of World Universities by Subject 2021

Bachelor of Applied Data Analytics

CRICOS code 0100937

2023 International Selection Rank 70

Duration 3 years full-time

Location North Terrace and Waite

Indicative annual tuition fee \$45,500

Intakes February and July

Prerequisites Mathematics (Physics and Advanced Mathematics are prerequisites for some majors.)

Enquiries adelaide.edu.au/degree-finder
(search *data analytics*)

For decision-makers, data is gold. But only if it can be interpreted accurately. All around the world, in every industry, employers are seeking professionals with not only statistical expertise, but the ability to 'see' new solutions in oceans of numbers.

Our new Bachelor of Applied Data Analytics will help you step into this critical role in one of seven specialist areas: agriculture, bioinformatics, economics, environment, geosciences, physics, public health.

What will you do?

This degree is South Australia's only specialised data analytics degree. It combines big-data analytics training with decision science. You will:

- learn to use big-data analytics within your chosen discipline, giving you the skills employers are looking for
- gain valuable industry experience through internship opportunities
- develop skills in statistical inference, including using machine learning
- design new models to address complex problems
- apply data analysis to develop organisational strategies for success in your chosen discipline
- undertake a significant research project in your final year.

Where could it take you?

You'll be well equipped to help organisations in your chosen area of specialisation identify opportunities for improvement and growth. You could work in government, consultancies or large corporations, at home or abroad. Or perhaps you'll apply your knowledge to drive decision-making in a venture of your own.

Bachelor of Architectural Design

CRICOS code 002782D

2023 International Selection Rank 75

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$42,000

Intakes February and July (students commencing in July must enrol in summer school to complete within 3 years)

Enquiries adelaide.edu.au/degree-finder
(search *architectural*)

Design goes far beyond the visual. It responds to possibilities and limits, to hopes and needs. It's equal parts creative and calculated.

Architectural design is about understanding landscapes and the way humans create places within them. Architecture, landscape architecture and urban design share the purpose of aiding society while creating structural works of art.

What will you do?

Our Bachelor of Architectural Design hones concrete skills and encourages big picture thinking. You will:

- visit notable building sites, landscapes, gardens and exhibitions
- gain high-level practical design and model-making skills
- practise computer and hand based drawing techniques
- explore relevant theory, history, tradition and innovation
- consider issues of ecology and environment
- learn how to formulate effective proposals.

Where could it take you?

Our graduates apply design skills in all sorts of rewarding careers, and take on specialised roles through postgraduate study. You might restore beautiful old buildings or be a micro-home master. You could create and preserve natural landscapes and life cycles. Perhaps you'll design the next iconic skyscraper or opera house.

Bachelor of Arts

CRICOS code 002785A

2023 International Selection Rank 70

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$37,500

Intakes February and July. Students commencing in July please note some core courses, electives and language part 1 courses may only be offered in semester 1. Please contact the Faculty of Arts for help with planning your degree.

Enquiries adelaide.edu.au/degree-finder (search *art*)

A Bachelor of Arts lets you dive into higher learning with flexibility and freedom. We support your interests in the broad and vital study of history, society, culture and creativity.

The University of Adelaide is highest ranked for Arts in South Australia. From Classics to Criminology, Gender Studies to Geography—you can choose from the greatest number of study areas in the state.

What will you do?

Based on North Terrace, you'll study in the centre of Adelaide's cultural hub, surrounded by iconic establishments and festivals. You will:

- experience a modern learning program taught with a global perspective
- learn from deeply passionate and knowledgeable academics
- build a suite of skills in critical thinking, communication, and research
- form strong networks with your peers and teachers
- develop professional connections in government, business and the community sector through internships
- gain international experience through optional exchanges or study tours when they become available.

You'll focus your interests in any of the following areas:

- Anthropology
- Art History and Visual Culture
- Australian Studies
- Chinese Studies
- Classics
- Creative Writing
- Criminology
- Cultural Studies
- Digital Humanities
- Economics
- Education
- English
- Film Studies

Bachelor of Arts (Advanced)

CRICOS code 075802A

2023 International Selection Rank 95

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$37,500

Intakes February and July. Students commencing in July please note some core courses, electives and language part 1 courses may only be offered in semester 1. Please contact the Faculty of Arts for help with planning your degree.

Enquiries adelaide.edu.au/degree-finder (search *arts*)

Curious about a wide range of ideas and issues? High-achieving? Articulate? The Bachelor of Arts (Advanced) is a distinctive degree for inquisitive students who want to excel.

What will you do?

As a member of a small but distinctive community within the wider University, you'll work to take your knowledge and skills to a higher level. You will:

- enrol in Level 2 courses from first-year
- partner with an academic mentor who will support and encourage your intellectual development
- take a set of courses specifically designed for high-achieving students
- research and write a major independent research project on a topic of your choice
- attend exclusive events such as guest presentations, workshops, seminars, industry talks and social gatherings
- have significant input into the design and running of the Arts' advanced program.

You'll also have the flexibility to tailor your degree to suit your career goals. You can choose to extend your abilities in two majors. Or, take just one and complement it with a set of elective courses focused on developing your leadership and citizenship.

You have no fewer than 32 majors to select from:

- Anthropology
- Art History and Visual Cultures
- Australian Studies
- Chinese Studies
- Classics
- Creative Writing
- Criminology
- Cultural Studies
- Digital Humanities
- Economics
- Education
- English
- French Studies
- Gender Studies
- Geography Environment and Population
- German Studies
- History
- Indigenous Knowledges and Society
- Indonesian Studies
- International Development
- Italian Studies
- Japanese Studies
- Linguistics
- Mathematical Sciences
- Media
- Modern Greek Studies
- Music
- Philosophy
- Politics and International Relations
- Psychology
- Sociology
- Spanish Studies.

Note: You must maintain a GPA of 5.0 or you'll be required to transfer to the Bachelor of Arts.

Where could it take you?

You'll emerge from our degree with enhanced skills for either higher studies or leadership roles in your chosen career. You could shake up Adelaide with the next iconic festival concept. You might run for federal government. Perhaps you'll join the ranks of Arts-educated CEOs on the world stage.

Bachelor of Biotechnology

CRICOS code 031007C

2023 International Selection Rank 75

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$45,500

Intakes February and July (students commencing in July may have a slightly limited selection of courses)

Assumed knowledge

Physics, mathematics and chemistry

Enquiries adelaide.edu.au/degree-finder (search *biotechnology*)

Biotechnology focuses on biology and technology, leading to the development of new products for feeding, fuelling and healing the world. This might include vaccine, antibiotic or hormone production and genetic modification.

It's a fast-evolving industry with huge potential for improving global health and wellbeing. When we modify living things, all sorts of marvels become possible.

What will you do?

Our Bachelor of Science (Biotechnology) combines traditional science with aspects of engineering and computer science. You will:

- give your experimentation meaning as you learn how to take your discoveries from the lab to the market and broader community
- delve into areas like drug development, gene therapy or the identification of biomarkers for cancers
- learn how to produce food, drugs and other products
- study alongside research-active experts
- explore molecular, genetic, animal and plant biology
- discover microbial biotechnology and bioprocess engineering
- consider social and ethical issues, patents and waste management.

Where could it take you?

You could concoct world-changing pharmaceutical drugs in the lab. You might work to clone animals. Perhaps you'll aid in the development and implementation of modern techniques for disease prediction and treatment.

Bachelor of Biotechnology (Honours)

CRICOS code 103526B

2023 International Selection Rank 80

Duration: 4 years full-time

Campus North Terrace

Indicative annual tuition fee \$45,500

Intakes February and July (students commencing in July may have a slightly limited selection of courses)

Assumed knowledge

Physics, mathematics and chemistry

Enquiries adelaide.edu.au/degree-finder (search *biotechnology*)

Our Bachelor of Science (Biotechnology) (Honours) provides high achieving students with automatic entry into an honours year, provided a 4.5 grade point average (GPA) is maintained. Biotechnology—integrating biology and technology to create innovative solutions—has enormous potential to feed, fuel and heal. This degree will prepare you to enter this exciting and vital industry with advanced capability and an employability edge.

What will you do?

Like the Bachelor of Science (Biotechnology), the Bachelor of Science (Biotechnology) (Honours) combines biology with aspects of engineering and computer science. During the first three years, you will:

- delve into molecular, genetic, animal and plant biology
- experiment with protein separation, fermentation, genomics and proteomics
- use revolutionary gene editing technology at Australia's first genome editing facility
- explore microbial biotechnology and bioprocess engineering
- learn how to produce food, drugs and other products
- consider global social, economic, environmental and ethical issues, patents and waste management.

In addition to a Molecular Biology major, you'll be able to choose a second specialisation in: Bioinformatics; Chemistry; Genetics; or Microbiology and Biomedical Science.

You can also gain valuable work experience through an industry internship. And your research skills will be honed through a major research project and/or industry-related project in your honours year.

Where could it take you?

You'll graduate with the biotech world at your feet. The bachelor degree's same vast range of career paths will of course be open to you. But with your additional honours qualification—and the enhanced capability it signifies—you'll immediately stand out to potential employers.

Bachelor of Business

CRICOS code 102610C

2023 International Selection Rank 73

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$46,000

Intakes February and July

Enquiries adelaide.edu.au/degree-finder (search *business*)

In the modern business world, it's not enough to be a jack of all trades; you must also master at least one. Our Bachelor of Business gives you that career edge, complementing a foundation of broad commercial awareness with focused expertise in management, international business or digital marketing and communications.

What will you do?

Emphasising strategic thinking, innovation and flexibility, the degree prepares you to play a leading role in supporting, growing and transforming sustainable enterprises through your chosen area of specialisation.

You will build broad knowledge of contemporary global business issues; explore business lifecycles, data analysis, cultural diversity and the entrepreneurial mindset; then focus your career direction through a major or double major. Options include:

- Digital Marketing and Communications
- International Business
- Management
- or any two of these.

You'll also have the opportunity to hone your abilities through a real-world capstone experience. This could be an internship; industry project; participation in the Australian eChallenge or Tech eChallenge; or approved Business School study tour.

You will emerge ready to research and analyse diverse business problems, develop powerful, evidence-based solutions, and promote ethical, sustainable business through innovation and clearly articulated strategic thinking.

Where could it take you?

Wherever your specialisation and industry interests meet. You could take on an important coordination role in a growing biotech company. You might help a local agrifood operation establish itself overseas. Perhaps you'll digitally market a cross-border street-art cooperative's services to cities all over the world.

Bachelor of Commerce

CRICOS code 102611B

2023 International Selection Rank 75

Duration 3 years full-time

Campus North Terrace and Melbourne

Indicative annual tuition fee \$46,000

Intakes

North Terrace: February, July

Melbourne: March, July, November[^]

Enquiries adelaide.edu.au/degree-finder (search *commerce*)

With technological and societal change constantly reshaping commercial enterprise, the need for business professionals to be strategic, innovative and adaptable has never been greater.

Our Bachelor of Commerce gives you these vital career advantages, while delivering professional accreditation in accounting, finance or marketing.

What will you do?

The degree gives you the knowledge, tools and insight to immediately contribute to successful organisations today—and confidently lead the sustainable enterprises of tomorrow.

You will build foundational knowledge in accounting, finance, economics and commercial law; explore business lifecycles, data analysis, cultural diversity and the entrepreneurial mindset; then focus your career direction through a major or double major. Options include:

- Accounting
- Corporate Finance
- Marketing
- or any two of these.

You'll also have the opportunity to hone your abilities through a real-world capstone experience. This could be an internship; industry project; participation in the Australian eChallenge or Tech eChallenge; or approved Business School study tour*.

You will graduate able to research and analyse diverse business problems, develop powerful, evidence-based solutions, and promote ethical, sustainable business through innovation and clearly articulated strategic thinking.

Where could it take you?

Everywhere. Complete an accounting major and you'll be entitled to join CPA (Certified Practising Accountants) Australia and CA ANZ (Chartered Accountants Australia and New Zealand). The Corporate Finance major meets CFA (Chartered Financial Analyst) Institute entry requirements. And the marketing major's accredited with the AMI (Australian Marketing Institute).[^]

** Students undertaking a double major in Corporate Finance and Marketing must complete the course Marketing Planning Project for their capstone experience.*

[^] Subject to change.

Bachelor of Computer Science

CRICOS code 023413M

2023 International Selection Rank 70

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$47,000

Intakes February and July (students commencing in July may not have access to the full range of courses)

Prerequisites Mathematics

Enquiries adelaide.edu.au/degree-finder (search *computer*)

Ready to take your place in the technology revolution?

Our Bachelor of Computer Science features artificial intelligence and machine learning courses not available anywhere else in South Australia. It's taught by world-class researchers and teachers within a faculty ranked 40 in the world for computer science and engineering*.

What will you do?

Depending on your chosen major, you will:

- explore self-driving cars, robotic vision, machine learning and image recognition
- learn how to protect networks, data and software systems from attack and unlawful access
- apply cutting-edge data analysis techniques—such as machine and deep learning—to large sets of data
- design, make and study large-scale distributed software systems, including parallel, mobile and cloud-based environments.

Majors are available in:

- Artificial intelligence
- Computer science
- Cybersecurity
- Data science
- Distributed systems and networking.

You can also choose a flexible program with a little bit of everything, from gaming and graphics to computer vision and software engineering.

Where could it take you?

No matter how technology transforms the jobs market, computer science skills will be crucial. You could design robots or collective virtual reality spaces. You might work at Google as a software engineer. Perhaps you'll legally break into systems as a white hat hacker to test their security.

This program is accredited by the Australian Computer Society (ACS).

** Academic Ranking of World Universities 2020*

Bachelor of Computer Science (Advanced)

CRICOS code 075810A

2023 International Selection Rank 95

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$47,000

Intakes February and July (students commencing in July may not have access to the full range of courses)

Prerequisites Mathematics

Enquiries adelaide.edu.au/degree-finder (search *computer*)

Our Bachelor of Computer Science (Advanced) is a distinctive degree for highly capable students who want to tackle global questions in computer science and information technology.

The program is taught by world-class researchers and teachers within a faculty ranked 48 in the world for computer science and engineering[^]. It features artificial intelligence and machine learning courses not available anywhere else in South Australia.

What will you do?

You will apply your skills to real-world challenges through self-directed learning and practical projects. Depending on your chosen major, you will:

- explore self-driving cars, robotic vision, machine learning and image recognition
- learn how to protect networks, data and software systems from attack and unlawful access
- apply cutting-edge data analysis techniques—such as machine and deep learning—to large sets of data
- design, make and study large-scale distributed software systems, including parallel, mobile and cloud-based environments.

Majors are available in:

- Artificial intelligence
- Computer science
- Cybersecurity
- Data science
- Distributed systems and networking.

We also set up opportunities within the program for displaying your talents to future employers.

Note: You must maintain a high grade point average to stay in this highly competitive degree.

Where could it take you?

With advanced technology skills, you'll work on solving real problems in our society. You could come up with multi-cloud solutions to tackle future security issues. You might develop a revolutionary algorithm. Perhaps you'll program nanobots that reverse aging or design the first unquestionably true artificial intelligence.

Professional accreditation

This program is accredited by the Australian Computer Society (ACS).

Bachelor of Construction Management

CRICOS code 0101636

2023 International Selection Rank 70

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$45,500

Intakes February and July

Enquiries adelaide.edu.au/degree-finder (search *construction*)

Advancing technology is creating exciting opportunities for the construction industry. Innovative digital engineering, modelling and automation techniques are changing what's possible.

Worldwide, demand is soaring for graduates with skills and understanding in these areas, together with a firm grasp of contemporary building, project management and sustainability practices. Our new Bachelor of Construction Management will make these opportunities yours.

What will you do?

Taught over three years full-time within a faculty ranked 40 in the world for computer science and engineering^{*}, the degree leverages the University's strong industry links and world-class research. Co-developed with industry, it features an emphasis on real-world experience, with an internship providing 456 hours of work-based training and industry internship opportunities embedded into the program during 3rd year.

In addition to gaining a broad understanding of the foundations of the construction industry and associated project management—you'll develop skills in applying and using:

- new and emerging technology, including digital engineering tools and automation technologies (Industry 4.0)
- civil engineering principles and technology, in real-world construction contexts
- construction project and people management, including legal requirements
- systems thinking, building science and economics principles
- sustainability principles to design more eco-friendly construction processes
- effective interpersonal communication, and critical thinking.

The degree is taught across two schools—Civil Engineering and Architecture—and wherever possible you'll share classes with students of both. This will prepare you well for a future career in which you'll frequently work alongside professionals in these areas.

Additionally, the degree integrates learning with hands-on experience through teaching the final two years in block mode—enabling you to gain employment in industry after your second year and continue to work while you study, subject to meeting your student visa work limitation.

Where could it take you?

You'll be well equipped to work on high-technology infrastructure and construction projects anywhere in the world. From managing the construction of transformational infrastructure projects, including bridges, tunnels and highways, to constructing the next generation of zero-energy buildings using the latest digital and Industry 4.0 technologies.

For those looking to challenge themselves further, consider our Bachelor of Construction Management (Honours), which offers opportunities to showcase your skills via capstone construction design and research projects.

Bachelor of Construction Management (Honours)

CRICOS code 0101635

2023 International Selection Rank 75

Duration 4 years full-time

Campus North Terrace

Indicative annual tuition fee \$45,500

Intake: February and July

Enquiries adelaide.edu.au/degree-finder (search *construction*)

Advancing technology is creating exciting opportunities for the construction industry. Innovative digital engineering, modelling and automation techniques are changing what's possible.

Worldwide, demand is soaring for graduates with skills and understanding in these areas, together with a firm grasp of contemporary building, project management and sustainability practices. Our new Bachelor of Construction Management (Honours) will prepare you to take a leading role.

What will you do?

Taught over four years full-time within a faculty ranked 40 in the world for computer science and engineering*, the degree leverages the University's strong industry links and world-class research. Co-developed with industry, it features an emphasis on real-world experience, with an internship providing 456 hours of work-based training and industry internship opportunities embedded into the program during 3rd and 4th year.

In addition to gaining a broad understanding of the foundations of the construction industry and associated project management—you'll develop skills in evaluating, applying and using:

- new and emerging technology, including digital building-information modelling tools and automation technologies (Industry 4.0)
- civil engineering principles and technology, in real-world construction contexts
- construction project and people management, including legal requirements
- systems thinking, building science and economics principles
- sustainability principles to design more eco-friendly construction processes
- highly effective interpersonal communication and critical, independent thinking.

The degree is taught across two schools—Civil Engineering and Architecture—and wherever possible you'll share classes with students of both. This will prepare you well for a future career in which you'll frequently work alongside professionals in these areas.

In fourth year, you'll also undertake major construction design and research projects. In these, and your internship, you'll be mentored by our world-class, research-active staff and/or industry experts.

Where could it take you?

You'll be ideally placed to work on high-technology infrastructure and construction projects anywhere in the world. From managing the construction of transformational infrastructure projects, including bridges, tunnels and highways, to constructing the next generation of zero-energy buildings using the latest digital and Industry 4.0 technologies. You may also choose to continue your study with Master of Construction Management.

Bachelor of Creative Arts

CRICOS code 097521F

2023 International Selection Rank 70

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$37,500

Intakes February and July

Enquiries adelaide.edu.au/degree-finder (search *arts*)

Creative artists are performers, designers, writers, animators, curators and directors. They keep the world of art and culture spinning. They make people think, laugh and feel.

Studying creative arts means practising new ways of making while learning from those who've inspired and entertained throughout history.

What will you do?

Our Bachelor of Creative Arts develops individual creativity and knowledge. You will:

- choose from production courses like creative writing, music and media techniques
- study theory in your areas of interest, from philosophy and ethics to art history and visual cultures
- gain valuable work experience within the creative arts industry
- attend masterclasses with visiting international academics
- go behind the scenes of a major arts festival through our partnership with the Adelaide Festival
- network with leaders and artists at the field's cutting edge.

You can also pursue your creative interests overseas with optional exchanges and study tours.

Where could it take you?

Creative Arts graduates follow and fashion all sorts of exciting career pathways. You could exhibit your work in national galleries or spotlight new creative talent. You might publish fiction, biographies or reviews for film festivals. Perhaps you'll nurture creativity in young people through music programs.

Bachelor of Criminology

CRICOS code 089645E

2023 International Selection Rank 75

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$37,500

Intakes February and July. Students commencing in July please note some core courses, electives and language part 1 courses may only be offered in semester 1. Please contact the Faculty of Arts for help with planning your degree.

Enquiries adelaide.edu.au/degree-finder (search *criminology*)

Criminology is the study of crime and deviance—seeking to understand the causes of crime, the extent and consequences of crime, as well as methods of crime prevention.

What will you do?

Our Bachelor of Criminology prepares you to think critically about crime and the criminal justice sector, as you:

- examine criminal and anti-social behaviour
- debate the causes and consequences of crime
- investigate policing and crime prevention techniques
- question justice and corrections systems
- learn how to conduct research on emerging threats, such as cybercrime, organised crime, and terrorism.

Where could it take you?

Criminology graduates are empowered to pursue a wide range of different employment opportunities. You may choose to work in an operational role in the criminal justice system, or within one of the critical external organisations supporting the sector. You may follow a path into other professional settings, such as policy-making, research, analysis or education. You could combine your degree in criminology with other degrees, majors or minors, to pursue a career in law, forensics or psychology, amongst others.

Bachelor of Dental Surgery

CRICOS code 002788J

2023 International Selection Rank 90

Duration 5 years full-time

Campus North Terrace

Indicative annual tuition fee \$87,500

Intakes February

Quotas Strict entry quotas apply. Offers and selections are based on a merit ranking process.

Prerequisites Two subjects: one from Chemistry or Mathematics or Physics; and then one from Biology or Chemistry, Geology or Physics

Assumed knowledge High proficiency in written and spoken English.

Admission requirements Selection will be based on three components:

1. Performance in the University Clinical Aptitude Test (UCAT ANZ).
2. Performance in an interview—invitations are based on the UCAT ANZ score.
3. Academic results.

Enquiries adelaide.edu.au/degree-finder (search *dental*)

Dentists work to improve oral health in our communities. They're lifelong learners who care about their patients and their work.

Dentistry is a science and an art. It's flexible and rewarding, and it changes lives.

What will you do?

Our Bachelor of Dental Surgery supports you in becoming a highly skilled and patient-focused dentist. You will:

- build clinical experience starting in your very first year
- learn in Australia's newest dental teaching hospital, in the state-of-the-art Adelaide Health and Medical Sciences building
- explore the full range of dental therapies—from complex restorative to preventative-based treatments
- practise using equipment in our Dental Simulation Clinic
- tackle real-life case scenarios in teams
- benefit from extensive placements across metropolitan and rural settings
- improve lives through community outreach programs.

Where could it take you?

You could work in a local or community dental clinic or provide dental care for people in the developing world. You might become a defence force dentist. Perhaps you'll be a researcher, making new discoveries to improve oral health care.

Bachelor of Economics

CRICOS code 002790D

2023 International Selection Rank 70

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$43,500

Intakes February and July

Enquiries adelaide.edu.au/degree-finder (search *economics*)

Economists study the world through the analysis of decision-making in households, businesses and broader society. They examine details and put pieces together, always striving to understand the 'big picture'.

Armed with these insights, economists can give expert advice on business strategy, understand the background behind the news, influence public policy for a better world, and make informed personal financial decisions.

What will you do?

Our Bachelor of Economics sets you up to understand and shape our economy's future. You will:

- learn how to break down complex issues into resolvable questions
- discover advanced techniques for analysing and managing data
- study how maths and statistics are applied to economics
- explore matters relating to the growth and stability of the whole economic system
- investigate social issues such as inequality, housing affordability, environmental management and depleting natural resources.

There are also opportunities for professional internships in Adelaide, other Australian cities and overseas.

Where could it take you?

Economics graduates go on to all sorts of exciting careers. You might be a high-stakes stockbroker, banker, or financial planner, a data analyst in a government agency or health economist with a pharmaceutical group. You could be a demand planner in a big wine company. Perhaps you'll end up working in journalism, foreign affairs or mobile game development.

Bachelor of Economics (Advanced)

CRICOS code 081482F

2023 International Selection Rank 95

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$43,500

Intakes February and July

Enquiries adelaide.edu.au/degree-finder (search *economics + advanced*)

Aspire to be a leader in business, policy or research?

The Bachelor of Economics (Advanced) is a uniquely structured and specialised degree for students who want to stand out in their field.

What will you do?

Our advanced degree emphasises research and high-level analytical skills. You will:

- interact with and learn from eminent researchers, notable economists from abroad, and high-ranking economists practising in the private and public sector
- have the opportunity to partner with an academic mentor who'll support and encourage your intellectual development
- access three unique courses specifically designed for high-achieving students
- benefit from small-group work, special activities and events with distinguished visitors.

Note: You must maintain a GPA of 5.0 or you'll be required to transfer to the Bachelor of Economics. Conversely, if you initially enrol in the Bachelor of Economics you may be eligible to transfer into the advanced degree after two or three semesters if you achieve a high enough GPA.

Where could it take you?

You might specialise in maths and statistics and become an econometrician, working in logistics and modelling transport infrastructure. You could write pioneering policy around education, taxation or mental health. Perhaps you'll use behavioural economics to encourage people to recycle, or research the potential impacts of a universal basic income.

Bachelor of Engineering (Honours) – Flexible Entry

CRICOS code 088345C

2023 International Selection Rank 80

Duration 1 year full-time

Campus North Terrace

Indicative annual tuition fee \$48,500

Intakes February

Prerequisites

Advanced Mathematics and Physics

Enquiries adelaide.edu.au/degree-finder (search *flexible*)

Want to be an engineer but not sure which engineering degree is right for you?

At the University of Adelaide, we want to see all graduates in successful and fulfilling careers. This degree is designed to help you pursue the best option for you.

What will you do?

Our flexible entry option gives you a first-hand view of engineering at the University of Adelaide. You will:

- explore a variety of engineering disciplines
- attend presentations by practising engineers
- build communication skills essential to the field.

Where could it take you?

You will transfer into a named Bachelor of Engineering (Honours) single, double or combined degree at the completion of the academic year. We will support you in finding the area of engineering that drives you.

Bachelor of Engineering (Honours)(Architectural and Structural)

CRICOS code 097231E

2023 International Selection Rank 80

Duration 4 years full-time

Campus North Terrace

Indicative annual tuition fee \$48,500

Intakes February and July (students commencing in July may not have access to the full range of courses)

Prerequisites

Advanced Mathematics and Physics

Enquiries adelaide.edu.au/degree-finder (search *architectural*)

Interested in a creative career that explores elements of both architectural design and engineering?

Architectural engineers visualise projects, plan, collaborate, test ideas and come up with high-tech building solutions. They design systems for some of the most innovative infrastructure in today's society.

What will you do?

Our Bachelor of Engineering (Honours) (Architectural and Structural) brings the disciplines of architecture and engineering together in a unique program. You will:

- undertake practical projects and work on real-world simulations
- explore sustainability and architectural integrity
- pursue specialisations in your areas of interest
- build skills in geotechnical engineering, construction, and operation systems
- complete eight weeks of practical experience

In your final year you will also collaborate with industry on a major design project.

Where could it take you?

As an accredited engineer, you'll be in demand across the architectural, engineering and construction industries. You might work on major infrastructure and construction projects, or design underground infrastructure for renewable energy systems. Perhaps you'll design blast-proof buildings in the defence sector, or sustainable housing systems. Want to become an architect as well?

Professional accreditation

Graduates qualify for professional membership of Engineers Australia.

Bachelor of Engineering (Honours)(Chemical)

CRICOS code 082074C

2023 International Selection Rank 80

Duration 4 years full-time

Campus North Terrace

Indicative annual tuition fee \$48,500

Intakes February and July (students commencing in July may not have access to the full range of courses)

Prerequisites

Advanced Mathematics and Chemistry

Enquiries adelaide.edu.au/degree-finder (search *chemical*)

Chemical engineers come up with the best ways to convert raw matter—like minerals or oils—into products we can use. They design renewable energy solutions, new and improved medicines, chemical plants, cosmetics and food factories.

The University of Adelaide is the only South Australian university in the world's top 50 for Computer Science and Engineering*.

What will you do?

Our Bachelor of Engineering (Honours) (Chemical) is interactive from the very first year. You'll work with award-winning and industry-connected researchers and teachers as you:

- use knowledge and skills from engineering, chemistry, maths and biology to produce chemicals, fuel, drugs, and food
- learn how results in the lab scale up for commercial production
- undertake projects with external groups such as Engineers Without Borders
- benefit from tours, projects, and placements with companies like PepsiCo, Smiths Crisps, Jurlique, and BHP
- complete an eight-week practical experience.

Majors are available in:

- Food and beverage engineering
- Minerals processing
- Pharmaceutical engineering
- Renewable energy.

Where could it take you?

You could come up with better ways to control air pollution or turn saltwater into fresh water. You might work alongside craft beer brewers. Perhaps you'll mass-produce a biodegradable version of plastic or move into the exciting world of tissue engineering.

Professional accreditation

Graduates qualify for professional membership of Engineers Australia.

Bachelor of Engineering (Honours)(Civil)

CRICOS code 097237K

2023 International Selection Rank 80

Duration 4 years full-time

Campus North Terrace

Indicative annual tuition fee \$48,500

Intakes February and July (students commencing in July may not have access to the full range of courses)

Prerequisites

Advanced Mathematics and Physics

Enquiries adelaide.edu.au/degree-finder (search *civil*)

Civil engineers design, build and maintain the infrastructure that underpins modern life. They make sure bridges, roads, tunnels, railways, dams, airports and water channels meet the needs of our society in a sustainable way.

The University of Adelaide is ranked 35 in the world for Civil Engineering*.

What will you do?

Our Bachelor of Engineering (Honours) (Civil) has a strong focus on design. You'll learn from award-winning academics in state-of-the-art facilities as you:

- study structural design and mechanics in depth
- access new technologies forming the basis of future design practice
- work on real-life projects
- interact with professionals through an industry-led design practice course
- complete an eight-week practical experience.

Majors are available in:

- Construction management
- Defence systems
- Environmental engineering
- Geotechnical engineering
- Renewable energy
- Smart technologies
- Structural engineering
- Water systems engineering.

Where could it take you?

You will graduate as an accredited engineer. You might supervise major water projects or the building of sea-bridges. You could connect remote communities as a road and highway engineer. Perhaps you'll design high-speed railways or help with the construction of an Australian hyperloop.

Professional accreditation

Graduates qualify for professional membership of Engineers Australia.

Bachelor of Engineering (Honours)(Electrical and Electronic)

CRICOS code 082096G

2023 International Selection Rank 80

Duration 4 years full-time

Campus North Terrace

Indicative annual tuition fee \$48,500

Intakes February and July (students commencing in July may not have access to the full range of courses)

Prerequisites

Advanced Mathematics and Physics

Enquiries adelaide.edu.au/degree-finder (search *electrical*)

Electrical and electronic engineers do so much more than keep the lights on! From smart devices to medical imagery and defence technologies, electrical and electronic engineering contributes to every aspect of modern life.

The University of Adelaide is the only South Australian university in the world's top 50 for electrical and electronic engineering*.

We set you up for a range of global career options in a field that's leading technological change.

What will you do?

Our Bachelor of Engineering (Honours) (Electrical and Electronic) is practical right from the first year. Working with our internationally renowned staff who are active in cutting-edge discoveries, you will:

- study in state-of-the-art facilities, including a 3D prototyping lab, autonomous vehicles lab, and electric machines lab
- work on practical and relevant projects with industry partners
- specialise in your chosen electrical and electronic engineering major after the first two years
- complete an eight-week practical experience.

Majors are available in:

- Communication systems
- Computer engineering
- Cybersecurity
- Defence systems
- Medical technologies
- Renewable energy
- Smart technologies.

Where could it take you?

As an accredited engineer, you could work in artificial intelligence, industrial automation, e-commerce or cybersecurity. You might manage multimillion-dollar energy projects. Perhaps you'll help design the first purely electric aircrafts.

Professional accreditation

Graduates qualify for professional membership of Engineers Australia.

Bachelor of Engineering (Honours) (Environmental and Climate Solutions)

CRICOS code 097232D

2023 International Selection Rank 80

Duration 4 years full-time

Campus North Terrace

Indicative annual tuition fee \$48,500

Intakes February and July (students commencing in July may not have access to the full range of courses)

Prerequisites

Advanced Mathematics and one from either Chemistry, Physics or Biology

Enquiries adelaide.edu.au/degree-finder (search *environmental*)

Want to design solutions to some of the planet's most challenging problems? As populations expand and humanity demands more of our natural resources, environmental engineers are at the forefront of developing solutions that increase the sustainability of human activities. They tackle climate change, enable the renewable energy transition, secure our water supplies, protect society from natural hazards, and redesign products to reduce waste.

What will you do?

Our Bachelor of Engineering (Honours) (Environmental and Climate Solutions) will challenge and nurture you in a team environment. You will:

- develop skills to tackle climate change and other major environmental challenges around water, energy, food, pollution, waste, and natural hazards
- learn about connections between infrastructure, environment, society, and economy in the developed and developing world
- work with award-winning academics who are global experts in their field
- apply your knowledge to real-world projects based on industry needs
- complete an eight-week practical experience and participate in field trips.

Majors are available in:

- Climate solutions
- Renewable energy
- Smart technologies.

Where could it take you?

As an accredited engineer, you could enable the renewable energy transition, design water reuse schemes for cities or agricultural districts, increase society's resilience to natural hazards, or design recycling schemes. You might set up your own start-up company that manufactures sustainable products, or work to eliminate poverty in Southeast Asia. Perhaps you'll work for the United Nations, or for a bank or insurance company to assess the climate risk on major infrastructure projects.

Professional accreditation

Graduates qualify for professional membership of Engineers Australia.

Bachelor of Engineering (Honours)(Mechanical)

CRICOS code 082192G

2023 International Selection Rank 80

Duration 4 years full-time

Campus North Terrace

Indicative annual tuition fee \$48,500

Intakes February and July (students commencing in July may not have access to the full range of courses)

Prerequisites

Advanced Mathematics and Physics

Enquiries adelaide.edu.au/degree-finder (search *mechanical*)

Mechanical engineers work with 'things that move', from prosthetic limbs and robots to motor vehicles, aircrafts and space stations.

When it comes to new technologies, mechanical engineers are key. They design and develop materials, processes and products to improve our lives and the world.

What will you do?

Our Bachelor of Engineering (Honours) (Mechanical) has strong links to industry and a focus on design and creativity. You will:

- explore core mechanical engineering disciplines
- complete design-build projects
- gain hands-on experience in state-of-the-art facilities
- benefit from internships, placements and projects with experts in the field
- complete an eight-week practical experience.

In your final year you'll apply your advanced capabilities in an industry-focused research project.

Majors are available in:

- Aerospace engineering
- Defence systems
- Mechanical engineering
- Mechatronics and robotics
- Medical technologies
- Renewable energy
- Smart technologies
- Sports engineering.

Where could it take you?

Our mechanical engineering graduates are in high demand. As an accredited engineer, you could develop life-saving technology, or innovate in the sustainable energy field. You might be an aerospace or sports engineer. Perhaps you'll plan, build and test robots and robotic systems with artificial intelligence.

Professional accreditation

Graduates qualify for professional membership of Engineers Australia.

Bachelor of Engineering (Honours)(Mining)

CRICOS code 082114M

2023 International Selection Rank 80

Duration 4 years full-time

Campus North Terrace

Indicative annual tuition fee \$48,500

Intakes February and July (students commencing in July may not have access to the full range of courses)

Prerequisites

Advanced Mathematics and Physics

Enquiries adelaide.edu.au/degree-finder (search *mining*)

Mining engineers work with all aspects of ore extraction and processing. They gather valuable minerals or metals and provide a backbone industry for our society.

The reinvigoration of traditional mining plus new advances—such as deep-sea mining and space mining—mean there's an exciting future for mining engineers, with a wealth of job opportunities around Australia and overseas.

The University of Adelaide is ranked 7 in the world for Mining and Mineral Engineering*.

What will you do?

Being the only mining engineering course in South Australia, we cover everything from engineering design to management skills. You will:

- take part in field trips to mining locations in Australia and overseas
- gain exposure to industry practices in world-class laboratories
- work closely with experts to develop skills and networks for a successful career
- complete an eight-week practical experience
- undertake an optional semester at another mining university.

Majors are available in:

- Mine automation—learn about the connection between mining and artificial intelligence, machine learning and big data at the only university in Australia currently offering a major in mine automation.

Where could it take you?

You will graduate as an accredited engineer with mining as your speciality. You might drill and blast in local stone quarries or travel overseas to unearth rare metals. You could design plans for how to approach newly discovered sites. Perhaps you'll work in exciting developing fields like deep-sea or space mining.

Professional accreditation

Graduates qualify for professional membership of Engineers Australia.

Bachelor of Engineering (Honours)(Petroleum)

CRICOS code 082117G

2023 International Selection Rank 80

Duration 4 years full-time

Campus North Terrace

Indicative annual tuition fee \$48,500

Intakes February and July (students commencing in July must undertake Maths 1B in Summer School)

Prerequisites

Advanced Mathematics and Physics

Enquiries adelaide.edu.au/degree-finder (search *petroleum engineering*)

Want to travel the world and face new challenges every day?

Petroleum engineering is one of the highest paid engineering fields internationally, with exciting opportunities for qualified graduates.

Petroleum engineers help sustain society's way of life by ensuring we can meet our energy demands. They provide oil and gas in efficient, safe, and environmentally responsible ways.

What will you do?

Our Bachelor of Engineering (Honours) (Petroleum) is developed and taught by industry-trained academics through the Australian School of Petroleum and Energy Resources. This is Australia and Southeast Asia's academic centre for petroleum research and education, and the only school of its kind in Australia. You will:

- learn about petroleum engineering, petroleum geoscience and the oil industry
- take courses in business and project management
- develop technical knowledge and network with potential employers
- undertake interactive projects and field trips
- complete an eight-week practical experience.

In your final year you'll also carry out a major research project.

Where could it take you?

You'll graduate as an accredited engineer. You could work for a range of oil, gas and energy companies, or find a role in a government agency. You might take up reservoir drilling and production. Perhaps you'll be a geoscientist or take on managerial roles within the business.

Professional accreditation

Graduates qualify for professional membership of Engineers Australia.

Bachelor of Engineering (Honours) (Petroleum) with major

CRICOS code 097229K

2023 International Selection Rank 80

Duration 5 years full-time

Campus North Terrace

Indicative annual tuition fee \$48,500

Intakes February

Prerequisites

Advanced Mathematics and Physics

Enquiries adelaide.edu.au/degree-finder (search *petroleum engineering*)

Want to face new challenges every day?

Petroleum engineering is one of the highest paid engineering fields internationally, with exciting opportunities for qualified graduates.

Petroleum engineers help sustain society's way of life by ensuring we can meet our energy demands. They provide oil and gas in efficient, safe, and environmentally responsible ways.

This degree allows students to undertake a major as part of their study in a five-year program.

What will you do?

Our Bachelor of Engineering (Honours) (Petroleum) with major is developed and taught by industry-trained academics through the Australian School of Petroleum and Energy Resources. This is Australia and Southeast Asia's academic centre for petroleum research and education, and the only school of its kind in Australia. You will:

- learn about petroleum engineering, petroleum geoscience and the oil industry
- take courses in business and project management
- develop technical knowledge and network with potential employers
- undertake interactive projects and field trips
- complete an eight-week practical experience.

Majors are available in:

- Chemical engineering
- Civil engineering
- Mechanical engineering
- Mining engineering.

Where could it take you?

You'll graduate as an accredited engineer. You could work for a range of oil, gas and energy companies, or find a role in a government agency. You might refine crude petroleum into gasoline or plastics. You could optimise extraction techniques. Perhaps you'll design new equipment, supervise drillings or take on managerial roles.

Professional accreditation

Graduates qualify for professional membership of Engineers Australia.

Bachelor of Environment Policy and Management

CRICOS code 061732C

2023 International Selection Rank 70

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$44,000

Intakes February and July. Students commencing in July please note some core courses, electives and language part 1 courses may only be offered in semester 1. Please contact the Faculty of Arts for help with planning your degree.

Enquiries adelaide.edu.au/degree-finder (search *environmental + policy*)

Earth is home to 7 billion people—and we're careless. Businesses dump waste into oceans. Loggers cut down precious forests. Animal species die out.

Environmental policy stops this from happening: rainforest protections, national parks, fishing guidelines, wildlife sanctuaries. Environmental policy makers problem-solve and protect. They stand between the environment and processes that exploit it.

What will you do?

Our Bachelor of Environmental Policy and Management challenges you to make a positive impact. You will:

- research how humans affect natural environments
- explore approaches to conservation and sustainability
- create policy and plans for managing environmental problems
- learn about climate change, biodiversity, population growth and resource scarcity.

There are also travel opportunities. We offer exchanges and study tours where you'll tackle real-life problems in vulnerable communities.

Where could it take you?

Environmental expertise is in demand. You could spend your days outdoors as a park ranger or draw up plans for big business and government. You might set up programs to restore habitats for local wildlife. Perhaps you'll work towards sustainability in remote communities, build policy around renewable energy, or get involved with ecotourism.

Bachelor of Finance and Banking

CRICOS code 023443e

2023 International Selection Rank 75

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$46,000

Intakes February and July

Enquiries adelaide.edu.au/degree-finder (search *finance*)

Professional finance and banking is the art of managing, and maximising, money at every scale—for individuals and households, right up to giant corporations and governments.

Success requires strategic thinking, political awareness and business savvy. Our Bachelor of Finance and Banking gives you the knowledge and skills to excel.

What will you do?

Studying full-time over three years, you'll gain in-depth understanding of:

- international trade, banking and financial markets
- retail and institutional banking, and its relationship with government and business
- the principles and impact of monetary policy
- major asset classes and investment options
- specialised financial institutions.

You'll also build strong skills in:

- wealth and risk management
- business data analytics and statistics
- financial modelling.

And you'll develop the critical thinking, problem solving and communication skills to clearly formulate and deliver monetary advice.

Where could it take you?

You could enter the commercial banking sector helping businesses fund their growth. You might become a financial advisor, helping people retire in comfort. Perhaps you'll trade financial instruments in the ASX, or help shape government monetary policy.

Bachelor of Food and Nutrition Science

CRICOS code 068797G

2023 International Selection Rank 70

Duration 3 years full-time

Campus North Tce, Waite and Regency Park

Indicative annual tuition fee \$45,500

Intakes February and July

Assumed knowledge

Chemistry and Mathematics

Enquiries adelaide.edu.au/degree-finder (search *nutrition*)

Food is fundamental to our wellbeing as a society. New approaches to production and processing of food, as well as to our diet, are key for health and sustainability.

The Australian food and beverage industry exports \$40 billion a year and is growing rapidly. There is a high demand for food and nutrition scientists able to tackle today's challenges and meet tomorrow's global needs.

What will you do?

Our Bachelor of Food and Nutrition Science prepares you to educate and innovate with food. You will:

- tackle global issues like food security and population health to help feed the world into the future
- learn about food systems and production from 'farm-gate to fork'
- gain hands-on experience through 120 hours of placement in a food, nutrition or health organisation
- learn how to design, formulate, produce, package and market foods under industry conditions
- develop the skills to use and alter food to combat diet-related health issues
- experiment with chemical composition and flavour combinations in the lab
- explore ways of developing sustainable, nutritious, safe and healthy food supplies.

You will also learn in brand new, state-of-the-art food labs and industrial kitchen at our Waite campus.

Where could it take you?

You could work in public health advertising, developing food and nutrition policy, regulations and resources. You might pursue microbiology and increase the nutrient density of plant-based protein products. Perhaps you'll take on a role in food quality assurance, waste management or education. You'll also be eligible to apply for registration as an associate nutritionist, or could use the program as a pathway into dietetics.

Bachelor of Food and Nutrition Science (Honours)

CRICOS code 103527A

2023 International Selection Rank 80

Duration 4 years full-time

Campus North Tce, Waite and Regency Park

Indicative annual tuition fee \$45,500

Intakes February and July

Assumed knowledge

Chemistry and Mathematics

Enquiries adelaide.edu.au/degree-finder (search *nutrition*)

Our Bachelor of Food and Nutrition Science (Honours) provides high achieving students with automatic entry into an honours year, provided a 4.5 grade point average (GPA) is maintained.

The sustainable production of quality food and nutrition—fundamental to human health and wellbeing—is a thriving, multi-billion-dollar global industry. This degree will equip you to enter this exciting and rewarding field with advanced capability and an employability edge.

What will you do?

Like the Bachelor of Food and Nutrition Science, the Bachelor of Food and Nutrition Science (Honours) prepares you to educate and innovate in food. During the first three years, you will:

- tackle global issues like food security and population health to help feed the world into the future
- understand food systems and production from 'farm-gate to fork'
- gain hands-on experience through 120 hours of placement in a food, nutrition or health organisation
- learn how to design, formulate, produce, package and market foods
- develop the skills to use and alter food to combat diet-related health issues
- experiment with chemical composition and flavour combinations in the lab
- explore ways of developing sustainable, nutritious, safe and healthy food supplies.

Then, in your honours year, you'll deepen your knowledge through a major research project, acquiring significant research skills along the way.

You will also learn in brand new, state-of-the-art food labs and industrial kitchen at our Waite campus.

Where could it take you?

You'll graduate with the food and nutrition world at your feet. The bachelor degree's same vast range of career paths will of course be open to you including a pathway to dietetics. With your additional honours qualification—and the enhanced capability it signifies—you'll immediately stand out to potential employers.

Bachelor of Health and Medical Sciences

CRICOS code 090814E

2023 International Selection Rank 80

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$43,000

Intakes February and July

Enquiries adelaide.edu.au/degree-finder (search *health*)

Are you fascinated by the human body? Do you want to help tackle important health issues facing our world today?

Studying health and medical sciences is mentally stimulating and hands-on. It's about fighting disease through scientific research and actively promoting wellbeing.

Our Bachelor of Health and Medical Sciences ranks first in South Australia for teaching quality, and third in Australia for overall education experience*.

What will you do?

Our degree supports you in developing relevant and transferable skills that are highly sought-after in research and health industries. You will:

- explore human biology and public health in depth
- gain hands-on research experience in world-class facilities
- enjoy cutting-edge virtual reality learning
- work in small groups to solve problems relating to health and disease
- undertake a year-long research placement or internship
- increase your understanding of global health issues with opportunities to study overseas.

You'll also pursue a specialisation in one of a diverse range of areas:

- Clinical Trials
- Medical Sciences
- Neurosciences
- Public Health
- Reproductive and Childhood Health.

Where could it take you?

You could work in a medical laboratory or clinical setting, seeing modern medicine improve vulnerable patients' health. You might be the first to witness ground-breaking medical research results. Perhaps you'll help populations make healthy choices, or change the environments in which people live, grow, work, and play, so that everyone can lead healthy lives. Previous graduates have gone on to high-level, influential positions in a range of health organisations and government departments throughout Australia and abroad.

* *Good Universities Guide 2021*

Bachelor of Health and Medical Sciences (Advanced)

CRICOS code 090815D

2023 International Selection Rank 95

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$43,000

Intakes February and July

Enquiries adelaide.edu.au/degree-finder (search *health + advanced*)

Want to tackle humanity's greatest health challenges? Aspire to be outstanding in your field? The Bachelor of Health and Medical Sciences (Advanced) is a distinctive degree for students who want to excel.

What will you do?

Our advanced degree emphasises innovation and entrepreneurship, as well as applied clinical and research skills. You will:

- explore health from cellular, system, individual and population perspectives
- study solutions to frontline healthcare problems in a unique "hacking health" course
- learn about health collaborations and get hands-on training in our state-of-the-art Adelaide Health Simulation
- develop strategies for getting health discoveries into practice with the University's Entrepreneurship, Commercialisation and Innovation Centre
- learn from award-winning health researchers
- undertake a year-long research placement or internship.

You'll also pursue a specialisation in one of a diverse range of areas:

- Clinical Trials
- Medical Sciences
- Neurosciences
- Public Health
- Reproductive and Childhood Health.

Where could it take you?

You'll emerge with enhanced skills for either higher studies or leadership roles in your chosen career. You could lead programs to improve the health of vulnerable populations, develop policies to prevent obesity or tackle antimicrobial resistance. You might win the Nobel Prize in Medicine through ground-breaking research. Perhaps you'll outsmart cancer with an innovative approach to treatment.

Bachelor of Information Technology

CRICOS code 0100898

2023 International Selection Rank 65

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$47,000

Intakes February and July

Enquiries adelaide.edu.au/degree-finder (search *information technology*)

IT makes and breaks organisations worldwide. Businesses with more intuitive, high-performing systems leave competitors in their wake. But even market leaders risk losing customers by the thousands if they can't maintain service levels. Demand for professionals with exceptional IT design and management skills is rising. And our new Bachelor of Information Technology puts you squarely in employers' sights.

What will you do?

The degree is taught within a faculty ranked 48 in the world for computer science and engineering*. Leveraging the University's strong industry links and world-class research, it features an emphasis on systems and business approaches, and design thinking. Majors are offered in either Cyber Security or Artificial Intelligence and Machine Learning.

In addition to gaining a broad, application-based understanding of computer and information sciences, you'll develop skills in:

- evaluating and using IT methods, tools and processes in real-world contexts, complemented by the ability to integrate new and emerging technology
- applying systems-thinking principles to manage and develop well-structured, maintainable and safe technological solutions
- designing, making and studying large-scale distributed software systems, including parallel, mobile and cloud-based
- advanced critical and independent thinking, and interpersonal communication.

Depending on your chosen major, you'll also:

- learn how to develop highly secure, complex IT systems
- protect networks, data and software systems from attack and unlawful access
- explore self-driving cars, robotic vision, machine learning and image recognition
- understand how enterprise data and AI tools can be paired to improve productivity
- apply cutting-edge data analysis techniques to large sets of data.

And both majors include a significant industry-focused project or internship.

Where could it take you?

You could support organisations' IT development and management in virtually any industry, anywhere in the world. From a premium European food producer to an Asian bank or Australian airline... From web computing and user experience in the US, to data science and information security in India... Countless paths will open.

Bachelor of Innovation and Entrepreneurship

CRICOS code 072303M

2023 International Selection Rank 70

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$43,500

Intakes February and July

Enquiries adelaide.edu.au/degree-finder (search *innovation*)

Entrepreneurs and investors see the world for what it could be. In an ever-changing landscape, they take the risks to start up new businesses and social ventures.

Successful entrepreneurs are savvy, resilient and well-connected. At the University of Adelaide, we invest in your potential.

What will you do?

Our Bachelor of Innovation and Entrepreneurship gives you knowledge, access to networks and a growth mindset for success. You will:

- hone your ability to identify, assess and develop opportunities
- understand how to finance, market and manage a new venture or opportunity
- learn the business modelling behind innovations' commercialisation
- start your own venture in the University's ThincLab
- get hands-on help from experienced mentors and professionals.

There are also unique opportunities for study in our international ThincLab incubators in New Zealand. In these locations you can:

- apply international perspectives and strategies to your ventures
- tap into supported international learning
- access different cultures, networks and opportunities.

Where could it take you?

You might shine a spotlight on an unexpected renewable energy source. You could explore ecotourism or virtual reality. Perhaps you'll invest in a world-changing approach to everyday healthcare. This degree is also suitable if you want to be a corporate intrapreneur, driving innovative products and services for employers. You could even find alternative career pathways in government and not-for-profit sectors.

Bachelor of International Development

CRICOS code 088343E

2023 International Selection Rank 70

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$37,500

Intakes February and July. Students commencing in July please note some core courses, electives and language part 1 courses may only be offered in semester 1. Please contact the Faculty of Arts for help with planning your degree.

Enquiries adelaide.edu.au/degree-finder (search *international + development*)

Why is there global inequality? Why are some countries poor, or struggling with conflict, while others forge ahead? Our Bachelor of International Development equips you to tackle these and other big questions surrounding the world's greatest political, economic, cultural and ecological challenges as set out in the international development agenda of the Sustainable Development Goals.

What will you do?

We'll support you in developing the skills, knowledge and attributes needed to make a real and positive difference in the lives of others. You will:

- examine how government, business, non-governmental and international organisations, and individuals influence development
- learn how development organisations function to achieve the Sustainable Development Goals
- explore the major contributing factors leading to issues such as extreme poverty, poor health, fragile governance, inequality and environmental vulnerability
- analyse possible solutions to poverty related issues in the developing world
- learn and practise a range of skills required in the field.

You can get in-country experience by studying abroad. The University partners with the Australian Consortium for 'In-Country' Indonesian Studies which offers a Development Studies Professional Practicum. As part of the Bachelor of International Development, we offer a yearly Vietnam Study Tour, and study tours related to international development in Asia-Pacific, Africa and Latin America.

You will also have the opportunity to apply for the Tetra Tech Coffey International Development scholarship and internship—a development organisation based in Adelaide.

Where could it take you?

Graduates go on to all sorts of rewarding careers that focus on strengthening the wellbeing of communities in developing countries. You could be an international aid agency employee or humanitarian aid worker. You might provide hands-on support in disaster zones. Perhaps you'll be a project officer or conduct research for a non-governmental organisation.

Bachelor of International Relations

CRICOS code 022493C

2023 International Selection Rank 70

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$37,500

Intakes February and July. Students commencing in July please note some core courses, electives and language part 1 courses may only be offered in semester 1. Please contact the Faculty of Arts for help with planning your degree.

Enquiries adelaide.edu.au/degree-finder (search *international*)

The world is changing. What is causing that change? Can conflict be contained? How can nation-states and citizens influence the course of climate change?

International Relations examines the political and societal forces of international change. To study it is to delve into politics, history, economics, sociology and international law.

What will you do?

In our Bachelor of International Relations you can specialise in international relations and security, global governance, global justice, citizenship and human rights. In core studies you will:

- study key actors in global politics and the challenges they face
- consider relationships that involve power, authority, influence, conflict, and cooperation
- analyse political institutions and business-government relations
- learn about the history of globalisation and foreign-policy making.

You can also boost your employability and cross-cultural awareness by:

- studying a language
- going on overseas study tours
- completing an internship
- enrolling in overseas exchange programs.

Where could it take you?

Our graduates emerge ready for exciting roles across Australia and around the world. You might find yourself at the United Nations as a human rights officer. You could work as a policy advisor or an intelligence analyst in a government agency or a non-governmental organisation. You might be a public relations expert or marketing consultant for an international business. Perhaps you'll write political news. Or you could work in foreign affairs, strengthening partnerships and providing aid to developing countries.

Bachelor of Languages

CRICOS code 075310K

2023 International Selection Rank 70

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$37,500

Intakes February

Enquiries adelaide.edu.au/degree-finder (search *languages*)

Do you have a passion for languages? Are you fascinated by their complexity and deep entwinement with culture? Do you want to travel and connect in richer ways? In a changing world, the study of languages has never been more relevant.

What will you do?

Our Bachelor of Languages is interactive and immersive. Whether you've studied a language to Year 12 level (or equivalent) or are just setting out on your language journey, we offer different streams to cater to your level of knowledge. You will:

- develop proficiency in one or more languages
- enhance your knowledge of the cultures they originate from
- heighten your awareness of language systems
- understand language's role in society
- build a greater appreciation of cultural diversity.

Our majors are:

- Chinese Studies
- French Studies
- German Studies
- Indonesian Studies
- Italian Studies
- Japanese Studies
- Modern Greek Studies
- Spanish Studies.

You can also major in Linguistics.

Where could it take you?

Language graduates have an upper hand in all sorts of exciting careers. You could find work as a foreign service officer in embassies, resolving international conflicts. You might translate for politicians or celebrities. You could become a professional linguist or help migrants access support.

Bachelor of Laws

CRICOS code 048903J

2023 International Selection Rank 85

Duration 4 years full-time

Campus North Terrace

Indicative annual tuition fee \$46,000

Intakes February and July

Prerequisites If applying for a Law double degree, the prerequisites of the second degree must be met.

Enquiries adelaide.edu.au/degree-finder (search *laws*)

Studying law is about understanding our society and the power structures within it. Why do we have the laws we do? How have they evolved? How should we interpret them?

Whether you want to uphold, use or change the system—law can take you just about anywhere.

What will you do?

Our Bachelor of Laws can be completed as a single degree or double degree program. You will:

- explore legal concepts, processes and methods within common law principles and legal methodology
- build ethical reasoning, policy-based analysis and oratory skills
- gain rigorous knowledge of the areas of law necessary to undertake legal practice
- go deeper by choosing from our broad list of electives
- learn from legal professionals, former judges and international academics
- undertake internships in areas such as Public Law, Native Title Law and Human Rights Law
- form connections through the University's Lex Salus, Next Steps and Law Students' Society events.

Where could it take you?

Law can take you all over the world. You might advocate for asylum seekers or be a voice for the environment. With a little additional training you could guide innovating businesses as an in-house counsel or lead legal reform drafting new bills in government. Perhaps you'll go on to prosecute criminals, or preside in a Supreme Court.

Bachelor of Mathematical Sciences

CRICOS code 056945K

2023 International Selection Rank 80

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$47,000

Intakes February and July (students commencing in July may not have access to the full range of courses).

Prerequisites Advanced Mathematics

Enquiries adelaide.edu.au/degree-finder (search *mathematics*)

Mathematics is both a logical and creative pursuit. It's about curiosity, challenge, perseverance and passion.

Millions of industries around the world depend on mathematical scientists. They analyse and interpret patterns, predict and model outcomes, solve problems and drive human progress.

What will you do?

Our Bachelor of Mathematical Sciences challenges you to explore the full breadth and depth of mathematical learning. You will:

- learn from award-winning researchers and teachers in state-of-the-art facilities
- build fundamental statistical and mathematical knowledge
- hone your creativity, rigour, logical thinking, professionalism and research skills
- delve into abstract theories that underpin modern science
- create, collect, analyse and model data.

Majors are available in:

- Applied mathematics
- Pure mathematics
- Statistics.

Where could it take you?

Our maths graduates go on to all sorts of fascinating careers in technology-led industries. You could crunch numbers for business start-ups as a data scientist or work on modelling to predict the weather. You might be an actuary, applying probability and statistics to insurance and banking. Perhaps you'll design digital games or pursue rocket science.

Bachelor of Mathematical Sciences (Advanced)

CRICOS code 075809E

2023 International Selection Rank 95

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$47,000

Intakes February and July (students commencing in July may not have access to the full range of courses).

Prerequisites Advanced Mathematics

Enquiries adelaide.edu.au/degree-finder (search *mathematics*)

Want to drive progress through mathematics?

Our Bachelor of Mathematical Sciences (Advanced) is a degree for highly capable students who are passionate about maths and want to excel.

What will you do?

Alongside mathematical and statistical expertise, our advanced degree places a strong emphasis on research skills. You will:

- work with award-winning academics and researchers in state-of-the-art facilities
- access special programs designed for high-achieving students
- gain valuable exposure to mathematical sciences research culture
- take three Advanced Mathematical Perspectives courses.

Majors are available in:

- Applied mathematics
- Pure mathematics
- Statistics.

Note: You must maintain a GPA of 5.0 or you'll be required to transfer to the Bachelor of Mathematical Sciences.

Where could it take you?

You will emerge with enhanced skills for either higher studies or expert roles in your chosen career. You could be a defence scientist or economic researcher. You might enter the growing field of gaming design and performance analysis. Perhaps you'll figure out the mathematical model behind a scientific breakthrough or even win the Fields Medal.

Bachelor of Mathematical Sciences (Honours)

CRICOS code 103725F

2023 International Selection Rank 80

Duration 4 years full-time

Campus North Terrace

Indicative annual tuition fee \$47,000

Intakes February and July (students commencing in July may not have access to the full range of courses).

Prerequisites Advanced Mathematics

Enquiries adelaide.edu.au/degree-finder (search *mathematics*)

Virtually every industry around the globe depends on mathematical scientists. They analyse and interpret patterns, predict and model outcomes, solve problems and drive progress.

Our Bachelor of Mathematical Sciences (Honours) prepares you to enter this near-limitless world of career possibility. It provides the same breadth and depth of learning as the foundation bachelor degree, but with the additional opportunity to advance directly into a research-focused fourth-year honours program.

What will you do?

Taking a major in Applied Mathematics, Pure Mathematics or Statistics, you will:

- learn from award-winning researchers and teachers in state-of-the-art facilities
- build fundamental statistical and mathematical knowledge
- hone your creativity, rigour, logical thinking, professionalism and research skills, including through a significant fourth-year independent research project
- delve into abstract theories underpinning modern science
- create, collect, analyse and model data.

You'll need to maintain a GPA of 4.5 throughout your studies to retain your place; drop below this and you'll need to transfer to the foundation Bachelor of Mathematical Sciences.

Direct entry into the fourth (honours) year will require completion of 12 units of Level III courses in Applied Mathematics, Pure Mathematics or Statistics, with a minimum GPA of 5.

Where could it take you?

Like graduates from our foundation mathematical sciences degree, you'll emerge well equipped for all sorts of fascinating, high-tech careers. The additional honours year, however, will give you an undoubted employability edge, clearly signalling your superior problem-solving capability. You will also be perfectly placed to pursue further postgraduate research through a masters or PhD.

Bachelor of Mathematical and Computer Sciences

CRICOS code 001516G

2023 International Selection Rank 70

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$47,000

Intakes February and July (students commencing in July may not have access to the full range of courses).

Prerequisites Mathematics

Enquiries adelaide.edu.au/degree-finder (search *mathematics*)

Enjoy mathematical challenges? Want to apply your skills to computer-based problems?

Maths and computer science is a powerful combination. In an increasingly technological age, pairings like these are only becoming more valuable for a wide variety of careers.

What will you do?

Our Bachelor of Mathematical and Computer Sciences is a flexible degree. Program advisers are available to work with you to develop a study program tailored to your interests and career goals. You will:

- learn from world-class researchers and teachers in state-of-the-art facilities
- build fundamental statistical and mathematical knowledge
- explore complex computer systems and theories
- hone your creativity, rigour, logical thinking, professionalism and research skills
- pursue diverse electives—from business classes to social science programs.

Majors are available in:

- Applied Mathematics*
- Artificial Intelligence
- Computer Science
- Cybersecurity
- Data and Decision Sciences
- Distributed Systems and Networking
- Data Science
- Pure Mathematics*
- Statistics*.

A minor is also available in Public Health.

Where could it take you?

You could decode messages and breach security systems as a cryptanalyst. You might apply linear algebra in the design of virtual reality software. Perhaps you'll develop theorems as an academic or land a job at a major firm in Silicon Valley.

** If you're interested in broadening your mathematical expertise, you can also choose to study any two of: Applied Mathematics, Pure Mathematics, or Statistics in any combination (e.g. Applied Mathematics and Statistics) in lieu of a single major.*

Bachelor of Media

CRICOS code 041717A

2023 International Selection Rank 70

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$37,500

Intakes February and July. Students commencing in July please note some core courses, electives and language part 1 courses may only be offered in Semester 1. Please contact the Faculty of Arts for help with planning your degree.

Enquiries adelaide.edu.au/degree-finder (search *media*)

Media is everywhere: TV, radio, movies, magazines, video games, web and mobile communication, social networks. It's all the forms of mass communication we engage with every day.

Media professionals are analysers, creators and communicators. They understand people, technology and popular culture. They use words, images and sounds to tell stories and influence audiences.

What will you do?

Our Bachelor of Media offers twelve different specialisations. Depending on your interests, you'll get chances to:

- understand the media industry and issues shaping it
- gain real-world experience with major media networks and outlets
- read the news on air to audiences of thousands
- record, mix, master and produce sonic projects
- design digital entertainment experiences
- explore Japanese media cultures through study tours in Kyoto.

Where could it take you?

Our graduates go on to all sorts of exciting media careers. In film alone you could write scripts, produce soundtracks or animate special effects. You might design posters, interview actors, promote on social media—even host the awards afterwards!

We offer unique specialisations in:

- Digital Humanities
- Educational Media
- Film Studies
- Immersive Media
- Journalism
- Marketing
- Photographic Imaging
- Popular Music
- Social Media and Digital Promotion
- Sonic Arts
- Story Production
- Visual Design.

Bachelor of Medical Studies / Doctor of Medicine

CRICOS code 0100331 / 0100332

2023 International Selection Rank 90

Duration 3 years full-time per degree (total 6 years full-time)

Campus North Terrace

Indicative annual tuition fee \$83,500

Intakes February

Quotes Strict entry quotas apply. Offers and selections are based on a merit ranking process.

Prerequisites

One of Biology, Chemistry or Mathematics

Assumed knowledge High proficiency in written and spoken English.

Admission requirements Selection will be based on three components:

1. Performance in the University Clinical Aptitude Test (UCAT ANZ).
2. Performance in an interview—invitations are based on the UCAT ANZ score.
3. Academic results.

Enquiries adelaide.edu.au/degree-finder (search *medicine*)

Medicine is intellectually rewarding, challenging and inspiring. It requires critical problem-solving, teamwork and integrity.

Medical practitioners are passionately interested in wellbeing, and work to protect and promote the health of individuals and communities. They are dedicated to alleviating pain and suffering, and caring for vulnerable people.

What will you do?

Our Bachelor of Medical Studies provides the foundation knowledge and skills needed to excel in health care. Learning in partnership with outstanding clinicians in our state-of-the-art Adelaide Health and Medical Sciences building, you will:

- work in small groups to address scenario-based problems relating to common and important individual, community, Indigenous and global health issues
- gain valuable exposure to real-world clinical practice and develop your own safe and effective clinical skills in cutting-edge simulation facilities
- investigate the social determinants of health and health behaviours
- learn to evaluate the health status of individuals and populations
- acquire a solid foundation in research skills and evidence-based care
- learn collaboratively in interprofessional teams.

You will also gain a deep understanding of how our health care system works. This includes from the 'consumer' perspective; how patients interact with various health services and providers.

Where could it take you?

This is the first part of our medicine program; upon completion, you'll gain direct entry into our Doctor of Medicine. Together, these degrees will qualify you to practise medicine anywhere in Australia and throughout most of the world.

The medical program at the University of Adelaide has a six-year full-time duration which leads to the awards of Bachelor of Medical Studies and Doctor of Medicine. Entry to the Doctor of Medicine is based on completion of the Bachelor of Medical Studies at the University of Adelaide.

Bachelor of Music

CRICOS code 002801F

2023 International Selection Rank 70

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$37,500

Intakes February and July

Enquiries adelaide.edu.au/degree-finder (search *music*)

Music is a gift to be cultivated and nourished in society. It broadens our understanding and appreciation of the world.

Musicians are hard-working, creative, collaborative, analytical and empathetic. They are passionate, and understand the innate value of their work.

What will you do?

Our Bachelor of Music welcomes you into a fun and challenging community. Depending on your interests, you'll get chances to:

- work with international performers, teachers and guest artists
- compose, record, mix, master and produce sonic projects
- understand the music industry and issues shaping it
- explore cultural, historical and stylistic aspects of Western and non-Western music
- receive intensive professional training and one-on-one tuition
- perform in musical theatre productions.

Where could it take you?

Our graduates go on to all sorts of exciting music careers. You could travel the world as an orchestral musician. You might compose film scores or video game soundtracks. Perhaps you'll grace the stage as an opera singer, or review concerts and interview artists as a music journalist.

Areas of specialisation

- Classical Performance
- Classical Voice
- Jazz Performance
- Music Composition
- Music Education and Pedagogy
- Musicology
- Popular Music
- Sonic Arts.

Bachelor of Music (Advanced)

CRICOS code 097522E

2023 International Selection Rank 95

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$37,500

Additional entry requirements

Audition. For full details, visit:

arts.adelaide.edu.au/music/study/auditions

Intakes February and July

Enquiries adelaide.edu.au/degree-finder (search *music*)

Want to become a master of your art? Committed to a career in music? High-achieving? The Bachelor of Music (Advanced) is a distinctive degree for passionate students who want to excel.

What will you do?

Our advanced music degree creates a unique environment where you can thrive creatively and reach your full potential. You will:

- benefit from more intensive, one-on-one tuition
- access special opportunities for higher-level study through masterclasses and professional placements
- take advanced classes in your specialisation
- become a member of a small but distinctive community within the wider University.

You'll focus your abilities in one of following specialisations:

- Performance (Classical or Jazz or Voice)
- Creative Arts (Composition or Popular Music or Sonic Arts)
- Research Studies (Musicology or Music Education/Pedagogy)

Note: You must maintain a GPA of 5.0 or you'll be required to transfer to the Bachelor of Music.

Where could it take you?

Your advanced professional training will give you significant employment advantages in the music industry. You could secure a place in a world-class symphony orchestra. You might perform internationally as an influential jazz virtuoso, or win an Academy Award for Best Score as a film composer. Perhaps you'll discover an entirely new genre of music.

Bachelor of Music (Classical Performance)

CRICOS code 002801F

2023 International Selection Rank
Must have achieved a Selection Rank or equivalent

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$37,500

Additional entry requirements

Audition. For full details, visit:

Intakes February and July

Enquiries adelaide.edu.au/degree-finder (search *music*)

Do you want to do justice to great concertos and symphonies? To embody and share your passion?

Our Bachelor of Music (Classical Performance) challenges you to reach the highest standards of professional performance.

What will you do?

You'll receive one-on-one instrumental training and attend masterclasses within your specialisation. We offer the following instruments:

- classical brass (trumpet, trombone, tuba, French horn, euphonium)
- classical keyboard (piano, organ, harpsichord)
- classical percussion
- classical strings (violin, viola, cello, double bass, guitar, harp)
- classical woodwind (flute, clarinet, oboe, bassoon, saxophone, recorder).

You'll also:

- take classes in technique and repertoire
- pursue aural, theoretical and historical studies
- immerse yourself in ensemble activities, including orchestral and chamber music studies
- benefit from weekly performance opportunities with feedback from both staff and students.

Where could it take you?

You might lead grand voices to transcendental heights as an accompanist. You could travel the globe as an orchestral musician. Perhaps you'll curate concerts or find international stardom as a soloist.

Bachelor of Music (Classical Voice)

CRICOS code 002801F

Enquiries adelaide.edu.au/degree-finder (search *music*)

Music majors work hard. They pour themselves into their passions. Our Bachelor of Music (Classical Voice) is about dedication. It is for those who love the performing arts and self-expression through song.

Great singers entertain, inspire and move. They project humour, pathos, love and anger. They are a vital organ in the world's body of culture and beauty.

What will you do?

Elder Conservatorium's classical voice program welcomes you into a community as passionate about music and singing as you are:

- listen to the greats and immerse yourself in music theory
- work with international performers and teachers
- sing in choirs and ensembles
- receive one-on-one tuition and language instruction (Italian, German and French)
- learn stagecraft and theatre skills
- perform in operatic and musical theatre productions.

Where could it take you?

You might grace the stage as an opera singer. You could find yourself travelling the world as a professional chorister. You could even be the next great lieder singer. Specialised training will help your voice find its place.

Bachelor of Music (Jazz Performance)

Enquiries adelaide.edu.au/degree-finder (search *music*)

The Bachelor of Music (Jazz Performance) welcomes you into one of Australia's most vibrant and innovative jazz communities.

Our staff and guest artists include some of the finest national and international jazz musicians and educators. Our graduates are performing, teaching, composing, arranging and recording throughout Australia, Europe, Asia, the U.S. and more.

What will you do?

Our curriculum covers traditional and contemporary theory and method and is committed to the highest standards of professional performance. You'll receive one-on-one tuition and attend masterclasses within your specialisation. Options include:

- bass
- drums
- guitar
- keyboard
- trumpet
- trombone
- saxophone
- voice.

You'll also:

- enjoy regular performances featuring Big Bands, Jazz Choirs, and Latin and Small Jazz Ensembles
- take classes in theory, improvisation, arrangement and history
- learn about looping and sampling
- explore career paths, music business and world music
- benefit from weekly performance opportunities with feedback from both staff and students.

Where could it take you?

You might take your own music to the top. You could start your own jazz club. Perhaps you'll grace every stage in New Orleans or tour the world as a professional accompanist.

Bachelor of Music (Music Composition)

Composition is a craft. From the music of Bach or Mozart to the films scores of Hans Zimmer, musical creations are some of humanity's greatest achievements.

Composers move, enchant and entertain. They conceive works of timeless beauty and reach audiences in ways words cannot.

What will you do?

Our Bachelor of Music (Music Composition) has both a strong focus on classical traditions and an acute ear for the demands of the 21st century composer. You will:

- learn a broad range of stylistic approaches for composing music
- develop your compositional 'voice' through one-on-one tuition, lectures and tutorials
- study the principles of musical structure, notation and text setting, melodic writing, harmonic and rhythmic invention, counterpoint, and instrumental colour and texture
- consider the practical and work-related sides of creative music making
- explore music aesthetics, media and technology.

We also provide opportunities for ensemble performance and collaboration in film, dance and theatre.

Where could it take you?

You might fill concert halls and opera houses with live audiences or release albums recorded from home. You could compose award-winning film scores or TV series. Perhaps you'll write for top-tier soloists or large-scale ballets.

Bachelor of Music (Music Education and Pedagogy)

CRICOS code 002801F

2023 International Selection Rank 70

Music's creative and uplifting presence is essential in the lives of young people.

Great music teachers help kids express themselves, take pride in what they do and appreciate new things. They give emerging musicians the skills and confidence they need to thrive.

What will you do?

Our Bachelor of Music (Music Education and Pedagogy) offers music-specific education courses and a personally tailored program that suits your own areas of interest and career aspirations. You will:

- build skills in your creative specialty
- learn methods for vocal and instrumental coaching
- explore key principles in 21st century music education
- develop lesson plans based on different approaches
- expand your creative abilities and musical skill set through practise teaching activities.

Where could it take you?

You could tutor in after-school programs or a private music studio. You might start a rock camp to empower young Australian musicians. Perhaps you'll be the next red Wiggles!

Note: further study is required to be eligible for South Australian teacher registration.

Bachelor of Music (Musicology)

CRICOS code 002801F

2023 International Selection Rank 70

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$37,500

Additional entry requirements

(search *music*)

Musicology is the study of music in its cultural, social, historical and stylistic contexts.

It's about the way that music 'works'. And not just notes on a page or sounds in a recording. Music also affects individual actions, social behaviour and expression in both Western and non-Western societies.

What will you do?

Our Bachelor of Music (Musicology) takes your contextual knowledge of music to the next level. You will:

- explore different approaches to music research
- gain keen aural and analytical skills
- develop high-level understandings of music history and repertoire
- analyse live and recorded music
- build confidence in oral and written communication.

You can also pursue a wide range of studies in other areas. If you're interested in performance you can take ensemble classes subject to audition.

Where could it take you?

You could continue on in academia or pursue work in music and arts journalism. You might work for the Rock 'n' Roll Hall of Fame in Ohio or archive in the Australian Jazz Museum. Perhaps you'll publish a book about music and acculturation in First Nations communities.

Bachelor of Music (Popular Music)

CRICOS code 002801F

2023 International Selection Rank

Must have achieved a Selection Rank or equivalent

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$37,500

Want to be a leader in contemporary music? To have unmatched insight? Want to shake up the industry?

Studying popular music is about valuing your passion and pushing boundaries.

What will you do?

Our Popular Music degree equips you with the knowledge and skills needed to excel as a creative professional. You will:

- develop your own unique identity, presence and style as a song writer
- explore cutting-edge technologies for music production
- have 24/7 access to rehearsal and recording studios to develop your work
- collaborate in song writing and performance classes
- receive mentorship and business coaching from industry professionals
- research and analyse contemporary music
- showcase your original music through regular performances.

You can also expand your skills by studying electives outside music. A range of options are available in Arts, Business, Science or Media.

Where could it take you?

Our graduates go on to all sorts of exciting music careers. You could take to the stage, or work behind the scenes at major festivals. You might be a producer, coaching other artists in the studio. Perhaps you'll write songs for pop stars or spend your work hours at concerts as a music journalist.

Bachelor of Music (Sonic Arts)

CRICOS code 002801F

The creation and distribution of music and sound has been transformed by digital technology. It's accelerated the growth of the arts, entertainment, creative and media industries into huge global enterprises.

Our Bachelor of Music (Sonic Arts) prepares you to play a leading creative role in this exciting landscape.

What will you do?

Sonic Arts incorporates all applications of contemporary technology to sound and music. You will:

- take courses in composition, studio recording, live performance and digital media
- have 24/7 access to specialised facilities, including production studios, recording rooms and digital audio laboratories
- research sound theory and music history
- collaborate on group performance projects
- learn from international artists and industry professionals.

You'll follow your interests across a range of specialised courses and electives in:

- computer game audio
- computer music composition
- film sound
- instrument building
- interactivity
- music production
- software design
- sound design
- sound engineering.

Where could it take you?

You might invent instruments, write video game soundtracks or develop music software. You could tour the world as a live electronic musician. Perhaps you'll be a producer, creatively advising, coaching and recording other artists in the studio.

Bachelor of Music Theatre

Theatre artists are keen, creative and collaborative professionals who perform across a range of disciplines including acting, singing and dancing. They work hard to bring stories to life and entertain audiences around the world.

What will you do?

Our Bachelor of Music Theatre welcomes you into a vibrant community as enthusiastic about music theatre as you are. You will:

- study at the prestigious Elder Conservatorium in the centre of Adelaide's cultural hub
- receive intensive, individualised training in singing and song coaching, as well as classes in dance, acting and music
- develop broad cultural and inter-disciplinary awareness
- build skills in communication, collaboration, self-confidence, physical presence and analytical insight
- benefit from the expertise of our highly accomplished and industry-active staff.

You'll also gain valuable experience through University partnerships with Adelaide Festival, South Australian Film Corporation, Adelaide Cabaret Festival and Adelaide Fringe.

Where could it take you?

Our artists are industry ready and equipped to realise a career as a performer. This can also take you into the broader world of theatrical arts and theatre making.

Bachelor of Nursing

CRICOS code 057076J

2023 International Selection Rank 70

Duration 3 years full-time

Campus North Terrace and teaching hospitals

Indicative annual tuition fee \$39,000

Intakes February and July (July intake may open, pending available places)

Quotas Strict quotas apply. The standard cut-off is the minimum academic threshold, above which applicants will be ranked on merit.

Enquiries adelaide.edu.au/degree-finder (search *nursing*)

Nurses are highly respected members of the community. They help treat patients in all sorts of health care settings and touch lives with empathy and compassion.

Nursing is flexible, exciting and challenging. It's a rewarding profession full of problem-solvers and pillars of strength.

The Adelaide Nursing School is ranked first in South Australia for graduate employment and first in Australia for overall educational experience*.

What will you do?

Our Bachelor of Nursing supports you in becoming a confident and responsible registered nurse. You will:

- develop hands-on skills in high-tech simulation settings
- benefit from clinical and non-clinical placements across metropolitan and rural locations
- explore contemporary issues around health promotion, maintenance, advocacy and care
- undertake interprofessional learning with other health care students.

Where could it take you?

You'll emerge with a professional qualification recognised Australia-wide, ready to pursue rewarding roles in rural communities, operating theatres, emergency wards, and a multitude of other health care environments.

Bachelor of Occupational Therapy (Honours)

CRICOS code 0101681

2023 International Selection Rank 90

Duration 4 years full-time

Campus North Terrace

Indicative annual tuition fee \$43,500

Intakes February

Prerequisites One of Biology, Chemistry or Mathematics

Quotas Entry quotas apply

Enquiries adelaide.edu.au/degree-finder (search *occupational therapy*)

Occupational therapists help us build and protect the specific capabilities we need to effectively participate in the critical activities of our daily lives: learning, socialising, playing, doing our jobs and simply looking after ourselves.

By guiding and supporting physical and psychological progress, they help individuals, families and communities create or restore meaning, purpose and independence.

What will you study?

Our Bachelor of Occupational Therapy (Honours) equips you to identify, prevent and manage the full range of challenges to everyday activity.

With many courses taught by registered practising occupational therapists, the degree places an emphasis on real-world experience. In over 1,000 hours of work-based training, you'll work with children and adults of all ages in multiple settings: public and private health organisations; schools; rehabilitation centres; aged care; mental health and more.

You'll gain high-level knowledge and skills in:

- human anatomy, physiology and the pathophysiology
- rehabilitation from short- and long-term injury, musculoskeletal and neurological conditions, chronic illness, disability and mental health issues
- specialised practice with children and families
- broad public health issues and population approaches to health and wellbeing
- cultural diversity, with a focus on Aboriginal and Torres Strait Islander people and communities, and rural or international health perspectives
- evidence-based, patient-centred care.

You'll regularly access our purpose-built training facilities and state-of-the-art simulation suites—among Australasia's most advanced. In addition, you'll benefit from collaborative learning with key complementary disciplines, speech pathology and physiotherapy.

From late in third year, you'll choose one of two streams—research* or industry—and undertake a major project. Research will hone your skills in developing new knowledge; industry focuses on integrating research into practice.

Where could it take you?

You'll graduate eligible to pursue a wide range of career opportunities working with communities and populations to achieve and maintain health and wellbeing. You could help children with sensory issues realise their full learning—and life—potential. You might help elderly people maintain the capacity to live in their treasured family homes. Perhaps you'll help those recovering from workplace trauma return to their passion.

Accredited with conditions by the Occupational Therapy Council and approved by the Occupational Therapy Board.

** Entry into the research stream will be based on academic merit.*

Note: This degree is only available in blended mode and on-campus attendance is required

Bachelor of Oral Health

CRICOS code 036335B

2023 International Selection Rank 70

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$58,500

Intakes February

Quotas Strict entry quotas apply. Offers and selections are based on a merit ranking process

Assumed knowledge High proficiency in written and spoken English

Admission requirements Selection will be based on three components:

1. Performance in the University Clinical Aptitude Test (UCAT ANZ).
2. Performance in an interview—invitations are based on the UCAT ANZ score.
3. Academic results

Enquiries adelaide.edu.au/degree-finder (search *oral health*)

Oral health is an essential component of a healthy life. Complex dental work contributes to this, but proper care and prevention are just as important.

While dentists perform specialised treatments, oral health therapists have broad expertise in general oral health care and education.

What will you do?

Our Bachelor of Oral Health is an evidence-based degree that prepares you for providing general oral health care and health promotion. You will:

- learn in Australia's newest dental teaching hospital, in the state-of-the-art Adelaide Health and Medical Sciences building
- study within a close-knit oral health learning community
- benefit from early clinical exposure and extensive placements
- practise using equipment in our Dental Simulation Clinic
- tackle real-life case scenarios in teams
- improve lives through community outreach programs.

Where could it take you?

You will be part of providing high quality clinical care for all ages. You might develop hygiene maintenance programs for people managing chronic gum pain. You could advise on public health policy or design and implement educational campaigns. Perhaps you'll open an oral health clinic with a team of oral health therapists and dentists you're yet to meet at the University of Adelaide.

Note: This degree is only available in blended mode and on-campus attendance is required.

Bachelor of Philosophy, Politics and Economics

CRICOS code 097520G

2023 International Selection Rank 70

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$37,500

Intakes February and July. Students commencing in July please note some core courses, electives and language part 1 courses may only be offered in semester 1. Please contact the Faculty of Arts for help with planning your degree.

Enquiries adelaide.edu.au/degree-finder (search *philosophy*)

Understanding social complexities requires looking through more than one lens.

Students of philosophy, politics and economics are deeply acquainted with social and political institutions. They reason rigorously and reflect on moral and ethical values. They understand how resources must be managed and that economics influences everything.

What will you do?

Our Bachelor of Philosophy, Politics and Economics has a structure unique in South Australia, and highly regarded internationally. You will:

- learn broadly across all three areas before focusing on your chosen discipline
- analyse complex political and economic scenarios
- critically debate morality, freedom and social justice
- understand and develop responses to pressing real-world problems
- benefit from contact and mentoring with experts and researchers
- gain practical insights from guest speakers within political and business communities
- career plan from early on and undertake an internship aligned with your goals.

Where could it take you?

You'll graduate career-ready and prepared to problem-solve at all levels of intricacy. You could advise on policy, write it or run for government yourself. You might move into research or media commentary. Perhaps you'll assist global businesses with decision making as a consultant, or lead them to success as a CEO.

Bachelor of Physiotherapy (Honours)

CRICOS code 0101679

2023 International Selection Rank 90

Duration 4 years full-time

Campus North Terrace

Indicative annual tuition fee \$43,500

Intakes February

Prerequisites One of Biology, Chemistry or Mathematics

Quotas Entry quotas apply

Enquiries adelaide.edu.au/degree-finder (search *physiotherapy*)

Physiotherapists help us recover, maintain and enhance our ability to move freely and without pain. They help us overcome injury, preserve physical condition during and after illness, and improve athletic performance.

But the psychological impact of that is far from purely technical; it's a critical component of positive mental health and an enabler of a rewarding quality of life.

What will you study?

Our Bachelor of Physiotherapy (Honours) equips you to assess and manage a range of health conditions.

With many courses taught by registered practising physiotherapists, the degree places an emphasis on real-world experience. In up to 900 hours of work-based training, you'll work with children and adults of all ages in multiple settings which may include: public and private health organisations; schools; rehabilitation centres; sporting organisations; aged care and more.

You'll gain high-level knowledge and skills in:

- human anatomy, biomechanics and physiology
- clinical assessment and management of patients with cardiothoracic, musculoskeletal and neurological dysfunction, and developmental disorders
- safe patient handling practices and patient education
- broad public health issues
- evidence-based, patient-centred care.

You'll regularly access our purpose-built training facilities and state-of-the-art simulation suites—among Australasia's most advanced. In addition, you'll benefit from collaborative learning with key complementary disciplines, speech pathology and occupational therapy.

From third year, you'll choose one of two streams—research* or industry—and undertake a major project. Research will hone your skills in developing new knowledge; industry focuses on integrating research into practice.

Where could it take you?

You'll graduate eligible to pursue a wide range of career opportunities. You could help cancer patients improve their condition—and spirit—during treatment. You could help a range of people better manage a variety of health conditions. You might help a child take their first steps, or you could help someone get back to work, sport or other activities. Those in the research stream may change the way we assess and manage a range of conditions, leading to better health outcomes for the population.

Professional accreditation

The Bachelor of Physiotherapy (Honours) has been conditionally accredited for a period of four years, commencing 31 December 2020. The University of Adelaide will continue to work with the Australian Physiotherapy Council during this period.

Note: This degree is only available in blended mode and on-campus attendance is required.

** Entry into the research stream will be based on academic merit.*

Bachelor of Project Management

CRICOS code 096701K

2023 International Selection Rank 70

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$43,500

Intakes February and July

Enquiries adelaide.edu.au/degree-finder (search *project management*)

Project management is about delivering successful results for business, government and the community. It requires passion, resolve and vision.

Project managers are expected to take charge of complex tasks and keep things on track. They recruit people, coordinate activities, organise and problem-solve.

What will you do?

Our Bachelor of Project Management gives you the skills and knowledge to excel in the professional realm. You will:

- research project management practices and concepts
- assess and manage risk in a wide variety of project scenarios
- build the soft skills needed to motivate and lead teams
- develop specific knowledge in an industry or field of your choice
- study ways of fostering creativity and innovation.

Where could it take you?

Opportunities for qualified project managers are increasing at pace. You could guide a defence project or manage sporting events. You might work on the global stage guiding community projects in less developed countries. Perhaps you'll lead an IT team in Silicon Valley or oversee the development of a multi-storey tower in Dubai.

Bachelor of Psychological Science

CRICOS code 060177M

2023 International Selection Rank 75

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$43,000

Intakes February and July

Enquiries adelaide.edu.au/degree-finder (search *psychology*)

Are you fascinated by the human mind? Do you wonder what motivates our behaviour?

Psychological science investigates the way people think, behave, feel and learn. It studies processes of the human mind— including personality, intelligence and memory—so that we can better understand ourselves.

What will you do?

Our Bachelor of Psychological Science nurtures creativity, analysis and communication skills. You will:

- learn about human development and the biological bases of behaviour
- investigate the mechanics of perception and learning
- explore the nature of motivation and emotion
- gain experience with psychological tests
- develop skills for counselling
- choose between from over 35 majors and many electives from related disciplines
- design and undertake meaningful research projects.

Where could it take you?

You could become a social psychologist, doing large-scale research to change the way we go about our lives. You might work in community services with people of all ages and backgrounds, or in market research and advertising. Perhaps you'll go on to further study in the field and become a qualified psychologist.

Professional accreditation

This degree has been accredited by the Australian Psychology Accreditation Council. Graduates who have completed this program will be eligible to apply for an honours year, followed by a two-year postgraduate qualification. This sequence of study will lead to professional registration as a psychologist.

Bachelor of Psychology (Advanced)(Honours)

CRICOS code 097488B

2023 International Selection Rank 95

Duration 4 years full-time

Campus North Terrace

Indicative annual tuition fee \$43,000

Intakes February

Enquiries adelaide.edu.au/degree-finder (search *psychology*)

Are you fascinated by the human mind and how it impacts our mental health?

Psychologists develop important skills that enable them to understand their own and others' behaviour, help people, solve social problems, and critically analyse information.

What will you do?

Our Bachelor of Psychology (Advanced) (Honours) will give you the knowledge and qualities needed to kickstart your career in psychology. You will:

- solve high-level problems and analyse human behaviour
- develop listening, empathy and interviewing skills
- explore cyber-psychology, human ethics, social media and online safety
- address real-world global issues and learn how psychology can make a difference
- gain valuable experience with psychological tests and counselling
- design and undertake meaningful research projects.

Note: You must maintain a GPA of 6 to progress through this degree.

Where could it take you?

This degree will equip you with skills and knowledge about human thinking and behaviour that many different employers value, including working with children, the police, in education, health promotion, training and assessment in organisations, marketing, counselling, career guidance, research and more. You'll also be eligible to apply for Masters-level courses in Psychology that will enable you to become a registered psychologist.

Professional accreditation

This degree is conditionally accredited with the Australian Psychology Accreditation Council.

Note: This degree is only available in blended mode and on-campus attendance is required

Bachelor of Science

CRICOS code 002805B

2023 International Selection Rank 70

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$45,500

Intakes February and July (not all majors have July entry – consult the Faculty of Sciences for more information)

Prerequisites None, however Chemistry, Physics and Advanced Mathematics are prerequisites for some majors

Enquiries adelaide.edu.au/degree-finder (search *science*)

Love science but not sure which path to take?

The Bachelor of Science lets you design your own degree based on your strengths and emerging interests. From Chemistry to Palaeontology, Genetics to Geophysics we support your scientific curiosity.

Our degree is ranked best for Science in South Australia, and among the top 104 in the world*.

What will you do?

Whether you want to use your critical thinking to help drive global change or join the cutting-edge of research, our Bachelor of Science will give you the skills you need. You will:

- become an adaptable scientist as you learn the skills to evolve with one of the fastest-growing sectors
- learn from world-class researchers who are experts in their field
- develop connections in the science world through internships
- engage with new ideas through discovery and experiential learning
- develop in-depth discipline knowledge through a major
- build highly sought-after skills in communication, critical thinking and creative problem solving
- access research facilities of international significance.

You can pursue any of the following major areas of study:

- Biochemistry
- Bioinformatics
- Chemistry
- Ecology and Environmental Science
- Evolutionary Biology
- Genetics
- Geology
- Microbiology and Immunology
- Palaeontology
- Physics
- Plant Biology
- Soil Science
- Theoretical Physics.

You can also undertake a double major in:

- Chemistry (double)
- Experimental and Theoretical Physics
- Geology (Earth Resources)
- Geology (Geophysics)
- Palaeontology - Evolution
- Palaeontology - Geology
- Physics (Geophysics).

Where could it take you?

You could surround yourself with plants as botanist, work in stem cell research, take up teaching or apply your skills in the business world. You might help the public engage with science through games and apps. Perhaps you'll launch your abilities as a space entrepreneur, one of the many emerging science roles we're only just beginning to imagine.

* QS World University Rankings by subject, 2021

Bachelor of Science (Honours)

CRICOS code 0100756

2023 International Selection Rank 80

Duration 4 years full-time

Campus North Terrace

Indicative annual tuition fee \$45,500

Intakes February and July (not all majors have July entry – consult the Faculty of Sciences for more information)

Prerequisites None, however Chemistry, Physics and Advanced Mathematics are prerequisites for some majors

Enquiries adelaide.edu.au/degree-finder (search *science*)

If you haven't yet chosen an area of science to specialise in, but are sure that—once you have—you'll want to follow that path as far as it can take you, this degree's for you.

Our direct-entry Bachelor of Science (Honours) builds on our highly ranked undergraduate Science degree*.

You'll thoroughly explore your scientific curiosity before specialising, then go on to gain next-level capability and an employability edge.

What will you do?

Your first year is all about discovery. You'll investigate a number of scientific fields, before choosing a major to focus on in years two and three (see Bachelor of Science for choices).

During this time you'll enjoy the same fantastic opportunities offered to all Bachelor of Science students. That includes developing real-world connections through internships, and potentially gaining global experience with international study.

In your honours year, you'll then advance along either a disciplinary research or professional skills pathway.

The disciplinary research path is the most research-intensive. Working with a specific researcher or research group, you'll undertake a major research project, together with advanced coursework, in one of the following study areas:

- agriculture
- animal science
- chemistry
- ecology / environmental science
- environmental geoscience
- evolution and palaeobiology
- food and nutrition
- geology
- geophysics
- horticulture
- molecular and biomedical science
- physics
- plant science
- soil science
- viticulture
- wine science.

The less research-intensive professional skills path will expand your scientific knowledge and skills more broadly. You'll undertake a major industry or community-related project, along with advanced general coursework, in your choice of:

- science communication
- science education
- science innovation
- science policy
- project management.

Where could it take you?

Depending on your study choices, you could emerge well-prepared for a high-level career in a specific scientific discipline. You might provide society with critical big-picture insights as a science generalist. Or perhaps you'll aim higher still and go on to masters-level research. Wherever you want to go, you'll be well placed.

Bachelor of Science (Advanced)

CRICOS code 072659E

2023 International Selection Rank 95

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$45,500

Intakes February and July (not all majors have July entry – consult Faculty of Sciences for more information)

Prerequisites None, however Chemistry, Physics and Advanced Mathematics are prerequisites for some majors

Enquiries adelaide.edu.au/degree-finder (search *science + advanced*)

Love scientific enquiry and research? Aspire to be outstanding in your field? The Bachelor of Science (Advanced) is a distinctive vocational degree for high-achieving students who want to excel in their chosen career.

What will you do?

Our advanced degree challenges you to take your scientific training and research skills to the next level. You will:

- learn to drive scientific breakthroughs as you join a research-rich institution at the cutting edge of discovery
- dive straight into life as a researcher with early access to real-world research opportunities usually reserved for honours or postgraduate students
- link with academic mentors and staff in pioneering research areas, allowing you to establish networks before you graduate
- build a breadth of experience through lab placements and a semester-long research project
- work on further projects that can be developed for an honours year and postgraduate study (Masters or PhD).

Bachelor of Science (Advanced)(Honours)

You'll design your own degree from a broad range of scientific majors:

- Biochemistry
- Bioinformatics
- Chemistry
- Ecology and Environmental Science
- Evolutionary Biology
- Genetics
- Geology
- Microbiology and Immunology
- Palaeontology
- Physics
- Plant Biology
- Soil Science
- Theoretical Physics.

You can also undertake a double major in:

- Chemistry (double)
- Experimental and Theoretical Physics
- Geology (Earth Resources)
- Geology (Geophysics)
- Palaeontology - Evolution
- Palaeontology - Geology
- Physics (Geophysics).

Where could it take you?

You'll graduate with enhanced research and project management skills for further study or leadership roles in your chosen specialisation. You could solve global ecology challenges or win the Nobel Prize as a quantum physicist. You might spearhead an entirely new career in space entrepreneurship, genomic editing, or stem cell engineering. Perhaps you'll communicate science as an educator, politician, or legislator. Whatever you choose, you'll be prepared to lead the world.

CRICOS code 0100757

2023 International Selection Rank 95

Duration 4 years full-time

Campus North Terrace

Indicative annual tuition fee \$45,500

Intakes February and July (not all majors have July entry – consult Faculty of Sciences for more information)

Prerequisites None, however Chemistry, Physics and Advanced Mathematics are prerequisites for some majors

Enquiries adelaide.edu.au/degree-finder (search *science + advanced*)

Like the Bachelor of Science (Honours), our direct-entry Bachelor of Science (Advanced)(Honours) is ideal if you haven't yet chosen an area of science to specialise in, but—once you have—want to follow that path well beyond step one.

The program again builds on our highly ranked undergraduate Science degree*, and lets you explore your scientific curiosity before specialising. But at every stage you'll be challenged by even greater academic demands. Ultimately, you'll emerge as a clear future leader in your field.

What will you do?

Your first year is all about discovery. You'll investigate a number of scientific fields, before choosing a major to focus on in years two and three (see Bachelor of Science (Advanced) for choices).

During this time you'll enjoy the same fantastic opportunities offered to all Bachelor of Science (Advanced) students. That includes developing advanced research skills, making real-world connections through internships, and potentially gaining global experience with international study. In your honours year, you'll then advance along either a disciplinary research or professional skills pathway. The disciplinary research path is the most research-intensive.

Working with a specific researcher or research group, you'll undertake a major research project, together with advanced coursework, in one of the following study areas:

- agriculture
- animal science
- chemistry
- ecology / environmental science
- environmental geoscience
- evolution and palaeobiology
- food and nutrition
- geology
- geophysics
- horticulture
- molecular and biomedical science
- physics
- plant science
- soil science
- viticulture
- wine science.

The less research-intensive professional skills path will expand your scientific knowledge and skills more broadly. You'll undertake a major industry or community-related project, along with advanced general coursework, in your choice of:

- science communication
- science education
- science innovation
- science policy
- project management.

Where could it take you?

Depending on your study choices, you could emerge well-prepared for senior and leadership roles in a specific scientific discipline or as a science generalist, in the public or private sector. Or perhaps you'll aim higher still and go on to masters-level research. Wherever you want to go, you'll be perfectly placed.

Note: you must maintain a GPA of 5.0 or you'll be required to transfer to the Bachelor of Science (Honours).

Bachelor of Science (Animal Behaviour)

CRICOS code 097317K

2023 International Selection Rank 75

Duration 3 years full-time

Campus Roseworthy

Indicative annual tuition fee \$45,500

Intakes February and July

Enquiries adelaide.edu.au/degree-finder
(search *animal*)

Love interacting with animals? Fascinated by pets and their personalities?

Animal behaviour is psychology for the animal kingdom. It's about understanding the science behind why animals act in certain ways, how we should work with them, and how we can look after their futures. It even informs our understanding of human behaviour.

What will you do?

Explore why cat's meow, find out if parrots are smart, and play with the odd puppy or two as you build the skills to join this growing industry. You will:

- study the behaviour of animals big and small, including cats, dogs, birds, horses, livestock, wildlife and insects
- build practical skills through internship opportunities
- join a close-knit, animal-loving community at our Roseworthy campus
- learn about animal development and the biological drivers of behaviour
- explore your personal animal interests through research projects and case studies
- draw on the University's internationally recognised expertise in animal science and veterinary bioscience.

There is also a strong practical element, with opportunities for industry experience, field work and study tours.

Where could it take you?

You could consult with exotic pets, prepare greyhounds for adoption or work in animal management for local government. You might ready dogs for roles guiding the visually impaired, detecting in customs, or even comforting children with autism and anxiety. Perhaps you'll host your very own animal science show on TV.

Bachelor of Science (Animal Science)

CRICOS code 047801A

2023 International Selection Rank 80

Duration 3 years full-time

Campus Roseworthy

Indicative annual tuition fee \$45,500

Intakes February

Assumed knowledge

Chemistry and Mathematics

Enquiries adelaide.edu.au/degree-finder
(search *animal*)

We rely on animals for so much—labour, entertainment, companionship. Animal science is essential for keeping the animals under our charge housed, fed, healthy and safe.

Animal scientists research new technologies and approaches to managing animal production and welfare, develop and run breeding programs, regulate animal feed and products, and work to decrease the environmental impact of agriculture.

What will you do?

Our Bachelor of Science (Animal Science) prepares you for success in the lab and the field. You will:

- learn how to positively influence the productivity and welfare of livestock, as well as the health of pets, zoo animals and wildlife
- build practical skills with 200 hours of professional work experience
- work with a variety of species, including livestock, horses, wildlife, companion animals and laboratory animals
- join a close-knit, animal-focused community at our Roseworthy campus
- study the fundamentals of animal physiology, as you explore areas like wildlife management, nutrition and on-farm management
- draw on the University's internationally recognised expertise in animal and veterinary sciences.

Where could it take you?

You could provide farmers with ways to improve the health and welfare of livestock. Perhaps you'll get a job as a nutritionist developing diets for companion or production animals, or work in a wildlife park or zoo. You might research laboratory animal housing, or ways to detect or control diseases that affect our wildlife.

Bachelor of Science (Biomedical Science)

CRICOS code 023455A

2023 International Selection Rank 75

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$45,500

Intakes February and July (students commencing in July may have a slightly limited selection of courses)

Prerequisites Chemistry and one other subject chosen from Mathematics, Physics, Biology, Geology, Agriculture and Horticulture or Nutrition

Assumed knowledge

Mathematics, Physics (an advantage)

Enquiries adelaide.edu.au/degree-finder
(search *biomedical*)

Do you have an interest in medical biology and human health? Are you keen to discover more about human disease, from its cause and diagnosis through to novel treatments and cures?

Biomedical scientists are vitally important. They advance world-changing discoveries to improve the health and quality of people's lives.

The University of Adelaide is ranked in the top 100 in the world for Life Sciences and Medicine and best in South Australia*.

What will you do?

Our Bachelor of Science (Biomedical Science) gives you the knowledge and skills to access an emerging global sector. You will:

- learn the skills to drive the future of healthcare, from vaccine discovery to disease prevention
- gain real-world practical insights from industry lecturers and placements
- study how the body works and what happens when it fails
- explore how to stop deadly outbreaks of disease and create life-saving vaccinations
- build a vast knowledge base from simple molecules to whole organisms
- learn directly from active world-class biomedical researchers and educators.

Areas of specialisation include:

- Biochemistry
- Genetics
- Microbiology and Immunology.

Where could it take you?

You could be running a laboratory, performing cutting-edge cancer research or modifying genes for vaccines. You might design drugs for the pharmaceutical industry. Perhaps you'll work directly with patients after completing a degree in postgraduate medicine or allied health.

by Subject, 2021

Bachelor of Science (High Performance Computational Physics)(Honours)

CRICOS code 047800B

2023 International Selection Rank 80

Duration 4 years full-time

Campus North Terrace

Indicative annual tuition fee \$45,500

Intakes February

Prerequisites

Physics and Advanced Mathematics

Enquiries adelaide.edu.au/degree-finder
(search *high + physics*)

Love calculations, formulas and data enabled science? Want to solve cutting-edge problems at the forefront of physics?

Computational physics is a rapidly growing and highly interdisciplinary research area. High-performance computations are an essential part of modern research in particle physics, condensed-matter physics, astrophysics, fluid mechanics, quantum field theory, quantum chromodynamics, and plasma physics. The University of Adelaide is ranked 73rd in the world and best in Australia for physics*.

What will you do?

In our Bachelor of Science (High Performance Computational Physics) (Honours) you will:

- find answers to cutting-edge problems using high-performance computing
- learn to program parallel supercomputers using state-of-the-art computer languages
- access the University's 300-teraflop supercomputer, Phoenix
- immerse yourself in small-group discovery experiences with like-minded peers
- take core courses in physics, mathematics and computer science
- apply sophisticated computing skills to modern physics problems.

In your final-year honours program, you'll dive deep into theoretical or computational physics and physics applications. This includes specialist research projects and courses.

Where could it take you?

Your advanced computational and mathematical skills will enable you to pursue a wide range of careers, everywhere from the computer industry— including cybersecurity and defence—to physics research and investment banking.

* US News Best Global Universities, 2021

Bachelor of Science (Marine Biology)

CRICOS code 057802F

2023 International Selection Rank 75

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$45,500

Intakes February and July

Assumed knowledge

Chemistry and Mathematics

Enquiries adelaide.edu.au/degree-finder
(search *marine*)

Marine biology is the study of our planet's largest and most diverse ecosystem—the sea.

Marine biologists observe, preserve and discover ocean life, from tiny shelled creatures and thriving underwater forests to flashing squids and roving sharks.

The University of Adelaide is ranked in the top 100 in the world for Earth and Marine sciences and best in South Australia*.

What will you do?

Our Bachelor of Science (Marine Biology) has a focus on contemporary marine biology practices on both a local and global scale. You will:

- get hands-on in marine and freshwater environments
- master your expertise in the lab, then apply these techniques in the field
- learn the skills to be able to work on temperate seas—from sub-polar to sub-tropical, where there is a high demand for graduates
- explore pressing and critical issues like conservation, species protection and the effects of plastics on the ocean
- access cutting-edge technology and equipment used in pioneering research around the world
- learn from nationally and internationally acclaimed researchers
- dive into coastal management, evolutionary science and marine ecology.

Where could it take you?

You could explore future life in a high-CO2 world, dive on underwater volcanoes or lead oceanic ecotours. You might study the effects of climate change on our reefs or research the impact of microplastics in fish. Perhaps you'll make documentaries to educate the wider public or discover totally new marine species.

* QS World University Rankings by subject, 2021

Bachelor of Science (Mineral Geoscience)

CRICOS code 064433A

2023 International Selection Rank 75

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$45,500

Intakes February and July

Prerequisites Two subjects chosen from Biology, Chemistry, Geology, Mathematics, Physics, Agriculture and Horticulture or Nutrition. (Note: only one maths subject may be counted.)

Enquiries adelaide.edu.au/degree-finder
(search *mineral*)

Mineral geoscience is all about Earth's mineral resources—their nature, origin, distribution, discovery and uses.

Geoscientists explore for metallic and non-metallic deposits and find environmentally safe ways to dispose of waste materials from mining.

The University of Adelaide is ranked in the top 75 in the world for Earth Sciences and best in South Australia*.

What will you do?

Our Bachelor of Science (Mineral Geoscience) prepares you for an interesting, well-paid and diverse career in the minerals and energy sector. You will:

- get hands-on with plenty of field work and exposure to industry in this high-demand field
- learn about mining, engineering and mineral resources
- explore Earth's mineral resources - their nature, origin, distribution, discovery and uses
- see rocks in their natural habitat, study the oceans and learn how to read history from the Earth
- take integrated and extended geology, tectonics and geophysics courses.

Where could it take you?

Mineral geoscience graduates are in high demand. You might work in exploration, making the calls on where next to drill for diamonds. You could journey below the surface as an underground mine geologist. Perhaps you'll work on solutions for repairing the environmental impacts of mining.

* Academic Ranking of World Universities, 2021

Bachelor of Science (Space Science and Astrophysics)

CRICOS code 043660G

2023 International Selection Rank 75

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$45,500

Intakes February

Prerequisites Advanced Mathematics and Physics

Enquiries adelaide.edu.au/degree-finder (search *space science*)

Want to delve into the depths of our solar system? Explore the universe's most distant galaxies?

You will have access to world-leading researchers, including Nobel Prize winners and the recipient of the 2020 Prime Minister's Award for Science. The University of Adelaide is ranked 73rd in the world and best in Australia for physics.*

What will you do?

Our Bachelor of Science (Space Science and Astrophysics) places a strong emphasis on maths and physics. You will:

- work with, and learn from international researchers whose ground-breaking and award-winning discoveries are changing the way we understand our universe
- develop problem-solving skills critical to modern careers in physics, high-tech and space industries, and big data science
- have the opportunity to take part in project work with established scientists
- discover the fundamental processes which define our universe and our planet
- unravel the mysteries of space through core training in astronomy and space science
- supplement learning with other science, geoscience, and maths programs.

You'll also have opportunities to take part in project work with established scientists.

Where could it take you?

You might research star formation with a national space agency or be a planetarium director. You could forecast geomagnetic storms at the Bureau of Meteorology. Perhaps you'll work in an observatory, publish a book or host the next award-winning space documentary.

* *Best Global Universities Ranking (Physics), US News Education, 2021*

Bachelor of Science (Veterinary Bioscience)

CRICOS code 062122K

2023 International Selection Rank 90

Duration 3 years full-time

Campus North Terrace and Roseworthy

Indicative annual tuition fee \$50,000

Intakes February

Prerequisites Biology or Chemistry or Mathematics

Additional entry requirements

Applicants must complete a written questionnaire and undergo an interview (if offered). Applicants will also be required to acknowledge their understanding of the Inherent Requirements and Vaccination Guidelines. These documents can be found under 'useful links' by searching this degree on Degree Finder.

Enquiries adelaide.edu.au/degree-finder (search *veterinary*)

Veterinarians are dedicated to the wellbeing of animals. They are scientists, surgeons, carers, and lifelong learners.

Our Bachelor of Science (Veterinary Bioscience) is ranked 49th in the world for veterinary sciences* and has a Five Star Excellence in Research Australia ranking^.

What will you do?

You'll enjoy one of the smallest class sizes of any veterinary program in Australia. This means more personalised attention from our highly experienced teachers and researchers as you:

- explore the anatomy, physiology and behaviour of normal animals and identify the pathogenic organisms that attack them
- learn about animal handling and husbandry
- experience real industry settings including farms and intensive production facilities
- undertake a significant amount of hands-on animal work, starting in semester 1
- access our \$37 million purpose-built veterinary teaching and research facilities.

Where could it take you?

This is the first part of the veterinary science program. Graduates gain direct entry into the Doctor of Veterinary Medicine program. Completing both degrees makes you eligible to register as a veterinarian, where you might own a practice or travel to farms around the country treating animals. Veterinary bioscience could also lead to roles in research in equine, zoo animal or wildlife medicine. You might even work in biosecurity, managing programs to prevent disease and pollution.

Professional accreditation

The veterinary science program at the University of Adelaide has been granted accreditation by the Australasian Veterinary Boards Council (AVBC), the Veterinary Surgeons' Board of Hong Kong and the Royal College of Veterinary Surgeons (UK). This means when you graduate from your masters, you'll be eligible for registration as a veterinarian in Australia, New Zealand, South Africa, Singapore, the United Kingdom and Hong Kong.

* *QS Top University Subject Rankings - Veterinary Science, 2021*

Bachelor of Science (Wildlife Conservation Biology)

CRICOS code 088769A

2023 International Selection Rank 75

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$45,500

Intakes February and July

Enquiries adelaide.edu.au/degree-finder (search *wildlife*)

Wildlife is vanishing throughout the world. Many species will disappear during your working life.

Do you want to buck this trend and reverse imminent species loss? Our Bachelor of Science (Wildlife Conservation Biology) gives you the knowledge and skills to safeguard our ecosystems and protect the future of wildlife in crisis.

What will you do?

This degree is hands-on and prepares you to become a conservation advocate in both theory and practise. You will:

- split your time between the lab and the field as you learn to champion biodiversity conservation
- use new technology, like drones and satellites to collect data and monitor habitats
- conduct field research for real-life monitoring programs
- build valuable industry connections with organisations—from Arid Recovery and BioR in South Australia to Conservation International
- learn to identify plants and animals in natural settings
- consider the social, political and economic constraints of the field
- develop the skills to plan, execute and monitor habitat restoration programs for declining species.

Where could it take you?

Our conservation graduates go on to all sorts of exciting and rewarding careers. You might reconstruct local habitats or lead breeding programs in sanctuaries. You could monitor the movements of animals with satellite tracking and other remote techniques. Perhaps you'll work in academia, researching your passion and inspiring the next generation of conservationists.

Bachelor of Sociology

CRICOS code 096480G

2023 International Selection Rank 75

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$37,500

Intakes February and July. Students commencing in July please note some core courses, electives and language part 1 courses may only be offered in semester 1. Please contact the Faculty of Arts for help with planning your degree.

Enquiries adelaide.edu.au/degree-finder (search *arts*)

What divides us? What causes inequalities? How does the media influence our lives?

Sociology is the study of human activity in societies. It's concerned with group interactions and their consequences. It's about questioning the social world and how it fits together.

Sociologists research human experience and offer new perspectives. They explore diverse topics—from race and gender, to religion, love and war.

What will you do?

Our Bachelor of Sociology challenges you to think critically, promote positive social change and empower those in need. You will:

- identify societal trends and power structures
- debate and problem-solve around social issues
- study influential thinkers throughout history
- develop high-level research and analysis skills
- investigate areas of interest such as crime prevention, social control, globalisation, cultures and subcultures.

Where could it take you?

You'll graduate ready to make an informed and constructive difference. You might end up working as an advocate for at-risk youth. You could push to connect vulnerable groups with health and support services. Perhaps you'll advise on human rights policy or run for government yourself.

Bachelor of Speech Pathology (Honours)

CRICOS code 0101680

2023 International Selection Rank 90

Duration 4 years full-time

Campus North Terrace

Indicative annual tuition fee \$40,500

Intakes February

Prerequisites English plus one of Biology, Chemistry or Mathematics

Quotas Entry quotas apply

Enquiries adelaide.edu.au/degree-finder (search *speech pathology*)

Speech pathologists help us make use of arguably our most precious capability—communication. As humans, we are innately social, our lives revolve around connecting with others through eating, drinking, work and play. Speech pathologists help people of all ages to participate in their life and connect with others.

Talented speech pathologists are already highly sought-after, and demand is growing fast.

What will you study?

Our Bachelor of Speech Pathology (Honours) equips you to diagnose and treat conditions across the full scope of speech pathology practice; speech and language, swallowing, fluency, voice and multimodal communication. Our courses have an emphasis on inter-professional and culturally responsive practice and the degree facilitates the development of transferrable skills through real-world learning experiences.

In over 800 hours of clinical based training, you'll have the opportunity to work with children and adults of all ages in public and private health, community, disability, education and aged-care settings. With many of the courses taught by certified practicing speech pathologists, the degree places an emphasis on real-world experience.

You'll gain high-level knowledge and skills in:

- head and neck anatomy and neurophysiology
- speech and language development, linguistics and phonetics, motor speech, aphasia, cognition and swallowing
- current public health and justice system topics
- working with culturally and linguistically diverse populations, including Aboriginal and Torres Strait Islander people and communities
- evidence-based, person-centred care.

You'll regularly access our purpose-built training facilities and state-of-the-art simulation suites—among Australasia's most advanced. In addition, you'll benefit from collaborative learning with key complementary disciplines: physiotherapy and occupational therapy.

From late third year, you'll choose one of two streams—research* or industry—and undertake a major project. Research will hone your skills in developing new knowledge; industry focuses on integrating research into practice.

Where could it take you?

You'll graduate eligible to pursue a wide range of career opportunities. You could help children with disabilities or developmental delays connect with their peers by overcoming social communication challenges. You might help a person who has had a stroke regain their ability to eat and communicate, or support a patient in end of life care. Perhaps you'll enable adults with acquired or traumatic brain injuries to communicate with others, or you may work as part of a therapeutic team working towards achieving the person's goal of gaining employment.

The Bachelor of Speech Pathology (Honours) is undertaking the Qualifying Accreditation process in accordance with the accreditation procedures of the national professional body, Speech Pathology Australia.

** Entry into the research stream will be based on academic merit.*

Note: This degree is only available in blended mode and on-campus attendance is required.

Bachelor of Teaching (Secondary) with Bachelor of Arts

CRICOS code 047795E

2023 International Selection Rank 80

Duration 4 years full-time

Campus North Terrace

Indicative annual tuition fee \$41,750

Intakes February

Additional entry requirements

Applicants must complete a non-academic assessment task as part of their application to demonstrate their motivation to teach, strong interpersonal and communication skills, willingness to learn, resilience, self-efficacy, and strong organisational and planning skills like LANTITE, WWCC and RAN.

Enquiries adelaide.edu.au/degree-finder (search *teaching*)

Secondary school teachers can have a profound influence on the lives of young people. They challenge, encourage and inspire. They appreciate the Arts as vital to a well-rounded education.

Develop your digital capabilities in our eLearning Program - the first and only one of its kind for Education students in Australia. We will show you how to use your own iPad with pencil and keyboard to its full teaching potential so you can earn Apple Teacher status. You might even do your first year placement in an Apple Distinguished School. Our Bachelor of Teaching (Secondary) with Bachelor of Arts provides a unique pathway to a rewarding career.

What will you do?

You'll build deep understandings of the subjects you intend to teach, selecting from:

- Economics
- English
- Geography
- History
- Languages (Chinese, French, German, Indonesian, Italian Japanese, Modern Greek, Spanish)
- Linguistics (EAL/D)
- Legal Studies (minor only)
- Mathematics
- Media
- Music teaching[#]
- Psychology.

You'll also:

- explore educational issues, curriculum and practice relevant to the secondary years
- work with inspiring teachers and researchers
- gain professional experience and connections through extensive school placements.

Bachelor of Teaching (Secondary) with Bachelor of Mathematical and Computer Sciences

Where could it take you?

You'll graduate fully qualified to register as a secondary teacher Australia-wide. If you'd like to teach overseas, your degree will be valid in most other countries. An education background will also prove invaluable in a wide range of careers servicing communities outside of the classroom.

When applying for the music teaching major, you also need to attend and pass an audition/interview and a musicianship test. Selections are made on the basis of audition/interview scores combined with academic achievement and the musicianship test score. It is possible to audition for more than one instrument or study area if you have multiple interests/skills. Please find dates and deadlines, as well as the audition registration form, at the Elder Conservatorium of Music: arts.adelaide.edu.au/music/study/auditions/audition-requirements-by-program

CRICOS code 047797C

With many jobs of the future predicted to be in fields related to science, technology, engineering and mathematics (STEM), we need great teachers with expertise and enthusiasm for these areas.

Our Bachelor of Teaching (Secondary) with Bachelor of Mathematical and Computer Sciences prepares you to meet this demand and share vital skills with young people.

Develop your digital capabilities in our eLearning Program—the first and only one of its kind for Education students in Australia. We will show you how to use your own iPad with pencil and keyboard to its full teaching potential so you can earn Apple Teacher status. You might even do your first year placement in an Apple Distinguished School.

What will you do?

You'll specialise in Mathematics and/or Information Technology and one of the following additional learning areas:

- Accounting
- Biology
- Business Studies
- Chemistry
- Digital Technologies
- English
- Geography
- History
- Languages (Indonesian, Japanese, Chinese, French, German, Spanish, Italian, Modern Greek, EAL/D)
- Physics.

You'll also:

- work with inspiring teachers and researchers
- explore educational issues, curriculum and practice relevant to the secondary years
- gain professional experience and connections through extensive school placements.

Where could it take you?

You'll graduate fully qualified to register as a secondary teacher Australia-wide. If you'd like to teach overseas, your degree will be valid in most other countries. An education background will also prove invaluable in a wide range of careers servicing communities outside of the classroom.

Bachelor of Teaching (Secondary) with Bachelor of Music

Music in the secondary years is beneficial for young people's intellectual, emotional and social wellbeing. For some students, it becomes a key source of pride, success and joy. As a music specialist teacher in the secondary years you'll help your students hone musical skills, pursue their goals and build confidence.

What will you do?

The Bachelor of Teaching (Secondary) with Bachelor of Music is designed in collaboration with the Elder Conservatorium of Music. You will:

- work with experienced musicians, performers, teachers and researchers
- build expertise in music and an additional non-music teaching area
- explore educational issues, curriculum and practice relevant to the secondary years
- gain professional experience and connections through extensive school placements.

Where could it take you?

You'll graduate fully qualified to register as a secondary teacher Australia wide. If you'd like to teach overseas, your degree will be valid in most other countries. An education background will also prove invaluable in a wide range of careers servicing communities outside the classroom.

Bachelor of Teaching (Secondary) with Bachelor of Science

CRICOS code 047798B

2023 International Selection Rank 80

Duration 4 years full-time

Campus North Terrace

Indicative annual tuition fee \$41,750

Intakes February

Additional entry requirements

Applicants must complete a non-academic assessment task as part of their application to demonstrate their motivation to teach, strong interpersonal and communication skills, willingness to learn, resilience, self-efficacy, and strong organisational and planning skills like LANTITE, WWCC and RAN.

Great science teachers tap into young people's natural curiosity and imaginative thinking. They build a strong foundation of knowledge and inspire a spirit of discovery. With a shortage of high school science teachers in Australia, there is high demand for educators capable of shaping the next generation of scientists. The Bachelor of Teaching (Secondary) with Bachelor of Science gives you the skills to take on this stimulating and vital role.

What will you do?

You'll build deep understanding of the subjects you intend to teach, selecting from:

- Biology
- Chemistry
- Earth and Environmental Science
- Digital Technologies*
- Mathematics*
- Physics
- Psychology.

You'll also:

- explore educational issues, curriculum and practice relevant to the secondary years
- work with inspiring teachers and researchers
- gain professional experience and connections through extensive school placements.

Where could it take you?

You'll graduate fully qualified to register as a secondary teacher Australia wide. If you'd like to teach overseas, your degree will be valid in most other countries. An education background will also prove invaluable in a wide range of careers servicing communities outside the classroom.

** Students who wish to major in Mathematics or Digital Technologies must also complete a major from the Faculty of Science.*

Bachelor of Technology (Defence Industries)

CRICOS code 0100944

2023 International Selection Rank 65

Duration 3 years full-time

Campus North Terrace

Indicative annual tuition fee \$45,500

Intakes February and July

Prerequisites Mathematics

Enquiries adelaide.edu.au/degree-finder (search *defence*)

South Australia's defence industry is growing—and so is its demand for unique expertise. With many big projects in the pipeline, defence-related organisations are calling for specialists who can communicate defence-tech engineering ideas to everyone from on-the-ground operational personnel to potential commercial partners.

With our new Bachelor of Technology (Defence Industries) you'll be ready to step up.

What will you do?

Taught over three years full-time within a faculty ranked 48 in the world for computer science and engineering*, the degree leverages the University's strong industry links and world-class research. It features an emphasis on real-world experience, with two internships providing up to 760 hours of work-based training.

In addition to gaining a broad understanding of the foundations of technology, including computing, information, mathematics, and the natural and physical—you'll develop skills in evaluating and using:

- engineering methods, tools and processes in real-world defence-related contexts
- systems-thinking principles to manage and develop well-structured, maintainable and safe defence technology solutions
- AI and automation technologies (Industry 4.0)
- data analytics and cyber security applications
- mechatronics and electrical principles
- advanced critical thinking and interpersonal communication.

In third-year, you'll also have the opportunity to build deep knowledge in:

- defence procurement and logistics
- systems engineering, including maritime engineering
- human factors and societal studies.

Where could it take you?

You could support defence-related technology development and management anywhere in the world. From advanced radar equipment R&D to submarine fit-outs; from Landing Helicopter Dock ship upgrades to Joint Strike Fighter through-life support.

Bachelor of Veterinary Technology

CRICOS code 0100494

2023 International Selection Rank 80

Duration 3 years full-time

Campus Roseworthy

Indicative annual tuition fee \$47,500

Intakes February

Assumed knowledge Mathematics

Enquiries adelaide.edu.au/degree-finder (search *veterinary*)

Also known as Allied Veterinary Professionals, veterinary technologists play a vital role in modern animal welfare. As well as providing high-level, hands-on veterinary care, including being a part of the anaesthesia, surgery and diagnostic imaging team, they oversee the application of cutting-edge new veterinary technology. Data-driven apps, wearable devices, telemedicine—a steady stream of advanced new tools is reimagining what's possible in the clinical environment. As a veterinary technologist, you can ensure it delivers maximum benefit to animals' health and wellbeing.

What will you do?

Our Bachelor of Veterinary Technology is part of the University's world-top-50 suite of veterinary science and veterinary-related degrees*. Studied over three years full-time, it will give you:

- high-level knowledge and practical skills in caring for all kinds of animals—from cats, dogs and horses, to farm animals, wildlife and exotic pets
- the ability to operate state-of-the-art veterinary technologies
- knowledge and training in the use of anaesthetic and analgesic drugs
- deep knowledge of animal diseases, including those threatening humans and the concept of One Health
- extensive hands-on clinical experience
- regular access to our world-class, \$37 million Veterinary Health Centre and Veterinary Skills Simulation suite.

Building on your core education, in third-year you'll also have the opportunity to select an area of special interest (Track) which will extend your knowledge and experience in your chosen field. And, you'll collaborate with Veterinary Bioscience and Doctor of Veterinary Medicine students throughout the degree, reflecting real-world workplace interactions.

Where could it take you?

You'll graduate with industry skills ready to provide high-level animal-care roles in a wide range of industry settings. You could join the health care team oversee imaging or anaesthesia services for in an emergency veterinary hospital or general practice clinic, or even own a veterinary practice. You might seek animal care and welfare roles in an open-range zoo or Government departments. Perhaps work in biosecurity or emergency-response fields, or provide public education in the areas of animal health and welfare. You could even support important animal research, or—with further study—lead it yourself. The employment opportunities are broad and rewarding.

Please note: This program is not a pathway to the Bachelor of Science (Veterinary Bioscience) or becoming a registered veterinarian.

Note: To ensure the best educational experience, offers of admission for this degree are not currently being extended to commencing remote students.

* *QS Top University Subject Rankings - Veterinary Science (2021)*

Bachelor of Viticulture and Oenology

CRICOS code 068885G

2023 International Selection Rank 75

Duration 4 years full-time

Campus Waite

Indicative annual tuition fee \$46,000

Intakes February and July

Assumed knowledge

Chemistry and Mathematics

Enquiries adelaide.edu.au/degree-finder (search *viticulture + oenology*)

Great wine is central to South Australia's identity. In fact, Adelaide is one of the great wine capitals of the world with over 200 cellar doors within an hour of the CBD.

70 percent of Australian wine research happens at the University of Adelaide's Waite campus. Our winemakers are innovators and cultural leaders within a sector helping drive the nation's economy.

What will you do?

Our Bachelor of Viticulture and Oenology teaches best-practice techniques for growing wine grapes and making wine. You will:

- get your hands dirty in our on-campus vineyard and learn to make wine at Australia's largest teaching winery
- build practical skills through an industry placement in viticulture and/or oenology
- study at the largest agricultural teaching and research precinct in the Southern Hemisphere
- learn from more than 150 researchers and partners in wine and grape science
- access cutting-edge research at the Australian Research Council Training Centre for Innovative Wine Production.

There are also opportunities to study and gain experience overseas.

Where could it take you?

You'll graduate as a fully trained winemaker or viticulturist. You could manage your own winery or vineyard. You might work with the latest technologies to develop innovations and efficiencies in related industries. Perhaps you'll focus on sustainable and natural practices, building an organic, biodynamic or solar-powered future for the wine industry.

Summary of 2023 undergraduate

Academic program	Page	Intake	Indicative annual tuition fee (AUD)	Prerequisites ¹	Assumed knowledge	ATAR	General Certificate of Education (GCE) Advanced Level 3	HKDSE ⁴
Bachelor of Agricultural Sciences	93	Feb, Jul	\$45,500	None specified	Chemistry and Mathematics	70	6	17
Bachelor of Applied Data Analytics	93	Feb, Jul	\$45,500	Mathematics (Physics or Advanced Mathematics are prerequisites for some first year courses)		70	6	17
Bachelor of Architectural Design ¹⁷	93	Feb, Jul	\$42,000	None specified		75	7	18
Bachelor of Arts	94	Feb, Jul ²	\$37,500	None specified		70	6	17
Bachelor of Arts (Advanced)	94	Feb, Jul ²	\$37,500	None specified		95	13	23
Bachelor of Biotechnology	95	Feb, Jul ²	\$45,500	None specified	Physics, Mathematics and Chemistry	75	7	18
Bachelor of Biotechnology (Honours)	95	Feb, Jul ²	\$45,500	None specified	Physics, Mathematics and Chemistry	75	7	18
Bachelor of Business	96	Feb, Jul	\$46,000	None specified		73	7	18
Bachelor of Commerce	96	Feb, Jul	\$46,000	None specified		75	7	18
Bachelor of Computer Science	96	Feb, Jul ²	\$47,000	Mathematics		70	6	17
Bachelor of Computer Science (Advanced)	97	Feb, Jul ²	\$47,000	Mathematics		95	13	23
Bachelor of Construction Management	97	Feb, Jul	\$45,500	None specified		70	6	17
Bachelor of Construction Management (Honours)	98	Feb, Jul	\$45,500	None specified		75	7	18
Bachelor of Creative Arts	98	Feb, Jul	\$37,500	None specified		70	6	17
Bachelor of Criminology	99	Feb, Jul ²	\$37,500	None specified		75	7	18
Bachelor of Dental Surgery ^{18, 21}	99	Feb	\$87,500	Two science subjects: One from Chemistry, Mathematics or Physics and one from Biology, Chemistry, Geology or Physics.	High proficiency in the written and oral use of the English language.	90	12	22
Bachelor of Economics	99	Feb, Jul	\$43,500	None specified		70	6	17
Bachelor of Economics (Advanced)	100	Feb, Jul	\$43,500	None specified		95	13	23
Bachelor of Engineering (Honours) - Flexible Entry	100	Feb	\$48,500	Advanced Mathematics and Physics		80	9	19
Bachelor of Engineering (Honours) (Architectural and Structural)	100	Feb, Jul ²	\$48,500	Advanced Mathematics and Physics		80	9	19
Bachelor of Engineering (Honours)(Chemical)	101	Feb, Jul ²	\$48,500	Advanced Mathematics and Physics		80	9	19
Bachelor of Engineering (Honours)(Civil)	101	Feb, Jul ²	\$48,500	Advanced Mathematics and Physics		80	9	19

Notes

- Additional note for international students undertaking an Australian Year 12 qualification: students will be required to meet specific prerequisites including passing a designated English subject. Refer to satac.edu.au for more information.
- Students commencing in July may have a slightly limited selection of courses.
- A Level results are calculated on the aggregate score from three A Level subjects where A*=6, A=5, B=4, C=3, D=2, E=1 for A Level subjects. General Paper or language subject in the applicant's first language are excluded from the calculation.
- HKDSE results are calculated on the aggregate score of five subjects where 5**= 6, 5*=5.5, 5=5, 4=4, 3=3. Category B and C subjects may not be used to calculate an entry score.
- Best five subjects excluding language subjects. Students must achieve numerical score lower than that listed, UEC grades A1=1, A2=2, B3=3, B4=4, B5=5, B6=6, C7=7, C8=8.
- Entry scores for 2023 will be finalised in August 2022, and are subject to change. In the meantime, applicants can use the entry scores for 2022 as a guide to future requirements.
- Average of best six subjects.
- Indian School Certificate (ISC) and Central Board of Secondary Education (CBSE) – Senior School Certificate Examination. Best three subjects, excluding language and non-academic subjects.
- Best three subjects, excluding language and non-academic subjects. Acceptable State Board Examinations: Maharashtra, Karnataka, Andhra Pradesh, Tamil Nadu, Telangana.
- SAT undertaken after March 2016 - Aggregate of Evidence Based Reading and Writing and Mathematics scores in conjunction with American High School Diploma.

11. AP results are calculated on the aggregate numeric score of 3 AP subjects in conjunction with an American High School Diploma.
12. Indonesia SMA3 (Graduate Certificate of Completion)
13. Successful completion of Matayom 6 (Certification of Secondary Education). GPA on a 4 point scale where A=4, B=3, C=2, D=1, F=0.
14. Average of best three subjects. General Studies excluded.
15. Specific selection criteria (audition) applies in addition to academic performance in Year 12.
16. Not all disciplines have July entry.
17. Mid-year entry students will be required to enrol in Summer School (Jan to Feb) in order to complete the program within the three year duration.
18. Other non-academic criteria may apply.

19. Strict quotas apply. The standard cut-off is the minimum academic threshold, above which applicants will be ranked on merit.
20. Students commencing in July must undertake Maths 1B in Summer School.
21. Other selection criteria (test/interview assessment) apply in addition to academic performance. Strict quotas apply. The standard cut-off is the minimum academic threshold, above which applications will be ranked on merit. In addition to academic performance, other selection criteria may affect merit ranking. Please refer to full entry on program page.
22. Applicants must also complete a written questionnaire and if successful, undergo an interview process.
23. Applicants must have South Australian Certificate of Education (SACE) or equivalent and Audition/ Interview and Musicianship test.

- A Level results are calculated on the aggregate score from three A Level subjects where A*=6, A=5, B=4, C=3, D=2, E=1 for A Level subjects. General Paper or language subject in the applicant's first language are excluded from the calculation.
- HKDSE results are calculated on the aggregate score of five subjects where 5**= 6, 5*=5.5, 5=5, 4=4, 3=3. Category B and C subjects may not be used to calculate an entry score.
- Best five subjects excluding language subjects. Students must achieve numerical score lower than that listed, UEC grades A1=1, A2=2, B3=3, B4=4, B5=5, B6=6, C7=7, C8=8.
- Entry scores for 2023 will be finalised in August 2022, and are subject to change. In the meantime, applicants can use the entry scores for 2022 as a guide to future requirements.
- Average of best six subjects.
- Indian School Certificate (ISC) and Central Board of Secondary Education (CBSE) – Senior School Certificate Examination. Best three subjects, excluding language and non-academic subjects.
- Best three subjects, excluding language and non-academic subjects. Acceptable State Board Examinations: Maharashtra, Karnataka, Andhra Pradesh, Tamil Nadu, Telangana.
- SAT undertaken after March 2016 - Aggregate of Evidence Based Reading and Writing and Mathematics scores in conjunction with American High School Diploma.

11. AP results are calculated on the aggregate numeric score of 3 AP subjects in conjunction with an American High School Diploma.
12. Indonesia SMA3 (Graduate Certificate of Completion)
13. Successful completion of Matayom 6 (Certification of Secondary Education). GPA on a 4 point scale where A=4, B=3, C=2, D=1, F=0.
14. Average of best three subjects. General Studies excluded.
15. Specific selection criteria (audition) applies in addition to academic performance in Year 12.
16. Not all disciplines have July entry.
17. Mid-year entry students will be required to enrol in Summer School (Jan to Feb) in order to complete the program within the three year duration.
18. Other non-academic criteria may apply.

19. Strict quotas apply. The standard cut-off is the minimum academic threshold, above which applicants will be ranked on merit.
20. Students commencing in July must undertake Maths 1B in Summer School.
21. Other selection criteria (test/interview assessment) apply in addition to academic performance. Strict quotas apply. The standard cut-off is the minimum academic threshold, above which applications will be ranked on merit. In addition to academic performance, other selection criteria may affect merit ranking. Please refer to full entry on program page.
22. Applicants must also complete a written questionnaire and if successful, undergo an interview process.
23. Applicants must have South Australian Certificate of Education (SACE) or equivalent and Audition/ Interview and Musicianship test.

Academic program	Page	Intake	Indicative annual tuition fee (AUD)	Prerequisites ¹	Assumed knowledge	ATAR	General Certificate of Education (GCE) Advanced Level 3	HKDSE ⁴

Glossary

Advanced standing Also known as status/credit/exemptions. The value assigned for the recognition of equivalence in content and learning outcomes between different types of learning and/or qualifications. Credit reduces the amount of learning required to achieve a qualification and may be through credit transfer, articulation or recognition of prior learning.

Articulation agreement A formal agreement between the University and a third party that enables students to progress from completed qualification to another with credit in a defined pathway.

Assumed knowledge Knowledge that is assumed a student will have before commencing a course. Teaching in a course will proceed on the assumption that students enrolled in the course have such knowledge.

Bachelor degree An undergraduate qualification gained after a minimum of three years full-time study. A bachelor degree is made up of a range of core (compulsory) courses and elective courses, usually delivered via lectures and tutorials.

Campus The grounds of a university or other institution of higher education.

Combined degree A combined degree allows students to complete the requirements of two degrees in less time than when completed separately. Successful completion results in the award of a single parchment listing the combined degrees. A student may not graduate until the requirements for both degrees have been met.

Confirmation of Enrolment The document sent by the University after receipt of the tuition fee deposit. May be used as proof of student status to apply for a student visa.

Core course Courses that are required for the completion of a program and/or a major.

Course A component of study of an academic program assigned a unit value.

Coursework program A degree structured around particular courses, usually delivered via lectures and tutorials.

CRICOS Commonwealth Register of Institutions and Courses for Overseas Students.

DHA Department of Home Affairs.

Diploma Some schools in the University offer diplomas, which usually consist of 1-2 years of full-time coursework, delivered via lectures and tutorials.

Discipline A field or area of study, e.g. engineering, architecture, nursing.

Double degree A double degree allows students to complete the requirements of two degrees in less time than when completed separately. Successful completion results in the award of two degrees with separate parchments. A student may graduate from each degree as soon as the requirements for each

degree have been met. For example: Bachelor of Engineering (Chemical) with Bachelor of Arts.

Elective course A non-compulsory subject that may be chosen as part of a program of study.

Exchange agreement Study at another university with which the University of Adelaide has an exchange agreement, and that is concurrent with the applicant's enrolment in a program offered by the University.

Extra admission requirements Requirements, in addition to the specified qualifications, needed for a student to be accepted into a particular degree, e.g. audition, interview, portfolio submission, University Clinical Aptitude Test.

Full-time study A standard full-time study load consists of 24 units per academic year, and 12 units per semester. The University and the DHA considers a 75% study load (9 units per semester or trimester) a full-time load. While international students can enrol in a 75% study load, this isn't recommended as it may result in them not completing their degree within the standard duration. International students are required by DHA to complete within the duration specified on their Confirmation of Enrolment.

Faculty An academic branch in the University, consisting of various schools, e.g. the Faculty of Health and Medical Sciences.

GEAP (General English for Academic Purposes) A course for students looking to improve their English for a variety of reasons, such as to assist with future study or their career. GEAP by itself is not a direct entry pathway to undergraduate or postgraduate study at the University of Adelaide.

Honours A one-year full-time (or equivalent part-time) program that allows students to consolidate learning from their undergraduate studies by undertaking research and a thesis.

IELTS (International English Language Testing System) An internationally recognised UK-based test for English language assessment, essential for student visa requirements.

Indicative annual tuition fee The indicative annual tuition fee quoted in this prospectus is based on the standard full-time enrolment load of 24 units per year or 12 units per semester. These fees cover the cost of teaching and the cost of student support services. The quoted fee is reviewed on a yearly basis. Prospective students should be aware that their fees may increase each year and that they are liable for these fees upon acceptance of their offer. Each student will be advised of their fee schedule in their offer of admission to the University. Fees may vary depending on enrolment load, e.g. if students 'overload' or 'underload', fees may be increased or decreased accordingly. All fees listed are in Australian dollars (AUD\$).

Lecture Oral and audio-visual presentations designed to convey critical information and theories.

Level This refers to the level of study of a course. Level I, II, III, IV are the first, second, third and fourth year (where relevant) of a bachelor degree respectively. Level IV courses may also be honours courses. Level V, VI and VII courses indicate postgraduate coursework courses. In most instances the first digit of the four digit number of the catalogue number indicates the level of the course (eg. 1109 is a Level I course whilst 2092 is a Level II course).

Major sequence Coherent bodies of study, usually in a single discipline in a Bachelor degree.

OSHC (Overseas Student Health Cover)

Compulsory health insurance that provides basic and emergency health cover. It is an essential requirement for international students to obtain a student visa.

Part-time study Any study load that is less "than 75%, or 18 units a year. Note that under current student visa regulations, part-time study is not recommended for international students as they are required by the DHA to complete within the specified duration of their Confirmation of Enrolment.

PEP (Pre-enrolment English Program)

A direct entry pathway English language program for students who have not met the entry requirements for their chosen award program.

Prerequisites Courses that must be successfully completed before another course may be undertaken.

Program An approved combination of courses and other requirements (where relevant) in which a student is enrolled which, when completed, leads to the conferral of an award.

Selection rank A score that is given to a degree and used as part of the admissions process.

Semester The standard length of an individual course. University courses are usually taught in two semesters: semester 1, from February/March until late June, and semester 2, from July/August until November.

Seminar A small class similar to a tutorial, involving presentations by students.

TOEFL (Test of English as a Foreign Language)

An internationally recognised US-based English language test.

Trimester Trimesters are compressed study periods which usually run from late January to May, May to August and September to November. (Note: Melbourne campus trimesters run slightly different timeline.)

Tutorial Small, weekly classes led by a tutor or lecturer, where students discuss issues relevant to a particular course.

Unit Numeric values assigned to an individual course, reflective of student workload.

Kaurna acknowledgement

We acknowledge and pay our respects to the Kaurna people, the original custodians of the Adelaide Plains and the land on which the University of Adelaide's campuses at North Terrace, Waite, and Roseworthy are built. We acknowledge the deep feelings of attachment and relationship of the Kaurna people to country and we respect and value their past, present and ongoing connection to the land and cultural beliefs. The University continues to develop respectful and reciprocal relationships with all Indigenous peoples in Australia, and with other Indigenous peoples throughout the world.
